

Excise Tariff Act 1921

No. 26, 1921

Compilation No. 56A

Compilation date: 1 August 2025

Includes amendments: Act No. 36, 2026

Prepared by the Office of Parliamentary Counsel, Canberra

About this compilation

This compilation

This is a compilation of the *Excise Tariff Act 1921* that shows the text of the law as amended and in force on 1 August 2025 (the *compilation date*).

The notes at the end of this compilation (the *endnotes*) include information about amending laws and the amendment history of provisions of the compiled law.

Uncommenced amendments

The effect of uncommenced amendments is not shown in the text of the compiled law. The details of amendments made up to, but not commenced at, the compilation date are underlined in the endnotes. Any uncommenced amendments affecting the law are accessible on the Register (www.legislation.gov.au).

Application, saving and transitional provisions

If the operation of a provision or amendment of the compiled law is affected by an application, saving or transitional provision that is not included in this compilation, details are included in the endnotes.

Editorial changes

For more information about any editorial changes made in this compilation, see the endnotes.

Presentational changes

The *Legislation Act 2003* provides for First Parliamentary Counsel to make presentational changes to a compilation. Presentational changes are applied to give a more consistent look and feel to legislation published on the Register, and enable the user to more easily navigate those documents.

Modifications

If the compiled law is modified by another law, the compiled law operates as modified but the modification does not amend the text of the law. Accordingly, this compilation does not show the text of the compiled law as modified. Any modifications affecting the law are accessible on the Register.

Self-repealing provisions

If a provision of the compiled law has been repealed in accordance with a provision of the law, details are included in the endnotes.

An Act relating to Duties of Excise

1 Short title

This Act may be cited as the *Excise Tariff Act 1921*.

1A General administration of Act

The CEO has the general administration of this Act.

2 Certain Acts to be read as one with this Act

The *Excise Act 1901*, the *Petroleum Revenue Act 1985* and the *Petroleum Excise (Prices) Act 1987* shall be read as one with this Act.

3 Definitions

(1) In this Act, unless the contrary intention appears:

area includes:

- (a) a part of the surface of the earth and the subsoil beneath that part; and
- (b) a part of the surface of the earth and a part of the subsoil beneath that part.

biodiesel means mono-alkyl esters of fatty acids of a kind used as a fuel, derived from animal or vegetable fats or oils whether or not used.

blended tobacco goods has the meaning given by subsection 6AAC(1).

CEO means the Commissioner of Taxation.

delayed-entry oil means stabilised crude petroleum oil or condensate (other than oil or condensate in respect of which subitem 20.1 or 21.1 of the Schedule applies) produced from a

prescribed source, but not entered for home consumption, before the operative day for that source.

delayed-entry oil rate, in relation to delayed-entry oil, has the meaning given by section 6E.

diesel does not include biodiesel.

exempt offshore area means a production area, within the meaning of section 5B:

- (a) that is outside the outer limits of the territorial sea of Australia; and
- (b) that is not, and has not been, a prescribed source.

exempt offshore condensate means condensate that is included in exempt offshore oil and condensate.

exempt offshore field means a field:

- (a) that is prescribed by By-law; and
- (b) that consists of, or encompasses, an exempt offshore area or 2 or more exempt offshore areas.

exempt offshore oil means stabilised crude petroleum oil that is included in exempt offshore oil and condensate.

exempt offshore oil and condensate means the first 4767.3 megalitres of:

- (a) if a particular exempt offshore field produces stabilised crude petroleum oil and condensate—the stabilised crude petroleum oil and condensate that is produced from the field; or
- (b) if a particular exempt offshore field produces either stabilised crude petroleum oil or condensate (but not both)—the stabilised crude petroleum oil or condensate (as the case requires) that is produced from the field;

being a field from which neither petroleum oil nor condensate was produced before 1 July 1987.

exempt oils and hydraulic fluids means goods described in subsection (6).

exempt onshore condensate means condensate that is included in exempt onshore oil and condensate.

exempt onshore oil means stabilised crude petroleum oil that is included in exempt onshore oil and condensate.

exempt onshore oil and condensate means:

- (a) if a particular onshore field produces stabilised crude petroleum oil and condensate—stabilised crude petroleum oil and condensate produced from the field after 30 June 1987 that is included in the first 4767.3 megalitres of stabilised crude petroleum oil and condensate produced from the field before, on or after 30 June 1987; or
- (b) if a particular onshore field produces stabilised crude petroleum oil but not condensate—stabilised crude petroleum oil produced from the field after 30 June 1987 that is included in the first 4767.3 megalitres of stabilised crude petroleum oil produced from the field before, on or after 30 June 1987; or
- (c) if a particular onshore field produces condensate but not stabilised crude petroleum oil—condensate produced from the field after 30 June 1987 that is included in the first 4767.3 megalitres of condensate produced from the field before, on or after 30 June 1987.

fuel oil means a petroleum product, whether obtained through a process of blending or otherwise, that has the physical characteristics described in subsection (4).

installation means a subsea installation, for the production of petroleum oil or condensate, that is connected to a fixed platform, a floating production system or any other petroleum collection system.

intermediate area means an area declared by the Resources Minister, by notice in writing published in the *Gazette*, to be an

Section 3

intermediate area for the purposes of this Act, being an area that contains at least one old accumulation but that does not contain a relevant accumulation which was developed before 23 October 1984.

intermediate oil means stabilized crude petroleum oil (other than new oil, delayed-entry oil or oil in respect of which subitem 20.1 of the Schedule applies) produced from an intermediate area.

liquefied petroleum gas means:

- (a) liquid propane; or
- (b) a liquid mixture of propane and butane; or
- (c) a liquid mixture of propane and other hydrocarbons that consists mainly of propane; or
- (d) a liquid mixture of propane, butane and other hydrocarbons that consists mainly of propane and butane.

new oil means stabilized crude petroleum oil (other than delayed-entry oil or oil in respect of which subitem 20.1 of the Schedule applies) produced from:

- (a) a relevant accumulation that was discovered on or after 18 September 1975 and before 1 July 1983 by drilling a well that was classified by the Minister, for the purposes of Excise By-law No. 78, as:
 - (i) a new field discovery; or
 - (ii) a new pool (pay) discovery; or
 - (iii) a deeper-pool discovery; or
 - (iv) a shallower-pool discovery;subsequent to a determination of the well type by the relevant Energy Minister after drilling and before 1 July 1983; or
- (b) a relevant accumulation that was discovered on or after 18 September 1975 and before 1 July 1983 by drilling a well that was not determined by the relevant Energy Minister before 1 July 1983 to be a well of any particular type; or
- (c) a relevant accumulation that was discovered on or after 1 July 1983.

oil producing region:

- (a) has the same meaning as in the *Petroleum Excise (Prices) Act 1987*; and
- (b) includes:
 - (i) a production area within the meaning of section 5B, being an area from which condensate is obtained and that is prescribed by the regulations as an oil producing region; or
 - (ii) 2 or more production areas within the meaning of that section from which condensate is obtained, being areas that are together so prescribed.

Note: Part 1A of the *Petroleum Excise (Prices) Act 1987* gives that Act operation in relation to condensate in addition to its operation in relation to stabilised crude petroleum oil. Paragraph (b) of this definition ensures that the definition covers production areas from which condensate is obtained.

old accumulation means a relevant accumulation that was discovered before 18 September 1975.

onshore field means a field:

- (a) that is prescribed by By-law; and
- (b) that consists of, or encompasses, a production area (within the meaning of section 5B), or 2 or more production areas, that:
 - (i) is in a State or Territory or inside the outer limits of the territorial sea of Australia; and
 - (ii) is not, and has not been, a prescribed source.

operative day, in relation to a prescribed source, means the 1 July that is the day prescribed petroleum produced from that source on or after which is exempt from Excise duty because of the *Petroleum Revenue Act 1985*.

platform means a platform for the production of petroleum oil or condensate.

pre-operative year, in relation to a prescribed source, means the financial year immediately preceding the operative day for that source.

prescribed source means:

- (a) a prescribed production area within the meaning of section 6B; or
- (b) a prescribed new production area within the meaning of section 6C; or
- (ba) a prescribed condensate production area within the meaning of section 6CA; or
- (c) a prescribed intermediate production area within the meaning of section 6D;

prescribed petroleum produced from which after 1 July in a particular year is exempt from Excise duty because of the *Petroleum Revenue Act 1985*.

relevant accumulation means a naturally occurring discrete accumulation of oil, of gas, or of both.

relevant Energy Minister means:

- (a) on and after 18 September 1975 and before 5 October 1976—the Minister for Minerals and Energy; and
- (b) on and after 5 October 1976 and before 20 December 1977—the Minister for National Resources; and
- (c) on and after 20 December 1977 and before 8 December 1979—the Minister for National Development; and
- (d) on and after 8 December 1979 and before 11 March 1983—the Minister for National Development and Energy; and
- (e) on and after 11 March 1983 and before 1 July 1983—the Minister for Resources and Energy.

Resource Rent Tax area means an area that, for the purposes of the *Petroleum Resource Rent Tax Assessment Act 1987*, is:

- (a) the exploration permit area of an exploration permit other than one of the North West Shelf exploration permits; or

- (b) the retention lease area of a retention lease that is related to an exploration permit other than one of the North West Shelf exploration permits; or
- (c) the production licence area of a production licence that is related to an exploration permit other than one of the North West Shelf exploration permits.

Statistician means the Australian Statistician.

- (2) For the purposes of this Act, a relevant accumulation shall be taken to be developed when petroleum, within the meaning of section 5B, is recovered from the accumulation for the purpose of:
 - (a) the sale of the petroleum; or
 - (b) the production from the petroleum of a product for sale.
- (3) Without affecting the meaning of any reference to a month in any other provision of this Act or in any other Act, a reference in section 6AB, 6B, 6C, 6CA, 6D or 6E to a month is a reference to one of the 12 months of a calendar year.
- (4) The physical characteristics of fuel oil are:
 - (a) a density equal to or greater than 920.0 kg/cubic metre at 15 degrees Celsius as determined by either ASTM D1298 or ASTM D4052; and
 - (b) a carbon residue, on the whole sample, of at least 2.0 percent mass as determined by ASTM D189 (Conradson Carbon Residue) or by ASTM D4530 (Carbon Residue-Micro Method); and
 - (c) a minimum kinematic viscosity of 10 centistokes (millimetres squared per second) at 50 degrees Celsius as determined by ASTM D445.
- (5) In subsection (4), a reference to ASTM followed by a number is a reference to a test so numbered as prescribed by the American Society for Testing and Materials and set out in Section 5 of the *Annual Book of ASTM Standards* (1986 revision) published in 1986 by the American Society for Testing and Materials at Philadelphia, Pennsylvania in the United States of America.

Section 3A

- (6) Exempt oils and hydraulic fluids are:
- (a) food grade white mineral oil that complies with:
 - (i) Sec. 21 CFR 172.878 of Title 21, Volume 1 of the United States Code of Federal Regulations (regulations made by the Food and Drug Administration of the United States); and
 - (ii) Sec. 21 CFR 178.3620 (a) of Title 21, Volume 1 of the United States Code of Federal Regulations (regulations made by the Food and Drug Administration of the United States); and
 - (b) polyglycol brake fluids that meet the requirements of Australian Standard AS 1960.1—2005 *Motor vehicle brake fluids—Non-petroleum type*; and
 - (c) aromatic process oils that meet all of the criteria in the following table:

Column 1 Property	Column 2 Test Method	Column 3 Value
Density at 15°C	ASTM D1298 or D4502	0.9gm/cm ³ minimum
Aniline point	ASTM D611	70°C maximum
Refractive index at 20°C	ASTM D1298 or D1747	1.490 minimum
Pour point	ASTM D97	-9°C minimum
Viscosity index	ASTM D2270	80 maximum

3A Ministerial guidelines relating to fields

- (1) The Resources Minister may, by legislative instrument signed by the Minister, make guidelines to be taken into account by the CEO in making By-laws prescribing a field for the purposes of the definition of *onshore field* or *exempt offshore field*.
- (2) In making By-laws for a purpose described in subsection (1), the CEO must have regard to the guidelines in force at the time.

