## USER'S GUIDE

This Guide aims to give a general overview of the operation and organisation of this Act.

### The operation of the Act

The Act imposes Customs duty on goods imported into Australia.

To work out the duty payable on particular goods reference must be made to a Principal Tariff that is set out in Schedule 3. This tariff classifies goods in accordance with Australia's international obligations as a party to the World Trade Organization Agreement.

Note: The text of the Agreement is set out in Australian Treaty Series 1995 No. 8. In 2004 this was available in the Australian Treaties Library of the Department of Foreign Affairs and Trade, accessible through that Department's website.

The rate of duty applicable to particular goods is determined by the classification to which those goods belong and, in most cases, by reference to Schedule 3. However, the rate of duty for goods that are originating goods under a free trade agreement or other agreement between Australia and one or more other countries is determined under Schedules 4A to 14.

Under Schedule 4, goods imported into Australia in specified circumstances, including goods imported for use by particular persons or bodies or in particular industries, may be subject to a lesser rate of duty than the nominal rate applying under Schedule 3, 4A, 5, 6, 6A, 7, 8, 8A, 8B, 9, 9A, 10, 11, 12, 13 or 14.

Rates of duty under Schedules 3, 4A, 5, 6, 6A, 7, 8, 8A, 8B, 9, 9A, 10, 11, 12, 13 and 14, and concessional rates of duty under Schedule 4, may vary according to the date of importation of the goods concerned, the country or place from which the goods are imported, or both of these circumstances.

reference to the general rate of duty set out in the third column of that item.

- (4) For the purposes of subsection (3), as it applies in relation to item 20 of Schedule 4, the applicable percentage under that item is taken to be:
- (a) if the general rate set out in the third column of the tariff classification under which the goods are classified is Free—35%; or
  - (b) if the general rate set out in the third column of the tariff classification under which the goods are classified is a percentage of the value of the goods—that percentage, plus 35%.

*Additional duty goods*

- (5) For the purposes of this section, ***additional duty goods*** are goods:
- (a) that are the produce or manufacture of Russia or Belarus; and
  - (b) that are imported into Australia during the period beginning on 25 April 2022 and ending at the end of 24 October 2023; and
  - (c) that had not, before 25 April 2022, left for direct shipment to Australia from a place of manufacture, or a warehouse, in the country from which the goods are exported; and
  - (d) in respect of which, apart from subsection (1), paragraph 16(1)(a) would apply.

*When goods are the produce or manufacture of Russia or Belarus*

- (6) For the purposes of this section, goods are the produce or manufacture of Russia or Belarus if and only if:
- (a) the goods are unmanufactured raw products (within the meaning of the *Customs Act 1901*) of Russia or Belarus; or
  - (b) the last process in the manufacture of the goods was performed in Russia or Belarus.

## Section 19

---

- (7) For the purposes of paragraph (6)(b), minimal operations or processes that take place in a country other than Russia or Belarus are taken not to be a process in the manufacture of the goods.
- (8) Without limiting subsection (7), the following are minimal operations or processes:
  - (a) operations to preserve goods in good condition for the purposes of transport or storage;
  - (b) changing of packaging or the breaking up or assembly of packages;
  - (c) disassembly of goods;
  - (d) placing goods in bottles, cases or boxes, fixing on cards or other simple packaging operations;

  - (f) simple processes of sifting, screening, sorting or classifying or other similar simple processes.

### 19 Indexation of CPI indexed rates

- (1) If the indexation factor for an indexation day is greater than 1, each CPI indexed rate is, on that day, replaced by the rate of duty worked out using the formula:

$$\begin{array}{l} \text{CPI indexed rate} \\ \text{on the day before} \\ \text{the indexation day} \end{array} \times \begin{array}{l} \text{Indexation factor for} \\ \text{the indexation day} \end{array}$$

Note: For **indexation factor** see subsection (3). For **CPI indexed rate** and **indexation day** see subsection (10).

- (2) The amount worked out under subsection (1) is to be rounded to the same number of decimal places as the CPI indexed rate was on the day before the indexation day (rounding up if the next decimal place is 5 or more).

## Section 19

*Indexation factor*

- (3) The **indexation factor** for an indexation day is the number worked out using the formula:

$$\frac{\text{Index number for the most recent reference quarter before the indexation day}}{\text{Index number for the base quarter}}$$

Note: For **index number**, **reference quarter** and **base quarter** see subsection (10).

- (4) The indexation factor is to be worked out to 3 decimal places (rounding up if the fourth decimal place is 5 or more).

*Effect of delay in publication of index number*

- (5) If the index number for the most recent reference quarter before the indexation day is published by the Australian Statistician on a day (the **publication day**) that is not at least 5 days before the indexation day, then, despite subsection (1), any replacement of a CPI indexed rate under subsection (1) happens on the fifth day after the publication day.

