

Income Tax Assessment Act 1997

Act No. 38 of 1997 as amended

This compilation was prepared on 1 October 2012
taking into account amendments up to Act No. 136 of 2012

Volume 7 includes: Table of Contents
Sections 620-5 to 727-910

The text of any of those amendments not in force
on that date is appended in the Notes section

The operation of amendments that have been incorporated may be
affected by application provisions that are set out in the Notes section

Chapter 3—Specialist liability rules

Contents

Chapter 3—Specialist liability rules	i
Part 3-80—Roll-overs applying to assets generally	1
Division 620—Assets of wound-up corporation passing to corporation with not significantly different ownership	1
Subdivision 620-A—Corporations covered by Subdivision 124-I	1
Guide to Subdivision 620-A	1
620-5 What this Subdivision is about	1
Application and object of this Subdivision	2
620-10 Application	2
620-15 Object	2
CGT consequences	2
620-20 Disregard body's capital gains and losses from CGT assets	2
620-25 Cost base and pre-CGT status of CGT asset for company	3
Consequences for depreciating assets	3
620-30 Roll-over relief for balancing adjustment events	3
Consequences for trading stock	4
620-40 Body taken to have sold trading stock to company	4
Consequences for revenue assets	4
620-50 Body taken to have sold revenue assets to company	4
Part 3-90—Consolidated groups	6
Division 700—Guide and objects	6
Guide	6
700-1 What this Part is about	6
700-5 Overview of this Part	7
Objects	8
700-10 Objects of this Part	8
Division 701—Core rules	9
Common rule	10
701-1 Single entity rule	10
Head company rules	11
701-5 Entry history rule	11
701-10 Cost to head company of assets of joining entity	12
701-15 Cost to head company of membership interests in entity that leaves group	13

701-20	Cost to head company of assets consisting of certain liabilities owed by entity that leaves group.....	14
701-25	Tax-neutral consequence for head company of ceasing to hold assets when entity leaves group	15
Entity rules		16
701-30	Where entity not subsidiary member for whole of income year	16
701-35	Tax-neutral consequence for entity of ceasing to hold assets when it joins group	19
701-40	Exit history rule	21
701-45	Cost of assets consisting of liabilities owed to entity by members of the group	22
701-50	Cost of certain membership interests of which entity becomes holder on leaving group	23
Supporting provisions		23
701-55	Setting the tax cost of an asset	23
701-56	Application of subsection 701-55(6)	27
701-58	Effect of setting the tax cost of an asset that the head company does not hold under the single entity rule.....	28
701-60	Tax cost setting amount	28
701-61	Assets in relation to Division 230 financial arrangement—head company’s assessable income or deduction	29
701-63	<i>Right to future income</i> and <i>WIP amount asset</i>	30
701-65	Net income and losses for trusts and partnerships	30
701-67	Assets in this Part are CGT assets, etc.	31
Exceptions		32
701-70	Adjustments to taxable income where identities of parties to arrangement merge on joining group	32
701-75	Adjustments to taxable income where identities of parties to arrangement re-emerge on leaving group	35
701-80	Accelerated depreciation	37
701-85	Other exceptions etc. to the rules.....	38
Division 703—Consolidated groups and their members		39
Guide to Division 703		39
703-1	What this Division is about	39
Basic concepts		40
703-5	What is a <i>consolidated group</i> ?	40
703-10	What is a <i>consolidatable group</i> ?	41
703-15	<i>Members</i> of a consolidated group or consolidatable group.....	41
703-20	Certain entities that <i>cannot</i> be members of a consolidated group or consolidatable group	43
703-25	Australian residence requirements for trusts.....	45
703-30	When is one entity a <i>wholly-owned subsidiary</i> of another?.....	45

703-33	Transfer time for sale of shares in company	46
703-35	Treating entities as wholly-owned subsidiaries by disregarding employee shares	47
703-37	Disregarding certain preference shares following an ADI restructure	48
703-40	Treating entities held through non-fixed trusts as wholly-owned subsidiaries	50
703-45	Subsidiary members or nominees interposed between the head company and a subsidiary member of a consolidated group or a consolidatable group	50
	Choice to consolidate a consolidatable group	50
703-50	Choice to consolidate a consolidatable group	50
	Consolidated group created when MEC group ceases to exist	52
703-55	Creating consolidated groups from certain MEC groups	52
	Notice of events affecting consolidated group	52
703-58	Notice of choice to consolidate	52
703-60	Notice of events affecting consolidated group	53
	Effects of choice to continue group after shelf company becomes new head company	55
703-65	Application	55
703-70	Consolidated group continues in existence with interposed company as head company and original company as a subsidiary member	55
703-75	Interposed company treated as substituted for original company at all times before the completion time	56
703-80	Effects on the original company's tax position	57
	Division 705—Tax cost setting amount for assets where entities become subsidiary members of consolidated groups	59
	Guide to Division 705	59
705-1	What this Division is about	59
	Subdivision 705-A—Basic case: a single entity joining an existing consolidated group	59
	Guide to Subdivision 705-A	59
705-5	What this Subdivision is about	59
	Application and object	61
705-10	Application and object of this Subdivision	61
705-15	Cases where this Subdivision does not have effect	62
	Tax cost setting amount for assets that joining entity brings into joined group	63
705-20	Tax cost setting amount worked out under this Subdivision	63
705-25	Tax cost setting amount for retained cost base assets	63

705-27	Reduction in tax cost setting amount that exceeds market value of certain retained cost base assets	65
705-30	What is the joining entity's <i>terminating value</i> for an asset?	66
705-35	Tax cost setting amount for reset cost base assets	68
705-40	Tax cost setting amount for reset cost base assets held on revenue account etc.	69
705-45	Reduction in tax cost setting amount for accelerated depreciation assets	70
705-47	Reduction in tax cost setting amount for some privatised assets	71
705-55	Order of application of sections 705-40, 705-45 and 705-47	73
705-56	Modification for tax cost setting in relation to finance leases	74
705-57	Adjustment to tax cost setting amount where loss of pre-CGT status of membership interests in joining entity	75
705-58	Assets and liabilities not set off against each other	79
705-59	Exception: treatment of linked assets and liabilities	79
	How to work out the allocable cost amount	83
705-60	What is the joined group's <i>allocable cost amount</i> for the joining entity?	83
705-62	No double counting of amounts in allocable cost amount	85
705-65	Cost of membership interests in the joining entity—step 1 in working out allocable cost amount	86
705-70	Liabilities of the joining entity—step 2 in working out allocable cost amount	90
705-75	Liabilities of the joining entity—reductions for purposes of step 2 in working out allocable cost amount	91
705-80	Liabilities of the joining entity—reductions/increases for purposes of step 2 in working out allocable cost amount	93
705-85	Liabilities of the joining entity—increases for purposes of step 2 in working out allocable cost amount	94
705-90	Undistributed, taxed profits accruing to joined group before joining time—step 3 in working out allocable cost amount	96
705-93	If pre-joining time roll-over from foreign resident company or head company—step 3A in working out allocable cost amount	99
705-95	Pre-joining time distributions out of certain profits—step 4 in working out allocable cost amount	100
705-100	Losses accruing to joined group before joining time—step 5 in working out allocable cost amount	100
705-105	Continuity of holding membership interests—steps 3 to 5 in working out allocable cost amount	101
705-110	If joining entity transfers a loss to the head company—step 6 in working out allocable cost amount	101
705-115	If head company becomes entitled to certain deductions—step 7 in working out allocable cost amount	102

How to work out a pre-CGT factor for assets of joining entity	103
705-125 Pre-CGT proportion for joining entity	103
Subdivision 705-B—Case of group formation	104
Guide to Subdivision 705-B	104
705-130 What this Subdivision is about	104
Application and object	105
705-135 Application and object of this Subdivision	105
Modified application of Subdivision 705-A	106
705-140 Subdivision 705-A has effect with modifications	106
705-145 Order in which tax cost setting amounts are to be worked out where subsidiary members have membership interests in other subsidiary members	106
705-147 Adjustment in working out step 3A of allocable cost amount to take account of membership interests held by subsidiary members in other such members	108
705-155 Adjustments to restrict step 4 reduction of allocable cost amount to effective distributions to head company in respect of direct membership interests	109
705-160 Adjustment to allocation of allocable cost amount to take account of owned profits or losses of certain entities that become subsidiary members	112
705-163 Modified application of section 705-57	114
Subdivision 705-C—Case where a consolidated group is acquired by another	117
Guide to Subdivision 705-C	117
705-170 What this Subdivision is about	117
Application and object	118
705-175 Application and object of this Subdivision	118
Modified application of Division 701 in relation to acquired group etc.	119
705-180 Modifications of Division 701	119
Modified application of Subdivision 705-A in relation to acquiring group	120
705-185 Subdivision 705-A has effect with modifications	120
Modifications of Subdivision 705-A for the purposes of this Subdivision	121
705-195 Modified application of subsection 705-65(6)	121
705-200 Modified application of section 705-85	121
Subdivision 705-D—Where multiple entities are linked by membership interests	123
Guide to Subdivision 705-D	123
705-210 What this Subdivision is about	123

Application and object	124
705-215 Application and object of this Subdivision	124
Modified application of Subdivision 705-A	124
705-220 Subdivision 705-A has effect with modifications	124
705-225 Order in which tax cost setting amounts are to be worked out where linked entities have membership interests in other linked entities	125
705-227 Adjustment in working out step 3A of allocable cost amount to take account of membership interests held by linked entities in other linked entities	126
705-230 Adjustments to restrict step 4 reduction of allocable cost amount to effective distributions to head company in respect of direct membership interests	128
705-235 Adjustment to allocation of allocable cost amount to take account of owned profits or losses of certain linked entities	129
705-240 Modified application of section 705-57	131
Subdivision 705-E—Adjustments for errors etc.	133
Guide to Subdivision 705-E	133
705-300 What this Subdivision is about	133
Operative provisions	133
705-305 Object of this Subdivision	133
705-310 Operation of Part IVA of the <i>Income Tax Assessment Act 1936</i>	134
705-315 Errors that attract special adjustment action	134
705-320 Tax cost setting amounts taken to be correct	135
Division 707—Losses for head companies when entities become members etc.	137
Subdivision 707-A—Transfer of previously unutilised losses to head company	137
Guide to Subdivision 707-A	137
707-100 What this Subdivision is about	137
707-105 Who can utilise the loss?	138
Objects	139
707-110 Objects of this Subdivision	139
Application	139
707-115 What losses this Subdivision applies to	139
Transfer of loss from joining entity to head company	140
707-120 Transfer of loss from joining entity to head company	140
707-125 Modified same business test for companies' post-1999 losses	141
707-130 Modified pattern of distributions test	143
707-135 Transferring loss transferred to joining entity because same business test was passed	144

Effect of transfer of loss	144
707-140 Effect of transfer of loss	144
Cancelling the transfer of the loss	145
707-145 Cancelling the transfer of the loss.....	145
What happens if the loss is not transferred?	145
707-150 Loss cannot be utilised for income year ending after the joining time	145
Subdivision 707-B—Can a transferred loss be utilised?	146
Guide to Subdivision 707-B	146
707-200 What this Subdivision is about	146
Operative provisions	146
707-205 Modified period for test for maintaining same ownership	146
707-210 Utilisation of certain losses transferred from a company depends on company that made the losses earlier.....	147
Subdivision 707-C—Amount of transferred losses that can be utilised	149
Guide to Subdivision 707-C	149
707-300 What this Subdivision is about	149
Object	150
707-305 Object of this Subdivision	150
How much of a transferred loss can be utilised?	151
707-310 How much of a transferred loss can be utilised?	151
707-315 What is a <i>bundle</i> of losses?.....	154
707-320 What is the <i>available fraction</i> for a bundle of losses?	155
707-325 <i>Modified market value</i> of an entity becoming a member of a consolidated group [see Note 6]	157
707-330 Losses transferred from former head company.....	159
707-335 Limit on utilising transferred losses if circumstances change during income year	160
707-340 Utilising transferred losses while exempt income remains	161
707-345 Other provisions are subject to this Subdivision.....	163
Subdivision 707-D—Special rules about losses	163
707-400 Head company's business before and after consolidation not compared	163
707-410 Exit history rule does not treat entity as having made a loss	163
707-415 Application of losses with nil available fraction for certain purposes.....	164

Division 709—Other rules applying when entities become subsidiary members etc.	168
Subdivision 709-A—Franking accounts	168
Guide to Subdivision 709-A	168
709-50 What this Subdivision is about	168
Object	169
709-55 Object of this Subdivision	169
Treatment of franking accounts at joining time	170
709-60 Nil balance franking account for joining entity	170
Treatment of subsidiary member's franking account	170
709-65 Subsidiary member's franking account does not operate.....	170
Treatment of head company's franking account	171
709-70 Credits arising in head company's franking account	171
709-75 Debits arising in head company's franking account	171
Franking distributions by subsidiary member	172
709-80 Subsidiary member's distributions on employee shares and certain preference shares taken to be distributions by the head company.....	172
709-85 Non-share distributions by subsidiary members taken to be distributions by head company	172
709-90 Subsidiary member's distributions to foreign resident taken to be distributions by head company	173
Payment of group liability by former subsidiary member	173
709-95 Payment of group liability by former subsidiary member	173
709-100 Refund of income tax to former subsidiary member	174
Subdivision 709-B—Imputation issues	175
Guide to Subdivision 709-B	175
709-150 What this Subdivision is about	175
Operative provisions	175
709-155 Testing consolidated groups	175
709-160 Subsidiary member is exempting entity.....	176
709-165 Subsidiary member is former exempting entity	177
709-170 Head company and subsidiary are exempting entities	178
709-175 Head company is former exempting entity	178
Subdivision 709-C—Treatment of excess franking deficit tax offsets when entity becomes a subsidiary member of a consolidated group	181
Guide to Subdivision 709-C	181
709-180 What this Subdivision is about	181
709-185 Joining entity's excess franking deficit tax offsets transferred to head company	181

709-190 Exit history rule not to treat leaving entity as having a franking deficit tax offset excess	182
Subdivision 709-D—Deducting bad debts	183
Guide to Subdivision 709-D	183
709-200 What this Subdivision is about	183
Application and object	183
709-205 Application of this Subdivision	183
709-210 Object of this Subdivision	185
Limit on deduction of bad debt	185
709-215 Limit on deduction of bad debt.....	185
Extension of Subdivision to debt/equity swap loss	189
709-220 Limit on deduction of swap loss	189
Division 711—Tax cost setting amount for membership interests where entities cease to be subsidiary members of consolidated groups	191
Guide to Division 711	191
711-1 What this Division is about	191
Application and object of this Division	192
711-5 Application and object of this Division	192
Tax cost setting amount for membership interests etc.	193
711-10 Tax cost setting amount worked out under this Division.....	193
711-15 Tax cost setting amount where no multiple exit	193
711-20 What is the old group's <i>allocable cost amount</i> for the leaving entity?	194
711-25 Terminating values of the leaving entity's assets—step 1 in working out allocable cost amount	196
711-30 What is the head company's <i>terminating value</i> for an asset?	197
711-35 If head company becomes entitled to certain deductions— step 2 in working out allocable cost amount.....	198
711-40 Liabilities owed to the leaving entity by members of the old group—step 3 in working out allocable cost amount.....	198
711-45 Liabilities etc. owed by the leaving entity—step 4 in working out allocable cost amount	199
711-55 Tax cost setting amount for membership interests where multiple exit.....	203
711-65 Membership interests treated as having been acquired before 20 September 1985	205
711-70 Additional integrity rule if membership interests treated as having been acquired before 20 September 1985 under section 711-65—application of Division 149 to head company	207

711-75	Additional integrity rule if membership interests treated as having been acquired before 20 September 1985 under section 711-65—application of CGT event K6	208
Division 713—Rules for particular kinds of entities		210
Subdivision 713-A—Trusts		210
Working out a joined group’s allocable cost amount for a joining trust		210
713-20	Increasing the step 1 amount for settled capital that could be distributed tax free in respect of discretionary interests	210
713-25	Undistributed, realised profits that accrue to joined group before joining time and could be distributed tax free—step 3 in working out allocable cost amount	214
Determining destination of distribution by non-fixed trust		215
713-50	Factors to consider	215
Subdivision 713-C—Some unit trusts treated like head companies of consolidated groups		215
Guide to Subdivision 713-C		215
713-120	What this Subdivision is about	215
Object of this Subdivision		216
713-125	Object of this Subdivision	216
Choice to form a consolidated group		217
713-130	Choosing to form a consolidated group	217
Effects of choice		217
713-135	Effects of choice	217
713-140	Modifications of the applied law	219
Subdivision 713-E—Partnerships		221
Guide to Subdivision 713-E		221
713-200	What this Subdivision is about	221
Objects		222
713-205	Objects of this Subdivision	222
Partnership cost setting interests etc.		223
713-210	Partnership cost setting interests	223
713-215	Terminating value for partnership cost setting interest	224
Setting tax cost of partnership cost setting interests		224
713-220	Set tax cost of partnership cost setting interests if partner joins consolidated group	224
713-225	Tax cost setting amount for partnership cost setting interest	225
Special rules where partnership joins consolidated group		227
713-235	Partnership joins group—set tax cost of partnership assets	227
713-240	Partnership joins group—tax cost setting amount for partnership asset	228

Special rules where partnership leaves consolidated group	229
713-250 Partnership leaves group—standard provisions modified	229
713-255 Partnership leaves group—tax cost setting amount for partnership cost setting interests	230
713-260 Partnership leaves group—tax cost setting amount for assets consisting of being owed certain liabilities	231
713-265 Partnership leaves group—adjustments to allocable cost amount of partner who also leaves group	232
Subdivision 713-L—Life insurance companies	233
Guide to Subdivision 713-L	233
713-500 What this Subdivision is about	233
General modifications for life insurance companies	234
713-505 Head company treated as a life insurance company	234
713-510 Certain subsidiaries of life insurance companies cannot be members of consolidated group	235
713-510ADisregard single entity rule in working out certain amounts in respect of life insurance company	236
Life insurance companies' liabilities on joining consolidated group	237
713-511 Treatment of certain liabilities for income year when life insurance company joins consolidated group	237
Tax cost setting rules for life insurance companies joining consolidated group	238
713-515 Certain assets taken to be retained cost base assets where life insurance company joins group	238
713-520 Valuing certain liabilities where life insurance company joins group	239
713-525 Obligation to value certain assets and liabilities at joining time	240
Losses of life insurance companies joining consolidated group	240
713-530 Treatment of certain losses of life insurance company	240
Losses of life insurance companies' subsidiaries joining consolidated group	241
713-535 Losses of entities whose membership interests are complying superannuation/FHSA assets of life insurance company	241
713-540 Losses of entities whose membership interests are segregated exempt assets of life insurance company	242
Imputation rules for life insurance companies joining consolidated group	243
713-545 Treatment of franking surplus in franking account of life insurance subsidiary joining group	243
713-550 Treatment of head company's franking account after joining	244

Liabilities for life insurance companies leaving consolidated group	245
713-565 Treatment of certain liabilities for income year when life insurance company leaves consolidated group	245
Losses for life insurance companies leaving consolidated group	246
713-570 Certain losses transferred to leaving company	246
Tax cost setting rules for life insurance companies leaving consolidated group	247
713-575 Terminating value of certain assets where life insurance company leaves group	247
713-580 Valuing certain liabilities where life insurance company leaves group	248
713-585 Obligation to value certain assets and liabilities at leaving time	249
Subdivision 713-M—General insurance companies	249
Guide to Subdivision 713-M	249
713-700 What this Subdivision is about	249
Tax cost setting rules for general insurance companies joining consolidated group	250
713-705 Certain assets taken to be retained cost base assets where general insurance company joins group	250
Liabilities and reserves of general insurance companies joining and leaving consolidated groups	250
713-710 Treatment of liabilities and reserves for income year when general insurance company joins or leaves group	250
713-715 If general insurance company joins consolidated group	251
713-720 If general insurance company leaves consolidated group	252
713-725 Treatment of certain assets and liabilities of general insurance companies	253
Division 715—Interactions between this Part and other areas of the income tax law	254
Subdivision 715-A—Treatment of unrealised losses existing when ownership or control of a company changes before or during consolidation	255
Object	256
715-15 Object of this Subdivision	256
Effect on Subdivision 165-CC of a company becoming a member of a consolidated group	257
715-25 Subdivision 165-CC stops applying to earlier changeover time	257
715-30 Meaning of <i>165-CC tagged asset</i>	258
715-35 Meaning of <i>final RUNL</i>	258

165-CC tagged assets that affect tax cost setting amounts	259
715-50 Step 1 amount is reduced if membership interest in subsidiary member is 165-CC tagged asset and same business test is failed	259
715-55 Step 2 amount is affected if liability of subsidiary member is 165-CC tagged asset of another group member and same business test is failed	260
165-CC tagged assets that form loss denial pools of head company when consolidated group is formed	262
715-60 Assets that the head company already owns	262
715-70 Assets of subsidiary member that become those of head company	263
How Subdivision 165-CC applies to consolidated groups	265
715-75 Extension of single entity rule and entry history rule	265
Effect on Subdivision 165-CC of entity leaving consolidated group	265
715-80 Application of sections 715-85 to 715-110.....	265
715-85 First changeover time for leaving company at or after leaving time	265
715-90 How same business test applies if leaving time is changeover time for leaving company	266
715-95 If ownership and control of leaving entity have <i>not</i> changed since head company's last changeover time	266
715-100 First choice: adjustable values of leaving assets reduced to nil.....	267
715-105 Second choice: head company's final RUNL applied in reducing adjustable values of leaving assets that are loss assets	267
715-110 Third choice: loss denial pool of leaving entity created.....	268
Effect of assets in loss denial pool of head company becoming assets of leaving entity	269
715-120 What happens	269
715-125 First choice: adjustable values of leaving assets reduced to nil.....	270
715-130 Second choice: pool's loss denial balance applied in reducing adjustable values of leaving assets that are loss assets	270
715-135 Third choice: loss denial pool of leaving entity created.....	271
Effect of first and second choices on various kinds of assets	272
715-145 Effect of choice on adjustable value of leaving asset	272
General provisions about loss denial pools	273
715-155 When asset leaves pool.....	273
715-160 How loss denial balance is applied to losses realised on assets in pool	273
715-165 When pool ceases to exist.....	274

Choices under this Subdivision	274
715-175 When choice must be made	274
715-180 Head company to notify leaving entity of choice	275
715-185 Leaving entity may choose to cancel loss denial pool by reducing adjustable values of assets in the pool	275
Subdivision 715-B—How Subdivision 165-CD applies to consolidated groups and leaving entities	276
How Subdivision 165-CD applies to consolidated groups	276
715-215 Extension of single entity rule and entry history rule	276
715-225 Working out adjusted unrealised loss using individual asset method	277
715-230 No reductions or other consequences for interests subject to loss cancellation under Subdivision 715-H	278
How Subdivision 165-CD applies to leaving entity that is a company	278
715-240 Application of sections 715-245 to 715-260	278
715-245 If ownership or control of leaving entity has altered since head company's last alteration time or formation of group	279
715-250 If head company has had an alteration time but ownership and control of leaving entity have not altered since	280
715-255 Consequences if leaving entity is a loss company at the leaving time	281
715-260 If neither of sections 715-245 and 715-250 applies	282
715-265 Head company does not have relevant equity or debt interest in a loss company if widely held top company does not have such an interest	283
How Subdivision 165-CD applies to leaving entity that is a trust	284
715-270 Subdivision 165-CD applies	284
Subdivision 715-C—Common rules for the purposes of Subdivisions 715-A and 715-B	286
715-290 Additional assumptions to be made when using reference time	286
Subdivision 715-D—Treatment of company's deferred losses under Subdivision 170-D on joining a consolidated group	286
Key terminology	287
715-310 What is a <i>170-D deferred loss</i> , and when it <i>revives</i>	287
Deferred loss on 165-CC tagged asset	287
715-355 Head company's own deferred losses at formation time	287
715-360 Deferred losses brought in by subsidiary member	288
715-365 How loss denial balance is applied when 170-D deferred loss revives	289

Subdivision 715-E—Interactions with Division 775 (Foreign currency gains and losses)	290
715-370 Cost setting—reference time for determining currency exchange rate effect	290
Subdivision 715-F—Interactions with Division 230 (financial arrangements)	291
715-375 Cost setting—amount of liability that is Division 230 financial arrangement	291
715-378 Cost setting—head company’s right to receive or obligation to provide payment	292
715-380 Exit history rule not to affect certain matters related to Division 230 financial arrangements	293
715-385 Exit history rule and elective methods applying to Division 230 financial arrangements	294
Subdivision 715-G—How value shifting rules apply to a consolidated group	294
715-410 Extension of single entity rule and entry history rule	294
715-450 No reductions or other consequences for interests subject to loss cancellation under Subdivision 715-H.....	295
Subdivision 715-H—Cancelling loss on realisation event for direct or indirect interest in a member of a consolidated group	295
715-610 Cancellation of loss	296
715-615 Exception for interests in entity leaving consolidated group	297
715-620 Exception if loss attributable to certain matters	298
Subdivision 715-J—Entry history rule and choices	298
Head company’s choice overriding entry history rule	299
715-660 Head company’s choice overriding entry history rule	299
Choices head company can make ignoring entry history rule to override inconsistencies	302
715-665 Head company’s choice to override inconsistency	302
Choices with ongoing effect	306
715-670 Ongoing effect of choices made by entities before joining group	306
715-675 Head company adopting choice with ongoing effect	306
Subdivision 715-K—Exit history rule and choices	307
Choices leaving entity can make ignoring exit history rule	307
715-700 Choices leaving entity can make ignoring exit history rule	307
Choices leaving entity can make ignoring exit history rule to overcome inconsistencies	309
715-705 Choices leaving entity can make ignoring exit history rule to overcome inconsistencies	309

Subdivision 715-U—Effect on conduit foreign income	312
715-875 Extension of single entity rule and entry history rule	312
715-880 No CFI for leaving entity.....	313
Subdivision 715-V—Entity ceasing to be exempt from income tax on becoming subsidiary member of consolidated group	313
715-900 Transition time taken to be just before joining time	313
Subdivision 715-W—Effect on arrangements where CGT roll-overs are obtained	314
715-910 Effect on restructures—original entity becomes a subsidiary member.....	314
715-915 Effect on restructures—original entity is a head company	315
715-920 Effect on restructures—original entity is a head company that becomes a subsidiary member of another group	315
715-925 Effect on restructures—original entity ceases being a subsidiary member.....	317
Division 716—Miscellaneous special rules	318
Subdivision 716-A—Assessable income and deductions spread over several membership or non-membership periods	318
Guide to Subdivision 716-A	318
716-1 What this Division is about	318
Operative provisions	319
716-15 Assessable income spread over 2 or more income years	319
716-25 Deductions spread over 2 or more income years	321
716-70 Capital expenditure that is fully deductible in one income year.....	323
Assessable income and deductions arising from share of net income of a partnership or trust, or from share of partnership loss	325
716-75 Application	325
716-80 Head company's assessable income and deductions	326
716-85 Entity's assessable income and deductions for a non-membership period.....	327
716-90 Entity's share of assessable income or deductions of partnership or trust.....	328
716-95 Special rule if not all partnership or trust's assessable income or deductions taken into account in working out amount	329
716-100 Spreading period.....	329
Subdivision 716-E—Tax cost setting for exploration and prospecting assets	330
716-300 Prime cost method of working out decline in value.....	330

Subdivision 716-G—Low-value and software development pools	331
Assets in joining entity's low-value pool	331
716-330 Head company's deductions for decline in value of assets in joining entity's low-value pool.....	331
Entity leaving group with asset allocated to head company's low-value pool	334
716-335 Entity leaving group with asset allocated to head company's low-value pool.....	334
Depreciating assets arising from expenditure in joining entity's software development pool	336
716-340 Depreciating assets arising from expenditure in joining entity's software development pool.....	336
Software development pools if entity leaves consolidated group	339
716-345 Head company taken not to have incurred expenditure	339
Subdivision 716-S—Miscellaneous consequences of tax cost setting	339
716-400 Tax cost setting and bad debts	340
Subdivision 716-V—Research and Development	341
716-500 Head company bound by agreements binding on subsidiary members	341
716-505 History for entitlement to tax offset: joining entity	341
716-510 History for entitlement to tax offset: leaving entity	342
Subdivision 716-Z—Other	342
716-800 Allocating amounts to periods if head company and subsidiary member have different income years.....	343
716-850 Grossing up threshold amounts for periods of less than 365 days	343
716-855 Working out the cost base or reduced cost base of a pre-CGT asset after certain roll-overs.....	344
716-860 CGT event straddling joining or leaving time	345
Division 717—International tax rules	346
Subdivision 717-A—Foreign income tax offsets	346
717-1 What this Subdivision is about	346
Object	346
717-5 Object of this Subdivision	346
Foreign income tax on amounts in head company's assessable income	347
717-10 Head company taken to be liable for subsidiary member's foreign income tax	347

Subdivision 717-D—Transfer of certain surpluses under CFC provisions and former FIF and FLP provisions: entry rules	347
Guide to Subdivision 717-D	347
717-200 What this Subdivision is about	347
Object	348
717-205 Object of this Subdivision	348
Transfers	348
717-210 Attribution surpluses	348
717-220 FIF surpluses	349
717-227 Deferred attribution credits	350
Subdivision 717-E—Transfer of certain surpluses under CFC provisions and former FIF and FLP provisions: exit rules	351
Guide to Subdivision 717-E	351
717-235 What this Subdivision is about	351
Object	351
717-240 Object of this Subdivision	351
Transfers	352
717-245 Attribution surpluses	352
717-255 FIF surpluses	353
717-262 Deferred attribution credits	354
Subdivision 717-O—Offshore banking units	356
Guide to Subdivision 717-O	356
717-700 What this Subdivision is about	356
717-705 Object of this Subdivision	356
717-710 Head company treated as OBU	356
Division 719—MEC groups	357
Subdivision 719-A—Modified application of Part 3-90 to MEC groups	357
719-2 Modified application of Part 3-90 to MEC groups	357
Subdivision 719-B—MEC groups and their members	357
719-4 What this Subdivision is about	357
Basic concepts	359
719-5 What is a <i>MEC group</i> ?	359
719-10 What is a potential MEC group?	362
719-15 What is an <i>eligible tier-1 company</i> ?	365
719-20 What is a <i>top company</i> and a <i>tier-1 company</i> ?	366
719-25 Head company, subsidiary members and members of a MEC group	368

719-30	Treating entities as wholly-owned subsidiaries by disregarding employee shares	368
719-35	Treating entities held through non-fixed trusts as wholly-owned subsidiaries	369
719-40	Special conversion event—potential MEC group	369
719-45	Application of sections 703-20 and 703-25	370
Choice to consolidate a potential MEC group		371
719-50	Eligible tier-1 companies may choose to consolidate a potential MEC group	371
719-55	When choice starts to have effect	373
Provisional head company		373
719-60	Appointment of provisional head company	373
719-65	Qualifications for the provisional head company of a MEC group	375
719-70	Income year of new provisional head company to be the same as that of former provisional head company	376
Head company		376
719-75	Head company	376
Notice of events affecting group		377
719-76	Notice of choice to consolidate	377
719-77	Notice in relation to new eligible tier-1 members etc.	379
719-78	Notice of special conversion event	379
719-79	Notice of appointment of provisional head company after formation of group	380
719-80	Notice of events affecting MEC group	381
Effects of change of head company		382
719-85	Application	382
719-90	New head company treated as substituted for old head company at all times before the transition time	383
719-95	No consequences of old head company becoming, and new head company ceasing to be, subsidiary member of the group	384
Subdivision 719-BA—Group conversions involving MEC groups		385
719-120	Application	385
719-125	Head company of new group retains history of head company of old group	385
719-130	Provisions of this Part not to apply to conversion	386
719-135	Provisions of this Part applying to conversion despite section 719-130	387
719-140	Other provisions of this Part not applying to conversion	388
Subdivision 719-C—MEC group cost setting rules: joining cases		388
Guide to Subdivision 719-C		388
719-150	What this Subdivision is about	388

Application and object	389
719-155 Object of this Subdivision	389
Modified application of tax cost setting rules for joining	389
719-160 Tax cost setting rules for joining have effect with modifications	389
719-165 Trading stock value and registered emissions unit value not set for assets of eligible tier-1 companies	390
719-170 Modified effect of subsections 705-175(1) and 705-185(1)	391
Subdivision 719-F—Losses	392
Guide to Subdivision 719-F	392
719-250 What this Subdivision is about	392
Maintaining the same ownership to be able to utilise loss	393
719-255 Special rules	393
719-260 Special test for utilising a loss because a company maintains the same owners	393
719-265 What is the test company?	395
719-270 Assumptions about the test company having made the loss for an income year	399
719-275 Assumptions about nothing happening to affect direct and indirect ownership of the test company	401
719-280 Assumptions about the test company failing to meet the conditions in section 165-12	403
Same business test and change of head company	404
719-285 Same business test and change of head company	404
Bundles of losses and their available fractions	405
719-300 Application	405
719-305 Subdivision 707-C affects utilisation of losses made by ongoing head company while it was head company	406
719-310 Adjustment of available fractions for bundles of losses previously transferred to ongoing head company	407
719-315 Further adjustment of available fractions for all bundles	407
719-320 Limit on utilising losses other than the prior group losses	408
719-325 Cancellation of all losses in a bundle	409
Subdivision 719-H—Imputation issues	410
719-425 Guide to Subdivision 719-H	410
Operative provisions	410
719-430 Transfer of franking account balance on cessation event	410
719-435 Distributions by subsidiary members of MEC group taken to be distributions by head company	411
Subdivision 719-I—Bad debts	411
Guide to Subdivision 719-I	411
719-450 What this Subdivision is about	411

Maintaining the same ownership to be able to deduct bad debt	412
719-455 Special test for deducting a bad debt because a company maintains the same owners	412
719-460 Assumptions about nothing happening to affect direct and indirect ownership of the test company	414
719-465 Assumptions about the test company failing to meet the conditions in section 165-123	414
Subdivision 719-J—MEC group cost setting rules: leaving cases	415
Guide to Subdivision 719-J	415
719-500 What this Subdivision is about	415
719-505 Application and object of this Subdivision	416
719-510 Modified operation of paragraphs 711-15(1)(b) and (c)	416
Subdivision 719-K—MEC group cost setting rules: pooling cases	417
Guide to Subdivision 719-K	417
719-550 What this Subdivision is about	417
719-555 Application and object of this Subdivision	417
719-560 Pooled interests	418
719-565 Setting cost of reset interests	418
719-570 Cost setting amount	419
Subdivision 719-T—Interactions between this Part and other areas of the income tax law: special rules for MEC groups	420
How Subdivision 165-CC applies to MEC groups	421
719-700 Changeover times under section 165-115C or 165-115D	421
719-705 Additional changeover times for head company of MEC group	422
How Subdivision 165-CD applies to MEC groups	423
719-720 Alteration times under section 165-115L or 165-115M	423
719-725 Additional alteration times for head company of MEC group	424
719-730 Some alteration times only affect interests in top company	425
719-735 Some alteration times affect only pooled interests	425
719-740 Head company does not have relevant equity or debt interest in a loss company if widely held top company does not have such an interest	426
How indirect value shifting rules apply to a MEC group	426
719-755 Effect on MEC group cost setting rules if head company is losing entity or gaining entity for indirect value shift	426
Cancelling loss on realisation event for direct or indirect interest in a subsidiary member of a MEC group	427
719-775 Cancellation of loss	427
719-780 Exception for pooled interests in eligible tier-1 companies	429
719-785 Exception for interests in top company	429

719-790	Exception for interests in entity leaving MEC group.....	429
719-795	Exception if loss attributable to certain matters	430
Division 721—Liability for payment of tax where head company fails to pay on time		431
Guide to Division 721		431
721-1	What this Division is about	431
Object		432
721-5	Object of this Division.....	432
When this Division operates		432
721-10	When this Division operates	432
Joint and several liability of contributing member		436
721-15	Head company and contributing members jointly and severally liable to pay group liability	436
721-17	Notice of joint and several liability for general interest charge	438
721-20	Limit on liability where group first comes into existence.....	438
Tax sharing agreements		439
721-25	When a group liability is covered by a tax sharing agreement	439
721-30	TSA contributing members liable for contribution amounts	441
721-32	Notice of general interest charge liability under TSA.....	442
721-35	When a TSA contributing member has left the group clear of the group liability	442
721-40	TSA liability and group liability are linked	443
Part 3-95—Value shifting		445
Division 723—Direct value shifting by creating right over non-depreciating asset		445
Subdivision 723-A—Reduction in loss from realising non-depreciating asset		445
723-1	Object	445
723-10	Reduction in loss from realising non-depreciating asset over which right has been created.....	446
723-15	Reduction in loss from realising non-depreciating asset at the same time as right is created over it.....	448
723-20	Exceptions	449
723-25	Realisation event that is only a partial realisation.....	450
723-35	Multiple rights created to take advantage of the \$50,000 threshold.....	450
723-40	Application to CGT asset that is also trading stock or revenue asset.....	451
723-50	Effects if right created over underlying asset is also trading stock or a revenue asset	451

Subdivision 723-B—Reducing reduced cost base of interests in entity that acquires non-depreciating asset under roll-over	452
723-105 Reduced cost base of interest reduced when interest realised at a loss	452
723-110 Direct and indirect roll-over replacement for underlying asset	453
Division 725—Direct value shifting affecting interests in companies and trusts	455
Guide to Division 725	455
725-1 What this Division is about	455
Subdivision 725-A—Scope of the direct value shifting rules	456
725-45 Main object.....	456
725-50 When a direct value shift has consequences under this Division	457
725-55 Controlling entity test	457
725-65 Cause of the value shift	457
725-70 Consequences for down interest only if there is a material decrease in its market value	458
725-80 Who is an affected owner of a down interest?	459
725-85 Who is an affected owner of an up interest?	459
725-90 Direct value shift that will be reversed	460
725-95 Direct value shift resulting from reversal	461
Subdivision 725-B—What is a direct value shift	461
725-145 When there is a <i>direct value shift</i>	461
725-150 Issue of equity or loan interests at a <i>discount</i>	462
725-155 Meaning of <i>down interests, decrease time, up interests</i> and <i>increase time</i>	463
725-160 What is the nature of a direct value shift?.....	464
725-165 If market value decrease or increase is only partly attributable to the scheme	464
Subdivision 725-C—Consequences of a direct value shift	464
General	465
725-205 Consequences depend on character of down interests and up interests.....	465
725-210 Consequences for down interests depend on pre-shift gains and losses.....	466
Special cases	466
725-220 Neutral direct value shifts.....	466
725-225 Issue of bonus shares or units	466
725-230 Off-market buy-backs.....	468

Subdivision 725-D—Consequences for down interest or up interest as CGT asset	469
725-240 CGT consequences; meaning of <i>adjustable value</i>	469
725-245 Table of <i>taxing events generating a gain</i> for interests as CGT assets	471
725-250 Table of consequences for adjustable values of interests as CGT assets.....	472
725-255 Multiple CGT consequences for the same down interest or up interest	474
Subdivision 725-E—Consequences for down interest or up interest as trading stock or a revenue asset	474
725-310 Consequences for down interest or up interest as trading stock	475
725-315 <i>Adjustable value</i> of trading stock	476
725-320 Consequences for down interest or up interest as a revenue asset	476
725-325 <i>Adjustable value</i> of revenue asset	478
725-335 How to work out those consequences	478
725-340 Multiple trading stock or revenue asset consequences for the same down interest or up interest	481
Subdivision 725-F—Value adjustments and taxed gains	482
725-365 Decreases in adjustable values of down interests (with pre-shift gains), and taxing events generating a gain	482
725-370 Uplifts in adjustable values of up interests under certain table items	484
725-375 Uplifts in adjustable values of up interests under other table items	486
725-380 Decreases in adjustable value of down interests (with pre-shift losses).....	488
Division 727—Indirect value shifting affecting interests in companies and trusts, and arising from non-arm's length dealings	490
Guide to Division 727	490
727-1 What this Division is about	490
727-5 What is an indirect value shift?	491
727-10 How does this Division deal with indirect value shifts?	493
727-15 When does an indirect value shift have consequences under this Division?.....	493
727-25 Effect of this Division on realisations at a loss that occur before the nature or extent of an indirect value shift can be fully determined	494
Subdivision 727-A—Scope of the indirect value shifting rules	494
727-95 Main object.....	494

727-100 When an indirect value shift has consequences under this Division	495
727-105 Ultimate controller test	496
727-110 Common-ownership nexus test (if both losing and gaining entities are closely held)	496
727-125 No consequences if losing entity is a superannuation entity	497
Subdivision 727-B—What is an indirect value shift	497
727-150 How to determine whether a scheme results in an indirect value shift	497
727-155 Providing economic benefits	499
727-160 When an economic benefit is provided <i>in connection with</i> a scheme	500
727-165 Preventing double-counting of economic benefits	500
Subdivision 727-C—Exclusions	501
Guide to Subdivision 727-C	501
727-200 What this Subdivision is about	501
General	502
727-215 Amount does not exceed \$50,000	502
727-220 Disposal of asset at cost, or at undervalue if full value is not reflected in adjustable values of equity or loan interests in the losing entity	502
Indirect value shifts involving services	503
727-230 Services provided by losing entity to gaining entity for at least their direct cost	503
727-235 Services provided by gaining entity to losing entity for no more than a commercially realistic price	504
727-240 What services certain provisions apply to	505
727-245 How to work out certain amounts for the purposes of sections 727-230 and 727-235	506
Anti-overlap provisions	507
727-250 Distribution by an entity to a member or beneficiary	507
Miscellaneous	508
727-260 Shift down a wholly-owned chain of entities	508
Subdivision 727-D—Working out the market value of economic benefits	509
727-300 What the rules in this Subdivision are for	509
727-315 Transfer, for its adjustable value, of depreciating asset acquired for less than \$1,500,000	509
Subdivision 727-E—Key concepts	510
Ultimate controller	511
727-350 <i>Ultimate controller</i>	511
727-355 <i>Control (for value shifting purposes)</i> of a company	511

Subdivision 620-A—Corporations covered by Subdivision 124-I

Guide to Subdivision 620-A

620-5 What this Subdivision is about

There are tax-neutral consequences of a body, that is incorporated under one law and ceases to exist, disposing of an asset to a company incorporated under another law, if the ownership of the company is not significantly different from the ownership of the body.

Table of sections

Application and object of this Subdivision

620-10 Application
620-15 Object

CGT consequences

620-20 Disregard body's capital gains and losses from CGT assets
620-25 Cost base and pre-CGT status of CGT asset for company

Consequences for depreciating assets

620-30 Roll-over relief for balancing adjustment events

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-80 Roll-overs applying to assets generally

Division 620 Assets of wound-up corporation passing to corporation with not significantly different ownership

Section 620-10

Consequences for trading stock

620-40 Body taken to have sold trading stock to company

Consequences for revenue assets

620-50 Body taken to have sold revenue assets to company

Application and object of this Subdivision

620-10 Application

This Subdivision applies to a body that is incorporated under one law and ceases to exist, and to a company incorporated under another law, if section 124-525 applies in relation to the body and the company.

Note: That section applies if the ownership of the company is not significantly different from the ownership of the body and rights relating to the body.

620-15 Object

The object of this Subdivision is to ensure tax-neutral consequences when the body ceases to hold an asset and also if the asset becomes held by the company.

CGT consequences

620-20 Disregard body's capital gains and losses from CGT assets

- (1) This section applies if:
 - (a) the body *disposes of a *CGT asset to the company because the body ceases to exist; or
 - (b) another *CGT event happens to a CGT asset of the body because the body ceases to exist.
- (2) A *capital gain or a *capital loss the body makes from the *CGT asset is disregarded.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

620-25 Cost base and pre-CGT status of CGT asset for company

- (1) This section applies to a *CGT asset if the body *disposes of it to the company because the body ceases to exist.
- (2) The first element of the *CGT asset's *cost base for the company is equal to the asset's cost base for the body in connection with the *disposal.
- (3) The first element of the *CGT asset's *reduced cost base for the company is worked out similarly.
- (4) If the body *acquired the *CGT asset before 20 September 1985, the company is taken to have acquired the CGT asset before that day.

Consequences for depreciating assets**620-30 Roll-over relief for balancing adjustment events**

- (1) This section applies if:
 - (a) there is a *balancing adjustment event because the body disposes of a *depreciating asset in an income year to the company because the body ceases to exist; and
 - (b) the disposal involves a *CGT event.
- (2) This Act applies as if:
 - (a) there were roll-over relief under subsection 40-340(1) for the *balancing adjustment event; and
 - (b) the body were the transferor mentioned in that subsection and subsection 328-243(1A); and
 - (c) the company were the transferee mentioned in that subsection and subsection 328-243(1A).

Note: Some effects of this are as follows:

- (a) the balancing adjustment event does not affect the body's assessable income or deductions (see subsection 40-345(1));
- (b) the company can deduct for the decline in value of the asset on the same basis as the body did (see subsection 40-345(2));
- (c) Division 45 (Disposal of leases and leased plant) applies to the company as if it had done the things the body did (see subsection 40-350(1)).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-80 Roll-overs applying to assets generally

Division 620 Assets of wound-up corporation passing to corporation with not significantly different ownership

Section 620-40

- (3) Disregard paragraph 328-243(1A)(c) in determining whether subsection 328-243(1A) applies.