4 Time of imposition of Duties of Excise

The time of imposition of the Duties of Excise imposed by this Act is the twenty-fifth day of March, One thousand nine hundred and twenty at nine o'clock in the forenoon reckoned according to the standard time in the State of Victoria, and this Act shall be deemed to have come into operation at that time.

5 Duties of Excise

- (1) The Duties of Excise specified in the Schedule are hereby imposed in accordance with the Schedule, as from the time of the imposition of such duties or such later dates as are mentioned in the Schedule in regard to any particular items, and such duties shall be deemed to have been imposed at such time or dates, and shall be charged, collected, and paid to the use of the King for the purposes of the Commonwealth, on the following goods, namely:
 - (a) all goods dutiable under the Schedule and manufactured or produced in Australia after the time or dates when such duties are deemed to have been imposed; and
 - (b) all goods dutiable under the Schedule and manufactured or produced in Australia before the time or dates when such duties are deemed to have been imposed, and which were at that time or those dates subject to the CEO's control, or in the stock, custody, or possession of, or belonging to, any distiller or manufacturer thereof, and on which no duty of Excise had been paid before the time or dates when such duties are deemed to have been imposed.

Note: Sections 6A and 6AA effectively change certain rates of duty that appear on the face of the Schedule.

- (2) Where a section of another Act, whether passed before or after the commencement of this subsection, amends the Schedule to this Act, then, unless the contrary intention appears:
 - (a) that section imposes duties of Excise in accordance with the Schedule as so amended;

Section 5B

- (b) where that section comes, came, or is deemed to have come, into operation on a particular day, the duties of Excise so imposed shall be charged, collected and paid:
 - (i) on all goods dutiable under the Schedule, as amended and in force on that day, and manufactured or produced in Australia on or after that day; and
 - (ii) on all goods dutiable under the Schedule, as amended and so in force, and manufactured or produced in Australia before that day, being goods:
 - (A) that, on that day, were subject to the CEO's control, or, on that day, were in the stock, custody or possession of, or belonged to, a manufacturer or producer of the goods; and
 - (B) on which no duty of Excise had been paid before that day; and
- (c) where that section comes, came, or is deemed to have come, into operation at a particular time, the duties of Excise so imposed shall be charged, collected and paid:
 - (i) on all goods dutiable under the Schedule, as amended and in force at that time, and manufactured or produced in Australia at or after that time; and
 - (ii) on all goods dutiable under the Schedule, as amended and in force at that time, and manufactured or produced in Australia before that time, being goods:
 - (A) that, at that time, were subject to the CEO's control, or, at that time were in the stock, custody or possession of, or belonged to, the manufacturer or producer of the goods; and
 - (B) on which no duty of Excise had been paid before that time.

5B Petroleum

- (1) In this section:

petroleum means petroleum oil or petroleum gas and includes condensate or liquid petroleum gas.

prescribed petroleum means petroleum other than stabilized oil.

production area means:

- (a) a prescribed production area within the meaning of section 6B; or
- (b) a prescribed new production area within the meaning of section 6C; or
- (ba) a prescribed condensate production area within the meaning of section 6CA; or
- (c) a prescribed intermediate production area within the meaning of section 6D.

stabilized oil means stabilized crude petroleum oil.

- (2) Subject to subsections (3) and (3A), for the purposes of this Act, where a mixing of 2 or more kinds of petroleum has occurred and the resulting mixture takes on the essential character of petroleum of one of those kinds (in this subsection referred to as ***petroleum of the principal kind***), the petroleum in the mixture shall be deemed to be petroleum of the principal kind.
- (3) For the purposes of this Act, where a person enters for home consumption a mixture of, or obtained from, stabilized oil and prescribed petroleum (other than condensate), the petroleum in the mixture shall be deemed to be stabilized oil.

Note: A mixture of, or obtained from, stabilized oil and condensate is covered by subsection (2).
- (3A) For the purposes of this Act, if a person enters for home consumption a mixture of, or obtained from, condensate and prescribed petroleum, the petroleum in the mixture is taken to be condensate.

Note: A mixture of, or obtained from, stabilized oil and condensate is covered by subsection (2).
- (4) For the purposes of this Act, where stabilized oil or condensate is obtained from prescribed petroleum produced from a particular production area, that oil or condensate (as the case requires) shall be taken to have been produced from that production area.

Section 6A

- (4A) For the purposes of this Act, where stabilized oil or condensate is obtained from prescribed petroleum produced from a Resource Rent Tax area, that oil or condensate (as the case requires) shall be taken to have been produced from that area.
- (5) For the purposes of this Act, where a quantity of stabilized oil consists of oil obtained from prescribed petroleum produced from different production areas:
- (a) the prescribed petroleum produced from each of those production areas shall be deemed to have resulted in the production of a discrete part of that quantity of stabilized oil; and
 - (b) the part of that quantity of stabilized oil that is to be taken to have been obtained from prescribed petroleum produced from such a production area is so much of that quantity of stabilized oil as bears to that quantity the same proportion as the quantity of prescribed petroleum produced from that production area bears to the total quantity of prescribed petroleum produced from all the production areas from which that quantity of stabilized oil was so obtained.

6A Indexation of CPI indexed rates

- (1) If the indexation factor for an indexation day is greater than 1, each CPI indexed rate is, on that day, replaced by the rate of duty worked out using the formula:

$$\begin{array}{l} \text{CPI indexed rate} \\ \text{on the day before} \\ \text{the indexation day} \end{array} \times \begin{array}{l} \text{Indexation factor for} \\ \text{the indexation day} \end{array}$$

Note: For *indexation factor* see subsection (3). For *CPI indexed rate* and *indexation day* see subsection (10).

- (2) The amount worked out under subsection (1) is to be rounded to the same number of decimal places as the CPI indexed rate was on the day before the indexation day (rounding up if the next decimal place is 5 or more).

Indexation factor

- (3) The **indexation factor** for an indexation day is the number worked out using the formula:

$$\frac{\text{Index number for the most recent reference quarter before the indexation day}}{\text{Index number for the base quarter}}$$

Note: For **index number**, **reference quarter** and **base quarter** see subsection (10).

- (4) The indexation factor is to be worked out to 3 decimal places (rounding up if the fourth decimal place is 5 or more).

Effect of delay in publication of index number

- (5) If the index number for the most recent reference quarter before the indexation day is published by the Statistician on a day (the **publication day**) that is not at least 5 days before the indexation day, then, despite subsection (1), any replacement of a CPI indexed rate under subsection (1) happens on the fifth day after the publication day.

Effect of Excise Tariff alteration

- (6) If an Excise Tariff alteration proposed in the Parliament proposes to substitute, on and after a particular day, a rate for a CPI indexed rate, treat that substitution as having had effect on and after that day for the purposes of this section.

Changes to CPI index reference period and publication of substituted index numbers

- (7) Amounts are to be worked out under this section:
- (a) using only the index numbers published in terms of the most recently published index reference period for the Consumer Price Index; and
 - (b) disregarding index numbers published in substitution for previously published index numbers (except where the

Section 6A

substituted numbers are published to take account of changes in the index reference period).

Application of replacement rate

- (8) If a CPI indexed rate is replaced under this section on a particular day, the replacement rate applies in relation to goods entered for home consumption on or after that day.

Publication of replacement rate

- (9) The CEO must, on or as soon as practicable after the day a CPI indexed rate is replaced under this section, publish a notice in the *Gazette* advertising the replacement rate and the goods it applies to.

Definitions

- (10) In this section:

base quarter means the June quarter or December quarter that has the highest index number of all the June quarters and December quarters that occur:

- (a) before the most recent reference quarter before the indexation day; and
- (b) after the June quarter of 1983.

CPI indexed rate means:

- (a) a rate of duty set out in item 1, 2 or 3 of the Schedule; or
- (b) a rate of duty set out in item 10 of the Schedule, other than in:
 - (i) subitem 10.6 or 10.17; or
 - (ii) subitem 10.7, 10.12, 10.20, 10.21 or 10.30; or
- (c) the rate set out in step 3 of the method statement in subsection 6G(1) (about duty payable on blended goods).

December quarter means a period of 3 months starting on 1 October.

indexation day means each 1 February and 1 August.

index number, for a quarter, means the All Groups Consumer Price Index number that is the weighted average of the 8 capital cities and is published by the Statistician in relation to that quarter.

June quarter means a period of 3 months starting on 1 April.

reference quarter means the June quarter or December quarter.

6AAA Rounding of fuel duty rates

- (1) Despite subsection 6A(2), the amount to be worked out under subsection 6A(1) in respect of an indexation day for a CPI indexed rate covered by subsection (3) of this section is to be rounded to 3 decimal places (rounding up if the next decimal place is 5 or more).
- (2) For the purposes of section 6A, determine the CPI indexed rate on the day before the indexation day as mentioned in subsection 6A(1) on the assumptions that:
 - (a) the operation of subsection (1) of this section was disregarded in respect of all previous indexation days (if any); and
 - (b) subsection 6A(2) permitted amounts worked out under subsection 6A(1) in respect of those indexation days to be rounded to 5 decimal places (rounding up if the next decimal place was 5 or more).
- (3) This subsection covers the following CPI indexed rates:
 - (a) a rate of duty set out in item 10 of the Schedule, other than in:
 - (i) subitem 10.6 or 10.17; or
 - (ii) subitem 10.7, 10.12, 10.20, 10.21 or 10.30;
 - (b) the rate set out in step 3 of the method statement in subsection 6G(1) (about duty payable on blended goods).
- (4) In this section:

CPI indexed rate has the same meaning as in section 6A.

indexation day has the same meaning as in section 6A.

6AA Indexing of tobacco duty rate under subitem 5.1 of the Schedule

- (1) If the indexation factor for an indexation day is at least 1, the rate of duty set out in subitem 5.1 of the Schedule (the *tobacco duty rate*) is, on that day, replaced by the rate of duty worked out using the formula:

$$\frac{\text{Tobacco duty rate on the day before the indexation day}}{\text{the indexation day}} \times \frac{\text{Indexation factor for the indexation day}}{\text{the indexation day}} \times \frac{\text{Additional factor for the indexation day}}{\text{the indexation day}}$$

Note: For *indexation factor* see subsections (3) and (5), for *indexation day* see subsection (12) and for *additional factor* see subsection (6).

- (2) The amount worked out under subsection (1) is to be rounded to 5 decimal places (rounding up if the sixth decimal place is 5 or more).

Indexation factor

- (3) The *indexation factor* for an indexation day is the number worked out using the formula:

$$\frac{\text{AWOTE amount for the most recent reference quarter before the indexation day}}{\text{AWOTE amount for the base quarter}}$$

Note: For *AWOTE amount*, *reference quarter* and *base quarter* see subsection (12).

- (4) The indexation factor is to be worked out to 3 decimal places (rounding up if the fourth decimal place is 5 or more).
- (5) Despite subsection (3), treat the *indexation factor* for 1 September 2023, 1 September 2024 and 1 September 2025 as 1 if, on that day, it would otherwise be less than 1.

