- (c) any operations at sea in support of, or in preparation for any activity described in this definition, including operations of placing, searching for or recovering fish aggregating devices or associated electronic equipment such as radio beacons; or
- (d) aircraft use relating to the activities described in this definition except for flights in emergencies involving the health or safety of crew members or the safety of a boat; or
- (e) transporting, transhipping and processing any driftnet catch, and co-operation in the provision of food, fuel and other supplies for boats equipped for or engaged in driftnet fishing.

14 Regulation etc. of certain practices

- (1) For the purpose of conserving the marine environment, the regulations may prohibit, or make provision for the regulation of, the engaging in specified activities, or the use of specified practices, by:
 - (a) persons engaged in fishing in the AFZ; and
 - (b) Australian boats, and persons on Australian boats, engaged in fishing outside the AFZ.
- (2) Without limiting the generality of subsection (1), regulations may be made in relation to:
 - (a) the employment of specified fishing practices or methods; and
 - (b) the use of specified fishing equipment; and
 - (c) the taking, and treatment of, by-catches, and the making of returns in relation to by-catches taken; and

Section 15

- (d) littering at sea.

15 Prohibition against certain fishing

- (1) A person must not (otherwise than in accordance with the terms of a scientific permit):
- (a) in the AFZ, take black cod (*Epinephelus daemeli*); or
 - (b) in the AFZ, or in a part of the AFZ specified in the regulations, take prescribed fish.

Penalty: 125 penalty units.

- (2) A person on an Australian boat must not, outside the AFZ, take a prescribed fish.

Penalty: 125 penalty units.

- (3) It is a defence to a prosecution for an offence against this section if the person charged satisfies the court that, upon becoming aware of the taking of the fish, he or she took steps immediately to return the fish to its natural environment.

- (4) An offence under this section is an offence of strict liability.

Note: For strict liability, see section 6.1 of the *Criminal Code*.

15A Prohibition against taking marlin

- (1) A person must not, in the AFZ, take blue marlin (*Makaira mazara*) or black marlin (*Makaira indica*) unless the person:
- (a) is the holder of a scientific permit that authorises the taking of the fish; or
 - (b) takes the fish in the course of recreational fishing (whether from a charter boat or otherwise).

Penalty: 125 penalty units.

- (2) It is a defence to a prosecution for an offence against this section if the person charged satisfies the court that, upon becoming aware of

Section 15B

the taking of the fish, he or she took steps immediately to return the fish to its natural environment.

- (3) An offence under this section is an offence of strict liability.

Note: For strict liability, see section 6.1 of the *Criminal Code*.

15B Report on analysis of marlin stocks

- (1) Not later than 12 months after the commencement of the *Fisheries Legislation Amendment Act (No. 1) 1998*, the Minister must cause an analysis to be undertaken in the AFZ of the estimated numbers of blue marlin (*Makaira mazara*) and black marlin (*Makaira indica*) and the impact on the species of such fishing as is permitted under section 15A.
- (2) The Minister must cause a report of an analysis under subsection (1) to be laid before each House of the Parliament as soon as practicable after the analysis is completed and, in any case, not later than 2 years after the commencement of the *Fisheries Legislation Amendment Act (No. 1) 1998*.

Part 3—Regulation of fishing

Division 1—Preliminary

16 AFMA to pursue objectives

- (1) In performing its functions under this Part, AFMA must pursue its objectives and, in addition, act in accordance with its corporate plan and its current annual operational plan.
- (2) Nothing in subsection (1) is taken to limit the operation of subsection 17(10).

16A AFMA to meet international fisheries management organisation and Fish Stocks Agreement obligations

Boat involved in contravening international fisheries management measure

- (1) AFMA must not authorise under this Part the use of an Australian-flagged boat for fishing on the high seas for a conserved fish stock during the period specified in subsection (2), if:
 - (a) a court has convicted a person of an offence described in subsection (3) involving the use of the boat; and
 - (b) the court has ordered the person to pay a fine for the offence (whether or not the person has also been sentenced to imprisonment for the offence); and
 - (c) the court has not ordered the forfeiture of the boat.

Period for which AFMA must not authorise use of boat

- (2) The period starts when the person is ordered to pay the fine and ends when one of the following events occurs:
 - (a) the person pays the fine;
 - (b) a penalty is imposed on the person for failure to pay the fine;

Section 16A

- (c) the court orders the forfeiture of the boat (for the offence or another offence);
- (d) the conviction of the person for the offence for which the person was ordered to pay the fine is quashed.

Offences that prevent AFMA authorising use of boat

- (3) Subsection (1) limits authorisation of the use of a boat involved in any of the following offences:
 - (a) an offence against subsection 95(5) constituted by one of the following acts or omissions that contravenes a condition of a fishing concession or scientific permit that authorises fishing for a conserved fish stock on the high seas or contravenes a provision of a temporary order relating to fishing for a conserved fish stock on the high seas:
 - (i) fishing for the conserved fish stock at a particular time, in a particular place or with particular equipment;
 - (ii) failing to maintain accurate records of catch;
 - (iii) failing to provide an accurate return of fish taken, carried, transhipped or processed;
 - (iv) taking, carrying, transhipping or processing more fish than authorised by the concession, permit or order;
 - (v) changing or hiding the markings of the boat;
 - (b) an offence against section 105A involving a fish from a conserved fish stock and a boat;
 - (ba) an offence against section 105AA or 105AB;
 - (c) an offence against section 105B involving a boat equipped for fishing for a conserved fish stock;
 - (d) an offence against section 107 relating to a document, statement, return or information about catch of a conserved fish stock;
 - (e) an offence against a prescribed provision of this Act or the regulations that is constituted by a prescribed act or omission relating to a conserved fish stock.

16B Australian-flagged boats that have previously undermined conservation and management measures

- (1) Subject to subsection (5), AFMA must not, under this Part, grant a fishing concession authorising the use for fishing activities on the high seas of an Australian-flagged boat that was previously registered in a foreign country and authorised by that country for such fishing activities if:
 - (a) AFMA believes, on reasonable grounds, that the boat is a boat to which subsection (2) or (3) applies; and
 - (b) subsection (4) does not apply.
- (2) This subsection applies to an Australian-flagged boat that was previously registered in a foreign country that is a party to the Compliance Agreement if:
 - (a) that foreign country has, because the owner or operator of that boat has undermined international conservation and management measures, suspended the authority to use that boat on the high seas for a period and that period has not expired; or
 - (b) that foreign country has, because the owner or operator of that boat has undermined international conservation and management measures, cancelled the authority to use that boat on the high seas and a period of 3 years has not elapsed since that cancellation.
- (3) This subsection applies to an Australian-flagged boat that was previously registered in a foreign country that is not a party to the Compliance Agreement if, on the basis of information available to it, AFMA is satisfied that:
 - (a) the foreign country has, because the owner or operator of that boat has undermined international conservation and management measures, suspended the authority to use that boat on the high seas for a period and that period has not expired; or
 - (b) the foreign country has, because the owner or operator of that boat has undermined international conservation and management measures, cancelled the authority for use of that

Section 16B

boat on the high seas and a period of 3 years has not elapsed since that cancellation.

- (4) If the person seeking the grant of a fishing concession authorising the use of a boat to which subsection (2) or (3) applies for fishing activities on the high seas satisfies AFMA that the owner or operator of the boat at the time the authority to use it was suspended or cancelled has no present legal, beneficial or financial interest in, or control of, the boat, AFMA may grant such a fishing concession authorising the use of the boat despite the application of subsection (2) or (3).
- (5) Despite subsection (1), AFMA may grant a fishing concession authorising the use of an Australian-flagged boat to which subsection (2) or (3) applies for fishing activities on the high seas if, having regard to the circumstances in which a foreign country's authorisation for the use of that boat for fishing activities on the high seas was suspended or cancelled, AFMA is satisfied that the grant of that fishing concession will not be likely to undermine international conservation and management measures.
- (6) Nothing in this section implies that AFMA may not take other matters into consideration when deciding whether or not to grant a fishing concession authorising the use of an Australian-flagged boat for fishing activities on the high seas.

Division 2—Plans of management

17 Plans of management

- (1) Subject to subsection (1A), AFMA must, in writing, after consultation with such persons engaged in fishing as appear to AFMA to be appropriate and after giving due consideration to any representations mentioned in subsection (3), determine plans of management for all fisheries.
- (1A) If, in all the circumstances, AFMA is of the view that a plan of management is not warranted for a particular fishery, AFMA may make a determination accordingly, including in the determination its reasons for making the determination. While a determination under this subsection is in force, AFMA is not required to determine a plan of management for a fishery.
- (1AB) If, at any time after making a determination under subsection (1A) that a plan of management is not warranted for a particular fishery, AFMA ceases to be of the view, AFMA may make a further determination revoking the determination under subsection (1A).
- (1B) A determination under subsection (1A) must be notified:
 - (a) in the *Gazette*; and
 - (b) to all persons and organisations listed in the register established under section 17A, at their addresses as shown on the register.
- (2) Before determining a plan of management for a fishery, AFMA must prepare a draft of the plan and, by public notice:
 - (a) state that it intends to determine a plan of management in respect of the fishery; and
 - (b) invite interested persons to make representations in connection with the draft plan by a date specified in the notice, not being less than one month after the date of publication of the notice in the *Gazette*; and

- (c) specify:
 - (i) an address from which copies of the draft plan may be obtained; and
 - (ii) an address to which representations may be forwarded.
- (2A) In addition to issuing a public notice under subsection (2) and before determining a plan of management for a fishery, AFMA must notify the persons and organisations listed in the register established under section 17A, at their addresses as shown on the register, of the terms of the public notice.
- (3) A person may, not later than the date specified in the notice, make representations to AFMA in connection with the draft plan.
- (4) In this section, a reference to public notice is a reference to notice published:
 - (a) in the *Gazette*; and
 - (b) in each State and Territory, in a newspaper circulating throughout that State or Territory; and
 - (c) in such other newspaper or publication (if any) that appears to AFMA to be appropriate in the circumstances.
- (5) A plan of management for a fishery may set out:
 - (a) the objectives of the plan of management; and
 - (b) measures by which the objectives are to be attained; and
 - (c) performance criteria against which, and time frames within which, the measures taken under the plan of management may be assessed.
- (5AA) The objectives to be set out under paragraph (5)(a) must be consistent with, but are not limited to, the objectives set out in section 3.
- (5C) A plan of management for a fishery affecting straddling fish stocks, highly migratory fish stocks or ecologically related fish stocks (within the meaning of the Fish Stocks Agreement) must set out stock-specific reference points (within the meaning of that Agreement) for the stocks.

Section 17

- (6) Without limiting the operation of subsection (5), a plan of management for a fishery may:
- (a) determine the method or methods by which the fishing capacity of the fishery or a part of the fishery is to be measured, which may be or include, but are not limited to, a method based on a particular area, a particular species or type or a particular quantity of fish, a particular kind, size or quantity of fishing equipment, a particular number of boats, a particular period of fishing, or any combination of the above; and
 - (aa) determine, or provide for AFMA to determine, the fishing capacity, measured by that method or those methods, permitted for the fishery or a part of the fishery in respect of a particular period or periods; and
 - (b) provide for the management of the fishery by means of a system of statutory fishing rights, and other fishing concessions; and
 - (c) contain a description of the fishery by reference to area, fish species, fishing methods to be employed or any other matter; and
 - (d) subject to section 28, formulate procedures to be followed for selecting persons to whom fishing concessions are to be granted including, in the case of fishing rights:
 - (i) the holding of an auction; or
 - (ii) the calling of tenders; and
 - (e) specify the kind and quantity of equipment that may be used in the fishery; and
 - (f) specify the circumstances in which a statutory fishing right may authorise fishing by or from a foreign boat; and
 - (g) impose obligations on the holders of fishing concessions; and
 - (h) prohibit or regulate recreational fishing in the fishery; and
 - (i) prohibit or regulate fishing for scientific research purposes in the fishery.
- (6A) Paragraph (6)(aa) authorises the making of a determination in respect of the fishing capacity of a fishery or a part of a fishery that

has the effect that no fishing capacity is permitted for the fishery or that part of the fishery in respect of a particular period or periods.

- (6B) A determination made by AFMA under paragraph (6)(aa) is a legislative instrument.
- (6C) If a plan of management for a fishery provides for the management of the fishery by means of a system that consists of or includes statutory fishing rights, the plan:
- (a) may oblige a person who holds, in respect of the fishery, a fishing concession of a particular kind or fishing concessions of particular kinds also to hold, in respect of the fishery, a fishing concession of another kind or fishing concessions of other kinds, as stated in the plan; and
 - (b) without limiting the generality of paragraph (a), may oblige a person who holds, in respect of the fishery, a fishing right of a particular kind or fishing rights of particular kinds also to hold, in respect of the fishery, a fishing right of another kind or fishing rights of other kinds, as stated in the plan; and
 - (c) in respect of each kind of fishing right that a person holds in respect of the fishery—may do either or both of the following:
 - (i) oblige the person to hold not fewer than such number of fishing rights of that kind as is stated in the plan or worked out using a formula so stated;
 - (ii) oblige the person not to hold more than such number of fishing rights of that kind as is stated in the plan or worked out using a formula so stated.
- (6D) A plan of management for a fishery must contain measures directed at reducing to a minimum:
- (a) the incidental catch of fish not taken under and in accordance with that plan; and
 - (b) the incidental catch of other species.
- (7) A plan of management for a fishery must:
- (a) if the plan makes provision in relation to the management of the fishery by means of a system of statutory fishing rights—

Section 17A

- provide for registration of persons who are to be eligible for the grant of fishing rights and specify the conditions relevant to such registration; and
- (b) contain a statement of any right of review that a person has in relation to such registration or the grant, or refusal to make a grant, of a fishing concession.
- (8) A plan of management may make provision in relation to a matter by applying, adopting or incorporating, with or without modification:
- (a) a provision of any Act or any regulation made under an Act, or of any other determination, as in force at a particular time or as in force from time to time; or
- (b) any matter contained in any other instrument or writing as in force or existing at the time when the determination takes effect.
- (9) A plan of management has no effect to the extent that it is inconsistent with a provision of this Act.
- (10) While a plan of management is in force for a fishery, AFMA must perform its functions, and exercise its powers, under this Act in relation to the fishery in accordance with the plan of management.
- (11) AFMA may, by writing under its common seal, delegate any powers conferred on it under a plan of management for a fishery in accordance with paragraph (6)(aa) to:
- (a) the CEO; or
- (b) a primary stakeholder who is to assist AFMA to manage the fishery under a co-management arrangement (within the meaning of the *Fisheries Administration Act 1991*).

17A Register of persons concerned about plans of management

- (1) AFMA must maintain a register containing a list of the names and postal addresses of persons and organisations who are to be notified of, or of determinations affecting the preparation of, draft plans of management.

Section 17A

- (2) As soon as is practicable after the commencement of this section and on each anniversary of that commencement, AFMA must give public notice:
 - (a) inviting persons and organisations to have their names and postal addresses entered on the register; and
 - (b) in the case of the second or a later notice—inviting persons and organisations on the register (if any) to have their names and postal addresses left on the register.
- (3) A notice must state that the acceptance of an invitation:
 - (a) is to be in writing, sent to AFMA at a place specified in the notice and accompanied by particulars of the name and postal address of the acceptor; and
 - (b) is to be given:
 - (i) in the case of a person, or organisation, in existence on the publication of the notice—within one month after that publication; and
 - (ii) in any other case—within 12 months after that publication.
- (4) Where a person or organisation accepts an invitation in the way required by the notice, AFMA is to enter, or retain, the name and postal address of the person or organisation on the register.
- (5) AFMA may vary the address on the register of a person or organisation at the written request of the person or organisation.
- (6) AFMA must remove the name and address of a person or organisation from the register if:
 - (a) in the case of a name and address that was on the register before the most recent notice under subsection (2)—the invitation to keep that name and address on the register was not accepted within one month after the publication of that notice; or
 - (b) the person or organisation makes a written request for the removal; or
 - (c) AFMA becomes satisfied that:
 - (i) in the case of a natural person—the person has died; or

Section 18

- (ii) in any other case—the person or organisation has ceased to exist.
- (7) In subsection (2), a reference to public notice is a reference to a notice published:
 - (a) in the *Gazette*; and
 - (b) in each State and internal Territory in a newspaper circulating generally in that State or Territory; and
 - (c) in each external Territory that the Minister considers appropriate (if any) in a newspaper circulating generally in that external Territory.

18 Action after determining a plan of management

- (1) When AFMA has determined a plan of management for a fishery, it must:
 - (a) submit the plan to the Minister; and
 - (b) inform the Minister of the nature of any representations it received, and the consultations it conducted, before determining the plan.
- (2) The Minister must accept the plan if it appears to the Minister that:
 - (a) AFMA gave due consideration to any representations it received, and conducted adequate consultations, before determining the plan; and
 - (b) the plan is consistent with AFMA's corporate plan and current annual operational plan.
- (3) If the Minister does not accept the plan, the Minister must refer it to AFMA and inform AFMA why it was not accepted.
- (4) When the plan has been so referred to AFMA, AFMA must, as soon as practicable after receipt of the plan, take such steps as appear to it to be necessary to ensure acceptance of the plan by the Minister and again submit the plan to the Minister.
- (5) If the Minister again does not accept the plan, the procedures mentioned in subsections (3) and (4) continue to apply in relation

to the plan until it is accepted by the Minister or withdrawn by AFMA.

19 Tabling, disallowance etc. of determinations

- (1) AFMA must cause to be published in the *Gazette*, in respect of each determination made under section 17 and accepted by the Minister, notice of:
 - (a) the fact that the determination has been made; and
 - (b) the place or places where copies of the determination can be obtained.
- (5) A determination is taken to be an enactment for the purposes of the *Administrative Appeals Tribunal Act 1975*.

20 Amendment or revocation of plan of management

- (1) AFMA may at any time amend a plan of management.
- (2) If AFMA amends a plan of management, it must:
 - (a) give written notification of that fact to each person who is the holder of a statutory fishing right granted in accordance with the plan; and
 - (b) inform the person where copies of the amended plan may be obtained.
- (3) AFMA may revoke a plan of management.
- (4) Where a plan of management for a fishery is revoked under subsection (3), statutory fishing rights, fishing permits, foreign fishing licences, scientific permits, foreign master fishing licences and fish receiver permits granted by AFMA that relate to the fishery cease to have effect in relation to the fishery.
- (5) Sections 17, 18 and 19 apply in relation to an amendment of a plan of management and the revocation of a plan of management in the same way as they apply to a plan of management prepared under section 17.

Section 20

- (6) However, subsection (2) of this section, subsections 17(1B) to (4), and sections 18 and 19 do not apply to an amendment of a plan of management that merely:
- (a) corrects an error in the plan (including a factual, grammatical, mapping or typographical error, for example); or
 - (b) changes the format or presentation of the plan; or
 - (c) changes a matter in the plan to make the plan consistent with:
 - (i) this or another Act; or
 - (ii) the regulations; or
 - (d) removes conditions from the plan if conditions for the plan's fishery about the same subject matter have been prescribed in the regulations, whether or not the conditions are in the same terms.
- (7) Also, subsections 17(1B) to (4) and section 19 do not apply to an amendment of a plan of management to remove a provision from the plan if, within 1 year before the proposed amendment is to take effect, the following entities have been given at least 28 days written notice of the proposed amendment:
- (a) if there is a management advisory committee for the plan's fishery—the management advisory committee;
 - (b) if a peak body represents the holders of statutory fishing rights under the plan—the peak body;
 - (c) if there is no management advisory committee or peak body—the holders of the licences, permits or rights for the fishery.
- (8) However, section 18 applies to an amendment mentioned in subsection (7) in the same way as section 18 applies to a plan of management.