Consequences for trading stock

620-40 Body taken to have sold trading stock to company

- (1) This subsection applies to each item of *trading stock that the body disposes of to the company because the body ceases to exist.
- (2) The body is taken to have sold, and the company is taken to have bought, the item (in the ordinary course of *business and dealing with each other at arm's length), at the time of the disposal (or just before that time if the disposal occurred when the body ceased to exist), for:
- (a) the *cost of the item for the body; or
 - (b) if the body held the item as *trading stock at the start of the income year, the *value of the item for the body then.
- (3) The company is taken to have held the item as *trading stock when it bought the item.

Consequences for revenue assets

620-50 Body taken to have sold revenue assets to company

Disposal

- (1) Subsections (2) and (3) apply to a *CGT asset:
- (a) that the body *disposes of to the company because the body ceases to exist; and
 - (b) that is a *revenue asset of the body just before the disposal.
- Note: Trading stock and depreciating assets are not revenue assets. See section 977-50.
- (2) The body is taken to have disposed of the *revenue asset to the company for an amount such that the body would not make a profit or a loss on the disposal.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (3) For the purpose of calculating any profit or loss on a future disposal of, cessation of owning, or other realisation of, the *revenue asset, the company is taken to have paid the body that amount for the disposal of the revenue asset to the company.

Ceasing to own or other realising

- (4) Subsection (5) applies to a *CGT asset:
- (a) that the body ceases to own, or otherwise realises, because the body ceases to exist; and
 - (b) that is a *revenue asset of the body just before the cessation or realisation.

Note: Trading stock and depreciating assets are not revenue assets. See section 977-50.

- (5) The body is taken to have disposed of the *revenue asset for an amount such that the body would not make a profit or a loss on the disposal.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Part 3-90—Consolidated groups

Division 700—Guide and objects

Table of sections

Guide

700-1	What this Part is about
700-5	Overview of this Part

Objects

700-10	Objects of this Part
--------	----------------------

Guide

700-1 What this Part is about

This Part allows certain groups of entities to be treated as single entities for income tax purposes.

Following a choice to consolidate, subsidiary members are treated as part of the head company of the group rather than as separate income tax identities. The head company inherits their income tax history when they become subsidiary members of the group. On ceasing to be subsidiary members, they take with them an income tax history that recognises that they are different from when they became subsidiary members.

This is supported by rules that:

- (a) set the cost for income tax purposes of assets that subsidiary members bring into the group; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) determine the income tax history that is taken into account when entities become, or cease to be, subsidiary members of the group; and
- (c) deal with the transfer of tax attributes such as losses and franking credits to the head company when entities become subsidiary members of the group.

700-5 Overview of this Part

- (1) The single entity rule determines how the income tax liability of a consolidated group will be ascertained. The basic principle is contained in the Core Rules in Division 701.
- (2) Essentially, a consolidated group consists of an Australian resident head company and all of its Australian resident wholly-owned subsidiaries (which may be companies, trusts or partnerships). Special rules apply to foreign-owned groups with no single Australian resident head company.
- (3) An eligible wholly-owned group becomes a consolidated group after notice of a choice to consolidate is given to the Commissioner.
- (4) This Part also contains rules which set the cost for income tax purposes of assets of entities when they become subsidiary members of a consolidated group and of membership interests in those entities when they cease to be subsidiary members of the group.
- (5) Certain tax attributes (such as losses and franking credits) of entities that become subsidiary members of a consolidated group are transferred under this Part to the head company of the group. These tax attributes remain with the group after an entity ceases to be a subsidiary member.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Objects

700-10 Objects of this Part

The objects of this Part are:

- (a) to prevent double taxation of the same economic gain realised by a consolidated group; and
- (b) to prevent a double tax benefit being obtained from an economic loss realised by a consolidated group; and
- (c) to provide a systematic solution to the prevention of such double taxation and double tax benefits that will:
 - (i) reduce the cost of complying with this Act; and
 - (ii) improve business efficiency by removing complexities and promoting simplicity in the taxation of wholly-owned groups.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Division 701—Core rules

Table of sections

Common rule

701-1 Single entity rule

Head company rules

701-5 Entry history rule

701-10 Cost to head company of assets of joining entity

701-15 Cost to head company of membership interests in entity that leaves group

701-20 Cost to head company of assets consisting of certain liabilities owed by entity that leaves group

701-25 Tax-neutral consequence for head company of ceasing to hold assets when entity leaves group

Entity rules

701-30 Where entity not subsidiary member for whole of income year

701-35 Tax-neutral consequence for entity of ceasing to hold assets when it joins group

701-40 Exit history rule

701-45 Cost of assets consisting of liabilities owed to entity by members of the group

701-50 Cost of certain membership interests of which entity becomes holder on leaving group

Supporting provisions

701-55 Setting the tax cost of an asset

701-56 Application of subsection 701-55(6)

701-58 Effect of setting the tax cost of an asset that the head company does not hold under the single entity rule

701-60 Tax cost setting amount

701-61 Assets in relation to Division 230 financial arrangement—head company's assessable income or deduction

701-63 ***Right to future income*** and ***WIP amount asset***

701-65 Net income and losses for trusts and partnerships

701-67 Assets in this Part are CGT assets, etc.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 701-1

Exceptions

- 701-70 Adjustments to taxable income where identities of parties to arrangement merge on joining group
- 701-75 Adjustments to taxable income where identities of parties to arrangement re-emerge on leaving group
- 701-80 Accelerated depreciation
- 701-85 Other exceptions etc. to the rules

Common rule

701-1 Single entity rule

- (1) If an entity is a *subsidiary member of a *consolidated group for any period, it and any other subsidiary member of the group are taken for the purposes covered by subsections (2) and (3) to be parts of the *head company of the group, rather than separate entities, during that period.

Head company core purposes

- (2) The purposes covered by this subsection (the ***head company core purposes***) are:
 - (a) working out the amount of the *head company's liability (if any) for income tax calculated by reference to any income year in which any of the period occurs or any later income year; and
 - (b) working out the amount of the head company's loss (if any) of a particular *sort for any such income year.

Note: The single entity rule would affect the head company's income tax liability calculated by reference to income years after the entity ceased to be a member of the group if, for example, assets that the entity held when it became a subsidiary member remained with the head company after the entity ceased to be a subsidiary member.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Entity core purposes

- (3) The purposes covered by this subsection (the *entity core purposes*) are:

- (a) working out the amount of the entity's liability (if any) for income tax calculated by reference to any income year in which any of the period occurs or any later income year; and
- (b) working out the amount of the entity's loss (if any) of a particular **sort* for any such income year.

Note: An assessment of the entity's liability calculated by reference to income tax for a period when it was *not* a subsidiary member of the group may be made, and that tax recovered from it, even while it is a subsidiary member.

What is a sort of loss?

- (4) Each of these paragraphs identifies a *sort* of loss:

- (a) **tax loss*;
- (b) **film loss*;
- (c) **net capital loss*.

This subsection lists all the *sorts* of loss.

Head company rules**701-5 Entry history rule**

For the head company core purposes in relation to the period after the entity becomes a **subsidiary member* of the group, everything that happened in relation to it before it became a subsidiary member is taken to have happened in relation to the **head company*.

Note 1: Other provisions of this Part may affect the tax history that is inherited (e.g. asset cost base history is affected by section 701-10 and tax loss history is affected by Division 707).

Note 3: Section 165-212E overrides this rule for the purposes of the same business test.

***To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 701-10

701-10 Cost to head company of assets of joining entity

- (1) This section has effect for the head company core purposes when the entity becomes a *subsidiary member of the group.

Assets to which section applies

- (2) This section applies in relation to each asset that would be an asset of the entity at the time it becomes a *subsidiary member of the group, assuming that subsection 701-1(1) (the single entity rule) did not apply.

Note: See subsection 705-35(3) for the treatment of a goodwill asset resulting from the head company's ownership and control of the joining entity.

Object

- (3) The object of this section (and Division 705 which relates to it) is to recognise the cost to the *head company of such assets as an amount reflecting the group's cost of acquiring the entity.

Setting tax cost of assets

- (4) Each asset's *tax cost is set at the time the entity becomes a *subsidiary member of the group at the asset's *tax cost setting amount.

Multiple setting of tax cost for same trading stock or registered emissions unit

- (5) However, if:
- (a) the asset is *trading stock or a *registered emissions unit; and
 - (b) the asset's *tax cost is set by this section at more than one time (each of which is a **setting time**) for the same income year;
- then, except where subsection (6) applies, only the amount at which the tax cost is set at the last of the setting times is to be taken into account.

- (6) If:
- (a) the *head company's *terminating value for the asset; or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

(b) the *value of the asset at the start of the income year;
is required to be worked out for one or more occasions when an entity (whether or not the same entity) ceases to be a *subsidiary member of the group in the income year, then the amount at which the asset's *tax cost is set by this section at a particular setting time is only taken into account in working out the head company's terminating value for a particular occasion if:

- (c) the setting time occurs before the occasion; and
- (d) there is no intervening setting time or occasion.

701-15 Cost to head company of membership interests in entity that leaves group

- (1) If the entity ceases to be a *subsidiary member of the group, this section has effect for the head company core purposes, so far as they relate to the income year in which the entity ceases to be a subsidiary member or any later income year.

Note: This section could have effect, for example, if an entity ceases to be a subsidiary member of the group because:

- (a) it ceases to satisfy the requirements to be a subsidiary member;
or
- (b) the head company ceases to satisfy the requirements to be a head company (thereby bringing the group to an end).

Object

- (2) The object of this section is to preserve the alignment of the *head company's costs for *membership interests in each entity and its assets by recognising, when an entity ceases to be a *subsidiary member of the group, the cost of those interests as an amount equal to the cost of the entity's assets at that time reduced by the amount of its liabilities.

Note: The head company's costs for membership interests in entities was aligned with the costs of their assets when the entities became subsidiary members of the group.

Setting tax cost of membership interests

- (3) For each *membership interest that the *head company of the group holds in an entity that ceases to be a *subsidiary member, the

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 701-20

interest's *tax cost is set just before the entity ceases to be a subsidiary member at the interest's *tax cost setting amount.

Note 1: The membership interests would include those that are actually held by subsidiary members of the group, but which are treated as those of the head company under the single entity rule.

Note 2: If the entity is a partnership, Subdivision 713-E sets the tax cost of interests in partnership assets, rather than membership interests in the partnership.

701-20 Cost to head company of assets consisting of certain liabilities owed by entity that leaves group

- (1) If the entity ceases to be a *subsidiary member of the group, this section has effect for the head company core purposes, so far as they relate to the income year in which the entity ceases to be a subsidiary member or any later income year.

Assets to which section applies

- (2) This section applies in relation to each asset, consisting of a liability owed by the entity, that becomes an asset of the *head company because subsection 701-1(1) (the single entity rule) ceases to apply to the entity when it ceases to be a *subsidiary member. This is a liability that, ignoring that subsection, is owed to a *member of the group.

Object

- (3) The object of this section is to set a cost for the asset to enable income tax consequences for the *head company in respect of the asset to be determined.

Setting tax cost of assets

- (4) The asset's *tax cost is set at the time the entity ceases to be a *subsidiary member of the group at the asset's *tax cost setting amount.

Note: If the entity is a partnership, Subdivision 713-E sets the tax cost of assets consisting of a partner's share of a liability owed by the partnership to a member of the group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

701-25 Tax-neutral consequence for head company of ceasing to hold assets when entity leaves group

- (1) If the entity ceases to be a *subsidiary member of the group, this section has effect for the head company core purposes, so far as they relate to the income year in which the entity ceases to be a subsidiary member or any later income year.

Assets to which section applies

- (2) This section applies in relation to an asset if:
- (a) either:
 - (i) the asset is *trading stock of the *head company; or
 - (ii) the asset is a *registered emissions unit and an asset of the head company; and
 - (b) the asset becomes an asset of the entity because subsection 701-1(1) (the single entity rule) ceases to apply to the entity when it ceases to be a *subsidiary member of the group; and
 - (c) the asset is not again an asset of the head company at or before the end of the income year.

Object

- (3) The object of this section is to ensure that there is no income tax consequence for the *head company in respect of the asset.

Note: In the case of assets other than trading stock or registered emissions units, the fact that the head company ceases to hold them when the single entity rules ceases to apply to them would not constitute a disposal or other event having tax consequences for the head company.

Setting value of trading stock at tax-neutral amount

- (4) If subparagraph (2)(a)(i) applies, the asset is taken to be *trading stock of the *head company at the end of the income year (but not at the start of the next income year) and its *value at that time is taken to be equal to:
- (a) if the asset was trading stock of the head company at the start of the income year (including as a result of its *tax cost being set)—the asset's value at that time; or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 701-30

- (b) if paragraph (a) does not apply and the asset is *livestock that was acquired by natural increase—the *cost of the asset; or
- (c) in any other case—the amount of the outgoing incurred by the head company in connection with the acquisition of the asset;

increased by the amount of any outgoing forming part of the cost of the asset that was incurred by the head company during its current holding of the asset.

Note: As a consequence of fixing the trading stock's value at the end of the income year under this subsection, no election would be available under section 70-45 to value the trading stock at that time.

Setting value of registered emissions unit at tax-neutral amount

- (5) If subparagraph (2)(a)(ii) applies, the asset is taken to be an asset of the *head company at the end of the income year (but not at the start of the next income year) and the head company's *value for the asset at that time is taken to be equal to:
 - (a) if the asset was *held by the head company at the start of the income year—the value of the asset at the start of the income year; or
 - (b) otherwise—the expenditure incurred by the head company in becoming the holder of the asset.

Entity rules

701-30 Where entity not subsidiary member for whole of income year

Object

- (1) The object of this section is to provide for a method of working out how the entity core rules apply to the entity for periods in the income year when the entity is not part of the group. The method involves treating each period separately with no netting off between them.

When section has effect

- (2) This section has effect for the entity core purposes if:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (a) the entity is a *subsidiary member of the group for some but not all of an income year; and
- (b) there are one or more periods in the income year (each of which is a ***non-membership period***) during which the entity is not a subsidiary member of any *consolidated group.

Tax position of each non-membership period to be worked out

- (3) For every non-membership period, work out the entity's taxable income (if any) for the period, the income tax (if any) payable on that taxable income and the entity's loss (if any) (a ***non-membership period loss***) of each *sort for the period. Work them out:
 - (a) as if the start and end of the period were the start and end of the income year; and
 - (b) ignoring the operation of this section in relation to each other non-membership period (if any); and
 - (c) so that each relevant item is either:
 - (i) allocated to only one of the non-membership periods or to a period that is all or part of the rest of the income year; or
 - (ii) apportioned among such periods (for example, by Subdivision 716-A (see note to this subsection)).

- Note: Other provisions of this Part are to be applied in working out the taxable income or loss, for example:
- section 701-40 (Exit history rule); and
 - Subdivision 716-A (about assessable income and deductions spread over several membership or non-membership periods); and
 - section 716-850 (about grossing up threshold amounts for periods of less than 365 days).

Subdivision 716 also affects the tax position of the head company of a group of which the entity has been a subsidiary member for some but not all of the income year.

- (3A) For the purposes of working out the entity's taxable income (if any) for the non-membership period, determine:
 - (a) whether the entity can *utilise a loss of any *sort transferred to the entity in the period; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 701-30

(b) if the period started at the start of the income year—whether the entity can utilise a loss of any sort:

- (i) made by the entity, without a transfer, for an earlier income year; or
- (ii) transferred to the entity in an earlier income year;

as if the time just after the end of the period were the end of the income year and the entity carried on at that time the same business that it carried on just before that time. Paragraph (3)(a) has effect subject to this subsection.

Note: This means that things that happen in relation to the entity at the time it becomes a subsidiary member of the group are taken into account in determining whether the entity can utilise such a loss to affect its taxable income for the non-membership period.

Income tax for the financial year

- (4) The entity's income tax (if any) for the *financial year concerned is the total of every amount of income tax worked out for the entity under subsection (3).

Taxable income for the income year

- (5) The entity's taxable income for the income year is the total of every amount of taxable income worked out for the entity under subsection (3).
- (6) The entity's income tax worked out under subsection (4) is taken to be payable on the entity's taxable income for the income year worked out under subsection (5), even if the amount of the tax differs from the amount that would be worked out by reference to that taxable income apart from subsection (5).

Loss for the income year

- (7) The entity has a loss of a particular *sort for the income year if and only if it has a non-membership period loss of that sort for the non-membership period (if any) ending at the end of the income year. The amount of the loss for the income year is the amount of the non-membership period loss.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Utilisation and transfer of non-membership period loss

- (8) However, the provisions of this Act relating to transfer or *utilisation of a loss of any *sort have effect in relation to a non-membership period loss of that sort for any non-membership period as if the non-membership period loss were the entity's loss for an income year that:
- (a) started at the start of the period; and
 - (b) ended at the end of the period.
- (9) Subsection (8) has effect not only for the entity core purposes, but also (despite subsection (2)) for other purposes.

Excess franking deficit tax offset for the income year

- (10) For the purposes of applying section 205-70 in relation to an income year after the income year (the **current income year**) to which this section applies, the entity has an excess mentioned in paragraph 205-70(1)(c) (about excess franking deficit tax offsets) for the current income year only if it has such an excess for the non-membership period (if any) ending at the end of the current income year. The amount of the excess for the current income year is the amount of the excess for the non-membership period.

701-35 Tax-neutral consequence for entity of ceasing to hold assets when it joins group

- (1) When the entity becomes a *subsidiary member of the group, this section has effect for the entity core purposes.

Assets to which section applies

- (2) This section applies in relation to an asset if:
- (a) the asset is *trading stock of the entity just before it becomes a *subsidiary member of the group; or
 - (b) the asset is:
 - (i) a *registered emissions unit; and
 - (ii) an asset of the entity;just before it becomes a subsidiary member of the group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 701-35

Object

- (3) The object of this section is to ensure that there is no income tax consequence for the entity in respect of the asset.

Note: In the case of assets other than trading stock or registered emissions units, the fact that the entity ceases to hold them when the single entity rule begins to apply to them would not constitute a disposal or other event having tax consequences for the entity.

Setting value of trading stock at tax-neutral amount

- (4) If paragraph (2)(a) applies, the *value of the *trading stock at the end of the income year that ends, or, if section 701-30 applies, of the income year that is taken by subsection (3) of that section to end, when the entity becomes a *subsidiary member is taken to be equal to:
- (a) if the asset was trading stock of the entity at the start of the income year—the asset's value at that time; or
 - (b) if paragraph (a) does not apply and the asset is *livestock that was acquired by natural increase—the *cost of the asset; or
 - (c) in any other case—the amount of the outgoing incurred by the entity in connection with the acquisition of the asset;
- increased by the amount of any outgoing forming part of the cost of the asset that was incurred by the entity during its current holding of the asset.

Note: As a consequence of fixing the trading stock's value at the end of the income year under this subsection, no election would be available under section 70-45 to value the trading stock at that time.

Setting value of registered emissions unit at tax-neutral amount

- (5) If paragraph (2)(b) applies, the *value of the *registered emissions unit at the end of the income year that ends, or, if section 701-30 applies, of the income year that is taken by subsection (3) of that section to end, when the entity becomes a *subsidiary member is taken to be equal to:
- (a) if the unit was *held by the joining entity at the start of the income year—the value of the unit at the start of the income year; or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) otherwise—the expenditure incurred by the joining entity in becoming the holder of the unit.

Note: See also section 701A-7 of the *Income Tax (Transitional Provisions) Act 1997*.

701-40 Exit history rule

- (1) If the entity ceases to be a *subsidiary member of the group, this section has effect for the entity core purposes, so far as they relate to any thing covered by subsection (2) (an *eligible asset etc.*) after it becomes that of the entity because subsection 701-1(1) (the single entity rule) ceases to apply to the entity.

Assets, liabilities and businesses covered

- (2) This subsection covers the following:
- (a) any asset;
 - (b) any liability or other thing that, in accordance with *accounting principles, is a liability;
 - (c) any business;
- that becomes that of the entity because subsection 701-1(1) (the single entity rule) ceases to apply to the entity when it ceases to be a *subsidiary member of the group.

Head company history inherited

- (3) Everything that happened in relation to any eligible asset etc. while it was that of the *head company, including because of any application of section 701-5 (the entry history rule), is taken to have happened in relation to it as if it had been an eligible asset etc. of the entity.

Note 1: If the eligible asset etc. was brought into the group when an entity became a subsidiary member, section 701-5 (the entry history rule) would have had the effect that things happening to the eligible asset etc. while it was that of the entity would be taken to have happened as if it was that of the head company. Such things will in turn be taken by this subsection to have happened in relation to the eligible asset etc. as if it were that of the entity that takes the asset out of the group.

Note 2: Other provisions of this Part may affect the tax history that is inherited (e.g. asset cost base history is affected by section 701-45).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

701-45 Cost of assets consisting of liabilities owed to entity by members of the group

- (1) If the entity ceases to be a *subsidiary member of the group, this section has effect for the entity core purposes, so far as they relate to the income year in which the entity ceases to be a subsidiary member or any later income year.

Assets to which section applies

- (2) This section applies in relation to an asset if:
- (a) it becomes an asset of the entity because subsection 701-1(1) (the single entity rule) ceases to apply to the entity when it ceases to be a *subsidiary member of the group; and
 - (b) the asset consists of a liability owed to the entity by a *member of the group.

Object

- (3) The object of this section is to set the cost of the asset to enable income tax consequences for the entity in respect of the asset to be determined.

Note: In the case of other assets, the fact that the entity inherits their history under section 701-40 when the entity ceases to be a subsidiary member of the group means that the assets would be treated as having the same cost as they would for the head company at that time. However, assets consisting of liabilities do not have such a history because they are only recognised when the entity ceases to be a subsidiary member and the single entity rule ceases to apply.

Setting the asset's tax cost

- (4) The asset's *tax cost is set at the time the entity ceases to be a *subsidiary member of the group at the asset's *tax cost setting amount.

Note 1: If section 701-30 (Where entity not subsidiary member for whole of income year) applies, the time the entity ceases to be a subsidiary member will be treated as the start of an income year.

Note 2: If the entity is a partnership, Subdivision 713-E sets the tax cost of a partner's interest in an asset consisting of a liability that a member of the group owes to the partnership.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

701-50 Cost of certain membership interests of which entity becomes holder on leaving group

- (1) If:
- (a) the entity and one or more other entities cease to be *subsidiary members of the group at the same time because of an event happening in relation to one of them; and
 - (b) when the entity ceases to be a subsidiary member, it holds an asset consisting of a *membership interest in any of the other entities;

this section has effect for the entity core purposes.

Object

- (2) The cost of any *membership interest that one of the entities holds in another is to be treated in the same way as membership interests held by the *head company. In both cases the object is to preserve the alignment of costs for membership interests and assets (that was established when each entity became a *subsidiary member) by recognising the cost of those interests, when it ceases to be a subsidiary member, as an amount equal to the cost of the entity's assets at that time reduced by the amount of its liabilities.

Setting tax cost of membership interests

- (3) The asset's *tax cost is set just before the entity ceases to be a *subsidiary member of the group at the asset's *tax cost setting amount.

Note: If the asset consists of a membership interest in a partnership, Subdivision 713-E sets the tax cost of interests in partnership assets, rather than membership interests in the partnership.

Supporting provisions**701-55 Setting the tax cost of an asset**

- (1) This section states the meaning of the expression an asset's *tax cost is set* at a particular time at the asset's *tax cost setting amount.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Depreciating asset provisions

- (2) If any of Subdivisions 40-A to 40-D, sections 40-425 to 40-445 and Subdivisions 328-D and 355-E is to apply in relation to the asset, the expression means that the provisions apply as if:
- (a) the asset were *acquired at the particular time for a payment equal to its *tax cost setting amount; and
 - (b) at that time the same method of working out the decline in value were chosen for the asset as applied to it just before that time; and
 - (c) where just before that time the prime cost method applied for working out the asset's decline in value and the asset's tax cost setting amount does not exceed the joining entity's *terminating value for the asset—at that time an *effective life were chosen for the asset equal to the remainder of the effective life of the asset just before that time; and
 - (d) where just before that time the prime cost method applied for working out the asset's decline in value and the asset's *tax cost setting amount exceeds the joining entity's terminating value for the asset—the *head company were required to choose at that time an effective life for the asset in accordance with subsections 40-95(1) and (3) and any choice of an effective life determined by the Commissioner were limited to one in force at that time; and
 - (e) where neither paragraph (c) nor (d) applies—at that time an effective life were chosen for the asset equal to the asset's effective life just before that time.

Trading stock provisions

- (3) If Division 70 (other than Subdivision 70-E) is to apply in relation to the asset, the expression means that the Division applies as if the asset were *trading stock at the start of the income year in which the particular time occurs and its *value at that time were equal to its *tax cost setting amount.

Registered emissions unit provisions

- (3A) If Division 420 is to apply in relation to the asset, the expression means that the Division applies as if the asset were a *registered

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

emissions unit at the start of the income year in which the particular time occurs, and its *value at that time were equal to the asset's *tax cost setting amount.

Qualifying security provisions

- (4) If Division 16E of Part III of the *Income Tax Assessment Act 1936* is to apply in relation to the asset, the expression means that the Division applies as if the asset were acquired at the particular time for a payment equal to the asset's *tax cost setting amount.

Capital gain and loss provisions

- (5) If Part 3-1 or 3-3 is to apply in relation to the asset, the expression means that the Part applies as if the asset's *cost base or *reduced cost base were increased or reduced so that the cost base or reduced cost base at the particular time equals the asset's *tax cost setting amount.

Division 230 (financial arrangements)

- (5A) If Division 230 is to apply in relation to the asset, the expression means that the Division applies as if the asset were acquired at the particular time for a payment equal to:
- (a) unless paragraph (b) applies—the asset's *tax cost setting amount; or
 - (b) if the asset's tax cost is set because an entity becomes a *subsidiary member of a *consolidated group, and Subdivision 230-C (fair value method), Subdivision 230-D (foreign exchange retranslation method) or Subdivision 230-F (reliance on financial reports method) is to apply in relation to the asset—the asset's *Division 230 starting value at the particular time.
- (5B) To avoid doubt, for the purposes of paragraph (5A)(b), determine the asset's *Division 230 starting value by reference to the relevant standards (as mentioned in section 230-230, 230-280 or 230-420) that apply in relation to the *head company's financial report for the income year in which the entity becomes a subsidiary member of the group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 701-55

WIP amount assets

(5C) If:

- (a) the asset's tax cost is set because an entity becomes a
*subsidiary member of a *consolidated group at the particular
time; and
- (b) the asset is a *WIP amount asset;

the expression means that section 25-95 applies as if the *head company had paid a *work in progress amount for the income year in which the particular time occurs equal to the *tax cost setting amount of the asset.

Consumable stores

(5D) If:

- (a) the asset's tax cost is set because an entity becomes a
*subsidiary member of a *consolidated group at the particular
time; and
- (b) the asset is consumable stores;

the expression means that, for the purposes of section 8-1, the *head company of the group is taken to have incurred an outgoing at the particular time in acquiring the asset equal to the asset's *tax cost setting amount.

Other provisions

- (6) If any provision of this Act that is not mentioned above is to apply in relation to the asset by including an amount in assessable income, or by allowing an amount as a deduction, in a way that brings into account (directly or indirectly) any of the following amounts:
 - (a) the cost of the asset;
 - (b) outgoings incurred, or amounts paid, in respect of the asset;
 - (c) expenditure in respect of the asset;
 - (d) an amount of a similar kind in respect of the asset;

the expression means that the provision applies, for the purpose of determining the amount included in assessable income or the amount of the deduction, as if the cost, outgoing, expenditure or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

other amount had been incurred or paid to acquire the asset at the particular time for an amount equal to its *tax cost setting amount.

Note 2: For specific clarifications of the operation of this subsection in relation to bad debts, see Subdivision 716-S.

701-56 Application of subsection 701-55(6)

- (1) Subsection (2) applies in relation to each asset that would be an asset of an entity at the time (the *joining time*) it becomes a *subsidiary member of a *consolidated group, assuming that subsection 701-1(1) (the single entity rule) did not apply.
- (1A) Subsection (2) applies only to the extent necessary for the purposes of subsection 701-55(6) to determine whether a provision of this Act is to apply in relation to each of those assets on and after the joining time.
- (1B) Subsection (2) applies despite section 701-5 (the entry history rule).
- (2) Treat the *head company as having acquired each of those assets at the joining time as part of acquiring the business of the joining entity as a going concern.

Certain depreciating assets etc.

- (3) Subsection 701-55(6) does not apply in relation to an asset if any of the following provisions are to apply in relation to the asset:
 - (a) Subdivision 40-F (Primary production depreciating assets);
 - (b) Subdivision 40-G (Capital expenditure of primary producers and other landholders);
 - (c) Subdivision 40-H (Capital expenditure that is immediately deductible);
 - (d) Subdivision 40-I (Capital expenditure that is deductible over time);
 - (e) Subdivision 40-J (Capital expenditure for the establishment of trees in carbon sink forests);
 - (f) Division 41 (Additional deduction for certain new business investment);
 - (g) Division 43 (Deductions for capital works).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

701-58 Effect of setting the tax cost of an asset that the head company does not hold under the single entity rule

- (1) This section applies if:
- (a) the *tax cost of an asset was set at the time (the *joining time*) an entity became a *subsidiary member of a *consolidated group, at the asset's *tax cost setting amount; and
 - (b) ignoring the operation of subsection 701-1(1) (the single entity rule), the entity held the asset at the joining time; and
 - (c) taking into account the operation of subsection 701-1(1) (the single entity rule), the *head company of the group did *not* hold the asset at the joining time.

Example: A debt owed by a member of the group to the joining entity at the joining time.

- (2) To avoid doubt, the asset's *tax cost setting amount mentioned in paragraph (1)(a) is not to be taken into account in applying the provisions mentioned in subsections 701-55(2), (3) (3A), (4), (5), (5A), (5C), (5D) and (6) in relation to the asset at and after the joining time.

701-60 Tax cost setting amount

The asset's *tax cost setting amount* is worked out using this table.

Tax cost setting amount		
Item	If the asset's tax cost is set by:	The asset's tax cost setting amount is:
1	section 701-10 (Cost to head company of assets of joining entity)	the amount worked out in accordance with Division 705
2	section 701-15 (Cost to head company of membership interests in entity that leaves group)	the amount worked out in accordance with section 711-15 or 711-55

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 701-61

Tax cost setting amount		
Item	If the asset's tax cost is set by:	The asset's tax cost setting amount is:
3	section 701-20 (Cost to head company of assets consisting of certain liabilities owed by entity that leaves group) or section 701-45 (Cost of assets consisting of liabilities owed to entity by members of the group)	the *market value of the asset
4	section 701-50 (Cost of certain membership interests of which entity becomes holder on leaving group)	the amount worked out in accordance with section 711-55

Note 1: The tax cost setting amount of certain interests in partnership assets is worked out under Subdivision 713-E.

Note 2: The tax cost setting amount of certain assets of a life insurance company is worked out under Subdivision 713-L.

701-61 Assets in relation to Division 230 financial arrangement— head company's assessable income or deduction

- (1) This section applies if:
 - (a) an entity (the *joining entity*) becomes a *subsidiary member of a *consolidated group; and
 - (b) paragraph 701-55(5A)(b) applies in relation to one or more assets of the joining entity.
- (2) Work out if the total of the *Division 230 starting values for those assets exceeds or falls short of the total of their *tax cost setting amounts.
- (3) If there is an excess, an amount equal to 25% of that excess is included in the *head company's assessable income for:
 - (a) the income year in which the particular time mentioned in subsection 701-55(5A) occurs; and
 - (b) each of the 3 subsequent income years.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 701-63

- (4) If there is a shortfall, the *head company is entitled to a deduction equal to 25% of that shortfall for:
 - (a) the income year in which the particular time mentioned in subsection 701-55(5A) occurs; and
 - (b) each of the 3 subsequent income years.

701-63 *Right to future income and WIP amount asset*

- (5) A ***right to future income*** is a valuable right (including a contingent right) to receive an amount if:
 - (a) the valuable right forms part of a contract or agreement; and
 - (b) the *market value of the valuable right (taking into account all the obligations and conditions relating to the right) is greater than nil; and
 - (c) the valuable right is neither a *Division 230 financial arrangement nor a part of a Division 230 financial arrangement; and
 - (d) it is reasonable to expect that an amount attributable to the right will be included in the assessable income of any entity at a later time.
- (6) ***WIP amount asset*** means an asset that is in respect of work (but not goods) that has been partially performed by a recipient mentioned in paragraph 25-95(3)(b) for a third entity but not yet completed to the stage where a recoverable debt has arisen in respect of the completion or partial completion of the work.

701-65 Net income and losses for trusts and partnerships

Net income of partnerships and trusts

- (1) If:
 - (a) another provision of this Division applies for the purpose of:
 - (i) working out the amount of the entity's liability (if any) for income tax calculated by reference to an income year; or
 - (ii) working out the amount of the entity's taxable income for an income year; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

(b) the entity is a trust or partnership;
the provision instead applies in a corresponding way for the purpose of working out the amount of the entity's net income, as defined in the *Income Tax Assessment Act 1936*, (if any) for the income year.

Note: Subsection 701-30(3) requires non-membership periods mentioned in that subsection to be treated as the start and end of an income year. This section would therefore also apply to those periods.

Partnership losses

(2) If:

(a) another provision of this Division applies for the purpose of working out the amount of the entity's loss (if any) of a particular *sort for an income year; and

(b) the entity is a partnership;
the provision instead applies in a corresponding way for the purpose of working out the amount of an entity's partnership loss, as defined in section 90 of the *Income Tax Assessment Act 1936*, (if any) for the income year.

Note: The provision applies normally to a trust, as it can have a loss of any sort worked out in the same way as a loss of the same sort for an entity of another kind.

701-67 Assets in this Part are CGT assets, etc.

This Part applies to an asset only if the asset is one or more of the following:

- (a) a *CGT asset;
- (b) a *revenue asset;
- (c) a *depreciating asset;
- (d) *trading stock;
- (e) a thing that is or is part of a *Division 230 financial arrangement.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 701-70

Exceptions

701-70 Adjustments to taxable income where identities of parties to arrangement merge on joining group

Section applies to certain arrangements

- (1) This section applies for the head company core purposes and the entity core purposes if, just before the time (the **joining time**) when the entity becomes a *subsidiary member of the group, an *arrangement is in force under which:
- (a) expenditure is to be, or has been, incurred in return for the doing of some thing; and
 - (b) the persons incurring the expenditure and *deriving the corresponding amount (each of which is a **combining entity**) are the entity and either:
 - (i) another entity that became a subsidiary member at the same time; or
 - (ii) the *head company.

Note 1: If expenditure incurred under an arrangement consists of a payment of loan interest or a payment of a similar kind, the expenditure would be incurred in return for the making available or continued making available of the loan principal, or other amount of a similar kind, under the arrangement.

Note 2: If expenditure incurred under an arrangement consists of a payment of rent, a lease payment or a payment of a similar kind, the expenditure would be incurred in return for the making available or continued making available of the thing rented or leased, or other thing of a similar kind, under the arrangement.

Note 3: If expenditure incurred under an arrangement consists of a payment of an insurance premium or a payment of a similar kind, the expenditure would be incurred in return for the provision or continued provision of insurance against the risk concerned, or of a thing of a similar kind, under the arrangement.

Object

- (2) The object of this section is to align the income tax position of the combining entities at the joining time, because after that time they lose their separate tax identities under the single entity rule in subsection 701-1(1) and this would preserve any imbalance.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Adjustment for disproportionate deductibility

- (3) If the total of a combining entity's deductions that are allowable for:
- (a) the following income year (the **joining adjustment year**):
 - (i) if the combining entity is the *head company and the joining time occurs at the start of an income year—the income year before that income year;
 - (ii) if the combining entity is the head company and subparagraph (i) does not apply—the income year in which the joining time occurs;
 - (iii) in any other case—the income year that ends, or, if section 701-30 applies, the income year that is taken by subsection (3) of that section to end, at the joining time; and
 - (b) all earlier income years;
- is not equal to the amount worked out under subsection (4), then:
- (c) if the total is less—the entity is entitled to deduct the difference for the joining adjustment year; and
 - (d) if it is more—the entity's assessable income for the joining adjustment year includes the difference.

Pre-joining time proportion of total arrangement deductions

- (4) The amount is worked out using the formula:

$$\text{Pre-joining time services proportion} \times \text{Total arrangement deductions}$$

where:

pre-joining time services proportion means the proportion of all things to be done under the arrangement in return for the incurring of the expenditure represented by those things that were done before the joining time.

total arrangement deductions means the total of the deductions that, ignoring this Part (other than subsection (7) of this section), would be allowable for expenditure incurred by the combining entity under the arrangement for all income years.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 701-70

Adjustment for disproportionate assessability

- (5) If the total of the amounts included in a combining entity's assessable income in respect of amounts *derived under the arrangement for the joining adjustment year and all earlier income years is not equal to the amount worked out under subsection (6):
- (a) if the total is less—the entity's assessable income for the joining adjustment year includes the difference; and
 - (b) if it is more—the entity is entitled to deduct the difference for the joining adjustment year.

Pre-joining time proportion of total arrangement assessable income

- (6) The amount is worked out using the formula:

$$\text{Pre-joining time services proportion} \times \text{Total arrangement assessable income}$$

where:

pre-joining time services proportion has the same meaning as in subsection (4).

total arrangement assessable income means the total of the amounts that, ignoring this Part (other than subsection (7) of this section), would be included in the combining entity's assessable income for amounts *derived by it under the arrangement for all income years.

Modified application of section if combining entities previously members of same group

- (7) If the combining entities were *members of the same *consolidated group (whether or not the group to which this section applies) on one or more previous occasions, this section applies in relation to the entities as if:
- (a) the only things to be done under the arrangement in return for the incurring of the expenditure were those things to be done after the entities ceased to be members of the same group on the previous occasion or the last of the previous occasions; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) the only deductions allowable to an entity for expenditure incurred by it under the arrangement, and the only amounts included in an entity's assessable income in respect of amounts *derived under the arrangement, were:
- (i) if the entity was the *head company of the consolidated group of which the combining entities were members on the previous occasion or last of the previous occasions—those for the income year, in which the previous occasion or the last of the previous occasions occurred, that are attributable to the period after that occasion and those for all later income years; and
 - (ii) in any other case—those for the income year that started, or, if section 701-30 applies, the income year that is taken by subsection (3) of that section to have started, when the entity ceased to be a *subsidiary member of the group on the previous occasion or the last of the previous occasions and those for all later income years.

701-75 Adjustments to taxable income where identities of parties to arrangement re-emerge on leaving group

Section applies to certain arrangements

- (1) This section applies for the head company core purposes and the entity core purposes if the entity ceases to be a *subsidiary member of the group and, just before the time (the *leaving time*) when it does so, an *arrangement is in force under which:
- (a) expenditure is to be, or has been, incurred in return for the doing of some thing; and
 - (b) the persons incurring the expenditure and *deriving the corresponding amount (each of which is a *separating entity*) are the entity and either:
 - (i) another entity that ceases to be a subsidiary member at the same time; or
 - (ii) the *head company.

Note: The notes to subsection 701-70(1) on the application of that subsection to expenditure under certain kinds of arrangements are equally applicable for the purposes of this subsection.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 701-75

Object

- (2) The object of this section is to align the income tax position of the separating entities at the leaving time, because from that time they have separate tax identities as a result of the single entity rule in subsection 701-1(1) ceasing to apply, and this may create an imbalance.

Adjustment for disproportionate deductibility

- (3) If the total of the deductions that are or will be allowable for expenditure incurred by the separating entity under the arrangement for:
- (a) the following income year (the **leaving adjustment year**):
 - (i) if the separating entity is the *head company—the income year in which the leaving time occurs;
 - (ii) in any other case—the income year that starts, or, if section 701-30 applies, the income year that is taken by subsection (3) of that section to start, at the leaving time; and
 - (b) all later income years;
- is not equal to the amount worked out under subsection (4), the deductions are adjusted so that they do equal the amount.

Post-leaving time proportion of total arrangement deductions

- (4) The amount is worked out using the formula:

$$\text{Post-leaving time services proportion} \times \text{Total arrangement deductions}$$

where:

post-leaving time services proportion means the proportion of all things to be done under the arrangement in return for the incurring of the expenditure represented by those things that are to be done after the leaving time.

total arrangement deductions means the total of the deductions that, ignoring this Part, would be allowable for expenditure incurred by the separating entity under the arrangement for all income years.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Adjustment for disproportionate assessability

- (5) If the total of the amounts that are or will be included in its assessable income in respect of amounts *derived under the arrangement for the leaving adjustment year and all later income years is not equal to the amount worked out under subsection (6), the amounts that are or will be included in its assessable income are adjusted so that they do equal the amount worked out under subsection (6).

Post-leaving time proportion of total arrangement assessable income

- (6) The amount is worked out using the formula:

$$\text{Post-leaving time services proportion} \times \text{Total arrangement assessable income}$$

where:

post-leaving time services proportion has the same meaning as in subsection (4).

total arrangement assessable income means the total of the amounts that, ignoring this Part, would be included in the separating entity's assessable income for amounts *derived by it under the arrangement for all income years.

701-80 Accelerated depreciation

- (1) This section has effect for the head company core purposes when the entity becomes a *subsidiary member of the group.

Object

- (2) The object of this section is to preserve any entitlement to accelerated depreciation for assets that become those of the *head company because subsection 701-1(1) (the single entity rule) applies when the entity becomes a *subsidiary member of the group. This is only to apply where the asset's *tax cost setting amount is not more than the entity's *terminating value for the asset.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 701-85

Section applies to certain depreciating assets

(3) This section applies if:

- (a) a *depreciating asset to which Division 40 applies becomes that of the *head company because subsection 701-1(1) (the single entity rule) applies when the entity becomes a *subsidiary member of the group; and
- (b) just before the entity became a subsidiary member, subsection 40-10(3) or 40-12(3) of the *Income Tax (Transitional Provisions) Act 1997* applied for the purpose of the entity working out the asset's decline in value under Division 40; and

Note: The effect of those subsections was to preserve an entitlement to accelerated depreciation.

- (c) the *tax cost setting amount that applies in relation to the asset for the purposes of section 701-10 when it becomes an asset of the head company is not more than the entity's *terminating value for the asset.

Preservation of accelerated depreciation

- (4) While the asset is held by the *head company under subsection 701-1(1) (the single entity rule), the decline in its value under Division 40 is worked out by replacing the component in the formula in subsection 40-70(1) or 40-75(1) that includes the asset's *effective life with the rate that would apply under subsection 42-160(1) or 42-165(1) of this Act if it had not been amended by the *New Business Tax System (Capital Allowances) Act 2001*.

701-85 Other exceptions etc. to the rules

The operation of each provision of this Division is subject to any provision of this Act that so requires, either expressly or impliedly.

Note: An example of such a provision is Division 707 (about the transfer of certain losses to the head company of a consolidated group). That Division modifies the effect that the inheritance of history rule in section 701-5 would otherwise have.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Division 703—Consolidated groups and their members

Guide to Division 703

703-1 What this Division is about

A consolidated group and a consolidatable group each consists of a head company and all the companies, trusts and partnerships that:

- (a) are resident in Australia; and
- (b) are wholly-owned subsidiaries of the head company (either directly or through other companies, trusts and partnerships).

A consolidatable group becomes consolidated at a time chosen by the company that was the head company at the time.

Table of sections

Basic concepts

703-5	What is a <i>consolidated group</i> ?
703-10	What is a <i>consolidatable group</i> ?
703-15	Members of a consolidated group or consolidatable group
703-20	Certain entities that <i>cannot</i> be members of a consolidated group or consolidatable group
703-25	Australian residence requirements for trusts
703-30	When is one entity a wholly-owned subsidiary of another?
703-33	Transfer time for sale of shares in company
703-35	Treating entities as wholly-owned subsidiaries by disregarding employee shares
703-37	Disregarding certain preference shares following an ADI restructure
703-40	Treating entities held through non-fixed trusts as wholly-owned subsidiaries
703-45	Subsidiary members or nominees interposed between the head company and a subsidiary member of a consolidated group or a consolidatable group

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 703-5

Choice to consolidate a consolidatable group

703-50 Choice to consolidate a consolidatable group

Consolidated group created when MEC group ceases to exist

703-55 Creating consolidated groups from certain MEC groups

Notice of events affecting consolidated group

703-58 Notice of choice to consolidate

703-60 Notice of events affecting consolidated group

Effects of choice to continue group after shelf company becomes new head company

703-65 Application

703-70 Consolidated group continues in existence with interposed company as head company and original company as a subsidiary member

703-75 Interposed company treated as substituted for original company at all times before the completion time

703-80 Effects on the original company's tax position

Basic concepts

703-5 What is a *consolidated group*?

(1) A ***consolidated group*** comes into existence:

- (a) on the day specified in a choice by a company under section 703-50 as the day on and after which a *consolidatable group is taken to be consolidated; or
- (b) as described in section 703-55 (about creating a consolidated group from a *MEC group).

