### Objectives of Agreement

3. (1) The objectives of this agreement are to achieve before the 31st day of December, 1968—

- (a) the construction and establishment of the standard gauge railway and associated narrow gauge railway works on the routes specified in the First Schedule; and
- (b) the provision, by purchase, construction or conversion, of rolling stock in numbers and capacity sufficient—
  - (i) to carry iron ore from Koolyanobbing to Kwinana on the standard gauge railway at the rate of 2,000,000 tons per annum; and
  - (ii) to the extent provided in the next succeeding sub-clause, to carry general traffic on the standard gauge railway.

(2) The estimates set out in the Second Schedule in regard to rolling stock are accepted by the parties as including minimum requirements for general traffic, but constituting, unless otherwise agreed under this sub-clause, the extent of the objectives of this agreement in that regard. The extent of the objectives in that regard may be varied by agreement between the parties following a review, which shall be carried out by the parties in or about the end of the year 1966, taking into account the quantity of rolling stock of the State suitable and fairly available for conversion to standard gauge and such other factors as are relevant at that time.

### Provision of financial assistance by the Commonwealth

Division II—The Railway Work

State to carry out the work

6. (1) The State will carry out, or will use all reasonable endeavours to cause to be carried out, with due diligence and efficiency and in accordance with the relevant programme, procedures, plans and specifications for the time being agreed to by the parties under this agreement, the work specified in the Second Schedule with a view to the completion of the work before the 31st day of December, 1968.

(2) The work to be carried out by the State pursuant to the preceding sub-clause shall include the acquisition of land, the purchase, construction, alteration and conversion as the case may require of railway lines, bridges, buildings, structures, workshops, plant, rolling stock and all matters and things which are required for the completion of the work, but shall not include—

- (a) operation or maintenance of any railway; or
- (b) any work which is being undertaken or is proposed to be undertaken by the State independently of this agreement or which is for purposes outside the scope and objectives of this agreement, whether or not such work is carried out in conjunction with the work to which this agreement applies.

(3) The State may, at its own expense, carry out in conjunction with the work such other works, or provide such capacity or equipment in excess of the appropriate standards established under this agreement, as it considers necessary or desirable.

(4) To the extent that it is necessary for the more effective fulfilment of the objectives of this agreement, a Schedule may be varied in such manner and to such extent as the Minister, upon the request or with the concurrence of the State, approves and all references in this agreement to a Schedule shall be deemed to be to that Schedule as varied in accordance with this clause.

Programme, plans and estimates

7. The State, in collaboration and agreement with the Commonwealth, shall, from time to time—

- (a) prepare a programme of the work including appropriate procedures for its performance;
- (b) prepare plans, specifications and estimates of cost for the work;

- 
- (c) incorporate in all such plans, specifications and estimates the appropriate standards of design and construction established under this agreement; and
  - (d) supply or make available to the Minister as soon as possible copies of the programme, plans, specifications and estimates.

Contracts to be let

8. Except where it is established to the satisfaction of the Minister that it is undesirable to do so, the State shall invite public tenders and let contracts for the carrying out of the work.

Inspection

9. The State shall permit any person authorized by the Minister from time to time to enter upon and inspect the work and to inspect, take copies of or extracts from any plans, designs, accounts, records or documents relating to the work.

Division III—Finance

Provision of funds

10. (1) Subject to the provisions of this agreement, the Commonwealth will provide the funds required to meet seventeen-twentieths of expenditure by the State on the work and the State will provide the funds required to meet three-twentieths of such expenditure.

(2) The State shall be entitled, subject to the provisions of this agreement, to receive payments from the Commonwealth of amounts equal to seventeen-twentieths of the expenditure made by the State on the work from time to time and of such additional amounts as are, in the opinion of the Minister, reasonably required as a working advance to meet expenditure incurred or to be incurred.

(3) For the purposes of this clause expenditure on the work shall include the administrative expenses directly related to the carrying out of the work and the cost of the preliminary survey, including expenditure incurred or made on the survey before the date of operation of this agreement and authorized by the Commonwealth otherwise than in accordance with this agreement.

(4) The amount set out in the last column of the Second Schedule as the estimated cost of the work and the various components thereof are based solely on the cost of materials and labour and on operational requirements prevailing at the end of the year 1960 and are specified as an indication of the extent of the

work and the relative amounts to be expended on each component thereof but otherwise do not impose any limitation on the amount to be expended by the State on the work or on any part thereof for the purposes of this clause.

**Authorization of expenditure**

11. (1) The State will not be entitled to receive payments from the Commonwealth in respect of expenditure the incurring of which is not approved or ratified by the Minister.

(2) In exercising his powers under this clause the Minister shall have regard to the provisions of clause 3 of this agreement and to whether the work to which the expenditure relates is to be or has been carried out in accordance with the programmes, procedures, plans and specifications prepared in accordance with clause 7 of this agreement.