Division 3—Statutory fishing rights

21 Nature of a statutory fishing right

- (1) For the purposes of this Act, each of the following rights is a separate statutory fishing right:
- (a) a right to take a particular quantity of fish, or to take a particular quantity of fish of a particular species or type, from, or from a particular area in, a managed fishery;
 - (b) a right to a particular proportion of the fishing capacity that is permitted, by or under a plan of management, for, or for a part of, a managed fishery;
 - (c) a right to engage in fishing in a managed fishery at a particular time or times, on a particular number of days, during a particular number of weeks or months, or in accordance with any combination of the above, during a particular period or periods;
 - (d) a right to use a boat in a managed fishery for purposes stated in a plan of management;
 - (e) a right to use particular fishing equipment in a managed fishery;
 - (f) a right to use, in a managed fishery, fishing equipment that is of a particular kind, of a particular size or of a particular quantity or is a combination of any of the above;
 - (g) a right to use a particular type of boat in a managed fishery;
 - (h) a right to use a boat of a particular size or having a particular engine power, or of a particular size and having a particular engine power, in a managed fishery;
 - (i) any other right in respect of fishing in a managed fishery.
- (1A) A plan of management for a fishery may do any one or more of the following:
- (a) provide for a statutory fishing right of a kind mentioned in paragraph (1)(a) even though, in a particular period, the quantity of fish to which the fishing right relates is nil or negligible;

Section 21

- (b) provide for a statutory fishing right of a kind mentioned in paragraph (1)(b) even though the proportion of fishing capacity to which the fishing right relates would result in a nil or negligible quantity of fish;
 - (c) provide for a statutory fishing right of a kind mentioned in paragraph (1)(f) even though it may be impracticable to make or use fishing equipment of the size or quantity, or size and quantity, to which the fishing right relates;
 - (d) provide for a statutory fishing right of a kind mentioned in paragraph (1)(h) even though it may be impracticable to build or use a boat of the size or having the engine power, or of the size and having the engine power, to which the fishing right relates.
- (1B) For the purposes of subsection (1C), the fishing rights in respect of a particular fishery that are referred to in any one of the following paragraphs together constitute a class of fishing rights:
 - (a) 2 or more identical fishing rights of a kind mentioned in paragraph (1)(a);
 - (b) 2 or more identical fishing rights of a kind mentioned in paragraph (1)(b);
 - (c) 2 or more identical fishing rights of a kind mentioned in paragraph (1)(c);
 - (d) 2 or more identical fishing rights of a kind mentioned in paragraph (1)(f);
 - (e) 2 or more identical fishing rights of a kind mentioned in paragraph (1)(h).
- (1C) If a person holds a class of fishing rights in respect of a managed fishery, the fishing rights in the class together confer fishing rights in respect of:
 - (a) if the fishing rights in the class are fishing rights of a kind mentioned in paragraph (1)(a)—a quantity of fish, or of fish of the relevant species or type, equal to the sum of the quantities of fish, or of fish of that species or type, in relation to, or in relation to the area in, the fishery, stated in the fishing rights in the class; or

- (b) if the fishing rights in the class are fishing rights of a kind mentioned in paragraph (1)(b)—a proportion of fishing capacity equal to the sum of the proportions of the fishing capacity stated in the fishing rights in the class; or
 - (c) if the fishing rights in the class are fishing rights of a kind mentioned in paragraph (1)(c) and each fishing right relates to a particular number of days, weeks or months during a particular period or periods—a number of days, weeks or months equal to the sum of the numbers of days, weeks or months, as the case may be, during that period or those periods, stated in the fishing rights in the class; or
 - (d) if the fishing rights in the class are fishing rights of a kind mentioned in paragraph (1)(f)—fishing equipment the total size or quantity of which is not greater than the sum of the sizes or quantities, or the total size and total quantity of which are not greater than the sum of the sizes and the sum of the quantities, as the case may be, stated in the fishing rights in the class;
 - (e) if the fishing rights in the class are fishing rights of a kind mentioned in paragraph (1)(h)—a boat of a size not greater than the sum of the sizes, having an engine power not greater than the sum of the engine powers, or of a size not greater than the sum of the sizes and having an engine power not greater than the sum of the engine powers, as the case may be, stated in the fishing rights in the class.
- (2) A fishing right may authorise fishing:
- (a) by or from an Australian boat; and
 - (b) if the relevant plan of management so provides—by or from a foreign boat.

22 AFMA to establish system of statutory fishing rights

- (1) Where a plan of management provides for the management by AFMA of a fishery by means of a system of statutory fishing rights, AFMA is to establish and administer such a system in accordance with the plan.

Section 22

- (2) AFMA is to give to a person to whom it grants a fishing right a certificate evidencing the grant of the fishing right.
- (3) A fishing right is granted subject to the following conditions:
 - (a) the holder of the fishing right must comply with any obligations imposed by, or imposed by AFMA under, the relevant plan of management on the holder of such a fishing right;
 - (b) the fishing right will cease to have effect if the plan of management for the fishery to which the fishing right relates is revoked under subsection 20(3);
 - (c) the fishing right may, under subsection 75(7), cease to have effect;
 - (d) the fishing right may be cancelled under section 39;
 - (e) no compensation is payable because the fishing right is cancelled, ceases to have effect or ceases to apply to a fishery.

Note: For further provisions relating to conditions imposed on fishing rights see subsections (4), (4A), (5) and (5A) and sections 40C, 42, 42A and 42B.

- (4) A fishing right:
 - (a) is subject to such other conditions as are specified in the certificate, including conditions relating to the suspension or cancellation of the fishing right and the transferability or otherwise of the fishing right; and
 - (b) comes into force on the day specified for the purpose in the certificate, or, if no day is so specified, on the day on which it is granted; and
 - (c) subject to this Act, remains in force:
 - (i) until the day specified for the purpose in the certificate; or
 - (ii) if no such day is specified, until cancelled or surrendered or it otherwise ceases to have effect, under this Act.

- (4A) It is also a condition of a fishing right relating to a fishery that the holder of the right comply with a direction under section 41A that relates to the fishery.
- (5) AFMA may, by written notice given to the holder of a fishing right, whether or not at the request of the holder, vary or revoke a condition of the fishing right (not being a condition mentioned in subsection (3) or (4A)) or specify a condition or a further condition to which the fishing right is to be subject.
- (5A) After the commencement of this subsection and without limiting the generality of subsection (5), if a statutory fishing right authorises an Australian-flagged boat to fish on the high seas, AFMA may attach a further condition to that right to the effect that another boat may not be substituted for the first-mentioned boat without AFMA's prior written agreement to the substitution.
- (6) A fishing right ceases to be in force if the holder of the fishing right surrenders it by written notice given to AFMA.

23 Certain decisions to be provisional

- (1) Where AFMA or a Joint Authority makes a decision as to the person or persons to whom the grant of a fishing right in a managed fishery is to be made, not being a grant or grants to be made after:
 - (a) the holding of an auction in respect of the grant; or
 - (b) the calling of tenders in respect of the grant;the following provisions of this section apply.
- (2) AFMA or the Joint Authority, as the case may be, by notice published in the *Gazette*, must set out the name of the person or persons to whom the fishing rights are to be granted and a summary of the fishing rights to be granted to each such person.
- (3) A grant of a fishing right must not be made to such a person:
 - (a) before the end of the period within which, under section 143, applications to the Panel may be made for review of the decision in relation to the grant; or

Section 23

- (b) if an application in relation to the decision is made to the Panel under section 143—before the application is dealt with by the Panel or otherwise disposed of.

Division 4—Ways of granting statutory fishing rights

24 Notice of intention to grant fishing rights

- (1) AFMA may, by public notice, declare that it intends to grant a fishing right or fishing rights specified in the notice in relation to fishing in a specified managed fishery.
- (2) A reference in subsection (1) to public notice is a reference to notice published:
 - (a) in the *Gazette*; and
 - (b) in each State and Territory, in a newspaper circulating throughout that State or Territory; and
 - (c) in such other newspaper or publication (if any) that appears to AFMA to be appropriate in the circumstances.

25 Contents of notice

AFMA must, in a notice under section 24:

- (a) describe the fishing activities that will be authorised by the fishing right or fishing rights; and
- (b) specify the way in which the grant is to be made and, if the grant is to be made otherwise than by auction or tender, give full particulars of the procedures to be followed for selecting a person to whom the grant will be made available under section 29; and
- (c) set out the conditions (if any) that are to be satisfied by persons applying under section 26 for registration as eligible persons for the grant before they may be so registered; and
- (d) if an auction is to be held, specify the lowest bid that will be a qualifying bid for the purposes of subsection 29(1); and
- (e) specify:
 - (i) the fees (if any) payable by persons applying for registration; and

Section 26

- (ii) the period (if any) for which the fishing right will be in force unless it is sooner cancelled or otherwise ceases to apply or have effect; and
 - (iii) if the grant is to be made otherwise than by auction or by calling tenders—the amount (if any) that is the amount of charge on the grant for the purposes of the *Statutory Fishing Rights Charge Act 1991*; and
 - (iv) whether any charge imposed on the grant under the *Statutory Fishing Rights Charge Act 1991* is to be paid in one lump sum or by instalments and, if the charge is to be paid by instalments, the number and frequency of those instalments; and
 - (v) the right of review available to persons in relation to the grant of, or the refusal to grant, a fishing right; and
 - (vi) an address from which copies of the plan of management may be obtained; and
 - (vii) any other matter in respect of the grant that, in the opinion of AFMA, should be notified to prospective applicants; and
- (f) invite interested persons to apply to AFMA, in the approved form, within the period specified in the notice, to be registered as eligible persons for the grant.

26 Registration of applicants

- (1) A person may apply to AFMA, in the approved form, for registration as an eligible person for a grant of a fishing right.
- (2) Subject to section 31K, AFMA must register as an eligible person for a grant of a fishing right each applicant who:
 - (a) satisfies the conditions (if any) for registration specified in the plan of management in relation to the grant; and
 - (b) has paid the prescribed fee; and
 - (c) in the case of an applicant tendering for the grant—has complied with subsections 27(2) and (3).

- (3) AFMA must, as soon as practicable, notify the applicant in writing of its decision to register or not to register the applicant as an eligible person for a grant of a fishing right and of the right of review that the person has in relation to that decision.

27 Tenders for fishing rights

- (1) This section applies where, under a plan of management, tenders are to be called in respect of the grant of a fishing right or fishing rights.
- (2) An application for registration must be accompanied by a tender made in accordance with subsection (3).
- (3) The tender must:
 - (a) specify the amount that the applicant is willing to pay to the Commonwealth for the grant; and
 - (b) be enclosed in a sealed, opaque envelope on which is written only:
 - (i) the name and address of the applicant; and
 - (ii) words identifying the grant to which the tender relates.
- (4) AFMA must take reasonable steps to ensure that the envelope containing the tender is kept in such a way as to prevent premature disclosure of the amount specified in the tender and, in particular, must take reasonable steps to ensure that the envelope is not interfered with until it is opened in accordance with the regulations.

28 Prescribed procedures for grant of fishing rights

- (1) Where a grant of a fishing right is required to be made by auction or tender, the regulations must prescribe the procedures to be followed for selecting the person to whom the grant will be made available under section 29.
- (2) Without limiting the generality of subsection (1), those procedures must include:
 - (a) in the case of an auction—the procedures to be followed for:

Section 29

- (i) holding the auction; and
 - (ii) where a grant of a fishing right, being a grant that was available to a person under section 29 as a result of an auction, has ceased to be so available, holding another auction in respect of the grant; and
- (b) in the case of tenders—the procedures to be followed for:
 - (i) opening the envelopes containing the tenders lodged by the persons registered under subsection 26(2) as eligible persons for the grant; and
 - (ii) recording the amount specified in each of those tenders; and
 - (iii) ranking those persons by reference to the amounts so recorded; and
- (d) the preparation, where tenders have been called, of a list (in this Division called the ***precedence list***) of all the persons who have been registered under section 26 as eligible persons for the grant in the order in which they have, in accordance with the procedures prescribed by the regulations, been ranked for the purposes of the grant.

29 Grant made available to highest bidder etc.

- (1) Where an auction has been held in respect of the grant of a fishing right, the grant is available to the person who made the highest qualifying bid for the grant at the auction.
- (2) Where tenders have been called in respect of the grant of a fishing right, the grant is available to the person ranked highest on the precedence list prepared for the purposes of the grant.
- (3) Where subsections (1) and (2) do not apply in relation to a grant of a fishing right, the grant is available to the person selected in accordance with the procedures specified for that purpose in the plan of management relating to the grant.

- (4) Where a grant of a fishing right is available to a person under this section, AFMA must, as soon as practicable:
- (a) notify that fact in writing to that person and to each other person who was registered under section 26 as an eligible person for the grant of that fishing right; and
 - (b) give to each such person a statement in writing of the reasons for making the grant so available and of any right of review that the person has in relation to the decision to make the grant so available.

30 Amount of charge to be tendered

- (1) If a person to whom a grant becomes available under subsection 29(1) does not, immediately after having been notified of that fact, tender the amount of charge due and payable at that time under the *Statutory Fishing Rights Charge Act 1991* in respect of the grant, the grant ceases to be available to the person.
- (2) If, within 30 days after a grant of fishing rights has become available to a person, either because of subsection 29(2) or (3) or because of a previous application of this subsection, the person does not tender the amount of any charge due and payable under the *Statutory Fishing Rights Charge Act 1991* in respect of the grant:
- (a) the grant ceases to be available to the person; and
 - (b) if a precedence list has been prepared for the purposes of the grant:
 - (i) the name of the person is, by force of this subsection, deleted from the list; and
 - (ii) the grant is available to the person who then becomes the highest ranking person on that list.

31 AFMA to grant fishing right

Upon the request of a person to whom the grant of a fishing right is available, AFMA must grant the fishing right to that person.

Division 4A—Statutory fishing rights options

31A Options arising when plan of management for fishery is revoked

- (1) Subject to subsection (2), if a plan of management for a fishery (the **former plan**) is revoked, each person (a **former holder of fishing rights**) who held statutory fishing rights of a particular class of fishing rights (the **relevant class**) in respect of the fishery under the former plan immediately before it was revoked holds a **statutory fishing rights option** in respect of fishing rights of the relevant class.
- (2) Subsection (1) does not apply if:
 - (a) a new plan of management is determined for the fishery immediately after the revocation of the former plan; and
 - (b) the new plan is in all substantial respects identical to the former plan; and
 - (c) the persons who held statutory fishing rights under the former plan are granted equivalent statutory fishing rights under the new plan.
- (3) Subsection 21(1B) applies in determining the kinds of statutory fishing rights that together constitute a class of fishing rights in respect of a fishery for the purposes of this Division, except that fishing rights that, in AFMA's opinion, are substantially the same are taken to be identical for the purposes of that subsection.
- (4) A statutory fishing rights option entitles the holder of the option to be granted statutory fishing rights of the relevant class under any plan of management (the **new plan**) determined for a fishery after the revocation of the former plan if section 31B or 31C applies to the new plan. The nature and extent of the entitlements are set out in subsection 31B(2) or 31C(2), as the case may be.

31B Rights of option holder where the new plan of management is the same or substantially the same as the former plan of management

- (1) This section applies to the new plan if:
- (a) the new plan applies to a geographical area that consists of or includes the whole or a part of the geographical area to which the former plan applied; and
 - (b) the description (other than the description of the geographical area) of the fishery to which the new plan applies is, in AFMA's opinion, the same, or substantially the same, as the description of the fishery to which the former plan applied; and
 - (c) the new plan provides for the granting of classes of statutory fishing rights that are the same, or substantially the same, as the classes of statutory fishing rights provided for in the former plan; and
 - (d) under the new plan the only persons who are entitled to be granted statutory fishing rights are persons who hold statutory fishing rights options in respect of statutory fishing rights under the new plan.
- (2) If a person holds a statutory fishing rights option in respect of statutory fishing rights under the new plan, the option entitles the person, subject to subsections (3) and (4), to be granted under the new plan, to the extent to which the person exercises the option in accordance with subsection 31D(1), the number of statutory fishing rights of the relevant class worked out in accordance with the formula:

$$\frac{\text{Person's previous rights}}{\text{Total previous rights}} \times \text{Total new rights}$$

where:

person's previous rights means the number of statutory fishing rights of the relevant class held by:

Section 31C

- (a) if the person was a former holder of fishing rights—the person; or
 - (b) otherwise—the former holder of fishing rights from whose statutory fishing rights under the former plan the person directly or indirectly became entitled to the option;
- under the former plan immediately before it was revoked.

total previous rights means the total number of statutory fishing rights of the relevant class held by all persons under the former plan immediately before it was revoked.

total new rights means the total number of statutory fishing rights of the relevant class that are available to be granted under the new plan.

- (3) If the number of statutory fishing rights worked out under subsection (2) includes a fraction, the number is to be rounded off to the next highest or lowest whole number, as AFMA determines to be reasonable in the circumstances.
- (4) In making a determination under subsection (3), AFMA may have regard to any matters that it considers appropriate, including the total number of statutory fishing rights of the relevant class that are available to be granted under the new plan.

31C Rights of option holder where new plan of management has some features in common with the former plan of management

- (1) This section applies to the new plan if:
 - (a) in AFMA's opinion section 31B does not apply to the new plan; and
 - (b) the new plan applies to a geographical area that consists of or includes the whole or a part of the geographical area to which the former plan applied; and
 - (c) at least one of the species of fish in respect of which statutory fishing rights are available to be granted under the new plan (except any species that is a by-catch) was also a species of

fish in respect of which statutory fishing rights were granted under the former plan immediately before it was revoked.

- (2) If a person holds a statutory fishing rights option in respect of statutory fishing rights under the new plan, the option entitles the person to be granted such number of such classes of statutory fishing rights under the new plan as AFMA determines to be fair and equitable having particular regard to the number and classes of statutory fishing rights:
- (a) if the person was a former holder of fishing rights—held by the person; or
 - (b) otherwise—held by the former holder of fishing rights from whose fishing rights under the former plan the person directly or indirectly became entitled to the option;
- under the former plan immediately before it was revoked.
- (3) In determining the number of a class of statutory fishing rights to be granted to a person under the new plan in accordance with subsection (2), AFMA must take into account:
- (a) the extent to which the new plan applies to the fishery to which the former plan applied; and
 - (b) the number and classes of statutory fishing rights:
 - (i) if the person was a former holder of fishing rights—held by the person; or
 - (ii) otherwise—held by the former holder of fishing rights from whose fishing rights under the former plan the person directly or indirectly became entitled to the option;
- under the former plan immediately before it was revoked; and
- (c) the procedures to be followed under the new plan for the granting of fishing rights; and
 - (d) the conditions relevant to the registration under the new plan of persons who are to be eligible for the grant of statutory fishing rights.

Section 31D

31D Exercise and lapsing of option

- (1) A person who holds a statutory fishing rights option is taken to exercise the option if the person has received a notice under paragraph 31K(1)(a) and, within the period stated in the notice, notifies AFMA, by writing signed by the person, that the person exercises the option in respect of all, or a stated number, of the statutory fishing rights to which the option relates.
- (2) If a person does not exercise a statutory fishing rights option in respect of all or some of the statutory fishing rights to which the option relates, the option lapses in respect of the statutory fishing rights in respect of which the option is not exercised.

31E The Register of Statutory Fishing Rights Options

- (1) AFMA is to keep a Register of Statutory Fishing Rights Options (the ***Register***).
- (2) The Register may be kept wholly or partly by use of a computer.
- (3) If the Register is kept wholly or partly by use of a computer:
 - (a) references in this Act to an entry in the Register include references to a record of particulars kept by use of a computer and comprising the Register or part of the Register; and
 - (b) references in this Act to particulars being registered, or entered in the Register, include references to the keeping of a record of those particulars as part of the Register by use of the computer.
- (4) The Register must, in relation to each statutory fishing rights option:
 - (a) set out the name and address of the person who for the time being holds the option; and
 - (b) contain such particulars as are necessary to identify the former plan whose revocation gave rise to the option; and
 - (c) set out the number and class of statutory fishing rights to which the option relates; and

- (d) if the option has been exercised in respect of any statutory fishing rights—state the date of the exercise and the number and class of rights in respect of which the option has been exercised; and
- (e) if the option has lapsed in respect of any statutory fishing rights—state the date of the lapse and the number and class of rights in respect of which the option has lapsed.

31F Registration of dealings in statutory fishing rights options

Scope

- (1) This section applies to a dealing that would, apart from subsection (2), have the effect of creating, assigning, transmitting or extinguishing an interest in a statutory fishing rights option, other than an interest that is a PPSA security interest.

Registration of dealings

- (2) The dealing has no effect of a kind mentioned in subsection (1) until it is registered under this section.
- (3) A party to the dealing may lodge with AFMA:
 - (a) an application, in the form approved by AFMA, for registration of the dealing; and
 - (b) the instrument evidencing the dealing; and
 - (c) an instrument setting out such particulars (if any) as are prescribed for the purposes of an application for registration of the dealing; and
 - (d) one copy each of the application and of the instruments mentioned in paragraphs (b) and (c).
- (4) A party to the dealing may, instead of lodging the instrument evidencing the dealing, lodge with AFMA a summary of that instrument containing the particulars required by AFMA for the purposes of this subsection.
- (5) Subject to subsections (6) and (7), if an application for registration of the dealing, either the instrument evidencing the dealing or a

Section 31F

summary of that instrument that complies with subsection (4), and the other documents referred to in paragraphs (3)(c) and (d), are lodged with AFMA, AFMA must:

- (a) register the dealing by entering in the Register the following particulars:
 - (i) the name and address of the person acquiring the interest in the option;
 - (ii) the number and class of statutory fishing rights to which the dealing relates; and
- (b) endorse on the instrument evidencing the dealing and the copy of that instrument the fact of the entry having been made together with the date and time of the making of the entry.