Note: The day specified in a choice under section 703-50 as the day on and after which a consolidatable group is taken to be consolidated may be a day before the choice is made.

(2) The ***consolidated group*** continues to exist until the *head company of the group:

- (a) ceases to be a head company; or
- (b) becomes a member of a *MEC group.

The consolidated group ceases to exist when one of those events happens to the head company.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note: The group does not cease to exist in some cases where a shelf company is interposed between the head company and its former members: see subsection 124-380(5) and section 703-70.

- (3) At any time while it is in existence, the **consolidated group** consists of the *head company and all of the *subsidiary members (if any) of the group at the time.

Note: A consolidated group continues to exist despite one or more entities ceasing to be subsidiary members of the group or becoming subsidiaries of the group, as long as the events described in subsection (2) do not happen to the head company. Thus a consolidated group may come to consist of a head company alone at various times.

703-10 What is a *consolidatable group*?

- (1) A **consolidatable group** consists of:
- (a) a single *head company; and
 - (b) all the *subsidiary members of the group.
- (2) To avoid doubt, a **consolidatable group** cannot consist of a *head company alone.

703-15 Members of a consolidated group or consolidatable group

- (1) An entity is a **member** of a *consolidated group or *consolidatable group while the entity is:
- (a) the *head company of the group; or
 - (b) a *subsidiary member of the group.
- (2) At a particular time in an income year, an entity is:
- (a) a **head company** if all the requirements in item 1 of the table are met in relation to the entity; or
 - (b) a **subsidiary member** of a *consolidated group or *consolidatable group if all the requirements in item 2 of the table are met in relation to the entity:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 703-15

Head companies and subsidiary members of groups			
Column 1 Entity's role in relation to group	Column 2 Income tax treatment requirements	Column 3 Australian residence requirements	Column 4 Ownership requirements
1 Head company	The entity must be a company (but not one covered by section 703-20) that has all or some of its taxable income (if any) taxed at a rate that is or equals the *corporate tax rate	The entity must be an Australian resident (but not a *prescribed dual resident)	The entity must <i>not</i> be a *wholly-owned subsidiary of another entity that meets the requirements in columns 2 and 3 of this item or, if it is, it must <i>not</i> be a subsidiary member of a *consolidatable group or *consolidated group

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Head companies and subsidiary members of groups			
Column 1 Entity's role in relation to group	Column 2 Income tax treatment requirements	Column 3 Australian residence requirements	Column 4 Ownership requirements
2 Subsidiary member	<p>The requirements are that:</p> <p>(a) the entity must be a company, trust or partnership (but not one covered by section 703-20); and</p> <p>(b) if the entity is a company—all or some of its taxable income (if any) must be taxable apart from this Part at a rate that is or equals the *corporate tax rate; and</p> <p>(c) the entity must <i>not</i> be a non-profit company (as defined in the <i>Income Tax Rates Act 1986</i>)</p>	<p>The entity must:</p> <p>(a) be an Australian resident (but not a *prescribed dual resident), if it is a company; or</p> <p>(b) comply with section 703-25, if it is a trust; or</p> <p>(c) be a partnership</p>	<p>The entity must be a *wholly-owned subsidiary of the head company of the group and, if there are interposed between them any entities, the set of requirements in section 703-45, section 701C-10 of the <i>Income Tax (Transitional Provisions) Act 1997</i> or section 701C-15 of that Act must be met</p>

703-20 Certain entities that *cannot* be members of a consolidated group or consolidatable group

- (1) The object of this section is to specify certain entities that *cannot* be *members of a *consolidated group because of the way their income is treated for income tax purposes.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 703-20

- (2) An entity of a kind specified in an item of the table cannot be a *member of a *consolidated group or a *consolidatable group at a time in an income year if the conditions specified in the item exist:

Certain entities that cannot be members of a consolidated or consolidatable group		
Item	An entity of this kind:	Cannot be a member of a consolidated group or consolidatable group if:
1	An entity of any kind	At the time, the total *ordinary income and *statutory income of the entity is exempt from income tax under Division 50
2	A company	The company is a recognised medium credit union (as defined in section 6H of the <i>Income Tax Assessment Act 1936</i>) for the income year
3	A company	The company: <ul style="list-style-type: none"> (a) is an approved credit union for the income year for the purposes of section 23G of the <i>Income Tax Assessment Act 1936</i>; and (b) is <i>not</i> a recognised medium credit union (as defined in section 6H of that Act) or a recognised large credit union (as defined in that section) for the income year
5	A company	The company is a *PDF at the end of the income year
7	A trust	The trust is: <ul style="list-style-type: none"> (a) a *complying superannuation entity for the income year; or (b) a *non-complying approved deposit fund or a *non-complying superannuation fund for the income year
<p>Note: A subsidiary of a life insurance company cannot be a member of a consolidated group or consolidatable group in certain circumstances: see section 713-510.</p>		

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

703-25 Australian residence requirements for trusts

A trust described in an item of the table must meet the requirements specified in the item to be able to be a *subsidiary member of a *consolidated group or a *consolidatable group at a time in an income year:

Australian residence requirements for trusts		
Item	A trust of this kind:	Can be a member of a consolidated group or consolidatable group only if these requirements are met:
1	A trust (except a unit trust)	The trust must be a resident trust estate for the income year for the purposes of Division 6 of Part III of the <i>Income Tax Assessment Act 1936</i>
2	A unit trust (except a *corporate unit trust or a *public trading trust for the income year)	The trust must be: (a) a resident trust estate for the income year for the purposes of Division 6 of Part III of the <i>Income Tax Assessment Act 1936</i> ; and (b) a *resident trust for CGT purposes for the income year
3	A *corporate unit trust or a *public trading trust for the income year	The trust must be a *resident unit trust for the income year

703-30 When is one entity a *wholly-owned subsidiary* of another?

- (1) One entity (the *subsidiary entity*) is a *wholly-owned subsidiary* of another entity (the *holding entity*) if all the *membership interests in the subsidiary entity are beneficially owned by:
- (a) the holding entity; or
 - (b) one or more wholly-owned subsidiaries of the holding entity;
or
 - (c) the holding entity and one or more wholly-owned subsidiaries of the holding entity.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 703-33

- (2) An entity (other than the subsidiary entity) is a **wholly-owned subsidiary** of the holding entity if, and only if:
- (a) it is a wholly-owned subsidiary of the holding entity; or
 - (b) it is a wholly-owned subsidiary of a wholly-owned subsidiary of the holding entity;
- because of any other application or applications of this section.

Note: This Part also operates in some cases as if an entity were a wholly-owned subsidiary of another entity, even though the entity is not covered by the definition in this section because of:

- (a) ownership of shares under certain arrangements for employee shareholding (see section 703-35); or
 - (aa) ownership of certain preference shares following an ADI restructure (see section 703-37); or
 - (b) interposed trusts that are not fixed trusts (see section 703-40).
- (3) For the purposes of this section, one entity is not prevented from being the beneficial owner of a *membership interest in another entity merely because the first entity is or becomes:
- (a) an externally-administered body corporate within the meaning of the *Corporations Act 2001*; or
 - (b) an entity with a status under a *foreign law similar to the status of an externally-administered body corporate under the *Corporations Act 2001*.

703-33 Transfer time for sale of shares in company

- (1) This section applies if:
- (a) under a contract:
 - (i) a person (the **seller**) stops being entitled to be registered as the holder of a *share in a company at a time (the **transfer time**); and
 - (ii) another person (the **buyer**) becomes entitled to be registered as the holder of the share in the company at the transfer time; and
 - (b) as a result of the contract, the seller stops being the beneficial owner of the share, and the buyer becomes the beneficial owner of the share; and
 - (c) the seller and the buyer dealt with each other at *arm's length in relation to the contract; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (d) the seller and the buyer were not *associates of one another at any time during the period:
 - (i) starting when the contract was entered into; and
 - (ii) ending at the transfer time.
- (2) For the purposes of subsection 703-30(1):
 - (a) the seller is taken to have stopped being the beneficial owner of the share at the transfer time; and
 - (b) the buyer is taken to have become the beneficial owner of the share at the transfer time.

703-35 Treating entities as wholly-owned subsidiaries by disregarding employee shares

- (1) The object of this section is to ensure that an entity (the *first entity*) is not prevented from being a *subsidiary member of a *consolidated group or *consolidatable group just because there are minor holdings of *membership interests in an entity (the *employee share scheme entity*) issued under *arrangements for employee shareholdings. (It does not matter whether the employee share scheme entity is the first entity or is interposed between the first entity and a *member of the group.)

Note: A company that is prevented from being a subsidiary member of a consolidated group may be a head company (so there could be 2 consolidated or consolidatable groups, instead of the one that this section ensures exists).

- (2) This Part (except Division 719) operates as if an entity that meets the requirement of subsection (3) at a particular time were a *wholly-owned subsidiary of an entity (the *holding entity*) at the time.
- (3) The entity must be one that would be a *wholly-owned subsidiary of the holding entity at the time if the *membership interests in the entity that are to be disregarded under subsection (4) did not exist.
- (4) Disregard:
 - (a) each of the *shares described in subsection (5) if the total number of those shares is not more than 1% of the number of ordinary shares in the company; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 703-37

- (b) each of the *membership interests in an entity described in subsection (5) if the total number of those membership interests is not more than 1% of the number of membership interests of that kind in the entity.
- (5) A *share or *membership interest in a company may be disregarded under subsection (4) if:
 - (a) the entity who holds the beneficial interest in the share or membership interest acquired that beneficial interest:
 - (i) under an *employee share scheme; or
 - (ii) by exercising a right, a beneficial interest in which was acquired under an employee share scheme; and
 - (b) paragraphs 83A-105(1)(a) and (b) and subsection 83A-105(2) apply to the beneficial interest acquired under the scheme; and
 - (c) in the case of a membership interest—the interest is part of a stapled security.

703-37 Disregarding certain preference shares following an ADI restructure

- (1) The object of this section is to ensure that, following an *ADI restructure to which Part 4A of the *Financial Sector (Business Transfer and Group Restructure) Act 1999* applies, a body corporate is not prevented from being a *subsidiary member of a *consolidated group or *consolidatable group just because the body (or another body corporate) has issued, or issues, certain preference *shares.
- (2) This Part (except Division 719) operates as if a body corporate that meets the requirement of subsection (3) at a particular time were a *wholly-owned subsidiary of another body corporate (the **holding body**) at the time.
- (3) The body corporate (the **preference-share issuing body**) must be one that would be a *wholly-owned subsidiary of the holding body at the time if the *shares in the preference share-issuing body that are to be disregarded under subsection (4) did not exist.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (4) Disregard a *share in the preference-share issuing body if:
 - (a) a restructure instrument under Part 4A of the *Financial Sector (Business Transfer and Group Restructure) Act 1999* is in force in relation to a non-operating holding company within the meaning of that Act; and
 - (b) because of the restructure to which the instrument relates, an *ADI becomes a subsidiary (within the meaning of that Act) of the non-operating holding company; and
 - (c) the preference share-issuing body is:
 - (i) the ADI; or
 - (ii) part of an extended licensed entity (within the meaning of the *prudential standards) that includes the ADI; and
 - (d) the shares are covered by subsection (5).
- (5) A *share is covered by this subsection if:
 - (a) the share is a preference share; and
 - (b) any *return on the share is fixed at the time of issue by reference to the amount subscribed; and
 - (c) the share is not a *voting share; and
 - (d) either:
 - (i) the share is Tier 1 capital (within the meaning of the *prudential standards); or
 - (ii) the share would be Tier 1 capital (within the meaning of the prudential standards) were it not for a limit, imposed by those standards, on the proportion of Tier 1 capital that can be made up of such shares.
- (6) Paragraph (5)(a) covers a preference share if it is issued:
 - (a) by itself; or
 - (b) in combination with one or more *schemes that are *related schemes in relation to a scheme under which a preference share is issued.
- (7) If subsection (5) has covered a *share, but would (apart from this subsection) stop covering the share from a particular time, then for a period of 180 days after that time the subsection is taken to continue to cover the share.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

703-40 Treating entities held through non-fixed trusts as wholly-owned subsidiaries

- (1) This section operates to ensure that an entity (the *test entity*) is not prevented from being a *subsidiary member of a *consolidated group or *consolidatable group just because there is a trust that is not a *fixed trust interposed between the test entity and the *head company of the group.
- (2) This Part (except Division 719) operates as if the test entity were a *wholly-owned subsidiary of the *head company if the test entity would have been a wholly-owned subsidiary of the head company had the interposed trust been a *fixed trust and all its objects been beneficiaries.

703-45 Subsidiary members or nominees interposed between the head company and a subsidiary member of a consolidated group or a consolidatable group

- (1) This section describes, for the purposes of item 2, column 4 of the table in subsection 703-15(2), a set of requirements that must be met for an entity (the *test entity*) to be a *subsidiary member of a *consolidated group or a *consolidatable group at a particular time (the *test time*).
- (2) At the test time, each of the interposed entities must either:
 - (a) be a *subsidiary member of the group; or
 - (b) hold *membership interests in:
 - (i) the test entity; or
 - (ii) a subsidiary member of the group interposed between the *head company of the group and the test entity; only as a nominee of one or more entities each of which is a *member of the group.

Choice to consolidate a consolidatable group

703-50 Choice to consolidate a consolidatable group

- (1) A company may make a choice in writing that a *consolidatable group is taken to be consolidated on and after a day that is

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

specified in the choice and is after 30 June 2002, if the company was the *head company of the group on the day specified.

- Note 1: The head company of the group must give the Commissioner a notice in the approved form containing information about the group (see sections 703-58 and 703-60).
- Note 2: A group that is consolidated for income tax purposes may also consolidate for the purposes of the *Minerals Resource Rent Tax Act 2012* (see section 215-10 of that Act).
- Note 3: A group that is consolidated for income tax purposes may also consolidate for the purposes of the *Petroleum Resource Rent Tax Assessment Act 1987* (see section 58N of that Act).

Choice is irrevocable

- (2) The choice cannot be revoked, and the specification of the day cannot be amended, after the choice is made under subsection (1).
- (3) The choice can be made no later than:
- (a) if the company is required to give the Commissioner its *income tax return for the income year during which the specified day mentioned in subsection (1) occurs—the day on which the company gives the Commissioner that income tax return; or
 - (b) otherwise—the last day in the period within which the company would be required to give the Commissioner such a return if it were required to give the Commissioner such a return.

Choice has no effect after consolidated group ceases to exist

- (4) The choice does not have effect after the *consolidated group that came into existence because of the choice ceases to exist. To avoid doubt, this subsection does not prevent the choice from:
- (a) being made by the company at a time when it is not a head company; or
 - (b) having effect in relation to a time before the consolidated group ceased to exist, even if that time is before the choice is made.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 703-55

Choice does not have effect if company is a member of a MEC group

- (7) The choice does *not* have effect (and is taken not to have had effect) if, on the day specified, the company was a member of a *MEC group.

Consolidated group created when MEC group ceases to exist

703-55 Creating consolidated groups from certain MEC groups

- (1) A *consolidated group comes into existence at the time a *MEC group ceases to exist if:
- (a) the MEC group included only one *eligible tier-1 company just before the time; and
 - (b) the MEC group ceases to exist only because the company ceases to be an eligible tier-1 company; and
 - (c) the company is a *head company as defined in section 703-15 at the time.
- (2) To avoid doubt, the *consolidated group consists at the time of:
- (a) the company (as the *head company of the consolidated group); and
 - (b) every entity (if any) that was a *subsidiary member of the *MEC group just before that time (as a subsidiary member of the consolidated group).

Notice of events affecting consolidated group

703-58 Notice of choice to consolidate

- (1) If a *consolidated group comes into existence on the day specified in a choice under section 703-50, the *head company of the group must give the Commissioner a notice in the *approved form containing the following information:
- (a) the identity of the head company;
 - (b) the day specified in the choice on which the *consolidatable group is taken to be consolidated;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (c) the identity of each *subsidiary member of the group on that day;
 - (d) the identity of each entity that was a subsidiary member of the group on that day but was *not* such a subsidiary member when the notice is given;
 - (e) the identity of each entity that was *not* a subsidiary member of the group on that day but was such a subsidiary member when the notice is given;
 - (f) the identity of each entity that became a subsidiary member of the group after that day but was *not* such a subsidiary member when the notice is given.
- (2) The notice must be given no later than:
- (a) if the *head company is required to give the Commissioner its *income tax return for the income year during which that day occurs—the day on which the company gives the Commissioner that income tax return; or
 - (b) otherwise—the last day in the period within which the head company would be required to give the Commissioner such a return if it were required to give the Commissioner such a return.

703-60 Notice of events affecting consolidated group

- (1) Within 28 days of an event described in an item of the table, the entity described in column 3 of the item must give the Commissioner notice in the *approved form of the event.

Notice of events		
Column 1	Column 2	Column 3
Item	If this event happens:	Notice must be given by:
1	An entity becomes a *member of a *consolidated group	The *head company of the consolidated group

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 703-60

Notice of events		
Column 1 Item	Column 2 If this event happens:	Column 3 Notice must be given by:
2	An entity ceases to be a *subsidiary member of a *consolidated group	The *head company of the group, or the person who was its public officer just before it ceased to exist if the former subsidiary member ceases to be a *member of the group because the head company ceases to exist
3	A *consolidated group ceases to exist	The company that was the *head company of the group, or the person who was its public officer just before it ceased to exist if it ceases to be the head company of the group because it ceases to exist

(2) Despite subsection (1), if:

- (a) an event described in subsection (1) happens in relation to a *consolidated group that comes into existence on the day specified in a choice under section 703-50; and
- (b) the event happens before the relevant notice is given to the Commissioner under section 703-58 (notice of choice to consolidate);

the *head company of the consolidated group must give the Commissioner notice in the *approved form of the event.

(2A) The notice must be given no later than:

- (a) if the *head company is required to give the Commissioner its *income tax return for the income year during which that day occurs—the day on which the company gives the Commissioner that income tax return; or
- (b) otherwise—the last day in the period within which the head company would be required to give the Commissioner such a return if it were required to give the Commissioner such a return.

(3) Despite subsection (1), if:

- (a) an event described in subsection (1) happens in relation to a *consolidated group that comes into existence at a time under subsection 703-55(1) because a *MEC group ceased to exist at that time; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) the *MEC group came into existence under paragraph 719-5(1)(a) because a choice under section 719-50 is made after that time; and
 - (c) the event happens before the relevant notice is given to the Commissioner under section 719-76 (notice of choice to consolidate);
- the *head company of the consolidated group must give the Commissioner notice in the *approved form of the event.
- (4) The notice must be given no later than:
 - (a) if the *head company is required to give the Commissioner its *income tax return for the income year during which that day occurs—the day on which the company gives the Commissioner that income tax return; or
 - (b) otherwise—the last day in the period within which the head company would be required to give the Commissioner such a return if it were required to give the Commissioner such a return.

Effects of choice to continue group after shelf company becomes new head company

703-65 Application

Sections 703-70 to 703-80 set out the effects if a company (the *interposed company*) chooses under subsection 124-380(5) that a *consolidated group is to continue in existence at and after the time referred to in that subsection as the completion time.

Note: The choice is one of the conditions for a compulsory roll-over under Subdivision 124-G on an exchange of shares in the head company of a consolidated group for shares in the interposed company.

703-70 Consolidated group continues in existence with interposed company as head company and original company as a subsidiary member

- (1) The *consolidated group is taken *not* to have ceased to exist under subsection 703-5(2) because the company referred to in subsection

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 703-75

124-380(5) as the original company ceases to be the *head company of the group.

- (2) To avoid doubt, the interposed company is taken to have become the *head company of the *consolidated group at the completion time, and the original company is taken to have ceased to be the head company at that time.

Note: A further result is that the original company is taken to have become a subsidiary member of the group at that time. Section 703-80 deals with the original company's tax position for the income year that includes the completion time.

- (3) A provision of this Part that applies on an entity becoming a *subsidiary member of a *consolidated group does *not* apply to an entity being taken to have become such a member as a result of this section, unless the provision is expressed to apply despite this subsection.

Note: An example of the effect of this subsection is that there is no resetting under section 701-10 of the tax cost of assets of the original company that become assets of the interposed company because of subsection 701-1(1) (the single entity rule).

- (4) To avoid doubt, subsection (3) does not affect the application of subsection 701-1(1) (the single entity rule).

703-75 Interposed company treated as substituted for original company at all times before the completion time

- (1) Everything that happened in relation to the original company before the completion time:
- (a) is taken to have happened in relation to the interposed company instead of in relation to the original company; and
 - (b) is taken to have happened in relation to the interposed company instead of what would (apart from this section) be taken to have happened in relation to the interposed company before that time;
- just as if, at all times before the completion time:
- (c) the interposed company had been the original company; and
 - (d) the original company had been the interposed company.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note: This section treats the original company and the interposed company as having in effect exchanged identities throughout the period before the completion time, but without affecting any of the original company's other attributes.

- (2) To avoid doubt, subsection (1) also covers everything that, immediately before the completion time, was taken, because of:
 - (a) section 701-1 (Single entity rule); or
 - (b) section 701-5 (Entry history rule); or
 - (c) one or more previous applications of this section; or
 - (d) section 719-90 (about the effects of a change of head company of a MEC group); or
 - (e) section 719-125 (about the effects of a group conversion involving a MEC group);to have happened in relation to the original company.
- (3) Subsections (1) and (2) have effect:
 - (a) for the head company core purposes in relation to an income year ending after the completion time; and
 - (b) for the entity core purposes in relation to an income year ending after the completion time; and
 - (c) for the purposes of determining the respective balances of the *franking accounts of the original company and the interposed company at and after the completion time.
- (4) Subsections (1) and (2) have effect subject to:
 - (a) section 701-40 (Exit history rule); and
 - (b) a provision of this Act to which section 701-40 is subject because of section 701-85 (about exceptions to the core rules in Division 701).

Note: An example of provisions covered by paragraph (b) of this subsection is Subdivision 717-E (about transferring to a company leaving a consolidated group various surpluses under the CFC rules in Part X of the *Income Tax Assessment Act 1936*).

703-80 Effects on the original company's tax position

In applying section 701-30 to the original company for the income year that includes the completion time, disregard a non-membership period that starts before the completion time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 703-80

Note 1: Section 701-30 is about working out an entity's tax position for a period when it is not a subsidiary member of any consolidated group. Its application can also affect the entity's tax position in later income years.

Note 2: Under section 703-75 the interposed company inherits the original company's tax position for the part of the income year that ends before the completion time, with the consequence that the original company's taxable income, income tax payable, and losses of any sort, for that part are each nil.

Because of section 703-75 and this section, the only tax payable by the original company for the income year arises because of the application of section 701-30 to non-membership periods in the income year after the completion time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Division 705—Tax cost setting amount for assets where entities become subsidiary members of consolidated groups

Guide to Division 705

705-1 What this Division is about

When an entity becomes a subsidiary member of a consolidated group, the tax cost of its assets is set at a tax cost setting amount that is worked out in accordance with this Division.

Table of Subdivisions

- 705-A Basic case: a single entity joining an existing consolidated group
- 705-B Case of group formation
- 705-C Case where a consolidated group is acquired by another
- 705-D Where multiple entities are linked by membership interests
- 705-E Adjustments for errors etc.

Subdivision 705-A—Basic case: a single entity joining an existing consolidated group

Guide to Subdivision 705-A

705-5 What this Subdivision is about

When an entity becomes a subsidiary member of an existing consolidated group, the tax cost setting amount for its assets reflects the cost to the group of acquiring the entity.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Table of sections

Application and object

- 705-10 Application and object of this Subdivision
- 705-15 Cases where this Subdivision does not have effect

Tax cost setting amount for assets that joining entity brings into joined group

- 705-20 Tax cost setting amount worked out under this Subdivision
- 705-25 Tax cost setting amount for retained cost base assets
- 705-27 Reduction in tax cost setting amount that exceeds market value of certain retained cost base assets
- 705-30 What is the joining entity's terminating value for an asset?
- 705-35 Tax cost setting amount for reset cost base assets
- 705-40 Tax cost setting amount for reset cost base assets held on revenue account etc.
- 705-45 Reduction in tax cost setting amount for accelerated depreciation assets
- 705-47 Reduction in tax cost setting amount for some privatised assets
- 705-55 Order of application of sections 705-40, 705-45 and 705-47
- 705-56 Modification for tax cost setting in relation to finance leases
- 705-57 Adjustment to tax cost setting amount where loss of pre-CGT status of membership interests in joining entity
- 705-58 Assets and liabilities not set off against each other
- 705-59 Exception: treatment of linked assets and liabilities

How to work out the allocable cost amount

- 705-60 What is the joined group's *allocable cost amount* for the joining entity?
- 705-62 No double counting of amounts in allocable cost amount
- 705-65 Cost of membership interests in the joining entity—step 1 in working out allocable cost amount
- 705-70 Liabilities of the joining entity—step 2 in working out allocable cost amount
- 705-75 Liabilities of the joining entity—reductions for purposes of step 2 in working out allocable cost amount
- 705-80 Liabilities of the joining entity—reductions/increases for purposes of step 2 in working out allocable cost amount
- 705-85 Liabilities of the joining entity—increases for purposes of step 2 in working out allocable cost amount

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-10

- 705-90 Undistributed, taxed profits accruing to joined group before joining time—step 3 in working out allocable cost amount
- 705-93 If pre-joining time roll-over from foreign resident company or head company—step 3A in working out allocable cost amount
- 705-95 Pre-joining time distributions out of certain profits—step 4 in working out allocable cost amount
- 705-100 Losses accruing to joined group before joining time—step 5 in working out allocable cost amount
- 705-105 Continuity of holding membership interests—steps 3 to 5 in working out allocable cost amount
- 705-110 If joining entity transfers a loss to the head company—step 6 in working out allocable cost amount
- 705-115 If head company becomes entitled to certain deductions—step 7 in working out allocable cost amount

How to work out a pre-CGT factor for assets of joining entity

- 705-125 Pre-CGT proportion for joining entity

Application and object**705-10 Application and object of this Subdivision***Application*

- (1) This Subdivision has effect, subject to section 705-15, for the head company core purposes set out in subsection 701-1(2) if an entity (the **joining entity**) becomes a *subsidiary member of a *consolidated group (the **joined group**) at a particular time (the **joining time**).

Object

- (2) The object of this Subdivision is to recognise the *head company's cost of becoming the holder of the joining entity's assets as an amount reflecting the group's cost of acquiring the entity. That amount consists of the cost of the group's *membership interests in the joining entity, increased by the joining entity's liabilities and adjusted to take account of the joining entity's retained profits, distributions of profits, deductions and losses.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-15

- (3) The reason for recognising the *head company's cost in this way is to align the costs of assets with the costs of *membership interests, and to allow for the preservation of this alignment until the entity ceases to be a *subsidiary member, in order to:
- (a) prevent double taxation of gains and duplication of losses; and
 - (b) remove the need to adjust costs of membership interests in response to transactions that shift value between them, as the required adjustments occur automatically.

Note: Under Division 711, the alignment is preserved by recognising the head company's cost of membership interests in the entity if it ceases to be a subsidiary member of the group as the cost of its assets reduced by its liabilities.

705-15 Cases where this Subdivision does not have effect

This Subdivision does not have effect if any of the following exceptions applies:

- (a) the first exception is where the joining entity becomes a *member of the joined group because it is a member of that group at the time it comes into existence as a *consolidated group;

Note: See Subdivision 705-B for rules about the treatment of assets if entities become members in circumstances covered by this exception.

- (b) the second exception is where all of the members of another consolidated group become members of the joined group as a result of the *acquisition of *membership interests in the *head company of the joining group;

Note: See Subdivision 705-C for rules about the treatment of assets if entities become members in circumstances covered by this exception.

- (c) the third exception is where:

- (i) the joining entity and one or more other entities become members of the joined group at the same time as a result of an event that happens in relation to one of them; and
- (ii) the case is not covered by the second exception;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note: See Subdivision 705-D for rules about the treatment of assets if entities become members in circumstances covered by this exception.

Tax cost setting amount for assets that joining entity brings into joined group

705-20 Tax cost setting amount worked out under this Subdivision

If this Subdivision has effect, for the purposes of item 1 in the table in section 701-60 (Tax cost setting amount) the *tax cost setting amount for an asset whose *tax cost is set at the time the joining entity becomes a *subsidiary member of the joined group is worked out under this Subdivision.

705-25 Tax cost setting amount for retained cost base assets

- (1) This section states what the *tax cost setting amount is for a *retained cost base asset.

Australian currency

- (2) If the *retained cost base asset is covered by paragraph (a), (b) or (ba) of the definition of that expression and is not covered by another subsection of this section, its *tax cost setting amount is equal to the amount of the Australian currency concerned.

Qualifying securities

- (3) If the *retained cost base asset is a qualifying security (within the meaning of Division 16E of Part III of the *Income Tax Assessment Act 1936*), the *tax cost setting amount for the qualifying security is instead equal to the joining entity's *terminating value for the asset.

Entitlements to pre-paid services etc.

- (4) If the *retained cost base asset is covered by paragraph (c) of the definition of that expression, its *tax cost setting amount is equal to the amount of the deductions to which the *head company is

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-25

entitled under section 701-5 (the entry history rule) in respect of the expenditure that gave rise to the entitlement.

Note: If the total amount to be treated as tax cost setting amounts for retained cost base assets exceeds the joined group's allocable cost amount for the joining entity, the head company makes a capital gain equal to the excess: see CGT event L3.

Financial arrangements to which Subdivision 250-E applies

- (4A) The *tax cost setting amount is instead equal to the joining entity's *terminating value for the *retained cost base asset if the asset is a *financial arrangement to which Subdivision 250-E applies immediately before the joining time.

Rights to payments in respect of uncompleted work etc.

- (4B) If the *retained cost base asset is covered by paragraph (d) of the definition of that expression, its *tax cost setting amount is equal to the joining entity's *terminating value for the asset.

Retained cost base asset

- (5) A **retained cost base asset** is:
- (a) Australian currency, other than *trading stock or *collectables of the joining entity; or
 - (b) a right to receive a specified amount of such Australian currency, other than a right that is a marketable security within the meaning of section 70B of the *Income Tax Assessment Act 1936*; or
- Example: A debt or a bank deposit.
- (ba) a unit in a *cash management trust, if:
 - (i) the redemption value of the unit is expressed in Australian dollars; and
 - (ii) the redemption value of the unit cannot increase; or
 - (c) a right to have something done under an *arrangement under which:
 - (i) expenditure has been incurred in return for the doing of the thing; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-27

(ii) the thing is required or permitted to be done, or to cease being done, after the expenditure is incurred; or

(d) a *right to future income (other than a *WIP amount asset).

Note 1: There are some additional retained cost base assets for a joining entity that is a life insurance company: see Subdivision 713-L. The tax cost setting amount for those assets is worked out under that Subdivision.

Note 2: The joining entity's right to receive lease payments under a finance lease is treated as a retained cost base asset in some circumstances (see paragraph 705-56(3)(b)).

705-27 Reduction in tax cost setting amount that exceeds market value of certain retained cost base assets

(1) If:

- (a) a *retained cost base asset of the joining entity is a right to receive a specified amount of such Australian currency, covered by paragraph 705-25(5)(b); and
- (b) the *market value of the asset is less than the *tax cost setting amount of the asset; and
- (c) the head company makes a *capital gain under *CGT event L3 (disregarding this subsection) as a result of the joining entity becoming a *subsidiary member of the group;

reduce the tax cost setting amount of the asset by the amount of the gain (but not below zero).

Note: Reducing the tax cost setting amount of the asset will also reduce the amount of the capital gain (see paragraph 104-510(1)(b)). The amount of the capital gain might be reduced to nil.

(2) If:

- (a) the requirements in subsection 701-58(1) (intra-group assets) are satisfied in relation to the asset; and
- (b) the joining entity has been entitled to a deduction for an income year ending on or before the joining time because of the *market value of the asset being less than the specified amount mentioned in paragraph (1)(a); and
- (c) the accounting liability that corresponds to the asset has *not* been reduced under subsection 705-75(2);

reduce the amount of the reduction under subsection (1) by the amount of the deduction (but not below zero).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-30

- (3) If the *tax cost setting amount of 2 or more of the joining entity's assets could be reduced in accordance with subsections (1) and (2):
- (a) subsections (1) and (2) apply sequentially to each of those assets; and
 - (b) the *head company may choose the sequence of assets to which subsections (1) and (2) apply; and
 - (c) if the head company does not make such a choice—subsections (1) and (2) apply sequentially to each of those assets according to the time at which they were created, from earliest to latest.

Note: Once the amount of the capital gain is reduced to nil as a result of the application of subsections (1) and (2), no further reductions of tax cost setting amount can be made under those subsections.

- (4) A choice the *head company can make under paragraph (3)(b) must be made:
- (a) by the day the head company lodges its *income tax return for the income year in which the *CGT event happened; or
 - (b) within a further time allowed by the Commissioner.
- (5) The way the *head company prepares its *income tax return is sufficient evidence of the making of the choice.

705-30 What is the joining entity's *terminating value* for an asset?

Trading stock

- (1) If an asset of the joining entity is *trading stock, the joining entity's ***terminating value*** for the asset is:
- (a) if the asset was on hand at the start of the income year in which the joining time occurs (including because of the operation of Division 701)—its *value at that time; or
 - (b) if paragraph (a) does not apply and the asset is *livestock that was acquired by natural increase—the *cost of the asset; or
 - (c) in any other case—the amount of the outgoing incurred by the joining entity in connection with the acquisition of the asset;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

increased by the amount of any outgoing forming part of the cost of the asset that is incurred by the joining entity during its current holding of the asset.

Registered emissions units

- (1A) If an asset of the joining entity is a *registered emissions unit, the joining entity's **terminating value** for the unit is equal to:
- (a) if the unit was *held by the joining entity at the start of the income year—the *value of the unit at the start of the income year; or
 - (b) otherwise—the expenditure incurred by the joining entity in becoming the holder of the unit.

Qualifying securities

- (2) If an asset of the joining entity is a qualifying security (within the meaning of Division 16E of Part III of the *Income Tax Assessment Act 1936*) that is not *trading stock, the joining entity's **terminating value** for the asset is equal to the amount of consideration that the joining entity would need to receive, if it were to dispose of the asset just before the joining time, without an amount being assessable income of, or deductible to, the joining entity under section 159GS of the *Income Tax Assessment Act 1936*.

Depreciating assets

- (3) If an asset of the joining entity is a *depreciating asset to which Division 40 applies, the joining entity's **terminating value** for the asset is equal to the asset's *adjustable value just before the joining time.

Financial arrangements to which Subdivision 250-E applies

- (3A) If an asset of the joining entity is a *financial arrangement to which Subdivision 250-E applies, the joining entity's **terminating value** for the asset is equal to the amount of consideration that the joining entity would need to receive, if it were to dispose of the asset just before the joining time, without an amount being assessable

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-35

income of, or deductible to, the joining entity under Subdivision 250-E.

Division 230 financial arrangements

- (3B) If an asset of the joining entity is or is part of a *Division 230 financial arrangement, the joining entity's terminating value for the asset is equal to the amount of consideration that the joining entity would need to receive, if it were to dispose of the asset just before the joining time, without an amount being assessable income of, or deductible to, the joining entity under Division 230.

Other CGT assets

- (4) If an asset of the joining entity is a *CGT asset that is not covered by any of the above subsections, the joining entity's **terminating value** for the asset is equal to the asset's *cost base just before the joining time.

Other assets

- (5) The joining entity's **terminating value** for any other asset that it holds is the amount that would be the asset's *cost base just before the joining time if it were an asset covered by subsection (4).

705-35 Tax cost setting amount for reset cost base assets

- (1) For each asset of the joining entity (a **reset cost base asset**) that is not a *retained cost base asset, the asset's *tax cost setting amount is worked out by:
- (a) first working out the joined group's *allocable cost amount for the joining entity in accordance with section 705-60; and
 - (b) then reducing that amount by the total of the *tax cost setting amounts for each retained cost base asset (but not below zero); and
 - (c) finally, allocating the result to each of the joining entity's reset cost base assets in proportion to their *market values.

Note 1: For an asset consisting of an entitlement to receive an amount that will be included in assessable income, the market value of the asset would take into account the tax payable on the amount.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-40

Note 1A: If a set of linked assets and liabilities includes one or more reset cost base assets, section 705-59 may affect how this section applies. In particular, that section may exclude the application of paragraph 705-35(1)(b) to retained cost base assets in the set; this in turn may affect the application of CGT event L3.

Note 2: If there are no reset cost base assets, the result is instead treated as a capital loss of the head company: see CGT event L4.

Goodwill resulting from ownership and control of the joining entity

- (3) If, just after the joining time, the *head company has, because of its ownership and control of the joining entity, a goodwill asset associated with assets or businesses of the joined group:
- (a) for the head company core purposes, the asset's *tax cost is set at the joining time at its *tax cost setting amount; and
 - (b) for the purpose of doing so:
 - (i) the asset is taken to be an asset of the joining entity that becomes an asset of the head company because subsection 701-1(1) (the single entity rule) applies; and
 - (ii) it is taken to have a *market value just before the joining time of an amount equal to its market value just after the joining time.

705-40 Tax cost setting amount for reset cost base assets held on revenue account etc.

- (1) The *tax cost setting amount for a reset cost base asset that is *trading stock, a *depreciating asset, a *registered emissions unit or a *revenue asset must not exceed the greater of:
- (a) the asset's *market value; and
 - (b) the joining entity's *terminating value for the asset.
- (2) If subsection (1) *reduces* the asset's *tax cost setting amount, the amount of the reduction is allocated among the other reset cost base assets (including other *trading stock, *depreciating assets, *registered emissions units and *revenue assets), so as to *increase* their tax cost setting amounts, in accordance with the principles set out in subsection (3).

Note: If any of the amount of the reduction cannot be allocated, it is instead treated as a capital loss of the head company: see CGT event L8.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-45

- (3) These are the principles:
- (a) the allocation is to be in proportion to the *market values of the assets;
 - (b) the amount allocated to an item of *trading stock, to a *depreciating asset, to a *registered emissions unit or to a *revenue asset must not cause its *tax cost setting amount to contravene subsection (1);
 - (c) any of the amount that cannot be allocated is to be reallocated, to the maximum extent possible, among the remaining reset cost base assets by applying this subsection a further one or more times.

705-45 Reduction in tax cost setting amount for accelerated depreciation assets

If:

- (a) an asset of the joining entity is a *depreciating asset to which Division 40 applies; and
- (aa) just before the entity became a subsidiary member, subsection 40-10(3) or 40-12(3) of the *Income Tax (Transitional Provisions) Act 1997* applied for the purposes of the joining entity working out the asset's decline in value under Division 40; and

Note: The effect of those subsections was to preserve an entitlement to accelerated depreciation.

- (b) the asset's *tax cost setting amount would be greater than the joining entity's *terminating value for the asset; and
 - (c) the *head company chooses to apply this section to the asset;
- the asset's tax cost setting amount is reduced so that it equals the terminating value.

Note 1: A consequence of the choice is that accelerated depreciation will apply to the asset: see section 701-80.

Note 2: Unlike the position with a reduction in tax cost setting amount under section 705-40, the amount of the reduction is not re-allocated among other assets.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

705-47 Reduction in tax cost setting amount for some privatised assets*Object*

- (1) The object of this section is to limit appropriately the amount the *head company of the joined group can deduct for a *depreciating asset it starts to *hold because the joining entity becomes a *subsidiary member of the group, by reference to the direct or indirect effect of the following provisions on the amount the joining entity could deduct for the asset:
- (a) former section 61A of the *Income Tax Assessment Act 1936* (about depreciation deductions for tax-exempt entities that become taxable);
 - (b) former Subdivision 57-I, and Subdivision 57-J, in Schedule 2D to the *Income Tax Assessment Act 1936* (about depreciation and capital allowance deductions);
 - (c) Division 58 of this Act (as that Division applies to a transition time or acquisition time mentioned in that Division before, on or after 1 July 2001).

Reduction of tax cost setting amount

- (2) The *tax cost setting amount for a *depreciating asset is reduced to the joining entity's *terminating value for the asset if:
- (a) at a time before the joining entity became a *subsidiary member of the joined group, the asset was *held by an entity (whether the joining entity or another entity) that, at that time, was:
 - (i) an *exempt Australian government agency; or
 - (ii) another entity whose *ordinary income and *statutory income were exempt from income tax; and
 - (b) any of the following provisions directly or indirectly affected the amount the joining entity could deduct for the asset:
 - (i) former section 61A of the *Income Tax Assessment Act 1936* (about depreciation deductions for tax-exempt entities that become taxable);

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-47

- (ii) former Subdivision 57-I, and Subdivision 57-J, in Schedule 2D to the *Income Tax Assessment Act 1936* (about depreciation and *capital allowance deductions);
 - (iii) Division 58 of this Act (as that Division applies to a transition time or acquisition time mentioned in that Division before, on or after 1 July 2001); and
- (c) apart from this section, the tax cost setting amount for the asset would *exceed* the joining entity's terminating value for the asset.

Note 1: Unlike the position with a reduction in tax cost setting amount under section 705-40, the amount of the reduction is not re-allocated among other assets.

Note 2: Former section 61A of, or former Subdivision 57-I or Subdivision 57-J in Schedule 2D to, the *Income Tax Assessment Act 1936* or Division 58 of this Act may, for example, have *indirectly* affected the amount the joining entity could deduct for the asset because:

- (a) that section, Subdivision or Division affected the amount that could be deducted by an entity that held the asset before the joining entity and that effect extended to the joining entity because of a previous application of this subsection, roll-over relief or section 701-40 (the exit history rule); or
- (b) this subsection affected the amount the joining entity could deduct for the asset (either directly or because of section 701-40).

Note 3: Subsection (2) has effect even if, just before the joining time, the joining entity was:

- (a) an exempt Australian government agency; or
- (b) another entity whose ordinary income and statutory income were exempt from income tax.

This is because section 715-900 causes Division 58 to apply as if, just before the joining time, the joining entity's ordinary income or statutory income had become assessable income to some extent.

Exception to reduction of tax cost setting amount

- (3) Subsection (2) does not apply if:
- (a) just before the joining time, the joining entity was neither an *exempt Australian government agency nor another entity whose *ordinary income and *statutory income were exempt from income tax; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) a condition in subsection (4) or (5) is met in relation to the period (the *pre-joining taxable period*) between the last time for which the condition in paragraph (2)(a) is met and the joining time.
- (4) One condition for subsection (2) not to apply is that an amount was included in an entity's assessable income, or an entity could deduct an amount, because of a *balancing adjustment event that occurred for the asset during the pre-joining taxable period.
- (5) Another condition for subsection (2) not to apply is that:
 - (a) for at least some of the pre-joining taxable period, the asset was *held by the *head company of a *consolidated group (the *earlier group*) for the period (the *earlier group period*):
 - (i) starting when (and because) an entity that had previously held the asset became a *subsidiary member of the earlier group or when the asset started to be held by that company because of an asset sale situation described in subsection 58-5(4) involving a *member of the earlier group as the purchaser mentioned in that subsection; and
 - (ii) ending when (and because) an entity ceased to be a subsidiary member of the earlier group or when the earlier group ceased to exist; and
 - (b) the company that was the head company of the earlier group just before the end of the earlier group period was *not*:
 - (i) an *associate of the head company of the joined group just before the joining time; or
 - (ii) the same company as the head company of the joined group; and
 - (c) the earlier group period was at least 24 months.

705-55 Order of application of sections 705-40, 705-45 and 705-47

If more than one of sections 705-40, 705-45 and 705-50 apply:

- (a) the *head company may choose the order in which the sections are to apply; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-56

(b) if it does not, the order is as follows:

- (i) first, section 705-40;
- (ii) second, section 705-45;
- (iii) third, section 705-47.

705-56 Modification for tax cost setting in relation to finance leases

(1) This section applies if, just before the joining time:

- (a) the joining entity is the lessor or lessee under a lease of a *depreciating asset (the *underlying asset*) to which Division 40 applies; and
- (b) the joining entity classifies the lease, in accordance with its *accounting principles for tax cost setting, as a finance lease.

Joining entity is lessor

(2) If the joining entity is the lessor under the lease and *holds the underlying asset just before the joining time, subsection (5) applies, in relation to the joining entity, to the asset that is the joining entity's right to receive lease payments.

Note: In this situation, the underlying asset will have its tax cost set at the joining time because it would be an asset of the joining entity at that time if the single entity rule did not apply (see section 701-10).

(3) If the joining entity is the lessor under the lease and does *not* *hold the underlying asset just before the joining time:

- (a) subsection (5) applies to the underlying asset in relation to the joining entity; and
- (b) for the purposes of this Division:
 - (i) the joining entity's right to receive lease payments is taken to be a *retained cost base asset; and
 - (ii) the *tax cost setting amount of that retained cost base asset is taken to be equal to its *market value just before the joining time.

Note: In this situation, the asset that is the joining entity's right to receive lease payments will have its tax cost set at the joining time because it would be an asset of the joining entity at that time if the single entity rule did not apply (see section 701-10).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Joining entity is lessee

- (4) If the joining entity is the lessee under the lease and does *not* *hold the underlying asset just before the joining time:
- (a) subsection (5) applies to the underlying asset in relation to the joining entity; and
 - (b) the liability that is the lessee's obligation to make lease payments is *not* taken into account under subsection 705-70(1).

