# STATUTORY RULES.

1938. No. 6.

REGULATIONS UNDER THE CUSTOMS ACT 1901-1936 AND THE COMMERCE (TRADE DESCRIPTIONS) ACT 1905-1933.\*

HEREAS by section 112 of the Customs Act 1901-1936 it is provided that the Governor-General may, by regulation, prohibit the exportation of any goods—

(a) the exportation of which would, in his opinion, be harmful to the Commonwealth; or

(b) which have not been prepared or manufactured for export under the prescribed conditions as to purity, soundness, or freedom from disease, or which do not conform to the prescribed conditions as to purity, soundness, or freedom from disease:

And whereas it is provided by the said section that the said power of prohibition shall extend to authorize the prohibition of the exportation of the goods generally, or to any specified place, and either absolutely or so as to allow of the exportation of the goods subject to any condition or restriction:

And whereas it is provided by section 17 of the Acts Interpreta-tion Act 1901-1937 that the expression "the Governor-General" in any Act includes the person for the time being administering the Government of the Commonwealth, acting with the advice of the Federal Executive Council:

And whereas I am of opinion that the exportation of dairy produce, except subject to the conditions and restrictions prescribed by the following Regulations, would be harmful to the Commonwealth:

Now therefore I, the Administrator of the Government of the Commonwealth of Australia, acting with the advice of the Federal Executive Council, hereby make the following Regulations under the Customs Act 1901-1936 and the Commerce (Trade Descriptions) Act

Dated this Twentyreend day of June

, 1938.

Administrator.

By His Excellency's Command,

Ja, a. g. aneron.

for and on behalf of the Minister of State for Commerce and the Minister of State for Trade and Customs.

\* Notified in the Commonwealth Gazette on 5678.—12/24,5.1938,—PRICE 1s. 9D.

. 1938.

- (d) dried milk—560 pounds; (e) frozen milk—100 pounds; and
- (f) eggs in shell—3900 dozen eggs.

#### PART II.—GENERAL PROVISIONS AS TO EXPORTATION OF DAIRY PRODUCE.

7.—(1.) Any person who is the owner or occupier of any premises Registration of used for the preparation, manufacture or packing of dairy produce for establishments. export may apply to the Secretary, in accordance with Form 1, for the registration of the premises as an export establishment in respect of the particular kind of dairy produce prepared, manufactured or packed therein.

(2.) If the Secretary is satisfied that the premises are constructed, equipped and operated in an efficient and hygienic manner he may, in his discretion, register the premises as an export establishment.

(3.) The Secretary shall allot to each premises so registered—

(a) a number; and

(b) where the premises are registered in respect of butter, a word or words for use on choicest quality butter.

(4.) The registration of an export establishment shall remain in force until such time as it is cancelled by the Secretary or the premises

cease to be used for the preparation, manufacture or packing of the kind of dairy produce in respect of which it was registered.

(5.) A certificate in accordance with Form 2, signed by the

Secretary, or any officer authorized in that behalf by the Secretary, shall be evidence of the facts therein stated.

8. Any officer may enter any export establishment in which any officers may dairy produce is being prepared, manufactured or packed for export, establishments, and may open any packages, take samples and do all other things take samples, necessary to enable him to ascertain whether the provisions of these Regulations are being complied with.

- 9.—(1.) The exportation of any dairy produce is prohibited unless— exportation of dairy produce (a) the dairy produce has been prepared or manufactured and dairy produce packed in an export establishment;

  dairy produce prohibited except subject to conditions
  - except subject to conditions. (b) in the opinion of an officer authorized to inspect the dairy produce, the dairy produce is contained in packages
    - which-(i) will not cause it to deteriorate;
      - (ii) will not impart a taint to it when stored; and
      - (iii) are sufficiently strong to enable them to be carried without breakage when subject to ordinary treatment,

and is packed in such a manner and with such material as to ensure that it will arrive at its destination in a sound condition;

- (c) the design, dimensions and nature of any label, brand or mark (other than a label, brand or mark applied by the manufacturer at the time of manufacture or a trade description applied in accordance with these Regulations) applied to the dairy produce, or to the coverings thereof, have been approved by the Secretary;
- (d) the dairy produce complies with the conditions and restrictions (if any) specified in the second column of the Second Schedule opposite to the name or description of the dairy produce;
- (e) in the case of butter (other than tinned butter), cheese (other than tinned cheese), frozen milk, egg pulp, and eggs in shell, which have been inspected and examined in accordance with Part IV. of these Regulations, the goods comply with such of the conditions and restrictions specified in the Third Schedule as are applicable thereto;
- (f) the exporter has obtained an export permit in accordance with these Regulations in respect of the dairy produce.
- (2.) Notwithstanding the provisions of paragraph (d) of subregulation (1.) of this regulation—
  - (a) the Minister may certify that, on account of the use of any dairy produce for experimental purposes, or on account of special circumstances, it is not desirable that the conditions and restrictions referred to in that paragraph should apply to that dairy produce, and accordingly it shall not be necessary for the dairy produce to comply with those conditions and restrictions; and

(b) the Secretary may exempt any dairy produce intended for export to an Eastern destination from compliance with any of those conditions and restrictions.

10.—(1.) The grade of any butter and cheese for the purposes of Grades of these Regulations shall be determined by taking into consideration these cheese. the flavour, aroma, texture (including body, grain and moisture) and condition (including colour, salting, packing and covering) of the butter or cheese, and points shall be allotted for those qualities which shall not exceed the following:-

Flavour and	aroma	 	 50 points.
Texture		 	30 points.
Condition		 	 20 points.

(2.) Butter shall not be graded unless the temperature of the butter is not lower than 50 degrees Fahrenheit and not higher than 62 degrees Fahrenheit.

(3.) Butter and cheese which is graded at the number of points specified in the first column of the following table is in these Regulations referred to as being of the grade specified opposite to that number of points in the second column of that table:-

Number of Points.	Grade.
Butter graded at 93 to 100 points inclusive Butter (including whey butter) graded at 90 to 92 points inclusive Butter (including whey butter) graded at 86 to 80	Choicest quality First quality Second quality
Butter (including whey butter) graded at 86 to 89 points inclusive Butter (including whey butter) graded at 80 to 85 points inclusive	Pastry or Cooking quality
Cheese graded at 93 to 100 points inclusive Cheese graded at 90 to 92 points inclusive Cheese graded at 86 to 89 points inclusive Cheese graded at 80 to 85 points inclusive	Choicest quality First quality Second quality Third quality

#### PART III.—TRADE DESCRIPTIONS.

11.—(1.) Subject to this regulation, the exportation of any dairy exportation of 11.—(1.) Subject to this regulation, the exportation of any dairy produce produce is prohibited unless there is applied to the dairy produce a prohibited unless trade unless trade trade description in accordance with these Regulations.