Partial assignment of statutory fishing rights options

- (6) For the purposes of this Division, if a statutory fishing rights option is assigned to a person in respect of some only of the statutory fishing rights to which the option relates:
 - (a) the assignee is taken to hold a new statutory fishing rights option in respect of the statutory fishing rights assigned to the assignee; and
 - (b) the assignor continues to hold the first-mentioned option in respect of such of the statutory fishing rights as have not been assigned.

Refusal to register dealings

- (7) AFMA may only refuse to register a dealing if the registration of the dealing would be contrary to the requirements of the new plan or a condition of statutory fishing rights in respect of which the option is held.

Documentation of registration of dealings

- (8) If a dealing is registered:

Section 31FA

- (a) the copies referred to in paragraph (3)(d) and the summary (if any) lodged under subsection (4) are to be kept by AFMA; and
 - (b) if a summary is not lodged under subsection (4), the copy of the instrument evidencing the dealing is to be made available for inspection in accordance with this Division; and
 - (c) if a summary is lodged under subsection (4), the summary is to be made available for inspection in accordance with this Division; and
 - (d) the original instrument is to be returned to the person who made the application for registration.
- (10) AFMA is not concerned with the effect in law of any instrument lodged under this section.

31FA Interests in statutory fishing rights options—priority between section 31F interests and PPSA security interests

Scope

- (1) This section sets out the priority between the following interests in a statutory fishing rights option:
- (a) an interest (the **section 31F interest**) that is the subject of a dealing (the **section 31F dealing**), if the dealing has effect under section 31F (by registration);
 - (b) a PPSA security interest.

Priority rules

- (2) The priority is as set out in the following table:

Priority between PPSA security interests and section 31F interests		
Item	If ...	then ...
1	the PPSA security interest is not perfected (whether by registration or otherwise) within the meaning of the <i>Personal Property Securities Act</i>	the section 31F interest has priority.

Section 31FA

Priority between PPSA security interests and section 31F interests

Item	If ...	then ...
	<i>2009</i>	
2	(a) the PPSA security interest is perfected (whether by registration or otherwise) within the meaning of the <i>Personal Property Securities Act 2009</i> ; and (b) the section 31F dealing is registered under section 31F of this Act before the priority time for the PPSA security interest under section 55 of the <i>Personal Property Securities Act 2009</i>	the section 31F interest has priority.
3	(a) the PPSA security interest is perfected (whether by registration or otherwise) within the meaning of the <i>Personal Property Securities Act 2009</i> ; and (b) the section 31F dealing is registered under section 31F of this Act at or after the priority time for the PPSA security interest under section 55 of the <i>Personal Property Securities Act 2009</i>	the PPSA security interest has priority.

(3) Subsection 73(2) of the *Personal Property Securities Act 2009* applies to the section 31F interest.

- Note 1: The effect of subsection (3) is that the priority between a section 31F interest and a PPSA security interest in a statutory fishing rights option is to be determined in accordance with this Act rather than the *Personal Property Securities Act 2009*.
- Note 2: Subsection 73(2) of the *Personal Property Securities Act 2009* applies to section 31F interests that arise after the commencement of subsection (3) of this section (which commences at the registration commencement time within the meaning of the *Personal Property Securities Act 2009*).
-

31G Claims of interests in statutory fishing rights options

- (1) If a person lodges with AFMA a notice, in the form approved by AFMA:
- (a) stating that a dealing of a kind referred to in subsection 31F(1) that is described in the statement has taken place; and
 - (b) claiming that, if the dealing were registered, the person would have an interest in a statutory fishing rights option; and
 - (c) setting out particulars of the interest; and
 - (d) requesting AFMA to register the claim;
- AFMA must register the claim by entering in the register the person's name and particulars of the interest claimed.
- (2) If, after the registration of a claim to an interest in a statutory fishing rights option, the claimant, by notice lodged with AFMA in the form approved by AFMA, withdraws the claim, AFMA must cancel the registration by omitting from the register the entry relating to the claim.
- (3) If:
- (a) a claim to an interest in a statutory fishing rights option is registered; and
 - (b) an application is made to AFMA for registration of a dealing in respect of the option;
- AFMA must not register the dealing unless:
- (c) AFMA has given written notice of the application to the person whose name appears in the register in relation to the claim; and
 - (d) either:
 - (i) the person has withdrawn the claim under subsection (2); or
 - (ii) 21 days have elapsed since the notice was given to the person.

Section 31H

31H Trusts not registrable

Notice of any kind of trust relating to a statutory fishing rights option is not receivable by AFMA and must not be entered in the Register.

31J Power of holder of statutory fishing rights option to deal with option

- (1) The holder of a statutory fishing rights option may, subject to this section, deal with the option, in respect of all or any of the statutory fishing rights to which the option relates, as absolute owner and give good discharges for any consideration for any such dealing.
- (1A) A dealing mentioned in subsection (1) is subject to:
 - (a) any rights appearing in the Register to be vested in another person, other than any such rights that are PPSA security interests; and
 - (b) any rights or interests in the statutory fishing rights option that are PPSA security interests, to the extent provided by the *Personal Property Securities Act 2009*.
- (2) Subsection (1) only protects a person who deals with a holder of a statutory fishing rights option as a purchaser in good faith for value and without notice of any fraud on the part of the holder.
- (3) Equities in relation to a statutory fishing rights option may be enforced against the holder of the option except to the prejudice of a person protected by subsection (2).

31K Obligations of AFMA in respect of granting statutory fishing rights under the new plan

- (1) AFMA must not grant any statutory fishing rights under the new plan unless:
 - (a) it has given written notice to each person who holds a statutory fishing rights option in relation to the plan asking the person to tell AFMA in writing within the period of 30

Section 31L

days after a date stated in the notice (being a date not earlier than 2 days after the day on which the notice is sent):

- (i) whether the person wishes to exercise the option; and
 - (ii) if so, the number of fishing rights in respect of which the person exercises the option; and
- (b) that period has elapsed.
- (2) AFMA must develop procedures that will ensure that the holders of options that are exercised are granted the statutory fishing rights under the new plan to which they are entitled.
- (3) AFMA may remove particulars of an option from the Register when all the statutory fishing rights to which the option relates have been granted or the option has lapsed.

31L Administrative provisions

Sections 52 to 57 apply to the Register of Statutory Fishing Rights Options and documents subject to inspection under this Division in the same way as those sections apply to the Register of Statutory Fishing Rights and documents subject to inspection under Part 4.

Division 5—Fishing permits

32 Grant of fishing permits

- (1) AFMA may, upon application made in the approved form, grant to a person a fishing permit authorising, subject to subsections (1A), (1B), (1C) and (1D), the use by that person, or by a person acting on that person's behalf, of an Australian boat for fishing in a specified area of the AFZ or a specified fishery.
- (1A) Subject to subsections (1C) and (1D), if an Australian boat is specified in the permit, the permit authorises the use as mentioned in subsection (1) of:
 - (a) subject to paragraph (b)—that boat; or
 - (b) if the person to whom the permit is granted, from time to time, by written notice given to AFMA, nominates for the purposes of the permit another Australian boat in lieu of that boat—the boat so nominated.
- (1B) Subject to subsections (1C) and (1D), if no Australian boat is specified in the permit, the permit authorises the use as mentioned in subsection (1) of such Australian boat (if any) as the person to whom the permit is granted, from time to time, by written notice given to AFMA, nominates for the purposes of the permit.
- (1BA) After the commencement of this subsection, a boat may be nominated under subsection (1A) or (1B) only if:
 - (a) either:
 - (i) the boat's particulars are already registered on the Fishing Permits Register; or
 - (ii) the boat is an Australian boat; and
 - (b) the acceptance of the nomination would not be contrary to:
 - (i) a condition of the permit; or
 - (ii) the regulations; and
 - (c) for the purposes of a permit to fish in a specified fishery on the high seas—the boat is an Australian-flagged boat.

(1C) The permit does not authorise the use of an Australian boat unless the boat complies with any conditions to which the permit is subject.

(1D) If subsection 16A(1) prohibits AFMA from authorising a use of a boat for a period described in subsection 16A(2), the permit does not authorise the use of the boat during the period.

Note: Subsection 16A(1) prohibits AFMA from authorising the use of a boat to fish on the high seas for a conserved fish stock if the boat has been used in the commission of certain offences and the penalties for those offences have not been complied with.

(2) An application made for the grant of a fishing permit must provide AFMA with such information as it reasonably requires for a proper consideration of the application.

(3) Without limiting the operation of subsection (1), AFMA may refuse to grant a fishing permit if it has reason to believe that a requirement of a law of the Commonwealth, or of a State or Territory, has not been complied with in relation to the boat.

(4) A fishing permit may authorise the use of a boat:

- (a) for commercial fishing generally; or
- (b) for recreational fishing generally (whether from a charter boat or otherwise); or
- (d) for specified fishing activities, including:
 - (i) the carrying of fish; or
 - (ii) the processing of fish; or
 - (iii) the testing of fishing equipment.

(5) A fishing permit is granted subject to the following conditions:

- (a) if the fishing permit authorises fishing in a specified managed fishery—the holder of the permit must comply with any obligations imposed by, or imposed by AFMA under, the relevant plan of management on the holder of such a fishing permit;
- (b) if the fishing permit authorises fishing in a specified managed fishery—the permit will cease to have effect if the

Section 32

plan of management for the fishery is revoked under subsection 20(3);

- (c) the fishing permit may, under subsection 75(7), cease to have effect;
- (d) the fishing permit may be cancelled under section 39;
- (e) no compensation is payable because the fishing permit is cancelled, ceases to have effect or ceases to apply to a fishery.

Note: For further provisions relating to conditions imposed on fishing permits see subsections (6), (7A) and sections 40C, 42, 42A and 42B.

(6) A fishing permit:

- (a) is subject to such other conditions as are:
 - (i) specified in the permit; or
 - (ii) prescribed in relation to permits granted under this section; and
- (b) comes into force on the day specified for the purpose in the permit or, if no day is so specified, on the day on which it is granted; and
- (c) subject to this Act, remains in force until the day specified for the purpose in the permit, being a day not later than 5 years after the day on which it came into force.

(7) Without limiting the operation of paragraph (6)(a), the conditions that may be specified in a permit include conditions relating to:

- (a) the fish that may be taken; or
- (b) the quantity of fish that may be taken; or
- (c) the rate at which fish may be taken; or
- (d) the methods or equipment that may be used to take fish; or
- (e) the methods or equipment that may be used to process or carry fish.

(7A) It is also a condition of a fishing permit relating to a fishery that the holder of the permit comply with a direction under section 41A that relates to the fishery.

Section 32A

- (8) AFMA may, by written notice given to the holder of a permit, whether or not at the request of the holder, vary or revoke a condition of the permit (not being a condition mentioned in subsection (5) or (7A)) or specify a condition or a further condition to which the permit is to be subject.
- (9) A permit ceases to be in force if the holder of the permit surrenders the permit by written notice given to AFMA.
- (11) A fishing permit is to be in the approved form.

32A Transfer of fishing permits

- (1) This section is about the holder of a fishing permit transferring the permit to another person.
- (2) The holder of the fishing permit must apply to AFMA, in the approved form, to register the transfer.
- (3) The transfer takes effect when AFMA registers the transfer.
- (4) AFMA must register the transfer unless:
 - (a) the fishing permit is suspended under section 38; or
 - (b) the holder of the fishing permit:
 - (i) is being investigated for a fisheries offence; or
 - (ii) has been convicted of a fisheries offence; or
 - (c) a levy on the fishing permit that is due has not been paid; or
 - (d) other circumstances that are prescribed under the regulations exist.
- (5) Subsection (4) applies despite the fact that a requirement in a plan of management relating to the transfer has not been satisfied.
- (6) This section does not apply to a fishing permit that is stated to be non-transferable.

Division 6—Scientific permits

33 Grant of scientific permits

- (2) An application made for the grant of a scientific permit must provide AFMA with such information as it reasonably requires for a proper consideration of the application.
- (3) A scientific permit is granted subject to the following conditions:
 - (a) if the permit authorises the use of a boat for scientific research purposes in a specified managed fishery—the permit will cease to have effect in relation to that fishery if the plan of management for the fishery is revoked under subsection 20(3);

 - (c) subject to this Act, remains in force until the day specified for the purpose in the permit, being a day not later than 6 months after the day on which it came into force.

- (5) Without limiting the operation of subsection (4), the conditions that may be specified in a scientific permit include conditions relating to:
 - (a) the carriage on board the boat concerned of persons nominated by AFMA to make scientific observations; or
 - (b) the sale or disposal of fish taken during the course of activities carried out under the permit.

- (4) A foreign fishing licence is granted subject to the following conditions:
 - (a) if the licence authorises commercial fishing in a specified managed fishery—the holder of the licence must comply with any obligations imposed by, or imposed by AFMA under, the relevant plan of management on the holder of such a licence;
 - (b) if the licence authorises commercial fishing in a specified managed fishery—the licence will cease to have effect in relation to the fishery if the plan of management for the fishery is revoked under subsection 20(3);
 - (c) the licence may be cancelled under section 39;
 - (d) no compensation is payable because the licence is cancelled.

Note: For further provisions relating to conditions imposed on foreign fishing licences see subsections (5), (6A) and sections 40C, 42, 42A and 42B.

- (7) AFMA may, at any time, subject to such conditions (if any) as are specified in the endorsement, endorse a licence so as to extend it to authorise the boat to be brought into a specified port in Australia or in an external Territory at such time as is, or at such times as are, specified in the endorsement.
- (8) AFMA may, by written notice given to the holder of a licence in respect of which an endorsement under subsection (7) is in force, revoke the endorsement.
- (9) AFMA may, by written notice given to the holder of a licence, whether or not at the request of the holder, vary or revoke a condition of the licence (not being a condition mentioned in subsection (4) or (6A)) or specify a condition or further condition to which the licence is to be subject.
- (10) A licence ceases to be in force if the holder of the licence surrenders the licence by written notice given to AFMA.

- (5) Subsection (4) has effect only so far as that subsection is not a law imposing taxation within the meaning of section 55 of the Constitution.

36 Fisheries agreements

 - (b) it has reasonable grounds to believe that:
 - (i) there has been a contravention of a condition of the concession; or

 - (c) to do so would be in accordance with a condition of the fishing concession relating to suspension of the concession.
- (2) Subject to subsections (3) and (3A), where a fishing concession is so suspended (otherwise than for the reason mentioned in paragraph (1)(a)), the suspension, unless it is sooner revoked, ceases:
 - (a) if proceedings for an offence against this Act in relation to the alleged act or omission because of which the concession was suspended are instituted against the holder of the concession, or a person who acted on behalf of the holder of the concession, within one month after the suspension—on completion of the proceedings; or
 - (b) in any other case—at the end of one month after the suspension.

Section 39

 - (a) obligations that are prescribed in the direction relating to the e-monitoring of fishing-related activity; or
 - (b) prescribed restrictions on engaging in fishing if any obligation prescribed under paragraph (a) in the direction has not been, or is not being, complied with.

Note: See section 97A for offences relating to e-monitoring equipment and e-monitoring data.

- (2) Without limiting the operation of paragraph (1)(a), examples of obligations that may be prescribed in a direction made under subsection (1) include obligations relating to:

- (3) A direction made under subsection (1) must prescribe, in respect of each prescribed obligation or restriction, a day, which is a reasonable period after the direction is made, by which compliance with the obligation or restriction must occur or commence.

Consultation and notification requirements for making directions

- (4) Before making a direction under subsection (1) in relation to fishing concessions or scientific permits that relate to a particular fishery, AFMA must consult with:
- (a) the management advisory committee for the fishery; or
 - (b) if there is no management advisory committee for the fishery—the holders of fishing concessions or scientific permits for the fishery.
- (5) At least 7 days before a direction made under subsection (1) takes effect, AFMA must ensure that a copy of the direction is sent to each holder of a fishing concession or scientific permit to which the direction relates.
- (6) However, in an emergency:
- (a) a direction may be made under subsection (1) without any consultation; and
 - (b) subsection (5) does not apply in respect of the direction; and
 - (c) AFMA must ensure that a copy of the direction is sent to each holder of a fishing concession or scientific permit to which the direction relates as soon as possible.

Variation and revocation

- (7) AFMA may, at any time, by a further direction in writing, vary or revoke a direction made under subsection (1).

Note: Requirements like those in subsections (4) and (5) do not apply in relation to directions made under this subsection.

Section 40B

- (8) If AFMA varies or revokes a direction made under subsection (1) it must ensure that a copy of the direction made under subsection (7) is sent to each holder of a fishing concession or scientific permit to which the direction as varied or revoked, relates or related, as soon as possible.

Directions are legislative instruments

- (9) A direction made under subsection (1), or a variation or revocation of such a direction, is a legislative instrument.

40B Directions to specific concession and permit holders

Directions power

- (1) AFMA may, by written notice given to the holder of a fishing concession or a scientific permit, direct the holder of the fishing concession or scientific permit to comply with:
- (a) obligations that relate to the e-monitoring of fishing-related activity and that:
 - (i) are prescribed in the direction; and
 - (ii) are not inconsistent with an obligation prescribed in a direction made under section 40A that the holder is required to comply with; and
 - (b) prescribed restrictions on engaging in fishing if any obligations prescribed under paragraph (a) in the direction have not been, or are not being, complied with.

Note 1: See section 97A for offences relating to e-monitoring equipment and e-monitoring data.

Note 2: For variation and revocation, see subsection 33(3) of the *Acts Interpretation Act 1901*.

- (2) Without limiting the operation of paragraph (1)(a), examples of obligations that may be prescribed in a direction under subsection (1) include obligations relating to:

 - (e) the circumstances, times, places or methods for giving AFMA statements relating to e-monitoring equipment (including statements about its circumstance, time, place or manner of installation, carriage, use, handling, maintenance or monitoring of use).
- (3) A direction made under subsection (1) must prescribe, in respect of each prescribed obligation or restriction, a day, which is a reasonable period after the direction is made, by which compliance with the obligation or restriction must occur or commence.

Directions are not legislative instruments

- (4) A direction made under subsection (1) is not a legislative instrument.

40C Conditions of fishing concessions and scientific permits

It is a condition of a fishing concession or scientific permit that the holder of the concession or permit will comply with each obligation and restriction that is validly prescribed in a direction in force under this Division in relation to the concession or permit by the day prescribed in the direction for compliance with that obligation or restriction.

Note: For offences relating to contravention of licence conditions, see section 95.

Division 10—Miscellaneous

41 Authority to extend to tender boats

Where the use by a person of a specified boat is authorised by a fishing concession or scientific permit, the authority to use that boat extends to the use of any tender boat carried by the first-mentioned boat.

41A AFMA may give directions in relation to closure or partial closure of fishery

- (1) This section applies to a fishery in respect of which fishing concessions, scientific permits or foreign master fishing licences are in force.

- (2) After consultation with:

- (a) the management advisory committee for the fishery; or
- (b) if there is no management advisory committee for the fishery—the holders of fishing concessions, scientific permits or foreign master fishing licences for the fishery;

AFMA may direct that fishing not be engaged in in the fishery, or in a particular part of the fishery, during a period or periods specified in the direction.

- (2AA) To avoid doubt, a direction given under subsection (2) in relation to a part of a fishery may identify the part concerned in any way or ways.

- (2A) At least 7 days before a direction given under subsection (2) takes effect, AFMA must ensure that a copy of the direction is sent to each holder of a fishing concession, scientific permit or foreign master fishing licence in respect of the fishery, or part of the fishery, to which the direction relates.

- (2B) However, in an emergency:

Section 42

- (a) a direction may be given under subsection (2) without any consultation; and
 - (b) subsection (2A) does not apply in respect of the direction; and;
 - (c) AFMA must ensure that a copy of the direction is sent to each holder of a fishing concession, scientific permit or foreign master fishing licence in respect of the fishery, or part of the fishery, to which the direction relates as soon as possible.
- (2C) AFMA may, by writing under its common seal, delegate the power to give a direction under subsection (2) to:
 - (a) the CEO; or
 - (b) a primary stakeholder who is to assist AFMA to manage the fishery under a co-management arrangement (within the meaning of the *Fisheries Administration Act 1991*).
- (3) AFMA may, at any time, by a further direction in writing, vary or revoke a direction given under subsection (2).