Additional factor

- (6) The **additional factor** for an indexation day is:
- (a) 1.05, if the indexation day is 1 September 2023, 1 September 2024 or 1 September 2025; or
 - (b) 1, for each other indexation day.

Effect of delay in publication of AWOTE amount

- (7) If the AWOTE amount for the most recent reference quarter before the indexation day is published by the Statistician on a day (the **publication day**) that is not at least 5 days before the indexation day, then, despite subsection (1), any replacement of a tobacco duty rate under subsection (1) happens on the fifth day after the publication day.

Effect of Excise Tariff alteration

- (8) If an Excise Tariff alteration proposed in the Parliament proposes to substitute, on and after a particular day, a rate for a tobacco duty rate, treat that substitution as having had effect on and after that day for the purposes of this section.

Publication of substituted AWOTE amounts

- (9) If the Statistician publishes an estimate of full-time adult average weekly ordinary time earnings for persons in Australia for a period for which such an estimate was previously published by the Statistician, the publication of the later estimate is to be disregarded for the purposes of this section.

Application of replacement rate

- (10) If a tobacco duty rate is replaced under this section on a particular day, the replacement rate applies in relation to goods entered for home consumption on or after that day.

Section 6AAB

Publication of replacement rate

- (11) The CEO must, on or as soon as practicable after the day a tobacco duty rate is replaced under this section, publish a notice in the *Gazette* advertising the replacement rate and the goods it applies to.

Definitions

- (12) In this section:

AWOTE amount, for a quarter, means the estimate of the full-time adult average weekly ordinary time earnings for persons in Australia for the middle month of the quarter published by the Statistician in relation to that month.

base quarter means the June quarter or December quarter that has the highest AWOTE amount of all the June quarters and December quarters that occur:

- (a) before the most recent reference quarter before the indexation day; and
- (b) after the December quarter of 2012.

December quarter means a period of 3 months starting on 1 October.

indexation day means each 1 March and 1 September.

June quarter means a period of 3 months starting on 1 April.

reference quarter means the June quarter or December quarter.

6AAB Tobacco duty rate under subitem 5.5 of the Schedule

- (1) For the purposes of subitem 5.5 of the Schedule, the ***applicable rate*** on a day is the amount worked out using the formula:

$$\frac{\text{The rate of duty under subitem 5.1 of the Schedule on that day}}{\text{The weight conversion factor on that day}}$$

- (2) The ***weight conversion factor*** is:
- (a) for a day on or after the first replacement day and before the second replacement day—0.000675; or
 - (b) for a day on or after the second replacement day and before the third replacement day—0.00065; or
 - (c) for a day on or after the third replacement day and before the fourth replacement day—0.000625; or
 - (d) for a day on or after the fourth replacement day—0.0006.

Rounding

- (3) The amount worked out under subsection (1) is to be rounded to 2 decimal places (rounding up if the third decimal place is 5 or more).

Replacement days

- (4) For the purposes of this section, the ***first replacement day*** is 1 September 2023.
- (5) For the purposes of this section, the ***second replacement day*** is:
- (a) 1 September 2024; or
 - (b) if, in relation to the indexation day that is 1 September 2024, subsection 6AA(7) has the effect of replacing a rate of duty on a later day—that later day.
- (6) For the purposes of this section, the ***third replacement day*** is:
- (a) 1 September 2025; or
 - (b) if, in relation to the indexation day that is 1 September 2025, subsection 6AA(7) has the effect of replacing a rate of duty on a later day—that later day.
- (7) For the purposes of this section, the ***fourth replacement day*** is:
- (a) 1 September 2026; or
 - (b) if, in relation to the indexation day that is 1 September 2026, subsection 6AA(7) has the effect of replacing a rate of duty on a later day—that later day.

Application of applicable rate

- (8) If the applicable rate changes on a particular day, the changed rate applies in relation to goods entered for home consumption on or after that day.

Publication

- (9) The CEO must, on or as soon as practicable after the day the rate of duty set out in subitem 5.1 of the Schedule is replaced under section 6AA, publish a notice in the Gazette advertising:
- (a) the rate of duty under subitem 5.5 of the Schedule on that day; and
 - (b) the goods to which subitem 5.5 of the Schedule applies.

6AAC Duty payable on blended tobacco goods

- (1) Work out the duty payable under this Act on goods (the ***blended tobacco goods***) that would, apart from this section, be classified to subitem 5.1 or 5.5 of the Schedule and that consist of constituents that are classified to either of those subitems, or to subitem 5.8 of the Schedule because of a previous operation of this section, as follows:

Method statement

- Step 1. Work out the amount of duty that would, apart from this section, be payable on the blended tobacco goods.
- Step 2. Add up the amount of duty previously payable on each constituent that is classified to subitem 5.1, 5.5 or 5.8 of the Schedule.
- Step 3. Subtract the result of step 2 from the result of step 1.
- Step 4. The duty payable on the blended tobacco goods is:
- (a) the result of step 3; or

(b) if the result of step 3 is less than zero—zero.

- (2) If a constituent of the blended tobacco goods was imported, assume for the purposes of subsection (1) that:
- (a) the constituent was manufactured in Australia when it was imported; and
 - (b) if customs duty was paid on the constituent—there was a payment of Excise duty equal to the lesser of the following amounts (or either of them if they are equal):
 - (i) the amount of Excise duty that would have been payable on the constituent had it been manufactured in Australia when it was imported;
 - (ii) the amount of the customs duty paid.

6AB Applicable petroleum prices

For the purposes of section 6B, 6C, 6CA or 6D, at any particular time the applicable petroleum price for a month occurring after 30 June 1997 in respect of stabilized crude petroleum oil or condensate, obtained from a production area, that is a prescribed production area, a prescribed new production area, a prescribed condensate production area or a prescribed intermediate production area, as the case requires, for the purposes of that section, is:

- (a) if at that time the final VOLWARE price for stabilized crude petroleum oil or condensate (as the case requires) for the month and an oil producing region that constitutes or includes that production area has been determined under section 7 of the *Petroleum Excise (Prices) Act 1987*—that final VOLWARE price; or
- (b) if at that time the final VOLWARE price for stabilized crude petroleum oil or condensate (as the case requires) has not been so determined—the interim VOLWARE price for stabilized crude petroleum oil or condensate (as the case requires) determined under that section for the month and an oil producing region that constitutes or includes that production area.

6AC Application of section 6B, 6C, 6CA or 6D to different oil producing regions

If:

- (a) a final VOLWARE price or an interim VOLWARE price for stabilized crude petroleum oil or condensate (as the case requires) has been, or is taken to have been, determined under the *Petroleum Excise (Prices) Act 1987* for a month and an oil producing region; and
- (b) that oil producing region is constituted by or includes:
 - (i) a particular prescribed production area within the meaning of section 6B; or
 - (ii) a particular prescribed new production area within the meaning of section 6C; or
 - (iii) a particular prescribed condensate production area within the meaning of section 6CA; or
 - (iv) a particular prescribed intermediate production area within the meaning of section 6D;

that determination is taken to have effect, and, at all material times to have had effect, in the application of that section in respect of stabilized crude petroleum or condensate (as the case requires) obtained from that production area, as if it were also a determination of that price made in respect of that particular production area.

6B Duties of excise on old oil

Definitions

(1) In this section:

adjusted previous year's duty, in relation to a prescribed production area in relation to a month of a financial year, means the amount of duty that, at the end of the financial year immediately preceding the financial year in which that month occurs, would have been payable in respect of old oil produced from that area and entered for home consumption during that

preceding year if, for the prices that were, at the end of that preceding year, the applicable petroleum prices for all of the months of that preceding year, there had been substituted the prices that are, at the end of that first-mentioned month, the respective applicable petroleum prices for all of those months.

non-adjusted previous year's duty, in relation to a prescribed production area in relation to a month of a financial year, means the amount of duty that, at the end of the financial year immediately preceding the financial year in which that month occurs, would have been payable in respect of old oil produced from that area and entered for home consumption during that preceding year if, for the prices that were, at the end of that preceding year, the applicable petroleum prices for all of the months of that preceding year, there had been substituted the prices that were, immediately before the commencement of that first-mentioned month, the respective applicable petroleum prices for all of those months.

old oil means stabilised crude petroleum oil in respect of which subitem 20.7 of the Schedule applies.

prescribed production area means a petroleum production area prescribed by by-laws (which, without limiting the generality of the foregoing, may be a relevant accumulation, a well, an oilfield or a gas field).

Introduction

- (2) The amount of duty in respect of old oil ascertained in accordance with this section shall be ascertained by reference to the prescribed production area from which the oil is produced and to the month of a financial year during which the oil is entered for home consumption.

The amount of duty

- (3) Subject to subsection (3A), the amount of duty in respect of old oil produced from a prescribed production area and entered for home

Section 6B

consumption during a month of a financial year commencing on or after 1 July 2001 is the amount worked out using the formula:

$$\text{Notional duty} + \text{Debited adjustment amount} - \left[\text{Duty paid} + \text{Credited adjustment amount} \right]$$

where:

credited adjustment amount is the credited adjustment amount (if any) for that area and that month, worked out in accordance with subsection (5C).

debited adjustment amount is the debited adjustment amount (if any) for that area and that month, worked out in accordance with subsection (5B).

duty paid is the amount of duty (if any) paid in respect of old oil produced from that area and entered for home consumption during the period starting at the start of that financial year and ending at the end of that month.

notional duty is the amount of notional duty in respect of old oil produced from that area and entered for home consumption during the period starting at the start of that financial year and ending at the end of that month, worked out in accordance with subsection (4).

Disregarding certain amounts when working out amount of duty

- (3A) In working out, for the purposes of subsection (3), the amount of duty paid in respect of old oil produced from a prescribed production area and entered for home consumption during a period starting at the start of a financial year and ending at the end of a month of that year, the following amounts are to be disregarded:
- (a) any increases in the amount of duty paid as a result of the addition of debited adjustment amounts for that area for any of the preceding months of that year;

- (b) any decreases in that amount as a result of the subtraction of credited adjustment amounts for that area for any of those months.

The total amount of notional duty

- (4) The amount of notional duty in respect of old oil produced from a particular prescribed production area and entered for home consumption during a particular period is the sum of the amounts of notional duty in respect of:
- (a) the quantity (if any) of the oil that exceeds $A \times 4B$ but does not exceed $A \times 6B$; and
 - (b) the quantity (if any) of the oil that exceeds $A \times 6B$ but does not exceed $A \times 8B$; and
 - (c) the quantity (if any) of the oil that exceeds $A \times 8B$ but does not exceed $A \times 10B$; and
 - (d) the quantity (if any) of the oil that exceeds $A \times 10B$ but does not exceed $A \times 12B$; and
 - (e) the quantity (if any) of the oil that exceeds $A \times 12B$;

where:

A is the number of days in the period.

B is:

- (a) where the period is in a year in which there are 365 days—136.98630 kilolitres; or
- (b) where the period is in a year in which there are 366 days—136.61202 kilolitres.

The amount of notional duty for a quantity of oil—one petroleum price

- (5) Subject to subsections (6) and (9), the amount of notional duty in respect of a quantity of oil referred to in subsection (4) is an amount equal to the relevant percentage (set out in subsection (7)) of the product of:

Section 6B

- (a) the amount specified in the price that is, at the end of the period referred to in subsection (4) in relation to the quantity of oil, the applicable petroleum price for the month in which the period comes to an end; and
 - (b) the number of kilolitres in that quantity;
- calculated to the nearest cent.