(2.) This regulation shall apply to dairy produce which is imported applied. into Australia, and is not held in bond, unless the Secretary is satisfied that the dairy produce is not the produce or manufacture of Australia.

12. The trade description to be applied to any dairy produce Trade intended for export shall comply with the provisions (if any) specified description. in the third column of the Second Schedule opposite to the name or description of the dairy produce, and, except in the case of butter (other than tinned butter) intended for export to Great Britain, shall also comply with the following provisions:-

(a) It shall be in the form of a principal label or brand affixed to the dairy produce, or to the coverings containing the dairy produce, in a prominent position and in a conspicuous and reasonably permanent manner.

(b) It shall contain, in prominent and legible characters, a true description of the dairy produce, together with the word "Australia".

(c) It shall be in the English language:

Provided that the Minister may, if he thinks fit, permit the whole or portion of the trade description, other than the word "Australia", to be in some language other than English.

- (d) It shall include any one, and may include all, of the following particulars, namely:-
  - (i) the name of the manufacturer, producer or exporter;

(ii) the registered brand of the manufacturer, producer or exporter; or

(iii) the registered number of the export establishment in which the goods were prepared or manufac-

Provided that the Minister may permit, subject to such conditions as he thinks fit, the brand of the consignee to be included in lieu of the registered brand of the manufacturer, producer or exporter:

Provided further that, where the exporter is not the manufacturer or producer, the trade description shall include the manufacturer's or producer's name or registered brand unless the exporter sets forth in the notice of intention to export the name and address of the manufacturer or producer.

(e) The label or brand shall specify the net weight or quantity

of the dairy produce:
Provided that, in the case of tinned butter, if the weight is specified on the cases, marking on the tins shall

not be necessary. For the purposes of this paragraph—

- (i) the weight specified in respect of butter (other than tinned butter) shall be such that the actual net weight of the contents, exclusive of paper, shall exceed the marked weight by not less than 2 ounces for each 56 pounds of the marked weight, and the words "Net Weight" shall be marked, in prominent characters, on the box;
- (ii) the weight specified in respect of cheese shall be such that the actual net weight of the contents shall exceed the marked weight by not less than one pound of actual weight for each 160 pounds of the marked weight;
- (iii) the weight specified in respect of eggs in shell shall be the net weight per long hundred (ten dozen) and shall be such that the actual weight of the eggs per long hundred shall exceed the marked weight per long hundred by not less than one-sixth of a pound for each long hundred.

13. The trade description to be applied to dairy produce in pursuance Trade description of these Regulations shall have relation to the condition of the dairy applies as at time of the time of chipment produce as at the time of shipment.

shipment.

14.—(1.) A person (other than an officer or a person thereto author- Trade descri ized by an officer) shall not apply the Approved for Export Stamp or descriptions and official marks

the Commonwealth Standardization Trade Mark to any dairy produce. not to be interfered with.

(2.) A person shall not, except by the authority of an officer, remove, alter or interfere with a trade description or official stamp or mark marked on or applied to any dairy produce which is intended for export and has been inspected and examined by an officer.

Penalty: Fifty pounds.

## PART IV.—Supervision, Inspection and Examination.

15.—(1.) Upon the application of any person engaged in the manu-Preparation of facture, preparation or packing of any dairy produce intended for dairy produce export, the Secretary may make available the services of an officer supervision. to supervise the manufacture, preparation or packing of the dairy produce, and that person may then mark on the dairy produce, or on the coverings containing the dairy produce, a statement that the dairy produce has been manufactured, prepared or packed under such supervision, and the supervising officer may sign the state-

ment or stamp his name at the end thereof.

(2.) Where the services of an officer are made available in pursuance of an application under this regulation, the applicant shall pay to the Department the sum of Three shillings for each hour during which the officer is engaged in supervising the manufacture, preparation or packing of the dairy produce, and, in addition, in any case where the amount so payable is exceeded by the expenses incurred by the Department in supplying the services of the officer, the Minister may require to be paid, and if the Minister so requires, the applicant shall pay, a sum equal to the amount of the excess.

16.—(1.) The Secretary may, by writing under his hand, appoint Secretary may any place to be a place where dairy produce intended for export may for inspection of dairy be inspected and examined.

- (2.) In exercising his powers under this regulation, the Secretary may limit the appointment of any place to the inspection and examination of any particular dairy produce or class of dairy produce, or may attach to the appointment any other condition or restriction.
- 17.—(1.) Subject to the next two succeeding sub-regulations, all Dairy produce dairy produce intended for export shall be delivered at an appointed appointed place in sufficient time before shipment to enable an officer to inspect and places. examine it.

(2.) Butter (other than milled butter), cheese, egg pulp and eggs

in shell intended for export shall be delivered at an appointed place and be submitted for inspection and examination at least three clear working days before shipment.

(3.) Milled butter and margarine intended for export shall be delivered at an appointed place and be submitted for inspection and examination at least seven clear working days before shipment.

18. The Secretary may, in exceptional cases, permit the inspection Examination at and examination of dairy produce to be made at a place other than than appointed an appointed place.

19.—(1.) A person who intends to export any dairy produce shall Notice of furnish to the Department, after the goods have been delivered at an export, and appointed place or at any other place permitted by the Secretary in declaration.

pursuance of regulation 18 of these Regulations, a notice and declaration in writing which shall, subject to sub-regulation (3.) of this regulation, be in accordance with Form 3, 4 or 5, as the case requires.

- (2.) The notice and declaration shall be furnished—
  - (a) in the case of butter (other than milled butter), cheese, egg pulp and eggs in shell—at least three clear working days before the proposed date of shipment;
  - (b) in the case of milled butter and margarine—at least seven clear working days before the proposed date of shipment;
  - (c) in the case of all other dairy produce—at least one clear working day before the proposed date of shipment.
- (3.) Where, at the time when any person furnishes a notice and declaration under the last preceding sub-regulation, he is unable to specify the ship by which the dairy produce will be exported, it shall not be necessary for him to specify in the notice and declaration the name of the ship by which the dairy produce is to be exported, the date of sailing of the ship or the destination of the ship, but he shall furnish to the Department, at least one clear working day before the proposed date of shipment, a shipping list in accordance with Form 6 or Form 7, as the case requires.
- 20.—(1.) Where an officer has inspected and examined any dairy Export permits, certificates, &c. produce intended for export and is satisfied that-

- (a) the dairy produce is marked in the prescribed manner with the prescribed trade description; and
- (b) the conditions and restrictions applicable under these Regulations in respect of the dairy produce have been complied with,

the officer-

- (c) shall sign the certificate at the foot of the notice of intention to export furnished in respect of the dairy produce;
- (d) shall issue to the exporter an export permit in accordance with Form 8;
- (e) in the case of butter and cheese graded at 93 points or over-shall mark the coverings or labels of the dairy produce with the Commonwealth Standardization Trade Mark;
- (f) in the case of butter and cheese graded at 92 points or under, eggs in shell, egg pulp and margarine-shall mark the coverings or labels of the dairy produce with the Approved for Export Stamp;
- (g) shall, if the exporter so requires, issue to the exporter a certificate in accordance with whichever of Forms 9 to 18 (inclusive) is applicable in the circumstances; and
- (h) shall, in the case of butter, cheese, eggs in shell, egg pulp and margarine, mark the coverings or labels of the dairy produce with the number of the certificate.
- (2.) When any dairy produce is brought to a wharf for shipment, the exporter shall deliver the export permit issued in respect of that dairy produce to the officer of customs on duty at the ship by which the dairy produce is to be exported.