Note: Requirements like those in subsections (2) and (2A) do not apply in relation to directions given under this subsection.
- (4) If AFMA varies or revokes a direction given under subsection (2) it must ensure that a copy of the direction given under subsection (3) is sent to each holder of a fishing concession, scientific permit or foreign master fishing licence, in respect of the fishery, or part of the fishery, to which the direction as varied or revoked, relates or related, as soon as possible.
- (5) A direction under subsection (2), or a variation or revocation of such a direction, is a legislative instrument.

42 Determinations relating to logbooks and the furnishing of returns

- (1) AFMA may, by a written determination, in relation to a particular fishery, provide for holders of fishing concessions in respect of that fishery to keep and maintain logbooks containing information in respect of their activities in that fishery.

Section 42

- (1A) Without limiting the generality of subsection (1), a determination by AFMA in respect of a particular fishery may cover matters including:
- (a) the form and content of logbooks for that fishery to be kept by the concession holder; and
 - (b) the secure storage of such logbooks; and
 - (c) the period for which retention of such logbooks is required; and
 - (d) the furnishing to AFMA of such logbooks or of returns of information contained in them.
- (1B) The content of the logbook kept by the holder of a fishing concession in respect of a particular fishery, and of any return of information from such a logbook, may extend to information in relation to:
- (a) the taking of fish under that fishing concession and the sale or disposal of such fish; or
 - (b) the carrying, landing, transshipping or transporting of fish taken under that fishing concession; or
 - (c) the receipt or processing of fish taken under that fishing concession and the sale or disposal of fish so received or processed; or
 - (d) the course, or position at regular intervals, inside or outside the outer limits of the AFZ, of boats to which the fishing concession relates; or
 - (e) any other matter relevant to the fishing concession in that fishery that is specified in the determination.
- (1C) The obligations arising under this section from a determination made under subsection (1) in relation to a particular fishery override any provision to the contrary, in force immediately before the making of the determination:
- (a) in a plan of management for that fishery; or
 - (b) in a condition to which a fishing concession in respect of that fishery is subject.

Section 42A

- (2) It is a condition of a fishing concession that the holder of the fishing concession will comply with the requirements of any determination made under subsection (1).
- (3) A determination made under subsection (1) is a legislative instrument.

42A Fishing concession condition to facilitate boarding

It is a condition of a fishing concession, or scientific permit, authorising the use of an Australian-flagged boat outside the AFZ that the master of the boat:

- (a) facilitate boarding of the boat; and
 - (b) co-operate with inspection of the boat;
- by officials of a foreign country acting in accordance with the Fish Stocks Agreement or a measure established by an international fisheries management organisation.

42B Regulation-making power for conditions

- (1) The regulations may prescribe conditions that apply to fishing concessions or foreign master fishing licences.
- (2) A provision of a plan of management has no effect to the extent that it is inconsistent with regulations made for the purposes of this section.

43 Temporary orders

- (1) The purpose of this section is to enable quick action to be taken:
 - (a) to deal with:
 - (i) emergencies; or
 - (ii) other circumstances where urgent action is required for purposes related to the management of a fishery; or
 - (iii) the maintenance of straddling fish stocks, highly migratory fish stocks or ecologically related fish stocks (within the meaning of the Fish Stocks Agreement)

Section 43

before a plan of management is determined, amended or revoked; or

(b) to correct errors or anomalies in a plan of management.

(2) If AFMA is satisfied that:

(a) it is necessary to take action for the purpose of this section; and

(b) the action contemplated is consistent with AFMA's objectives; and

(c) no other action is appropriate;

AFMA may make an order, consistent with this Act and the regulations, with respect to:

(d) any matter directly or indirectly connected with fishing:

(i) in a managed fishery; or

(ii) in the AFZ but not in a managed fishery; or

(iii) that is the subject of an international agreement and occurs outside the AFZ; or

(e) any other matter relating to a managed fishery, being a matter that may be provided for by a plan of management; or

(f) any incidental matter.

(3) AFMA may at any time make an order cancelling a previous order.

(4) An order ceases to have effect:

(a) on a day specified in the order; or

(b) on being cancelled by another order; or

(c) at the end of 6 months after the order is made;

whichever is soonest.

(5) Subject to subsections (6) and (7), AFMA must not make an order the same in substance as a previous order within 6 months after the previous order has ceased to have effect.

(6) While an order is in force, AFMA may make one, and only one, further order the same in substance as the first-mentioned order.

Section 43

- (7) Nothing in subsections (5) and (6) prevents AFMA from making a further order the same in substance as a previous order to deal with a different emergency.
- (8) AFMA may, by writing under its common seal, delegate its powers under this section to the CEO, but to no other person.
- (9) If an order is inconsistent with a provision of:
 - (a) a plan of management; or
 - (b) a fishing concession, scientific permit, foreign master fishing licence or fish receiver permit;the order overrides the provision and, to that extent, the provision has no effect.
- (10) When an order ceases to have effect, any provision overridden by the order revives, subject to this Act, unless the regulations provide otherwise.
- (11) An order is a legislative instrument.

Part 4—Register of Statutory Fishing Rights

44 The Register

- (1) AFMA is to keep a Register of Statutory Fishing Rights.
- (2) The Register may be kept wholly or partly by use of a computer.
- (3) If the Register is kept wholly or partly by use of a computer:
 - (a) references in this Act to an entry in the Register are to be read as including references to a record of particulars kept by use of the computer and comprising the Register or part of the Register; and
 - (b) references in this Act to particulars being registered, or entered in the Register, are to be read as including references to the keeping of a record of those particulars as part of the Register by use of the computer; and
 - (c) references in this Act to the rectification of the Register are to be read as including references to the rectification of the record of particulars kept by use of the computer and comprising the Register or part of the Register.

45 Information to be included in Register

- (1) AFMA must register each fishing right that it, or a Joint Authority managing a fishery that is (or part of which is) managed in accordance with the law of the Commonwealth, grants by entering in the Register the following particulars:
 - (a) the name of the person to whom the fishing right is granted;
 - (b) a description of the fishing right;
 - (c) the period (if any) for which the fishing right is granted;
 - (d) the managed fishery in relation to which the fishing right is granted;
 - (e) the conditions of the fishing right;
 - (f) such other particulars (if any) as are prescribed.

- (2) Where a Joint Authority grants a fishing right, it must give to AFMA such information in relation to the grant as will enable AFMA to comply with subsection (1).

Scope

- (1) This section applies to a dealing that would, but for subsection (2), have the effect of creating, assigning, transferring, transmitting or extinguishing an interest in a fishing right, other than an interest that is a PPSA security interest.

Registration of dealing

- (2) The dealing has no effect of a kind mentioned in subsection (1) until it is registered under this section.
- (3) A party to the dealing may lodge with AFMA:
- (a) an application in the form approved by AFMA for registration of the dealing; and
 - (b) the instrument evidencing the dealing; and
 - (c) an instrument setting out such particulars (if any) as are prescribed for the purposes of an application for registration; and
 - (d) one copy each of the application and of the instruments mentioned in paragraphs (b) and (c).
- (3A) A party to the dealing may, instead of lodging the instrument evidencing the dealing, lodge with AFMA a summary of that instrument containing the particulars required by AFMA for the purposes of this subsection.
- (4) Subject to subsections (4C) and (4D), if an application for registration of the dealing, either the instrument evidencing the dealing or a summary of that instrument that complies with subsection (3A), and the other documents referred to in paragraphs (3)(c) and (d), are lodged with AFMA, AFMA must:

Section 46

- (a) register the dealing by entering in the Register the following particulars:
 - (i) the name of the person acquiring the interest in the fishing right;
 - (ii) a description of the dealing; and
 - (b) endorse on the instrument evidencing the dealing and the copy of that instrument the fact of the entry having been made together with the date and time of the making of the entry.

- (a) stating that a dealing of a kind referred to in subsection (1) that is described in the statement has taken place; and
 - (b) claiming that, if the dealing were registered, the person would have an interest in a fishing right; and
 - (c) setting out particulars of the interest; and
 - (d) requesting AFMA to register the claim;
- AFMA must register the claim by entering in the register the person's name and particulars of the interest claimed.
- (4B) If, after the registration of a claim to an interest in a fishing right, the claimant, by notice lodged with AFMA in the form approved by AFMA, withdraws the claim, AFMA must cancel the registration by omitting from the register the entry relating to the claim.
- (4C) If:
- (a) a claim to an interest in a fishing right is registered; and
 - (b) an application is made to AFMA for registration of a dealing in respect of the fishing right;
- AFMA must not register the dealing unless:
- (c) AFMA has given written notice of the application to the person whose name appears in the register in relation to the claim; and
 - (d) either:

Section 46

- (i) the person has withdrawn the claim under subsection (4B); or
 - (ii) 21 days have elapsed since the notice was given to the person.
- (4D) AFMA must register a lease, or transfer of ownership, of a fishing right unless:
 - (a) the fishing right is suspended under section 38; or
 - (b) the holder of the fishing right:
 - (i) is being investigated for a fisheries offence; or
 - (ii) has been convicted of a fisheries offence; or
 - (c) a levy on the fishing right that is due has not been paid; or
 - (d) other circumstances that are prescribed under the regulations exist.
- (4E) Subsection (4D) applies despite the fact that any requirement in a plan of management relating to the lease, or transfer, has not been satisfied.

Documentation of registration of dealings

- (5) If a dealing is registered:
 - (a) the copies referred to in paragraph (3)(d) and the summary (if any) lodged under subsection (3A) are to be kept by AFMA; and
 - (b) if a summary is not lodged under subsection (3A), the copy of the instrument evidencing the dealing is to be made available for inspection in accordance with this Part; and
 - (c) if a summary is lodged under subsection (3A), the summary is to be made available for inspection in accordance with this Part; and
 - (d) the original instrument is to be returned to the person who made the application for registration.

Section 46A

46A Interests in fishing rights—priority between section 46 interests and PPSA security interests

Scope

- (1) This section sets out the priority between the following interests in a fishing right:
- (a) an interest (the **section 46 interest**) that is the subject of a dealing (the **section 46 dealing**), if the dealing has effect under section 46 (by registration);
 - (b) a PPSA security interest.

Priority rules

- (2) The priority is as set out in the following table:

Priority between PPSA security interests and section 46 interests		
Item	If ...	then ...
1	the PPSA security interest is not perfected (whether by registration or otherwise) within the meaning of the <i>Personal Property Securities Act 2009</i>	the section 46 interest has priority.
2	(a) the PPSA security interest is perfected (whether by registration or otherwise) within the meaning of the <i>Personal Property Securities Act 2009</i> ; and (b) the section 46 dealing is registered under section 46 of this Act before the priority time for the PPSA security interest under section 55 of the <i>Personal Property Securities Act 2009</i>	the section 46 interest has priority.
3	(a) the PPSA security interest is perfected (whether by registration or otherwise) within	the PPSA security interest has priority.

Section 47

Priority between PPSA security interests and section 46 interests

Item	If ...	then ...

	(b) the section 46 dealing is registered under section 46 of this Act at or after the priority time for the PPSA security interest under section 55 of the <i>Personal Property Securities Act</i> <i>2009</i>	

- (3) Subsection 73(2) of the *Personal Property Securities Act 2009* applies to the section 46 interest.

Note 1: The effect of subsection (3) is that the priority between a section 46 interest and a PPSA security interest in a fishing right is to be determined in accordance with this Act rather than the *Personal Property Securities Act 2009*.

Note 2: Subsection 73(2) of the *Personal Property Securities Act 2009* applies to section 46 interests that arise after the commencement of subsection (3) of this section (which commences at the registration commencement time within the meaning of the *Personal Property Securities Act 2009*).

47 Trusts not registrable

Notice of any kind of trust relating to a fishing right is not receivable by AFMA and must not be registered.

48 Power of holder of fishing right to deal with fishing right

- (1) Except where a condition of a fishing right provides otherwise, a holder of a fishing right may, subject to this section, deal with the fishing right as its absolute owner and give good discharges for any consideration for any such dealing.

- (1A) A dealing mentioned in subsection (1) is subject to:

Section 50

- (b) any rights appearing in the Register to be vested in another person, other than any such rights that are PPSA security interests; and
 - (c) any rights or interests in the fishing right that are PPSA security interests, to the extent provided by the *Personal Property Securities Act 2009*.
- (2) Subsection (1) only protects a person who deals with such a holder as a purchaser in good faith for value and without notice of any fraud on the part of the holder.
- (3) Equities in relation to a fishing right may be enforced against the holder of the fishing right except to the prejudice of a person protected by subsection (2).

50 Suspension, cancellation etc. of fishing right to be noted in Register

- (1) Where a fishing right registered under this Part is suspended, cancelled or ceases to have effect (other than because of subsection 43(9)), or a suspension of a fishing right is revoked, then:
 - (a) if the fishing right is suspended or a suspension is revoked—AFMA must make a notation in the Register to that effect; and
 - (b) if the fishing right is cancelled or ceases to have effect—AFMA must make a notation in the Register to that effect and cancel the registration of the fishing right.
- (2) Where, because of a decision made by AFMA, a Joint Authority, the Administrative Appeals Tribunal or a court, a notation made by AFMA under subsection (1) is no longer correct, AFMA must rectify the Register accordingly.
- (4) Where, because of subsection 43(9), a provision of a fishing right registered under this Part has no effect, AFMA must make a notation in the Register to that effect.

- (5) Where AFMA has made a notation in the Register under subsection (4) and the relevant provision of the fishing right revives, AFMA must make a notation in the Register to that effect.

51 AFMA not concerned with certain matters

AFMA is not concerned with the effect in law of any instrument lodged under section 46 and the registration of the dealing does not give to the instrument any effect that it would not have if this Part had not been enacted.

52 Inspection of Register and documents

- (1) The Register and all instruments and documents subject to inspection under this Part must be available for inspection, in accordance with the regulations and upon payment of the prescribed fee, by any person during the hours that AFMA is open for business.
- (2) If the Register is kept wholly or partly by use of a computer, subsection (1) is taken to be complied with, to the extent that the Register is so kept, by giving members of the public access to a computer terminal that they can use to inspect the Register, either on a screen or in the form of a computer print-out.

53 Evidentiary provisions

- (1) The Register is prima facie evidence of any particulars registered in it.
- (2) If the Register is wholly or partly kept by use of a computer, a document issued by AFMA producing in writing all or any of the particulars comprising the Register, or that part of it, as the case may be, is admissible in any proceedings as prima facie evidence of those particulars.
- (3) A signed copy of, or signed extract from, the Register is admissible in any proceedings as if it were the original.

Section 54

- (4) A signed copy of, or signed extract from, an instrument evidencing a dealing registered under this Part is admissible in any proceedings as if it were the original.

Section 55

- (5) On receiving the copy of an order, AFMA must rectify the Register accordingly.
- (5A) This section, so far as it relates to the Supreme Court of Norfolk Island, has effect subject to section 60AA of the *Norfolk Island Act 1979*.
- (6) In this section:

Division 2—Joint Authorities

61 Establishment of Joint Authorities

- (1) The Commonwealth may make an arrangement with a State or States for the establishment of a Joint Authority consisting of the Commonwealth Minister together with the appropriate Minister or Ministers of that State or those States.
- (2) Each arrangement is to be made by instrument approved by the Governor-General and the Governor or Governors of the State or States represented on the Joint Authority.
- (3) A Joint Authority may be abolished by a further such instrument, but such an instrument does not take effect while there is in operation an arrangement under Division 3 providing that the Joint Authority is to have the management of a particular fishery.
- (4) The Commonwealth Minister is to cause a copy of every instrument so approved to be published in the *Gazette* and, subject to subsection (3), the instrument takes effect on the day of publication.

62 Functions of Joint Authority

A Joint Authority has such functions in relation to fisheries in respect of which arrangements are made under Division 3 as are conferred on it by this Part or a law of a State that is represented on the Joint Authority.

63 Deputies of members

- (1) A member of a Joint Authority may, in writing, appoint a person or persons to be his or her deputy or deputies.

- (3) A delegate of a Joint Authority is, in the exercise of his or her delegated powers, subject to the directions of the Joint Authority.
- (4) A delegation of a power under this section:
 - (a) may be revoked, by instrument, by the Joint Authority (whether or not constituted by the persons constituting the Joint Authority at the time the power was delegated); and
 - (b) continues in force despite any change in the membership of the Joint Authority.
- (5) A certificate signed by a member of a Joint Authority stating any matter with respect to a delegation of a power under this section by the Joint Authority is prima facie evidence of that matter.

 - (a) if the Commonwealth Minister is present—that Minister is to preside; and

- (3) The quorum for a meeting of a Joint Authority is:
 - (a) if there are 2 members—2 members; or
 - (b) if there are more than 2 members—the Commonwealth Minister or that Minister’s deputy and other members not fewer in number than 2 and not fewer in number than half the number of States represented on the Joint Authority.
- (4) If, at a meeting of a Joint Authority, the members present are not agreed as to the decision to be made on a matter, the Commonwealth Minister may, subject to subsection (6), decide that matter.
- (5) A decision of the Commonwealth Minister made under subsection (4) has effect as the decision of the Joint Authority.
- (6) Before deciding in accordance with subsection (4), the Commonwealth Minister must:
 - (a) submit the matter for consideration by the members of the Australian Fisheries Council, being the body known by that name constituted by the Commonwealth Minister and Ministers of the States and certain of the Territories; and

Section 67

- (b) for that purpose, if so requested by a member of that Council, convene a meeting of that Council;
- but a decision of the Commonwealth Minister may not be called into question in any legal proceedings on a ground arising out of this subsection.
- (7) Subject to this Division, a Joint Authority may adopt its own rules of procedure.

67 Decisions taken without meeting

- (1) A member of a Joint Authority may, by written or other communication, submit a matter within the functions of the Joint Authority for consideration by the other member, or each of the other members, of the Joint Authority.
- (2) If all the members of the Joint Authority are agreed as to the decision to be made on the matter, the Joint Authority is taken to have made a decision accordingly.
- (3) The Commonwealth Minister, upon being satisfied that the members are so agreed, must record the decision as a decision of the Joint Authority.

69 Administration

- (1) The Commonwealth Minister must, in respect of each Joint Authority:
 - (a) appoint a person to be the secretary of the Joint Authority;
 - and
 - (b) make arrangements for the provision of appropriate services in respect of the Authority.

- (2) A person appointed under subsection (1) to be the secretary of a Joint Authority must be an AFMA staff member if the Joint Authority is to manage, or is managing, a fishery in accordance with the law of the Commonwealth.
- (3) The Commonwealth Minister must cause written records to be kept of the decisions of a Joint Authority.
- (4) Such a record, if signed by the Commonwealth Minister, or deputy of the Commonwealth Minister, who took part in or made the decision, is prima facie evidence that the decision, as recorded, was duly made.
- (5) In proceedings in any court, an instrument or other document signed, on behalf of a Joint Authority, by a member of that Joint Authority, is taken to be duly executed by the Joint Authority and, unless the contrary is proved, is taken to be in accordance with a decision of the Joint Authority.

70 Annual reports

- (1) A Joint Authority must, as soon as practicable after 30 June in each year, prepare a report on:
 - (a) the activities of the Joint Authority in the immediately preceding financial year; and
 - (b) the condition during that year of the fisheries to which the functions of the Joint Authority apply.
- (2) The Commonwealth Minister is to cause a copy of every report under this section to be laid before each House of the Parliament as soon as practicable after the preparation of the report.

 - (a) identify the thing; and

Section 106D

Provisions about dealing with things before they are condemned		
Item	Provision	Subject of provision

- Note 1: An officer may retain possession even if the CEO does not give notice. If so, the claimant will be able to recover the thing only if it is released under section 88 or a court orders its release to the claimant.
- Note 2: If the CEO does give the notice and the claimant institutes proceedings, whether the claimant recovers the thing will depend on the outcome of the proceedings.
- (2) The CEO may give the notice to the claimant by posting it prepaid as a letter to the last address of the claimant that is known to the CEO. If the CEO does so, the letter is taken to be properly

Section 106G

addressed for the purposes of section 29 of the *Acts Interpretation Act 1901*.

- (3) Subsection (2) does not limit the ways in which the notice may be given.

Note: Sections 28A and 29 of the *Acts Interpretation Act 1901* explain how a notice can be given, and when it is taken to be given.

- (4) To avoid doubt, the CEO may give the notice even if the thing has been released under section 88.

- (4) The third main object is to facilitate the transition of persons from fisheries detention to immigration detention under the *Migration Act 1958*:
 - (a) by providing for the things mentioned in subclause (3) to be done in a way corresponding to the way that Act provides for those things to be done to persons in immigration detention; and
 - (b) by authorising the disclosure of personal information about individuals who are or have been in fisheries detention to persons, agencies and organisations responsible for holding the individuals in immigration detention, for the purpose of the immigration detention and welfare of the individuals.