Note: If the joining entity is the lessee under the lease and holds the underlying asset just before the joining time:

- (a) the underlying asset will have its tax cost set at the joining time because it would be an asset of the joining entity at that time if the single entity rule did not apply (see section 701-10); and
- (b) the liability that is the lessee's obligation to make lease payments is taken into account under subsection 705-70(1).

Tax cost of certain assets set at nil

- (5) If this subsection applies to an asset, in relation to the joining entity:
- (a) the asset is *not* taken into account under paragraph 705-35(1)(b) or (c); and
 - (b) the asset's *tax cost setting amount is taken to be nil.

705-57 Adjustment to tax cost setting amount where loss of pre-CGT status of membership interests in joining entity

Object

- (1) The object of this section is to ensure that provisions that cause *membership interests in the joining entity to stop being *pre-CGT assets, with a resultant increase in their *cost base and *reduced cost base, do not increase *tax cost setting amounts for *trading stock, *depreciating assets, *registered emissions units or *revenue assets of the joining entity, where those amounts are above the joining entity's *terminating values for the assets.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-57

When section applies

- (2) This section applies if:
- (a) a *membership interest that a *member of the joined group holds in the joining entity at the joining time had previously stopped being a *pre-CGT asset in the circumstances covered by any of subsections (3) to (5); and
 - (b) the *cost base or *reduced cost base of the membership interest just after it stopped being a pre-CGT asset exceeded (the excess being the ***loss of pre-CGT status adjustment amount***) its cost base or reduced cost base just before it stopped being a pre-CGT asset; and
 - (c) an asset (a ***revenue etc. asset***) that is *trading stock, a *depreciating asset, a *registered emissions unit or a *revenue asset becomes that of the *head company of the joined group because subsection 701-1(1) (the single entity rule) applies when the joining entity becomes a *subsidiary member of the group; and
 - (d) the revenue etc. asset's *tax cost setting amount (after any application of section 705-40, 705-45 or 705-47) exceeds the joining entity's *terminating value for the asset.

Loss of pre-CGT status because Division 149 etc. applied while interest held by member

- (3) The first circumstance for the purpose of paragraph (2)(a) is where Division 149 of this Act, former subsection 160ZZS(1) of the *Income Tax Assessment Act 1936* or Subdivision C of Division 20 of former Part IIIA of that Act applied to cause the *membership interest to stop being a *pre-CGT asset while the *member held the membership interest.

Loss of pre-CGT status because Division 149 etc. applied before current holding by member

- (4) The second circumstance for the purpose of paragraph (2)(a) is where:
- (a) either:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (i) the *member *acquired the *membership interest directly from another entity; or
 - (ii) the member acquired the membership interest indirectly from another entity or from itself as a result of 2 or more acquisitions; and
- (b) Division 149 of this Act, former subsection 160ZZS(1) of the *Income Tax Assessment Act 1936* or Subdivision C of Division 20 of former Part IIIA of that Act applied to cause the membership interest to stop being a *pre-CGT asset while the other entity held the membership interest or while the member held the membership interest on the previous occasion; and
- (c) if subparagraph (a)(i) applies—at the time of the acquisition, the member *controlled (for value shifting purposes) the other entity, or vice versa, or a third entity controlled (for value shifting purposes) the member and the other entity; and
- (d) if subparagraph (a)(ii) applies—the same entity:
- (i) was a party to each acquisition and at the time of the acquisition controlled (for value shifting purposes) the other party; or
 - (ii) was a party to each acquisition and at the time of the acquisition was controlled (for value shifting purposes) by the other party; or
 - (iii) was not a party to each acquisition but, at the time of the acquisition, controlled (for value shifting purposes) the parties to the acquisition;
- or any combination of subparagraphs (i) to (iii) occurred in relation to different acquisitions.

Loss of pre-CGT status because of acquisition from another entity

- (5) The third circumstance for the purpose of paragraph (2)(a) is where:
- (a) either:
 - (i) the *member acquired the *membership interest after 16 May 2002 directly from another entity; or
 - (ii) the member acquired the membership interest indirectly from another entity or from itself as a result of 2 or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-57

more acquisitions, all of which took place after 16 May 2002; and

- (b) the membership interest stopped being a *pre-CGT asset because of the acquisition from the other entity or from the member while the member held the membership interest on a previous occasion; and
- (c) if subparagraph (a)(i) applies—at the time of the acquisition, the member *controlled (for value shifting purposes) the other entity, or vice versa, or a third entity controlled (for value shifting purposes) the member and the other entity; and
- (d) if subparagraph (a)(ii) applies—the same entity:
 - (i) was a party to each acquisition and at the time of the acquisition controlled (for value shifting purposes) the other parties; or
 - (ii) was a party to each acquisition and at the time of the acquisition was controlled (for value shifting purposes) by the other party; or
 - (iii) was not a party to each acquisition but, at the time of the acquisition, controlled (for value shifting purposes) the parties to the acquisition;or any combination of subparagraphs (i) to (iii) occurred in relation to different acquisitions.

Reduction in revenue etc. asset's tax cost setting amount

- (6) The revenue etc. asset's *tax cost setting amount (after any application of section 705-40, 705-45 or 705-47) is instead the amount that would apply if, in working out the step 1 amount in the table in section 705-60, the *cost base and *reduced cost base of the *membership interest were reduced by the sum of the loss of pre-CGT status adjustment amounts for the membership interest and all other membership interests that have loss of pre-CGT status adjustment amounts.

Limit on reduction

- (7) However, the reduction only takes place to the extent that it does not result in the asset's *tax cost setting amount being less than the joining entity's *terminating value for the asset.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-58

Note: The reduction under this section is converted into a capital loss available over a period of 5 income years starting with the income year in which the joining time occurs: see CGT event L1.

705-58 Assets and liabilities not set off against each other

- (1) This Part applies separately to each asset and liability even if, in accordance with *accounting principles, they are required to be set off against each other.
- (2) This section has effect subject to section 705-59.

705-59 Exception: treatment of linked assets and liabilities

- (1) This section applies to each set of *linked assets and liabilities that the joining entity has immediately before the joining time.
- (2) One or more assets, and one or more liabilities, that an entity has constitute a set of ***linked assets and liabilities*** of the entity if, and only if, in accordance with the entity's *accounting principles for tax cost setting:
 - (a) the total of the one or more assets is to be set off against the total of the one or more liabilities in preparing statements of the entity's financial position; and
 - (b) the net amount after the set-off is to be recognised in those statements.
- (3) If the set consists only of one reset cost base asset for the purposes of section 705-35, and one or more liabilities:
 - (a) first, work out the total (the ***available amount***) that, apart from this section and the accounting requirement referred to in subsection (2) of this section, would be taken into account under subsection 705-70(1) (about step 2 in working out the allocable cost amount) for the one or more liabilities; and
 - (b) next, work out the consequences under this table.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-90 Consolidated groups

Division 705 Tax cost setting amount for assets where entities become subsidiary members of consolidated groups

Section 705-59

Treatment of linked assets and liabilities: single reset cost base asset case			
Item	If the asset's *market value at the joining time:	This is the result for the asset:	This is the result for the one or more liabilities:
1	is less than or equal to the available amount	its *tax cost setting amount is that market value (and the asset is <i>not</i> taken into account under paragraph 705-35(1)(c))	only the difference (if any) is taken into account under subsection 705-70(1) for the one or more liabilities
2	is greater than the available amount	its *tax cost setting amount is: (a) the available amount; plus (b) the amount worked out for the asset under section 705-35 on the basis that the asset's *market value is reduced by the available amount	the one or more liabilities are <i>not</i> taken into account under subsection 705-70(1)

Note: Paragraph 705-35(1)(c) allocates the allocable cost amount (as reduced by the tax cost setting amounts of retained cost base assets) among the joining entity's reset cost base assets.

- (4) If the set consists only of one or more *retained cost base assets and one or more liabilities, this section does not affect their treatment.

Note: This is because the tax cost setting amount for a retained cost base asset is worked out without regard to the allocable cost amount.

- (5) In any other case:
- (a) first, work out the available amount under paragraph (3)(a); and
 - (b) next, work out the consequences under this table.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Treatment of linked assets and liabilities: all other cases

Item	In this case:	This is the result for the one or more assets in the set:	This is the result for the one or more liabilities in the set:
1	there is no *retained cost base asset in the set, and the total of the respective *market values (at the joining time) of the assets in the set is less than or equal to the available amount	the *tax cost setting amount of each of the assets is that asset's market value at the joining time (and <i>none</i> of them is taken into account under paragraph 705-35(1)(c))	only the difference (if any) is taken into account under subsection 705-70(1)
2	there is no *retained cost base asset in the set, and the total of the respective *market values (at the joining time) of the assets in the set is greater than the available amount	the *tax cost setting amount of each of the assets is the sum of: (a) a share of the available amount that is proportionate to that asset's market value at the joining time; and (b) the amount worked out for the asset under section 705-35 on the basis that the asset's market value at the joining time is reduced by the share referred to in paragraph (a)	<i>none</i> is taken into account under subsection 705-70(1)
3	there are one or more *retained cost base assets in the set, and the total of their respective *tax cost setting amounts is greater than or equal to the available amount	this section does not affect the treatment of the one or more assets in the set	this section does not affect the treatment of the one or more liabilities in the set

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-90 Consolidated groups

Division 705 Tax cost setting amount for assets where entities become subsidiary members of consolidated groups

Section 705-59

Treatment of linked assets and liabilities: all other cases			
Item	In this case:	This is the result for the one or more assets in the set:	This is the result for the one or more liabilities in the set:
4	there are one or more *retained cost base assets in the set, and the total (the <i>retained cost base total</i>) of their respective *tax cost setting amounts is less than the available amount	the one or more retained cost base assets are <i>not</i> taken into account under paragraph 705-35(1)(b); the *tax cost setting amount of each remaining asset in the set is worked out by applying item 1 or 2, as appropriate, of this table on the basis that: (a) the available amount is reduced by the retained cost base total; and (b) the one or more retained cost base assets are otherwise ignored	the available amount is reduced by the retained cost base total
<p>Note 1: Paragraph 705-35(1)(b) reduces the allocable cost amount by the tax cost setting amounts of retained cost base assets. Item 4 of the table in this subsection excludes the application of paragraph 705-35(1)(b) to retained cost base assets in the set; this in turn may affect the application of CGT event L3.</p> <p>Note 2: Paragraph 705-35(1)(c) then allocates the reduced allocable cost amount among the joining entity's reset cost base assets.</p> <p>(6) In applying subsections (3), (4) and (5) of this section, disregard an asset covered by subsection 705-35(2) (assets that do not have a tax cost setting amount).</p> <p>(7) This section does not affect the application of sections 705-40, 705-45 and 705-47 (which adjust the tax cost setting amount for a reset cost base asset).</p>			

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

How to work out the allocable cost amount

705-60 What is the joined group's *allocable cost amount* for the joining entity?

Work out the joined group's *allocable cost amount* for the joining entity in this way:

Working out the joined group's allocable cost amount for the joining entity		
Step	What the step requires	Purpose of the step
1	Start with the step 1 amount worked out under section 705-65, which is about the cost of *membership interests in the joining entity held by *members of the joined group	To ensure that the allocable cost amount includes the cost of *acquiring the membership interests
2	Add to the result of step 1 the step 2 amount worked out under section 705-70, which is about the value of the joining entity's liabilities	To ensure that the joining entity's liabilities at the joining time, which are part of the joined group's cost of acquiring the joining entity, are reflected in the allocable cost amount
3	Add to the result of step 2 the step 3 amount worked out under: (a) section 705-90, which is about undistributed, taxed profits accruing to the joined group before the joining time; or (b) if the joining entity is a trust (and not a *corporate tax entity)—section 713-25, which is about undistributed, realised profits accruing to the joined group before the joining time that could be distributed tax free	To increase the allocable cost amount: (a) to reflect the undistributed, taxed profits and so prevent double taxation; or (b) if the joining entity is a trust—to reflect the undistributed, realised profits that could be distributed tax free

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules**Part 3-90** Consolidated groups**Division 705** Tax cost setting amount for assets where entities become subsidiary members of consolidated groups

Section 705-60

Working out the joined group's allocable cost amount for the joining entity		
Step	What the step requires	Purpose of the step
3A	For each step 3A amount (if any) under section 705-93 (which is about pre-joining time roll-overs): (a) if the step 3A amount is a *deferred roll-over loss—add to the result of step 3 (as affected by any previous application of this step) the step 3A amount; or (b) if the step 3A amount is a *deferred roll-over gain—subtract from the result of step 3 (as affected by any previous application of this step) the step 3A amount	To adjust for certain roll-overs before the joining time affecting deferred gains and losses
4	Subtract from the result of step 3A the step 4 amount worked out under section 705-95, which is about pre-joining time distributions out of certain profits	To prevent the allocable cost amount reflecting return of part of the amount paid to *acquire the *membership interests in the joining entity
5	Subtract from the result of step 4 the step 5 amount worked out under section 705-100, which is about certain losses accruing to the joined group before the joining time	To prevent: (a) a double benefit arising from the losses; and (b) losses that cannot be transferred to the *head company, or are cancelled by the head company, under Subdivision 707-A being reinstated in an unrealised form or reducing unrealised gains.
6	Subtract from the result of step 5 the step 6 amount worked out under section 705-110, which is about losses that the joining entity transferred to the *head company under Subdivision 707-A	To stop the joined group getting benefits both through higher *tax cost setting amounts for the joining entity's assets and through losses transferred to the head company

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-62

Working out the joined group's allocable cost amount for the joining entity

Step	What the step requires	Purpose of the step
7	Subtract from the result of step 6 the step 7 amount worked out under section 705-115, which is about certain deductions to which the *head company is entitled	To stop the joined group getting benefits both through the *tax cost of the joining entity's assets being set and through certain tax deductions of the joining entity being inherited by the head company
8	If the remaining amount is positive, it is the joined group's allocable cost amount. Otherwise the joined group's allocable cost amount is nil.	

Note: The head company may be taken to have made a capital gain, depending on the amount remaining after applying step 3A: see CGT event L2.

705-62 No double counting of amounts in allocable cost amount

- (1) The object of this section is to prevent a particular amount from being taken into account more than once in calculating the *allocable cost amount for the joining entity, in order to promote the object of this Subdivision set out in section 705-10.
- (2) Subsection (3) applies if, apart from this section, 2 or more provisions of this Act operate with the result of altering:
 - (a) the *allocable cost amount for the joining entity; or
 - (b) the allocable cost amount for another entity that becomes a *subsidiary member of the group at the joining time;
 because of a particular economic attribute of the joining entity (see subsection (6)).
- (3) Only one of those alterations is to be made, as follows:
 - (a) if the *head company of the group makes a choice in accordance with subsections (4) and (5)—the alteration specified in the choice is to be made;
 - (b) otherwise—the alteration that is most appropriate (in the light of the object of this Subdivision) is to be made.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-65

- (4) A choice mentioned in paragraph (3)(a) must be made:
 - (a) by the day the *head company of the group lodges its *income tax return for the income year in which the joining time occurs; or
 - (b) within a further time allowed by the Commissioner.
- (5) A choice mentioned in paragraph (3)(a) must be made in writing.
- (6) The *economic attributes* of the joining entity mentioned in subsection (2) include the following:
 - (a) the joining entity's retained profits;
 - (b) the joining entity's distributions of profits to other entities;
 - (c) the joining entity's realised and unrealised losses;
 - (d) the joining entity's deductions;
 - (e) the joining entity's accounting liabilities (within the meaning of subsection 705-70(1));
 - (f) consideration received by the joining entity for issuing *membership interests in itself.

705-65 Cost of membership interests in the joining entity—step 1 in working out allocable cost amount

- (1) For the purposes of step 1 in the table in section 705-60, the step 1 amount is the sum of the following amounts for each *membership interest that *members of the joined group hold in the joining entity at the joining time:

Note: If the joining entity is a trust, the step 1 amount may be increased by section 713-20 for settled capital that could be distributed tax free in respect of discretionary interests in the trust.

Working out the step 1 amount		
Item	If the market value of the membership interest is...	The amount is...
1	equal to or greater than its *cost base	its cost base
2	less than its *cost base but greater than its *reduced cost base	its *market value

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-65

Working out the step 1 amount

Item	If the market value of the membership interest is...	The amount is...
3	less than or equal to its *reduced cost base	its reduced cost base

Note: Under section 716-855, if membership interests are pre-CGT assets that have been subject to certain roll-overs, the cost base and reduced cost base are worked out in the same way as if they were post-CGT assets.

No indexation of cost base of pre-CGT membership interests

- (2) If the *membership interest is a *pre-CGT asset, in working out its *cost base for the purposes of subsection (1) no element is indexed.

Adjustment if value shifting or loss transfer provision could apply

- (3) If, on the assumption that a *CGT event had happened just before the joining time in relation to the *membership interest, the *cost base or the *reduced cost base of the membership interest would have been changed by a provision of this Act, then the cost base or reduced cost base of the membership interest that is to be used in subsection (1) of this section is instead:
- (a) the cost base as it would have been so changed; or
 - (b) the reduced cost base, as it would have been so changed, but ignoring the amount of any reduction resulting from the application of former subsection 160ZK(5) of the *Income Tax Assessment Act 1936*.

Note: For example, a change in the cost base or reduced cost base may be required under provisions that apply where a loss transfer or value shift involving the joining entity has occurred.

- (3AA) If, on the assumption that:

- (a) the *members of the joined group had, just before the joining time, *disposed of their *membership interest in the joining entity; and
- (b) the consideration received by the members for the disposal were equal to the *market value of the membership interest at that time;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-65

they would have made a *capital loss that section 727-615 would have reduced (because of an indirect value shift), then the *reduced cost base of the membership interest that is to be used in subsection (1) of this section is reduced by the amount of that reduction.

Reduction if section 165-115ZD could apply

(3A) If, on the assumption that:

- (a) the *members of the joined group had, just before the joining time, *disposed of their *membership interest in the joining entity; and
- (b) the consideration received by the members for the disposal were equal to the *market value of the membership interest at that time;

the *reduced cost base of the membership interest would have been reduced as a result of the operation of section 165-115ZD of this Act or the *Income Tax (Transitional Provisions) Act 1997*, then the reduced cost base of the membership interest that is to be used in subsection (1) of this section is reduced by the amount of that reduction.

Certain provisions not to apply after joining time

- (4) Also, if a provision mentioned in subsection (3), (3AA) or (3A) would, because of events that happened before the joining time, apply to a *CGT event or a *realisation event that happens after the joining time in relation to the *members' *membership interests in the joining entity, the provision does not so apply.

Reduction in cost base under subsection 110-55(7) to be added back

- (5) If, in working out the *reduced cost base of the *membership interest for the purposes of subsection (1), a reduction has taken place under subsection 110-55(7) (about certain distributions of pre-acquisition profits), the reduced cost base is increased by the amount of that reduction.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-65

Reduction in reduced cost base under subsection 165-115ZA(3) to be added back

(5A) If:

- (a) in working out the *reduced cost base of the *membership interest for the purposes of subsection (1), a reduction has taken place under subsection 165-115ZA(3) (about alterations in ownership or control of loss companies); and
- (b) the reduction is to some extent attributable to so much of an amount that was taken into account both in working out the amount of the reduction and in working out:
 - (i) the step 5 amount under section 705-100; or
 - (ii) the step 6 amount under section 705-110;

the reduced cost base is, to the extent mentioned in paragraph (b), increased by:

- (c) if subparagraph (b)(i) applies—the amount of that reduction; or
- (d) if subparagraph (b)(ii) applies—the amount of that reduction multiplied by the *corporate tax rate.

(5B) For the purposes of working out the *cost base or *reduced cost base of a *membership interest under subsection (1), if:

- (a) either or both of the following things happen after the joining time:
 - (i) money is paid, or becomes required to be paid, in respect of *acquiring the membership interest;
 - (ii) property is given, or becomes required to be given, in respect of acquiring the membership interest; and
- (b) because the thing happened after the joining time, it was not taken into account in working out the first element of the cost base or reduced cost base of the membership interest;

Note: This would be the case if the money was only to be paid etc. if a contingency happened after the joining time.

the thing is nevertheless so taken into account, and taken always to have been so taken into account.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-70

Non-membership equity interests

- (6) For the purposes of this section, if at the joining time a *member of the joined group holds a *non-membership equity interest in the joining entity, that non-membership equity interest is treated as if it were a *membership interest in the joining entity.

705-70 Liabilities of the joining entity—step 2 in working out allocable cost amount

- (1) For the purposes of step 2 in the table in section 705-60, the step 2 amount is worked out by adding up the amounts of each thing (an *accounting liability*) that, in accordance with the joining entity's *accounting principles for tax cost setting, is a liability of the joining entity at the joining time.

Note: Certain liabilities of a life insurance company are worked out under Subdivision 713-L: see section 713-520.

Where liability valued differently for joined group

- (1A) However, if, in accordance with the *accounting principles, the amount of an accounting liability of the joining entity would be different when it became an accounting liability of the joined group, the different amount is treated as the amount of the liability.

Note: Liabilities that the joining entity owes to members of the joined group would not be excluded under subsection (1) or (1A) even though the standards or statements require that they be eliminated in consolidated accounts of a parent entity and its subsidiaries.

Exclusion where transfer of accounting liability

- (2) An amount is not to be added for an accounting liability that arises because of the joining entity's ownership of an asset if, on *disposal of the asset, the accounting liability will transfer to the new owner.

Example: A liability to rehabilitate a mine site, where, under legislation or a licence, the liability will be transferred to the new owner on disposal of the mine.

Note: Adjustments reducing or increasing the amount under this section are made by sections 705-75 to 705-85.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Joining entity's accounting principles for tax cost setting

- (3) The joining entity's ***accounting principles for tax cost setting*** are the *accounting principles that the entity would use if it were to prepare its financial statements just before the joining time.

705-75 Liabilities of the joining entity—reductions for purposes of step 2 in working out allocable cost amount

Reduction for future deduction

- (1) If some or all of an accounting liability will result in a deduction to the *head company, the amount to be added for the accounting liability under subsection 705-70(1) is reduced by the following amount:

$$\left[\text{Deduction} \times \begin{matrix} * \text{Corporate} \\ \text{tax rate} \end{matrix} \right] - \begin{matrix} \text{Double-counting} \\ \text{adjustment} \end{matrix}$$

where:

double-counting adjustment means the amount of any reduction that has already occurred in the accounting liability under subsection 705-70(1) to take account of the future availability of the deduction.

Reduction for intra-group liabilities

- (2) If the amount of an accounting liability of the joining entity that is owed to a *member of the joined group is more than the amount applicable under the following table, the amount to be added for the accounting liability under subsection 705-70(1) instead equals the amount applicable under the table.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-90 Consolidated groups

Division 705 Tax cost setting amount for assets where entities become subsidiary members of consolidated groups

Section 705-75

Amount applicable		
Item	If the market value of the member's asset constituted by the accounting liability is...	The amount applicable is...
1	equal to or greater than the asset's *cost base	the asset's cost base
2	less than the asset's *cost base but greater than its *reduced cost base	the asset's *market value
3	less than or equal to the asset's *reduced cost base	the asset's reduced cost base

Application of subsections 705-65(2), (3), (3AA) and (3A)

- (3) Subsections 705-65(2), (3), (3AA) and (3A) apply in relation to references in subsection (2) of this section to an asset's *cost base or *reduced cost base in a corresponding way to that in which they apply in relation to references in the table in subsection 705-65(1) to a *membership interest's cost base or reduced cost base.

Application of subsection 705-65(4)

- (4) Subsection 705-65(4) applies in relation to assets mentioned in subsection (2) of this section in a corresponding way to that in which it applies in relation to members' *membership interests.

Reduction in reduced cost base under subsection 165-115ZA(3) to be added back

- (5) If:
- (a) in working out the *reduced cost base of a *member's asset for the purposes of subsection (2), a reduction has taken place under subsection 165-115ZA(3) (about alterations in ownership or control of loss companies); and
 - (b) the reduction is to some extent attributable to so much of an amount that was taken into account both in working out the amount of the reduction and in working out:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (i) the step 5 amount under section 705-100; or
 - (ii) the step 6 amount under section 705-110;
- the reduced cost base is, to the extent mentioned in paragraph (b), increased by:
- (c) if subparagraph (b)(i) applies—the amount of that reduction; or
 - (d) if subparagraph (b)(ii) applies—the amount of that reduction multiplied by the *corporate tax rate.

705-80 Liabilities of the joining entity—reductions/increases for purposes of step 2 in working out allocable cost amount

Adjustment for unrealised gains and losses

(1) If:

- (a) for income tax purposes, an accounting liability, or a change in the amount of an accounting liability, (other than one owed to a *member of the joined group) is taken into account at a later time than is the case in accordance with the joining entity's *accounting principles for tax cost setting; and

Example: Accrued employee leave entitlements or foreign exchange gains and losses.

- (b) assuming that, for income tax purposes the accounting liability or change were taken into account at the same time as is the case in accordance with those standards or statements, the joined group's allocable cost amount would be different;

Note: The difference would arise because subsection 705-70(1) includes income tax liabilities and steps 3 and 5 of the table in section 705-60 are affected by the time at which changes in liabilities are taken into account for income tax purposes.

then the amount to be added under subsection 705-70(1) for the accounting liability is:

- (c) if the difference is an increase—increased by the amount of the increase; and
- (d) if the difference is a decrease—decreased by the amount of the decrease.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-85

Use of reliable estimate

- (2) In working out for the purposes of subsection (1) an amount at a particular time or in respect of a particular period, use the most reliable basis for estimation that is available.

Example: The amount of a change in liability for employee leave entitlements over a period.

705-85 Liabilities of the joining entity—increases for purposes of step 2 in working out allocable cost amount

Increase in step 2 amount for employee share interests

- (1) If any *membership interest (an **employee share interest**) in the joining entity needed to be disregarded under section 703-35 in order for the joining entity to be a *wholly-owned subsidiary of the *head company at the joining time, the step 2 amount worked out under section 705-70 is increased by the sum of the *market values of those interests, reduced in each case by the reduction amount (if any) worked out under subsection (2) of this section.

Reduction amount

- (2) There is a **reduction amount** if the *market value of the employee share interest at the time it was *acquired by the employee is more than the consideration paid or given for its acquisition. The reduction amount is worked out by multiplying the market value of the employee share interest at that time by the factor worked out using the formula:

$$\frac{\text{Market value of head company's membership interests}}{\text{Market value of all membership interests}} \times \frac{\left[\begin{array}{l} \text{*Market value of} \\ \text{employee share} \\ \text{interest at time} \\ \text{of *acquisition} \end{array} \right] - \left[\begin{array}{l} \text{Consideration} \\ \text{paid or given} \\ \text{for acquisition} \\ \text{of employee} \\ \text{share interest} \end{array} \right]}{\text{Market value of employee share interest at time of acquisition}}$$

where:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-85

market value of all membership interests means the *market value of all *membership interests in the joining entity just before the employee share interest was *acquired.

market value of head company's membership interests means the *market value, just before the employee share interest was *acquired, of any *membership interests that the *head company held, directly or indirectly in the joining entity, continuously from that time until the joining time.

Increase to cover certain non-membership equity interests and certain equity interests

- (3) The step 2 amount worked out under section 705-70 is increased by:
- (a) the amount that would be the balance of the joining entity's *non-share capital account, assuming that:
 - (i) if the joining entity is not a company—the joining entity were a company; and
 - (ii) each *non-membership equity interest (if any) in the joining entity held at the joining time by a person other than a *member of the joined group were a *non-share equity interest in the joining entity; and
 - (iii) the non-share equity interests (if any) mentioned in subparagraph (ii) were the only non-share equity interests in the joining entity; and
 - (b) the *market value of each thing that, in accordance with the joining entity's *accounting principles for tax cost setting, is equity in the joining entity at the joining time, where the thing is also a *debt interest.

Increase to cover ADI restructure preference share interests

- (4) If any *share in the joining entity needed to be disregarded under section 703-37 in order for the joining entity to be a *wholly-owned subsidiary of the *head company at the joining time, the step 2 amount worked out under section 705-70 is increased by the sum of the *market values of those shares.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-90

705-90 Undistributed, taxed profits accruing to joined group before joining time—step 3 in working out allocable cost amount

- (1) For the purposes of step 3 in the table in section 705-60, the step 3 amount is worked out in accordance with this section unless the joining entity is a trust that is *not* a *corporate tax entity at the joining time.

Note: If the joining entity is such a trust, the step 3 amount is instead worked out in accordance with section 713-25.

Undistributed profits

- (2) First work out the undistributed profits of the joining entity at the joining time. These are the amounts that, in accordance with the joining entity's *accounting principles for tax cost setting, are retained profits of the joining entity.
- (2A) However, if a loss that did not accrue to the joined group before the joining time (subsection (8) states what it means for a loss to accrue to the joined group before the joining time) would be taken into account in working out the undistributed profits, the loss is not so taken into account.

Extent to which tax paid on undistributed profits

- (3) Then work out how much of the undistributed profits does not exceed the amount worked out using the following formula as at the joining time:

$$\frac{\text{Balance of *franking account (worked out on assumptions in subsection (4))}}{\text{*Corporate tax rate}} \times \frac{1 - \text{*corporate tax rate}}{\text{*Corporate tax rate}}$$

Assumptions for purposes of subsection (3)

- (4) The assumptions are that the joining entity's franking account balance at the end of the income year that ends, or, if section 701-30 applies, of the income year that is taken by subsection (3) of that section to end, at the joining time had been adjusted to take account of franking credits or franking debits that would arise if the following were paid just before the joining time:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-90

- (a) the income tax, or refund of income tax, on the joining entity's taxable income for that income year; and
- (b) any income tax, or refund of income tax, that has not yet been paid (regardless of whether it has become payable or due for payment) on the joining entity's taxable income for any earlier income year, other than one excluded by subsection (5).

Exclusion of certain income years where previous membership of a consolidated group

- (5) If the joining entity was previously a *subsidiary member of a *consolidated group, any income year earlier than the one that started, or, if section 701-30 applies, the one that is taken by subsection (3) of that section to have started, when the joining entity ceased to be a subsidiary member of that group is excluded for the purposes of paragraph (4)(b) of this section.

Undistributed profits must have accrued to joined group

- (6) Next, work out the extent to which the undistributed profits that satisfy the requirements of subsection (3) accrued to the joined group before the joining time (subsection (7) states what it means for a profit to accrue to the joined group before the joining time). The result is the step 3 amount.

Profit accruing to the joined group before the joining time

- (7) A profit accrued to the joined group before the joining time if, on the following assumptions:
 - (a) that it was distributed to holders of *membership interests as it accrued; and
 - (b) that entities interposed between the *head company and the joining entity successively distributed any of it immediately after receiving it;

it would have been received by the entity that is the head company at the joining time, in respect of membership interests that it held continuously until that time either directly or indirectly through interposed entities.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-90

Note: If an entity interposed between the head company and the joining entity is a non-fixed trust, this subsection may involve determining how a power of appointment would have been exercised. Section 713-50 lists matters to have regard to in determining this.

Loss accruing to the joined group before the joining time

- (8) A loss accrued to the joined group before the joining time if and to the extent that, assuming that as it arose it were instead a profit that was accruing, a distribution of that profit would have been a distribution made to the joined group out of profits that accrued to the joined group before the joining time.

Use of reliable estimates

- (9) In working out:
- (a) for the purposes of subsection (4), the amount of income tax, or refund of income tax, on the joining entity's taxable income for a particular income year and the extent to which it has not yet been paid; or
 - (b) for the purposes of subsection (7), the amount of a profit that accrued to the joined group during a particular period; or
 - (c) for the purposes of subsection (8), the amount of a loss that accrued to the joined group during a particular period;
- use the most reliable basis for estimation that is available.
- (10) Without limiting paragraph (9)(b), a way in which, for the purposes of subsection (7), the amount of a profit that accrued to the joined group during a particular period may be worked out is by:
- (a) assuming that profits of income years were distributed in order from the most recent to the earliest; and
 - (b) assuming that, for any income year for which distributions were paid out of profits in accordance with paragraph (a), they were, to the extent they were not *franked distributions, paid out of profits of that income year that were not subject to income tax before they were paid out of such profits that were subject to income tax.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

705-93 If pre-joining time roll-over from foreign resident company or head company—step 3A in working out allocable cost amount

When there is a step 3A amount

- (1) For the purposes of step 3A in the table in section 705-60, there is a step 3A amount if:
- (a) before the joining time:
 - (i) there was a roll-over under Subdivision 126-B (a ***Subdivision 126-B roll-over***) in relation to a *CGT event that happened in relation to an asset (the ***roll-over asset***); or
 - (ii) former section 160ZZO of the *Income Tax Assessment Act 1936* applied in relation to a disposal (a ***section 160ZZO roll-over***) of an asset (also the ***roll-over asset***); and
 - (aa) at the joining time, as a result of the Subdivision 126-B roll-over or the section 160ZZO roll-over, the roll-over asset has:
 - (i) a *deferred roll-over gain; or
 - (ii) a *deferred roll-over loss; and
 - (b) the originating company in relation to the Subdivision 126-B roll-over, or the transferor in relation to the section 160ZZO roll-over:
 - (i) was a foreign resident; or
 - (ii) is the *head company in relation to the joined group; and
 - (c) the recipient company in relation to the Subdivision 126-B roll-over, or the transferee in relation to the section 160ZZO roll-over:
 - (i) was an Australian resident; and
 - (ii) is a *spread entity in relation to the joined group; and
 - (d) if the recipient company was previously a *subsidiary member of another consolidated group—the conditions in section 104-182 were *not* satisfied at any time in relation to the other group between the Subdivision 126-B roll-over, or the section 160ZZO roll-over, and the joining time; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-95

- (e) the roll-over asset is not a *pre-CGT asset at the joining time; and
 - (f) the roll-over asset becomes that of the head company of the joined group because subsection 701-1(1) (the single entity rule) applies when the joining entity becomes a *subsidiary member of the group.
- (2) The step 3A amount is the amount of the *deferred roll-over gain or the *deferred roll-over loss mentioned in paragraph (1)(aa).

705-95 Pre-joining time distributions out of certain profits—step 4 in working out allocable cost amount

For the purposes of step 4 in the table in section 705-60, the step 4 amount is the sum of all distributions made by the joining entity before the joining time that:

- (a) the *head company receives directly, or would receive indirectly if entities interposed between the head company and the joining entity successively distributed any distribution they received immediately after receiving it; and
- (b) were made out of profits:
 - (i) that did *not* accrue to the joined group before the joining time (see subsection 705-90(7)); or
 - (ii) that accrued to the joined group before the joining time and recouped losses of any *sort that accrued to the joined group before that time (see subsection 705-90(8)).

Note: As well as subsection 705-90(7), paragraph 705-90(9)(b) and subsection 705-90(10) are relevant to working out whether or not profits accrued to the joined group before the joining time.

705-100 Losses accruing to joined group before joining time—step 5 in working out allocable cost amount

- (1) For the purposes of step 5 in the table in section 705-60, the step 5 amount is the sum of all losses of any *sort of the joining entity that:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-105

- (a) had not been *utilised by the joining entity for the income year in which the joining time occurred or any earlier income year; and
 - (b) accrued to the joined group before the joining time (see subsection 705-90(8)).
- (2) However, a loss is not to be taken into account under subsection (1) to the extent that it reduced the undistributed profits comprising the step 3 amount in the table in section 705-60.

705-105 Continuity of holding membership interests—steps 3 to 5 in working out allocable cost amount

If:

- (a) a *membership interest that a *member of the joined group held in the joining entity at the joining time was taken under this Act to have been *acquired by the member for its *market value at a particular time (the *market value time*); or
- (b) the *cost base and *reduced cost base of a membership interest that a member of the joined group held in the joining entity at the joining time were, before that time, changed on one or more occasions by this Act so that they equalled the market value of the membership interest at a particular time (the last of which times is also the *market value time*);

then, for the purpose of sections 705-90, 705-95, 705-100 and 713-25, the *head company is taken not to have held that membership interest, either directly or indirectly, before the market value time.

705-110 If joining entity transfers a loss to the head company—step 6 in working out allocable cost amount

- (1) For the purposes of step 6 in the table in section 705-60, the step 6 amount is worked out by multiplying the sum of the losses mentioned in subsection (2) by the *corporate tax rate.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-115

- (2) The losses are the joining entity's losses of any *sort that:
- (a) were not *utilised by the joining entity for the income year in which the joining time occurred or any earlier income year; and
 - (b) did not accrue to the joined group before the joining time (see subsection 705-90(8)); and
 - (c) are transferred to the *head company under Subdivision 707-A; and
 - (d) are not cancelled under section 707-145.

**705-115 If head company becomes entitled to certain deductions—
step 7 in working out allocable cost amount**

- (1) For the purposes of step 7 in the table in section 705-60, the step 7 amount is worked out using the following formula:

$$\text{Owned deductions} + \left[\text{Acquired deductions} \times \text{*Corporate tax rate} \right]$$

where:

acquired deductions means all deductions covered by subsection (2) that are not owned deductions.

owned deductions means the sum of all deductions for which the following requirements are satisfied:

- (a) the deduction is covered by subsection (2);
 - (b) assuming the expenditure that gave rise to the deduction were instead a profit that accrued at the time the expenditure was incurred, a distribution of that profit would have been a distribution made to the joined group out of profits that accrued to the joined group before the joining time (see subsection 705-90(7)).
- (2) This subsection covers any deduction to which the *head company becomes entitled under section 701-5 as a result of the joining entity becoming a *subsidiary member of the joined group, other than a deduction for expenditure:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

-
- (a) that is, forms part of or reduces, the cost of an asset of the joining entity that becomes an asset of the head company because subsection 701-1(1) (the single entity rule) applies; or
 - (b) to which section 110-40 (about expenditure on assets acquired before 7.30 pm on 13 May 1997) applies; or
 - (c) to the extent that the expenditure reduced the undistributed profits comprising the step 3 amount in the table in section 705-60.
- (3) Subsection (2) does *not* cover a deduction under section 43-15 (which relates to *undeducted construction expenditure) if the joining entity *acquired the asset to which the deduction relates at or before 7.30 pm, by legal time in the Australian Capital Territory, on 13 May 1997.

How to work out a pre-CGT factor for assets of joining entity

705-125 Pre-CGT proportion for joining entity

Object

- (1) Because intra-group *membership interests in the joining entity are disregarded under subsection 701-1(1) (the single entity rule), the object of this section is to provide a mechanism to ensure that the benefit of the pre-CGT status of those interests is not lost. That mechanism involves:
- (a) working out the proportion (measured by market value) of the membership interests in the joining entity that have pre-CGT status; and
 - (b) if the joining entity later ceases being a member of the group, attaching pre-CGT status to that proportion of membership interests in it (see section 711-65), subject to integrity rules (see section 711-70).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-130

How to work out pre-CGT proportion

- (2) The **pre-CGT proportion** is the amount worked out by dividing:
- (a) the sum of the *market value of each *membership interest in the joining entity that is:
 - (i) held by a *member of the group at the joining time; and
 - (ii) is a *pre-CGT asset;
 - by:
 - (b) the sum of the market value of each membership interest in the joining entity that is held by a member of the group at the joining time.

Modification if joining entity is a trust

- (4) If the joining entity is a trust, a *membership interest in it is not taken into account under subsection (2) unless the membership interest is either a unit or an interest in the trust.

Subdivision 705-B—Case of group formation

Guide to Subdivision 705-B

705-130 What this Subdivision is about

When a consolidated group comes into existence, the tax cost setting amount for the assets of each entity that becomes a subsidiary member is worked out by modifying the rules in Subdivision 705-A, so that the amount reflects the cost to the group of acquiring the entity.

Table of sections

Application and object

705-135 Application and object of this Subdivision

Modified application of Subdivision 705-A

705-140 Subdivision 705-A has effect with modifications

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-135

- 705-145 Order in which tax cost setting amounts are to be worked out where subsidiary members have membership interests in other subsidiary members
- 705-147 Adjustment in working out step 3A of allocable cost amount to take account of membership interests held by subsidiary members in other such members
- 705-155 Adjustments to restrict step 4 reduction of allocable cost amount to effective distributions to head company in respect of direct membership interests
- 705-160 Adjustment to allocation of allocable cost amount to take account of owned profits or losses of certain entities that become subsidiary members
- 705-163 Modified application of section 705-57

Application and object**705-135 Application and object of this Subdivision***Application*

- (1) This Subdivision has effect for the head company core purposes set out in subsection 701-1(2) if one or more entities become *subsidiary members of a *consolidated group at the time (the ***formation time***) it comes into existence as a consolidated group.

Note: This is the first exception to Subdivision 705-A: see paragraph 705-15(a).

Object

- (2) The object of this Subdivision is to modify the rules in Subdivision 705-A (which basically determine the tax cost setting amount for assets of an entity joining an existing *consolidated group) so that they have effect, and take account of different circumstances that apply, when a consolidated group comes into existence.

Note: The main circumstance is where one of the entities has membership interests in another. In such a case, the order in which the rules in Subdivision 705-A are applied will affect the tax cost setting amounts for the assets of the entities.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Modified application of Subdivision 705-A

705-140 Subdivision 705-A has effect with modifications

- (1) Subdivision 705-A has effect in relation to each entity becoming a *subsidiary member of the *consolidated group at the formation time in the same way as that Subdivision has effect in relation to an entity becoming a subsidiary member of a consolidated group in circumstances covered by that Subdivision.
- (2) However, that effect of Subdivision 705-A is subject to modifications set out in this Subdivision.

705-145 Order in which tax cost setting amounts are to be worked out where subsidiary members have membership interests in other subsidiary members

Object

- (1) The object of this section is to ensure that where, on becoming *subsidiary members, entities hold assets consisting of *membership interests in other subsidiary members, the *head company's cost of becoming the holder of the assets of all of the entities that become subsidiary members correctly reflects the group's cost of acquiring the entities.

Tax cost setting amounts to be worked out from top down

- (2) If, on becoming *subsidiary members, entities hold *membership interests in any other entities that become subsidiary members, the *tax cost setting amounts for the assets of entities holding membership interests must be worked out before the tax cost setting amounts for the assets of the entities in which the membership interests are held.

Note: The tax cost setting amount in respect of assets of any subsidiary member in which the head company, but no other subsidiary member, holds membership interests can be worked out in any order in relation to the calculations for other subsidiary members.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Tax cost setting amount for higher entity's membership interests to be used in working out lower entity's tax cost setting amount

- (3) The tax cost setting amount worked out for assets of an entity mentioned in subsection (2) consisting of *membership interests in another such entity is to be used as the amount for those interests under subsection 705-65(1) (step 1 of allocable cost amount) in working out the tax cost setting amount for assets of that other entity.

Note 1: Subsection 705-65(1) adds together amounts worked out in accordance with section 705-65 representing the cost of the membership interests that each member of the group holds in the entity. If any of those membership interests is held by another subsidiary member, subsection (3) above will replace the amount otherwise applicable with the tax cost setting amount that will have been worked out for the interests in accordance with subsection (2) above.

Note 2: The tax cost setting amount worked out for the membership interests has no relevance other than for the purpose mentioned in subsection (3). This is because, under the single entity principle, intra group membership interests are ignored while entities are members of the group. If an entity ceases to be a member, section 701-15 and Division 711 set the tax cost of membership interests in the entity at that time.

Value shifting etc. provisions not to apply to later CGT events involving membership interests

- (4) However, despite subsection (3), subsection 705-65(4) (which prevents the later operation of value shifting etc. provisions) still applies to the *membership interests.

Non-membership equity interests

- (5) For the purposes of this section, if, on becoming a *subsidiary member, an entity holds a *non-membership equity interest in another entity that becomes a subsidiary member at the same time, that non-membership equity interest is treated as if it were a *membership interest in that other entity.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-147

705-147 Adjustment in working out step 3A of allocable cost amount to take account of membership interests held by subsidiary members in other such members

Object

- (1) The object of this section is to modify the effect that section 705-93 (step 3A of allocable cost amount) has in accordance with this Subdivision so that it takes account of *membership interests that entities that become *subsidiary members hold in other such entities.

Apportionment of step 3A amount among first level interposed entities

- (2) If:
- (a) under section 705-93, in its application in accordance with this Subdivision, there is a step 3A amount for the purpose of working out the group's *allocable cost amount for an entity (the **subject entity**) that becomes a *subsidiary member of the group at the formation time; and
 - (b) at that time one or more entities (the **first level entities**), that become subsidiary members of the group and in which the *head company holds *membership interests, are interposed between the head company and the subject entity;
- then the step 3A amount is apportioned among the first level entities and the subject entity on the following basis:
- (c) each first level entity has the following proportion of the step 3A amount:

$$\frac{\text{*Market value of first level entity's direct and indirect membership interests in subject entity}}{\text{*Market value of all membership interests in subject entity}}$$

where:

market value of all membership interests in subject entity means the *market value, at the formation time, of all *membership interests in the subject entity that are held by entities that become *members of the group at that time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

market value of first level entity's direct and indirect membership interests in subject entity means so much of the *market value of all membership interests in the subject entity (as defined above) as is attributable to *membership interests that the first level entity holds directly, or indirectly through other interposed entities that become *subsidiary members of the group at the formation time; and

(d) the subject entity has the remainder of the step 3A amount.