- (3.) Where a certificate is issued to an exporter in pursuance of paragraph (g) of sub-regulation (1.) of this regulation, the officer shall, if so required, furnish a copy of the certificate to the manufacturer of the dairy produce in respect of which the certificate was issued.
- (4.) Where the owner of any dairy produce which has been marked in accordance with the provisions of paragraph (e) or (f) of sub-regulation (1.) of this regulation does not intend to export the dairy produce, he shall not remove it from the cool store in which it was placed after inspection and examination unless there has been stamped across the markings a design approved by the Secretary and including the words "Withdrawn from export".

Penalty: Fifty pounds.

21.—(1.) If an officer has reasonable cause to think that, since Re-examination the inspection and examination of any dairy produce intended for of dairy produce and export, the condition, quality, grade or class of the dairy produce has cancellation of the dairy produce has cancellation of permit, changed, he may re-examine the dairy produce, and if, having regard certificate, &c. to the condition, quality, grade or class of the dairy produce as disclosed by the re-examination, he is satisfied that-

- (a) the dairy produce is not marked in the prescribed manner with the prescribed trade description; or
- (b) any condition or restriction applicable under these Regulations has not been complied with,

the officer may cancel the export permit and any certificate as to the condition of the dairy produce issued in respect of that dairy produce.

(2.) Where an export permit or certificate as to the condition of any dairy produce has been cancelled under the last preceding subregulation, the exporter shall, if so required by an officer, forthwith surrender the permit or certificate, as the case may be, to the officer.

Penalty: Fifty pounds.

  - (a) It shall be indelibly impressed on both ends of the box and shall be in accordance with such one of the designs set out in the Fourth Schedule as is applicable thereto.
  - (b) In the case of choicest quality creamery butter, it may include a registered word, which shall be placed immediately above the design and shall be in condensed type sans serif capital letters ½ inch high and ¼ inch thick. No letter shall be more than ¾ inch wide and the letters shall be spaced ¼ inch apart.

FIRST COLUMN.	Second Column.	
Name or description of dairy produce.	Conditions and Restrictions to be complied with in addition to those contained in regulation 9.	a
1. Butter—continued.	<ul> <li>(f) The outside surfaces of the ends of each box shall be smoothly planed, or be of veneer finish, and the outside surfaces of the sides, top and bottom of each box shall be planed or smoothly sawn, or be of veneer finish.</li> <li>(g) Except in respect of cleats used in the manufacture of the box, only one species of timber shall be used in each box.</li> <li>(h) The boards comprising the ends, sides, top and bottom of each box shall— <ul> <li>(i) be not less than ½ inch in thickness; and</li> <li>(ii) consist of single pieces of timber, or of two-piece or three-piece boards matched and closely jointed by the lap joint or tongue and groove jointing methods.</li> </ul> </li> </ul>	
	<ul> <li>(i) All cleats used in the manufacture of boxes shall—</li> <li>(i) consist of clean timber dressed on the outer surface;</li> <li>(ii) be free from knots;</li> <li>(iii) match the timber used in the box;</li> </ul>	
	<ul> <li>(iv) be of hardwood, Queensland hoop pine, or (except in the case of side cleats) hemlock, approved by the Secretary.</li> <li>(v) in the case of cleats of hardwood, be not less than <sup>5</sup>/<sub>8</sub> inch in thickness and <sup>7</sup>/<sub>k</sub> inch in width;</li> </ul>	
	<ul> <li>(vi) in the case of cleats of Queensland hoop pine or hemlock, be not less than \$\frac{3}{4}\$ inch in thickness and \$\frac{7}{4}\$ inch in width: and</li> <li>(vii) be of the half lap, mortise and tenon, or knuckle jointed type.</li> <li>(j) The inside measurements of each box shall be as follows:—</li> </ul>	
	$egin{array}{ll}  ext{Length}12rac{1}{4}  ext{ inches ;} \  ext{Width}12  ext{ inches ;} \  ext{Denth}11rac{1}{4}  ext{ inches.} \end{array}$	
	<ul> <li>(k) Each box shall be bound with three galvanized iron wire bindings of not less than sixteen gauge wire, which shall be affixed to the box by staples.</li> <li>(l) The staples fixing the end wires shall be \(\frac{7}{3}\) inch long, and shall be not less than sixteen gauge when hardwood cleats are used, and not less than 1 inch long when Queensland hoop pine cleats are used. The staples on the centre wire shall be \(\frac{7}{13}\) inch long and not less than eighteen gauge and shall be \(\frac{7}{13}\) inch long and not less than eighteen gauge and</li> </ul>	

shall be firmly clinched on the inside.

THIRD COLUMN.

Provisions relating to trade descriptions in addition to those contained in regulation 12.

- (c) No other brands or marks
- appear on the box.

  3. Notwithstanding anything contained in paragraph 2, where butter (other than tinned butter) for export to Great Britain and bearing the trade description applicable to choicest quality creamery butter is found, on inspection and examination under these Regulations, to be graded at 92 points, the trade description to be applied to that butter shall be—
  - (a) the trade description applicable to first quality creamery butter; or
  - (b) the trade description applicable to choicest quality creamery butter, together with the words "First Quality" stamped above the word " Australia" and within the map of Australia by means of a rubber stamp in indelible violet coloured ink in letters measuring ½ inch high and  $\frac{1}{16}$  inch thick.