Note: The enforcement visa of a person who is neither an Australian citizen nor an Australian resident ceases to have effect under the *Migration Act 1958* when the person ceases to be in fisheries detention, so that Act requires the person to be taken into immigration detention.

PART 1

INTRODUCTORY

1. In this Annex:
 - (a) “applicable national law” means any provision of a law, however described, of a Pacific Island party which governs the fishing activities of foreign fishing vessels, being a law identified in Schedule 1, and which is not inconsistent with the requirements of this Treaty and shall be taken to exclude any provision which imposes a requirement which is also imposed by this Treaty;
 - (b) “Closed Area” means an area of a Pacific Island party as described in Schedule 2;
 - (c) “Limited Area” means an area described in Schedule 3; and
 - (d) “the vessel” means the vessel in respect of which a licence is issued.
2. Schedule 1 may be amended from time to time by the inclusion by any Pacific Island party of any applicable national law and, for the purposes of this Treaty, except as provided in this paragraph, the amendment shall take effect from the date that the amended Schedule has been notified to the Government of the United States. For the purposes of any obligation on the United States pursuant to paragraphs 4 and 5 of Article 4, the amendment shall take effect sixty (60) days from the date that the amended Schedule has been notified to the Government of the United States. The Government of the Pacific Island party shall use its best endeavours to provide advance notice to the Government of the United States of the amendment.
3. Nothing in this Annex and its Schedules, nor acts or activities taking place thereunder, shall constitute recognition of the claims or the positions of any of the parties concerning the legal status and extent of waters and zones claimed by any party. In the claimed waters and zones, the freedoms of navigation and overflight and other uses of the sea related to such freedoms are to be exercised in accordance with international law.

PART 2

COMPLIANCE WITH APPLICABLE NATIONAL LAWS

4. The operator of the vessel shall comply with each of the applicable national laws, and shall be responsible for the compliance by the vessel and its crew with each of the applicable national laws, and the vessel shall be operated in accordance with those laws.

PART 3

PROHIBITIONS

5. The vessel shall not be used for directed fishing for Southern Bluefin Tuna, or for fishing for any kinds of fish other than tunas, except that other kinds of fish may be caught as an incidental by-catch.

6. The vessel shall not be used for fishing by any method, except the purse seine method.

7. The vessel shall not be used for fishing in any Closed Area.

8. Except for circumstances involving force majeure and other emergencies involving the health or safety of crew members or the safety of the vessel, no aircraft may be used in association with the fishing activities of the vessel unless it is identified in item 6 or 7 of Schedule 1 of Annex II.

9. The vessel shall not be used for fishing in any Limited Area except in accordance with the requirements set out in Schedule 3, which are applicable to that Limited Area.

PART 4

REPORTING

10. Information relating to the position of and catch on board the vessel, as described in Part 1 of Schedule 4, shall be provided by telex to the Administrator at the following times:

- (a) before departure from port for the purpose of beginning a fishing trip in the Licensing Area;
- (b) each Wednesday while within the Licensing Area or a Closed Area; and

-
- (c) before entry into port for the purpose of unloading fish from any trip involving fishing in the Licensing Area.

11. Information relating to the position of and catch on board the vessel, as described in Part 2 of Schedule 4, shall be provided to each Pacific Island party in the manner notified to the Government of the United States by that party as follows:

- (a) at the time of entry into and of departure from waters which are, for any purpose, subject to the jurisdiction of the Pacific Island party;
- (b) at least 24 hours prior to the estimated time of entry into any port of that party; and
- (c) as otherwise set out in Part 3 of Schedule 4.

12. At the end of each day that the vessel is in the Licensing Area, an entry or entries for that day shall be completed on the catch report form as set out in Schedule 5, in accordance with the requirements of that form, and such forms shall be posted by registered airmail to the Administrator within fourteen (14) days following the date of the next entry into a port for the purpose of unloading its fish catch.

13. Immediately following the unloading of any fish from the vessel, a report shall be completed in the form set out in Schedule 6 and shall be posted by registered airmail to the Administrator within fourteen (14) days following the date of the completion of that unloading operation, or, in the case of unloading by transshipment, within fourteen (14) days following unloading of that transshipment at the processing site.

PART 5

ENFORCEMENT

14. The master and each member of the crew of the vessel shall immediately comply with every instruction and direction given by an authorised and identified officer of a Pacific Island party, including to stop, to move to a specified location, and to facilitate safe boarding and inspection of the vessel, gear, equipment, records, fish and fish products. Such boarding and inspection shall be conducted as much as possible in a manner so as not to interfere unduly with the lawful operation of the vessel. The operator and each member of the crew shall facilitate and assist in any action by an authorised officer of a Pacific Island party and shall not assault, obstruct, resist, delay, refuse boarding to,

intimidate or interfere with an authorised officer in the performance of his or her duties.

15. The international distress frequency, 2.182 MHz, and 156.8 MHz (Channel 16, VHF) shall be monitored continuously from the vessel for the purpose of facilitating communication with the surveillance and enforcement authorities of the parties.

16. The international radio call sign of the vessel shall be painted in white on a black background, or in black on a white background, in the following manner:

- (a) amidships on both sides immediately below the gunwale, and on a horizontal plane on the superstructure, in letters and figures 20 centimetres apart, with each letter and figure being at least one metre high and 50 centimetres wide and with each line at least 12.5 centimetres wide;
- (b) if a helicopter is being carried, on the body of the helicopter in a place clearly visible from sea level, in letters and figures five centimetres apart, with each letter and figure being at least 25 centimetres high, 10 centimetres wide and with each line being at least 2.5 centimetres wide; and
- (c) on any other equipment being carried by and intended to be separated from the vessel during normal fishing operations, in letters and figures clearly legible to the naked eye;

and at all times while the vessel is within the Licensing Area or a Closed Area, all parts of these markings shall be clear, distinct and uncovered.

17. The licence shall be carried on board the vessel and produced at the request of an authorised enforcement official of any of the parties. Prior to receipt of the licence, the correct citation of the licence number shall satisfy this requirement.

PART 6

OBSERVERS

18. The operator and each member of the crew of the vessel shall allow and assist any person identified as an observer by the Pacific Island parties to:

- (a) board the vessel for scientific, compliance, monitoring and other functions at the point and time notified by the Pacific Island parties to the Government of the United States;

-
- (b) have full access to and the use of facilities and equipment on board the vessel which the observer may determine is necessary to carry out his or her duties; have full access to the bridge, fish on board and areas which may be used to hold, process, weigh and store fish; remove samples; have full access to the vessel's records, including its log and documentation for the purpose of inspection and copying; and gather any other information relating to fisheries in the Licensing Area; without interfering unduly with the lawful operation of the vessel;
 - (c) disembark at the point and time notified by the Pacific Island parties to the Government of the United States; and
 - (d) carry out his or her duties safely;

and no operator or crew member of the vessel shall assault, obstruct, resist, delay, refuse boarding to, intimidate or interfere with an observer in the performance of his or her duties.

19. The operator shall provide the observer, while on board the vessel, at no expense to the Pacific Island parties, with food, accommodation and medical facilities of such reasonable standard as may be acceptable to the Pacific Island party whose representative is serving as the observer.

20. Any operator of the vessel from which any fish taken in the Licensing Area is unloaded shall allow, or arrange for, and assist any person authorised for this purpose by the Pacific Island parties to have full access to any place where such fish is unloaded, to remove samples and to gather any other information relating to fisheries in the Licensing Area.

21. An observer programme shall be conducted in accordance with this Treaty and provisions that may be agreed from time to time.

PART 7

MISCELLANEOUS REQUIREMENTS

22. At all times while the vessel is in a Closed Area, the fishing gear of the vessel shall be stowed in such a manner as not to be readily available for fishing. In particular, the boom shall be lowered as far as possible so that the vessel cannot be used for fishing but so that the skiff is accessible for use in emergency situations; the helicopter, if any, shall be tied down; and launches shall be secured.

23. The vessel shall be operated in such a way that the activities of traditional and locally based fishermen and fishing vessels are not disrupted or in any other way adversely affected.

24. Any information required to be recorded, or to be notified, communicated or reported pursuant to a requirement of this Treaty shall be true, complete and correct. Any change in circumstances which has the effect of rendering any such information false, incomplete or misleading shall be notified to the Administrator immediately.

ANNEX II

1. For the purposes of this Annex:
 - (a) “Licensing Period” means the period of validity of licences issued in accordance with this Treaty.
2. The Government of the United States shall make application for a licence in respect of any fishing vessel of the United States intended by the operator to be used for purse seine fishing in the Licensing Area at any time in the Licensing Period by providing to the Administrator a complete application form as set out in Schedule 1.
3. Licences issued pursuant to this Treaty shall not take effect until the Administrator has received payment, free of any charges whatsoever, of the amounts set out in Part 1 of Schedule 2 for that Licensing Period in the manner described in that Schedule. Other financial commitments shall be provided during the Licensing Period pursuant to Part 2 of Schedule 2.
4. Subject to paragraph 5, a licence may be denied:
 - (a) where the application is not in accordance with the requirements of paragraph 2;
 - (b) where the owner or charterer is the subject of proceedings under the bankruptcy laws of the United States, unless reasonable financial assurances have been provided to the Administrator;
 - (c) where the vessel in respect of which application for a licence has been made does not have good standing on the Regional Register of Foreign Fishing Vessels, maintained by the South Pacific Forum Fisheries Agency, provided that:
 - (i) good standing is withdrawn only as a result of:
 - (A) the commission of a serious offence against fisheries laws or regulations of a Pacific Island State and the operator has not fully complied with any civil or criminal judgment rendered with respect to such an offence;
 - (B) evidence existing that gives reasonable cause to believe that the operator has committed a serious offence against the fisheries laws or regulations of any Pacific Island State and that it has not been possible to bring the vessel operator to trial; or

- (C) the vessel operator has failed to comply with information requirements for registration as notified by the Administrator to the Government of the United States;
 - (ii) the Pacific Island party requesting withdrawal of good standing has first consulted the Government of the United States and has made all reasonable efforts to resolve the dispute in question before utilizing the procedures for withdrawal of good standing;
 - (iii) in the event of a request for withdrawal of good standing from the Regional Register of Foreign Fishing Vessels of a vessel licensed pursuant to this Treaty, the Pacific Island parties agree to take into consideration that vessel's compliance with the terms of this Treaty in determining whether to approve such a request; and
 - (iv) following a withdrawal of good standing the Pacific Island party involved promptly advises the Government of the United States in writing of the reason for the withdrawal and the requirements which must be fulfilled to reinstate good standing;
- (d) where there has been a failure to satisfy a final judgment or other final determination for a breach of this Treaty by the owner, charterer or master of the vessel in respect of which application for a licence has been made, until such time as the final judgment or other final determination is satisfied, and subsequent change in ownership of a vessel shall not affect the application of this provision; or
- (e) where an operator has committed, or the vessel has been used for:
- (i) a violation of this Treaty, providing that the Pacific Island parties, following consultation with the Government of the United States, determine that the violation is of a serious nature; or
 - (ii) any violation of this Treaty on more than one occasion, providing that the Pacific Island parties, following consultation with the Government of the United States, determine that such multiple violations constitute a serious disregard of this Treaty.

5. A maximum number of licences may be issued for any Licensing Period as set out in Schedule 2, and, upon request by the Government of the United States, the Pacific Island parties may agree to vary such number.
6. On receipt of an application for a licence in accordance with this Annex, the Administrator shall take the necessary steps to ensure that:
- (a) a licence in the form set out in Schedule 3 in respect of the vessel identified in the application; or
 - (b) a statement setting out the reasons that a licence in respect of the vessel identified in the application is denied together with a refund of the amount or amounts provided with the application;
- is promptly provided to the Government of the United States.

PAYMENTS

The following amounts are payable annually for a period of five (5) years pursuant to paragraph 3 of Annex II.

PART 1

1. The amounts payable as set forth in this paragraph.
 - (a) Annual industry payments shall be made as follows:
 - (i) for the first annual Licensing Period, a lump sum of US\$1.75 million for 35 vessels, with the next five licences to be made available for the same pro-rata payment as the first 35 licences, and an additional 10 licences to be made available at US\$60,000 per vessel;
 - (ii) for subsequent annual Licensing Periods, 40 vessel licences calculated on the same basis as the first 40 vessel licences in sub-paragraph (i) and indexed to the price of fish as set forth below, with 10 additional licences to be made available at US\$60,000 per vessel and indexed to the price of fish as set forth below.
 - (b) The indexation shall be applied as follows:
 - (i) DEFINITIONS
 - A. Base Vessel Payment: The Base Vessel Payment is US\$50,000 for the first 40 vessels to be licensed and US\$60,000 for vessels to be licensed in excess of 40 vessels.
 - B. Adjusted Individual Vessel Payment: The Adjusted Individual Vessel Payment is the individual vessel payment of each annual Licensing Period after the first annual Licensing Period. The Adjusted Individual Vessel Payment will always apply to the Licensing Period immediately following its calculation.

- C. Landed Price: The Landed Price is the published standard price per ton (American Tuna Sales Association) for fish delivered to American Samoa prevailing at the time a United States purse seine vessel arrives in port for the purpose of offloading its catch.
 - D. Average Landed Price: The Average Landed Price is calculated by averaging the established landed price categories for yellowfin and skipjack tuna in American Samoa. The landed price categories to be used are: over 7.5 pounds, 4 to 7.5 pounds and 3 to 4 pounds for skipjack; over 20 pounds, 7.5 to 20 pounds and 4 to 7.5 pounds for yellowfin.
 - E. Base Price: The Base Price is the Average Landed Price for the three months prior to the Treaty entering into force.
 - F. Estimated Landed Value: The Estimated Landed Value is the Average Landed Price in effect at the time of a vessel's landing weighted by the yellowfin/skipjack mix ratio to be calculated from information on Schedule 6 for that vessel.
 - G. Average Estimated Landed Value: The Average Estimated Landed Value is the Estimated Landed Value for all landings by United States purse seine vessels in American Samoa in the four quarters preceding the final quarter of the applicable Licensing Period divided by the total number of those landings for the same period.
- (ii) CALCULATION AND APPLICATION OF INDEXING FACTOR
- A. To obtain the indexing factor by which the Adjusted Individual Vessel Payment shall be calculated, divide the Average Estimated Landed Value for the preceding four quarters by the Base Price.
 - B. To obtain the Adjusted Individual Vessel Payment, multiply the Base Vessel Payment by the indexing factor obtained in Paragraph (ii) A.

C. In no case shall the Adjusted Individual Vessel Payment be less than the Base Vessel Payment.

(iii) NOTIFICATIONS

The established prices and any changes shall be supplied to the Administrator by the Government of the United States within ten (10) days of their publication. The Administrator shall notify the Government of the United States sixty (60) days before the start of each Licensing Period of the Adjusted Individual Vessel Payment along with the computation used to arrive at the Adjusted Individual Vessel Payment. The Adjusted Individual Vessel Payment shall become final thirty (30) days after receipt by the Government of the United States, unless the Government of the United States advises the Administrator otherwise, in which case consultations shall be held.

(iv) CONSULTATIONS

If the established price categories are revised, or if there is a change in the tuna industry structure which makes the price calculations as set forth above inappropriate, the Administrator may consult with representatives of the Government of the United States as necessary to revise the formula.

- (c) There shall be no pro-ration of the Base Vessel Payment or the Adjusted Individual Vessel Payment. There shall be no refunds of the Base Vessel Payment or the Adjusted Individual Vessel Payment following licence issuance pursuant to Annex II.

2. Sums payable pursuant to the related Agreement between the South Pacific Forum Fisheries Agency and the Government of the United States.

PART 2

Schedule 2—Fish Stocks Agreement

Note: See subsection 4(1) (definition of *Fish Stocks Agreement*).

AGREEMENT FOR THE IMPLEMENTATION OF THE PROVISIONS OF
THE UNITED NATIONS CONVENTION ON THE LAW OF THE SEA OF
10 DECEMBER 1982 RELATING TO THE CONSERVATION AND
MANAGEMENT OF STRADDLING FISH STOCKS AND HIGHLY
MIGRATORY FISH STOCKS

The States Parties to this Agreement,

Recalling the relevant provisions of the United Nations Convention on
the Law of the Sea of 10 December 1982,

Determined to ensure the long-term conservation and sustainable use of
straddling fish stocks and highly migratory fish stocks,

Resolved to improve cooperation between States to that end,

Calling for more effective enforcement by flag States, port States and
coastal States of the conservation and management measures adopted for such
stocks,

Seeking to address in particular the problems identified in chapter 17,
programme area C, of Agenda 21 adopted by the United Nations Conference on
Environment and Development, namely, that the management of high seas
fisheries is inadequate in many areas and that some resources are overutilized;
noting that there are problems of unregulated fishing, over-capitalization,
excessive fleet size, vessel reflagging to escape controls, insufficiently selective
gear, unreliable databases and lack of sufficient cooperation between States,

Committing themselves to responsible fisheries,

Conscious of the need to avoid adverse impacts on the marine
environment, preserve biodiversity, maintain the integrity of marine ecosystems
and minimize the risk of long-term or irreversible effects of fishing operations,

Recognizing the need for specific assistance, including financial, scientific and technological assistance, in order that developing States can participate effectively in the conservation, management and sustainable use of straddling fish stocks and highly migratory fish stocks,

Convinced that an agreement for the implementation of the relevant provisions of the Convention would best serve these purposes and contribute to the maintenance of international peace and security,

Affirming that matters not regulated by the Convention or by this Agreement continue to be governed by the rules and principles of general international law,

Have agreed as follows:

PART I

GENERAL PROVISIONS

Article 1

Use of terms and scope

1. For the purposes of this Agreement:

(a) “Convention” means the United Nations Convention on the Law of the Sea of 10 December 1982;

(b) “conservation and management measures” means measures to conserve and manage one or more species of living marine resources that are adopted and applied consistent with the relevant rules of international law as reflected in the Convention and this Agreement;

(c) “fish” includes molluscs and crustaceans except those belonging to sedentary species as defined in article 77 of the Convention; and

(d) “arrangement” means a cooperative mechanism established in accordance with the Convention and this Agreement by two or more States for the purpose, inter alia, of establishing conservation and management measures

in a subregion or region for one or more straddling fish stocks or highly migratory fish stocks.

2. (a) “States Parties” means States which have consented to be bound by this Agreement and for which the Agreement is in force.

(b) This Agreement applies mutatis mutandis:

(i) to any entity referred to in article 305, paragraph 1(c), (d) and (e), of the Convention and

(ii) subject to article 47, to any entity referred to as an “international organization” in Annex IX, article 1, of the Convention

which becomes a Party to this Agreement, and to that extent “States Parties” refers to those entities.

3. This Agreement applies mutatis mutandis to other fishing entities whose vessels fish on the high seas.

Article 2

Objective

The objective of this Agreement is to ensure the long-term conservation and sustainable use of straddling fish stocks and highly migratory fish stocks through effective implementation of the relevant provisions of the Convention.

Article 3

Application

1. Unless otherwise provided, this Agreement applies to the conservation and management of straddling fish stocks and highly migratory fish stocks beyond areas under national jurisdiction, except that articles 6 and 7 apply also to the conservation and management of such stocks within areas under national jurisdiction, subject to the different legal regimes that apply within areas under national jurisdiction and in areas beyond national jurisdiction as provided for in the Convention.

2. In the exercise of its sovereign rights for the purpose of exploring and exploiting, conserving and managing straddling fish stocks and highly migratory fish stocks within areas under national jurisdiction, the coastal State shall apply mutatis mutandis the general principles enumerated in article 5.

3. States shall give due consideration to the respective capacities of developing States to apply articles 5, 6 and 7 within areas under national jurisdiction and their need for assistance as provided for in this Agreement. To this end, Part VII applies mutatis mutandis in respect of areas under national jurisdiction.

Article 4

Relationship between this Agreement and the Convention

Nothing in this Agreement shall prejudice the rights, jurisdiction and duties of States under the Convention. This Agreement shall be interpreted and applied in the context of and in a manner consistent with the Convention.