Membership interests in subsidiary members of group

- (3) In applying section 705-93 for the purposes of this Subdivision, disregard paragraph 705-93(1)(f) if:
- (a) the rollover asset mentioned in that section is a *membership interest in an entity that becomes a *subsidiary member at the formation time; and
 - (b) the rollover asset is *not* held at that time by the entity that becomes the *head company of the group.

Note: The step 3A amount is worked out under section 705-93.

705-155 Adjustments to restrict step 4 reduction of allocable cost amount to effective distributions to head company in respect of direct membership interests

Object

- (1) The object of this section is to ensure that, in working out the group's *allocable cost amount for entities that become *subsidiary members of the group at the formation time, the reduction under step 4 in the table in section 705-60 (about pre-formation time distributions out of certain profits) is made only for profits that have been effectively distributed to the *head company in respect of its direct *membership interests in the entities. This ensures consistency with the ordering rule in section 705-145.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-155

When section applies

- (2) This section applies to a distribution (the ***subject distribution***) to the extent that the following conditions are satisfied:
- (a) the distribution is made by an entity (the ***subject entity***) that becomes a *subsidiary member of the group at the formation time;
 - (b) in working out the group's *allocable cost amount for the subject entity there would, apart from this section, be a reduction under step 4 in the table in section 705-60 for the distribution.

Step 4 reduction only if subject distribution is made to head company etc.

- (3) There is no reduction as mentioned in paragraph (2)(b) for the subject distribution unless:
- (a) the subject distribution is made to the *head company of the group; or
 - (b) the reduction is in accordance with subsection (5).

Step 4 reduction for effective distribution to head company

- (4) If:
- (a) at the formation time, the *head company of the group has a direct *membership interest in the subject entity; and
 - (b) the head company acquired the membership interest directly from another entity, or indirectly as a result of one or more acquisitions from other entities, where:
 - (i) former section 160ZZO of the *Income Tax Assessment Act 1936* applied to each acquisition; or
 - (ii) there was a roll-over under Subdivision 126-B for each acquisition;or a combination of these happened; and
 - (c) while it held the membership interest, the entity, or one of the entities, mentioned in paragraph (b) (the ***recipient of the further distribution***) received a distribution (the ***further distribution***) of some of the subject distribution from the subject entity;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

the consequences in subsections (5) and (6) apply.

Reduction for further distribution that remains with recipient

(5) If:

(a) the following happen:

- (i) by the formation time, any of the further distribution (the ***eligible reduction amount***) had not again been distributed by the recipient of the further distribution;
- (ii) the recipient of the further distribution does not become a *subsidiary member of the group at the formation time; or

(b) the following happen:

- (i) by the formation time, any of the further distribution (the ***eligible reduction amount***) had been distributed by the recipient of the further distribution to another entity directly, or indirectly through successive distributions by interposed entities;
- (ii) that other entity does not become a subsidiary member of the group at the formation time; or

(c) both of the above paragraphs apply;

then, in working out the group's *allocable cost amount for the subject entity, the reduction under step 4 in the table in section 705-60 for the subject distribution only takes place to the extent that it equals the sum of all eligible reduction amounts.

Step 1 reduced cost base adjustment to reverse effect of reduction for further distribution

(6) Also, if former subsection 160ZK(5) of the *Income Tax Assessment Act 1936* or subsection 110-55(7) of this Act applied to the further distribution, then for the purposes of step 1 in the table in section 705-60 in working out the group's *allocable cost amount for the subject entity:

- (a) the reference in subsection 705-65(3) to a reduction resulting from the application of former subsection 160ZK(5) of the *Income Tax Assessment Act 1936*; and
- (b) the reference in subsection 705-65(5) to a reduction that has taken place under subsection 110-55(7);

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-160

include a reference to the reduction in the *reduced cost base of the membership interest in the subject entity resulting from the application of former subsection 160ZK(5) of the *Income Tax Assessment Act 1936*, or subsection 110-55(7) of this Act, to the further distribution.

705-160 Adjustment to allocation of allocable cost amount to take account of owned profits or losses of certain entities that become subsidiary members

Object

- (1) The object of this section is to prevent a distortion under section 705-35 in the allocation of *allocable cost amount to an entity that becomes a *subsidiary member of the group where that entity has direct or indirect *membership interests in another entity that has certain profits or tax losses when it becomes a subsidiary member.

Adjustment to allocation of allocable cost amount where direct interest in entity with profits/losses

- (2) If:
- (a) an entity becomes a *subsidiary member of the group at the formation time; and
 - (b) the entity has *membership interests in a second entity that becomes a subsidiary member of the group at that time; and
 - (c) in working out the group's *allocable cost amount for the second entity:
 - (i) an amount is required to be added (the ***second entity's profit/loss adjustment amount***) under step 3 in the table in section 705-60 (about profits accruing before becoming a subsidiary member of the group); or
 - (ii) an amount is required to be subtracted (also the ***second entity's profit/loss adjustment amount***) under step 5 in the table in section 705-60 (about losses accruing before becoming a subsidiary member of the group);
- then, for the purposes of working out under section 705-35 the *tax cost setting amount for the assets of the first entity, the *market

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

value of the first entity's membership interests in the second entity is reduced (in a subparagraph (c)(i) case) or increased (in a subparagraph (c)(ii) case) by the first entity's interest in the second entity's profit/loss adjustment amount (see subsection (3)).

First entity's interest in second entity's profit/loss adjustment amount

- (3) The first entity's interest in the second entity's profit/loss adjustment amount is worked out using the formula:

$$\frac{\begin{array}{l} \text{*Market value of first} \\ \text{entity's *membership interests} \\ \text{in second entity} \end{array}}{\begin{array}{l} \text{*Market value of all *membership} \\ \text{interests in second entity} \end{array}} \times \begin{array}{l} \text{Second entity's profit/loss} \\ \text{adjustment amount} \end{array}$$

Adjustment to allocation of allocable cost amount for indirect interest in entity with profits/losses

- (4) If:
- (a) an entity becomes a *subsidiary member of the group at the formation time; and
 - (b) the entity has *membership interests in a second entity that becomes a subsidiary member of the group at that time; and
 - (c) the second entity has, directly or indirectly through one or more interposed entities that become subsidiary members of the group at the formation time, membership interests in a third entity that becomes a subsidiary member of the group at that time; and
 - (d) in working out the group's *allocable cost amount for the third entity:
 - (i) an amount is required to be added (the ***third entity's profit/loss adjustment amount***) under step 3 in the table in section 705-60 (about profits accruing before becoming a subsidiary member of the group); or
 - (ii) an amount is required to be subtracted (also the ***third entity's profit/loss adjustment amount***) under step 5 in the table in section 705-60 (about losses accruing before becoming a subsidiary member of the group);

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-163

then, for the purposes of working out under section 705-35 the *tax cost setting amount for the assets of the first entity, the *market value of the first entity's membership interests in the second entity is reduced (in a subparagraph (d)(i) case) or increased (in a subparagraph (d)(ii) case) by the first entity's interest in the third entity's profit/loss adjustment amount (see subsection (5)).

First entity's interest in third entity's profit/loss adjustment amount

- (5) The first entity's interest in the third entity's profit/loss adjustment amount is worked out using the formula:

$$\frac{\text{*Market value of first entity's membership interests in third entity held through second entity}}{\text{*Market value of all *membership interests in third entity}} \times \text{Third entity's profit/loss adjustment amount}$$

where:

market value of first entity's membership interests in third entity held through second entity means the *market value of all *membership interests in the third entity that the first entity holds indirectly through the second entity (including through that entity and one or more other entities that become *subsidiary members of the group and are interposed between the second entity and the third entity).

705-163 Modified application of section 705-57

Object

- (1) The object of this section is to ensure that, in working out *tax cost setting amounts for *trading stock, *depreciating assets, *registered emissions units or *revenue assets of entities that become *subsidiary members of the group at the formation time, section 705-57 (about loss of pre-CGT status of certain *membership interests) only applies if the *membership interests held directly by the *head company of the group are affected.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Modified application of section 705-57—basic modification

- (2) For the purposes of applying section 705-57 in accordance with this Subdivision, a reference in that section to a *membership interest that a *member of the joined group holds in the joining entity at the joining time is taken to be a reference to a *membership interest that the *head company of the *consolidated group holds directly in an entity becoming a *subsidiary member at the formation time.

Modified application of section 705-57—additional modifications where section 705-145 applies

- (3) Also, if an entity (the **first entity**) that becomes a *subsidiary member holds a *membership interest (the **subject membership interest**) in another entity (the **second entity**) that becomes a subsidiary member, section 705-57 (as modified in accordance with subsection (2)) is to be applied in relation to the subject membership interest as follows.
- (4) First work out whether there would be a reduction under that section in the *tax cost setting amount for the subject membership interest that is used as mentioned in subsection 705-145(3) (the **subsection 705-145(3) tax cost setting amount**) if:
- (a) the subject membership interest, if it is not a revenue etc. asset of the first entity, were taken to be such an asset; and
 - (b) paragraphs 705-57(2)(c) and (d) and subsection 705-57(7) did not apply to the subject membership interest.
- (5) Next, if there would be such a reduction (whose amount is the **notional section 705-57 reduction amount**):
- (a) apply section 705-57 to reduce the *tax cost setting amount for any revenue etc. asset of the second entity; and
 - (b) if the second entity holds a *membership interest in another entity that becomes a *subsidiary member—apply section 705-57 in relation to that interest in accordance with subsection (3) of this section;
- and for those purposes:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-163

- (c) the subject membership interest is taken to be a membership interest that the *head company of the group holds directly in the second entity at the formation time; and
- (d) the requirements of paragraphs 705-57(2)(a) and (b) are taken to be satisfied in relation to the subject membership interest; and
- (e) the subject membership interest is taken to have a *cost base and *reduced cost base equal to the subsection 705-145(3) tax cost setting amount; and
- (f) the subject membership interest is taken to have a loss of pre-CGT status adjustment amount equal to the notional section 705-57 reduction amount.

Note: If the head company actually held any membership interests in the second entity, or if other entities becoming subsidiary members held membership interests in the second entity to which this subsection also applied, those membership interests would also be taken into account in working out the reduction under paragraph (a) and in applying paragraph (b).

Section 705-57 not to apply where membership interests effectively acquired on normal market basis

- (6) If:
 - (a) apart from this subsection, subsection 705-57(6) would apply in accordance with this Subdivision to the revenue etc. assets of an entity (the **subject entity**) that becomes a *subsidiary member of the group at the formation time; and
 - (b) at the formation time, the *head company of the group holds all of the *membership interests in the subject entity; and
 - (c) subsection 705-57(6) would apply because a circumstance covered by subsection 705-57(4) (about loss of pre-CGT status because Division 149 etc. applied) existed; and
 - (d) the application of Division 149 of this Act, or the provision of the *Income Tax Assessment Act 1936*, as mentioned in paragraph 705-57(4)(b) of this Act happened because the entity that became the *head company of the group (the **potential head entity**) *acquired all of the *membership interests in the other entity mentioned in that paragraph directly or indirectly from another entity (the **vendor**); and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-170

- (e) at the time of the acquisition, the potential head entity did not control (for value shifting purposes) the vendor, and vice-versa, and another entity did not control (for value shifting purposes) the potential head entity and the vendor; and
- (f) the acquisition, or each of the acquisitions, mentioned in subsection 705-57(4) was a *same asset roll-over or was one to which any of former sections 160ZZN to 160ZZOC, 160ZZPA and 160ZZPJ of the *Income Tax Assessment Act 1936* applied;

then subsection 705-57(6) does not apply as mentioned in paragraph (a) of this subsection.

Subdivision 705-C—Case where a consolidated group is acquired by another

Guide to Subdivision 705-C

705-170 What this Subdivision is about

When a consolidated group is acquired by another consolidated group, modifications are made to the operation of Division 701 (the core rules) and Subdivision 705-A (tax cost setting amount where a single entity joins a consolidated group) basically to ensure that the tax cost setting amount for assets of the acquired group that become those of the acquiring group reflects the cost to the latter group of acquiring the former.

Table of sections

Application and object

705-175 Application and object of this Subdivision

Modified application of Division 701 in relation to acquired group etc.

705-180 Modifications of Division 701

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-175

Modified application of Subdivision 705-A in relation to acquiring group

705-185 Subdivision 705-A has effect with modifications

Modifications of Subdivision 705-A for the purposes of this Subdivision

705-195 Modified application of subsection 705-65(6)

705-200 Modified application of section 705-85

Application and object

705-175 Application and object of this Subdivision

Application

- (1) This Subdivision applies if all of the *members of a *consolidated group (the ***acquired group***) become members of another consolidated group (the ***acquiring group***) at a particular time (the ***acquisition time***) as a result of the *acquisition of *membership interests in the *head company of the acquired group.

Object

- (2) The object of this Subdivision is:
 - (a) to modify the rules in Division 701 (the core rules) to complement the treatment of the acquired group as a single entity that applied before the acquisition time; and
 - (b) to modify Subdivision 705-A (which basically determines the tax cost setting amount for assets of an entity joining a consolidated group) to ensure that the *tax cost setting amount for assets of the acquired group that become those of the acquiring group reflects the cost to the latter group of acquiring the former.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Modified application of Division 701 in relation to acquired group etc.

705-180 Modifications of Division 701

Certain provisions of Division 701 not to apply

- (1) If, because an entity ceases to be a *subsidiary member of the acquired group when this Subdivision applies, a provision of Division 701 (other than section 701-25) would otherwise apply, in relation to the acquired group for the head company core purposes set out in subsection 701-1(2) or for the entity core purposes set out in subsection 701-1(3), the provision does not so apply.

Modified application of section 701-5

- (2) Section 701-5 (the entry history rule) applies in relation to the acquiring group for the head company core purposes set out in subsection 701-1(2) as if entities that are or have been the *subsidiary members of the acquired group were or had been parts of the *head company of the acquired group.

Modified application of section 701-25

- (3) The application of section 701-25 (which ensures tax-neutral consequences for a head company ceasing to hold assets when an entity leaves a group), in relation to the acquired group for the head company core purposes set out in subsection 701-1(2) and for the entity core purposes set out in subsection 701-1(3), is modified as follows:
- (a) the reference in subsection (4) of that section to the end of the income year is taken to be a reference to the end of the income year that ends or, if subsection 701-30(3) as modified by subsection (4) of this section applies, of the income year that is taken to end, when the entity ceases to be a *subsidiary member of the acquired group;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-185

- (b) the section applies (as modified by paragraph (a) of this subsection) to the entity that is the *head company of the acquired group ceasing to be a *member of that group in the same way as it applies to an entity that is a subsidiary member of that group ceasing to be a subsidiary member.

Modified application of section 701-30

- (4) If the acquired group only exists for part of the income year, section 701-30 (about an entity not being a subsidiary member of a group for a whole income year) applies in relation to the acquired group for the head company core purposes in the same way as it applies to work out the taxable income, tax payable on that taxable income and loss of each *sort for an entity for a non-membership period.

Modified application of Subdivision 705-A in relation to acquiring group

705-185 Subdivision 705-A has effect with modifications

- (1) Subdivision 705-A has effect in relation to the acquiring group for the head company core purposes set out in subsection 701-1(2) as if:
 - (a) the only *member of the acquired group that is a joining entity of the acquiring group were the entity that, just before the acquisition time, was the *head company of the acquired group; and
 - (b) the operation of this Part for the head company core purposes in relation to the head company and the entities that were *subsidiary members of the acquired group continued to have effect for the purposes of Subdivision 705-A.

Note 1: This means that for Subdivision 705-A purposes the subsidiary members of the acquired group are treated as part of the head company of that group, and as a result their assets (other than e.g. internal membership interests) have their tax costs set at the acquisition time.

Note 2: It also means e.g. that for Subdivision 705-A purposes the terminating values of the assets of those subsidiary members are worked out as if the assets were those of the head company at the acquisition time, and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-195

hence will be based (if applicable) on the tax cost setting amounts for assets that were set at the time entities became subsidiary members of the acquired group.

- (2) However, that effect of Subdivision 705-A is subject to modifications set out in this Subdivision.

Note: The modifications of Subdivision 705-A made in this Subdivision constitute the second exception to Subdivision 705-A: see paragraph 705-15(b).

Modifications of Subdivision 705-A for the purposes of this Subdivision

705-195 Modified application of subsection 705-65(6)

Object

- (1) The object of this section is to ensure that certain *non-membership equity interests held by *members of the acquiring group that are part of the cost of acquiring the acquired group are taken into account in working out the acquiring group's *allocable cost amount for the acquired group.

Non-membership equity interests

- (2) Subsection 705-65(6) has effect as if it also treated as a *membership interest in the *head company of the acquired group a *non-membership equity interest in a *subsidiary member of the acquired group, where that interest was held at the acquisition time by a *member of the acquiring group.

705-200 Modified application of section 705-85

Object

- (1) The object of this section is to ensure that if any of the following are not held by *members of either group:
- (a) certain employee share interests in *subsidiary members of the acquired group;
 - (b) certain *non-membership equity interests in subsidiary members of the acquired group;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-200

(c) certain preference share interests in subsidiary members of the acquired group;

and are therefore part of the cost of acquiring the acquired group, they increase the acquiring group's *allocable cost amount for the acquired group.

Increase for certain membership interests in subsidiary members of acquired group

- (2) Subsections 705-85(1), (2) and (4) have effect as if a *membership interest in a *subsidiary member of the acquired group were a membership interest in the *head company of that group.

Non-membership equity interests

- (3) Paragraph 705-85(3)(a) has effect as if it also increased the step 2 amount worked out under section 705-70 by the amount that would be the sum of the balances of the *non-share capital accounts of the *subsidiary members of the acquired group, assuming that:
- (a) for a subsidiary member that is not a company—the subsidiary member were a company; and
 - (b) each *non-membership equity interest (if any) in a subsidiary member held at the acquisition time by a person other than a *member of the acquiring group or acquired group were a *non-share equity interest in the subsidiary member; and
 - (c) the non-share equity interests (if any) mentioned in paragraph (b) were the only non-share equity interests in the subsidiary member.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 705-D—Where multiple entities are linked by membership interests

Guide to Subdivision 705-D

705-210 What this Subdivision is about

When entities that are linked by membership interests join a consolidated group, the tax cost setting amount for the assets of each entity that becomes a subsidiary member is worked out by modifying the rules in Subdivision 705-A, so that the amount reflects the cost to the group of acquiring the entities.

Table of sections

Application and object

705-215 Application and object of this Subdivision

Modified application of Subdivision 705-A

705-220 Subdivision 705-A has effect with modifications

705-225 Order in which tax cost setting amounts are to be worked out where linked entities have membership interests in other linked entities

705-227 Adjustment in working out step 3A of allocable cost amount to take account of membership interests held by linked entities in other linked entities

705-230 Adjustments to restrict step 4 reduction of allocable cost amount to effective distributions to head company in respect of direct membership interests

705-235 Adjustment to allocation of allocable cost amount to take account of owned profits or losses of certain linked entities

705-240 Modified application of section 705-57

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Application and object

705-215 Application and object of this Subdivision

Application

- (1) This Subdivision has effect for the head company core purposes set out in subsection 701-1(2) if:
 - (a) 2 or more entities (each of which is a *linked entity*) become members of a *consolidated group at the same time as a result of an event that happens in relation to one of them; and
 - (b) the case is not covered by Subdivision 705-C.

Note: This is the third exception to Subdivision 705-A: see paragraph 705-15(c). In order for this Subdivision to have effect, one of the entities would need to hold directly or indirectly, just before the joining time, membership interests in all of the other entities.

Example: Entities A and B are not members of a consolidated group, but members of such a group, together with entity A, jointly hold all the membership interests in entity B. Members of the group then acquire all the membership interests in entity A and as a result of this event both entities, which are linked by the membership interests that one holds in the other, become members of the group.

Object

- (2) The object of this Subdivision is to modify the rules in Subdivision 705-A (which basically determine the tax cost setting amount for assets of an entity joining an existing consolidated group) so that they take account of the different circumstances that apply where linked entities join.

Modified application of Subdivision 705-A

705-220 Subdivision 705-A has effect with modifications

- (1) Subdivision 705-A has effect in relation to each linked entity becoming a *subsidiary member of the *consolidated group in the same way as that Subdivision operates in relation to an entity becoming a subsidiary member of a consolidated group in circumstances covered by that Subdivision.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (2) However, that effect of Subdivision 705-A is subject to modifications set out in this Subdivision.

705-225 Order in which tax cost setting amounts are to be worked out where linked entities have membership interests in other linked entities

Object

- (1) The object of this section is to ensure that where, on becoming *subsidiary members, linked entities hold assets consisting of *membership interests in other linked entities, the *head company's cost of becoming the holder of the assets of all of the linked entities correctly reflects the group's cost of acquiring the linked entities.

Tax cost setting amounts to be worked out from top down

- (2) The *tax cost setting amounts for the assets of linked entities holding *membership interests must be worked out before the tax cost setting amounts for the assets of the linked entities in which the membership interests are held.

Note: The tax cost setting amount in respect of assets of any linked entity in which members of the group, but no linked entity, hold membership interests can be worked out in any order in relation to the calculations for other linked entities.

Tax cost setting amount for higher linked entity's membership interests to be used in working out lower linked entity's tax cost setting amount

- (3) The *tax cost setting amount worked out for assets of a linked entity mentioned in subsection (2) consisting of *membership interests in another such entity is to be used as the amount for those interests under subsection 705-65(1) (step 1 of allocable cost amount) in working out the tax cost setting amount for assets of that other linked entity.

Note 1: Subsection 705-65(1) adds together amounts worked out in accordance with section 705-65 representing the cost of the membership interests that each member of the group holds in the linked entity. If any of those membership interests is held by another

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-227

linked entity, subsection (3) of this section will replace the amount otherwise applicable with the tax cost setting amount that will have been worked out for the interests in accordance with subsection (2) of this section.

- Note 2: The tax cost setting amount worked out for the membership interests has no relevance other than for the purpose mentioned in subsection (3) of this subsection. This is because, under the single entity principle, intra group membership interests are ignored while entities are members of the group. If an entity ceases to be a member, section 701-15 and Division 711 set the tax cost of membership interests in the entity at that time.

Value shifting etc. provisions not to apply to later CGT events involving membership interests

- (4) However, despite subsection (3), subsection 705-65(4) (which prevents the later operation of value shifting etc. provisions) still applies to the *membership interests.

Non-membership equity interests

- (5) For the purposes of this section, if, on becoming a *subsidiary member, a linked entity holds a *non-membership equity interest in another linked entity, that interest is treated as if it were a *membership interest in that other linked entity.

705-227 Adjustment in working out step 3A of allocable cost amount to take account of membership interests held by linked entities in other linked entities

Object

- (1) The object of this section is to modify the effect that section 705-93 (step 3A of allocable cost amount) has in accordance with this Subdivision so that it takes account of *membership interests that linked entities hold in other linked entities at the time (the *linked entity joining time*) when the linked entities become *subsidiary members of the group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Apportionment of step 3A amount among first level interposed entities

(2) If:

- (a) under section 705-93, in its application in accordance with this Subdivision, there is a step 3A amount for the purpose of working out the group's *allocable cost amount for a particular linked entity (the ***subject entity***); and
- (b) at the linked entity joining time, one or more of the linked entities (the ***first level entities***) in which the *head company holds *membership interests are interposed between the head company and the subject entity;

then the step 3A amount is apportioned among the first level entities and the subject entity on the following basis:

- (c) each first level entity has the following proportion of the step 3A amount:

$$\frac{\begin{array}{l} \text{*Market value of first level entity's} \\ \text{direct and indirect membership} \\ \text{interests in subject entity} \end{array}}{\begin{array}{l} \text{*Market value of all membership} \\ \text{interests in subject entity} \end{array}}$$

where:

market value of all membership interests in subject entity

means the *market value, at the linked entity joining time, of all *membership interests in the subject entity that are held by entities that become *members of the group at that time.

market value of first level entity's direct and indirect membership interests in subject entity

means so much of the *market value of all membership interests in the subject entity (as defined above) as is attributable to *membership interests that the first level entity holds directly, or indirectly through other linked entities; and

- (d) the subject entity has the remainder of the step 3A amount.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-230

Membership interests in subsidiary members of group

- (3) In applying section 705-93 for the purposes of this Subdivision, disregard paragraph 705-93(1)(f) if:
- (a) the rollover asset mentioned in that section is a *membership interest in an entity that becomes a *subsidiary member at the linked entity joining time; and
 - (b) the rollover asset is *not* held at that time by the entity that becomes the *head company of the group.

Note: The step 3A amount is worked out under section 705-93.

705-230 Adjustments to restrict step 4 reduction of allocable cost amount to effective distributions to head company in respect of direct membership interests

Object

- (1) The object of this section is to ensure that, in working out the group's *allocable cost amount for the linked entities, the reduction under step 4 in the table in section 705-60 (about pre-formation time distributions out of certain profits) is made only for profits that have been effectively distributed to the *head company in respect of its direct *membership interests in the entities. This ensures consistency with the ordering rule in section 705-225.

When section applies

- (2) This section applies to a distribution to the extent that the following conditions are satisfied:
- (a) the distribution is made by a linked entity;
 - (b) in working out the group's *allocable cost amount for the linked entity there would, apart from this section, be a reduction under step 4 in the table in section 705-60 for the distribution.

Step 4 reduction only if subject distribution is made to head company

- (3) There is no reduction as mentioned in subsection (2) for the distribution unless it is made to the *head company of the group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

705-235 Adjustment to allocation of allocable cost amount to take account of owned profits or losses of certain linked entities*Object*

- (1) The object of this section is to prevent a distortion under section 705-35 in the allocation of *allocable cost amount to a linked entity where that entity has direct or indirect *membership interests in another linked entity that has certain profits or tax losses.

Adjustment to allocation of allocable cost amount where direct interest in linked entity with profits/losses

- (2) If:
- (a) a linked entity has *membership interests in a second linked entity; and
 - (b) in working out the group's *allocable cost amount for the second linked entity:
 - (i) an amount is required to be added (the ***second linked entity's profit/loss adjustment amount***) under step 3 in the table in section 705-60 (about profits accruing before becoming a subsidiary member of the group); or
 - (ii) an amount is required to be subtracted (also the ***second linked entity's profit/loss adjustment amount***) under step 5 in the table in section 705-60 (about losses accruing before becoming a subsidiary member of the group);

then, for the purposes of working out under section 705-35 the *tax cost setting amount for the assets of the first linked entity, the *market value of the first linked entity's membership interests in the second linked entity is reduced (in a subparagraph (b)(i) case) or increased (in a subparagraph (b)(ii) case) by the first linked entity's interest in the second linked entity's profit/loss adjustment amount (see subsection (3)).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-235

First linked entity's interest in second linked entity's profit/loss adjustment amount

- (3) The first linked entity's interest in the second linked entity's profit/loss adjustment amount is worked out using the formula:

$$\frac{\begin{array}{l} \text{*Market value of first linked} \\ \text{entity's *membership interests} \\ \text{in second linked entity} \end{array}}{\begin{array}{l} \text{*Market value of all} \\ \text{*membership interests} \\ \text{in second linked entity} \end{array}} \times \begin{array}{l} \text{Second linked entity's} \\ \text{profit/loss adjustment amount} \end{array}$$

Adjustment to allocation of allocable cost amount for indirect interest in linked entity with profits/losses

- (4) If:
- (a) a linked entity has *membership interests in a second linked entity; and
 - (b) the second linked entity has, directly or indirectly through one or more interposed linked entities, membership interests in a third linked entity; and
 - (c) in working out the group's *allocable cost amount for the third linked entity:
 - (i) an amount is required to be added (the ***third linked entity's profit/loss adjustment amount***) under step 3 in the table in section 705-60 (about profits accruing before becoming a subsidiary member of the group); or
 - (ii) an amount is required to be subtracted (also the ***third linked entity's profit/loss adjustment amount***) under step 5 in the table in section 705-60 (about losses accruing before becoming a subsidiary member of the group);

then, for the purposes of working out under section 705-35 the *tax cost setting amount for the assets of the first linked entity, the *market value of the first linked entity's membership interests in the second linked entity is reduced (in a subparagraph (c)(i) case) or increased (in a subparagraph (c)(ii) case) by the first linked entity's interest in the third linked entity's profit/loss adjustment amount (see subsection (5)).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

First linked entity's interest in third linked entity's profit/loss adjustment amount

- (5) The first linked entity's interest in the third linked entity's profit/loss adjustment amount is worked out using the formula:

$$\frac{\begin{array}{l} \text{*Market value of first linked entity's} \\ \text{membership interests} \\ \text{in third linked entity} \\ \text{held through second linked entity} \end{array}}{\begin{array}{l} \text{*Market value of all} \\ \text{*membership interests} \\ \text{in third linked entity} \end{array}} \times \begin{array}{l} \text{Third linked entity's} \\ \text{profit/loss adjustment amount} \end{array}$$

where:

market value of first linked entity's membership interests in third linked entity held through second linked entity means the *market value of all *membership interests in the third linked entity that the first linked entity holds indirectly through the second linked entity (including through that entity and one or more other linked entities that are interposed between the second linked entity and the third linked entity).

705-240 Modified application of section 705-57*Object*

- (1) The object of this section is to ensure that, in working out *tax cost setting amounts for *trading stock, *depreciating assets, *registered emissions units or *revenue assets of the linked entities, section 705-57 (about loss of pre-CGT status of certain membership interests) only applies if the *membership interests held directly by the *head company of the group are affected.

Modified application of section 705-57—basic modification

- (2) For the purposes of applying section 705-57 in accordance with this Subdivision, a reference in that section to a *membership interest that a *member of the joined group holds in the joining entity at the joining time is taken to be a reference to a membership interest that the *head company of the *consolidated group holds

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-240

directly in a linked entity at the time the linked entity becomes a
*subsidiary member.

*Modified application of section 705-57—additional modifications
where section 705-225 applies*

- (3) Also, if a linked entity (the **first linked entity**) holds a *membership interest (the **subject membership interest**) in another linked entity (the **second linked entity**), section 705-57 (as modified in accordance with subsection (2)) is to be applied in relation to the subject membership interest as follows.
- (4) First work out whether there would be a reduction under that section in the *tax cost setting amount for the subject membership interest that is used as mentioned in subsection 705-225(3) (the **subsection 705-225(3) tax cost setting amount**) if:
 - (a) the subject membership interest, if it is not a revenue etc. asset of the first linked entity, were taken to be such an asset; and
 - (b) paragraphs 705-57(2)(c) and (d) and subsection 705-57(7) did not apply to the subject membership interest.
- (5) Next, if there would be such a reduction (whose amount is the **notional section 705-57 reduction amount**):
 - (a) apply section 705-57 to reduce the *tax cost setting amount for any revenue etc. asset of the second linked entity; and
 - (b) if the second linked entity holds a *membership interest in another linked entity—apply section 705-57 in relation to that interest in accordance with subsection (3) of this section; and for those purposes:
 - (c) the subject membership interest is taken to be a membership interest that the *head company of the group holds directly in the second linked entity; and
 - (d) the requirements of paragraphs 705-57(2)(a) and (b) are taken to be satisfied in relation to the subject membership interest; and
 - (e) the subject membership interest is taken to have a *cost base and *reduced cost base equal to the subsection 705-225(3) tax cost setting amount; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (f) the subject membership interest is taken to have a loss of pre-CGT status adjustment amount equal to the notional section 705-57 reduction amount.

Note: If the head company actually held any membership interests in the second linked entity, or if other linked entities held membership interests in the second linked entity to which this subsection also applied, those membership interests would also be taken into account in working out the reduction under paragraph (a) and in applying paragraph (b).

Subdivision 705-E—Adjustments for errors etc.

Guide to Subdivision 705-E

705-300 What this Subdivision is about

Errors in making tax cost setting amount calculations are reversed by means of an immediate capital gain or loss if it would be unreasonable to require the calculations to be re-done.

Table of sections

Operative provisions

- 705-305 Object of this Subdivision
- 705-310 Operation of Part IVA of the *Income Tax Assessment Act 1936*
- 705-315 Errors that attract special adjustment action
- 705-320 Tax cost setting amounts taken to be correct

Operative provisions

705-305 Object of this Subdivision

The object of this Subdivision is to avoid the time and expense involved in correcting errors affecting *tax cost setting amount calculations. This is done by providing for *capital gains or *capital losses to reverse the errors.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-310

705-310 Operation of Part IVA of the *Income Tax Assessment Act 1936*

To avoid doubt, this Subdivision does not limit the operation of Part IVA of the *Income Tax Assessment Act 1936*.

705-315 Errors that attract special adjustment action

- (1) Section 705-320 (about later adjustments to correct *tax cost setting amount calculation errors) applies if the conditions in this section are satisfied.

Tax cost setting amount taken into account

- (2) The first condition is that the *head company of a *consolidated group worked out a *tax cost setting amount, in purported compliance with this Division, for an asset of an entity that becomes a *subsidiary member of the group that is an asset of a kind referred to in section 705-35 as a reset cost base asset.

Error in calculation

- (3) The second condition is that:
- (a) the *head company made one or more errors in working out the *tax cost setting amount; and
 - (b) those errors caused the tax cost setting amount to differ from its correct amount.

If the errors caused the tax cost setting amount to be more, the difference is an ***overstated amount***. If the errors caused the tax cost setting amount to be less, the difference is an ***understated amount***.

Unreasonable to require recalculation

- (4) The third condition is that, having regard to the following factors:
- (a) the net size of the errors compared to the size of the *allocable cost amount for the joining entity;
 - (b) the number of *tax cost setting amounts that would have to be recalculated, and the difficulty of making the recalculations;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 705-320

- (c) the number of adjustments, in assessments that could be amended and in future *income tax returns, that would be necessary to correct the errors;
- (d) the difficulty in obtaining any necessary information; it is not reasonable to require a recalculation of the amounts involved.

Exception where error due to fraud or evasion

- (5) However, the conditions in this section are *not* satisfied if the errors were to any extent due to fraud or evasion.

Requirement to notify

- (6) The *head company of the *consolidated group must, as soon as practicable after becoming aware that it made one or more errors in working out the *tax cost setting amount, notify the Commissioner in the *approved form:
 - (a) that it had made the errors; and
 - (b) of the amount of the overstated amount or understated amount.

705-320 Tax cost setting amounts taken to be correct

- (1) For the purposes of this Act (other than this Subdivision) and for the purposes of the *Taxation Administration Act 1953*, any *tax cost setting amounts that were worked out by the *head company, so far as they were due to the errors, are taken to have been correct if the conditions in section 705-315 are satisfied.

Note 1: If the conditions in section 705-315 are satisfied, CGT event L6 happens (see section 104-525).

Note 2: Subsection (1) means that the Commissioner cannot amend any assessments necessary to correct the errors, and that (except as mentioned in subsection (2)) no offences or administrative penalties arise in respect of the errors.

- (2) Subsection (1) does not apply for the purposes of determining whether there is an offence against section 8N of the *Taxation Administration Act 1953*, or an administrative penalty under section 284-75 or 284-145 in Schedule 1 to that Act, in relation to

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-90 Consolidated groups

Division 705 Tax cost setting amount for assets where entities become subsidiary members of consolidated groups

Section 705-320

statements made before the Commissioner became aware of the errors.

Note 1: Section 8N of the *Taxation Administration Act 1953* deals with false or misleading statements. Sections 284-75 and 284-145 in Schedule 1 to that Act set out the circumstances in which an entity is liable for an administrative penalty.

Note 2: The offence and administrative penalty provisions however apply on a modified basis—see subsection 8W(1C) of the *Taxation Administration Act 1953*, and subsections 284-80(2) and 284-150(2) in Schedule 1 to that Act.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Division 707—Losses for head companies when entities become members etc.

Table of Subdivisions

- 707-A Transfer of previously unutilised losses to head company
- 707-B Can a transferred loss be utilised?
- 707-C Amount of transferred losses that can be utilised
- 707-D Special rules about losses

Subdivision 707-A—Transfer of previously unutilised losses to head company

Guide to Subdivision 707-A

707-100 What this Subdivision is about

A loss made but not utilised by an entity before the time it becomes a member of a consolidated group is transferred to the head company of the group at that time if the entity could have utilised the loss had the entity not become a member of the group.

Table of sections

- 707-105 Who can utilise the loss?

Objects

- 707-110 Objects of this Subdivision

Application

- 707-115 What losses this Subdivision applies to

Transfer of loss from joining entity to head company

- 707-120 Transfer of loss from joining entity to head company
- 707-125 Modified same business test for companies' post-1999 losses

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 707-105

707-130 Modified pattern of distributions test

707-135 Transferring loss transferred to joining entity because same business test was passed

Effect of transfer of loss

707-140 Effect of transfer of loss

Cancelling the transfer of the loss

707-145 Cancelling the transfer of the loss

What happens if the loss is not transferred?

707-150 Loss cannot be utilised for income year ending after the joining time

707-105 Who can utilise the loss?

- (1) If the loss is transferred, the head company is treated for income years ending after the transfer as having made the loss, so the head company can utilise the loss for those income years to the extent permitted by:
 - (a) the general rules (outside this Part) about an entity utilising a loss it has made; and
 - (b) the special rules about transferred losses in the other Subdivisions of this Division that supplement and modify those general rules.

Note: If the entity from which the loss was transferred became a subsidiary member of the consolidated group, the entity cannot utilise the loss for those income years because of section 701-1 (single entity rule) and section 707-140.

- (2) If the loss is *not* transferred, then, for an income year ending after the time the entity became a member of the consolidated group, the loss cannot be utilised by any entity.

Note: The loss will not be transferred if the entity would not have been able to utilise it or if the transfer is cancelled under section 707-145.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Objects

707-110 Objects of this Subdivision

- (1) The main objects of this Subdivision are:
- (a) to provide for the transfer of a loss from an entity (the *joining entity*) becoming a *member of a *consolidated group to the *head company of the group (so the head company may be able to *utilise it), if the joining entity could have utilised the loss if it had not become a member of the group; and
 - (b) to prevent the utilisation by any entity of a loss made by the joining entity, if the joining entity could not have utilised the loss if it had not become a member of the group.

Utilising a loss

- (2) An entity *utilises* a loss:
- (a) in the case of a *tax loss—to the extent it is deducted from an amount of the entity's assessable income or *exempt income; and
 - (b) in the case of a *net capital loss—to the extent that it is applied to reduce an amount of the entity's *capital gains.

Application

707-115 What losses this Subdivision applies to

- (1) This Subdivision applies to a loss of any *sort if:
- (a) an entity (the *joining entity*) becomes a *member of a *consolidated group (the *joined group*) at a time (the *joining time*) in an income year (the *joining year*); and
 - (b) the loss was made by the joining entity for an income year ending before the joining time.

Note 1: If the joining entity had a loss transferred to it by a previous operation of this Subdivision (when the entity was the head company of a consolidated group), this Subdivision operates later as if the joining entity had made the loss. See section 707-140.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 707-120

Note 2: Section 707-405 may affect the income year for which the joining entity is treated as having made the loss, if the joining entity made the loss and the loss is referable to part of an income year.

- (2) This Subdivision applies to the loss only to the extent to which the loss is *not* utilised or otherwise reduced for:
- (a) an income year ending before the joining time; or
 - (b) a non-membership period mentioned in section 701-30 that ended before the joining time.

Transfer of loss from joining entity to head company

707-120 Transfer of loss from joining entity to head company

- (1) At the joining time, the loss is transferred from the joining entity to the *head company of the joined group (even if they are the same entity), to the extent (if any) that the loss could have been *utilised by the joining entity for an income year consisting of the *trial year if:
- (a) at the joining time, the joining entity had not become a *member of the joined group (but had been a *wholly-owned subsidiary of the head company if the joining entity is not the head company); and
 - (b) the amount of the loss that could be utilised for the trial year were not limited by the joining entity's income or gains for the trial year.

*What is the **trial year**?*

- (2) The **trial year** is the period:
- (a) starting at the *latest* of these times:
 - (i) the time 12 months before the joining time;
 - (ii) the time the joining entity came into existence;
 - (iii) the time the joining entity last ceased to be a *subsidiary member of a *consolidated group, if the joining entity had been a member of a consolidated group before the joining time but was not a *member of a consolidated group just before the joining time; and
 - (b) ending just after the joining time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Same business test involving trial year

- (3) When working out whether the joining entity carried on the same business throughout the *trial year (or a period including the trial year) as it carried on at a particular time, assume that the entity carried on at and just after the joining time the same business that it carried on just before the joining time.

Transfer of loss for income year overlapping trial year

- (4) If the loss was made by the joining entity for an income year all or part of which occurs in the *trial year, the transfer of the loss under subsection (1) is not prevented by the fact that the loss was made for that income year.

707-125 Modified same business test for companies' post-1999 losses

- (1) This section operates if:
- (a) the joining entity made the loss for an income year starting after 30 June 1999; and
 - (b) section 165-13 or subsection 165-15(2) or (3) or 166-5(5) or (6) is relevant to working out (under subsection 707-120(1)) whether the loss is transferred *from* the joining entity.
- (2) Work out whether the loss is transferred on the basis that section 165-13 required the joining entity to satisfy the *same business test for:
- (a) the period (the ***same business test period***) consisting of:
 - (i) the *trial year; and
 - (ii) the income year that included the *test time worked out for section 165-13 for the joining entity (disregarding paragraph (b) of this subsection), if that income year started before the trial year; and
 - (b) the time (the ***test time***) just before the end of the income year for which the loss was made by the joining entity.
- (3) Work out whether the loss is transferred on the basis that:
- (a) subsection 165-15(2) specified that the period (the ***same business test period***) for the *same business test consisted of:
 - (i) the *trial year; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 707-125

- (ii) the income year in which the person began to control, or became able to control, the voting power in the company, if that income year started before the trial year; and
 - (b) subsection 165-15(3) required the same business test to be applied to the company's business immediately before the time (the *test time*) just before the end of the income year for which the loss was made by the joining entity.
- (4) If Subdivision 166-A would apply to the joining entity for an income year consisting of the *trial year, work out whether the loss is transferred on the basis that:
- (a) subsection 166-5(5) treated the joining entity as having satisfied the condition in section 165-13 if the joining entity satisfied the *same business test for the period (the *same business test period*) consisting of:
 - (i) the trial year; and
 - (ii) the income year described in subsection (5) of this section, if that income year started before the trial year; and
 - (b) subsection 166-5(6) required the same business test to be applied to the *business that the joining entity carried on at the time (the *test time*) just before the end of the income year for which the loss was made by the joining entity.
- Note: Subdivision 166-A applies to widely held companies and eligible Division 166 companies unless they choose that Subdivision 165-A apply to them without the modifications made by Subdivision 166-A.
- (5) For the purposes of subparagraph (4)(a)(ii), the income year is:
- (a) the income year in which occurred the first time mentioned in subsection 166-5(6); or
 - (b) the income year of the joining entity containing the time at which the joining entity is taken under subsection 707-210(5) to fail to meet the condition in section 165-12, if that subsection is relevant to working out whether the joining entity can *utilise the loss.

Note 1: Section 707-205 affects the start of the test period if the joining entity made the loss under a previous operation of this Subdivision.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note 2: Section 707-210 is about whether a company can utilise certain losses transferred to it under this Subdivision from a company.

- (6) Subsection (4) of this section has effect despite subsection 707-210(6).

Note: Subsection 707-210(6) modifies section 166-5 for working out whether a company can utilise certain losses transferred to it under this Subdivision from a company.

707-130 Modified pattern of distributions test

- (1) This section operates for the purpose of working out (under subsection 707-120(1)) whether the loss is transferred *from* the joining entity, if section 267-20 in Schedule 2F to the *Income Tax Assessment Act 1936* is relevant for that purpose.

Note 1: That section is relevant if the joining entity has been a non-fixed trust at any time in the period from the start of the income year in which the entity made the loss until the time it became a subsidiary member of the joined group (and was not an excepted trust at all times in the period).

Note 2: That section prevents an entity from utilising a tax loss unless the entity meets the conditions in subsection 267-30(2) (if applicable) and section 267-35 in that Schedule by passing the pattern of distributions test for certain income years.

- (2) Section 267-30 in that Schedule has effect as if the income year mentioned in that section were the joining year, and not the ^{*}trial year.

Note: Section 267-30 in that Schedule requires the joining entity to pass the pattern of distributions test for the income year mentioned in that section if that entity distributed income or capital in that income year or within 2 months after the end of that income year.

- (3) Section 267-35 in that Schedule has effect as if the reference in that section to an earlier income year were to an income year earlier than the joining year.

- (4) Disregard each distribution (if any) of income or capital (within the meaning of that Schedule) made by the joining entity after the joining time, so far as it was made from an amount of the entity's income or capital attributable to a time after the joining time, in working out:

^{*}To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 707-135

- (a) whether section 267-30 in that Schedule requires the joining entity to pass the pattern of distributions test (as defined in that Schedule); and
- (b) whether the joining entity passes that test as required by section 267-30 or 267-35 in that Schedule.

Note: Disregarding that percentage of a distribution may affect a test year distribution of income or a test year distribution of capital, as those terms are defined in section 269-65 in that Schedule, and thus affect whether the joining entity passes the pattern of distributions test under section 269-60 in that Schedule.