FIRST COLUMN.	SECOND COLUMN.
Name or description of dairy produce.	Conditions and Restrictions to be complied with in addition to those contained in regulation 9.
1. Butter—centinued.	<ul> <li>(m) There shall be not less than six staples fixing each wire to each of the sides, top and bottom of a box.</li> <li>(n) One side edge of each side, top and bottom board of each box shall completely cover the side edge of the adjoining board, and the wire bindings shall be in tension when the several sections are folded for the purpose of obtaining a square tight corner.</li> <li>(o) The end boards of each box shall be securely fastened to the cleats by not less than three galvanized nails of sixteen gauge approximately \(\frac{3}{2}\) inch long, evenly spaced, and driven into each side cleat, and by one such nail driven into the bottom cleat of the box.</li> <li>(p) The top board of each box shall be tightly closed and the ends of each binding wire shall be twisted tightly together and driven flat along the sides of the box.</li> <li>(q) Each box shall be so assembled that every joint is light proof and dust proof.</li> <li>(r) Each box shall be clean, and free from sawdust or other material likely to damage the contents.</li> <li>(s) A box into which any butter has previously been packed shall not be used again for the same purpose.</li> <li>10. Paragraph 9 shall not apply to tinned butter or to pat butter exported to an Eastern destination which may be exported in cases of a type approved by the Secretary.</li> <li>11.—(1.) The top surface of the butter contained in each box shall bear an impression of a design approved by the Secretary.</li> <li>(2.) The design shall be impressed by means of a roller 12 inches long by 12 inches in circumference.</li> <li>(3.) In the case of choicest quality butter, the design shall include the word "Australia" enclosed in a panel 10½ inches long by 3 inches wide (outside measurement) comprising a border ½ inch wide situated in the centre of the impression and surrounded by a honeycomb design, each section of which shall be ½ inch square by \(\frac{3}{2}\) inch deep. The word "Australia" shall be in letters 2 inches high and the outline of each letter shall be ½ in</li></ul>

Provisions relating to trade descriptions in addition to those contained in regulation 12.

4. In the case of butter which has been manufactured without the

THIRD COLUMN.

- been manufactured without the addition of salt but contains not more than .075 parts per centum of sodium chloride, the trade description shall include the word "UNSALTED" in condensed type sans serif capital letters \( \frac{1}{2} \) inch high and \( \frac{1}{16} \) inch thick on each end of the box immediately below the design comprising the trade description. The word "UNSALTED" shall be 2\( \frac{1}{2} \) inches long.
- 5. In the case of milled butter, the trade description shall indicate, by a mark or marks approved by the Secretary, the date of milling. The mark or marks shall be applied to the left hand top corner of the end or side of each outer covering bearing the trade description.
- 6. In the case of butter (other than milled butter and butter in pats or tins) which has been repacked by any person other than the manufacturer thereof under a brand other than the brand of the manufacturer, the trade description shall include the word "Repacked" indelibly impressed in prominent characters.

FIRST COLUMN.	SECOND COLUMN.	THIRD COLUMN.
Name or description of dairy produce.	Conditions and Restrictions to be complied with in addition to those contained in regulation 9.	Provisions relating to trade descriptions in addition to those contained in regulation 12.
1. Butter—continued.	(4.) Except in the case of choicest quality butter, the whole design shall consist of a honeycomb impression, each section of which shall be \frac{1}{2} inch square by \frac{3}{16} inch deep:  Provided that where an officer has inspected and examined butter bearing the design prescribed for choicest quality butter and is satisfied that the butter is first quality butter that design may be allowed to remain on the butter.	7. In the case of butter (other than milled butter and butter in tins), the trade description shall include the following marks:—  (a) figures representing the number of the vat;  (b) figures representing the number of the churn;  (c) figures indicating the number of boxes in the churning; and  (d) figures representing the day of the month on which, and the month in which, the butter was churned.  The marks shall be applied in violet coloured ink to the lefthand top corner of the ends of the boxes bearing the trade description, by means of rubber stamps, in figures ½ inch high and ½ inch thick. The marks referred to in sub-paragraphs (a), (b) and (c) shall be in one line and shall be applied in the following order:—  (1) the number of the churn;  (3) the number of the churn;  (3) the number of boxes in the churning.  The marks referred to in sub-paragraph (d) shall be applied immediately below the line containing the other marks.

FIRST COLUMN.	SECOND COLUMN.	THIRD COLUMN.
Name or description of dairy produce.	Conditions and Restrictions to be complled with in addition to those contained in regulation 9.	Provisions relating to trade descriptions in addition to those contained in regulation 12.
2. Casein.	I. The casein shall contain not more than 12 parts per centum of water.	
3. Cheese.	<ol> <li>Cheese shall not contain any foreign matter other than rennet, salt, or such colouring matter as, in the opinion of the Minister, is harmless.</li> <li>The cheese shall not, in the opinion of the officer by whom it is inspected and examined, be unfit for export.</li> <li>The cheese shall not, except with the approval of the Secretary, have been manufactured or stored in premises wherein margarine or fat (other than butter fat) is manufactured or stored.</li> <li>The cheese shall, unless the Secretary otherwise approves, be at least three weeks old when it is inspected and examined.</li> <li>Australian Cream Cheese shall contain not more than 50 parts per centum of water and not less than 65 parts per centum of milk fat in the water free substance.</li> <li>Australian Whole Milk Cheddar Cheese shall contain not more than 40 parts per centum of water and not less than 50 parts per centum of milk fat in the water free substance.</li> <li>In the case of Australian Whole Milk Cheddar Cheese exported to Great Britain, at least half of each consignment exported on or before 30th June, 1938, and the whole of each consignment exported after that date, shall comply with the following conditions:          <ul> <li>(a) Each cheese shall be rimless.</li> <li>(b) Each cheese shall weigh approximately 80 pounds or 40 pounds:</li></ul></li></ol>	1. The trade description shall be indelibly impressed on both ends of the crate, and shall include in prominent and legible characters—  (a) the word "Coloured" stamped in red ink, or the word "White" stamped in violet ink, as the case may be, applied by means of a rubber stamp in letters \( \frac{1}{3} \) inch high by \( \frac{3}{32} \) inch thick on the ends of the crates immediately below the trade description;  (b) a true description of the variety of the cheese;  (c) figures \( \frac{7}{3} \) inch high and \( \frac{1}{3} \) inch thick, stamped in violet ink above the trade description by means of a rubber stamp indicating, in one line, the number of the variety below that line, the number of crates from the vat; and

- (a) the word "Coloured" stamped in red ink, or the word "White" stamped in violet ink, as the case may be, applied by means of a rubber stamp in letters inch high by 32 inch thick on the ends of the crates immediately below the trade descriplow the trade description;
- (b) a true description of the variety of the cheese;
- (c) figures 7 inch high and 1 inch thick, stamped in violet ink above the trade description by means of a rubber stamp indicating, in one line, the number of the vat and the date of manufacture, and, immediately below that line, the number of crates from the vat; and