PART II

CONSERVATION AND MANAGEMENT OF STRADDLING FISH STOCKS AND HIGHLY MIGRATORY FISH STOCKS

Article 5

General principles

In order to conserve and manage straddling fish stocks and highly migratory fish stocks, coastal States and States fishing on the high seas shall, in giving effect to their duty to cooperate in accordance with the Convention:

(a) adopt measures to ensure long-term sustainability of straddling fish stocks and highly migratory fish stocks and promote the objective of their optimum utilization;

-
- (b) ensure that such measures are based on the best scientific evidence available and are designed to maintain or restore stocks at levels capable of producing maximum sustainable yield, as qualified by relevant environmental and economic factors, including the special requirements of developing States, and taking into account fishing patterns, the interdependence of stocks and any generally recommended international minimum standards, whether subregional, regional or global;
- (c) apply the precautionary approach in accordance with article 6;
- (d) assess the impacts of fishing, other human activities and environmental factors on target stocks and species belonging to the same ecosystem or associated with or dependent upon the target stocks;
- (e) adopt, where necessary, conservation and management measures for species belonging to the same ecosystem or associated with or dependent upon the target stocks, with a view to maintaining or restoring populations of such species above levels at which their reproduction may become seriously threatened;
- (f) minimize pollution, waste, discards, catch by lost or abandoned gear, catch of non-target species, both fish and non-fish species, (hereinafter referred to as non-target species) and impacts on associated or dependent species, in particular endangered species, through measures including, to the extent practicable, the development and use of selective, environmentally safe and cost-effective fishing gear and techniques;
- (g) protect biodiversity in the marine environment;
- (h) take measures to prevent or eliminate overfishing and excess fishing capacity and to ensure that levels of fishing effort do not exceed those commensurate with the sustainable use of fishery resources;
- (i) take into account the interests of artisanal and subsistence fishers;
- (j) collect and share, in a timely manner, complete and accurate data concerning fishing activities on, inter alia, vessel position, catch of target and non-target species and fishing effort, as set out in Annex I, as well as information from national and international research programmes;
-

(k) promote and conduct scientific research and develop appropriate technologies in support of fishery conservation and management; and

(l) implement and enforce conservation and management measures through effective monitoring, control and surveillance.

Article 6

Application of the precautionary approach

1. States shall apply the precautionary approach widely to conservation, management and exploitation of straddling fish stocks and highly migratory fish stocks in order to protect the living marine resources and preserve the marine environment.

2. States shall be more cautious when information is uncertain, unreliable or inadequate. The absence of adequate scientific information shall not be used as a reason for postponing or failing to take conservation and management measures.

3. In implementing the precautionary approach, States shall:

(a) improve decision-making for fishery resource conservation and management by obtaining and sharing the best scientific information available and implementing improved techniques for dealing with risk and uncertainty;

(b) apply the guidelines set out in Annex II and determine, on the basis of the best scientific information available, stock-specific reference points and the action to be taken if they are exceeded;

(c) take into account, *inter alia*, uncertainties relating to the size and productivity of the stocks, reference points, stock condition in relation to such reference points, levels and distribution of fishing mortality and the impact of fishing activities on non-target and associated or dependent species, as well as existing and predicted oceanic, environmental and socio-economic conditions; and

(d) develop data collection and research programs to assess the impact of fishing on non-target and associated or dependent species and their

environment, and adopt plans which are necessary to ensure the conservation of such species and to protect habitats of special concern.

4. States shall take measures to ensure that, when reference points are approached, they will not be exceeded. In the event that they are exceeded, States shall, without delay, take the action determined under paragraph 3(b) to restore the stocks.

5. Where the status of target stocks or non-target or associated or dependent species is of concern, States shall subject such stocks and species to enhanced monitoring in order to review their status and the efficacy of conservation and management measures. They shall revise those measures regularly in the light of new information.

6. For new or exploratory fisheries, States shall adopt as soon as possible cautious conservation and management measures, including, *inter alia*, catch limits and effort limits. Such measures shall remain in force until there are sufficient data to allow assessment of the impact of the fisheries on the long-term sustainability of the stocks, whereupon conservation and management measures based on that assessment shall be implemented. The latter measures shall, if appropriate, allow for the gradual development of the fisheries.

7. If a natural phenomenon has a significant adverse impact on the status of straddling fish stocks or highly migratory fish stocks, States shall adopt conservation and management measures on an emergency basis to ensure that fishing activity does not exacerbate such adverse impact. States shall also adopt such measures on an emergency basis where fishing activity presents a serious threat to the sustainability of such stocks. Measures taken on an emergency basis shall be temporary and shall be based on the best scientific evidence available.

Article 7

Compatibility of conservation and management measures

1. Without prejudice to the sovereign rights of coastal States for the purpose of exploring and exploiting, conserving and managing the living marine resources within areas under national jurisdiction as provided for in the

Convention, and the right of all States for their nationals to engage in fishing on the high seas in accordance with the Convention:

(a) with respect to straddling fish stocks, the relevant coastal States and the States whose nationals fish for such stocks in the adjacent high seas area shall seek, either directly or through the appropriate mechanisms for cooperation provided for in Part III, to agree upon the measures necessary for the conservation of these stocks in the adjacent high seas area;

(b) with respect to highly migratory fish stocks, the relevant coastal States and other States whose nationals fish for such stocks in the region shall cooperate, either directly or through the appropriate mechanisms for cooperation provided for in Part III, with a view to ensuring conservation and promoting the objective of optimum utilization of such stocks throughout the region, both within and beyond the areas under national jurisdiction.

2. Conservation and management measures established for the high seas and those adopted for areas under national jurisdiction shall be compatible in order to ensure conservation and management of the straddling fish stocks and highly migratory fish stocks in their entirety. To this end, coastal States and States fishing on the high seas have a duty to cooperate for the purpose of achieving compatible measures in respect of such stocks. In determining compatible conservation and management measures, States shall:

(a) take into account the conservation and management measures adopted and applied in accordance with article 61 of the Convention in respect of the same stocks by coastal States within areas under national jurisdiction and ensure that measures established in respect of such stocks for the high seas do not undermine the effectiveness of such measures;

(b) take into account previously agreed measures established and applied for the high seas in accordance with the Convention in respect of the same stocks by relevant coastal States and States fishing on the high seas;

(c) take into account previously agreed measures established and applied in accordance with the Convention in respect of the same stocks by a subregional or regional fisheries management organization or arrangement;

(d) take into account the biological unity and other biological characteristics of the stocks and the relationships between the distribution of the

stocks, the fisheries and the geographical particularities of the region concerned, including the extent to which the stocks occur and are fished in areas under national jurisdiction;

(e) take into account the respective dependence of the coastal States and the States fishing on the high seas on the stocks concerned; and

(f) ensure that such measures do not result in harmful impact on the living marine resources as a whole.

3. In giving effect to their duty to cooperate, States shall make every effort to agree on compatible conservation and management measures within a reasonable period of time.

4. If no agreement can be reached within a reasonable period of time, any of the States concerned may invoke the procedures for the settlement of disputes provided for in Part VIII.

5. Pending agreement on compatible conservation and management measures, the States concerned, in a spirit of understanding and cooperation, shall make every effort to enter into provisional arrangements of a practical nature. In the event that they are unable to agree on such arrangements, any of the States concerned may, for the purpose of obtaining provisional measures, submit the dispute to a court or tribunal in accordance with the procedures for the settlement of disputes provided for in Part VIII.

6. Provisional arrangements or measures entered into or prescribed pursuant to paragraph 5 shall take into account the provisions of this Part, shall have due regard to the rights and obligations of all States concerned, shall not jeopardize or hamper the reaching of final agreement on compatible conservation and management measures and shall be without prejudice to the final outcome of any dispute settlement procedure.

7. Coastal States shall regularly inform States fishing on the high seas in the subregion or region, either directly or through appropriate subregional or regional fisheries management organizations or arrangements, or through other appropriate means, of the measures they have adopted for straddling fish stocks and highly migratory fish stocks within areas under their national jurisdiction.

8. States fishing on the high seas shall regularly inform other interested States, either directly or through appropriate subregional or regional fisheries management organizations or arrangements, or through other appropriate means, of the measures they have adopted for regulating the activities of vessels flying their flag which fish for such stocks on the high seas.

PART III

MECHANISMS FOR INTERNATIONAL COOPERATION CONCERNING STRADDLING FISH STOCKS AND HIGHLY MIGRATORY FISH STOCKS

Article 8

Cooperation for conservation and management

1. Coastal States and States fishing on the high seas shall, in accordance with the Convention, pursue cooperation in relation to straddling fish stocks and highly migratory fish stocks either directly or through appropriate subregional or regional fisheries management organizations or arrangements, taking into account the specific characteristics of the subregion or region, to ensure effective conservation and management of such stocks.

2. States shall enter into consultations in good faith and without delay, particularly where there is evidence that the straddling fish stocks and highly migratory fish stocks concerned may be under threat of over-exploitation or where a new fishery is being developed for such stocks. To this end, consultations may be initiated at the request of any interested State with a view to establishing appropriate arrangements to ensure conservation and management of the stocks. Pending agreement on such arrangements, States shall observe the provisions of this Agreement and shall act in good faith and with due regard to the rights, interests and duties of other States.

3. Where a subregional or regional fisheries management organization or arrangement has the competence to establish conservation and management measures for particular straddling fish stocks or highly migratory fish stocks, States fishing for the stocks on the high seas and relevant coastal States shall give effect to their duty to cooperate by becoming members of such organization or participants in such arrangement, or by agreeing to apply the conservation and management measures established by such organization or

arrangement. States having a real interest in the fisheries concerned may become members of such organization or participants in such arrangement. The terms of participation in such organization or arrangement shall not preclude such States from membership or participation; nor shall they be applied in a manner which discriminates against any State or group of States having a real interest in the fisheries concerned.

4. Only those States which are members of such an organization or participants in such an arrangement, or which agree to apply the conservation and management measures established by such organization or arrangement, shall have access to the fishery resources to which those measures apply.

5. Where there is no subregional or regional fisheries management organization or arrangement to establish conservation and management measures for a particular straddling fish stock or highly migratory fish stock, relevant coastal States and States fishing on the high seas for such stock in the subregion or region shall cooperate to establish such an organization or enter into other appropriate arrangements to ensure conservation and management of such stock and shall participate in the work of the organization or arrangement.

6. Any State intending to propose that action be taken by an intergovernmental organization having competence with respect to living resources should, where such action would have a significant effect on conservation and management measures already established by a competent subregional or regional fisheries management organization or arrangement, consult through that organization or arrangement with its members or participants. To the extent practicable, such consultation should take place prior to the submission of the proposal to the intergovernmental organization.

Article 9

Subregional and regional fisheries management organizations and arrangements

1. In establishing subregional or regional fisheries management organizations or in entering into subregional or regional fisheries management arrangements for straddling fish stocks and highly migratory fish stocks, States shall agree, inter alia, on:

(a) the stocks to which conservation and management measures apply, taking into account the biological characteristics of the stocks concerned and the nature of the fisheries involved;

(b) the area of application, taking into account article 7, paragraph 1, and the characteristics of the subregion or region, including socio-economic, geographical and environmental factors;

(c) the relationship between the work of the new organization or arrangement and the role, objectives and operations of any relevant existing fisheries management organizations or arrangements; and

(d) the mechanisms by which the organization or arrangement will obtain scientific advice and review the status of the stocks, including, where appropriate, the establishment of a scientific advisory body.

2. States cooperating in the formation of a subregional or regional fisheries management organization or arrangement shall inform other States which they are aware have a real interest in the work of the proposed organization or arrangement of such cooperation.

Article 10

Functions of subregional and regional fisheries management organizations and arrangements

In fulfilling their obligation to cooperate through subregional or regional fisheries management organizations or arrangements, States shall:

(a) agree on and comply with conservation and management measures to ensure the long-term sustainability of straddling fish stocks and highly migratory fish stocks;

(b) agree, as appropriate, on participatory rights such as allocations of allowable catch or levels of fishing effort;

(c) adopt and apply any generally recommended international minimum standards for the responsible conduct of fishing operations;

-
- (d) obtain and evaluate scientific advice, review the status of the stocks and assess the impact of fishing on non-target and associated or dependent species;
 - (e) agree on standards for collection, reporting, verification and exchange of data on fisheries for the stocks;
 - (f) compile and disseminate accurate and complete statistical data, as described in Annex I, to ensure that the best scientific evidence is available, while maintaining confidentiality where appropriate;
 - (g) promote and conduct scientific assessments of the stocks and relevant research and disseminate the results thereof;
 - (h) establish appropriate cooperative mechanisms for effective monitoring, control, surveillance and enforcement;
 - (i) agree on means by which the fishing interests of new members of the organization or new participants in the arrangement will be accommodated;
 - (j) agree on decision-making procedures which facilitate the adoption of conservation and management measures in a timely and effective manner;
 - (k) promote the peaceful settlement of disputes in accordance with Part VIII;
 - (l) ensure the full cooperation of their relevant national agencies and industries in implementing the recommendations and decisions of the organization or arrangement; and
 - (m) give due publicity to the conservation and management measures established by the organization or arrangement.

Article 11

New members or participants

In determining the nature and extent of participatory rights for new members of a subregional or regional fisheries management organization, or for

new participants in a subregional or regional fisheries management arrangement, States shall take into account, inter alia:

- (a) the status of the straddling fish stocks and highly migratory fish stocks and the existing level of fishing effort in the fishery;
- (b) the respective interests, fishing patterns and fishing practices of new and existing members or participants;
- (c) the respective contributions of new and existing members or participants to conservation and management of the stocks, to the collection and provision of accurate data and to the conduct of scientific research on the stocks;
- (d) the needs of coastal fishing communities which are dependent mainly on fishing for the stocks;
- (e) the needs of coastal States whose economies are overwhelmingly dependent on the exploitation of living marine resources; and
- (f) the interests of developing States from the subregion or region in whose areas of national jurisdiction the stocks also occur.

Article 12

Transparency in activities of subregional and regional fisheries management organizations and arrangements

1. States shall provide for transparency in the decision-making process and other activities of subregional and regional fisheries management organizations and arrangements.
2. Representatives from other intergovernmental organizations and representatives from non-governmental organizations concerned with straddling fish stocks and highly migratory fish stocks shall be afforded the opportunity to take part in meetings of subregional and regional fisheries management organizations and arrangements as observers or otherwise, as appropriate, in accordance with the procedures of the organization or arrangement concerned. Such procedures shall not be unduly restrictive in this respect. Such intergovernmental organizations and non-governmental organizations shall have

timely access to the records and reports of such organizations and arrangements, subject to the procedural rules on access to them.

Article 13

Strengthening of existing organizations and arrangements

States shall cooperate to strengthen existing subregional and regional fisheries management organizations and arrangements in order to improve their effectiveness in establishing and implementing conservation and management measures for straddling fish stocks and highly migratory fish stocks.

Article 14

Collection and provision of information and cooperation in scientific research

1. States shall ensure that fishing vessels flying their flag provide such information as may be necessary in order to fulfil their obligations under this Agreement. To this end, States shall in accordance with Annex I:

(a) collect and exchange scientific, technical and statistical data with respect to fisheries for straddling fish stocks and highly migratory fish stocks;

(b) ensure that data are collected in sufficient detail to facilitate effective stock assessment and are provided in a timely manner to fulfil the requirements of subregional or regional fisheries management organizations or arrangements; and

(c) take appropriate measures to verify the accuracy of such data.

2. States shall cooperate, either directly or through subregional or regional fisheries management organizations or arrangements:

(a) to agree on the specification of data and the format in which they are to be provided to such organizations or arrangements, taking into account the nature of the stocks and the fisheries for those stocks; and

(b) to develop and share analytical techniques and stock assessment methodologies to improve measures for the conservation and management of straddling fish stocks and highly migratory fish stocks.

3. Consistent with Part XIII of the Convention, States shall cooperate, either directly or through competent international organizations, to strengthen scientific research capacity in the field of fisheries and promote scientific research related to the conservation and management of straddling fish stocks and highly migratory fish stocks for the benefit of all. To this end, a State or the competent international organization conducting such research beyond areas under national jurisdiction shall actively promote the publication and dissemination to any interested States of the results of that research and information relating to its objectives and methods and, to the extent practicable, shall facilitate the participation of scientists from those States in such research.

Article 15

Enclosed and semi-enclosed seas

In implementing this Agreement in an enclosed or semi-enclosed sea, States shall take into account the natural characteristics of that sea and shall also act in a manner consistent with Part IX of the Convention and other relevant provisions thereof.

Article 16

Areas of high seas surrounded entirely by an area under the national jurisdiction of a single State

1. States fishing for straddling fish stocks and highly migratory fish stocks in an area of the high seas surrounded entirely by an area under the national jurisdiction of a single State and the latter State shall cooperate to establish conservation and management measures in respect of those stocks in the high seas area. Having regard to the natural characteristics of the area, States shall pay special attention to the establishment of compatible conservation and management measures for such stocks pursuant to article 7. Measures taken in respect of the high seas shall take into account the rights, duties and interests of the coastal State under the Convention, shall be based on the best scientific evidence available and shall also take into account any conservation and

management measures adopted and applied in respect of the same stocks in accordance with article 61 of the Convention by the coastal State in the area under national jurisdiction. States shall also agree on measures for monitoring, control, surveillance and enforcement to ensure compliance with the conservation and management measures in respect of the high seas.

2. Pursuant to article 8, States shall act in good faith and make every effort to agree without delay on conservation and management measures to be applied in the carrying out of fishing operations in the area referred to in paragraph 1. If, within a reasonable period of time, the fishing States concerned and the coastal State are unable to agree on such measures, they shall, having regard to paragraph 1, apply article 7, paragraphs 4, 5 and 6, relating to provisional arrangements or measures. Pending the establishment of such provisional arrangements or measures, the States concerned shall take measures in respect of vessels flying their flag in order that they not engage in fisheries which could undermine the stocks concerned.

PART IV

NON-MEMBERS AND NON-PARTICIPANTS

Article 17

Non-members of organizations and non-participants in arrangements

1. A State which is not a member of a subregional or regional fisheries management organization or is not a participant in a subregional or regional fisheries management arrangement, and which does not otherwise agree to apply the conservation and management measures established by such organization or arrangement, is not discharged from the obligation to cooperate, in accordance with the Convention and this Agreement, in the conservation and management of the relevant straddling fish stocks and highly migratory fish stocks.

2. Such State shall not authorize vessels flying its flag to engage in fishing operations for the straddling fish stocks or highly migratory fish stocks which are subject to the conservation and management measures established by such organization or arrangement.

3. States which are members of a subregional or regional fisheries management organization or participants in a subregional or regional fisheries management arrangement shall, individually or jointly, request the fishing entities referred to in article 1, paragraph 3, which have fishing vessels in the relevant area to cooperate fully with such organization or arrangement in implementing the conservation and management measures it has established, with a view to having such measures applied de facto as extensively as possible to fishing activities in the relevant area. Such fishing entities shall enjoy benefits from participation in the fishery commensurate with their commitment to comply with conservation and management measures in respect of the stocks.

4. States which are members of such organization or participants in such arrangement shall exchange information with respect to the activities of fishing vessels flying the flags of States which are neither members of the organization nor participants in the arrangement and which are engaged in fishing operations for the relevant stocks. They shall take measures consistent with this Agreement and international law to deter activities of such vessels which undermine the effectiveness of subregional or regional conservation and management measures.

PART V

DUTIES OF THE FLAG STATE

Article 18

Duties of the flag State

1. A State whose vessels fish on the high seas shall take such measures as may be necessary to ensure that vessels flying its flag comply with subregional and regional conservation and management measures and that such vessels do not engage in any activity which undermines the effectiveness of such measures.

2. A State shall authorize the use of vessels flying its flag for fishing on the high seas only where it is able to exercise effectively its responsibilities in respect of such vessels under the Convention and this Agreement.

3. Measures to be taken by a State in respect of vessels flying its flag shall include:

-
- (a) control of such vessels on the high seas by means of fishing licences, authorizations or permits, in accordance with any applicable procedures agreed at the subregional, regional or global level;
 - (b) establishment of regulations:
 - (i) to apply terms and conditions to the licence, authorization or permit sufficient to fulfil any subregional, regional or global obligations of the flag State;
 - (ii) to prohibit fishing on the high seas by vessels which are not duly licensed or authorized to fish, or fishing on the high seas by vessels otherwise than in accordance with the terms and conditions of a licence, authorization or permit;
 - (iii) to require vessels fishing on the high seas to carry the licence, authorization or permit on board at all times and to produce it on demand for inspection by a duly authorized person; and
 - (iv) to ensure that vessels flying its flag do not conduct unauthorized fishing within areas under the national jurisdiction of other States;
 - (c) establishment of a national record of fishing vessels authorized to fish on the high seas and provision of access to the information contained in that record on request by directly interested States, taking into account any national laws of the flag State regarding release of such information;
 - (d) requirements for marking of fishing vessels and fishing gear for identification in accordance with uniform and internationally recognizable vessel and gear marking systems, such as the Food and Agriculture Organization of the United Nations Standard Specifications for the Marking and Identification of Fishing Vessels;
 - (e) requirements for recording and timely reporting of vessel position, catch of target and non-target species, fishing effort and other relevant fisheries data in accordance with subregional, regional and global standards for collection of such data;
 - (f) requirements for verifying the catch of target and non-target species through such means as observer programs, inspection schemes,
-

unloading reports, supervision of transshipment and monitoring of landed catches and market statistics;

(g) monitoring, control and surveillance of such vessels, their fishing operations and related activities by, inter alia:

- (i) the implementation of national inspection schemes and subregional and regional schemes for cooperation in enforcement pursuant to articles 21 and 22, including requirements for such vessels to permit access by duly authorized inspectors from other States;
- (ii) the implementation of national observer programs and subregional and regional observer programmes in which the flag State is a participant, including requirements for such vessels to permit access by observers from other States to carry out the functions agreed under the programmes; and
- (iii) the development and implementation of vessel monitoring systems, including, as appropriate, satellite transmitter systems, in accordance with any national programmes and those which have been subregionally, regionally or globally agreed among the States concerned;

(h) regulation of transshipment on the high seas to ensure that the effectiveness of conservation and management measures is not undermined; and

(i) regulation of fishing activities to ensure compliance with subregional, regional or global measures, including those aimed at minimizing catches of non-target species.