The debited adjustment amount

(5B) Where:

- (a) during a month of a financial year, a VOLWARE price for stabilised crude petroleum oil for a month of the immediately preceding financial year and a particular prescribed production area is determined under section 7 of the *Petroleum Excise (Prices) Act 1987*; and
- (b) the adjusted previous year's duty for that prescribed production area for that first-mentioned month is greater than the non-adjusted previous year's duty for that area for that first-mentioned month;

there is a debited adjustment amount for that area for that first-mentioned month, being an amount equal to the difference between that adjusted previous year's duty and that non-adjusted previous year's duty.

The credited adjustment amount

(5C) Where:

- (a) during a month of a financial year, a VOLWARE price for stabilised crude petroleum oil for a month of the immediately preceding financial year and a particular prescribed production area is determined under section 7 of the *Petroleum Excise (Prices) Act 1987*; and

- (b) the adjusted previous year's duty for that prescribed production area for that first-mentioned month is less than the non-adjusted previous year's duty for that area for that first-mentioned month;

there is a credited adjustment amount for that area for that first-mentioned month, being an amount equal to the difference between that non-adjusted previous year's duty and that adjusted previous year's duty.

The amount of notional duty for a quantity of oil—more than one petroleum price

- (6) Where, at the end of a period in a financial year, the applicable petroleum prices for the months in which the period occurs and a particular prescribed production area are not all the same, the amount of the notional duty in respect of a quantity of oil referred to in subsection (4) produced from that production area and entered for home consumption during the period is an amount equal to the relevant percentage (set out in subsection (7)) of the sum of the amounts calculated in respect of each such applicable petroleum price in operation during the period in accordance with the formula:

$$\frac{P \times Q \times K}{KT}$$

where:

P is the amount specified in the applicable petroleum price.

Q is the number of kilolitres in the quantity of oil referred to in subsection (4).

K is the number of kilolitres of old oil produced from that production area and entered for home consumption during that part of the period during which the applicable petroleum price was in operation.

Section 6B

KT is the number of kilolitres of old oil produced from that production area and entered for home consumption during the period.

Relevant percentage for a quantity of oil

- (7) For the purposes of subsections (5) and (6), the relevant percentage in relation to a quantity of oil referred to in subsection (4) is:
- (a) in the case of a quantity to which paragraph 4(a) applies—20%; and
 - (b) in the case of a quantity to which paragraph 4(b) applies—30%; and
 - (c) in the case of a quantity to which paragraph 4(c) applies—40%; and
 - (d) in the case of a quantity to which paragraph 4(d) applies—50%; and
 - (e) in the case of a quantity to which paragraph 4(e) applies—55%.

Rounding the number of kilolitres in a quantity of oil

- (8) For the purposes of subsections (5) and (6), the number of kilolitres in a quantity of oil shall be taken to be a number equal to:
- (a) unless paragraph (b) applies—the number of kilolitres in that quantity calculated to 1 decimal place; or
 - (b) where the number of kilolitres in that quantity calculated to 2 decimal places ends in a number greater than 4—the number of kilolitres in that quantity calculated to 1 decimal place increased by 0.1.

The amount of notional duty—dealing with the first year of production

- (9) Where no old oil produced from a particular prescribed production area was ever entered for home consumption before the expiration of the first month of a particular financial year, then, in ascertaining, in accordance with subsections (4), (5) and (7) or (4), (6) and (7), the notional duty in respect of old oil produced from

that production area and entered for home consumption during a later month (in this subsection referred to as the *relevant month*) of that financial year, those subsections have effect in relation to the old oil as if each reference in a paragraph of subsection (4) to **B** were a reference to the product of **B** and the factor ascertained in accordance with the formula:

$$\frac{G}{H}$$

where:

G is the number of days in the period commencing on the day on which old oil produced from the prescribed production area was first entered for home consumption and ending on the expiration of the relevant month; and

H is the number of days in the period commencing on the first day of the financial year and ending on the expiration of the relevant month.

Interpretation of the Schedule

- (10) The words set out after “, if higher,” in the column headed “Rate of Duty” in subitem 20.7 of the Schedule shall be deemed, for the purposes of this Act or any other law of the Commonwealth, to be a rate of duty.

6C Duties of excise on new oil

Definitions

- (1) In this section:

adjusted previous year’s duty, in relation to a prescribed new production area in relation to a month of a financial year, means the amount of duty that, at the end of the financial year immediately preceding the financial year in which that month occurs, would have been payable in respect of new oil produced from that area and entered for home consumption during that

preceding year if, for the prices that were, at the end of that preceding year, the applicable petroleum prices for all of the months of that preceding year, there had been substituted the prices that are, at the end of that first-mentioned month, the respective applicable petroleum prices for all of those months.

non-adjusted previous year's duty, in relation to a prescribed new production area in relation to a month of a financial year, means the amount of duty that, at the end of the financial year immediately preceding the financial year in which that month occurs, would have been payable in respect of new oil produced from that area and entered for home consumption during that preceding year if, for the prices that were, at the end of that preceding year, the applicable petroleum prices for all of the months of that preceding year, there had been substituted the prices that were, immediately before the commencement of that first-mentioned month, the respective applicable petroleum prices for all of those months.

prescribed new production area means a new petroleum production area prescribed by by-laws (which, without limiting the generality of the foregoing, may be a relevant accumulation, a well, an oilfield or a gas field).

Introduction

- (2) The amount of duty in respect of new oil ascertained in accordance with this section shall be ascertained by reference to the prescribed new production area from which the oil is produced and to the month of a financial year during which the oil is entered for home consumption.

The amount of duty

- (3) Subject to subsection (3A), the amount of duty in respect of new oil produced from a prescribed new production area and entered for home consumption during a month of a financial year commencing on or after 1 July 2001 is the amount worked out using the formula:

$$\text{Notional duty} + \text{Debited adjustment amount} - \left[\text{Duty paid} + \text{Credited adjustment amount} \right]$$

where:

notional duty is the amount of notional duty in respect of new oil produced from that area and entered for home consumption during the period starting at the start of that financial year and ending at the end of that month, worked out in accordance with subsection (4).

debited adjustment amount is the debited adjustment amount (if any) for that area and that month, worked out in accordance with subsection (5A).

duty paid is the amount of duty (if any) paid in respect of new oil produced from that area and entered for home consumption during the period starting at the start of that financial year and ending at the end of that month.

credited adjustment amount is the credited adjustment amount (if any) for that area and that month, worked out in accordance with subsection (5B).

Disregarding certain amounts when working out amount of duty

- (3A) In working out, for the purposes of subsection (3), the amount of duty paid in respect of new oil produced from a prescribed new production area and entered for home consumption during a period starting at the start of a financial year and ending at the end of a month of that year, the following amounts are to be disregarded:
- (a) any increases in the amount of duty paid as a result of the addition of debited adjustment amounts for that area for any of the preceding months of that year;
 - (b) any decreases in that amount as a result of the subtraction of credited adjustment amounts for that area for any of those months.

The total amount of notional duty

- (4) The amount of notional duty in respect of new oil produced from a particular prescribed new production area and entered for home consumption during a particular period is the sum of the amounts of notional duty in respect of:
- (a) the quantity (if any) of the oil that exceeds $A \times 10B$ but does not exceed $A \times 12B$;
 - (b) the quantity (if any) of the oil that exceeds $A \times 12B$ but does not exceed $A \times 14B$;
 - (c) the quantity (if any) of the oil that exceeds $A \times 14B$ but does not exceed $A \times 16B$; and
 - (d) the quantity (if any) of the oil that exceeds $A \times 16B$;

where:

A is the number of days in the period.

B is:

- (a) where the period is in a year in which there are 365 days—
136.98630 kilolitres; or
- (b) where the period is in a year in which there are 366 days—
136.61202 kilolitres.

The amount of notional duty for a quantity of oil—one petroleum price

- (5) Subject to subsections (6) and (9), the amount of notional duty in respect of a quantity of oil referred to in subsection (4) is an amount equal to the relevant percentage (set out in subsection (7)) of the product of:
- (a) the amount specified in the price that is, at the end of the period referred to in subsection (4) in relation to the quantity of oil, the applicable petroleum price for the month in which the period comes to an end; and
 - (b) the number of kilolitres in that quantity;
calculated to the nearest cent.

The debited adjustment amount

(5A) Where:

- (a) during a month of a financial year, a VOLWARE price for stabilised crude petroleum oil for a month of the immediately preceding financial year and a particular prescribed new production area is determined under section 7 of the *Petroleum Excise (Prices) Act 1987*; and
- (b) the adjusted previous year's duty for that prescribed new production area for that first-mentioned month is greater than the non-adjusted previous year's duty for that area for that first-mentioned month;

there is a debited adjustment amount for that area for that first-mentioned month, being an amount equal to the difference between that adjusted previous year's duty and that non-adjusted previous year's duty.

The credited adjustment amount

(5B) Where:

- (a) during a month of a financial year, a VOLWARE price for stabilised crude petroleum oil for a month of the immediately preceding financial year and a particular prescribed new production area is determined under section 7 of the *Petroleum Excise (Prices) Act 1987*; and
- (b) the adjusted previous year's duty for that prescribed new production area for that first-mentioned month is less than the non-adjusted previous year's duty for that area for that first-mentioned month;

there is a credited adjustment amount for that area for that first-mentioned month, being an amount equal to the difference between that non-adjusted previous year's duty and that adjusted previous year's duty.

The amount of notional duty for a quantity of oil—more than one petroleum price

- (6) Where, at the end of a period in a financial year, the applicable petroleum prices for the months in which the period occurs and a particular prescribed new production area are not all the same, the amount of the notional duty in respect of a quantity of oil referred to in subsection (4) produced from that production area and entered for home consumption during the period is an amount equal to the relevant percentage (set out in subsection (7)) of the sum of the amounts calculated in respect of each such applicable petroleum price in operation during the period in accordance with the formula:

$$\frac{P \times Q \times K}{KT}$$

where:

P is the amount specified in the applicable petroleum price.

Q is the number of kilolitres in the quantity of oil referred to in subsection (4).

K is the number of kilolitres of new oil produced from that production area and entered for home consumption during that part of the period during which the applicable petroleum price was in operation.

KT is the number of kilolitres of new oil produced from that production area and entered for home consumption during the period.

Relevant percentage for a quantity of oil

- (7) For the purposes of subsections (5) and (6), the relevant percentage in relation to a quantity of oil referred to in subsection (4) is:
- (a) in the case of a quantity to which paragraph 4(a) applies—10%; and

- (b) in the case of a quantity to which paragraph 4(b) applies—15%; and
- (c) in the case of a quantity to which paragraph 4(c) applies—20%; and
- (d) in the case of a quantity to which paragraph 4(d) applies—30%.

Rounding the number of kilolitres in a quantity of oil

- (8) For the purposes of subsections (5) and (6), the number of kilolitres in a quantity of oil shall be taken to be a number equal to:
 - (a) unless paragraph (b) applies—the number of kilolitres in that quantity calculated to 1 decimal place; or
 - (b) where the number of kilolitres in that quantity calculated to 2 decimal places ends in a number greater than 4—the number of kilolitres in that quantity calculated to 1 decimal place increased by 0.1.

The amount of notional duty—dealing with the first year of production

- (9) When no new oil produced from a particular prescribed new production area was ever entered for home consumption before the expiration of the first month of a particular financial year, then, in ascertaining, in accordance with subsections (4), (5) and (7) or (4), (6) and (7), the notional duty in respect of new oil produced from the production area and entered for home consumption during a later month (in this subsection referred to as the **relevant month**) of that financial year, those subsections have effect in relation to the new oil as if each reference in a paragraph of subsection (4) to B were a reference to the product of B and the factor ascertained in accordance with the formula:

$$\frac{M}{N}$$

where:

M is the number of days in the period commencing on the day on which new oil produced from the prescribed new production area was first entered for home consumption and ending on the expiration of the relevant month; and

N is the number of days in the period commencing on the first day of the financial year and ending on the expiration of the relevant month.