707-135 Transferring loss transferred to joining entity because same business test was passed

- (1) This section operates if the loss had been transferred to the joining entity (by a previous operation of this Subdivision) because the entity *from* which the loss was transferred carried on during a particular period the same business as it carried on at a particular time.
- (2) The loss is *not* transferred from the joining entity to the *head company of the joined group (despite section 707-120), unless the joining entity satisfies the *same business test for:
 - (a) the *trial year (the *same business test period*); and
 - (b) the time (the *test time*) just before the end of the income year in which the loss was transferred to the joining entity.

Effect of transfer of loss

707-140 Effect of transfer of loss

- (1) To the extent that the loss is transferred under section 707-120 from the joining entity to the *head company of the joined group, this Act operates (except so far as the contrary intention appears) for the purposes of income years ending after the transfer as if:
 - (a) the head company had made the loss for the income year in which the transfer occurs; and
 - (b) the joining entity had not made the loss for the income year for which the joining entity actually made the loss.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Head company may utilise loss for income year of transfer

- (2) The *head company is not prevented from *utilising the loss for the income year in which the transfer occurs merely because this Act operates as if the head company had made the loss (to the extent of the transfer) for that year.

Debt forgiveness in income year for which loss is made

- (3) If a debt of the *head company of the joined group is *forgiven in the income year in which the transfer occurs, sections 245-115 and 245-130 operate as if the head company had made the loss for an earlier income year.

Note: This subsection has the effect that the loss may be reduced in accordance with one of those subsections by applying the total net forgiven amount for the income year in which the transfer occurs.

Cancelling the transfer of the loss

707-145 Cancelling the transfer of the loss

- (1) The *head company of the joined group may choose to cancel the transfer of the loss.
- (2) If the *head company of the joined group does so, this Act (except this section) operates for all income years ending after the transfer as if it had not occurred under section 707-120.
- (3) The choice cannot be revoked.

What happens if the loss is not transferred?

707-150 Loss cannot be utilised for income year ending after the joining time

To the extent that the loss is *not* transferred under section 707-120 from the joining entity to the *head company of the joined group, the loss cannot be *utilised by any entity for an income year ending after the joining time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 707-B—Can a transferred loss be utilised?

Guide to Subdivision 707-B

707-200 What this Subdivision is about

This Subdivision modifies rules about a company maintaining the same ownership to be able to utilise a loss transferred to it under Subdivision 707-A, and specifies what things happening before the transfer are to be taken into account in working out whether the company can utilise the loss.

Table of sections

Operative provisions

- | | |
|---------|--|
| 707-205 | Modified period for test for maintaining same ownership |
| 707-210 | Utilisation of certain losses transferred from a company depends on company that made the losses earlier |

Operative provisions

707-205 Modified period for test for maintaining same ownership

- (1) This section modifies Divisions 165 and 166 for the purposes of working out whether a company can *utilise a loss of any *sort that it made because of a transfer under Subdivision 707-A.
- (2) Subdivision 165-A and Division 166 operate for those purposes as if the *loss year started at the time of the transfer.

Note 1: This means that the ownership test period defined by subsection 165-12(1) and the test period defined by subsection 166-5(2) start at the time of the transfer.

Note 2: Without this section, those periods would start at the start of the income year in which the transfer occurred, so events occurring before the transfer (such as changes in holdings of voting power, rights to dividends or rights to capital) could affect whether the company could utilise the tax loss or net capital loss.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

707-210 Utilisation of certain losses transferred from a company depends on company that made the losses earlier

- (1) This section has effect for the purposes of working out whether a company (the *latest transferee*) can *utilise for an income year a loss it made because of a *COT transfer from a company (the *latest transferor*).
- (1A) A transfer of a loss under Subdivision 707-A from a company to a company is a **COT transfer** of the loss if the transfer occurs because:
- (a) the transferor meets the conditions in section 165-12; and
 - (b) the conditions in one or more of paragraphs 165-15(1)(a), (b) and (c) do not exist in relation to the transferor.

Meeting conditions in section 165-12

- (2) The latest transferee is taken to meet the conditions in section 165-12 for the income year in relation to the loss if and only if the company (the *test company*) described in subsection (3) would have met those conditions for the income year had the circumstances described in subsection (4) existed.

Note 1: The latest transferee and the test company may be the same company.

Note 2: Section 707-405 may affect the income year for which the test company is treated as having made the loss, if the loss is referable to part of an income year.

- (3) The test company is the first company to make the loss. However, if:
- (a) the loss was made by the latest transferor because of one or more earlier transfers of the loss under Subdivision 707-A from a company to a company; and
 - (b) one or more of those earlier transfers was *not* a *COT transfer;

the test company is the company *to* which the loss was transferred in the most recent transfer described in paragraph (b).

- (4) The circumstances are that:
- (a) the test company was *not* treated by Subdivision 707-A for the income year as not having made the loss; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 707-210

- (b) if the test company made the loss apart from that Subdivision and transferred the loss to itself under that Subdivision—the test company was *not* treated by that Subdivision for the income year as having made the loss for the income year in which the transfer occurred; and
- (c) nothing happened, after the time the loss was transferred from the test company to the *head company of a *consolidated group, to *membership interests or voting power:
 - (i) in an entity that was at that time a *subsidiary member of the group; or
 - (ii) in an entity that was at that time interposed between the test company and the head company;that would affect whether the test company would meet the conditions in section 165-12 for the income year; and
- (d) if the loss has later been transferred under that Subdivision to the head company of another consolidated group—nothing happened, after the time of the later transfer, to membership interests or voting power:
 - (i) in the later transferor; or
 - (ii) in an entity that was at that time interposed between the later transferor and the head company;that would affect whether the test company would meet the conditions in section 165-12 for the income year.

Failing to meet conditions in section 165-12

- (5) The latest transferee is taken to fail to meet a condition in section 165-12 only at:
 - (a) the first time the test company would have failed to meet the condition had the circumstances described in subsection (4) existed; or
 - (b) the test time described in subsection 166-5(6) for the test company, if Division 166 is relevant to working out whether the test company could have *utilised the loss had the circumstances described in subsection (4) existed.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Same business test applying to latest transferee under Division 166

- (6) If subsection 166-5(5) affects whether the latest transferee can *utilise the loss for the income year because the latest transferee is a *widely held company or an *eligible Division 166 company, or both, during the year, subsection 166-5(6) operates as if it required the *same business test to be applied to the *business the latest transferee carried on just before the time described in subsection (5) of this section.

If the test company made the loss because of a transfer

- (7) If the test company made the loss because of a transfer under Subdivision 707-A from another entity, Divisions 165 and 166 operate in relation to the test company for the purposes of subsection (2) as if the test company's *loss year started at the time of the transfer.

Subdivision 707-C—Amount of transferred losses that can be utilised

Guide to Subdivision 707-C

707-300 What this Subdivision is about

Losses transferred to the head company of a consolidated group under Subdivision 707-A can be utilised for an income year only against a fraction of the income or gains remaining after the company has utilised other losses and deductions.

Table of sections

Object

707-305 Object of this Subdivision

How much of a transferred loss can be utilised?

707-310 How much of a transferred loss can be utilised?

707-315 What is a *bundle* of losses?

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 707-305

- 707-320 What is the *available fraction* for a bundle of losses?
- 707-325 *Modified market value* of an entity becoming a member of a consolidated group
- 707-330 Losses transferred from former head company
- 707-335 Limit on utilising transferred losses if circumstances change during income year
- 707-340 Utilising transferred losses while exempt income remains
- 707-345 Other provisions are subject to this Subdivision

Object

707-305 Object of this Subdivision

- (1) The main object of this Subdivision is to limit, in a way that gives effect to the principles in subsections (2) and (3), the amount of losses transferred under Subdivision 707-A that can be *utilised for an income year by the transferee.
- (2) One principle is that the transferee is to *utilise the transferred losses for an income year only to the extent to which it has income or gains for the income year remaining after reduction by its other losses and deductions.
- (3) The other principle is that the amount of a transferred loss that the transferee can *utilise is to reflect the amount of the loss that the transferor could have *utilised for the income year if the transferor of the loss (whether the original maker of the loss or not) had not *become* a *member of a *consolidated group at the time of the transfer.
- (4) To give effect to those principles, this Subdivision operates on the assumption that, if each transferor of a loss to the transferee had not become a *member of a *consolidated group at the time of the transfer:
 - (a) all the transferors of transferred losses to the transferee would have made income or gains for the year whose total did not exceed the transferee's income or gains for the year remaining after reduction by its other losses and deductions; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) a particular transferor's income or gains for the year would have equalled a fraction of the transferee's income or gains for the year remaining after reduction by its other losses and deductions.
- (5) The fraction is worked out by reference to the transferor's *market value at the time of the transfer (on the assumption that market value reflects capacity to generate income or gains in future).

How much of a transferred loss can be utilised?

707-310 How much of a transferred loss can be utilised?

- (1) This section limits the amount of losses in a particular *bundle of losses transferred under Subdivision 707-A that can be *utilised by the transferee. The limit is set by reference to the *available fraction for the bundle.

Note: Section 707-335 of this Act and section 707-350 of the *Income Tax (Transitional Provisions) Act 1997* set different limits on utilising losses in a bundle of losses in certain circumstances.

Basic rule

- (2) The transferee cannot *utilise more of the losses in the *bundle than the transferee would have been able to utilise (apart from this section) under the conditions in subsections (3), (4) and (5).
- (3) The first condition is that the only amount of the transferee's *ordinary income, *statutory income or gains (if any) of a kind described in column 1 of an item of the table for the income year is the *available fraction of the amount worked out as described in column 2 of the item having regard to:
 - (a) the transferee's *ordinary income, *statutory income or gains for the income year apart from this section; and
 - (b) the transferee's deductions for the income year and losses, *except* losses transferred to the transferee under Subdivision 707-A.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 707-310

Income and gains	
Column 1 The transferee's ordinary income, statutory income or gains of this kind:	Column 2 Are worked out by reference to this amount:
1 *Capital gains	The result of: (a) step 2 of the method statement in subsection 102-5(1); or (b) step 3 of the method statement in section 165-111; (as appropriate) for the transferee and the income year
3 *Exempt film income	The transferee's *net exempt film income for the income year remaining after deduction of the transferee's *film losses (if any)
4 *Assessable film income	The transferee's *net assessable film income for the income year remaining after deduction of the transferee's *film losses (if any)
5 *Exempt income other than *exempt film income	The amount of the transferee's *net exempt income for the income year that would have remained after deducting from it the transferee's *tax losses (if any), assuming the amount of that income were what it would have been had the transferee <i>not</i> had *exempt film income for the year
6 Assessable income that is not attributable to *capital gains and is not *assessable film income	The amount (if any) that would have been the transferee's taxable income (if any) for the income year if the transferee had <i>not</i> had for the income year: (a) any *net capital gain; or (b) any *net assessable film income; reduced by the amount (the <i>transferee's grossed-up franking offset amount</i>) worked out in accordance with paragraph (3A)(c)

(3A) For the purposes of subsection (3):

- (a) the transferee's *tax losses to which paragraph (b) of, or the table in, that subsection applies are to be worked out on the assumption that the transferee chooses to deduct under

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

subsection 36-17(2) all of the tax losses and that subsection 36-17(5) does not apply to that choice; and

- (b) except as mentioned in paragraph (a) of this subsection, amounts worked out as described in column 2 of an item of the table in subsection (3) are to be worked out making the same choices as the transferee actually makes in working out its taxable income as stated in its *income tax return for the income year; and
- (c) the transferee's grossed-up franking offset amount mentioned in column 2 of item 6 in the table is the amount worked out using the formula:

$$\frac{1}{\text{*Corporate tax rate for the income year}} \times \text{Franking offsets}$$

where:

franking offsets means the total amount of *tax offsets to which the transferee is entitled for the income year under Division 207 and Subdivision 210-H (except those that are subject to the refundable tax offset rules because of section 67-25).

- (4) The second condition is that once the amounts of the transferee's income or gains have been worked out under subsection (3) they are *not* reduced by:
 - (a) deductions, or losses, other than losses in the *bundle; or
 - (b) taxes or expenses described in subsection 375-805(4) (which is about *net exempt film income).

Note: One of the effects of subsection (4) is that, for working out how much of a film loss in the bundle can be deducted from the transferee's net exempt film income or net assessable film income:

- (a) the transferee's net exempt film income will be the same as its exempt film income worked out under subsection (3); and
 - (b) the transferee's net assessable film income will be the same as its assessable film income worked out under subsection (3).
- (5) The third condition is that once the amounts of the transferee's *exempt income have been worked out under subsection (3), assume that the transferee had no losses, outgoings or taxes described in subsection 36-20(1) (which is about *net exempt

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 707-315

income), in working out how much of a *tax loss in the *bundle can be deducted from the transferee's net exempt income.

707-315 What is a *bundle* of losses?

- (1) A ***bundle*** of losses comes into existence at the time (the ***initial transfer time***) a loss of any *sort that has not previously been transferred under Subdivision 707-A is transferred under that Subdivision from an entity (the ***real loss-maker***) to the *head company of a *consolidated group (the ***joined group***).
- (2) At the initial transfer time, the ***bundle*** consists of every loss (regardless of its *sort) that:
 - (a) is transferred at that time under that Subdivision from the real loss-maker to the *head company of the joined group; and
 - (b) has not been transferred under that Subdivision before that time.

Note: For certain purposes, section 707-327 of the *Income Tax (Transitional Provisions) Act 1997* treats the bundle as including certain other losses too.

- (3) The ***bundle*** still exists at a later time if it includes at that later time at least one loss of any *sort that could be *utilised or otherwise reduced by an entity for an income year ending after that time (even if one or more losses have ceased to be included in the bundle before that later time).

Note: A bundle continues to exist even if the losses in it are transferred again under Subdivision 707-A after the initial transfer time.

- (4) A loss ceases to be included in a *bundle at the first time for which it is true that the loss cannot be *utilised or otherwise reduced by any entity for an income year ending after that time.
- (5) If, had a loss been made by a company as assumed under a provision of Division 170, the loss would have been transferred under Subdivision 707-A, this Subdivision and other provisions that relate to or may affect the *available fractions for one or more *bundles of losses (including sections 707-140 and 719-325) operate as if the transfer had occurred.

Note: Section 707-140 provides for a choice to cancel a transfer under Subdivision 707-A. Section 719-325 provides for a choice to cancel

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

all losses in certain bundles of losses. A choice under one of those sections may result in a bundle not coming into existence, or not being in existence after a certain time.

- (6) To avoid doubt, a choice under section 707-145 or 719-325, as it operates because of subsection (5) of this section, relating to the loss does not affect or prevent:
- (a) a transfer of the loss that would have occurred under Subdivision 707-A as described in another application of that subsection involving a different company; or
 - (b) *utilisation of the loss by the company that actually made the loss and is different from the company assumed under Division 170 to have made the loss.

Note: Therefore a choice under section 707-145 or 719-325, as operating because of subsection (5) of this section, will be able to cause only one bundle not to exist, and will not affect the existence of other bundles that are treated as existing because of other operations of that subsection.

707-320 What is the *available fraction* for a bundle of losses?

- (1) The *available fraction* for a *bundle of losses at a time is:

$$\frac{\text{*Modified market value of the real loss-maker at the initial transfer time}}{\text{Transferee's adjusted market value at the initial transfer time}}$$

where:

transferee's adjusted market value at the initial transfer time

means the amount that would be the *market value, at the initial transfer time, of the transferee to which the losses in the *bundle were transferred at that time if:

- (a) the transferee did not have a loss of any *sort for an income year ending before that time; and
- (b) the balance of the transferee's *franking account were nil at that time.

Note: The value for the transferee will be worked out on the basis that subsidiary members of the consolidated group headed by the transferee are part of the transferee, because of section 701-1 (the single entity rule).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 707-320

- (2) However, if an event described in an item of the table happens, the *available fraction* for the *bundle is reduced or maintained just after the event by multiplying it by the factor identified in the item:

Factors affecting the available fraction		
Item	Event	Factor
1	One or more losses in the *bundle are transferred for the second or subsequent time	The lesser of 1 and this fraction: $\frac{\text{*Market value of the transferor at the time of the transfer}}{\text{*Market value of the transferee at the time of the transfer}}$
2	At the same time as the losses in the *bundle were most recently transferred, losses in one or more other bundles were transferred from the same transferor to the same transferee, and the losses in the bundle or one of the other bundles had not been transferred before	The result of dividing the <i>lesser</i> of: (a) the available fraction (apart from this subsection) for the bundle of losses that had not been transferred before; and (b) 1; by the sum of the available fractions for all the bundles (apart from this item applying to transfers at the time)
3	The company to which the losses in the *bundle were most recently transferred has transferred to it at a later time losses in one or more other bundles	$1 - \frac{\text{Total of the available fractions for the other bundles just after the later time}}{\text{Total of the available fractions for the other bundles just after the later time}}$
4	There is an increase in the *market value of the company to which the losses in the *bundle were most recently transferred, because of an event described in subsection 707-325(4) (but not covered by subsection 707-325(5))	$\frac{\text{*Market value of the company just before the event}}{\text{*Market value of the company just before the event} + \text{Amount of the increase}}$
5	The available fractions (apart from this item) for all the *bundles of losses most recently made by the company that most recently made the losses in the bundle total more than 1.000	$\frac{1}{\text{The total}}$

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

-
- (3) If the transfer under Subdivision 707-A of one or more losses in a *bundle causes events described in 2 or more items of the table in subsection (2) to happen and require calculations of the available fraction for that bundle and for one or more other bundles:
- (a) make the calculations required by those items in the order in which the items appear in the table; and
 - (b) take account of the results of a calculation under an earlier item in making a calculation under a later item.
- (4) For a *bundle of losses:
- (a) subject to paragraph (b)—the *available fraction* is worked out to 3 decimal places, rounding up if the fourth decimal place is 5 or more; or
 - (b) if the available fraction worked out under paragraph (a) is 0.000 and, if it were worked out to more decimal places, it would include one or more non-zero digits—the *available fraction* is worked out to the number of decimal places that includes the first or only such digit, rounding up if the next decimal place is 5 or more.
- Examples: For 0.000328, the available fraction is 0.0003. For 0.000086, the available fraction is 0.00009.
- (4A) Subsections (1) and (2) have effect subject to subsection (4).
- (5) If, apart from this subsection, the *available fraction* for a *bundle of losses would need to be worked out by dividing a number by 0, work out the available fraction by dividing the number by 1.
- (6) The *available fraction* for a *bundle of losses is 0 if, apart from this subsection, it would be negative.

707-325 Modified market value of an entity becoming a member of a consolidated group [see Note 6]

Basic rule

- (1) The *modified market value* of an entity that becomes a *member of a *consolidated group at a particular time is the amount that would be the *market value of the entity at that time if:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 707-325

- (a) the entity had no loss of any *sort for any income year, and the balance of its *franking account at that time were nil; and
- (b) the *subsidiary members of the group at that time were separate entities and not just parts of the *head company of the group; and
- (c) the entity's market value did *not* include an amount attributable (directly or indirectly) to a *membership interest in a member of the group (other than the entity):
 - (i) that is a *corporate tax entity; or
 - (ii) that transferred a loss under Subdivision 707-A to the head company of the group at or before that time; and
- (d) the contribution to the entity's market value made by a trust (other than one that is a member described in paragraph (c)) were limited to the amount attributable to the entity's *fixed entitlements (if any) at that time to income or capital of the trust that is *not* attributable (directly or indirectly) to a membership interest in such a member.

Note 1: Section 707-330 affects the modified market value of an entity that becomes a subsidiary member of the consolidated group, if the entity was the head company of another consolidated group just beforehand.

Note 2: Section 707-325 of the *Income Tax (Transitional Provisions) Act 1997* provides for an entity's modified market value to be increased in certain circumstances for the purposes of working out the available fraction for a bundle of losses transferred from the entity.

Rule to prevent inflation of modified market value

- (2) However, if:
 - (a) one or more of the events described in subsection (4) occurred in the 4 years before the time; and
 - (b) the amount worked out under subsection (1) *exceeds* what it would have been if none of those events had occurred;the **modified market value** of the entity at the time is the amount worked out under subsection (1), reduced by the amount worked out under subsection (3).
- (3) The amount of the reduction is the *lesser* of:
 - (a) the excess described in paragraph (2)(b); and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) the total increase in the *market value of the entity that occurred immediately after each event mentioned in paragraph (2)(a) because of the event.
- (4) These are the events:
 - (a) an injection of capital into the entity or an entity that was an *associate of the entity (or of the trustee of the entity, if the entity is a trust) at the time of the injection;
 - (b) a transaction that:
 - (i) did not take place at arm's length; and
 - (ii) involved the entity or an entity that was an associate of the entity (or of the trustee of the entity, if the entity is a trust) at the time of the transaction.
- (5) For the purposes of paragraph (2)(a), disregard an injection of capital if, and only if, it is made:
 - (a) into a *listed public company through a *dividend reinvestment *scheme involving the issue of a *share in the company to an entity that held a share in the company before the injection; or
 - (b) in association with the acquisition of a *share in a company in relation to which the conditions in subsection 703-35(5) are met; or
 - (c) in association with the acquisition of a *share, in a body corporate, in relation to which the conditions in subsection 703-37(4) are met.

Note 1: Section 703-35 of this Act and section 139CD of the *Income Tax Assessment Act 1936* deal with shares acquired under arrangements for employee shareholdings.

Note 2: Section 703-37 of this Act deals with certain preference shares following an ADI restructure.

707-330 Losses transferred from former head company

- (1) This section has effect for working out the *available fraction for a *bundle of losses if:
 - (a) an entity (the *ex-head company*) becomes a *subsidiary member of a *consolidated group (the *bigger group*) at a time (the *joining time*); and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 707-335

- (b) just before the joining time the ex-head company was the *head company of another consolidated group (the *old group*); and
 - (c) at the joining time the losses are transferred under Subdivision 707-A from the ex-head company to the head company of the bigger group.
- (2) Work out the ex-head company's *modified market value or *market value as if each *member of the bigger group that had been a *subsidiary member of the old group just before the joining time were a part of the ex-head company, and not a separate member of the bigger group, when the transfer occurred.
- (3) Also, work out the ex-head company's *modified market value as if each *subsidiary member of the old group had been a part of the ex-head company while it was a subsidiary member of the old group.

707-335 Limit on utilising transferred losses if circumstances change during income year

- (1) This section limits the amount of losses in a particular *bundle of losses transferred under Subdivision 707-A that can be *utilised by the transferee for an income year if:
 - (a) the losses in the bundle are transferred to the transferee after the start of the income year; or
 - (b) the value of the *available fraction for the bundle changes at a time within the period (the *transferee's loss-holding period*) described in subsection (2).
- (2) The transferee's loss-holding period:
 - (a) starts at the start of the income year or, if the losses in the *bundle were transferred to the transferee from another entity during the income year, at the time of the transfer; and
 - (b) ends when one of these events occurs:
 - (i) the income year ends;
 - (ii) the transferee becomes a *subsidiary member of a *consolidated group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (3) The transferee cannot *utilise for the income year more of the losses than is reasonable having regard to:
- (a) the method in section 707-310 for working out the maximum amount of the losses the transferee could utilise for the income year (apart from this section); and
 - (b) the number of days in the transferee's loss-holding period; and
 - (c) the value or values of the *available fraction for the *bundle during the transferee's loss-holding period; and
 - (d) the number of days in the transferee's loss-holding period for which the available fraction for the bundle has a particular value; and
 - (e) the principle that, if the transferee transferred the losses to itself under Subdivision 707-A after the start of the income year, the amount of the losses it can utilise for the income year should be worked out as if:
 - (i) the losses had been included in the bundle from the start of the income year; and
 - (ii) the available fraction for the bundle had been 1 from the start of the income year until the time of the transfer; and
 - (f) any other relevant matters.
- (4) Section 707-310 has effect subject to this section.

707-340 Utilising transferred losses while exempt income remains

Transferred film losses and net exempt film income

- (1) If:
- (a) the transferee of *film losses in a *bundle of losses has deducted from its *net exempt film income for an income year an amount of those losses that:
 - (i) is equal to the amount of *exempt film income worked out under subsection 707-310(3) for the transferee and the bundle; or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 707-340

- (ii) if section 707-335 affects the transferee's utilisation of losses in the bundle—is reasonable, having regard to that section; and

- (b) the transferee still has net exempt film income for the year and film losses remaining in the bundle;

the fact the transferee still has net exempt film income does not stop it deducting film losses remaining in the bundle from its *net assessable film income for the year.

Transferred tax losses and net exempt income

- (2) If:

- (a) the transferee of *tax losses (other than *film losses) in a *bundle of losses has deducted from its *net exempt income for an income year an amount of its tax losses (other than film losses) in the bundle that:

- (i) is equal to the amount of *exempt income worked out under subsection 707-310(3) for the transferee and the bundle; or

- (ii) if section 707-335 affects the transferee's utilisation of losses in the bundle—is reasonable, having regard to that section; and

- (b) the transferee still has net exempt income for the year and tax losses (other than film losses) remaining in the bundle;

the fact the transferee still has net exempt income does not stop it deducting tax losses (other than film losses) remaining in the bundle from its assessable income for the year.

Limit on deduction

- (3) This section does not allow the deduction for an income year of an amount of losses in a *bundle so as to exceed the limit set by section 707-310 or 707-335 on *utilisation for the year of losses of that *sort in the bundle.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

707-345 Other provisions are subject to this Subdivision

The rules in this Subdivision are additional to the provisions of this Act about *utilising losses that are outside this Subdivision. Those provisions have effect subject to this Subdivision.

Subdivision 707-D—Special rules about losses

Table of sections

707-400	Head company's business before and after consolidation not compared
707-410	Exit history rule does not treat entity as having made a loss
707-415	Application of losses with nil available fraction for certain purposes

707-400 Head company's business before and after consolidation not compared

- (1) If:
 - (a) the *same business test applies to a company that becomes a *head company of a *consolidated group at a time; and
 - (b) apart from this section, the same business test period would start before that time and end after it;the *same business test period* starts at that time (and ends when it would end apart from this section), for the purposes of that application of the same business test.
- (2) Subsection (1) does not apply for the purposes of working out whether the company can transfer to itself a loss under section 707-120.

707-410 Exit history rule does not treat entity as having made a loss

- (1) To avoid doubt, if the *head company of a *consolidated group makes a loss of a particular *sort and an entity ceases to be a *subsidiary member of the group, the entity is *not* taken because of section 701-40 (the exit history rule):
 - (a) to have made the loss; or
 - (b) to have made another loss of the same sort because of the circumstances that caused the head company to make the loss.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 707-415

- (2) It does not matter whether the *head company makes the loss because of a transfer under Subdivision 707-A (whether from the entity or another entity) or because of another provision.

707-415 Application of losses with nil available fraction for certain purposes

- (1) Subsection (2) applies if:
- (a) an entity (the *joining entity*) becomes a *member of a *consolidated group at a time (the *joining time*); and
 - (b) a *tax loss or a *net capital loss was transferred from the joining entity to the *head company of the group at the joining time under Subdivision 707-A; and
 - (c) that loss is included in a *bundle of losses for which the *available fraction is 0.
- (2) The *head company can choose to apply the loss as shown in the table:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Item	If ...	the head company can choose to apply the loss in reduction of ...	for the purposes of ...
1	<p>(a) the joining entity owed a debt just before the joining time to an entity that was not a *member of the group at the joining time; and</p> <p>(b) the loss is wholly or partly attributable to the debt; and</p> <p>(c) Subdivision 245-E (about applying the total net forgiven amount to reduce other amounts) applies in relation to the debt (or another debt that is reasonably connected to the debt) because the debt is *forgiven after the joining time</p>	the *total net forgiven amount	applying that total net forgiven amount in accordance with sections 245-115, 245-130, 245-145 and 245-175
2	<p>(a) the joining entity owed a *limited recourse debt just before the joining time to an entity that was not a *member of the group at the joining time; and</p> <p>(b) Division 243 applies in relation to the debt; and</p> <p>(c) the loss is wholly or partly attributable to a deduction mentioned in paragraph 243-15(1)(c) for an income year ending before the joining time</p>	the deduction	working out the excess referred to in subsection 243-35(1).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 707-415

Item	If ...	the head company can choose to apply the loss in reduction of ...	for the purposes of ...
3	<p>(a) the joining entity ceases to be a *subsidiary member of the group at a time (the <i>leaving time</i>) after the joining time; and</p> <p>(b) the entity's liabilities at the leaving time are the same as, or are reasonably connected to, the liabilities that it had at the joining time</p>	the amount remaining mentioned in paragraph 104-520(1)(b)	working out whether *CGT event L5 happens at the leaving time, and if so, the amount of any *capital gain under subsection 104-520(3).

Limits on application of loss

- (3) The loss can be applied under subsection (2) in relation to an income year only to the extent that it could be *utilised by the *head company for the income year, on the assumption that the *available fraction for the *bundle of losses was 1.
- (4) The amount of the loss that may be applied in accordance with item 1 of the table in subsection (2) cannot exceed the *gross forgiven amount of the debt to which the loss is attributable.
- (5) The amount of the loss that may be applied in accordance with item 2 of the table in subsection (2) cannot exceed the amount of the loss that is attributable to the deduction mentioned in that item.
- (6) For the purposes of item 3 of the table in subsection (2), if:
 - (a) assuming that the joining entity ceased to be a *subsidiary member of the *consolidated group just after the joining time, the *head company of the group would make a *capital gain because of *CGT event L5; and
 - (b) the sum of the losses in the *bundle of losses mentioned in paragraph (1)(c) exceeds the amount of the capital gain; the total amount of those losses that may be applied in accordance with that item cannot exceed the amount of the capital gain.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (7) To avoid doubt, a loss can be applied under this section only to the extent that it has not already been applied.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Division 709—Other rules applying when entities become subsidiary members etc.

Table of Subdivisions

709-A	Franking accounts
709-B	Imputation issues
709-C	Treatment of excess franking deficit tax offsets when entity becomes a subsidiary member of a consolidated group
709-D	Deducting bad debts

Subdivision 709-A—Franking accounts

Guide to Subdivision 709-A

709-50 What this Subdivision is about

Only the head company of a consolidated group has an operating franking account. The subsidiary members' franking accounts do not operate while they are subsidiary members. Debits or credits that would otherwise arise in subsidiary members' franking accounts arise instead in the head company's franking account.

Table of sections

Object

709-55	Object of this Subdivision
--------	----------------------------

Treatment of franking accounts at joining time

709-60	Nil balance franking account for joining entity
--------	---

Treatment of subsidiary member's franking account

709-65	Subsidiary member's franking account does not operate
--------	---

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Treatment of head company's franking account

- 709-70 Credits arising in head company's franking account
- 709-75 Debits arising in head company's franking account

Franking distributions by subsidiary member

- 709-80 Subsidiary member's distributions on employee shares and certain preference shares taken to be distributions by the head company
- 709-85 Non-share distributions by subsidiary members taken to be distributions by head company
- 709-90 Subsidiary member's distributions to foreign resident taken to be distributions by head company

Payment of group liability by former subsidiary member

- 709-95 Payment of group liability by former subsidiary member
- 709-100 Refund of income tax to former subsidiary member

Object

709-55 Object of this Subdivision

The object of this Subdivision is for each *consolidated group to operate what is in substance a single *franking account, by ensuring that:

- (a) there is a nil balance in the franking accounts of entities becoming *subsidiary members of the group; and
- (b) the franking accounts of those subsidiary members do not operate while they are subsidiary members; and
- (c) debits or credits that would otherwise arise in the franking accounts of the subsidiary members arise instead in the franking account of the *head company of the group; and
- (d) the head company is the only *member of the group that can frank distributions.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Treatment of franking accounts at joining time

709-60 Nil balance franking account for joining entity

- (1) This section operates if an entity (the *joining entity*) becomes a *subsidiary member of a *consolidated group at a time (the *joining time*).
- (2) If the joining entity's *franking account is in surplus just before the joining time:
 - (a) a debit equal to the *franking surplus arises at the joining time in the joining entity's franking account; and
 - (b) a credit equal to the franking surplus arises at the joining time in the franking account of the *head company of the group.
- (3) If the joining entity's *franking account is in deficit just before the joining time:
 - (a) a credit equal to the *franking deficit arises at the joining time in the joining entity's franking account; and
 - (b) the joining entity is liable to pay *franking deficit tax as if the joining entity's income year had ended just before the joining time; and
 - (c) despite item 5 of the table in section 205-15, a credit does not arise under that item in the joining entity's franking account because of that liability.

Treatment of subsidiary member's franking account

709-65 Subsidiary member's franking account does not operate

The *franking account of an entity that is a *subsidiary member of a *consolidated group does not operate during the period:

- (a) beginning just after the entity becomes a subsidiary member of the group; and
- (b) ending when the entity ceases to be a subsidiary member of the group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Treatment of head company's franking account

709-70 Credits arising in head company's franking account

- (1) This section operates if a credit would arise in the *franking account of a *subsidiary member of a *consolidated group at a time (the *crediting time*) apart from section 709-65.

- (2) A credit arises in the *franking account of the *head company of the group at the crediting time.

Note: A credit can also arise in the head company's franking account at any time under section 205-15.

- (3) The amount of the credit is the same as the amount of the credit that would arise in the *franking account of the *subsidiary member.

- (4) This section does not apply to a credit arising in the *subsidiary member's *franking account under paragraph 709-60(3)(a).

Note: Such a credit arises if the entity that became the subsidiary member had a deficit in its franking account just before the time it became the subsidiary member. The credit equals the deficit, creating a nil balance in the account from that time.

709-75 Debits arising in head company's franking account

- (1) This section operates if a debit would arise in the *franking account of a *subsidiary member of a *consolidated group at a time (the *debiting time*) apart from section 709-65.

- (2) A debit arises in the *franking account of the *head company of the group at the debiting time.

Note: A debit can also arise in the head company's franking account at any time under section 205-30.

- (3) The amount of the debit is the same as the amount of the debit that would arise in the *franking account of the *subsidiary member.

- (4) This section does not apply to a debit arising in the *subsidiary member's *franking account under paragraph 709-60(2)(a).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 709-80

Note: Such a debit arises if the entity that became the subsidiary member had a surplus in its franking account just before the time it became the subsidiary member. The debit equals the surplus, creating a nil balance in the account from that time.

Franking distributions by subsidiary member

709-80 Subsidiary member's distributions on employee shares and certain preference shares taken to be distributions by the head company

- (1) This section operates if:
- (a) a *subsidiary member of a *consolidated group makes a *frankable distribution; and
 - (b) the distribution is made because an entity (the *shareholder*) owns a *share in the subsidiary member; and
 - (c) the share must be disregarded under subsection 703-35(4) or 703-37(4); and
 - (d) the distribution is made to the shareholder, or to another entity because the shareholder owns the share; and
 - (e) the entity to which the distribution is made is not a *member of the group.

Note 1: Subsection 703-35(4) requires certain shares acquired under employee share schemes to be disregarded.

Note 2: Subsection 703-37(4) requires certain preference shares to be disregarded following an ADI restructure.

- (2) Part 3-6 operates as if the *distribution were a *frankable distribution made by the *head company of the group to a *member of the head company.

Note: Part 3-6 deals with imputation.

709-85 Non-share distributions by subsidiary members taken to be distributions by head company

- (1) This section operates if:
- (a) an entity holds a *non-share equity interest in a *subsidiary member of a *consolidated group; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) the subsidiary member makes a *non-share distribution to the entity as holder of the interest; and
 - (c) the distribution is a *frankable distribution; and
 - (d) the entity to which the distribution is made is not a *member of the group.
- (2) Part 3-6 operates as if the *distribution were a *frankable distribution made by the *head company of the group to a *member of the head company.

Note: Part 3-6 deals with imputation.

709-90 Subsidiary member's distributions to foreign resident taken to be distributions by head company

Part 3-6 operates as if a *frankable distribution made by a *subsidiary member of a *consolidated group (the *foreign-held subsidiary*) were a frankable distribution made by the *head company of the group to a *member of the head company if:

- (a) the foreign-held subsidiary meets the set of requirements in section 703-45, section 701C-10 of the *Income Tax (Transitional Provisions) Act 1997* or section 701C-15 of that Act; and
- (b) the frankable distribution is made to a foreign resident.

Note: Part 3-6 deals with imputation.

Payment of group liability by former subsidiary member

709-95 Payment of group liability by former subsidiary member

- (1) This section operates if:
 - (a) an entity (the *former subsidiary*) ceases to be a *subsidiary member of a *consolidated group (the *old group*) at a particular time (the *leaving time*); and
 - (b) at or after the leaving time, the former subsidiary:
 - (i) *pays a PAYG instalment for which it was jointly and severally liable under subsection 721-15(1) because it was a subsidiary member of the old group; or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 709-100

- (ii) *pays income tax for which it was jointly and severally liable under that subsection because it was a subsidiary member of the old group; and
 - (c) apart from this section, a *franking credit would arise under section 205-15 in the *franking account of the former subsidiary at a time (the *crediting time*) because of that payment.
- (2) The credit:
 - (a) does not arise at the crediting time in the *franking account of the former subsidiary; and
 - (b) instead, arises at the crediting time in the franking account of the entity that was the *head company of the old group at the leaving time.

709-100 Refund of income tax to former subsidiary member

- (1) This section operates if:
 - (a) an entity (the *former subsidiary*) ceases to be a *subsidiary member of a *consolidated group (the *old group*) at a particular time (the *leaving time*); and
 - (b) at or after the leaving time, the former subsidiary *receives a refund of income tax for which it was jointly and severally liable under subsection 721-15(1) because it was a subsidiary member of the old group; and
 - (c) apart from this section, a *franking debit would arise under section 205-30 in the *franking account of the former subsidiary at a time (the *debiting time*) because of that payment.
- (2) The debit:
 - (a) does not arise at the debiting time in the *franking account of the former subsidiary; and
 - (b) instead, arises at the debiting time in the franking account of the entity that was the *head company of the old group at the leaving time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 709-B—Imputation issues**Guide to Subdivision 709-B****709-150 What this Subdivision is about**

This Subdivision modifies the way Division 208 (exempting entities and former exempting entities) operates in relation to consolidated groups.

Table of sections**Operative provisions**

- 709-155 Testing consolidated groups
- 709-160 Subsidiary member is exempting entity
- 709-165 Subsidiary member is former exempting entity
- 709-170 Head company and subsidiary are exempting entities
- 709-175 Head company is former exempting entity

Operative provisions**709-155 Testing consolidated groups**

- (1) To determine whether a *consolidated group is an *exempting entity or *former exempting entity, the tests in Division 208 are applied to the *head company of the group.
- (2) However, there are some additional rules that can alter the way that Division 208 applies to a *consolidated group. These are set out in sections 709-160 to 709-175.
- (3) In applying those rules to an entity that is a *member of a *consolidated group:
 - (a) Division 208 is to be applied before those rules; and
 - (b) that Division is to be applied just after the entity became a member of the group but, for a *subsidiary member, it is to be applied on the assumption that the subsidiary was not a member of the group at that time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 709-160

- (4) Except as mentioned in paragraph (3)(b), Division 208 has no application to a *subsidiary member of a *consolidated group.

709-160 Subsidiary member is exempting entity

- (1) This section operates if:
- (a) the *head company of a *consolidated group is neither an exempting entity nor a *former exempting entity; and
 - (b) a *corporate tax entity becomes a *subsidiary member of the group at a time (the *joining time*); and
 - (c) the entity is an *exempting entity at the joining time.
- (2) These rules apply to the *consolidated group.

Rules applying to *consolidated group	
Item	Rule
1	The *head company becomes a *former exempting entity at the joining time
2	The *head company has both a *franking account and an *exempting account
3	If the *subsidiary member's *franking account has a *franking surplus at the joining time: <ul style="list-style-type: none">(a) a debit equal to that surplus arises in that account at the joining time; and(b) a credit equal to that surplus arises in the *exempting account of the *head company at the joining time
4	Subsection 709-60(2) (about franking surplus) does not apply to the *subsidiary member
5	Item 1 of the table in section 208-115 does not apply to the *head company
6	Item 1 of the table in section 208-120 does not apply to the *head company
7	Item 1 of the table in section 208-130 does not apply to the *head company
8	Item 1 of the table in section 208-145 does not apply to the *head company
	Note 1: If the subsidiary's franking account is in deficit, it will be liable for franking deficit tax: see subsection 709-60(3).
	Note 2: The subsidiary's franking account does not operate while it is a member of the group: see section 709-65.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

709-165 Subsidiary member is former exempting entity

- (1) This section operates if:
 - (a) the *head company of a *consolidated group is neither an exempting entity nor a *former exempting entity; and
 - (b) a *corporate tax entity becomes a *subsidiary member of the group at a time (also the *joining time*); and
 - (c) the entity is a *former exempting entity at the joining time.
- (2) These rules apply to the *consolidated group.

Rules applying to *consolidated group	
Item	Rule
1	The *head company becomes a *former exempting entity at the joining time
2	The *head company has both a *franking account and an *exempting account
3	If the *subsidiary member's *exempting account has an *exempting surplus at the joining time: <ol style="list-style-type: none">(a) a debit equal to that surplus arises in that account at the joining time; and(b) a credit equal to that surplus arises in the exempting account of the *head company at the joining time
4	If the *subsidiary member's *exempting account has an *exempting deficit at the joining time: <ol style="list-style-type: none">(a) a credit equal to that deficit arises in that account at the joining time; and(b) a debit equal to that deficit arises in the subsidiary's *franking account just before the joining time
5	The *subsidiary member's *exempting account does not operate during the period: <ol style="list-style-type: none">(a) starting just after the joining time; and(b) ending when the entity ceases to be a subsidiary member of the group
6	Item 1 of the table in section 208-115 does not apply to the *head company
7	Item 1 of the table in section 208-120 does not apply to the *head company
8	Item 1 of the table in section 208-130 does not apply to the *head company
9	Item 1 of the table in section 208-145 does not apply to the *head company

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 709-170

- Note 1: Any surplus in the subsidiary's franking account will be transferred to the head company's franking account: see subsection 709-60(2).
- Note 2: If the subsidiary's franking account is in deficit, it will be liable for franking deficit tax: see subsection 709-60(3). This deficit may be increased by item 4 in the table in subsection (2).
- Note 3: The subsidiary's franking account does not operate while it is a member of the group: see section 709-65.

709-170 Head company and subsidiary are exempting entities

There is no change to the status of the *head company of a *consolidated group if:

- (a) the head company is an *exempting entity; and
- (b) a *corporate tax entity becomes a *subsidiary member of the group at a time (also the *joining time*); and
- (c) the entity is an exempting entity at the joining time.

- Note 1: If the subsidiary's franking account is in surplus, that surplus will be transferred to the head company's franking account: see subsection 709-60(2).
- Note 2: If the subsidiary's franking account is in deficit, it will be liable for franking deficit tax: see subsection 709-60(3).
- Note 3: The subsidiary's franking account does not operate while it is a member of the group: see section 709-65.

709-175 Head company is former exempting entity

- (1) Subsection (2) operates if:
 - (a) the *head company of a *consolidated group is a *former exempting entity; and
 - (b) a *corporate tax entity becomes a *subsidiary member of the group at a time (also the *joining time*); and
 - (c) the entity is an *exempting entity at the joining time.
- (2) These rules apply to the *consolidated group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Rules applying to *consolidated group

Item	Rule
1	There is no change to the status of the *head company
2	<p>If the subsidiary member's *franking account has a *franking surplus at the joining time:</p> <p>(a) a debit equal to that surplus arises in that account at the joining time; and</p> <p>(b) a credit equal to that surplus arises in the *exempting account of the *head company at the joining time</p>
3	Subsection 709-60(2) (about franking surplus) does not apply to the *subsidiary member
	<p>Note 1: If the subsidiary's franking account is in deficit, it will be liable for franking deficit tax: see subsection 709-60(3).</p> <p>Note 2: The subsidiary's franking account does not operate while it is a member of the group: see section 709-65.</p>
	<p>(3) Subsection (4) operates if:</p> <p>(a) the *head company of a *consolidated group is a *former exempting entity; and</p> <p>(b) a *corporate tax entity becomes a *subsidiary member of the group at a time (also the <i>joining time</i>); and</p> <p>(c) the entity is a *former exempting entity at the joining time.</p> <p>(4) These rules apply to the *consolidated group.</p>

Rules applying to *consolidated group

Subdivision 709-C—Treatment of excess franking deficit tax offsets when entity becomes a subsidiary member of a consolidated group

Guide to Subdivision 709-C

709-180 What this Subdivision is about

This Subdivision provides that any excess in the tax offset arising from a franking deficit tax liability of an entity that becomes a subsidiary member of a consolidated group is transferred to the head company of the group.