## SECOND SCHEDULE—continued.

FIRST COLUMN.	Second Column.	THIRD COLUMN,
Name or description of dairy produce.	Conditions and Restrictions to be complied with in addition to those contained in regulation 9.	Provisions relating to trade descriptions in addition to those contained in regulation 12.
3. Cheese—continued.	<ol> <li>Australian Grated Cheddar Cheese shall contain not more than 10 parts per centum of water and not less than 27.75 parts per centum of milk fat in the water free substance. It shall not be more than 3 parts per centum.</li> <li>Australian Cream Cheese Spread shall consist of cream cheese with an admixture of flavouring substances approved by the Secretary and shall contain not more than 62.5 parts per centum of water and not less than 52.5 parts per centum of milk fat in the water free substance.</li> <li>Australian Cream Cheese Relish shall consist of cream cheese with an admixture of flavouring substances approved by the Secretary and the finished mixture shall consist of not less than 70 parts per centum of cream cheese.</li> <li>Australian Tinned Cheddar Cheese shall consist of Australian whole milk cheddar cheese finely ground and packed in tins. It shall contain not more than 40 parts per centum of water and not less than 50 parts per centum of milk fat in the water free substance. It may contain not more than 2 grains of sulphur dioxide for each pound of cheese.</li> <li>Australian Processed Cheese Relish shall consist of processed cheese with an admixture of flavouring substances approved by the Secretary. It shall contain not more than 45 parts per centum of water and not less than 45 parts per centum of milk fat in the water free substance.</li> <li>Australian Gruyere Cheese shall contain not more than 40 parts per centum of water and not less than 45 parts per centum of milk fat in the water free substance.</li> <li>Australian Processed Gruyere Cheese shall contain not more than 42 parts per centum of water and not less than 42.5 parts per centum of milk fat in the water free substance.</li> <li>The crates in which cheese is packed for export to Great Britain shall be constructed in accordance with the following provisions:—         <ul> <li>(a) Each crate shall have twelve sides which shall be so arranged that the angles between each pair of adjace</li></ul></li></ol>	(d) figures indicating the number of the crate applied to the ends of the crates below the word "Coloured" or "White" as the case may be.  2. In the case of partially skimmed milk cheese, there shall, in addition, be marked on the cheese itself, and also on the packages or containers, in clear and legible characters, the words "Made from Partially Skimmed Milk"

FIRST COLUMN.	SECOND COLUMN.	THIRD COLUMN.
Name or description of dairy produce.	Conditions and Restrictions to be complied with in addition to those contained in regulation 9.	Provisions relating to trade descriptions in addition to those contained in regulation 12.
3. Cheese—continued.	<ul> <li>(e) When two 80 pound cheeses are packed in a crate, the crate shall have ends and a centre board \$\frac{7}{8}\$ inch thick.</li> <li>(f) When three 40 pound cheeses are packed in a crate, the cheese shall be separated by the use of division boards and the division boards and the ends of the crate shall be \$\frac{3}{8}\$ inch thick.</li> <li>(g) The ends and centre-boards and division boards shall measure 15 inches between each opposite pair of sides and shall consist of single pieces of timber, or of two-piece boards joined in a manner approved by the Secretary.</li> <li>(h) The centre boards and division boards shall be affixed to the crate with the grain of the board at right angles to the grain of the end boards.</li> <li>(i) The sides shall be of single piece battens smooth on the outside and with bevelled edges. Each batten shall be \$\frac{3}{4}\$ inches wide and \$\frac{3}{8}\$ inch thick.</li> <li>(j) When 80 pound cheeses are packed in a crate, the side battens shall be 28 inches long and when 40 pound cheeses are packed in a crate the side battens shall be 24 inches long.</li> <li>(k) The nails used in assembling the crate shall be \$\frac{3}{4}\$ inches long by 13 gauge and shall have flat heads.</li> <li>(l) The crates shall be bound approximately 3 inches from each end with galvanized box strapping wire of 16 gauge of a breaking strength of not less than 350 pounds.</li> <li>(m) The crates shall be fitted with scale boards approved by the Secretary in such a manner as will prevent the cheese from adhering to the timber.</li> <li>19. The cheese contained in each crate exported to Great Britain shall be packed in crates constructed in a manner approved by the Secretary and the cheese shall be packed in a manner approved by the Secretary.</li> </ul>	
4. Cocoa and milk preparations and Coffee and milk preparations.	<ol> <li>The goods shall not contain any preservative. If they contain any condensed milk, it shall comply with the provisions of this Schedule relating thereto.</li> <li>The goods shall be packed in cases which, in the opinion of the officer by whom the goods are inspected and examined, are sufficiently strong to withstand such handling as is ordinarily incidental to transport to a destination beyond the Commonwealth. The cases shall be strapped with metal strapping or wire.</li> </ol>

Name or description of dairy produce.	Conditions and Restrictions to be complied with in addition to those contained in regulation 9.	Provisions relating to trade descriptions in addition to those contained in regulation 12.
5. Cream.	<ol> <li>The cream shall not contain any foreign substance.</li> <li>If the cream is pasteurized, it shall contain not less than 35 parts per centum of milk fat.</li> <li>If the cream is sterilized—         <ul> <li>(a) it shall have been sterilized by heat and subsequently protected from contamination; and</li> <li>(b) it shall contain not less than 25 parts per centum of milk fat.</li> </ul> </li> </ol>	
6. Egg pulp.	<ol> <li>The egg pulp shall have been prepared from eggs which are fit for human consumption.</li> <li>It shall contain—         <ul> <li>(a) in the case of liquid whole eggs—not more than 74 per centum of moisture;</li> <li>(b) in the case of white of egg—not more than 86 per centum of moisture; and</li> <li>(c) in the case of egg yolk—not more than 51 per centum of moisture.</li> </ul> </li> <li>It shall not contain any foreign substances or shell.</li> <li>It shall, in the opinion of the officer by whom it is inspected and examined, be fit for human consumption and fit for export.</li> <li>It shall have been prepared and packed in accordance with the following provisions:—</li></ol>	1. The trade description shall state whether the pulp is that of whole eggs, white of eggs or yolk of eggs.