Interpretation of the Schedule

- (10) The words set out after “, if higher,” in the column headed “Rate of Duty” in subitem 20.5 of the Schedule shall be deemed, for the purposes of this Act or any other law of the Commonwealth, to be a rate of duty.

6CA Duties of excise on condensate

Definitions

- (1) In this section:

adjusted previous year’s duty, in relation to a prescribed condensate production area in relation to a month of a financial year, means the amount of duty that, at the end of the financial year immediately preceding the financial year in which that month occurs, would have been payable in respect of condensate produced from that area and entered for home consumption during that preceding year if, for the prices that were, at the end of that preceding year, the applicable petroleum prices for all of the months of that preceding year, there had been substituted the prices that are, at the end of that first-mentioned month, the respective applicable petroleum prices for all of those months.

non-adjusted previous year’s duty, in relation to a prescribed condensate production area in relation to a month of a financial year, means the amount of duty that, at the end of the financial year immediately preceding the financial year in which that month occurs, would have been payable in respect of condensate

produced from that area and entered for home consumption during that preceding year if, for the prices that were, at the end of that preceding year, the applicable petroleum prices for all of the months of that preceding year, there had been substituted the prices that were, immediately before the commencement of that first-mentioned month, the respective applicable petroleum prices for all of those months.

prescribed condensate production area has the meaning given by subsection (1A).

- (1A) ***Prescribed condensate production area*** means any of the following:
- (a) a condensate production area prescribed by by-laws (which, without limiting the generality of the foregoing, may be a relevant accumulation, a well, an oilfield or a gas field);
 - (b) the Rankin Trend (see subsection (1B)).

Note: A by-law may be expressed to commence before the day it is registered under the *Legislation Act 2003* (see subsection 12(1A) of that Act).

- (1B) The ***Rankin Trend*** means the area that includes the following:
- (a) the reservoirs, or groups of reservoirs, known as:
 - (i) North Rankin; and
 - (ii) Perseus; and
 - (iii) Searipple; and
 - (iv) Goodwyn; and
 - (v) Keast/Dockrell; and
 - (vi) Echo/Yodel;
 - (b) other reservoirs, or groups of reservoirs, (if any) that are specified in the regulations made for the purposes of this paragraph.
- (1C) Before the Governor-General makes a regulation specifying a reservoir, or a group of reservoirs, for the purposes of paragraph (1B)(b):

- (a) the Resources Minister must be satisfied that the reservoir, or the group of reservoirs, is part of the same field as a reservoir or group of reservoirs mentioned in paragraph (1B)(a); and
 - (b) if the Resources Minister is so satisfied—the Resources Minister must consider the effect of specifying the reservoir, or the group of reservoirs, on the efficient exploitation of the resource related to the reservoir, or to the group of reservoirs.
- (1D) Subsection 12(2) (retrospective application of legislative instruments) of the *Legislation Act 2003* does not apply to regulations specifying a reservoir, or a group of reservoirs, for the purposes of paragraph (1B)(b) of this section.
- (1E) Subsection (1D) does not apply to regulations that create, modify or otherwise affect a provision that makes a person liable to an offence or civil penalty.

Introduction

- (2) The amount of duty in respect of condensate ascertained in accordance with this section is to be ascertained by reference to the prescribed condensate production area from which the condensate is produced and to the month of a financial year during which the condensate is entered for home consumption.

The amount of duty

- (3) Subject to subsection (4), the amount of duty in respect of condensate produced from a prescribed condensate production area and entered for home consumption during a month of a financial year is the amount worked out using the formula:

$$\text{Notional duty} + \text{Debited adjustment amount} - \left[\text{Duty paid} + \text{Credited adjustment amount} \right]$$

where:

credited adjustment amount is the credited adjustment amount (if any) for that area and that month, worked out in accordance with subsection (8).

debited adjustment amount is the debited adjustment amount (if any) for that area and that month, worked out in accordance with subsection (7).

duty paid is the amount of duty (if any) paid in respect of condensate produced from that area and entered for home consumption during the period starting at the start of that financial year and ending at the end of that month.

notional duty is the amount of notional duty in respect of condensate produced from that area and entered for home consumption during the period starting at the start of that financial year and ending at the end of that month, worked out in accordance with subsection (5).

Disregarding certain amounts when working out amount of duty

- (4) In working out, for the purposes of subsection (3), the amount of duty paid in respect of condensate produced from a prescribed condensate production area and entered for home consumption during a period starting at the start of a financial year and ending at the end of a month of that year, the following amounts are to be disregarded:
- (a) any increases in the amount of duty paid as a result of the addition of debited adjustment amounts for that area for any of the preceding months of that year;
 - (b) any decreases in that amount as a result of the subtraction of credited adjustment amounts for that area for any of those months.

The total amount of notional duty

- (5) The amount of notional duty in respect of condensate produced from a particular prescribed condensate production area and entered for home consumption during a particular period is the sum of the amounts of notional duty in respect of:
- (a) the quantity (if any) of the condensate that exceeds **A × 10B** but does not exceed **A × 12B** ;

Section 6CA

- (b) the quantity (if any) of the condensate that exceeds $A \times 12B$ but does not exceed $A \times 14B$;
 - (c) the quantity (if any) of the condensate that exceeds $A \times 14B$ but does not exceed $A \times 16B$; and
 - (d) the quantity (if any) of the condensate that exceeds $A \times 16B$;
- where:

A is the number of days in the period.

B is:

- (a) where the period in a year in which there are 365 days—
136.98630 kilolitres; or
- (b) where the period is in a year in which there are 366 days—
136.61202 kilolitres.

The amount of notional duty for a quantity of condensate—one petroleum price

- (6) Subject to subsections (9) and (12), the amount of notional duty in respect of a quantity of condensate referred to in subsection (5) is an amount equal to the relevant percentage (set out in subsection (10)) of the product of:
 - (a) the amount specified in the price that is, at the end of the period referred to in subsection (5) in relation to the quantity of condensate, the applicable petroleum price for the month in which the period comes to an end; and
 - (b) the number of kilolitres in that quantity;calculated to the nearest cent.

The debited adjustment amount

- (7) If:
 - (a) during a month of a financial year, a VOLWARE price for condensate for a month of the immediately preceding financial year and a particular prescribed condensate production area is determined under section 7 of the *Petroleum Excise (Prices) Act 1987*; and

- (b) the adjusted previous year's duty for that prescribed condensate production area for that first-mentioned month is greater than the non-adjusted previous year's duty for that area for that first-mentioned month;

there is a debited adjustment amount for that area for that first-mentioned month, being an amount equal to the difference between that adjusted previous year's duty and that non-adjusted previous year's duty.

The credited adjustment amount

- (8) If:

- (a) during a month of a financial year, a VOLWARE price for condensate for a month of the immediately preceding financial year and a particular prescribed condensate production area is determined under section 7 of the *Petroleum Excise (Prices) Act 1987*; and
- (b) the adjusted previous year's duty for that prescribed condensate production area for that first-mentioned month is less than the non-adjusted previous year's duty for that area for that first-mentioned month;

there is a credited adjustment amount for that area for that first-mentioned month, being an amount equal to the difference between that non-adjusted previous year's duty and that adjusted previous year's duty.

The amount of notional duty for a quantity of condensate—more than one petroleum price

- (9) If, at the end of a period in a financial year, the applicable petroleum prices for the months in which the period occurs and a particular prescribed condensate production area are not all the same, the amount of the notional duty in respect of a quantity of condensate referred to in subsection (5) produced from that production area and entered for home consumption during the period is an amount equal to the relevant percentage (set out in subsection (10)) of the sum of the amounts calculated in respect of

Section 6CA

each such applicable petroleum price in operation during the period in accordance with the formula:

$$\frac{P \times Q \times K}{KT}$$

where:

K is the number of kilolitres of condensate produced from that production area and entered for home consumption during that part of the period during which the applicable petroleum price was in operation.

KT is the number of kilolitres of condensate produced from that production area and entered for home consumption during the period.

P is the amount specified in the applicable petroleum price.

Q is the number of kilolitres in the quantity of condensate referred to in subsection (5).

Relevant percentage for a quantity of condensate

- (10) For the purposes of subsections (6) and (9), the relevant percentage in relation to a quantity of condensate referred to in subsection (5) is:
- (a) in the case of a quantity to which paragraph (5)(a) applies—10%; and
 - (b) in the case of a quantity to which paragraph (5)(b) applies—15%; and
 - (c) in the case of a quantity to which paragraph (5)(c) applies—20%; and
 - (d) in the case of a quantity to which paragraph (5)(d) applies—30%.

Rounding the number of kilolitres in a quantity of condensate

- (11) For the purposes of subsections (6) and (9), the number of kilolitres in a quantity of condensate is taken to be a number equal to:

- (a) unless paragraph (b) applies—the number of kilolitres in that quantity calculated to one decimal place; or
- (b) if the number of kilolitres in that quantity calculated to 2 decimal places ends in a number greater than 4—the number of kilolitres in that quantity calculated to one decimal place increased by 0.1.

The amount of notional duty—dealing with the first year of production

- (12) When no condensate produced from a particular prescribed condensate production area was ever entered for home consumption before the end of the first month of a particular financial year, then, in ascertaining, in accordance with subsections (5), (6) and (10) or (5), (9) and (10), the notional duty in respect of condensate produced from the production area and entered for home consumption during a later month (the **relevant month**) of that financial year, those subsections have effect in relation to the condensate as if each reference in a paragraph of subsection (5) to **B** were a reference to the product of **B** and the factor ascertained in accordance with the formula:

$$\frac{M}{N}$$

where:

M is the number of days in the period commencing on the day on which condensate produced from the prescribed condensate production area was first entered for home consumption and ending on the end of the relevant month.

N is the number of days in the period commencing on the first day of the financial year and ending on the end of the relevant month.

- (13) Subsection 12(2) (retrospective application of legislative instruments) of the *Legislation Act 2003* does not apply to a by-law prescribing a condensate production area.

- (13A) Despite section 169 of the *Excise Act 1901*, a by-law prescribing a condensate production area may have the effect of imposing duty, in relation to condensate entered for home consumption before the date on which the by-law is published in the *Gazette*, at a rate higher than the rate of duty payable in respect of the condensate on the day on which the condensate was entered for home consumption.

Interpretation of the Schedule

- (14) The words set out after “, if higher,” in the column headed “Rate of Duty” in subitem 21.3 of the Schedule are taken, for the purposes of this Act or any other law of the Commonwealth, to be a rate of duty.

6D Duties of excise on intermediate oil

Definitions

- (1) In this section:

adjusted previous year’s duty, in relation to a prescribed intermediate production area in relation to a month of a financial year, means the amount of duty that, at the end of the financial year immediately preceding the financial year in which that month occurs, would have been payable in respect of intermediate oil produced from that area and entered for home consumption during that preceding year if, for the prices that were, at the end of that preceding year, the applicable petroleum prices for all of the months of that preceding year, there had been substituted the prices that are, at the end of that first-mentioned month, the respective applicable petroleum prices for all of those months.

non-adjusted previous year’s duty, in relation to a prescribed intermediate production area in relation to a month of a financial year, means the amount of duty that, at the end of the financial year immediately preceding the financial year in which that month occurs, would have been payable in respect of intermediate oil produced from that area and entered for home consumption during

that preceding year if, for the prices that were, at the end of that preceding year, the applicable petroleum prices for all of the months of that preceding year, there had been substituted the prices that were, immediately before the commencement of that first-mentioned month, the respective applicable petroleum prices for all of those months.

prescribed intermediate production area means an intermediate petroleum production area prescribed by by-laws (which, without limiting the generality of the foregoing, may be a relevant accumulation, a well, an oilfield or a gas field).