Table of sections

709-185	Joining entity's excess franking deficit tax offsets transferred to head company
709-190	Exit history rule not to treat leaving entity as having a franking deficit tax offset excess

709-185 Joining entity's excess franking deficit tax offsets transferred to head company

- (1) This section operates if:
- (a) an entity (the *joining entity*) becomes a *subsidiary member of a *consolidated group at a time (the *joining time*); and
 - (b) the joining entity is entitled to a *tax offset under section 205-70 for the income year that ends or, if subsection 701-30(3) applies, that is taken by subsection (3) of that section to end, at the joining time; and
 - (c) the offset exceeds (the excess being the *joining entity's excess*) the amount that would have been the joining entity's income tax liability for that income year if it did not have that offset (but had all its other tax offsets).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 709-190

Transfer of excess to head company

- (2) For the purpose of applying subsection 205-70(1) to the *head company of the *consolidated group for the income year in which the joining time occurs:
- (a) if the head company does not, after taking into account any application of this section to any other entity that became a *subsidiary member of the group before the joining time, have an excess mentioned in paragraph 205-70(1)(c) for the previous income year—the head company is taken to have an excess mentioned in that paragraph for the previous income year equal to the joining entity's excess; and
 - (b) if the head company does have such an excess—that excess is taken to be increased by the amount of the joining entity's excess.

Joining entity prevented from utilising excess in later income years

- (3) For the purpose of applying subsection 205-70(1) to the joining entity for any income year after that in which the joining time occurs, the joining entity's excess is disregarded.

709-190 Exit history rule not to treat leaving entity as having a franking deficit tax offset excess

To avoid doubt, if:

- (a) the *head company of a *consolidated group is entitled to a *tax offset under section 205-70 for an income year; and
- (b) the offset exceeds the amount that would have been the head company's income tax liability for that income year if it did not have that offset (but had all its other tax offsets); and
- (c) an entity ceases to be a *subsidiary member of the group in the income year;

the entity is *not* taken because of section 701-40 (the exit history rule):

- (d) to have the excess mentioned in paragraph (b); or
- (e) to have another excess of that kind because of the circumstances that caused the head company to have the excess.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 709-D—Deducting bad debts

Guide to Subdivision 709-D

709-200 What this Subdivision is about

An entity can deduct a bad debt that:

- (a) has for a period been owed to a member of a consolidated group; and
- (b) has for another period been owed to an entity that was not a member of that group;

only if each entity that has been owed the debt for such a period could have deducted the debt had it been written off as bad at the end of the period. This applies even if the debt is owed to the same entity for different periods.

Table of sections

Application and object

- 709-205 Application of this Subdivision
- 709-210 Object of this Subdivision

Limit on deduction of bad debt

- 709-215 Limit on deduction of bad debt

Extension of Subdivision to debt/equity swap loss

- 709-220 Limit on deduction of swap loss

Application and object

709-205 Application of this Subdivision

- (1) This Subdivision affects whether an entity (the *claimant*) that is or has been a *member of a *consolidated group and writes off a debt,

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 709-205

or part of a debt, as bad may deduct the debt or part if the conditions in subsection (2) exist.

Note: This Subdivision affects similarly whether an entity that is or has been a member of a consolidated group and extinguishes a debt as part of a debt/equity swap may deduct a loss resulting from the swap. See section 709-220.

- (2) The conditions are that, in the time starting when the debt was incurred (whether to the claimant or another entity) and ending when the claimant wrote off the debt or part:
- (a) the debt was owed to an entity (whether the claimant or another entity) for a period (a *debt test period*) when the entity was a *member of a *consolidated group; and
 - (b) the debt was owed to an entity (whether the claimant or another entity) for a period (also a *debt test period*) when the entity was a *not* a member of that group.

Note 1: The debt must have been owed to the claimant for at least one of the debt test periods for the claimant to have been able to write it off.

Note 2: One effect of section 701-1 (Single entity rule) is that a debt is taken to be owed to the head company of a consolidated group while the debt is owed to a subsidiary member of the group.

- (3) Ignore section 701-5 (Entry history rule) and section 701-40 (Exit history rule) in identifying a debt test period.

Note: Subsection (3) does not affect sections 701-5 and 701-40 so far as they operate to treat the debt, or part of the debt, as having been included in the claimant's assessable income. That inclusion is generally a condition under section 25-35 for the claimant to be able to deduct the debt.

- (4) This Subdivision does not apply in relation to a debt merely because it is assigned:

- (a) from an entity that is a *member of a *consolidated group to an entity that is not a member of that group; or
- (b) from an entity that is not a member of a consolidated group to an entity that is a member of a consolidated group; or
- (c) from an entity that is a member of a consolidated group to an entity that is a member of another consolidated group.

This subsection has effect despite subsections (1) and (2).

Note: There is not an assignment of a debt from one entity to another merely because section 701-1 (Single entity rule) starts or ceases to apply in

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

relation to the entities so that the debt ceases to be a debt owed to one entity and becomes a debt owed to the other entity.

709-210 Object of this Subdivision

The main object of this Subdivision is to ensure that the claimant can deduct the debt, or part of it, only if each entity that was owed the debt for a debt test period could have deducted the debt if it had been written off as bad at the end of the period.

Limit on deduction of bad debt

709-215 Limit on deduction of bad debt

- (1) The claimant can deduct the debt, or part of the debt, if, and only if:
 - (a) section 8-1 or 25-35 permits the deduction (ignoring subsection 25-35(5) and the provisions mentioned in that subsection); and
 - (b) the condition in subsection (2) is met for each debt test period.
- (2) The condition is that the entity that was owed the debt for the debt test period could have deducted the debt for an income year (the ***debt test income year***) starting and ending at the times identified in subsection (3) if:
 - (a) the entity had written off the debt as bad at the end of the period; and
 - (b) these provisions (the ***modified provisions***) had effect as described in this section:
 - (i) sections 165-123 and 165-126 (which are about conditions that must be met for a company to be able to deduct a bad debt);
 - (ii) sections 266-35, 266-85, 266-120, 266-160 and 267-25 in Schedule 2F to the *Income Tax Assessment Act 1936* (which are about conditions that must be met for certain kinds of trusts to be able to deduct a bad debt);
 - (iii) other provisions of this Act so far as they relate to a section listed in subparagraph (i) or (ii); and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 709-215

(c) these provisions did not apply:

- (i) subsections 165-120(2) and (3);
- (ii) section 63G of the *Income Tax Assessment Act 1936*;
- (iii) section 267-65 in Schedule 2F to that Act.

Note 1: Some of the other provisions of this Act that relate to a section listed in subparagraph (2)(b)(i) are sections 165-120, 165-129 and 165-132 and Subdivision 166-C.

Note 2: Some of the other provisions of this Act that relate to a section listed in subparagraph (2)(b)(ii) are sections 266-40, 266-45, 266-90, 266-125, 266-165, 267-30, 267-35, 267-40 and 267-45 in Schedule 2F to the *Income Tax Assessment Act 1936*.

Debt test income year

(3) The table shows when the debt test income year starts and ends.

Start and end of debt test income year			
If:	The start of the debt test income year is:	The end of the debt test income year is:	
1 Both these conditions are met:	The later of these times (or either of them if they are the same):	The end of the income year in which the write-off time occurs	
(a) the entity that is owed the debt for the debt test period is the claimant;			
(b) the period ends at the time (the <i>write-off time</i>) the claimant actually writes off the debt or part of the debt	(a) the start of the income year in which the write-off time occurs;		
	(b) the start of the debt test period		
2 Either:	The later of these times (or either of them if they are the same):	The end of the debt test period	
(a) the entity that is owed the debt for the debt test period is <i>not</i> the claimant; or			
(b) that entity is the claimant but that period ends before the claimant actually writes off the debt or part of the debt	(a) 12 months before the end of the debt test period;		
	(b) the start of the debt test period		

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Continuity periods, ownership test periods and test periods

- (4) For the purposes of subsection (2), the modified provisions have effect as if:
- (a) the ^{*}first continuity period started at the start time shown in the table and ended at the start of the debt test income year; and
 - (b) the ^{*}second continuity period were the debt test income year or, for the purposes of section 165-123 and Subdivision 166-C defining periods by reference to the second continuity period, the period:
 - (i) starting at the start of the debt test income year; and
 - (ii) ending at the end time shown in the table; and
 - (c) each section listed in subparagraph (2)(b)(ii) specified that the test period identified in the section:
 - (i) started at the start time shown in the table; and
 - (ii) ended at the end time shown in the table.

Start time and end time		
If:	The start time is:	The end time is:
1 All these conditions are met: (a) the entity that is owed the debt for the debt test period is the claimant; (b) the period ends at the time (the <i>write-off time</i>) the claimant actually writes off the debt or part of the debt; (c) the claimant is the [*] head company of a [*] consolidated group at the write-off time	The start of the debt test period	The end of the income year in which the write-off time occurs
2 All these conditions are met: (a) the entity that is owed the debt for the debt test period is the claimant; (b) the period ends at the time (the <i>write-off time</i>) the claimant actually writes off the debt or part of the debt; (c) the claimant is <i>not</i> the [*] head company of a [*] consolidated group at the write-off time	Just before the start of the debt test period	The end of the income year in which the write-off time occurs

^{*}To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 709-215

Start time and end time			
If:	The start time is:	The end time is:	
3	The debt test period: (a) starts at a time other than a time when the entity that is owed the debt for the period ceases to be a *member of a *consolidated group; and (b) ends when the entity becomes a member of such a group; (whether or not the entity was the *head company of another such group during the period)	The start of the debt test period	Just after the end of the debt test period
4	Both these conditions are met: (a) the entity that is owed the debt for the debt test period is the *head company of a *consolidated group; (b) the period ends when: (i) a *subsidiary member of the group becomes a *member of another consolidated group; or (ii) the entity ceases to be the head company of the group without becoming a member of another consolidated group	The start of the debt test period	The end of the debt test period
5	The debt test period: (a) starts when the entity that is owed the debt for the period ceases to be a *member of a *consolidated group; and (b) ends later when the entity becomes a member of a consolidated group	Just before the start of the debt test period	Just after the end of the debt test period
(5) For the purposes of subsection (2), the modified provisions have effect as if section 267-25 in Schedule 2F to the <i>Income Tax Assessment Act 1936</i> applied in relation to debts whether they were incurred in the income year or an earlier income year.			

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Test time for same business test under section 165-126

- (6) For the purposes of subsection (2), the modified provisions have effect as if subsection 165-126(2) specified that the test time were the later of these times (or either of them if they are the same):
- (a) the first time at which it is not practicable to show that the company will meet the conditions in section 165-123 (as modified by this section);
 - (b) the time just after the start of the debt test period.

Business at and just after the end of the debt test period

- (7) If:
- (a) the debt test period ends when the entity that was owed the debt for the period becomes a *member of a *consolidated group; and
 - (b) under the modified provisions, the *business that the entity carried on at or just after the end of the period is relevant to the question whether the entity could have deducted the debt as described in subsection (2);
- those provisions have effect for the purposes of that subsection as if the entity carried on at those times the business it carried on just before the end of the period.

Extension of Subdivision to debt/equity swap loss

709-220 Limit on deduction of swap loss

Object

- (1) The object of this section is to limit the circumstances in which an entity can deduct a swap loss (as defined in section 63E of the *Income Tax Assessment Act 1936*) resulting from a debt/equity swap (as defined in that section) to circumstances similar to those in which this Subdivision lets an entity deduct a debt it writes off as bad.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 709-220

Modified operation of sections 709-205, 709-210 and 709-215

- (2) Sections 709-205, 709-210 and 709-215 (except subsection 709-215(2)) apply in relation to the extinction (however described) of a debt as part of a debt/equity swap in the same way as they apply in relation to the writing off of a debt as bad.
- (3) Subsection 709-215(1):
 - (a) applies in relation to a swap loss from a debt/equity swap in the same way as it applies in relation to a debt, or part of a debt; and
 - (b) applies as if paragraph 709-215(1)(a) referred to subsection 63E(3) of the *Income Tax Assessment Act 1936* instead of sections 8-1 and 25-35.
- (4) This section has effect despite subsection 63E(5) of the *Income Tax Assessment Act 1936*.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Division 711—Tax cost setting amount for membership interests where entities cease to be subsidiary members of consolidated groups

Guide to Division 711

711-1 What this Division is about

If an entity ceases to be a subsidiary member of a consolidated group, the tax cost setting amount for the group's membership interests in the entity reflects the group's cost for the entity's net assets.

Table of sections

Application and object of this Division

711-5 Application and object of this Division

Tax cost setting amount for membership interests etc.

- 711-10 Tax cost setting amount worked out under this Division
- 711-15 Tax cost setting amount where no multiple exit
- 711-20 What is the old group's allocable cost amount for the leaving entity?
- 711-25 Terminating values of the leaving entity's assets—step 1 in working out allocable cost amount
- 711-30 What is the head company's terminating value for an asset?
- 711-35 If head company becomes entitled to certain deductions—step 2 in working out allocable cost amount
- 711-40 Liabilities owed to the leaving entity by members of the old group—step 3 in working out allocable cost amount
- 711-45 Liabilities etc. owed by the leaving entity—step 4 in working out allocable cost amount
- 711-55 Tax cost setting amount for membership interests where multiple exit
- 711-65 Membership interests treated as having been acquired before 20 September 1985

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 711-5

- 711-70 Additional integrity rule if membership interests treated as having been acquired before 20 September 1985 under section 711-65—application of Division 149 to head company
- 711-75 Additional integrity rule if membership interests treated as having been acquired before 20 September 1985 under section 711-65—application of CGT event K6

Application and object of this Division

711-5 Application and object of this Division

Application

- (1) This Division has effect:
- (a) for the head company core purposes set out in subsection 701-1(2); and
 - (b) for the entity core purposes set out in subsection 701-1(3);
- if an entity (the ***leaving entity***) ceases to be a *subsidiary member of a *consolidated group (the ***old group***) at a particular time (the ***leaving time***).

Object

- (2) The object of this Division is, when entities cease to be *subsidiary members, to preserve the alignment of the *head company's costs for *membership interests in entities and their assets that is established when entities become subsidiary members.

Note: The reasons for preserving this alignment are set out in subsection 705-10(3).

- (3) This is achieved by recognising the *head company's cost for those interests, just before the leaving time, as an amount equal to the cost of the leaving entity's assets at the leaving time reduced by the amount of its liabilities.
- (4) If multiple entities cease to be *subsidiary members at the same time, the cost of any *membership interests that one holds in another is treated in a similar way.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Tax cost setting amount for membership interests etc.**711-10 Tax cost setting amount worked out under this Division**

If this Division applies, the amount of the following is worked out under the Division:

- (a) the *tax cost setting amount for the purposes of item 2 in the table in section 701-60 for each *membership interest in the leaving entity that *members of the old group held; and
- (b) if 2 or more entities cease to be *subsidiary members of the group at the same time because of an event happening in relation to one of them—the tax cost setting amount for the purposes of item 4 in the table in that section for each membership interest that the leaving entity holds in any of the other entities.

711-15 Tax cost setting amount where no multiple exit

- (1) The *tax cost setting amount for each *membership interest in the leaving entity that *members of the old group held, where paragraph 711-10(b) does not apply, is worked out by:
 - (a) first, working out the old group's *allocable cost amount for the leaving entity in accordance with section 711-20; and
 - (b) next, if there is more than one class of membership interests in the leaving entity—allocating the allocable cost amount to each class in proportion to the *market value of all of the membership interests in the class; and
 - (c) next, allocating the result under paragraph (a) or (b) to each of the membership interests, or membership interests in the class, by dividing the result by the number of those membership interests; and
 - (d) finally, if the leaving entity is a trust—for each membership interest in the trust that satisfies these conditions:
 - (i) it is neither a unit nor an interest in the trust;
 - (ii) the member of the old group that held it began to hold it only because money or property was settled on the trust;
 - (iii) it either had no *cost base or it had a cost base of nil;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-90 Consolidated groups

Division 711 Tax cost setting amount for membership interests where entities cease to be subsidiary members of consolidated groups

Section 711-20

reducing the result under paragraph (c) to nil.

Note: Compare the treatment of such interests when an entity joins a group: see section 713-20.

Non-membership equity interests

- (2) For the purposes of this section, if at the leaving time a *member of the old group holds a *non-membership equity interest in the leaving entity, that non-membership equity interest is treated as if:
- (a) it were a *membership interest in the leaving entity; and
 - (b) it were of a different class than any other membership interest in the leaving entity.

711-20 What is the old group's *allocable cost amount* for the leaving entity?

- (1) Work out the old group's *allocable cost amount* for the leaving entity in this way:

Working out the old group's allocable cost amount for the leaving entity		
Step	What the step requires	Purpose of the step
1	Start with the step 1 amount worked out under section 711-25, which is about the *terminating values of the leaving entity's assets just before the leaving time.	To ensure that the allocable cost amount includes the cost of the assets.
2	Add to the result of step 1 the step 2 amount worked out under section 711-35, which is about the value of deductions inherited by the leaving entity that are not reflected in the *terminating value of the leaving entity's assets just before the leaving time.	To ensure that the value of the deductions is reflected in the allocable cost amount.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Working out the old group's allocable cost amount for the leaving entity

Step	What the step requires	Purpose of the step
3	Add to the result of step 2 the step 3 amount worked out under section 711-40, which is about liabilities owed by *members of the old group to the leaving entity at the leaving time.	To ensure that the liabilities, which are not recognised while the leaving entity is taken to be part of the *head company by subsection 701-1(1), are reflected in the allocable cost amount.
4	Subtract from the result of step 3 the step 4 amount worked out under section 711-45, which is about: (a) the leaving entity's liabilities just before the leaving time; and (b) *membership interests in the leaving entity that are not held by *members of the old group.	To ensure that the allocable cost amount is reduced to reflect the liabilities and the value of the membership interests.
5	If the amount remaining after step 4 is positive, it is the old group's allocable cost amount for the leaving entity. Otherwise the old group's allocable cost amount is nil.	

Note: If the amount remaining after step 4 is negative, the head company is taken to have made a capital gain equal to the amount: see CGT event L5.

Recalculation in order to work out amount of capital loss

- (2) If it is necessary to work out whether the *head company makes a capital loss for a *CGT event that happens at or after the leaving time in relation to any of the *membership interests, the old group's allocable cost amount for the leaving entity is instead worked out as if the head company's *terminating value for any asset covered by subsection 705-30(4) (as it applies for the purposes of section 711-30) were instead equal to the asset's *reduced cost base just before the leaving time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 711-25

711-25 Terminating values of the leaving entity's assets—step 1 in working out allocable cost amount

- (1) For the purposes of step 1 in the table in subsection 711-20(1), the step 1 amount is worked out by adding up the *head company's *terminating values of all the assets that the head company holds at the leaving time because the leaving entity is taken by subsection 701-1(1) (the single entity rule) to be a part of the head company.

Goodwill

- (2) If loss of control and ownership of the leaving entity by the *head company would decrease the *market value of the goodwill associated with assets or businesses of the old group (other than those of the leaving entity), the head company's *cost base of the asset consisting of goodwill that it holds at the leaving time because of its control and ownership of the leaving entity is added to the step 1 amount.

Note: If the asset arose because the head company acquired control and ownership of a joining entity, subsection 705-35(3) would have applied in relation to the joining entity. The asset could also have arisen e.g. because the head company acquired a business from an entity without acquiring the entity.

Increase in step 1 amount for certain former privatised assets

- (3) If:
- (a) the *head company of the old group *holds a *depreciating asset at the leaving time because the leaving entity is taken by subsection 701-1(1) (the single entity rule) to be a part of the head company; and
 - (b) the asset's *tax cost was set at the *tax cost setting amount when an entity (whether the leaving entity or another entity) became a *subsidiary member of the old group; and
 - (c) the tax cost setting amount for the asset was reduced because of section 705-47 (which is about certain assets that were *privatised assets);
- the amount of the reduction is added to the step 1 amount.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Increase in step 1 amount for certain privatised assets

- (4) If:
- (a) the *head company of the old group *holds a *depreciating asset at the leaving time because the leaving entity is taken by subsection 701-1(1) (the single entity rule) to be a part of the head company; and
 - (b) the first element of the *cost of the asset was worked out by reference to subsection 58-70(5) because a *member of the old group acquired the asset as described in subsection 58-5(4) on or after 1 July 2002; and
 - (c) the amount of the first element of the cost of the asset is *less* than the amount it would have been apart from item 11 of the table in subsection 40-180(2) (which makes subsection 58-70(5) relevant to working out that element);
- the difference between the amounts is added to the step 1 amount.

711-30 What is the head company's *terminating value* for an asset?

- (1) The *head company's *terminating value* for an asset that it holds at the leaving time because the leaving entity is taken by subsection 701-1(1) to be a part of the head company is worked out as follows.
- (2) The amount is worked out by applying section 705-30 in a corresponding way to the way that section applies to work out the *terminating value for an asset that a joining entity holds at the joining time.
- (3) However, that amount is the asset's *market value at the leaving time if:
 - (a) the asset is a right to receive lease payments under a lease; and
 - (b) the asset's *tax cost was set when an entity (whether the leaving entity or another entity) became a *subsidiary member of the old group; and
 - (c) the asset was taken to be a *retained cost base asset for the purposes of Division 705 when its tax cost was set, because of paragraph 705-56(3)(b).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 711-35

**711-35 If head company becomes entitled to certain deductions—
step 2 in working out allocable cost amount**

- (1) Work out the step 2 amount for the purposes of the table in subsection 711-20(1) by multiplying all deductions covered by subsection (2) by the *corporate tax rate.
- (2) This subsection covers any deduction to which the leaving entity becomes entitled under section 701-40 as a result of the leaving entity ceasing to be a *subsidiary member of the old group, other than a deduction for expenditure:
 - (a) that is, forms part of or reduces, the cost of an asset that becomes an asset of the leaving entity because subsection 701-1(1) (the single entity rule) ceases to apply; or
 - (b) to which section 110-40 (about expenditure on assets acquired before 7.30 pm on 13 May 1997) applies.
- (3) Subsection (2) does *not* cover a deduction under section 43-15 (which relates to *undeducted construction expenditure) if, because of section 701-40 (the exit history rule), the leaving entity is taken to have *acquired the asset to which the deduction relates at or before 7.30 pm, by legal time in the Australian Capital Territory, on 13 May 1997.

711-40 Liabilities owed to the leaving entity by members of the old group—step 3 in working out allocable cost amount

- (1) For the purposes of step 3 in the table in subsection 711-20(1), the step 3 amount is the total, for all liabilities owed by *members of the old group to the leaving entity at the leaving time, of the *market values of the corresponding assets of the leaving entity.

Where cost of liability is less than its market value

- (2) However, if subsection (3) applies to any of the liabilities, the cost amount mentioned in that subsection, instead of the *market value, is to be used under subsection (1) for the liability in working out the step 3 amount.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (3) This subsection applies to a liability if:
- (a) the *member of the old group would have made a *capital gain or a *capital loss for the *CGT event that, disregarding subsection 701-1(1) (the single entity principle), would have happened when the liability arose; and
 - (b) the amount (the *cost amount*) of:
 - (i) if the CGT event is or would have been CGT event D1—the *incidental costs; or
 - (ii) if the CGT event is CGT event D2, D3 or F1—the expenditure incurred; or
 - (iii) in any other case—the *cost base or *reduced cost base; that would be taken into account is less than the *market value of the liability.

711-45 Liabilities etc. owed by the leaving entity—step 4 in working out allocable cost amount

- (1) For the purposes of step 4 in the table in subsection 711-20(1), the step 4 amount is worked out by adding up the amounts of each thing (an *accounting liability*) that, in accordance with the leaving entity's *accounting principles for tax cost setting, is a liability of the leaving entity just before the leaving time.

Leaving entity's accounting principles for tax cost setting

- (1A) The leaving entity's *accounting principles for tax cost setting* are the *accounting principles that the group would use if it were to prepare its financial statements just before the leaving time (disregarding subsection 701-1(1) (the single entity rule)).

Exclusion where transfer of accounting liability

- (2) An amount is not to be added for an accounting liability that arises because of the leaving entity's ownership of an asset if, on *disposal of the asset, the accounting liability will transfer to the new owner.

Example: A liability to rehabilitate a mine site, where, under legislation or a licence, the liability will be transferred to the new owner on disposal of the mine.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 711-45

Exclusion where liability is obligation to make finance lease payments

- (2A) An amount is not to be added for an accounting liability that is the leaving entity's obligation as lessee to make lease payments under a lease, if:
- (a) subsection 705-56(4) applied in relation to the liability, at a time when an entity (whether the leaving entity or another entity) became a *subsidiary member of the old group; and
 - (b) the liability was *not* taken into account under subsection 705-70(1) at that time, because of paragraph 705-56(4)(b).

Reduction for future deduction

- (3) If some or all of an accounting liability will result in a deduction to the leaving entity, the amount to be added for the accounting liability is reduced by the following amount:

$$\left[\text{Deduction} \times \text{*Corporate tax rate} \right] - \text{Double-counting adjustment}$$

where:

double-counting adjustment means the amount of any reduction that has already occurred in the accounting liability under subsection (1) to take account of the future availability of the deduction.

Amount for intra-group liabilities

- (4) If an accounting liability of the leaving entity is owed to a *member of the old group, the amount to be added for the liability is the *market value of the corresponding asset of the member.

Adjustment for unrealised gains and losses

- (5) If, for income tax purposes, an accounting liability, or a change in the amount of an accounting liability, (other than one owed to a *member of the old group) is taken into account at a later time than is the case in accordance with the leaving entity's *accounting principles for tax cost setting, the amount to be added for the accounting liability is equal to the payment that would be

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

necessary to discharge the liability just before the leaving time without an amount being included in the assessable income of, or allowable as a deduction to, the *head company.

Note: An example is accrued employee leave entitlements or foreign exchange gains and losses.

Increase in step 4 amount for employee share interests

- (6) If any *membership interest (an ***employee share interest***) in the leaving entity needed to be disregarded under section 703-35 in order for the leaving entity to be a *wholly-owned subsidiary of the *head company at the leaving time, the step 4 amount is increased by the sum of the *market values of those interests.

Increase to cover ADI restructure preference share interests

- (6A) If any *share in the leaving entity needed to be disregarded under section 703-37 in order for the leaving entity to be a *wholly-owned subsidiary of the *head company at the leaving time, the step 4 amount is increased by the sum of the *market values of those shares.

Increase for non-share capital account balance

- (6B) The step 4 amount is increased by the amount that would be the balance of the leaving entity's *non-share capital account, assuming that:
- (a) if the leaving entity is not a company—the leaving entity were a company; and
 - (b) each *non-membership equity interest (if any) in the leaving entity held at just before the leaving time by a person other than a *member of the old group were a *non-share equity interest in the leaving entity; and
 - (c) the non-share equity interests (if any) mentioned in paragraph (b) were the only non-share equity interests in the leaving entity.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 711-45

Increase to cover certain equity interests

- (7) The step 4 amount is increased by the *market value of each thing that, in accordance with the leaving entity's *accounting principles for tax cost setting, is equity in the leaving entity at the leaving time, where the thing is also a *debt interest.

Adjustment where amount of liability differed for purpose of calculating allocable cost amount on entry

- (8) Subsection (10) applies if:
- (a) either:
 - (i) an amount (the ***exit liability amount***) was added for a particular liability under subsection (5); or
 - (ii) a particular liability is covered by subsection (5), but no amount was added for it under that subsection (in which case the ***exit liability amount*** is zero); and
 - (b) the liability was taken into account in working out the *allocable cost amount (the ***original entry ACA***) for a *subsidiary member (whether or not the leaving entity) of the old group in accordance with Division 705; and
 - (c) the exit liability amount is not the same as the amount (the ***entry liability amount***) of the liability that was taken into account in working out the original entry ACA, after any adjustments made under:
 - (i) section 705-70, 705-75 or 705-80; and
 - (ii) subsection (9) of this section; and
 - (d) if the liability is a provision for annual leave or long service leave, or a provision for a liability contingent on a future event:
 - (i) in the case of a liability that was, in accordance with the *accounting principles that the entity would have used if it had prepared its financial statements just before the time it became a subsidiary member of the group, a current liability of the entity at that time—the leaving time occurs less than 1 year after that time; or
 - (ii) otherwise—the leaving time occurs less than 4 years after that time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 711-55

- (9) Make these adjustments to the entry liability amount if, at a time when the leaving entity was a *subsidiary member of the old group, the *head company of the group paid an amount that reduced the liability:
- (a) reduce the entry liability amount by the amount of the reduction; and
 - (b) if the payment gave rise to an amount being included in the assessable income of the head company—after making the reduction in paragraph (a), further reduce the entry liability amount by the product of:
 - (i) the amount included in assessable income; and
 - (ii) the *corporate tax rate; and
 - (c) if the payment gave rise to a deduction for the head company—after making the reduction in paragraph (a), increase the entry liability amount by the product of:
 - (i) the amount deducted; and
 - (ii) the corporate tax rate.
- (10) The step 4 amount is altered by:
- (a) if the entry liability amount exceeds the exit liability amount—increasing the step 4 amount by the excess; or
 - (b) if the entry liability amount falls short of the exit liability amount—decreasing the step 4 amount by the shortfall.

711-55 Tax cost setting amount for membership interests where multiple exit

- (1) If 2 or more entities cease to be *subsidiary members of the old group at the same time because of an event happening in relation to one of them, the *tax cost setting amount for each *membership interest mentioned in paragraphs 711-10(a) and (b) is worked out in accordance with this section.

Object

- (2) The object of this section is to ensure that the *tax cost setting amount for *membership interests that each entity holds in another entity reflects a proportion of the other entity's cost for its net assets.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 711-55

Tax cost setting amounts to be worked out for certain membership interests in all of the entities

- (3) A *tax cost setting amount must be worked out for each *membership interest (the **subject interest**) that one of the entities holds in another of the entities just before the leaving time, and this must be done:
- (a) by applying section 711-15 to the subject interest as if:
 - (i) a reference in that section, or any provision of this Division that relates to it, to any membership interest that *members of the old group hold in the leaving entity were a reference to the subject interest; and
 - (ii) a reference in that section, or any provision of this Division that relates to it, to liabilities owed by members of the old group included a reference to liabilities owed by any of the entities that cease to be *subsidiary members of the old group at the leaving time; and
 - (b) by working out the tax cost setting amount for membership interests in entities that are held by other entities before working out the tax cost setting amount for membership interests in those other entities.

Tax cost setting amount for membership interests acquired by head company

- (4) Then work out the *tax cost setting amount mentioned in paragraph 711-10(a) for the *membership interests held by the *head company in the same way as under section 711-15.

Note: In doing so, tax cost setting amounts worked out under subsection (3) of this section for membership interests held by the leaving entity in other entities will be taken into account in working out the allocable cost amount for the leaving entity. Those tax cost setting amounts will in turn have been affected by any other tax cost setting amounts worked out under subsection (3) for membership interests in other entities.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

*Tax cost setting amount for membership interests acquired by
leaving entity*

- (5) The *tax cost setting amount mentioned in paragraph 711-10(b) for *membership interests of which the leaving entity becomes the holder will be one of the tax cost setting amounts worked out under subsection (3) of this section.

Example: Companies A, B, C, D and E are all subsidiary members that leave the old group at the same time. Just before the leaving time, company A owned shares in company B and company C, and company B owned shares in companies D and E.

First, work out company A's tax cost setting amount for membership interests in company C and company B's tax cost setting amount for membership interests in companies D and E by applying section 711-15 in accordance with paragraph (3)(a) above.

Next, work out company A's tax cost setting amount for membership interests in company B under that section as so applied, taking into account the tax cost setting amount just worked out for company B's assets consisting of shares in companies D and E.

Finally, work out the head company's tax cost setting amount for membership interests in company A under section 711-15 in accordance with subsection (4) above, taking into account the tax cost setting amounts worked out for companies B and C.

711-65 Membership interests treated as having been acquired before 20 September 1985

When this section applies

- (1) This section applies unless:
- (a) Subdivision 705-C (about one group joining another consolidated group) applies in relation to the old group; and
 - (b) the leaving entity is a *subsidiary member of the old group.
- (1A) To avoid doubt, this section applies regardless of whether the leaving entity ceases to be a *subsidiary member of the old group at the leaving time because another entity also ceases to be a subsidiary member of the old group at the leaving time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 711-65

Interests treated as if purchased before 20 September 1985

- (2) If this section applies, a number of the *membership interests in the leaving entity that *members of the old group hold are taken to have been acquired before 20 September 1985.

Number of pre-CGT membership interests

- (3) The number is the result of the formula in subsection (4), rounded down to:
- (a) the nearest whole number if the result is not already a whole number; or
 - (b) zero if the result is a number more than zero but less than one.

Formula

- (4) The formula is:

$$\text{Number of * membership interests in leaving entity held by *members of old group} \times \text{Leaving entity's pre-CGT proportion}$$

where:

leaving entity's pre-CGT proportion is the amount worked out under section 705-125.

Dealing with classes of membership interests

- (6) If there are 2 or more classes of *membership interests in the leaving entity, this section operates separately in relation to each class as if the interests in that class were all the interests in the entity.

Allocation of the number to particular membership interests

- (7) The *head company must choose which particular *membership interests comprise the number worked out under subsection (2).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Modification if leaving entity is a trust

- (8) If the leaving entity is a trust, a *membership interest in it is not taken into account under this section unless the membership interest is either a unit or an interest in the trust.

711-70 Additional integrity rule if membership interests treated as having been acquired before 20 September 1985 under section 711-65—application of Division 149 to head company

- (1) This section applies if:
- (a) the leaving entity held assets at the time it became a *subsidiary member of the old group (disregarding subsection 701-1(1) (the single entity rule)); and
 - (b) some or all of the assets:
 - (i) stopped being *pre-CGT assets under Division 149 at a time (the **Division 149 time**) when the *head company of the group held them under subsection 701-1(1) (the single entity rule); or
 - (ii) would have stopped being pre-CGT assets under Division 149 at a time (also the **Division 149 time**) when the head company of the group held them under subsection 701-1(1) (the single entity rule) if they had been pre-CGT assets just before that time; and
 - (c) the leaving entity was a subsidiary member of the group at that time.
- (2) The *pre-CGT proportion of the leaving entity at the leaving time is taken to be nil.
- (3) Adjust the old group's *allocable cost amount for the leaving entity as follows:
- (a) if the amount under subsection (4) exceeds the amount under subsection (6)—increase the allocable cost amount by the excess;
 - (b) if the amount under subsection (4) falls short of the amount under subsection (6)—reduce the allocable cost amount by the shortfall.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 711-75

- (4) Subject to subsection (5), the amount under this subsection is:
 - (a) if Subdivision 705-A applied in relation to the leaving entity at the time it became a *subsidiary member of the old group—the total of the amounts that were taken into account under subsection 705-65(1) for *membership interests in the leaving entity at that time; or
 - (b) otherwise—assuming that Subdivision 705-A had applied in relation to the leaving entity at the time it became a subsidiary member of the old group, the total of the amounts that would have been taken into account under subsection 705-65(1) for membership interests in the leaving entity at that time.
- (5) For the purposes of subsection (4), if a *membership interest in the leaving entity was covered under paragraph 705-125(2)(a) (pre-CGT interests) when it became a *subsidiary member of the old group, treat the amount that was taken into account for the membership interest under subsection 705-65(1) as the interest's *market value just after the Division 149 time.
- (6) The amount under this subsection is the old group's *allocable cost amount for the leaving entity, worked out on the assumption that the leaving entity ceased to be a *subsidiary member of the old group just after the Division 149 time.

711-75 Additional integrity rule if membership interests treated as having been acquired before 20 September 1985 under section 711-65—application of CGT event K6

- (1) This section applies if the leaving entity ceases to be a *subsidiary member of the old group because of a situation giving rise to *CGT event A1, C2, E1, E2 or E8 in relation to one or more *membership interests in the leaving entity.
- (2) For the purposes of applying subsections 104-230(2) and (8) in relation to those *membership interests:
 - (a) disregard subsection 701-1(1) (the single entity rule) in working out the *net value of the leaving entity; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) treat the reference in subsection 104-230(2) to “Just before the other event happened” as a reference to “Just before the leaving time”.

Note 1: The single entity rule will continue to apply in determining whether the property mentioned in subsection 104-230(2) for the leaving entity was acquired on or after 20 September 1985.

Note 2: However, in a case of multiple exit from a consolidated group (see section 711-55), the property mentioned in subsection 104-230(2) for the leaving entity may include membership interests in another entity leaving the group at the leaving time. To determine which of those membership interests were acquired on or after 20 September 1985 for the purposes of applying subsection 104-230(2) to the leaving entity, see section 711-65.

- (3) In determining the sum of the *cost bases of the property mentioned in subsection 104-230(6), treat the cost base of an asset that is included in that property as:
- (a) if the asset has its *tax cost set at the leaving time under section 701-50—its *tax cost setting amount; or
 - (b) if the *terminating value of the asset is taken into account in working out the step 1 amount under section 711-25 for the leaving entity—that terminating value; or
 - (c) if the asset is taken into account in working out the step 3 amount under section 711-40 for the leaving entity—the value of the asset that is so taken into account.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Division 713—Rules for particular kinds of entities

Table of Subdivisions

713-A	Trusts
713-C	Some unit trusts treated like head companies of consolidated groups
713-E	Partnerships
713-L	Life insurance companies
713-M	General insurance companies

Subdivision 713-A—Trusts

Table of sections

Working out a joined group's allocable cost amount for a joining trust

713-20	Increasing the step 1 amount for settled capital that could be distributed tax free in respect of discretionary interests
713-25	Undistributed, realised profits that accrue to joined group before joining time and could be distributed tax free—step 3 in working out allocable cost amount

Determining destination of distribution by non-fixed trust

713-50	Factors to consider
--------	---------------------

Working out a joined group's allocable cost amount for a joining trust

713-20 Increasing the step 1 amount for settled capital that could be distributed tax free in respect of discretionary interests

- (1) The object of this section is to increase the step 1 amount worked out under section 705-65 (for the purpose of working out the joined group's allocable cost amount) if:
 - (a) the joining entity is a trust; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) some or all of the *membership interests in the trust are neither units nor interests in the trust; and
- (c) some or all of the trust capital is settled capital that could be distributed tax free at the joining time.

The increase in the step 1 amount takes account of the settled capital that could be distributed tax free.

Note 1: As a result, the settled capital that could be distributed tax free is treated in a way that is analogous to the group's cost of acquiring the trust: see subsection 705-10(2).

Note 2: Paragraph (1)(b) reflects the position that a distribution in respect of a unit or interest in the trust is generally covered by CGT event E4 and so is not tax-free: see section 104-70.

- (2) The step 1 amount worked out under section 705-65 is increased by the amount worked out under the following method statement if, at the joining time, there are *membership interests (the ***discretionary interests***) in the trust each of which satisfies these conditions:
- (a) it is neither a unit nor an interest in the trust;
 - (b) the entity that owned it at the joining time began to own it only because money or property was settled on the trust;
 - (c) it either has no *cost base or it has a cost base of nil.

Note: If a membership interest has a cost base greater than nil, the cost base is already taken into account in working out the step 1 amount under section 705-65.

Method statement

Step 1. Add up:

- (a) each amount settled on the trust before or at the joining time; and
- (b) the *market value of each item of property settled on the trust before or at the joining time, worked out as at when the item was settled;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-20

except to the extent that that amount or market value forms part of the *cost base of a *membership interest in the trust that was taken into account in working out the step 1 amount under section 705-65.

Step 2. Work out how much of the step 1 amount would have been paid in respect of the discretionary interests if, at the joining time:

- (a) the entire trust capital and trust income had been realised and distributed; and
- (b) the trust had ended.

Note: This may involve determining how a power of appointment would have been exercised. Section 713-50 lists matters to have regard to in determining this.

Step 3. Reduce the step 2 amount by so much of it as:

- (a) would have been included in the assessable income of any *member of the trust who owned any of the discretionary interests at the joining time; or
- (b) would have been taken into account in working out a *capital gain or *capital loss made by such a member.

Step 4. Work out how much of the step 1 amount consists of one or more of these:

- (a) an amount settled on the trust directly by the *head company of the *consolidated group (whether or not the group was in existence when the amount or item was settled on the trust);

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

<p>(b) an amount settled on the trust directly by any other entity <i>not</i> excluded by subsection (3) (which covers entities that are not independent and unconnected donors to the trust);</p> <p>(c) the *market value of an item of property settled on the trust directly by the head company;</p> <p>(d) the market value of an item of property settled on the trust directly by any other entity <i>not</i> excluded by subsection (3).</p> <p>Step 5. The step 1 amount worked out under section 705-65 is increased by the <i>lesser</i> of:</p> <p>(a) the step 3 amount worked out under this method statement; and</p> <p>(b) the step 4 amount worked out under this method statement.</p>
--

- (3) This subsection excludes these entities for the purposes of step 4 of the method statement in subsection (2):

Entities that are not independent and unconnected donors to the trust

Item This entity is excluded:

1	An entity that is a *member of the *consolidated group at the joining time
2	An entity that has been a *member of the *consolidated group at any time before the joining time, even if it was not such a member when it settled the amount or item of property on the joining entity
3	An entity that, because of a *scheme, will or may become a *member of the *consolidated group at some time after the joining time
4	An entity that, when the amount or item of property was settled on the joining entity, was an *associate of an entity covered by item 1, 2 or 3

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-25

Entities that are not independent and unconnected donors to the trust

Item	This entity is excluded:
5	An entity that, in settling the amount or item of property on the joining entity, acted in accordance with the directions, instructions or wishes of one or more entities, at least one of which is covered by item 1, 2, 3 or 4 (whether those directions, instructions or wishes were communicated directly or indirectly, including through interposed entities)
6	A company or trust that an entity covered by item 1, 2 or 3 would be taken to *control (for value shifting purposes) when the company or trust settled the amount or item of property on the joining entity, if each entity covered by item 1, 2, 3 or 4 had been at that time an *associate of every other entity covered by item 1, 2, 3 or 4
7	A partnership if, when the partnership settled the amount or item of property on the joining entity, a *member of the partnership was an entity covered by item 1, 2, 3, 4 or 6

713-25 Undistributed, realised profits that accrue to joined group before joining time and could be distributed tax free—step 3 in working out allocable cost amount

- (1) For the purposes of step 3 in the table in section 705-60, if the joining entity is a trust, the step 3 amount is the sum of the trust's realised profits, to the extent that:
 - (a) they accrued to the joined group before the joining time (as defined in subsection 705-90(7)); and
 - (b) as at the joining time, they have not been distributed to *members of the trust; and
 - (c) if each of them were distributed as mentioned in paragraphs 705-90(7)(a) and (b):
 - (i) they would be distributed *otherwise* than in respect of a unit or an interest in the trust; or
 - (ii) their non-assessable parts for the purposes of section 104-70 would be disregarded in working out whether or not a *capital gain had been made because of CGT event E4;

except to the extent that they recouped losses of any *sort that accrued to the joined group before the joining time (as defined in subsection 705-90(8)).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note: If the joining entity, or an entity interposed between the head company and the joining entity, is a non-fixed trust, this section may involve determining how a power of appointment would have been exercised. Section 713-50 lists matters to have regard to in determining this.

Trusts not covered

- (2) Subsection (1) does not apply to a trust that is a *corporate tax entity at the joining time.

Note: This excludes corporate unit trusts and public trading trusts, which are covered by the imputation system.

Determining destination of distribution by non-fixed trust

713-50 Factors to consider

In working out, for the purposes of this Part, how much of something a *non-fixed trust would have distributed to an entity, or in respect of a *membership interest in the trust, have regard to all relevant factors, including:

- (a) the pattern of any previous distributions by the trust; and
- (b) by whom the trust has from time to time been *controlled (for value shifting purposes).

Subdivision 713-C—Some unit trusts treated like head companies of consolidated groups

Guide to Subdivision 713-C

713-120 What this Subdivision is about

A corporate unit trust or public trading trust can sometimes choose to form a consolidated group and be treated like a company and head company of the group. The treatment affects the trust, the trustee and other entities connected with the trust (such as members of the trust and entities the trustee holds membership interests in).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Table of sections

Object of this Subdivision

713-125 Object of this Subdivision

Choice to form a consolidated group

713-130 Choosing to form a consolidated group

Effects of choice

713-135 Effects of choice

713-140 Modifications of the applied law

Object of this Subdivision

713-125 Object of this Subdivision

- (1) The main object of this Subdivision is to provide, by the means described in subsections (2) and (3), for certain unit trusts to be treated like companies, and therefore like *head companies of *consolidated groups, with consequent effects on other entities including:
 - (a) the trustees; and
 - (b) *members of the trusts; and
 - (c) entities the trustees hold *membership interests in.
- (2) The first means is letting a *corporate unit trust, or *public trading trust, that could become the *head company of a *consolidated group if the trust were a company, choose to form such a group (with other entities as *subsidiary members).
- (3) The second means is changing the way in which the law relating to income tax applies on and after the time the choice takes effect, so that law (with some modifications) applies in relation to the trust or the trustee (as appropriate) in a way corresponding to the way in which that law applies in relation to a company.

Note: The law relating to income tax includes legislation relating to associated imposts (such as those connected with the imputation system).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Choice to form a consolidated group

713-130 Choosing to form a consolidated group

A trust may make a choice under section 703-50 (Choice to consolidate a consolidatable group), as if the trust were a company (the *assumed company*), but only if:

- (a) the assumed company could make the choice, if it beneficially owned the *membership interests in other entities that are legally owned by the trustee; and
- (b) the day specified in the choice is the first day of an income year for which the trust is a *corporate unit trust or a *public trading trust.