**Payments by the State**

12. (1) The State shall from its Consolidated Revenue pay to the Commonwealth an amount equal to ten-seventeenths of the payments made by the Commonwealth to the State in each financial year under clause 10 of this agreement and interest thereon in the following manner—

- (a) as to an amount equal to three-seventeenths of those payments—by fifty equal annual contributions commencing on the 30th day of June next following the end of that financial year, together with interest on so much of that amount as has not been paid at the beginning of the financial year in which the contribution is due, calculated from the beginning of that financial year; and
- (b) as to an amount equal to seven-seventeenths of each of those payments, together with interest as hereinafter provided in this clause and not paid under sub-clause (3) of this clause—by forty equal semi-annual payments of principal and interest commencing six calendar months after the completion date and continuing thereafter at intervals of six calendar months until the final payment is made.

(2) The interest payable under paragraph (b) of the last preceding sub-clause shall be calculated from the date on which the relevant payment was made by the Commonwealth and shall accrue on the amount referred to in that paragraph or on so much of that amount as for the time being remains unpaid by the State to the Commonwealth.

(3) The State may, in respect of the period prior to the completion date, pay on the 30th day of June in any year the whole or part of the interest accrued to that date in accordance with the last preceding sub-clause, but any interest so

---

accrued and not so paid shall thereafter bear interest at the same rate and to the same extent as the payment by the Commonwealth to which it relates.

(4) The rate of interest payable by the State under this clause shall be the rate payable on the long term loan last raised by the Commonwealth in Australia for public subscription prior to—

- (a) for the purposes of paragraph (a) of sub-clause (1) of this clause—the end of the financial year in which the payments were made by the Commonwealth; and
- (b) for the purposes of paragraph (b) of sub-clause (1) of this clause—the date on which the relevant payment was made by the Commonwealth.

Expenditure after the completion date

13. (1) The provisions of clauses 10, 11 and 12 of this agreement shall apply to expenditure by the State on the work during the period of twenty-four calendar months immediately following the completion date in respect of expenditure incurred not later than twelve calendar months after the completion date, except that for the purposes of the application of those clauses in pursuance of this clause the completion date referred to in paragraph (b) of sub-clause (1) and in sub-clause (3) of clause 12 of this agreement shall be read as a reference to a date twenty-four calendar months after the completion date.

(2) Except with the authority of the Minister the Commonwealth shall not be obliged at any time subsequent to twenty-four calendar months after the completion date to meet expenditure made by the State on any of the work.

Estimates

14. (1) The State shall prepare and submit to the Minister not later than the 30th day of April in each year an estimate of the funds for which application will be made to the Commonwealth during the next succeeding financial year.

(2) The estimate shall be supported by appropriate explanations and by a statement or statements showing—

- (a) the total amounts provided by the Commonwealth and by the State and the total amount expended by the State on the work to a convenient date prior to such 30th day of April;
- (b) the further amount estimated to be expended by the State on the work and the further amounts estimated to be required to be provided by the Commonwealth and by the State for that purpose by the next succeeding 30th day of June; and

- (c) the estimated expenditure by the State on the work during the next succeeding financial year and the amount which the State proposes to request the Commonwealth to provide during that financial year.

(3) The State shall prepare and submit to the Minister not later than the 31st day of December in each year, and at such other times as the Minister may request, a revised estimate for the then current financial year including explanations of any variations between the estimate and the revised estimate.

Accounts, reports and records

15. The State shall—

- (a) keep full accounts and records of all financial transactions, work done, and plant, stores, materials and equipment used or disposed of, in connexion with the work; and

Audit

16. (1) The accounts, books, vouchers, documents and other records of the State relating to the receipt or payment of money or to the receipt, custody or disposal of plant, stores, materials and equipment in connexion with the work shall be audited by the Auditor-General for the State.

(2) A report on the audit and on the financial statements shall be furnished by the Auditor-General for the State to the Auditor-General for the Commonwealth at least once every year and such report shall indicate, inter alia—

- (a) whether the financial statements are based on proper accounts and records and are in agreement with those accounts and records; and
- (b) whether the receipt and expenditure of moneys are in accordance with this agreement,

and shall include reference to such other matters arising out of the audit and financial statements as the Auditor-General for the State considers should be reported to the Auditor-General for the Commonwealth.

(3) The State shall supply such further information as may be required by the Auditor-General for the Commonwealth and if he considers it necessary shall permit him to inspect and take copies or extracts from the accounts, books, vouchers, documents and other records of the State in connexion with the work.

---

(4) Any statement of expenditure by the State forwarded to the Commonwealth in connexion with an application for funds in accordance with clause 10 of this agreement shall be certified as to its correctness by the Auditor-General for the State.