Introduction

- (2) The amount of duty in respect of intermediate oil ascertained in accordance with this section shall be ascertained by reference to the prescribed intermediate production area from which the oil is produced and to the month of a financial year during which the oil is entered for home consumption.

The amount of duty

- (3) Subject to subsection (3A), the amount of duty in respect of intermediate oil produced from a prescribed intermediate production area and entered for home consumption during a month of a financial year commencing on or after 1 July 1997 is the amount worked out using the formula:

$$\text{Notional duty} + \text{Debited adjustment amount} - \left[\text{Duty paid} + \text{Credited adjustment amount} \right]$$

where:

notional duty is the amount of notional duty in respect of intermediate oil produced from that area and entered for home consumption during the period starting at the start of that financial year and ending at the end of that month, worked out in accordance with subsection (4).

debited adjustment amount is the debited adjustment amount (if any) for that area and that month, worked out in accordance with subsection (5A).

duty paid is the amount of duty (if any) paid in respect of intermediate oil produced from that area and entered for home consumption during the period starting at the start of that financial year and ending at the end of that month.

credited adjustment amount is the credited adjustment amount (if any) for that area and that month, worked out in accordance with subsection (5B).

Disregarding certain amounts when working out amount of duty

- (3A) In working out, for the purposes of subsection (3), the amount of duty paid in respect of intermediate oil produced from a prescribed intermediate production area and entered for home consumption during a period starting at the start of a financial year and ending at the end of a month of that year, the following amounts are to be disregarded:
- (a) any increases in the amount of duty paid as a result of the addition of debited adjustment amounts for that area for any of the preceding months of that year;
 - (b) any decreases in that amount as a result of the subtraction of credited adjustment amounts for that area for any of those months.

The total amount of notional duty

- (4) The amount of notional duty in respect of intermediate oil produced from a particular prescribed intermediate production area and entered for home consumption during a particular period is the sum of the amounts of notional duty in respect of:
- (a) the quantity (if any) of the oil that exceeds $A \times 6B$ but does not exceed $A \times 8B$;
 - (b) the quantity (if any) of the oil that exceeds $A \times 8B$ but does not exceed $A \times 10B$;

- (c) the quantity (if any) of the oil that exceeds $A \times 10B$ but does not exceed $A \times 12B$; and
- (d) the quantity (if any) of the oil that exceeds $A \times 12B$;

where:

A is the number of days in the period.

B is:

- (a) where the period is in a year in which there are 365 days—136.98630 kilolitres; or
- (b) where the period is in a year in which there are 366 days—136.61202 kilolitres.

The amount of notional duty for a quantity of oil—one petroleum price

- (5) Subject to subsections (6) and (9), the amount of notional duty in respect of a quantity of oil referred to in subsection (4) is an amount equal to the relevant percentage (set out in subsection (7)) of the product of:
 - (a) the amount specified in the price that is, at the end of the period referred to in subsection (4) in relation to the quantity of oil, the applicable petroleum price for the month in which the period comes to an end; and
 - (b) the number of kilolitres in that quantity;calculated to the nearest cent.

The debited adjustment amount

- (5A) Where:
 - (a) during a month of a financial year, a VOLWARE price for stabilized crude petroleum oil for a month of the immediately preceding financial year and a particular prescribed intermediate production area is determined under section 7 of the *Petroleum Excise (Prices) Act 1987*; and
 - (b) the adjusted previous year's duty for that prescribed intermediate production area for that first-mentioned month

Section 6D

is greater than the non-adjusted previous year's duty for that area for that first-mentioned month;

there is a debited adjustment amount for that area for that first-mentioned month, being an amount equal to the difference between that adjusted previous year's duty and that non-adjusted previous year's duty.

The credited adjustment amount

(5B) Where:

- (a) during a month of a financial year, a VOLWARE price for stabilized crude petroleum oil for a month of the immediately preceding financial year and a particular prescribed intermediate production area is determined under section 7 of the *Petroleum Excise (Prices) Act 1987*; and
- (b) the adjusted previous year's duty for that prescribed intermediate production area for that first-mentioned month is less than the non-adjusted previous year's duty for that area for that first-mentioned month;

there is a credited adjustment amount for that area for that first-mentioned month, being an amount equal to the difference between that non-adjusted previous year's duty and that adjusted previous year's duty.

The amount of notional duty for a quantity of oil—more than one petroleum price

- (6) Where, at the end of a period in a financial year, the applicable petroleum prices for the months in which the period occurs and a prescribed intermediate production area are not all the same, the amount of the notional duty in respect of a quantity of oil referred to in subsection (4) produced from that production area and entered for home consumption during the period is an amount equal to the relevant percentage (set out in subsection (7)) of the sum of the amounts calculated in respect of each such applicable petroleum price in operation during the period in accordance with the formula:

$$\frac{P \times Q \times K}{KT}$$

where:

P is the amount specified in the applicable petroleum price.

Q is the number of kilolitres in the quantity of oil referred to in subsection (4).

K is the number of kilolitres of intermediate oil produced from that production area and entered for home consumption during that part of the period during which the applicable petroleum price was in operation.

KT is the number of kilolitres of intermediate oil produced from that production area and entered for home consumption during the period.

Relevant percentage for a quantity of oil

- (7) For the purposes of subsections (5) and (6), the relevant percentage in relation to a quantity of oil referred to in subsection (4) is:
- (a) in the case of a quantity to which paragraph (4)(a) applies—15%;

Section 6D

- (b) in the case of a quantity to which paragraph (4)(b) applies—30%;
- (c) in the case of a quantity to which paragraph (4)(c) applies—50%; and
- (d) in the case of a quantity to which paragraph (4)(d) applies—55%.

Rounding the number of kilolitres in a quantity of oil

- (8) For the purposes of subsections (5) and (6), the number of kilolitres in a quantity of oil shall be taken to be a number equal to:
 - (a) unless paragraph (b) applies—the number of kilolitres in that quantity calculated to 1 decimal place; or
 - (b) where the number of kilolitres in that quantity calculated to 2 decimal places ends in a number greater than 4—the number of kilolitres in that quantity calculated to 1 decimal place increased by 0.1.

The amount of notional duty—dealing with the first year of production

- (9) Where no intermediate oil produced from a particular prescribed intermediate production area was ever entered for home consumption before the expiration of the first month of a particular financial year, then, in ascertaining, in accordance with subsections (4), (5) and (7) or (4), (6) and (7), the notional duty in respect of intermediate oil produced from that production area and entered for home consumption during a later month (in this subsection referred to as the **relevant month**) of that financial year, those subsections have effect in relation to the intermediate oil as if each reference in a paragraph of subsection (4) to B were a reference to the product of B and the factor ascertained in accordance with the formula:

$$\frac{R}{S}$$

where:

R is the number of days in the period commencing on the day on which intermediate oil produced from the prescribed intermediate production area was first entered for home consumption and ending on the expiration of the relevant month; and

S is the number of days in the period commencing on the first day of the financial year and ending on the expiration of the relevant month.

Interpretation of the Schedule

- (10) The words set out after “, if higher,” in the column headed “Rate of Duty” in subitem 20.6 of the Schedule shall be deemed, for the purposes of this Act or any other law of the Commonwealth, to be a rate of duty.

6E Delayed-entry oil rate

- (1) In this section:

applicable petroleum price has the same meaning as it has for the purposes of section 6AB.

- (2) For the purposes of this Act, the delayed-entry oil rate that applies to delayed-entry oil from a particular prescribed source is the amount per kilolitre ascertained in accordance with the formula:

$$\frac{T \times U}{W}$$

where:

T is the applicable petroleum price in relation to the month in which the operative day for that delayed-entry oil occurs and to the production area constituting that prescribed source if the oil had continued to be covered by section 6B, 6C, 6CA or 6D, whichever is applicable, on and after the operative day.

U is the number of dollars, calculated to 2 decimal places, in the amount of the duties of Excise paid in respect of the crude

petroleum oil produced from that source that was entered for home consumption during the pre-operative year for that source.

W is:

- (a) if the applicable petroleum price was the same in relation to all months of the pre-operative year and to the production area that is the prescribed source from which the oil was produced—the product of the number of kilolitres of the stabilised crude petroleum oil produced from that source that was entered for home consumption during that pre-operative year and the number of dollars, calculated to 2 decimal places, in the amount specified in the applicable petroleum price; or
- (b) if the applicable petroleum price was not the same in relation to all months of the pre-operative year and to that production area—the number ascertained by:
 - (i) working out, in respect of each applicable petroleum price in operation in relation to a month or months of that pre-operative year and to that production area, the product of the number of dollars, calculated to 2 decimal places, in the amount specified in the applicable petroleum price and the number of kilolitres of the crude petroleum oil produced from that prescribed source that was entered for home consumption during that month or those months; and
 - (ii) adding the products calculated under subparagraph (i).

6FAA Change in duty rate of certain liquefied petroleum gases, liquefied natural gases and compressed natural gases

- (1) This Act has effect as if, on 1 July 2015:
 - (a) the rate of duty in subitem 10.19A of the Schedule is replaced by:
 - (i) \$0.126 per litre; or
 - (ii) if the indexed rate worked out under subsection (2) is greater than \$0.126 per litre—that indexed rate; and

- (b) the rate of duty in subitem 10.19B of the Schedule is replaced by:
 - (i) \$0.2644 per kilogram; or
 - (ii) if the indexed rate worked out under subsection (2) is greater than \$0.2644 per kilogram—that indexed rate; and
 - (c) the rate of duty in subitem 10.19C of the Schedule is replaced by:
 - (i) \$0.2644 per kilogram; or
 - (ii) if the indexed rate worked out under subsection (2) is greater than \$0.2644 per kilogram—that indexed rate.
- (2) To work out the indexed rate, index the rate mentioned in paragraph (1)(a), (b) or (c) (as applicable) on 1 February 2015 under section 6A, on the assumptions that:
- (a) the rate is a CPI indexed rate for the purposes of that section; and
 - (b) the amount of that rate on the day before 1 February 2015 is the amount set out in subparagraph (1)(a)(i), (b)(i) or (c)(i) (as applicable).

6G Duty payable on certain fuel blended goods

- (1) Work out the duty payable under this Act on goods (the *blended goods*) that are classified to subitem 10.7, 10.12 or 10.30 of the Schedule as follows:

Method statement

- Step 1. Add up the amount of duty that would, at the time the duty on the blended goods is payable, be payable on each constituent of the blended goods, that is classified to item 10 of the Schedule, if the constituent had not been included in the blended goods.

Section 6H

- Step 2. Work out the volume, in litres, of the blended goods that is not attributable to those constituents or to water added to manufacture the blended goods.
- Step 3. Multiply the result of step 2 by \$0.386.
- Note: The rate set out in this step is indexed under section 6A.
- Step 4. Total the results of steps 1 and 3.
- Step 5. Subtract from the total any duty paid on a constituent of the blended goods that is classified to item 10 or 15 of the Schedule.