4. Where there is a subregionally, regionally or globally agreed system of monitoring, control and surveillance in effect, States shall ensure that the measures they impose on vessels flying their flag are compatible with that system.

PART VI**COMPLIANCE AND ENFORCEMENT****Article 19****Compliance and enforcement
by the flag State**

1. A State shall ensure compliance by vessels flying its flag with subregional and regional conservation and management measures for straddling fish stocks and highly migratory fish stocks. To this end, that State shall:

- (a) enforce such measures irrespective of where violations occur;
- (b) investigate immediately and fully any alleged violation of subregional or regional conservation and management measures, which may include the physical inspection of the vessels concerned, and report promptly to the State alleging the violation and the relevant subregional or regional organization or arrangement on the progress and outcome of the investigation;
- (c) require any vessel flying its flag to give information to the investigating authority regarding vessel position, catches, fishing gear, fishing operations and related activities in the area of an alleged violation;
- (d) if satisfied that sufficient evidence is available in respect of an alleged violation, refer the case to its authorities with a view to instituting proceedings without delay in accordance with its laws and, where appropriate, detain the vessel concerned; and
- (e) ensure that, where it has been established, in accordance with its laws, a vessel has been involved in the commission of a serious violation of such measures, the vessel does not engage in fishing operations on the high seas until such time as all outstanding sanctions imposed by the flag State in respect of the violation have been complied with.

2. All investigations and judicial proceedings shall be carried out expeditiously. Sanctions applicable in respect of violations shall be adequate in severity to be effective in securing compliance and to discourage violations wherever they occur and shall deprive offenders of the benefits accruing from their illegal activities. Measures applicable in respect of masters and other officers of fishing vessels shall include provisions which may permit, inter alia, refusal, withdrawal or suspension of authorizations to serve as masters or officers on such vessels.

Article 20

International cooperation in enforcement

1. States shall cooperate, either directly or through subregional or regional fisheries management organizations or arrangements, to ensure compliance with and enforcement of subregional and regional conservation and management measures for straddling fish stocks and highly migratory fish stocks.
2. A flag State conducting an investigation of an alleged violation of conservation and management measures for straddling fish stocks or highly migratory fish stocks may request the assistance of any other State whose cooperation may be useful in the conduct of that investigation. All States shall endeavour to meet reasonable requests made by a flag State in connection with such investigations.
3. A flag State may undertake such investigations directly, in cooperation with other interested States or through the relevant subregional or regional fisheries management organization or arrangement. Information on the progress and outcome of the investigations shall be provided to all States having an interest in, or affected by, the alleged violation.
4. States shall assist each other in identifying vessels reported to have engaged in activities undermining the effectiveness of subregional, regional or global conservation and management measures.
5. States shall, to the extent permitted by national laws and regulations, establish arrangements for making available to prosecuting authorities in other States evidence relating to alleged violations of such measures.

6. Where there are reasonable grounds for believing that a vessel on the high seas has been engaged in unauthorized fishing within an area under the jurisdiction of a coastal State, the flag State of that vessel, at the request of the coastal State concerned, shall immediately and fully investigate the matter. The flag State shall cooperate with the coastal State in taking appropriate enforcement action in such cases and may authorize the relevant authorities of the coastal State to board and inspect the vessel on the high seas. This paragraph is without prejudice to article 111 of the Convention.

7. States Parties which are members of a subregional or regional fisheries management organization or participants in a subregional or regional fisheries management arrangement may take action in accordance with international law, including through recourse to subregional or regional procedures established for this purpose, to deter vessels which have engaged in activities which undermine the effectiveness of or otherwise violate the conservation and management measures established by that organization or arrangement from fishing on the high seas in the subregion or region until such time as appropriate action is taken by the flag State.

Article 21

Subregional and regional cooperation in enforcement

1. In any high seas area covered by a subregional or regional fisheries management organization or arrangement, a State Party which is a member of such organization or a participant in such arrangement may, through its duly authorized inspectors, board and inspect, in accordance with paragraph 2, fishing vessels flying the flag of another State Party to this Agreement, whether or not such State Party is also a member of the organization or a participant in the arrangement, for the purpose of ensuring compliance with conservation and management measures for straddling fish stocks and highly migratory fish stocks established by that organization or arrangement.

2. States shall establish, through subregional or regional fisheries management organizations or arrangements, procedures for boarding and inspection pursuant to paragraph 1, as well as procedures to implement other provisions of this article. Such procedures shall be consistent with this article and the basic procedures set out in article 22 and shall not discriminate against

non-members of the organization or non-participants in the arrangement. Boarding and inspection as well as any subsequent enforcement action shall be conducted in accordance with such procedures. States shall give due publicity to procedures established pursuant to this paragraph.

3. If, within two years of the adoption of this Agreement, any organization or arrangement has not established such procedures, boarding and inspection pursuant to paragraph 1, as well as any subsequent enforcement action, shall, pending the establishment of such procedures, be conducted in accordance with this article and the basic procedures set out in article 22.

4. Prior to taking action under this article, inspecting States shall, either directly or through the relevant subregional or regional fisheries management organization or arrangement, inform all States whose vessels fish on the high seas in the subregion or region of the form of identification issued to their duly authorized inspectors. The vessels used for boarding and inspection shall be clearly marked and identifiable as being on government service. At the time of becoming a Party to this Agreement, States shall designate an appropriate authority to receive notifications pursuant to this article and shall give due publicity of such designation through the relevant subregional or regional fisheries management organization or arrangement.

5. Where, following a boarding and inspection, there are clear grounds for believing that a vessel has engaged in any activity contrary to the conservation and management measures referred to in paragraph 1, the inspecting State shall, where appropriate, secure evidence and shall promptly notify the flag State of the alleged violation.

6. The flag State shall respond to the notification referred to in paragraph 5 within three working days of its receipt, or such other period as may be prescribed in procedures established in accordance with paragraph 2, and shall either:

(a) fulfil, without delay, its obligations under article 19 to investigate and, if evidence so warrants, take enforcement action with respect to the vessel, in which case it shall promptly inform the inspecting State of the results of the investigation and of any enforcement action taken; or

(b) authorize the inspecting State to investigate.

7. Where the flag State authorizes the inspecting State to investigate an alleged violation, the inspecting State shall, without delay, communicate the results of that investigation to the flag State. The flag State shall, if evidence so warrants, fulfil its obligations to take enforcement action with respect to the vessel. Alternatively, the flag State may authorize the inspecting State to take such enforcement action as the flag State may specify with respect to the vessel, consistent with the rights and obligations of the flag State under this Agreement.

8. Where, following boarding and inspection, there are clear grounds for believing that a vessel has committed a serious violation, and the flag State has either failed to respond or failed to take action as required under paragraphs 6 or 7, the inspectors may remain on board and secure evidence and may require the master to assist in further investigation including, where appropriate, by bringing the vessel without delay to the nearest appropriate port, or to such other port as may be specified in procedures established in accordance with paragraph 2. The inspecting State shall immediately inform the flag State of the name of the port to which the vessel is to proceed. The inspecting State and the flag State and, as appropriate, the port State shall take all necessary steps to ensure the well-being of the crew regardless of their nationality.

9. The inspecting State shall inform the flag State and the relevant organization or the participants in the relevant arrangement of the results of any further investigation.

10. The inspecting State shall require its inspectors to observe generally accepted international regulations, procedures and practices relating to the safety of the vessel and the crew, minimize interference with fishing operations and, to the extent practicable, avoid action which would adversely affect the quality of the catch on board. The inspecting State shall ensure that boarding and inspection is not conducted in a manner that would constitute harassment of any fishing vessel.

11. For the purposes of this article, a serious violation means:

(a) fishing without a valid licence, authorization or permit issued by the flag State in accordance with article 18, paragraph 3(a);

(b) failing to maintain accurate records of catch and catch-related data, as required by the relevant subregional or regional fisheries management organization or arrangement, or serious misreporting of catch, contrary to the catch reporting requirements of such organization or arrangement;

(c) fishing in a closed area, fishing during a closed season or fishing without, or after attainment of, a quota established by the relevant subregional or regional fisheries management organization or arrangement;

(d) directed fishing for a stock which is subject to a moratorium or for which fishing is prohibited;

(e) using prohibited fishing gear;

(f) falsifying or concealing the markings, identity or registration of a fishing vessel;

(g) concealing, tampering with or disposing of evidence relating to an investigation;

(h) multiple violations which together constitute a serious disregard of conservation and management measures; or

(i) such other violations as may be specified in procedures established by the relevant subregional or regional fisheries management organization or arrangement.

12. Notwithstanding the other provisions of this article, the flag State may, at any time, take action to fulfil its obligations under article 19 with respect to an alleged violation. Where the vessel is under the direction of the inspecting State, the inspecting State shall, at the request of the flag State, release the vessel to the flag State along with full information on the progress and outcome of its investigation.

13. This article is without prejudice to the right of the flag State to take any measures, including proceedings to impose penalties, according to its laws.

14. This article applies *mutatis mutandis* to boarding and inspection by a State Party which is a member of a subregional or regional fisheries management organization or a participant in a subregional or regional fisheries management arrangement and which has clear grounds for believing that a fishing vessel flying the flag of another State Party has engaged in any activity contrary to relevant conservation and management measures referred to in paragraph 1 in the high seas area covered by such organization or arrangement, and such vessel has subsequently, during the same fishing trip, entered into an area under the national jurisdiction of the inspecting State.

15. Where a subregional or regional fisheries management organization or arrangement has established an alternative mechanism which effectively discharges the obligation under this Agreement of its members or participants to ensure compliance with the conservation and management measures established by the organization or arrangement, members of such organization or participants in such arrangement may agree to limit the application of paragraph 1 as between themselves in respect of the conservation and management measures which have been established in the relevant high seas area.

16. Action taken by States other than the flag State in respect of vessels having engaged in activities contrary to subregional or regional conservation and management measures shall be proportionate to the seriousness of the violation.

17. Where there are reasonable grounds for suspecting that a fishing vessel on the high seas is without nationality, a State may board and inspect the vessel. Where evidence so warrants, the State may take such action as may be appropriate in accordance with international law.

18. States shall be liable for damage or loss attributable to them arising from action taken pursuant to this article when such action is unlawful or exceeds that reasonably required in the light of available information to implement the provisions of this article.

Article 22

Basic procedures for boarding and
inspection pursuant to article 21

1. The inspecting State shall ensure that its duly authorized inspectors:

(a) present credentials to the master of the vessel and produce a copy of the text of the relevant conservation and management measures or rules and regulations in force in the high seas area in question pursuant to those measures;

(b) initiate notice to the flag State at the time of the boarding and inspection;

(c) do not interfere with the master's ability to communicate with the authorities of the flag State during the boarding and inspection;

(d) provide a copy of a report on the boarding and inspection to the master and to the authorities of the flag State, noting therein any objection or statement which the master wishes to have included in the report;

(e) promptly leave the vessel following completion of the inspection if they find no evidence of a serious violation; and

(f) avoid the use of force except when and to the degree necessary to ensure the safety of the inspectors and where the inspectors are obstructed in the execution of their duties. The degree of force used shall not exceed that reasonably required in the circumstances.

2. The duly authorized inspectors of an inspecting State shall have the authority to inspect the vessel, its licence, gear, equipment, records, facilities, fish and fish products and any relevant documents necessary to verify compliance with the relevant conservation and management measures.

3. The flag State shall ensure that vessel masters:

(a) accept and facilitate prompt and safe boarding by the inspectors;

(b) cooperate with and assist in the inspection of the vessel conducted pursuant to these procedures;

-
- (c) do not obstruct, intimidate or interfere with the inspectors in the performance of their duties;
 - (d) allow the inspectors to communicate with the authorities of the flag State and the inspecting State during the boarding and inspection;
 - (e) provide reasonable facilities, including, where appropriate, food and accommodation, to the inspectors; and
 - (f) facilitate safe disembarkation by the inspectors.

4. In the event that the master of a vessel refuses to accept boarding and inspection in accordance with this article and article 21, the flag State shall, except in circumstances where, in accordance with generally accepted international regulations, procedures and practices relating to safety at sea, it is necessary to delay the boarding and inspection, direct the master of the vessel to submit immediately to boarding and inspection and, if the master does not comply with such direction, shall suspend the vessel's authorization to fish and order the vessel to return immediately to port. The flag State shall advise the inspecting State of the action it has taken when the circumstances referred to in this paragraph arise.

Article 23

Measures taken by a port State

1. A port State has the right and the duty to take measures, in accordance with international law, to promote the effectiveness of subregional, regional and global conservation and management measures. When taking such measures a port State shall not discriminate in form or in fact against the vessels of any State.
2. A port State may, inter alia, inspect documents, fishing gear and catch on board fishing vessels, when such vessels are voluntarily in its ports or at its offshore terminals.
3. States may adopt regulations empowering the relevant national authorities to prohibit landings and transshipments where it has been established that the catch has been taken in a manner which undermines the effectiveness of

subregional, regional or global conservation and management measures on the high seas.

4. Nothing in this article affects the exercise by States of their sovereignty over ports in their territory in accordance with international law.

PART VII

REQUIREMENTS OF DEVELOPING STATES

Article 24

Recognition of the special requirements of developing States

1. States shall give full recognition to the special requirements of developing States in relation to conservation and management of straddling fish stocks and highly migratory fish stocks and development of fisheries for such stocks. To this end, States shall, either directly or through the United Nations Development Programme, the Food and Agriculture Organization of the United Nations and other specialized agencies, the Global Environment Facility, the Commission on Sustainable Development and other appropriate international and regional organizations and bodies, provide assistance to developing States.

(a) the vulnerability of developing States which are dependent on the exploitation of living marine resources, including for meeting the nutritional requirements of their populations or parts thereof;

(b) the need to avoid adverse impacts on, and ensure access to fisheries by, subsistence, small-scale and artisanal fishers and women fishworkers, as well as indigenous people in developing States, particularly small island developing States; and

(c) the need to ensure that such measures do not result in transferring, directly or indirectly, a disproportionate burden of conservation action onto developing States.

Article 25

Forms of cooperation with
developing States

1. States shall cooperate, either directly or through subregional, regional or global organizations:

(a) to enhance the ability of developing States, in particular the least-developed among them and small island developing States, to conserve and manage straddling fish stocks and highly migratory fish stocks and to develop their own fisheries for such stocks;

(b) to assist developing States, in particular the least-developed among them and small island developing States, to enable them to participate in high seas fisheries for such stocks, including facilitating access to such fisheries subject to articles 5 and 11; and

(c) to facilitate the participation of developing States in subregional and regional fisheries management organizations and arrangements.

2. Cooperation with developing States for the purposes set out in this article shall include the provision of financial assistance, assistance relating to human resources development, technical assistance, transfer of technology, including through joint venture arrangements, and advisory and consultative services.

3. Such assistance shall, inter alia, be directed specifically towards:

(a) improved conservation and management of straddling fish stocks and highly migratory fish stocks through collection, reporting, verification, exchange and analysis of fisheries data and related information;

(b) stock assessment and scientific research; and

(c) monitoring, control, surveillance, compliance and enforcement, including training and capacity-building at the local level, development and funding of national and regional observer programmes and access to technology and equipment.

2. States and international organizations should assist developing States in establishing new subregional or regional fisheries management organizations or arrangements, or in strengthening existing organizations or arrangements, for the conservation and management of straddling fish stocks and highly migratory fish stocks.

PART VIII

PEACEFUL SETTLEMENT OF DISPUTES

The Secretary-General shall circulate such communication to all States Parties. If, within six months from the date of the circulation of the communication, not less than one half of the States Parties reply favourably to the request, the Secretary-General shall convene the conference.

ANNEX I

STANDARD REQUIREMENTS FOR THE
COLLECTION AND SHARING OF DATA

Article 1

General principles

1. The timely collection, compilation and analysis of data are fundamental to the effective conservation and management of straddling fish stocks and highly migratory fish stocks. To this end, data from fisheries for these stocks on the high seas and those in areas under national jurisdiction are required and should be collected and compiled in such a way as to enable statistically meaningful analysis for the purposes of fishery resource conservation and management. These data include catch and fishing effort statistics and other fishery-related information, such as vessel-related and other data for standardizing fishing effort. Data collected should also include information on non-target and associated or dependent species. All data should be verified to ensure accuracy. Confidentiality of non-aggregated data shall be maintained. The dissemination of such data shall be subject to the terms on which they have been provided.

2. Assistance, including training as well as financial and technical assistance, shall be provided to developing States in order to build capacity in the field of conservation and management of living marine resources. Assistance should focus on enhancing capacity to implement data collection and verification, observer programs, data analysis and research projects supporting stock assessments. The fullest possible involvement of developing State scientists and managers in conservation and management of straddling fish stocks and highly migratory fish stocks should be promoted.

Article 2Principles of data collection,
compilation and exchange

The following general principles should be considered in defining the parameters for collection, compilation and exchange of data from fishing operations for straddling fish stocks and highly migratory fish stocks:

- (a) States should ensure that data are collected from vessels flying their flag on fishing activities according to the operational characteristics of each fishing method (e.g., each individual tow for trawl, each set for long-line and purse-seine, each school fished for pole-and-line and each day fished for troll) and in sufficient detail to facilitate effective stock assessment;
- (b) States should ensure that fishery data are verified through an appropriate system;
- (c) States should compile fishery-related and other supporting scientific data and provide them in an agreed format and in a timely manner to the relevant subregional or regional fisheries management organization or arrangement where one exists. Otherwise, States should cooperate to exchange data either directly or through such other cooperative mechanisms as may be agreed among them;
- (d) States should agree, within the framework of subregional or regional fisheries management organizations or arrangements, or otherwise, on the specification of data and the format in which they are to be provided, in accordance with this Annex and taking into account the nature of the stocks and the fisheries for those stocks in the region. Such organizations or arrangements should request non-members or non-participants to provide data concerning relevant fishing activities by vessels flying their flag;
- (e) such organizations or arrangements shall compile data and make them available in a timely manner and in an agreed format to all interested States under the terms and conditions established by the organization or arrangement; and

(f) scientists of the flag State and from the relevant subregional or regional fisheries management organization or arrangement should analyse the data separately or jointly, as appropriate.

Article 3

Basic fishery data

1. States shall collect and make available to the relevant subregional or regional fisheries management organization or arrangement the following types of data in sufficient detail to facilitate effective stock assessment in accordance with agreed procedures:

- (a) time series of catch and effort statistics by fishery and fleet;
- (b) total catch in number, nominal weight, or both, by species (both target and non-target) as is appropriate to each fishery. [Nominal weight is defined by the Food and Agriculture Organization of the United Nations as the live-weight equivalent of the landings];
- (c) discard statistics, including estimates where necessary, reported as number or nominal weight by species, as is appropriate to each fishery;
- (d) effort statistics appropriate to each fishing method; and
- (e) fishing location, date and time fished and other statistics on fishing operations as appropriate.

2. States shall also collect where appropriate and provide to the relevant subregional or regional fisheries management organization or arrangement information to support stock assessment, including:

- (a) composition of the catch according to length, weight and sex;
- (b) other biological information supporting stock assessments such as information on age, growth, recruitment, distribution and stock identity; and
- (c) other relevant research, including surveys of abundance, biomass surveys, hydro-acoustic surveys, research on environmental factors affecting stock abundance, and oceanographic and ecological studies.

Article 4

Vessel data and information

1. States should collect the following types of vessel-related data for standardizing fleet composition and vessel fishing power and for converting between different measures of effort in the analysis of catch and effort data:

- (a) vessel identification, flag and port of registry;
- (b) vessel type;
- (c) vessel specifications (e.g., material of construction, date built, registered length, gross registered tonnage, power of main engines, hold capacity and catch storage methods); and
- (d) fishing gear description (e.g., types, gear specifications and quantity).