*Effect of Customs Tariff alteration*

- (6) If a Customs Tariff alteration proposed in the Parliament proposes to substitute, on and after a particular day, a rate for a CPI indexed rate, treat that substitution as having had effect on and after that day for the purposes of this section.

*Changes to CPI index reference period and publication of substituted index numbers*

- (7) Amounts are to be worked out under this section:
- (a) using only the index numbers published in terms of the most recently published index reference period for the Consumer Price Index; and
  - (b) disregarding index numbers published in substitution for previously published index numbers (except where the

## Section 19

---

substituted numbers are published to take account of changes in the index reference period).

### *Application of replacement rate*

- (8) If a CPI indexed rate is replaced under this section on a particular day, the replacement rate applies in relation to:
- (a) goods imported into Australia on or after that day; and
  - (b) goods imported into Australia before that day, where the time for working out the rate of import duty on the goods had not occurred before that day.

### *Publication of replacement rate*

- (9) The Comptroller-General of Customs must, on or as soon as practicable after the day a CPI indexed rate is replaced under this section, publish a notice in the *Gazette* advertising the replacement rate and the goods it applies to.

### *Definitions*

- (10) In this section:

**base quarter** means the June quarter or December quarter that has the highest index number of all the June quarters and December quarters that occur:

- (a) before the most recent reference quarter before the indexation day; and
- (b) after the June quarter of 1983.

**CPI indexed rate** means:

- (a) an alcohol duty rate; or
- (b) a fuel duty rate.

**December quarter** means a period of 3 months starting on 1 October.

**indexation day** means each 1 February and 1 August.

---

Section 19AAA

---

***index number***, for a quarter, means the All Groups Consumer Price Index number that is the weighted average of the 8 capital cities and is published by the Australian Statistician in relation to that quarter.

***June quarter*** means a period of 3 months starting on 1 April.

***reference quarter*** means the June quarter or December quarter.

**19AAA Rounding of fuel duty rates**

- (1) Despite subsection 19(2), the amount to be worked out under subsection 19(1) in respect of an indexation day for a CPI indexed rate that is a fuel duty rate is to be rounded to 3 decimal places (rounding up if the next decimal place is 5 or more).
- (2) For the purposes of section 19, determine the CPI indexed rate on the day before the indexation day as mentioned in subsection 19(1) on the assumptions that:
  - (a) the operation of subsection (1) of this section was disregarded in respect of all previous indexation days (if any); and
  - (b) subsection 19(2) provided for amounts worked out under subsection 19(1) in respect of those indexation days to be rounded to 5 decimal places (rounding up if the next decimal place was 5 or more).
- (3) In this section:

***CPI indexed rate*** has the same meaning as in section 19.

***indexation day*** has the same meaning as in section 19.

**19AB Indexation of tobacco duty rates**

- (1) If the indexation factor for an indexation day is at least 1, each tobacco duty rate is, on that day, replaced by the rate of duty worked out using the formula:

$$\begin{array}{l} \text{Tobacco duty rate} \\ \text{on the day before} \\ \text{the indexation day} \end{array} \times \begin{array}{l} \text{Indexation factor for} \\ \text{the indexation day} \end{array} \times \begin{array}{l} \text{Additional factor for} \\ \text{the indexation day} \end{array}$$

Note: For **tobacco duty rate** see section 19AC. For **indexation factor** see subsections (3) and (5), for **additional factor** see subsection (6) and for **indexation day** see subsection (12).

- (2) The amount worked out under subsection (1) is to be rounded to 5 decimal places (rounding up if the sixth decimal place is 5 or more).

*Indexation factor*

- (3) The **indexation factor** for an indexation day is the number worked out using the formula:

$$\frac{\begin{array}{l} \text{AWOTE amount for the most recent reference quarter} \\ \text{before the indexation day} \end{array}}{\text{AWOTE amount for the base quarter}}$$

Note: For **AWOTE amount**, **reference quarter** and **base quarter** see subsection (12).

- (4) The indexation factor is to be worked out to 3 decimal places (rounding up if the fourth decimal place is 5 or more).

Section 19AB

---

- (5) Despite subsection (3), treat the ***indexation factor*** for 1 September 2014, 1 September 2015, 1 September 2016, 1 September 2017, 1 September 2018, 1 September 2019 or 1 September 2020 as 1 if, on that day, it would otherwise be less than 1.

*Additional factor*

- (6) The ***additional factor*** for an indexation day is:
- (a) 1.125, if the indexation day is 1 September 2014, 1 September 2015, 1 September 2016, 1 September 2017, 1 September 2018, 1 September 2019 or 1 September 2020; or
  - (b) 1, for each other indexation day.