- (2) If a constituent of the blended goods was imported, assume for the purposes of subsection (1) that:
- (a) the constituent was manufactured in Australia when it was imported; and
 - (b) if customs duty was paid on the constituent, there was a payment of excise duty equal to the lesser of the following amounts (or either of them if they are equal):
 - (i) the amount of excise duty that would have been payable on the constituent had it been manufactured in Australia when it was imported;
 - (ii) the amount of the customs duty paid.

6H Rate of duty payable on denatured ethanol

- (1) For the purposes of subitem 10.20 of the Schedule, the rate of duty is the following rate rounded to 3 decimal places (rounding up if the next decimal place is 5 or more):

Rate for denatured ethanol for use as fuel in an internal combustion engine		
Item	For the financial year starting on:	the rate is the rate per litre equal to this percentage of the rate in subitem 10.5 of the Schedule:
1	1 July 2015	0%

Rate for denatured ethanol for use as fuel in an internal combustion engine

Item	For the financial year starting on:	the rate is the rate per litre equal to this percentage of the rate in subitem 10.5 of the Schedule:
2	1 July 2016	6.554%
3	1 July 2017	13.108%
4	1 July 2018	19.662%
5	1 July 2019	26.216%
6	1 July 2020 or a later 1 July	32.770%

Note: The rate in subitem 10.5 of the Schedule is the rate for gasoline (other than for use as fuel in aircraft). That rate is indexed under section 6A.

- (2) A rate of duty worked out using a table item in subsection (1) applies to goods manufactured or produced in Australia during a financial year referred to in that item, and goods for which all the following conditions are met:
- (a) the goods were manufactured or produced in Australia before a financial year referred to in that item;
 - (b) at the start of that financial year, the goods were either:
 - (i) subject to the CEO's control; or
 - (ii) in the stock, custody or possession of, or belonged to, a manufacturer or producer of the goods;
 - (c) no duty of excise had been paid on the goods before that financial year.

This subsection has effect despite subsection 5(2).

6J Rate of duty payable on biodiesel*Rate of duty*

- (1) For the purposes of subitem 10.21 of the Schedule, the rate of duty is the following rate rounded to 3 decimal places (rounding up if the next decimal place is 5 or more):

Section 6J

Rate for biodiesel		
Item	For the financial year starting on:	the rate is the rate per litre equal to this percentage of the rate in subitem 10.10 of the Schedule:
1	1 July 2015	0%
2	1 July 2016	3.333%
3	1 July 2017	6.667%
4	1 July 2018	10%
5	1 July 2019	13.333%
6	1 July 2020	16.667%
7	1 July 2021	20%
8	1 July 2022	23.333%
9	1 July 2023	26.667%
10	1 July 2024	30%
11	1 July 2025	33.333%
12	1 July 2026	36.667%
13	1 July 2027	40%
14	1 July 2028	43.333%
15	1 July 2029	46.667%
16	1 July 2030 or a later 1 July	50%

Note: The rate in subitem 10.10 of the Schedule is the rate for diesel. That rate is indexed under section 6A.

- (2) A rate of duty worked out using a table item in subsection (1) applies to goods manufactured or produced in Australia during a financial year referred to in that item, and goods for which all the following conditions are met:
- (a) the goods were manufactured or produced in Australia before a financial year referred to in that item;
 - (b) at the start of that financial year, the goods were either:
 - (i) subject to the CEO's control; or
 - (ii) in the stock, custody or possession of, or belonged to, a manufacturer or producer of the goods;

- (c) no duty of excise had been paid on the goods before that financial year.

This subsection has effect despite subsection 5(2).

6K Temporary reduction—CPI indexed fuel rates

Temporary rate reduction

- (1) Despite any other provision of this Act, each CPI indexed fuel rate is, during a rate reduction period, a rate equal to 50% of the rate that it would have been during that period apart from this section (including because of the operation of section 6A).

Note: For *CPI indexed fuel rate* and *rate reduction period*, see subsection (8).

- (2) An amount worked out under subsection (1) is to be rounded to 3 decimal places (rounding up if the next decimal place is 5 or more).
- (3) A CPI indexed fuel rate that applies under subsection (1) during a rate reduction period applies to:
- (a) goods manufactured or produced in Australia during that period; and
 - (b) goods manufactured or produced in Australia before the start of that period if:
 - (i) at the start of the period, the goods were either subject to the CEO's control, or were in the stock, custody or possession of, or belonged to, a manufacturer or producer of the goods; and
 - (ii) no duty of excise had been paid on the goods before the start of the period.
- (4) Subsection (3) has effect despite subsection 5(2).

Restoration of rates

- (5) This Act has effect as if, on 29 September 2022, each CPI indexed fuel rate is a rate equal to the rate that it would have been on the

Section 6K

August adjustment day apart from subsection (1) (including because of the operation of section 6A).

Note 1: For *August adjustment day*, see subsection (8).

Note 2: A rate that applies under this subsection is subject to later indexation under section 6A.

- (6) A CPI indexed fuel rate that applies under subsection (5) applies to:
- (a) goods manufactured or produced in Australia on or after 29 September 2022; and
 - (b) goods manufactured or produced in Australia before 29 September 2022 if:
 - (i) on 29 September 2022, the goods were either subject to the CEO's control, or were in the stock, custody or possession of, or belonged to, a manufacturer or producer of the goods; and
 - (ii) no duty of excise had been paid on the goods before 29 September 2022.
- (7) Subsection (6) has effect despite subsection 5(2).

Definitions

- (8) In this section:

August adjustment day means the following:

- (a) 1 August 2022, unless paragraph (b) applies;
- (b) if, in relation to the indexation day that is 1 August 2022, the replacement under section 6A of a rate of duty happens on another day in accordance with subsection 6A(5)—that other day.

CPI indexed fuel rate means a rate covered by paragraph (b) or (c) of the definition of ***CPI indexed rate*** in subsection 6A(10).

rate reduction period: each of the following is a ***rate reduction period***:

- (a) the period beginning on 30 March 2022 and ending at the end of the day before the August adjustment day;
- (b) the period beginning on the August adjustment day and ending at the end of 28 September 2022.

6L Temporary freeze in indexation for draught beer

- (1) Despite any other provision of this Act, subsection 6A(1) applies in relation to each CPI indexed draught beer rate as if the indexation factor were 1 for each of the following indexation days:
 - (a) 1 August 2025;
 - (b) 1 February 2026;
 - (c) 1 August 2026;
 - (d) 1 February 2027.

Note 1: This means the rates as they are on 31 July 2025 will be unchanged for the next 2 years.

Note 2: When indexation resumes in August 2027, the indexation factor for 1 August 2027 will be applied against these unchanged rates (see subsection 6A(1)).

- (2) In this section:

CPI indexed draught beer rate means a rate of duty set out in subitem 1.2, 1.6 or 1.11 of the Schedule.

indexation day has the same meaning as in section 6A.

7 Regulations

The Governor-General may make regulations prescribing matters required or permitted by this Act to be prescribed.

The Schedule

Note 1: See section 5.

Note 2: Sections 6A and 6AA effectively change certain rates of duty that appear on the face of this Schedule, especially in items 1, 2, 3, 5 and 10.

beer means a brewed beverage that:

- (a) is the product of the yeast fermentation of an aqueous extract, being predominantly an aqueous extract of cereals:
 - (i) whether the cereals are malted or unmalted; and
 - (ii) whether or not the aqueous extract contains other sources of carbohydrates; and
- (b) contains:
 - (i) hops, or extracts of hops, such that the beverage has international bitterness units of not less than 4.0; or
 - (ii) other bitters such that the beverage has a bitterness comparable to that of a beverage mentioned in subparagraph (i); and
- (c) contains not more than 4.0% by weight of sugars; and
- (d) has not had added to it, at any time, artificial sweetener; and
- (e) may have had added to it, at any time, other substances, including flavours, but only if, in the case of substances that contain alcohol (other than spirit distilled from beer), the alcohol did not add more than 0.5% to the total volume of the final beverage; and
- (f) may have had added to it, at any time, spirit distilled from beer, but only if that spirit did not add more than 0.5% to the total volume of the final beverage; and
- (g) contains more than 1.15% by volume of alcohol.

brandy means a spirit distilled from grape wine in such a manner that the spirit possesses the taste, aroma and other characteristics generally attributed to brandy.

grape wine has the same meaning as in Subdivision 31-A of the *A New Tax System (Wine Equalisation Tax) Act 1999*.

lubricant/fluid/oil products means the following:

- (a) lubricant base oils;

- (b) prepared lubricant additives containing carrier oils;
- (c) lubricants for engines, gear sets, pumps and bearings;
- (d) hydraulic fluids;
- (e) brake fluids;
- (f) transmission oils;
- (g) transformer and heat transfer oils.

other excisable beverage means any beverage containing more than 1.15% alcohol by volume, but does not include:

- (a) beer; or
- (b) brandy; or
- (c) wine.

sugar means:

- (a) monosaccharide; or
- (b) disaccharide.

tobacco means tobacco leaf subjected to any process other than curing the leaf as stripped from the plant.

wine has the same meaning as in Subdivision 31-A of the *A New Tax System (Wine Equalisation Tax) Act 1999*.

Items 1 to 3 of this Schedule do not include any liquor that has been produced for non-commercial purposes, using non-commercial facilities and equipment, other than a liquor that is, or that contains, any spirit obtained by distillation.

A reference to alcohol is taken to be a reference to ethyl alcohol.

The volume of alcohol contained in goods:

- (a) is to be taken to be the volume that would be the volume of that alcohol if the alcohol were measured at a temperature of 20 degrees Celsius; and
- (b) if a calculation for the purpose of ascertaining that volume is made by reference to the specific gravity of alcohol—is to be so made on the basis that, at a temperature of 20 degrees Celsius and in vacuum, the specific gravity of alcohol in relation to water is 0.79067; and

The Schedule

- (c) subject to the requirements of paragraphs (a) and (b)—may be ascertained in accordance with the rules (if any) made for that purpose under section 65 of the *Excise Act 1901*; and
- (d) if the circumstances set out in section 77FA of the *Excise Act 1901* apply and for the purposes of working out the duty payable on the goods—is to be ascertained in accordance with that last-mentioned section.