2. The flag State will collect the following information:

- (a) navigation and position fixing aids;
- (b) communication equipment and international radio call sign; and
- (c) crew size.

Article 5

Reporting

A State shall ensure that vessels flying its flag send to its national fisheries administration and, where agreed, to the relevant subregional or regional fisheries management organization or arrangement, logbook data on catch and effort, including data on fishing operations on the high seas, at sufficiently frequent intervals to meet national requirements and regional and international obligations. Such data shall be transmitted, where necessary, by radio, telex, facsimile or satellite transmission or by other means.

Article 6

Data verification

States or, as appropriate, subregional or regional fisheries management organizations or arrangements should establish mechanisms for verifying fishery data, such as:

- (a) position verification through vessel monitoring systems;
- (b) scientific observer programs to monitor catch, effort, catch composition (target and non-target) and other details of fishing operations;
- (c) vessel trip, landing and transshipment reports; and
- (d) port sampling.

Article 7

Data exchange

1. Data collected by flag States must be shared with other flag States and relevant coastal States through appropriate subregional or regional fisheries management organizations or arrangements. Such organizations or arrangements shall compile data and make them available in a timely manner and in an agreed format to all interested States under the terms and conditions established by the organization or arrangement, while maintaining confidentiality of non-aggregated data, and should, to the extent feasible, develop database systems which provide efficient access to data.
2. At the global level, collection and dissemination of data should be effected through the Food and Agriculture Organization of the United Nations. Where a subregional or regional fisheries management organization or arrangement does not exist, that organization may also do the same at the subregional or regional level by arrangement with the States concerned.

ANNEX IIGUIDELINES FOR THE APPLICATION OF PRECAUTIONARY
REFERENCE POINTS IN CONSERVATION AND MANAGEMENT
OF STRADDLING FISH STOCKS AND HIGHLY MIGRATORY
FISH STOCKS

1. A precautionary reference point is an estimated value derived through an agreed scientific procedure, which corresponds to the state of the resource and of the fishery, and which can be used as a guide for fisheries management.
2. Two types of precautionary reference points should be used: conservation, or limit, reference points and management, or target, reference points. Limit reference points set boundaries which are intended to constrain harvesting within safe biological limits within which the stocks can produce maximum sustainable yield. Target reference points are intended to meet management objectives.
3. Precautionary reference points should be stock-specific to account, inter alia, for the reproductive capacity, the resilience of each stock and the characteristics of fisheries exploiting the stock, as well as other sources of mortality and major sources of uncertainty.
4. Management strategies shall seek to maintain or restore populations of harvested stocks, and where necessary associated or dependent species, at levels consistent with previously agreed precautionary reference points. Such reference points shall be used to trigger pre-agreed conservation and management action. Management strategies shall include measures which can be implemented when precautionary reference points are approached.
5. Fishery management strategies shall ensure that the risk of exceeding limit reference points is very low. If a stock falls below a limit reference point or is at risk of falling below such a reference point, conservation and management action should be initiated to facilitate stock recovery. Fishery management strategies shall ensure that target reference points are not exceeded on average.
6. When information for determining reference points for a fishery is poor or absent, provisional reference points shall be set. Provisional reference points

may be established by analogy to similar and better-known stocks. In such situations, the fishery shall be subject to enhanced monitoring so as to enable revision of provisional reference points as improved information becomes available.

7. The fishing mortality rate which generates maximum sustainable yield should be regarded as a minimum standard for limit reference points. For stocks which are not overfished, fishery management strategies shall ensure that fishing mortality does not exceed that which corresponds to maximum sustainable yield, and that the biomass does not fall below a predefined threshold. For overfished stocks, the biomass which would produce maximum sustainable yield can serve as a rebuilding target.

Schedule 3—Compliance Agreement

Note: See subsection 4(1) (definition of *Compliance Agreement*).

AGREEMENT TO PROMOTE COMPLIANCE WITH INTERNATIONAL CONSERVATION AND MANAGEMENT MEASURES BY FISHING VESSELS ON THE HIGH SEAS

PREAMBLE

The Parties to this Agreement,

Recognizing that all States have the right for their nationals to engage in fishing on the high seas, subject to the relevant rules of international law, as reflected in the United Nations Convention on the Law of the Sea,

Further recognizing that, under international law as reflected in the United Nations Convention on the Law of the Sea, all States have the duty to take, or to cooperate with other States in taking, such measures for their respective nationals as may be necessary for the conservation of the living resources of the high seas,

Acknowledging the right and interest of all States to develop their fishing sectors in accordance with their national policies, and the need to promote cooperation with developing countries to enhance their capabilities to fulfil their obligations under this Agreement,

Recalling that Agenda 21, adopted by the United Nations Conference on Environment and Development, calls upon States to take effective action, consistent with international law, to deter reflagging of vessels by their nationals as a means of avoiding compliance with applicable conservation and management rules for fishing activities on the high seas,

Further recalling that the Declaration of Cancun, adopted by the International Conference on Responsible Fishing, also calls on States to take action in this respect,

Bearing in mind that under Agenda 21, States commit themselves to the conservation and sustainable use of marine living resources on the high seas,

Calling upon States which do not participate in global, regional or subregional fisheries organizations or arrangements to join or, as appropriate, to enter into understandings with such organizations or with parties to such organizations or arrangements with a view to achieving compliance with international conservation and management measures,

Conscious of the duties of every State to exercise effectively its jurisdiction and control over vessels flying its flag, including fishing vessels and vessels engaged in the transshipment of fish,

Mindful that the practice of flagging or reflagging fishing vessels as a means of avoiding compliance with international conservation and management measures for living marine resources, and the failure of flag States to fulfil their responsibilities with respect to fishing vessels entitled to fly their flag, are among the factors that seriously undermine the effectiveness of such measures,

Realizing that the objective of this Agreement can be achieved through specifying flag States' responsibility in respect of fishing vessels entitled to fly their flags and operating on the high seas, including the authorization by the flag State of such operations, as well as through strengthened international cooperation and increased transparency through the exchange of information on high seas fishing,

Noting that this Agreement will form an integral part of the International Code of Conduct for Responsible Fishing called for in the Declaration of Cancun,

Desiring to conclude an international agreement within the framework of the Food and Agriculture Organization of the United Nations, hereinafter referred to as FAO, under Article XIV of the FAO Constitution,

Have agreed as follows:

Article I

DEFINITIONS

For the purposes of this Agreement:

- (a) “fishing vessel” means any vessel used or intended for use for the purposes of the commercial exploitation of living marine resources, including mother ships and any other vessels directly engaged in such fishing operations;
- (b) “international conservation and management measures” means measures to conserve or manage one or more species of living marine resources that are adopted and applied in accordance with the relevant rules of international law as reflected in the 1982 United Nations Convention on the Law of the Sea. Such measures may be adopted either by global, regional or subregional fisheries organizations, subject to the rights and obligations of their members, or by treaties or other international agreements;
- (c) “length” means
 - (i) for any fishing vessel built after 18 July 1982, 96 percent of the total length on a waterline at 85 percent of the least moulded depth measured from the top of the keel, or the length from the foreside of the stem to the axis of the rudder stock on that waterline, if that be greater. In ships designed with a rake of keel the waterline on which this length is measured shall be parallel to the designed waterline;
 - (ii) for any fishing vessel built before 18 July 1982, registered length as entered on the national register or other record of vessels;

-
- (d) “record of fishing vessels” means a record of fishing vessels in which are recorded pertinent details of the fishing vessel. It may constitute a separate record for fishing vessels or form part of a general record of vessels;
 - (e) “regional economic integration organization” means a regional economic integration organization to which its member States have transferred competence over matters covered by this Agreement, including the authority to make decisions binding on its member States in respect of those matters;
 - (f) “vessels entitled to fly its flag” and “vessels entitled to fly the flag of a State”, includes vessels entitled to fly the flag of a member State of a regional economic integration organization.

Article II

APPLICATION

1. Subject to the following paragraphs of this Article, this Agreement shall apply to all fishing vessels that are used or intended for fishing on the high seas.

2. A Party may exempt fishing vessels of less than 24 metres in length entitled to fly its flag from the application of this Agreement unless the Party determines that such an exemption would undermine the object and purpose of this Agreement, provided that such exemptions:

- (a) shall not be granted in respect of fishing vessels operating in fishing regions referred to in paragraph 3 below, other than fishing vessels that are entitled to fly the flag of a coastal State of that fishing region; and
- (b) shall not apply to the obligations undertaken by a Party under paragraph 1 of Article III, or paragraph 7 of Article VI of this Agreement.

3. Without prejudice to the provisions of paragraph 2 above, in any fishing region where bordering coastal States have not yet declared exclusive economic zones, or equivalent zones of national jurisdiction over fisheries, such coastal States as are Parties to this Agreement may agree, either directly or through

appropriate regional fisheries organizations, to establish a minimum length of fishing vessels below which this Agreement shall not apply in respect of fishing vessels flying the flag of any such coastal State and operating exclusively in such fishing region.

Article III

FLAG STATE RESPONSIBILITY

1. (a) Each Party shall take such measures as may be necessary to ensure that fishing vessels entitled to fly its flag do not engage in any activity that undermines the effectiveness of international conservation and management measures.
- (b) In the event that a Party has, pursuant to paragraph 2 of Article II, granted an exemption for fishing vessels of less than 24 metres in length entitled to fly its flag from the application of other provisions of this Agreement, such Party shall nevertheless take effective measures in respect of any such fishing vessel that undermines the effectiveness of international conservation and management measures. These measures shall be such as to ensure that the fishing vessel ceases to engage in activities that undermine the effectiveness of the international conservation and management measures.
2. In particular, no Party shall allow any fishing vessel entitled to fly its flag to be used for fishing on the high seas unless it has been authorized to be so used by the appropriate authority or authorities of that Party. A fishing vessel so authorized shall fish in accordance with the conditions of the authorization.
3. No Party shall authorize any fishing vessel entitled to fly its flag to be used for fishing on the high seas unless the Party is satisfied that it is able, taking into account the links that exist between it and the fishing vessel concerned, to exercise effectively its responsibilities under this Agreement in respect of that fishing vessel.
4. Where a fishing vessel that has been authorized to be used for fishing on the high seas by a Party ceases to be entitled to fly the flag of that Party, the authorization to fish on the high seas shall be deemed to have been cancelled.

-
5. (a) No Party shall authorize any fishing vessel previously registered in the territory of another Party that has undermined the effectiveness of international conservation and management measures to be used for fishing on the high seas, unless it is satisfied that
- (i) any period of suspension by another Party of an authorization for such fishing vessel to be used for fishing on the high seas has expired; and
 - (ii) no authorization for such fishing vessel to be used for fishing on the high seas has been withdrawn by another Party within the last three years.
- (b) The provisions of subparagraph (a) above shall also apply in respect of fishing vessels previously registered in the territory of a State which is not a Party to this Agreement, provided that sufficient information is available to the Party concerned on the circumstances in which the authorization to fish was suspended or withdrawn.
- (c) The provisions of subparagraphs (a) and (b) shall not apply where the ownership of the fishing vessel has subsequently changed, and the new owner has provided sufficient evidence demonstrating that the previous owner or operator has no further legal, beneficial or financial interest in, or control of, the fishing vessel.
- (d) Notwithstanding the provisions of subparagraphs (a) and (b) above, a Party may authorize a fishing vessel, to which those subparagraphs would otherwise apply, to be used for fishing on the high seas, where the Party concerned, after having taken into account all relevant facts, including the circumstances in which the fishing authorization has been withdrawn by the other Party or State, has determined that to grant an authorization to use the vessel for fishing on the high seas would not undermine the object and purpose of this Agreement.
6. Each party shall ensure that all fishing vessels entitled to fly its flag that it has entered in the record maintained under Article IV are marked in such a way that they can be readily identified in accordance with generally accepted
-

standards, such as the FAO Standard Specifications for the Marking and Identification of Fishing Vessels.

7. Each Party shall ensure that each fishing vessel entitled to fly its flag shall provide it with such information on its operations as may be necessary to enable the Party to fulfil its obligations under this Agreement, including in particular information pertaining to the area of its fishing operations and to its catches and landings.

8. Each Party shall take enforcement measures in respect of fishing vessels entitled to fly its flag which act in contravention of the provisions of this Agreement, including, where appropriate, making the contravention of such provisions an offence under national legislation. Sanctions applicable in respect of such contraventions shall be of sufficient gravity as to be effective in securing compliance with the requirements of this Agreement and to deprive offenders of the benefits accruing from their illegal activities. Such sanctions shall, for serious offences, include refusal, suspension or withdrawal of the authorization to fish on the high seas.

Article IV

RECORDS OF FISHING VESSELS

Each Party shall, for the purposes of this Agreement, maintain a record of fishing vessels entitled to fly its flag and authorized to be used for fishing on the high seas, and shall take such measures as may be necessary to ensure that all such fishing vessels are entered in that record.

Article V

INTERNATIONAL COOPERATION

1. The Parties shall cooperate as appropriate in the implementation of this Agreement, and shall, in particular, exchange information, including evidentiary material, relating to activities of fishing vessels in order to assist the flag State in identifying those fishing vessels flying its flag reported to have engaged in activities undermining international conservation and management measures, so as to fulfil its obligations under Article III.

2. When a fishing vessel is voluntarily in the port of a Party other than its flag State, that Party, where it has reasonable grounds for believing that the

fishing vessel has been used for an activity that undermines the effectiveness of international conservation and management measures, shall promptly notify the flag State accordingly. Parties may make arrangements regarding the undertaking by port States of such investigatory measures as may be considered necessary to establish whether the fishing vessel has indeed been used contrary to the provisions of this Agreement.

3. The Parties shall, when and as appropriate, enter into cooperative agreements or arrangements of mutual assistance on a global, regional, subregional or bilateral basis so as to promote the achievement of the objectives of this Agreement.

Article VI

EXCHANGE OF INFORMATION

1. Each Party shall make readily available to FAO the following information with respect to each fishing vessel entered in the record required to be maintained under Article IV:

- (a) name of fishing vessel, registration number, previous names (if known), and port of registry;
- (b) previous flag (if any);
- (c) International Radio Call Sign (if any);
- (d) name and address of owner or owners;
- (e) where and when built;
- (f) type of vessel;
- (g) length.

2. Each Party shall, to the extent practicable, make available to FAO the following additional information with respect to each fishing vessel entered in the record required to be maintained under Article IV:

-
- (a) name and address of operator (manager) or operators (managers) (if any);
 - (b) type of fishing method or methods;
 - (c) moulded depth;
 - (d) beam;
 - (e) gross register tonnage;
 - (f) power of main engine or engines.

3. Each Party shall promptly notify to FAO any modifications to the information listed in paragraphs 1 and 2 of this Article.

4. FAO shall circulate periodically the information provided under paragraphs 1, 2, and 3 of this Article to all Parties, and, on request, individually to any Party. FAO shall also, subject to any restrictions imposed by the Party concerned regarding the distribution of information, provide such information on request individually to any global, regional or subregional fisheries organization.

5. Each Party shall also promptly inform FAO of-

- (a) any additions to the record;
- (b) any deletions from the record by reason of-
 - (i) the voluntary relinquishment or non-renewal of the fishing authorization by the fishing vessel owner or operator;
 - (ii) the withdrawal of the fishing authorization issued in respect of the fishing vessel under paragraph 8 of Article III;
 - (iii) the fact that the fishing vessel concerned is no longer entitled to fly its flag;

-
- (iv) the scrapping, decommissioning or loss of the fishing vessel concerned; or
 - (v) any other reason.

6. Where information is given to FAO under paragraph 5 (b) above, the Party concerned shall specify which of the reasons listed in that paragraph is applicable.

7. Each Party shall inform FAO of

- (a) any exemption it has granted under paragraph 2 of Article II, the number and type of fishing vessel involved and the geographical areas in which such fishing vessels operate; and
- (b) any agreement reached under paragraph 3 of Article II.

8. (a) Each Party shall report promptly to FAO all relevant information regarding any activities of fishing vessels flying its flag that undermine the effectiveness of international conservation and management measures, including the identity of the fishing vessel or vessels involved and measures imposed by the Party in respect of such activities. Reports on measures imposed by a Party may be subject to such limitations as may be required by national legislation with respect to confidentiality, including, in particular, confidentiality regarding measures that are not yet final.

- (b) Each Party, where it has reasonable grounds to believe that a fishing vessel not entitled to fly its flag has engaged in any activity that undermines the effectiveness of international conservation and management measures, shall draw this to the attention of the flag State concerned and may, as appropriate, draw it to the attention of FAO. It shall provide the flag State with full supporting evidence and may provide FAO with a summary of such evidence. FAO shall not circulate such information until such time as the flag State has had an opportunity to comment on the allegation and evidence submitted, or to object as the case may be.

9. Each Party shall inform FAO of any cases where the Party, pursuant to paragraph 5 (d) of Article III, has granted an authorization notwithstanding the provisions of paragraph 5 (a) or 5 (b) of Article III. The information shall include pertinent data permitting the identification of the fishing vessel and the owner or operator and, as appropriate, any other information relevant to the Party's decision.

10. FAO shall circulate promptly the information provided under paragraphs 5, 6, 7, 8 and 9 of this Article to all Parties, and, on request, individually to any Party. FAO shall also, subject to any restrictions imposed by the Party concerned regarding the distribution of information, provide such information promptly on request individually to any global, regional or subregional fisheries organization.

11. The Parties shall exchange information relating to the implementation of this Agreement, including through FAO and other appropriate global, regional and subregional fisheries organizations.

Article VII

COOPERATION WITH DEVELOPING COUNTRIES

The Parties shall cooperate, at a global, regional, subregional or bilateral level, and, as appropriate, with the support of FAO and other international or regional organizations, to provide assistance, including technical assistance, to Parties that are developing countries in order to assist them in fulfilling their obligations under this Agreement.

Article VIII

NON-PARTIES

1. The Parties shall encourage any State not party to this Agreement to accept this Agreement and shall encourage any non-Party to adopt laws and regulations consistent with the provisions of this Agreement.

2. The Parties shall cooperate in a manner consistent with this Agreement and with international law to the end that fishing vessels entitled to fly the flags of non-Parties do not engage in activities that undermine the effectiveness of international conservation and management measures.

3. The Parties shall exchange information amongst themselves, either directly or through FAO, with respect to activities of fishing vessels flying the flags of non-Parties that undermine the effectiveness of international conservation and management measures.

Article IX

SETTLEMENT OF DISPUTES

1. Any Party may seek consultations with any other Party or Parties on any dispute with regard to the interpretation or application of the provisions of this Agreement with a view to reaching a mutually satisfactory solution as soon as possible.

2. In the event that the dispute is not resolved through these consultations within a reasonable period of time, the Parties in question shall consult among themselves as soon as possible with a view to having the dispute settled by negotiation, inquiry, mediation, conciliation, arbitration, judicial settlement or other peaceful means of their own choice.

3. Any dispute of this character not so resolved shall, with the consent of all Parties to the dispute, be referred for settlement to the International Court of Justice, to the International Tribunal for the Law of the Sea upon entry into force of the 1982 United Nations Convention on the Law of the Sea or to arbitration. In the case of failure to reach agreement on referral to the International Court of Justice, to the International Tribunal for the Law of the Sea or to arbitration, the Parties shall continue to consult and cooperate with a view to reaching settlement of the dispute in accordance with the rules of international law relating to the conservation of living marine resources.

Article X

1. This Agreement shall be open to acceptance by any Member or Associate Member of FAO, and to any non-member State that is a member of the United Nations, or of any of the specialized agencies of the United Nations or of the International Atomic Energy Agency.

-
2. Acceptance of this Agreement shall be effected by the deposit of an instrument of acceptance with the Director-General of FAO, hereinafter referred to as the Director-General.
 3. The Director-General shall inform all Parties, all Members and Associate Members of FAO and the Secretary-General of the United Nations of all instruments of acceptance received.
 4. When a regional economic integration organization becomes a Party to this Agreement, such regional economic integration organization shall, in accordance with the provisions of Article II.7 of the FAO Constitution, as appropriate, notify such modifications or clarifications to its declaration of competence submitted under Article II.5 of the FAO Constitution as may be necessary in light of its acceptance of this Agreement. Any Party to this Agreement may, at any time, request a regional economic integration organization that is a Party to this Agreement to provide information as to which, as between the regional economic integration organization and its Member States, is responsible for the implementation of any particular matter covered by this Agreement. The regional economic integration organization shall provide this information within a reasonable time.

Article XI

ENTRY INTO FORCE

1. This Agreement shall enter into force as from the date of receipt by the Director-General of the twenty-fifth instrument of acceptance.