21

FIRST COLUMN.	SECOND COLUMN.
Name or description of dairy produce.	Conditions and Restrictions to be complied with in addition to those contained in regulation 9.
7. Eggs in shell-	<ol> <li>The eggs shall be sound, fit for human consumption and free from meat spots, blood spots, diffused blood, foreign substances and abnormalities.</li> <li>Each egg shall have a translucent, or faintly but not clearly visible, yolk in the centre of the egg, a translucent and firm white, and an air space which is not greater than ½ inch deep.</li> <li>The shells of the eggs shall not be misshapen, rough, thin, cracked or broken, shall be free from stain, dirt and other foreign matter, and shall not have been washed.</li> <li>The eggs shall not be more than seven days old and shall be considered by an officer, after examination by the candling process, to be fit for export.</li> <li>No egg shall be less than 1½ ounces in weight and 120 eggs shall weigh at least 13½ pounds.</li> <li>The eggs shall have been graded and packed at a reasonable distance from any place where eggs are pulped.</li> <li>The eggs shall not have been subjected to any preservative process or have been placed in cold store before being submitted for export.</li> <li>The eggs shall be packed in clean new cases, constructed of well seasoned softwood or hardwood which has been smoothly sawn or dressed in a manner approved by the Secretary, strapped with metal strapping or wire, and sufficiently strong, in the opinion of the officer by whom the eggs are inspected and examined, to withstand such handling as is ordinarily incidental to transport to destinations beyond the Commonwealth. The eggs in each box shall be of uniform size.</li> <li>Hen eggs shall be packed in accordance with such one of the following sizes as is applicable to the description of the eggs:—         <ul> <li>(a) Size 1.—Not less than 13½ pounds net weight per each ten dozen eggs, but no egg shall weigh less than 1½ ounces nor more than 2½ ounces.</li> <li>(b) Size 2.—Not less than 15 pounds net weight per each ten dozen eggs, but no egg shall weigh less than 15 nounds net weight per each ten dozen eggs, but no</li></ul></li></ol>

THIRD COLUMN.

Provisions relating to trade descriptions in addition to those contained in regulation 12.

1. The trade description shall be applied to both ends of the case,

2. The word "Australia" and the registered number of the export establishment in which the egg was packed for export shall be legibly branded on the large end of each egg, in indelible violet coloured ink, by means of a rubber stamp. The word shall be in a straight line, in sans serif capital letters of eight point full face measurement (condensed type). The registered number shall be placed

(e) Size 5.—Not less than 17 pounds net weight per each ten dozen eggs, but no

egg shall weigh less than  $2\frac{1}{8}$  ounces nor more than  $2\frac{2}{8}$  ounces.

	CECOND CONEDULE—Continued.	
FIRST COLUMN.	SECOND COLUMN.	THIRD COLUMN.
Name or description of dairy produce.	Conditions and Restrictions to be complied with in addition to those contained in regulation 9.	Provisions relating to trade descriptions in addition to those contained in regulation 12.
	(f) Size 6.—Not less than 18 pounds net weight per each ten dozen eggs, but no egg shall weigh less than 2½ ounces nor more than 2½ ounces.  10. Each hen egg shall be packed large end uppermost—  (a) in a separate division in a Keyes filler flat; or  (b) in an ordinary filler with Mapes type of flat constructed of new white odourless wood pulp board, the thickness of which shall, if less than .028 caliper, be approved by the Secretary.  No other packing material or mode of packing shall be used without the approval of the Secretary.  11. Hen eggs shall be packed only in cases containing 15 dozen or 30 dozen eggs and the cases shall be made in accordance with the following specifications:—  (a) The ends of each case shall be not less than ½ inch thick, if made of spruce or hemlock, and not less than ½ inch thick if made of any other timber, and shall be dressed on the outside.  (b) The boards forming the sides, top and bottom of each case shall be not less than ½ inch thick.  (c) The top and bottom of each case shall be placed so as to overlap, and be flush with, the sides.  (d) Unless the Secretary in any particular case otherwise approves, a case containing 30 dozen eggs shall contain a middle division board of not less than ½ inch thick, which shall be placed in the case with the grain of the timber running horizontally across the case.  (e) Each case shall be constructed so as to permit of the accurate fitting of fillers, flats, or filler flats.  (f) Each case shall be bound at both ends with galvanized wire of not lower than 16 gauge, or with metal strapping of a kind approved by the Secretary.  (g) Subject to sub-paragraph (i) of this paragraph, the inside measurements of cases containing 30 dozen eggs of sizes 1, 2, 3 or 4 which are packed with Keyes filler flats shall be as follows:—  Sizes 1, 2 and 3—length 23½ inches; width 11 inches; depth 12½ inches.	immediately below the word "Australia". The word and number shall be enclosed in a circle $\frac{9}{16}$ inch in diameter.

FIRST COLUMN.	SECOND COLUMN.	THIRD COLUMN.
Name or description of dairy produce.	Conditions and Restrictions to be complied with in addition to those contained in regulation 9.	Provisions relating to trade descriptions in addition to those contained in regulation 12.
7. Eggs in shell—con tinued.	(h) Subject to sub-paragraph (i) of this paragraph, the inside measurements of cases containing 30 dozen eggs which are packed with ordinary fillers and Mapes type flats shall be as follows:—  Sizes 1 and 2—length 22½ inches; width 11 inches; depth 11¾ inches. Size 3—length 23¾ inches; width 11¾ inches; depth 12⅓ inches. Size 4—length 23¾ inches; width 11⅓ inches; depth 13 inches. Size 5—length 23¾ inches; width 11⅓ inches; depth 13½ inches. Size 6—length 24⅓ inches; width 11⅓ inches; depth 14½ inches. (i) Where the Secretary permits the use of a case not containing a middle division board, the inside measurement of the length of the case shall be ¼ inch less than the length specified in sub-paragraph (g) or (h) of this paragraph.  12. Duck eggs shall be packed in such manner and in cases of such dimensions and containing such quantity as are approved by the Secretary.  13. Duck eggs shall not be packed in the same case as hen eggs.	
8. Ghee.	<ol> <li>Ghee shall not contain any substance foreign to milk other than sodium chloride not exceeding 3 parts per centum.</li> <li>It shall not be rancid.</li> <li>It shall be packed in clean new tins capable of containing approximately 40 pounds of ghee.</li> </ol>	
9. Margarine.	<ol> <li>The margarine shall not contain—         <ul> <li>(a) any oil or other matter not necessary for the manufacture of the margarine or which causes the colour of the finished product to resemble butter;</li> <li>(b) any fat obtained from diseased stock or refined in other than steam-jacketted kettles or pots;</li> <li>(c) more than 10 parts per centum of butter fat;</li> <li>(d) more than 16 parts per centum of water;</li> <li>(e) any added colouring matter; or</li> <li>(f) any substance which, in the opinion of the Minister, is harmful to health.</li> </ul> </li> </ol>	1. The trade description shall include the word "Margarine" conspicuously and indelibly impressed in block letters at least inch square in a prominent position on the top, bottom and sides of the outer covering, and shall also include the date of manufacture of the margarine.