Excise duties (subject to section 6A and 6AA)

Item	Subitem	Description of goods	Rate of Duty
1		Beer	
	1.1	Beer not exceeding 3% by volume of alcohol packaged in: (a) an individual container of less than 8 litres; or (b) an individual container: (i) of at least 8 litres but not exceeding 48 litres; and (ii) not designed to connect to a pressurised gas delivery system, pump delivery system or other system prescribed by the regulations	\$31.73 per litre of alcohol calculated on that alcohol content by which the percentage by volume of alcohol of the goods exceeds 1.15
	1.2	Beer not exceeding 3% by volume of alcohol packaged in: (a) an individual container exceeding 48 litres; or (b) an individual container: (i) of at least 8 litres but not exceeding 48 litres; and (ii) designed to connect to a pressurised gas delivery system, pump delivery system or other system prescribed by the regulations	\$6.33 per litre of alcohol calculated on that alcohol content by which the percentage by volume of alcohol of the goods exceeds 1.15

Excise duties (subject to section 6A and 6AA)

Item	Subitem	Description of goods	Rate of Duty
	1.5	Beer exceeding 3% but not exceeding 3.5% by volume of alcohol packaged in: (a) an individual container of less than 8 litres; or (b) an individual container: (i) of at least 8 litres but not exceeding 48 litres; and (ii) not designed to connect to a pressurised gas delivery system, pump delivery system or other system prescribed by the regulations	\$36.98 per litre of alcohol calculated on that alcohol content by which the percentage by volume of alcohol of the goods exceeds 1.15
	1.6	Beer exceeding 3% but not exceeding 3.5% by volume of alcohol packaged in: (a) an individual container exceeding 48 litres; or (b) an individual container: (i) of at least 8 litres but not exceeding 48 litres; and (ii) designed to connect to a pressurised gas delivery system, pump delivery system or other system prescribed by the regulations	\$19.89 per litre of alcohol calculated on that alcohol content by which the percentage by volume of alcohol of the goods exceeds 1.15

The Schedule

Excise duties (subject to section 6A and 6AA)			
Item	Subitem	Description of goods	Rate of Duty
	1.10	Beer exceeding 3.5% by volume of alcohol packaged in: (a) an individual container of less than 8 litres; or (b) an individual container: (i) of at least 8 litres but not exceeding 48 litres; and (ii) not designed to connect to a pressurised gas delivery system, pump delivery system or other system prescribed by the regulations	\$36.98 per litre of alcohol calculated on that alcohol content by which the percentage by volume of alcohol of the goods exceeds 1.15
	1.11	Beer exceeding 3.5% by volume of alcohol packaged in: (a) an individual container exceeding 48 litres; or (b) an individual container: (i) of at least 8 litres but not exceeding 48 litres; and (ii) designed to connect to a pressurised gas delivery system, pump delivery system or other system prescribed by the regulations	\$26.03 per litre of alcohol calculated on that alcohol content by which the percentage by volume of alcohol of the goods exceeds 1.15
	1.15	Beer not exceeding 3% by volume of alcohol produced for non-commercial purposes using commercial facilities or equipment	\$2.22 per litre of alcohol calculated on that alcohol content by which the percentage by volume of alcohol of the goods exceeds 1.15
	1.16	Beer exceeding 3% by volume of alcohol produced for non-commercial purposes using commercial facilities or equipment	\$2.58 per litre of alcohol calculated on that alcohol content by which the percentage by volume of alcohol of the goods exceeds 1.15

Excise duties (subject to section 6A and 6AA)			
Item	Subitem	Description of goods	Rate of Duty
2		Other excisable beverages not exceeding 10% by volume of alcohol	\$66.67 per litre of alcohol
3		Spirits; Other excisable beverages exceeding 10% by volume of alcohol	
	3.1	Brandy	\$58.48 per litre of alcohol
	3.2	Other excisable beverages exceeding 10% by volume of alcohol	\$62.64 per litre of alcohol
	3.5	Spirit that: (a) a person has an approval, under section 77FD of the <i>Excise Act 1901</i> , to use for fortifying Australian wine or Australian grape must; and (b) is otherwise covered by the approval	Free
	3.6	Spirit that: (a) is for use by a person who is included in a class of persons determined under section 77FE of the <i>Excise Act 1901</i> ; and (b) if a quantity is specified in a determination under that section in relation to the person—does not exceed that quantity; and (c) is for an industrial, manufacturing, scientific, medical, veterinary or educational purpose	Free
	3.7	Spirit that: (a) a person has an approval, under section 77FF of the <i>Excise Act 1901</i> , to use for an industrial, manufacturing, scientific, medical, veterinary or educational purpose; and (b) is otherwise covered by the approval	Free

The Schedule

Excise duties (subject to section 6A and 6AA)			
Item	Subitem	Description of goods	Rate of Duty
	3.8	Spirit denatured according to a formula determined under section 77FG of the <i>Excise Act 1901</i> , other than spirit for use as fuel in an internal combustion engine	Free
	3.10	Spirits not elsewhere included	\$62.64 per litre of alcohol
5		Tobacco, cigars, cigarettes and snuff	
	5.1	In stick form not exceeding in weight 0.8 grams per stick actual tobacco content	\$0.40197 per stick
	5.5	Either: (a) not in stick form; or (b) in stick form exceeding in weight 0.8 grams per stick actual tobacco content	Applicable rate (see section 6AAB) per kilogram of tobacco content
	5.8	Blended tobacco goods	The amount of duty worked out under section 6AAC

Excise duties (subject to section 6A and 6AA)

Item	Subitem	Description of goods	Rate of Duty
10		Goods as follows: (a) petroleum condensate and stabilised crude petroleum oil for use otherwise than: (i) in the recovery, production, pipeline transportation or refining of petroleum condensate or stabilised crude petroleum oil; or (ii) as feedstock at a factory covered by a licence granted under Part IV of the <i>Excise Act 1901</i>; (b) topped crude petroleum oil; (c) refined or semi-refined liquid products derived from petroleum, other than such products for use (other than in an internal combustion engine) in refining petroleum condensate or stabilised crude petroleum oil; (d) liquid hydrocarbon products derived through a recycling, manufacturing or other process; (da) liquefied petroleum gas; (db) liquefied natural gas; (dc) compressed natural gas; (e) denatured ethanol for use as fuel in an internal combustion engine; (f) biodiesel; (g) blends of 1 or more of the above goods (with or without other substances), other than blends covered by subsection 77H(1), (2A), (2B) or (3) of the <i>Excise Act 1901</i>; but not including the following:	

The Schedule

Excise duties (subject to section 6A and 6AA)			
Item	Subitem	Description of goods	Rate of Duty
		(h) goods classified to item 15;	
		(i) waxes and bitumen	
		(j) goods covered by section 77HA or 77HB of the <i>Excise Act 1901</i>	
	10.1	Petroleum condensate	\$0.386 per litre
	10.2	Stabilised crude petroleum oil	\$0.386 per litre
	10.3	Topped crude petroleum oil	\$0.386 per litre
	10.5	Gasoline (other than for use as fuel in aircraft)	\$0.386 per litre
	10.6	Gasoline for use as fuel in aircraft	\$0.03556 per litre
	10.7	Blends of gasoline and ethanol	The amount of duty worked out under section 6G
	10.10	Diesel	\$0.386 per litre
	10.12	Blends of diesel and either biodiesel or ethanol, or both	The amount of duty worked out under section 6G
	10.15	Heating oil	\$0.386 per litre
	10.16	Kerosene (other than for use as fuel in aircraft)	\$0.386 per litre
	10.17	Kerosene for use as fuel in aircraft	\$0.03556 per litre
	10.18	Fuel oil	\$0.386 per litre
	10.19A	Liquefied petroleum gas, other than liquefied petroleum gas exempted from excise duty by section 77HB of the <i>Excise Act 1901</i>	\$0.125 per litre
	10.19B	Liquefied natural gas, other than liquefied natural gas exempted from excise duty by section 77HB of the <i>Excise Act 1901</i>	\$0.2613 per kilogram
	10.19C	Compressed natural gas, other than compressed natural gas exempted from excise duty by section 77HA of the <i>Excise Act 1901</i>	\$0.2613 per kilogram

Excise duties (subject to section 6A and 6AA)			
Item	Subitem	Description of goods	Rate of Duty
	10.20	Denatured ethanol for use as fuel in an internal combustion engine	The rate of duty worked out under section 6H
	10.21	Biodiesel	The rate of duty worked out under section 6J
	10.25	Liquid aromatic hydrocarbons consisting principally of benzene, toluene or xylene or mixtures of them (other than goods covered by section 77J of the <i>Excise Act 1901</i>)	\$0.386 per litre
	10.26	Mineral turpentine (other than goods covered by section 77J of the <i>Excise Act 1901</i>)	\$0.386 per litre
	10.27	White spirit (other than goods covered by section 77J of the <i>Excise Act 1901</i>)	\$0.386 per litre
	10.28	Petroleum products (other than blends) not elsewhere included (other than goods covered by section 77J of the <i>Excise Act 1901</i>)	\$0.386 per litre
	10.30	Blends of 1 or more of the above goods (with or without other substances) not elsewhere included that can be used as fuel in an internal combustion engine (other than goods covered by section 77J of the <i>Excise Act 1901</i>)	The amount of duty worked out under section 6G

The Schedule

Excise duties (subject to section 6A and 6AA)			
Item	Subitem	Description of goods	Rate of Duty
15		Goods as follows, other than: (a) diesel; and (b) blends of diesel and any other goods; and (c) goods for use as a fuel; and (d) goods ordinarily used as a fuel; and (e) exempt oils and hydraulic fluids; and (f) any other goods prescribed for the purposes of this paragraph	
	15.1	Either: (a) petroleum-based oils that are lubricant/fluid/oil products; or (b) the synthetic equivalents of such oils; but not greases	\$0.142 per litre
	15.2	Either: (a) petroleum-based oils that are lubricant/fluid/oil products or greases; or (b) synthetic equivalents of such oils; recycled for use as oils that are lubricant/fluid/oil products but not recycled for use as greases	\$0.142 per litre
	15.3	Petroleum-based greases and their synthetic equivalents	\$0.142 per kilogram
	15.4	Either: (a) petroleum-based oils that are lubricant/fluid/oil products or greases; or (b) synthetic equivalents of such oils; recycled for use as greases	\$0.142 per kilogram

Excise duties (subject to section 6A and 6AA)			
Item	Subitem	Description of goods	Rate of Duty
20		Stabilised crude petroleum oil, other than: (a) stabilised crude petroleum oil produced from a Resource Rent Tax area; and (b) exempt offshore oil; and (c) exempt onshore oil	
	20.1	As prescribed by by-law	Free
	20.2	Delayed-entry oil	The delayed-entry oil rate that applies to the oil
	20.5	New oil	Free, or, if higher, the amount of duty worked out under section 6C
	20.6	Intermediate oil	Free, or, if higher, the amount of duty worked out under section 6D
	20.7	Other	Free, or, if higher, the amount of duty worked out under section 6B
21		Condensate, other than: (a) condensate produced from a Resource Rent Tax area; and (b) condensate produced from a prescribed source; and (c) exempt offshore condensate; and (d) exempt onshore condensate	
	21.1	As prescribed by by-law	Free
	21.3	Other	Free, or, if higher, the amount of duty worked out under section 6CA

Endnotes

Endnote 1—About the endnotes

Endnotes

Endnote 1—About the endnotes

The endnotes provide information about this compilation and the compiled law.

The following endnotes are included in every compilation:

Endnote 1—About the endnotes

Endnote 2—Abbreviation key

Endnote 3—Legislation history

Endnote 4—Amendment history

Abbreviation key—Endnote 2

The abbreviation key sets out abbreviations that may be used in the endnotes.

Legislation history and amendment history—Endnotes 3 and 4

Amending laws are annotated in the legislation history and amendment history.

The legislation history in endnote 3 provides information about each law that has amended (or will amend) the compiled law. The information includes commencement details for amending laws and details of any application, saving or transitional provisions that are not included in this compilation.

The amendment history in endnote 4 provides information about amendments at the provision (generally section or equivalent) level. It also includes information about any provision of the compiled law that has been repealed in accordance with a provision of the law.

Editorial changes

The *Legislation Act 2003* authorises First Parliamentary Counsel to make editorial and presentational changes to a compiled law in preparing a compilation of the law for registration. The changes must not change the effect of the law. Editorial changes take effect from the compilation registration date.

If the compilation includes editorial changes, the endnotes include a brief outline of the changes in general terms. Full details of any changes can be obtained from the Office of Parliamentary Counsel.

Misdescribed amendments

A misdescribed amendment is an amendment that does not accurately describe how an amendment is to be made. If, despite the misdescription, the amendment

Endnote 1—About the endnotes

can be given effect as intended, then the misdescribed amendment can be incorporated through an editorial change made under section 15V of the *Legislation Act 2003*.

If a misdescribed amendment cannot be given effect as intended, the amendment is not incorporated and “(md not incorp)” is added to the amendment history.