*Effect of delay in publication of AWOTE amount*

- (7) If the AWOTE amount for the most recent reference quarter before the indexation day is published by the Australian Statistician on a day (the ***publication day***) that is not at least 5 days before the indexation day, then, despite subsection (1), any replacement of a tobacco duty rate under subsection (1) happens on the fifth day after the publication day.

*Effect of Customs Tariff alteration*

- (8) If a Customs Tariff alteration proposed in the Parliament proposes to substitute, on and after a particular day, a rate for a tobacco duty rate, treat that substitution as having had effect on and after that day for the purposes of this section.

*Publication of substituted AWOTE amounts*

- (9) If the Australian Statistician publishes an estimate of full-time adult average weekly ordinary time earnings for persons in Australia for a period for which such an estimate was previously published by the Australian Statistician, the publication of the later estimate is to be disregarded for the purposes of this section.

---

Section 19AB

---

*Application of replacement rate*

- (10) If a tobacco duty rate is replaced under this section on a particular day, the replacement rate applies in relation to:
- (a) goods imported into Australia on or after that day; and
  - (b) goods imported into Australia before that day, where the time for working out the rate of import duty on the goods had not occurred before that day.

*Publication of replacement rate*

- (11) The Comptroller-General of Customs must, on or as soon as practicable after the day a tobacco duty rate is replaced under this section, publish a notice in the *Gazette* advertising the replacement rate and the goods it applies to.

*Definitions*

- (12) In this section:

**AWOTE amount**, for a quarter, means the estimate of the full-time adult average weekly ordinary time earnings for persons in Australia for the middle month of the quarter published by the Australian Statistician in relation to that month.

**base quarter** means the June quarter or December quarter that has the highest AWOTE amount of all the June quarters and December quarters that occur:

- (a) before the most recent reference quarter before the indexation day; and
- (b) after the December quarter of 2012.

**December quarter** means a period of 3 months starting on 1 October.

**indexation day** means each 1 March and 1 September.

**June quarter** means a period of 3 months starting on 1 April.

**reference quarter** means the June quarter or December quarter.

## Schedule 2—General rules for the interpretation of Schedule 3

### Section 7

Classification of goods in Schedule 3 shall be governed by the following principles:

1. The titles of Sections, Chapters and sub-Chapters are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings and any relative Section or Chapter Notes and, provided such headings or Notes do not otherwise require, according to the following provisions:
2.
  - (a) Any reference in a heading to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as presented, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also be taken to include a reference to that article complete or finished (or falling to be classified as complete or finished by virtue of this Rule), presented unassembled or disassembled.
  - (b) Any reference in a heading to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to goods of a given material or substance shall be taken to include a reference to goods consisting wholly or partly of such material or substance. The classification of goods consisting of more than one material or substance shall be according to the principles of Rule 3.
3. When by application of Rule 2(b) or for any other reason, goods are, *prima facie*, classifiable under two or more headings, classification shall be effected as follows:
  - (a) The heading which provides the most specific description shall be preferred to headings providing a more general description. However, when two or more headings each refer to part only of the materials or substances contained in mixed or composite goods or to part only of the items in a set put up

- 
- for retail sale, those headings are to be regarded as equally specific in relation to those goods, even if one of them gives a more complete or precise description of the goods.
- (b) Mixtures, composite goods consisting of different materials or made up of different components, and goods put up in sets for retail sale, which cannot be classified by reference to 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable.
  - (c) When goods cannot be classified by reference to 3(a) or 3(b), they shall be classified under the heading which occurs last in numerical order among those which equally merit consideration.
4. Goods which cannot be classified in accordance with the above Rules shall be classified under the heading appropriate to the goods to which they are most akin.
5. In addition to the foregoing provisions, the following Rules shall apply in respect of the goods referred to therein:
- (a) Camera cases, musical instrument cases, gun cases, drawing instrument cases, necklace cases and similar containers, specially shaped or fitted to contain a specific article or set of articles, suitable for long-term use and presented with the articles for which they are intended, shall be classified with such articles when of a kind normally sold therewith. This Rule does not, however, apply to containers which give the whole its essential character;
  - (b) Subject to the provisions of Rule 5(a) above, packing materials and packing containers presented with the goods therein shall be classified with the goods if they are of a kind normally used for packing such goods. However, this provision is not binding when such packing materials or packing containers are clearly suitable for repetitive use.
6. For legal purposes, the classification of goods in the subheadings of a heading shall be determined according to the terms of those subheadings and any related Subheading Notes and, *mutatis mutandis*, to the above Rules, on the understanding that only subheadings at the same level are comparable. For the purposes of
-

this Rule the relative Section and Chapter Notes also apply, unless the context otherwise requires.