FIRST COLUMN.	SECOND COLUMN.	THIRD COLUMN.		
Name or description of dairy produce.	Conditions and Restrictions to be complied with in addition to those contained in regulation 9.	Provisions relating to trade descriptions in addition to those contained in regulation 12.		
10. Concentrated milk.	<ol> <li>The concentrated milk shall be pasteurized milk concentrated by any process of concentration. It shall not have been sterilized after concentration.</li> <li>It shall contain 9 parts per centum of milk fat and 24 parts per centum of milk solids other than fat and shall not contain any foreign substance.</li> <li>The concentrated milk shall be packed in cases which, in the opinion of the officer by whom the goods are inspected and examined, are sufficiently strong to withstand such handling as is ordinary incidental to transport to a destination beyond the Commonwealth. The cases shall be strapped with metal strapping or wire.</li> </ol>			
11. Condensed Milk.	<ol> <li>The condensed milk shall be milk which has been condensed or concentrated by any process of condensation or concentration.</li> <li>If cane sugar is added, the milk shall contain not less than 31 parts per centum of total milk solids and not less than 9 parts per centum of milk fat. If cane sugar is not added, the milk shall contain not less than 28 parts per centum of total milk solids and not less than 8 parts per centum of milk fat.</li> <li>The milk shall be completely soluble in water, free from any form of germ life capable of causing injurious fermentation therein, and from all nodules or partly coagulated lumps of milk.</li> <li>The milk shall not contain any preservative.</li> <li>The provisions of paragraphs 1 to 4 (inclusive) shall not apply to condensed milk containing not less than 7.8 parts per centum of milk fat and not less than 29.8 parts per centum of milk solids of all kinds and intended for export to South Africa, China, Japan, the Philippine Islands, Straits Settlements, and other parts adjacent thereto (except the Federated Malay States) to the east of the 90th meridian of east longitude.</li> <li>The condensed milk shall be packed in cases, which, in the opinion of the officer by whom the goods are inspected and examined, are sufficiently strong to withstand such handling as is ordinarily incidental to transport to a destination beyond the Commonwealth. The cases shall be strapped with metal strapping or wire.</li> </ol>			
12. Condensed skimmed milk	1. The condensed skimmed milk shall be milk from which the milk fat has been wholly or partially removed.

15. Milk (other than pasteurized and sterilized milk), including frozen milk.	<ol> <li>The milk shall be the normal clean and sweet secretion obtained from the udder of healthy cows properly fed and kept and regularly milked. It shall not include any milk obtained during the seven days immediately following parturition.</li> <li>It shall contain not less than 8.5 parts per centum of milk solids other than fat and 3.2 parts per centum of milk fat. It shall not contain any added water or any other added substance.</li> <li>It shall not contain any preservative.</li> <li>It shall be packed in clean new containers of a type approved by the Secretary.</li> </ol>	
16. Milk sugar.	1. The milk sugar shall not contain—  (a) any sugar other than that extracted from milk;  (b) more than 7 per centum of water;  (c) any preservative substance; or  (d) any injurious substance foreign to milk.	

27

#### THIRD SCHEDULE.

#### Reg. 9.

# PROVISIONS TO BE COMPLIED WITH BY DAIRY PRODUCE AFTER EXAMINATION.

1. The goods shall be placed in a cool store at an appointed place within such times after examination, and shall be kept at such temperatures, as are respectively specified in the following Table opposite to the name of the goods:—

1 1		11
Name of Goods.	Time within which Goods must be placed in a Cool Store.	Temperature.
Butter (other than tinned Cheese (other than tinned Egg Pulp Eggs in shell Frozen milk	12 hours 12 hours 4 hours 24 hours Immediately after examination	Not exceeding 20 degrees Fah.  Not exceeding 50 degrees Fah. nor below 40 degrees Fah.  Not exceeding 5 degrees Fah.  Not exceeding 40 degrees Fah.  nor below 32 degrees Fah.  Not exceeding 20 degrees Fah.

- 2.—(1.) Where any goods have been placed in a cool store in accordance with the last preceding paragraph, they shall not be removed therefrom for exportation without the authority of an officer.
- (2.) An authority shall not be given for the removal of butter, cheese or egg pulp from a cool store for exportation unless the temperature of the goods at the time of removal is—

  - (a) in the case of butter—20 degrees Fahrenheit or under;
    (b) in the case of cheese—not lower than 40 degrees Fahrenheit nor higher than 50 degrees Fahrenheit; and
  - (c) in the case of egg pulp-12 degrees Fahrenheit or under.
- 3.—(1.) Where the goods are removed from a cool store at an appointed place to a ship's side by any mode of conveyance other than insulated railway trucks, the vehicles in which they are conveyed shall be so constructed as to prevent any contamination of the goods or any increase in the temperature of the goods during transit.
- (2.) Before any vehicles are used for the purposes of removing butter the approval of the Secretary as to the design, construction and equipment of the vehicles shall be obtained.
  - (3.) The vehicles shall be maintained in a clean and sanitary condition.
- 4. If the refrigerating machinery in any appointed place becomes wholly or partly inoperative from any cause, and the temperature of the place thereby rises above the prescribed temperature, notice of the fact shall immediately be given by the proprietor or occupier to the officer in charge at that appointed

#### FOURTH SCHEDULE.

DESIGNS TO BE APPLIED TO BUTTER (OTHER THAN TINNED BUTTER) EXPORTED TO GREAT BRITAIN.

Provisions to be Complied with by All Designs.

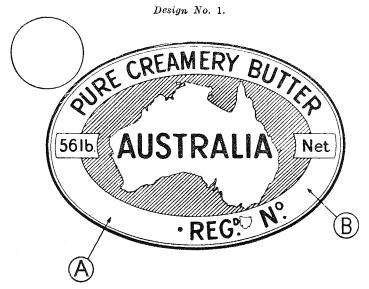

All the designs shall comply with the following provisions:-

(1) The oval shall measure 9 inches by 61 inches overall and shall measure 1 inch from the outer to the innermost line.

- (2) The space between the two innermost lines shall be  $^{27}/_{22}$  inch and the space between the two outer lines shall be  $^{1}/_{16}$  inch.
- space between the two outer lines shall be <sup>1</sup>/<sub>16</sub> inch.
  (3) The outer line of the oval shall be <sup>3</sup>/<sub>32</sub> inch thick. The inside line of the oval shall be <sup>1</sup>/<sub>32</sub> inch thick. The innermost line of the oval shall be <sup>1</sup>/<sub>32</sub> inch thick.
  (4) The words "PURE CREAMERY BUTTER" shall be in capital letters <sup>9</sup>/<sub>16</sub> inch high and <sup>3</sup>/<sub>22</sub> inch thick.
  (5) The figures and letters "56 lb. Net" shall be ½ inch high and <sup>1</sup>/<sub>16</sub> inch thick, with the exception of the letter "e", which shall be ¾ inch high.
- high.
- (6) The circle above the left hand top corner shall have a diameter of 23 inches inside measurement and its left hand edge shall be 1 inch from the inside edge of the left hand cleat on the end of the box.
- (7) The thickness of all lines not otherwise provided for shall be 1/16 inch.
- (8) The name of the State shall appear in the space marked "A".
- (9) The registered number of the factory shall appear in the space marked "B".

#### CHOICEST QUALITY CREAMERY BUTTER.

The trade description shall be printed on both ends of the box in blue ink in accordance with the following design:—

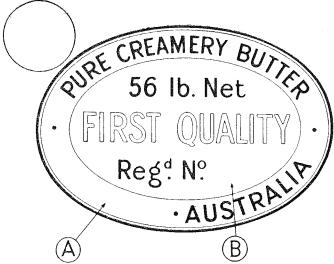

Design No. 1 shall comply with the following additional provisions:-

- (1) The map of Australia shall measure 54 inches across.
- (2) The lines of shading shall be  $^{1}/_{32}$  inch thick and  $^{1}/_{16}$  inch apart.
- (3) The word "Australia" shall be in letters a inch high and a inch thick.
- (4) The name of the State and the letters "Regd. No." shall be in letters "/16 inch high and 3/32 inch thick, with the exception of the letters "D" and "O", which shall be 3/8 inch high and 1/16 inch thick.
  (5) The figures showing the registered number shall be 9/16 inch high and 3/16 inch thick.
- 3/32 inch thick.
- (6) The frames surrounding "56 lb." and "Net" shall measure 1 inch wide and \(\frac{3}{4}\) inch high. The space between the border of the oval and the frames shall be \(^3/\_{22}\) inch.

#### FIRST QUALITY CREAMERY BUTTER.

The trade description shall be printed on both ends of the box in black ink in accordance with the following design:—

Design No. 2.

Design No. 2 shall comply with the following additional provisions:—

(1) The words "First Quality" shall be in letters 1 inch high and 3/16 inch thick and the space between the lines shall be 3/32 inch.

(2) The name of the State and the word "Australia" shall be in letters 1/16 inch high and 3/32 inch thick.

(3) The letters "Regd. No." shall be 3/3 inch high and 1/16 inch thick with the exception of the letters "d" and "o", which shall be 1/2 inch high, and the letters "R" and "N", which shall be 1/2 inch high.

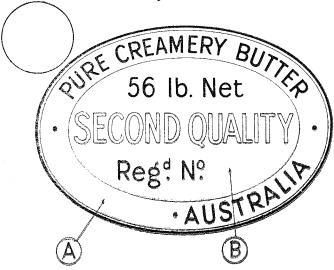

(4) The figures showing the registered number shall be 1/16 inch high and 1/16 in

3/32 inch thick.

SECOND QUALITY CREAMERY BUTTER.

The trade description shall be printed on both ends of the box in brown ink in accordance with the following design:-

Design No. 3.

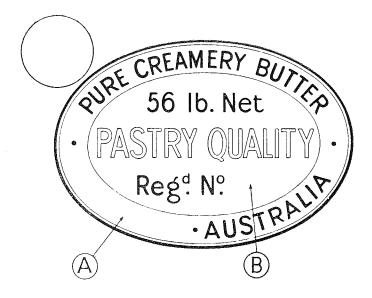

Design No. 3 shall comply with the following additional provisions:-

- (1) The words "Second Quality" shall be in letters 1 inch high and \$\frac{3}{16}\$ inch thick and the space between the lines shall be \$\frac{3}{62}\$ inch.
- (2) The name of the State and the word "Australia" shall be in letters  $^9/_{16}$  inch high and  $^3/_{32}$  inch thick.
- (3) The letters "Regd. No." shall be  $\frac{3}{4}$  inch high and  $\frac{1}{16}$  inch thick with the exception of the letters "d" and "o", which shall be  $\frac{1}{4}$  inch high, and the letters "R" and "N", which shall be  $\frac{1}{2}$  inch high.
- (4) The figures showing the registered number shall be  $^9/_{16}$  inch high and  $^3/_{32}$  inch thick.

#### PASTRY QUALITY CREAMERY BUTTER.

The trade description shall be printed on both ends of the box in red ink in accordance with the following design:—

Design No. 4.

Design No. 4 shall comply with the following additional provisions:-

- (1) The words "Pastry Quality" shall be in letters 1 inch high and <sup>3</sup>/<sub>16</sub> inch thick and the space between the lines shall be <sup>3</sup>/<sub>22</sub> inch.
- (2) The name of the State and the word "Australia" shall be in letters  $^{9}\!/_{10}$  inch high and  $^{3}\!/_{32}$  inch thick.
- (3) The letters "Regd. No." shall be \(\frac{2}{3}\) inch high and \(^1/10\) inch thick with the exception of the letters "d" and "o", which shall be \(\frac{1}{2}\) inch high, and the letters "R" and "N", which shall be \(\frac{1}{2}\) inch high.
- (4) The figures showing the registered number shall be  $^9/_{16}$  inch high and  $^3/_{32}$  men thick.

#### WHEY BUTTER.

The trade description shall be printed on both ends of the box in red ink in accordance with the following design:—

Design No. 5.

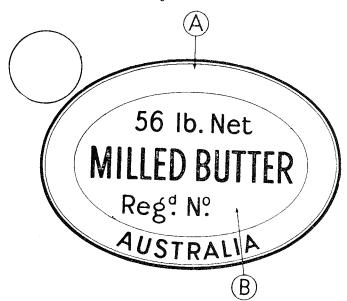

Design Number 5 shall comply with the following additional provisions:-

- (1) The words "Whey Butter" shall be in letters 1 inch high and inch thick.
- (2) The name of the State and the word "Australia" shall be in letters  $^{9}_{/16}$  inch high and  $^{3}_{/32}$  inch thick.
- (3) The figures showing the registered number shall be  $^9/_{16}$  inch high and  $^3/_{32}$  inch thick.
- (4) The letters "Regd. No." shall be \$\frac{2}{3}\$ inch high and \$^1\_{/16}\$ inch thick, with the exception of the letters "d" and "o", which shall be \$\frac{1}{2}\$ inch high, and the letters "R" and "N", which shall be \$\frac{1}{2}\$ inch high and \$^1\_{/16}\$ inch thick,

#### MILLED BUTTER.

The trade description shall be printed on both ends of the box in red ink in accordance with the following design:—

Design No. 6.

Design No. 6 shall comply with the following additional provisions:—

- (1) The words "Milled Butter" shall be in letters 1 inch high and is inch thick.
- (2) The name of the State and the word "Australia" shall be in letters  $^9/_{16}$  inch high and  $^3/_{22}$  inch thick.
- (3) The figures showing the registered number shall be  $^9/_{16}$  inch high and  $^3/_{22}$  inch thick.
- (4) The letters "Regd. No." shall be \(\frac{1}{8}\) inch high and \(^1/\)\_{16} inch thick, with the exception of the letters "d" and "o", which shall be \(\frac{1}{2}\) inch high, and the letters "R" and "N", which shall be \(\frac{1}{2}\) inch high and \(^1/\)\_{16} inch thick.