Note: Assuming that a trust is a company also involves assuming:

- (a) that the company has characteristics of the trust, such as the location of the central management and control (which is relevant to residence), the business of the trust, not being incorporated etc.; and
- (b) that membership interests in the trust are membership interests in the company (owned by the same persons and in the same way as membership interests in the trust are owned); and
- (c) that the company's taxable income is taxed at the same rate as the trust's net income.

Effects of choice

713-135 Effects of choice

- (1) If the trust makes the choice, the law (the *applied law*) described in subsection (2) applies in relation to the trust in a way corresponding to the way in which that law applies to a company. The applied law applies in that way in relation to the trust or trustee (as appropriate):
 - (a) with the appropriate modifications (including those described in section 713-140, so far as they are appropriate); and
 - (b) in relation to all times at or after the start of the day specified in the choice; and
 - (c) so far as it is relevant to the operation of the applied law in relation to the trust and a time at or after the start of that

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-135

day—in relation to a time when the trust existed before the start of that day.

- Note 1: The application of the applied law in this way affects not only the trust and the trustee but also other entities connected with the trust, such as members of the trust and entities in which the trustee holds membership interests. Some examples of that effect are that:
- (a) a consolidated group comes into existence on the day specified in the choice; and
 - (b) there may be a scrip for scrip roll-over for an entity exchanging its shares in a company for membership interests in the trust.
- Note 2: The application of the applied law in this way involves treatment of characteristics, things and persons relating to the trust corresponding to the treatment by the applied law of analogous characteristics, things and persons relating to a company (as envisaged in the note to section 713-130). These are some examples of analogous things and analogous persons:
- (a) units in the trust and shares in a company;
 - (b) unitholders in the trust and shareholders in a company;
 - (c) trust voting interests and voting shares in a company.

(2) The applied law is:

- (a) this Act (other than this Subdivision); and
- (b) an Act that imposes any impost payable under this Act; and
- (c) the *Income Tax Rates Act 1986*; and
- (d) the *Taxation Administration Act 1953*, so far as it relates to an Act covered by paragraph (a), (b) or (c); and
- (e) any other Act, so far as it relates to an Act covered by paragraph (a), (b), (c) or (d); and
- (f) regulations and other legislative instruments under an Act covered by any of the preceding paragraphs.

(3) Subsection (1) does not make an entity liable to a criminal, civil or administrative penalty.

- Note: An entity is liable to such a penalty under the applied law only if that law, as it applies apart from subsection (1), makes the entity liable.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

713-140 Modifications of the applied law

Overview

- (1) This section describes modifications of the applied law in its application in relation to a trust or trustee under section 713-135, but does not limit the modifications of that law that are appropriate for the purposes of that section.

General modifications

- (2) A reference in the applied law to a thing or person described in column 2 of an item of the table includes a reference to a thing or person described in column 3 of the item.

General modifications		
Column 1 Item	Column 2 A reference in the applied law to:	Column 3 Includes a reference to:
1	A body corporate	The trust or trustee (as appropriate)
2	A dividend	A distribution from the trust, so far as the distribution is from profits
3	A share capital account	The amount of the trust estate that is <i>not</i> attributable to profits
4	A director (of a company, body corporate or corporation)	The trustee or, if the trustee is a body corporate, a director of the trustee (as appropriate)

Note: An expression in column 2 of an item of the table has the meaning that the expression has in the provision of the applied law containing the reference.

- (3) The trust is not covered by a reference in the applied law to a trust.

Note: Subsections (3) and (4) of this section do not affect an entity's liability for criminal, civil and administrative penalties under the applied law, as those subsections modify (so far as appropriate) the applied law as it applies because of subsection 713-135(1), and that subsection does not affect liability for such penalties (see subsection 713-135(3)).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-90 Consolidated groups

Division 713 Rules for particular kinds of entities

Section 713-140

- (4) The trustee is not covered by a reference in the applied law to a trustee (except a reference in section 254 of the *Income Tax Assessment Act 1936*).

Note: Section 254 of the *Income Tax Assessment Act 1936* deals with obligations and liabilities of trustees.

Modifications of specific provisions

- (5) A provision of an Act identified in an item of the table is modified as set out in the item.

Modifications of specific provisions			
Item	Act(s)	Provision	Modification
1	<i>Income Tax Assessment Act 1936</i>	Subsection 128TK(2)	The subsection has effect as if it did not refer to the purposes of Division 4 of Part 3.6 of the <i>Corporations Act 2001</i> .
2	<i>Income Tax Assessment Act 1936</i>	Paragraph 128TK(4)(b)	The paragraph has effect as if it referred to a person or firm who is eligible to consent to being appointed as the auditor of a company in accordance with the <i>Corporations Act 2001</i> .
3	<i>Income Tax Assessment Act 1997</i>	Division 83A	The Division does not apply in relation to an *ESS interest acquired under an *employee share scheme before the day specified in the choice if the Division did not apply in relation to the interest before that day.
4	<i>Income Tax Assessment Act 1997</i> and <i>Income Tax (Transitional Provisions) Act 1997</i>	Part 3-90 (of each Act)	The Part has effect as if an entity were a *wholly-owned subsidiary of the trust if the entity would have been one had the trustee owned beneficially *membership interests in the entity that the trustee owned legally.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 713-E—Partnerships

Guide to Subdivision 713-E

713-200 What this Subdivision is about

This Subdivision modifies tax cost setting rules in Divisions 701, 705 and 711 so that they take account of the special characteristics of partnerships. The modifications apply in these situations:

- (a) an entity that is a partner in a partnership becomes a subsidiary member of a consolidated group;
- (b) a partnership becomes, or ceases to be, a subsidiary member of a consolidated group.

Table of sections

Objects

713-205 Objects of this Subdivision

Partnership cost setting interests etc.

713-210 Partnership cost setting interests

713-215 Terminating value for partnership cost setting interest

Setting tax cost of partnership cost setting interests

713-220 Set tax cost of partnership cost setting interests if partner joins consolidated group

713-225 Tax cost setting amount for partnership cost setting interest

Special rules where partnership joins consolidated group

713-235 Partnership joins group—set tax cost of partnership assets

713-240 Partnership joins group—tax cost setting amount for partnership asset

Special rules where partnership leaves consolidated group

713-250 Partnership leaves group—standard provisions modified

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-205

- 713-255 Partnership leaves group—tax cost setting amount for partnership cost setting interests
- 713-260 Partnership leaves group—tax cost setting amount for assets consisting of being owed certain liabilities
- 713-265 Partnership leaves group—adjustments to allocable cost amount of partner who also leaves group

Objects

713-205 Objects of this Subdivision

- (1) The first object of this Subdivision is to ensure that if:
 - (a) an entity that is a partner in a partnership becomes a *subsidiary member of a *consolidated group; and
 - (b) the partnership does not become a *subsidiary member of the group;the provisions mentioned in subsection (3) operate as if the *partnership cost setting interests of the entity in the partnership were the entity's only assets relating to the partnership.

Note: In general, the head company of the consolidated group is treated as a partner in the partnership, in accordance with section 701-1 (the single entity rule).

- (2) The second object of this Subdivision is to ensure that where a partnership becomes a *subsidiary member of a *consolidated group, the provisions mentioned in subsection (3) operate:
 - (a) as if the group became the holder of the assets of the partnership; and
 - (b) to set the *tax cost of the assets of the partnership at an appropriate amount, taking into account the taxation treatment of partnerships.

Note: While the partnership is a subsidiary member of the group, it loses its separate tax identity (under the single entity rule in subsection 701-1(1)). Therefore, in general, the assets of the partnership are treated as assets of the head company of the group and partnership cost setting interests in the partnership are ignored.

- (3) The provisions are:
 - (a) section 701-10 (about setting the tax cost of assets of an entity joining a group); and
 - (b) Subdivision 705-A; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (c) any other provision of this Act giving Subdivision 705-A a modified effect in circumstances other than those covered by that Subdivision.

Note: An example of provisions covered by paragraph (c) are the provisions of Subdivision 705-B giving Subdivision 705-A a modified effect when a consolidated group is formed.

- (4) The third object of this Subdivision is to ensure that, where a partnership ceases to be a *subsidiary member of a *consolidated group, the provisions mentioned in subsection (5) operate:
 - (a) as if the group's *partnership cost setting interests were the group's only assets relating to the partnership; and
 - (b) to set the *tax cost of those interests at an appropriate amount, taking into account the fact that the group ceases to be the holder of the assets of the partnership.
- (5) The provisions are:
 - (a) sections 701-15 and 701-50 (about setting the tax cost of membership interests in an entity that leaves the group); and
 - (b) sections 701-20 and 701-45 (about the cost of assets consisting of certain liabilities owed by or to an entity that leaves the group); and
 - (c) Division 711.

Partnership cost setting interests etc.

713-210 Partnership cost setting interests

A *partnership cost setting interest* in a partnership is the asset that is comprised of:

- (a) an interest in an asset of the partnership; or
- (b) an interest in the partnership that is not covered by paragraph (a);

but does not include an asset that is comprised of a *membership interest in the partnership.

Note 1: A partner may have more than one partnership cost setting interest that relates to an asset of the partnership (see section 106-5).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-215

Note 2: A partnership cost setting interest may relate to an asset of the partnership, but the asset of the partnership is not a partnership cost setting interest in the partnership.

713-215 Terminating value for partnership cost setting interest

- (1) This section modifies the way in which the *terminating value of a *partnership cost setting interest in a partnership is worked out under section 705-30.
- (2) For the purposes of this Subdivision, the *terminating value of the *partnership cost setting interest at a time is:
 - (a) if the interest relates to an asset of the partnership—the interest’s individual share of the terminating value of that asset (worked out in accordance with subsection (3)) at that time; or
 - (b) otherwise—the terminating value of the interest at that time worked out under section 705-30.
- (3) To work out the amount of the *terminating value of the asset of the partnership mentioned in paragraph (2)(a), apply section 705-30 as if:
 - (a) the time mentioned in subsection (2) were the joining time mentioned in that section; and
 - (b) the partnership were, at the time mentioned in subsection (2), the joining entity mentioned in that section.

Setting tax cost of partnership cost setting interests

713-220 Set tax cost of partnership cost setting interests if partner joins consolidated group

- (1) This section applies if an entity (the *joining entity*) that is a partner in a partnership becomes a *subsidiary member of a *consolidated group at a time (the *joining time*).

Note: If the partnership becomes a subsidiary member of the group at the joining time, the application of this section is affected by section 713-235.

- (2) In applying the provisions mentioned in subsection 713-205(3) in relation to the joining entity:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (a) work out the *tax cost setting amount for each *partnership cost setting interest in the partnership that the joining entity holds at the joining time, in accordance with section 713-225; and
- (b) except for the purposes of section 713-235 (which applies only if the partnership joins the group), do not work out tax cost setting amounts for the assets of the partnership; and
- (c) do not work out tax cost setting amounts for the *membership interests in the partnership held by the joining entity.

Note 1: Because of paragraphs (b) and (c), no amount of allocable cost amount for the joining entity is allocated to the assets of the partnership, or to membership interests in the partnership held by the joining entity.

Note 2: If assets of the partnership are held on revenue account, the related partnership cost setting interests held by the joining entity have their tax cost set at the joining time. However, that tax cost does not alter calculations of the net income or exempt income of the partnership, or of a partnership loss, for the purposes of section 92 of the *Income Tax Assessment Act 1936*.

713-225 Tax cost setting amount for partnership cost setting interest

- (1) This section modifies the way in which the *tax cost setting amounts are worked out under Division 705 for the *partnership cost setting interests mentioned in paragraph 713-220(2)(a).

Partnership cost setting interest takes character of partnership asset—general

- (2) Work out the *tax cost setting amounts for those *partnership cost setting interests as if any partnership cost setting interest that relates to an asset (the ***underlying partnership asset***) of the partnership were an asset of the same kind as the underlying partnership asset.

Note: The kinds of assets mentioned in subsection (2) include the following:

- (a) retained cost base assets;
- (b) reset cost base assets that are held on revenue account (however, if such assets are trading stock or depreciating assets, the special rule in subsection (4) will apply) or on capital account;
- (c) excluded assets (see subsection (3));
- (d) current assets (within the meaning of subsection 705-125(2)).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-225

Example: The partnership has an asset that is Australian currency (which is a retained cost base asset). A partnership cost setting interest of the joining entity in that asset is treated as a retained cost base asset for the purpose of working out the tax cost setting amounts for the joining entity's partnership cost setting interests in the partnership.

Partnership cost setting interest takes character of partnership asset—excluded assets

(3) If:

- (a) tax cost setting amounts were to be worked out for the assets of the partnership under Division 705; and
- (b) in working out those amounts, the underlying partnership asset mentioned in subsection (2) would be an excluded asset for the purposes of section 705-35;

then subsection (2) operates so that the *tax cost setting amounts for those *partnership cost setting interests are worked out as if any partnership cost setting interest that relates to the underlying partnership asset were an excluded asset for the purposes of section 705-35.

Special character of partnership cost setting interest in partnership asset that is trading stock, a depreciating asset or a registered emissions unit

(4) Despite subsection (2), if an asset of the partnership is *trading stock, a *depreciating asset or a *registered emissions unit, work out the *tax cost setting amounts for those *partnership cost setting interests as if:

- (a) a partnership cost setting interest relating to that asset were a *retained cost base asset; and
- (b) the tax cost setting amount for that partnership cost setting interest were equal to its *terminating value (worked out in accordance with section 713-215).

Partnership liabilities—working out allocable cost amount

(6) If:

- (a) in accordance with the *accounting principles that the partnership would use if it were to prepare its financial statements just before the joining time, a thing (the

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

partnership liability) is a liability of the partnership at the joining time; and

- (b) for that reason, the partnership liability is not an accounting liability of the joining entity at the joining time for the purposes of section 705-70;

then sections 705-70, 705-75 and 705-80 operate as if the partnership liability were an accounting liability of the joining entity at the joining time, to the extent of the joining entity's individual share of the partnership liability.

Partnership deductions—working out allocable cost amount

- (7) Section 705-115 operates as if:
 - (a) a deduction to which the partnership is entitled (the *partnership deduction*) were a deduction to which the joining entity was entitled, to the extent of the joining entity's individual share of the partnership deduction; and
 - (b) the deduction to which the joining entity was entitled were of the same kind as the partnership deduction.

Note: These kinds of deductions include acquired deductions and owned deductions (within the meaning of section 705-115).

Special rules where partnership joins consolidated group

713-235 Partnership joins group—set tax cost of partnership assets

- (1) This section applies if a partnership becomes a *subsidiary member of a *consolidated group at a time (the *joining time*).
- (2) In applying the provisions mentioned in subsection 713-205(3) in relation to the partnership:
 - (a) do not work out an allocable cost amount for the partnership; and
 - (b) work out the *tax cost setting amount for each asset of the partnership covered by subsection (3), in accordance with section 713-240.

Note: If a partner in the partnership becomes a subsidiary member of the group at the joining time, tax cost setting amounts are worked out for the assets of the partner (including partnership cost setting interests)

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-240

before tax cost setting amounts are worked out for the assets of the partnership.

- (3) An asset of the partnership at the joining time is covered by this subsection, unless it would be an excluded asset for the purposes of section 705-35 on the assumption that tax cost setting amounts were worked out for the assets of the partnership under Division 705 (instead of section 713-240).

713-240 Partnership joins group—tax cost setting amount for partnership asset

- (1) Work out the *tax cost setting amounts for the assets covered by subsection 713-235(3) as follows:
- (a) firstly, add up the subsection (2) amounts for all the partnership cost setting interests in the partnership at the joining time (the result is the *partnership cost pool*);

Note 1: Partnership cost setting interests held by a partner that becomes a subsidiary member of the group at the joining time are included in the calculation in paragraph (a). The operation of the cost setting rules in relation to that partner at the joining time may affect the subsection (2) amounts for those interests.

Note 2: Partnership cost setting interests are included in the calculation in paragraph (a), even if the cost setting rules have not applied in relation to the interests (for example, if the interests were acquired directly by the head company).
 - (b) secondly, work out the tax cost setting amounts for the assets covered by subsection 713-235(3) that are *retained cost base assets, in accordance with section 705-25;
 - (c) thirdly, work out the tax cost setting amounts for the rest of the assets covered by subsection 713-235(3), in accordance with subsection (3).

Subsection (2) amount for a partnership cost setting interest

- (2) For the purposes of paragraph (1)(a), the subsection (2) amount for a *partnership cost setting interest is the amount specified in the following table:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Working out the subsection (2) amount		
Item	If the market value of the partnership cost setting interest is ...	the subsection (2) amount for the partnership cost setting interest is ...
1	equal to or greater than its *cost base	its cost base
2	less than its *cost base but greater than its *reduced cost base	its *market value
3	less than or equal to its *reduced cost base	its reduced cost base

Allocating partnership cost pool to partnership assets that are not retained cost base assets

- (3) Work out the *tax cost setting amounts for the assets mentioned in paragraph (1)(c) by applying sections 705-35, 705-40, 705-45 and 705-47 to those assets, as if:
 - (a) the partnership were, at the joining time, the joining entity mentioned in those sections; and
 - (b) the assets of the partnership were the assets covered by subsection 713-235(3); and
 - (c) the allocable cost amount mentioned in paragraph 705-35(1)(a) were the partnership cost pool.
- (4) For the purposes of this section, section 104-510 (CGT event L3) applies as if the group's allocable cost amount for the entity mentioned in that section were the partnership cost pool.

Special rules where partnership leaves consolidated group

713-250 Partnership leaves group—standard provisions modified

- (1) This section applies if a partnership ceases to be a *subsidiary member of a *consolidated group at a time (the *leaving time*).

Note: The section applies whether or not any partner that is a subsidiary member of the group also ceases to be a subsidiary member at the leaving time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (2) Apply the provisions mentioned in subsection 713-205(5) subject to the modifications in the provisions that follow under this *group heading.

713-255 Partnership leaves group—tax cost setting amount for partnership cost setting interests

Overview

- (1) Instead of working out *tax cost setting amounts for *membership interests in the partnership, a special rule requires *partnership cost setting interests in the partnership to be worked out. Where other entities cease to be *subsidiary members at the same time, the normal tax cost setting amount rules are applied for membership interests in the other entities, but the special rule is applied for partnership cost setting interests in the partnership.

Tax cost setting amounts for membership interests in partnership not to be worked out

- (2) Do not work out *tax cost setting amounts for *membership interests in the partnership.

Partnership is only entity that exists—tax cost setting amount for partnership cost setting interests

- (3) Except where the partnership ceases to be a *subsidiary member in circumstances covered by subsection (5), work out in accordance with subsection (4) the *tax cost setting amount just before the leaving time for each *partnership cost setting interest in the partnership held by a partner that is a *member of the group just before the leaving time.

Tax cost setting amount

- (4) The *tax cost setting amount is equal to the partner's individual share of the *terminating value of the partnership asset to which the *partnership cost setting interest relates.

Note: For income tax purposes there is no disposal by the head company of any assets of the partnership when it ceases to be a subsidiary member of the group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Multiple exit case—tax cost setting amounts for both partnership cost setting interests in partnership and membership interests in other entities

- (5) If the partnership is one of 2 or more entities that cease to be *subsidiary members of the old group at the same time because of an event happening in relation to one of them, apply section 711-55 as if:
- (a) except in paragraph 711-55(3)(a), a reference to *membership interests in an entity, or to the *tax cost setting amount for such interests, where the entity is the partnership, were a reference to *partnership cost setting interests in the partnership, or to the tax cost setting amount for such interests; and
 - (b) paragraph 711-55(3)(a) were replaced by a requirement that, where the entity in which the membership interests mentioned in subsection 711-55(3) are held is the partnership, subsection (4) of this section is to be applied in working out the tax cost setting amount of the partnership cost setting interests in the partnership.

713-260 Partnership leaves group—tax cost setting amount for assets consisting of being owed certain liabilities

- (1) This section applies if:
- (a) when the partnership ceases to be a *subsidiary member of the group, a partner remains a *member of the group; and
 - (b) an asset becomes an asset of the *head company because subsection 701-1(1) (the single entity rule) ceases to apply to the partnership when it ceases to be a subsidiary member; and
 - (c) the asset is, ignoring that subsection:
 - (i) the partner's interest in an asset of the partnership consisting of a liability of a member of the group owed to the partnership; or
 - (ii) the partner's share of a liability of the partnership owed to a member of the group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-265

- (2) The asset's *tax cost is set at the leaving time at a *tax cost setting amount equal to the *market value of the asset.

713-265 Partnership leaves group—adjustments to allocable cost amount of partner who also leaves group

- (1) This section has effect in working out the group's *allocable cost amount for a partner in the partnership, if the partner ceases to be a *subsidiary member of the group at the leaving time.
- (2) Section 711-35 operates as if:
- (a) a deduction to which the partnership becomes entitled (the *partnership deduction*) were a deduction to which the partner becomes entitled, to the extent of the partner's individual share of the partnership deduction; and
 - (b) the deduction to which the partner becomes entitled were of the same kind as the partnership deduction.

Note: These kinds of deductions include acquired deductions and owned deductions (within the meaning of section 711-35).

- (3) Section 711-40 operates as if a liability owed by *members of the group to the partnership at the leaving time were a liability owed by members of the group to the partner at that time, to the extent of the partner's individual share of the liability.
- (4) If:
- (a) in accordance with the *accounting principles that the partnership would use if it were to prepare its financial statements just before the leaving time (disregarding subsection 701-1(1) (the single entity rule)), a thing (the *partnership liability*) is a liability of the partnership just before the leaving time; and
 - (b) for that reason, the partnership liability is not an accounting liability of the partner just before the leaving time for the purposes of section 711-45;
- then section 711-45 operates as if the partnership liability were an accounting liability of the partner just before the leaving time, to the extent of the partner's individual share of the partnership liability.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 713-L—Life insurance companies

Guide to Subdivision 713-L

713-500 What this Subdivision is about

This Subdivision sets out special rules for:

- (a) a life insurance company that becomes, or ceases to be, a member of a consolidated group; and
- (b) the head company of a consolidated group where a life insurance company is a subsidiary member of the group.

Table of sections

General modifications for life insurance companies

- 713-505 Head company treated as a life insurance company
- 713-510 Certain subsidiaries of life insurance companies cannot be members of consolidated group
- 713-510A Disregard single entity rule in working out certain amounts in respect of life insurance company

Life insurance companies' liabilities on joining consolidated group

- 713-511 Treatment of certain liabilities for income year when life insurance company joins consolidated group

Tax cost setting rules for life insurance companies joining consolidated group

- 713-515 Certain assets taken to be retained cost base assets where life insurance company joins group
- 713-520 Valuing certain liabilities where life insurance company joins group
- 713-525 Obligation to value certain assets and liabilities at joining time

Losses of life insurance companies joining consolidated group

- 713-530 Treatment of certain losses of life insurance company

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-505

Losses of life insurance companies' subsidiaries joining consolidated group

- 713-535 Losses of entities whose membership interests are complying superannuation/FHSA assets of life insurance company
- 713-540 Losses of entities whose membership interests are segregated exempt assets of life insurance company

Imputation rules for life insurance companies joining consolidated group

- 713-545 Treatment of franking surplus in franking account of life insurance subsidiary joining group
- 713-550 Treatment of head company's franking account after joining

Liabilities for life insurance companies leaving consolidated group

- 713-565 Treatment of certain liabilities for income year when life insurance company leaves consolidated group

Losses for life insurance companies leaving consolidated group

- 713-570 Certain losses transferred to leaving company

Tax cost setting rules for life insurance companies leaving consolidated group

- 713-575 Terminating value of certain assets where life insurance company leaves group
- 713-580 Valuing certain liabilities where life insurance company leaves group
- 713-585 Obligation to value certain assets and liabilities at leaving time

General modifications for life insurance companies

713-505 Head company treated as a life insurance company

This Act, and the *Income Tax Rates Act 1986*, apply to the *head company of a *consolidated group as if it were a *life insurance company for an income year if one or more life insurance companies are *subsidiary members of the group at any time during that year.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

713-510 Certain subsidiaries of life insurance companies cannot be members of consolidated group

- (1) An entity cannot be a *subsidiary member of a *consolidated group or *consolidatable group of which a *life insurance company is a *member if:
- (a) the life insurance company owns, either directly or indirectly through one or more interposed entities, all the *membership interests in the entity and either:
 - (i) some, but not all, of the membership interests described in subsection (3) (the **key interests**) are *complying superannuation/FHSA assets of the life insurance company; or
 - (ii) some, but not all, of the key interests are *segregated exempt assets of the life insurance company; or
 - (b) the life insurance company owns, either directly or indirectly through one or more interposed entities, only some of the membership interests in the entity and any of the key interests are complying superannuation/FHSA assets or segregated exempt assets of the life insurance company.

Note: The entity could, however, be a member of another consolidated group or consolidatable group.

- (2) An entity cannot continue to be a *subsidiary member of a *consolidated group of which a *life insurance company is a *member if:
- (a) the life insurance company owns, either directly or indirectly through one or more interposed entities, all the *membership interests in the entity and, had the entity not been a subsidiary member of the group, either:
 - (i) some, but not all, of the membership interests described in subsection (3) (the **key interests**) would be *complying superannuation/FHSA assets of the life insurance company; or
 - (ii) some, but not all, of the key interests would be *segregated exempt assets of the life insurance company; or
 - (b) the life insurance company owns, either directly or indirectly through one or more interposed entities, only some of the

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-510A

membership interests in the entity and, had the entity not been a subsidiary member of the group, any of the key interests would be complying superannuation/FHSA assets or segregated exempt assets of the life insurance company.

- (3) The key interests are the *membership interests the *life insurance company owns directly in:
- (a) the entity; or
 - (b) an interposed entity.

713-510A Disregard single entity rule in working out certain amounts in respect of life insurance company

- (1) This section applies if a *life insurance company is a *member of a *consolidated group.
- (2) However, if the *life insurance company is a *subsidiary member of the group, this section does not apply:
- (a) for the purposes of working out the *tax cost setting amount of an asset of the life insurance company when it becomes a subsidiary member of the group; and
 - (b) for the purposes of working out the tax cost setting amount of a *membership interest in the life insurance company if it ceases to be a subsidiary member of the group.
- (3) Disregard section 701-1 (the single entity rule) in working out any of the following for the purposes of Division 320 in relation to the *life insurance company:
- (a) amounts of the *head company's ordinary income and statutory income derived from *segregated exempt assets that are not assessable income and are not *exempt income under paragraph 320-37(1)(a);
 - (b) the head company's taxable income of the *complying superannuation/FHSA class (see section 320-137);
 - (c) the head company's *tax loss of the complying superannuation/FHSA class (see section 320-141);
 - (d) the total *transfer value of the head company's *complying superannuation/FHSA assets (see paragraph 320-175(1)(a));

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (e) the amount of the head company's *complying superannuation/FHSA liabilities (see paragraph 320-175(1)(b));
- (f) the total transfer value of the head company's segregated exempt assets (see paragraph 320-230(1)(a));
- (g) the amount of the head company's *exempt life insurance policy liabilities (see paragraph 320-230(1)(b)).

Life insurance companies' liabilities on joining consolidated group

713-511 Treatment of certain liabilities for income year when life insurance company joins consolidated group

- (1) This section affects how paragraph 320-15(1)(h) and section 320-85 apply if:
 - (a) a *life insurance company becomes a *subsidiary member of a *consolidated group at a time (the *joining time*); and
 - (b) just before the joining time, the life insurance company had one or more liabilities under the *net risk components of life insurance policies.

Note: Paragraph 320-15(1)(h) and section 320-85 both operate on the basis of a comparison of the value of the company's liabilities under the net risk components of life insurance policies at the end of the current year with the value of those liabilities at the end of the previous year, so that:

- (a) that paragraph includes an amount in the company's assessable income for the current year if the value at the end of the current year is less than the value at the end of the previous income year; and
- (b) that section allows a deduction for the current year if the value at the end of the current year is more than the value at the end of the previous income year.

- (2) The object of this section is to ensure that the *head company of the *consolidated group bears the income tax consequences relating to a change in *value of the liabilities only after the joining time.

Note: The life insurance company bears the income tax consequences relating to a change in value of the liabilities before the joining time, because section 701-30 ensures that paragraph 320-15(1)(h) and section 320-85 apply in relation to a part of the income year before

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-515

that time when the company was not a subsidiary member of a consolidated group as if that part were an income year.

- (3) Paragraph 320-15(1)(h) and section 320-85 apply for the head company core purposes set out in section 701-1 (Single entity rule) as if the *value of the liabilities at the end of the last income year ending before the joining time were the value of the liabilities (for the *life insurance company) just before the joining time.

Tax cost setting rules for life insurance companies joining consolidated group

713-515 Certain assets taken to be retained cost base assets where life insurance company joins group

- (1) If an entity that becomes a *subsidiary member of a *consolidated group at a time (the *joining time*) is a *life insurance company, these assets are **retained cost base assets**:
- (a) a *complying superannuation/FHSA asset, or a *segregated exempt asset, of the company; and
 - (b) another asset of the company that is held by the company for the purpose of discharging its liabilities under the *net investment component of ordinary life insurance policies (except policies that provide for *participating benefits or *discretionary benefits under *life insurance business carried on in Australia); and
 - (c) for a life insurance company that has demutualised under Division 9AA of Part III of the *Income Tax Assessment Act 1936* where, in the period starting just after the company demutualises and ending at the joining time, all of the *membership interests in the company were owned by the same group—a goodwill asset of the company.
- (2) If the *retained cost base asset is covered by paragraph (1)(a) or (b), its *tax cost setting amount is:
- (a) for the purposes of working out the tax cost setting amounts for reset cost base assets (see section 705-35)—the asset's *transfer value just before the joining time; and
 - (b) for all other purposes—the asset's *terminating value.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (3) If the *retained cost base asset is covered by paragraph (1)(c), its *tax cost setting amount is the embedded value (see subsection 121AM(1) of the *Income Tax Assessment Act 1936*) on the applicable accounting day (see subsection 121AM(3) of that Act) of the *life insurance company concerned reduced by the net value of shareholders' assets held by the company on that day.
- (4) The ***net investment component of ordinary life insurance policies*** is the component of *life insurance policies (except *exempt life insurance policies and *complying superannuation/FHSA life insurance policies) that:
 - (a) is the component in respect of the part of those policies that has not been reinsured under a *contract of reinsurance; and
 - (b) is not the *net risk component of those policies.

713-520 Valuing certain liabilities where life insurance company joins group

- (1) Despite section 705-70, if the joining entity mentioned in step 2 in the table in section 705-60 is a *life insurance company, the joining entity's liabilities mentioned in this section are to be valued as mentioned in this section.
- (2) The value of the joining entity's *complying superannuation/FHSA liabilities (if any) is the amount worked out under section 320-190 at the joining time.
- (3) The value of the joining entity's *exempt life insurance policy liabilities (if any) is the amount worked out under section 320-245 at the joining time.
- (4) Subsection (5) applies to a liability of the joining entity if:
 - (a) the liability is under the *net risk component of a *life insurance policy; and
 - (b) the joining entity could deduct under section 320-80 an amount for the *risk component of claims paid under the policy had it not become a *member of the *consolidated group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-525

- (5) The value of that liability is the *current termination value of the *net risk component of the *life insurance policy at the joining time (calculated by an *actuary).
- (6) The value of the joining entity's liabilities under the *net investment component of ordinary life insurance policies is the amount worked out for those liabilities under subsection 320-190(2) as if those liabilities were *complying superannuation/FHSA liabilities.

713-525 Obligation to value certain assets and liabilities at joining time

Division 320 has effect as if the time when a *life insurance company becomes a *subsidiary member of a *consolidated group were a *valuation time for the purposes of sections 320-175 and 320-230.

Note: This means that there must be a valuation of the complying superannuation/FHSA assets and complying superannuation/FHSA liabilities under section 320-175 (with the consequences set out in section 320-180), and a valuation of the segregated exempt assets and exempt life insurance policy liabilities under section 320-230 (with the consequences set out in section 320-235), as at that time.

Losses of life insurance companies joining consolidated group

713-530 Treatment of certain losses of life insurance company

- (1) This section applies if:
 - (a) a *life insurance company becomes a *member of a *consolidated group at a time (the *joining time*); and
 - (b) just before the joining time, the life insurance company had either:
 - (i) a *tax loss of the *complying superannuation/FHSA class; or
 - (ii) a *net capital loss from *complying superannuation/FHSA assets.
- (2) This Act operates (except so far as the contrary intention appears) for the purposes of income years ending after the joining time as if:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (a) the *head company of the *consolidated group had made the loss for the income year in which the joining time occurs; and
 - (b) the *life insurance company had not made the loss for the income year for which it made the loss.
- (3) The *head company is not prevented from *utilising the loss for the income year in which the joining time occurs merely because this Act operates as if the head company had made the loss for that year.
- (4) Division 707 does not apply in relation to the *net capital loss or the *tax loss at the joining time.

Losses of life insurance companies' subsidiaries joining consolidated group

713-535 Losses of entities whose membership interests are complying superannuation/FHSA assets of life insurance company

- (1) This section applies if:
- (a) a *life insurance company becomes a *member of a *consolidated group at a time (the *joining time*); and
 - (b) at the joining time, the life insurance company owns, either directly or indirectly through one or more interposed entities, all the *membership interests in yet another entity (the *life insurance subsidiary*) that becomes a *subsidiary member of the group at that time; and
 - (c) all the following membership interests are *complying superannuation/FHSA assets of the life insurance company:
 - (i) the membership interests (if any) that the life insurance company owns directly in the life insurance subsidiary;
 - (ii) the membership interests (if any) that the life insurance company owns directly in the interposed entities; and
 - (d) the *head company of the group makes a *tax loss or *net capital loss under Subdivision 707-A because of a transfer from the life insurance subsidiary.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-540

- (2) This Act operates for the purposes of income years ending after the transfer as if:
 - (a) the *tax loss were of the *complying superannuation/FHSA class; or
 - (b) the *net capital loss were from *complying superannuation/FHSA assets.
- (3) Subdivisions 707-B, 707-C and 707-D do not affect the *utilisation of the loss by the *head company of the *consolidated group.

713-540 Losses of entities whose membership interests are segregated exempt assets of life insurance company

- (1) This section applies if:
 - (a) a *life insurance company becomes a *member of a *consolidated group at a time (the *joining time*); and
 - (b) at the joining time, the life insurance company owns, either directly or indirectly through one or more interposed entities, all the *membership interests in yet another entity (the *life insurance subsidiary*) that becomes a *subsidiary member of the group at that time; and
 - (c) all the following membership interests are *segregated exempt assets of the life insurance company:
 - (i) the membership interests (if any) that the life insurance company owns directly in the life insurance subsidiary;
 - (ii) the membership interests (if any) that the life insurance company owns directly in the interposed entities.
- (2) A *tax loss or *net capital loss of the life insurance subsidiary for an income year ending before the joining time cannot be *utilised by the life insurance subsidiary for an income year ending after that time.

Note: This prevents the loss from being transferred to the head company of the consolidated group under Subdivision 707-A (because it means the life insurance subsidiary could not have utilised the loss for the trial year). As a result, section 707-150 prevents any other entity from utilising the loss for an income year ending after the joining time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Imputation rules for life insurance companies joining consolidated group

713-545 Treatment of franking surplus in franking account of life insurance subsidiary joining group

- (1) This section applies if:
 - (a) a *life insurance company becomes a *member of a *consolidated group at a time (the *joining time*); and
 - (b) at the joining time, the life insurance company owns, either directly or indirectly through one or more interposed entities, *membership interests in yet another entity (the *life insurance subsidiary*) that becomes a *subsidiary member of the group at that time; and
 - (c) the life insurance subsidiary's *franking account is in surplus just before the joining time.
- (2) Paragraph 709-60(2)(b) does not apply in relation to the life insurance subsidiary.
- (3) A *franking credit arises at the joining time in the *franking account of the *head company of the group. The amount of the credit is the amount worked out under subsection (4).
- (4) The amount is equal to the amount of the *franking credit that would arise in the *life insurance company's *franking account just before the joining time under item 5 of the table in subsection 219-15(2) if:
 - (a) the life insurance subsidiary made a *franked distribution to the life insurance company just before the joining time; and
 - (b) the amount of the franking credit on the distribution were equal to the surplus mentioned in paragraph (1)(c).
- (5) The *head company of the group is entitled to a *tax offset for the income year in which the joining time occurs. The amount of the tax offset is:
 - (a) if all the *membership interests (if any) that the *life insurance company owns directly in the life insurance subsidiary, and all the membership interests (if any) that the life insurance company owns directly in interposed entities,

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-550

- are *segregated exempt assets of the life insurance company—the surplus mentioned in paragraph (1)(c), reduced by the amount worked out under subsection (4); or
- (b) if all the membership interests (if any) that the life insurance company owns directly in the life insurance subsidiary, and all the membership interests (if any) that the life insurance company owns directly in interposed entities, are *complying superannuation/FHSA assets of the life insurance company—the amount worked out under subsection (6); or
- (c) otherwise—nil.
- (6) The amount is worked out using the following formula (or is nil if it would otherwise be negative):

$$\left(\text{Surplus mentioned in paragraph (1)(c)} - \text{Amount worked out under subsection (4)} \right) \times \frac{\text{Complying superannuation/FHSA class tax rate}}{\text{Ordinary class tax rate}}$$

where:

complying superannuation/FHSA class tax rate means the rate of tax in respect of the *complying superannuation/FHSA class of the taxable income of a *life insurance company for the income year in which the joining time occurs (see paragraph 23A(b) of the *Income Tax Rates Act 1986*).

ordinary class tax rate means the rate of tax in respect of the *ordinary class of the taxable income of a life insurance company for the income year in which the joining time occurs (see paragraph 23A(a) of the *Income Tax Rates Act 1986*).

713-550 Treatment of head company's franking account after joining

Sections 709-70 and 709-75 do not apply in relation to a *subsidiary member of a *consolidated group if:

- (a) the subsidiary member is a *life insurance company; or
- (b) a life insurance company that is a *member of the group owns *membership interests, either directly or indirectly

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

through one or more interposed entities, in the subsidiary member.

Liabilities for life insurance companies leaving consolidated group

713-565 Treatment of certain liabilities for income year when life insurance company leaves consolidated group

- (1) This section affects how paragraph 320-15(1)(h) and section 320-85 apply if:
 - (a) a *life insurance company ceases to be a *subsidiary member of a *consolidated group at a time (the *leaving time*); and
 - (b) at the leaving time, the *life insurance company has one or more liabilities under the *net risk components of life insurance policies.

Note: Paragraph 320-15(1)(h) and section 320-85 both operate on the basis of a comparison of the value of a life insurance company's liabilities under the net risk components of life insurance policies at the end of the current year with the value of those liabilities at the end of the previous year, so that:

- (a) that paragraph includes an amount in the company's assessable income for the current year if the value at the end of the current year is less than the value at the end of the previous income year; and
- (b) that section allows a deduction for the current year if the value at the end of the current year is more than the value at the end of the previous income year.

- (2) The object of this section is to ensure that:
 - (a) the *head company of the *consolidated group bears the income tax consequences relating to a change in *value of the liabilities before the leaving time; and
 - (b) the *life insurance company bears the income tax consequences relating to a change in value of the liabilities after the leaving time.

Head company's income or deduction from liabilities

- (3) For the head company core purposes set out in section 701-1 (Single entity rule) relating to the income year in which the leaving

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-570

time occurs (but not later income years), paragraph 320-15(1)(h) and section 320-85 have effect as if:

- (a) the *head company of the *consolidated group had the liabilities at the end of that income year; and
- (b) the *value of the liabilities at the end of that income year had been the amount that was actually the value of the liabilities (for the *life insurance company) at the leaving time.

Life insurance company's income or deduction from liabilities

- (4) For the entity core purposes set out in section 701-1 (Single entity rule) relating to the *life insurance company and the income year in which the leaving time occurs, paragraph 320-15(1)(h) and section 320-85 have effect as if the *value of the liabilities at the end of the previous income year had been the amount that was actually the value of the liabilities (for the life insurance company) at the leaving time.

Losses for life insurance companies leaving consolidated group

713-570 Certain losses transferred to leaving company

- (1) This section applies if:
 - (a) a *life insurance company ceases to be a *subsidiary member of a *consolidated group at a time (the *leaving time*); and
 - (b) ignoring section 713-505, at the leaving time, no other *member of the group is a life insurance company that has a *complying superannuation/FHSA asset pool; and
 - (c) at the leaving time, the *head company has either:
 - (i) a *tax loss of the *complying superannuation/FHSA class; or
 - (ii) a *net capital loss from *complying superannuation/FHSA assets.
- (2) This Act operates (except so far as the contrary intention appears) for the purposes of income years ending after the leaving time as if:
 - (a) the *life insurance company had made the loss for the income year in which the leaving time occurs; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) the *head company had not made the loss for the income year for which it made the loss.

Note: Section 707-410 (Exit history rule does not treat entity as having made a loss) does not prevent the life insurance company from having the loss under this section, because that section merely states that the company is not taken under section 701-40 (Exit history rule) to have made a loss.

- (3) The *life insurance company is not prevented from *utilising the loss for the income year in which the leaving time occurs merely because this Act operates as if the life insurance company had made the loss for that year.

Tax cost setting rules for life insurance companies leaving consolidated group

713-575 Terminating value of certain assets where life insurance company leaves group

- (1) This section applies if a *life insurance company (the **leaving entity**) ceases to be a *subsidiary member of a *consolidated group at a time (the **leaving time**).
- (2) For the purposes of applying section 711-25 in relation to the leaving entity, the *head company's **terminating value** for an asset that it holds at the leaving time because the leaving entity is taken by subsection 701-1(1) to be a part of the head company is the *transfer value of the asset at the leaving time, if the asset is:
- (a) a *complying superannuation/FHSA asset, or a *segregated exempt asset, of the head company; or
 - (b) held by the head company for the purpose of discharging its liabilities under the *net investment component of ordinary life insurance policies (except policies that provide for *participating benefits or *discretionary benefits under *life insurance business carried on in Australia).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

713-580 Valuing certain liabilities where life insurance company leaves group

- (1) Despite section 711-45, if the leaving entity mentioned in step 4 in the table in section 711-20 is a *life insurance company, the leaving entity's liabilities mentioned in this section are to be valued as mentioned in this section.
- (2) To avoid doubt, those liabilities are the liabilities that become those of the leaving entity because section 701-1 (Single entity rule) ceases to apply to the leaving entity when it ceases to be a *subsidiary member of the group.
- (3) The value of the leaving entity's *complying superannuation/FHSA liabilities (if any) is the amount worked out under section 320-190 at the leaving time.
- (4) The value of the leaving entity's *exempt life insurance policy liabilities (if any) is the amount worked out under section 320-245 at the leaving time.
- (5) Subsection (6) applies to a liability of the leaving entity if:
 - (a) the liability is under the *net risk component of a *life insurance policy; and
 - (b) the leaving entity could deduct under section 320-80 an amount for the *risk component of claims paid under the policy on or after the time it ceased to be a *member of the *consolidated group.
- (6) The value of that liability is the *current termination value of the *net risk component of the *life insurance policy at the leaving time (calculated by an *actuary).
- (7) The value of the leaving entity's liabilities under the *net investment component of ordinary life insurance policies is the amount worked out for those liabilities under subsection 320-190(2) as if those liabilities were *complying superannuation/FHSA liabilities.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

713-585 Obligation to value certain assets and liabilities at leaving time

Division 320 has effect as if the time when a *life insurance company ceases to be a *subsidiary member of a *consolidated group were a *valuation time for the purposes of sections 320-175 and 320-230.

Note: This means that there must be a valuation of the complying superannuation/FHSA assets and complying superannuation/FHSA liabilities under section 320-175 (with the consequences set out in section 320-180), and a valuation of the segregated exempt assets and exempt life insurance policy liabilities under section 320-230 (with the consequences set out in section 320-235), as at that time.

Subdivision 713-M—General insurance companies

Guide to Subdivision 713-M

713-700 What this Subdivision is about

This Subdivision sets out special rules for a general insurance company becoming or ceasing to be a subsidiary member of a consolidated group.

Table of sections

Tax cost setting rules for general insurance companies joining consolidated group

713-705 Certain assets taken to be retained cost base assets where general insurance company joins group

Liabilities and reserves of general insurance companies joining and leaving consolidated groups

713-710 Treatment of liabilities and reserves for income year when general insurance company joins or leaves group

713-715 If general insurance company joins consolidated group

713-720 If general insurance company leaves consolidated group

713-725 Treatment of certain assets and liabilities of general insurance companies

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Tax cost setting rules for general insurance companies joining consolidated group

713-705 Certain assets taken to be retained cost base assets where general insurance company joins group

- (1) This section applies if:
 - (a) a *general insurance company becomes a *subsidiary member of a *consolidated group at a time (the *joining time*); and
 - (b) that company has demutualised under Division 9AA of Part III of the *Income Tax Assessment Act 1936*; and
 - (c) in the period starting just after the company demutualises and ending at the joining time, all of the *membership interests in the company were owned by the same group.
- (2) A goodwill asset of the company just before the joining time is a *retained cost base asset*.
- (3) The goodwill asset's *tax cost setting amount is its amount (worked out in accordance with subsection 121AN(2) of the *Income Tax Assessment Act 1936*) on the applicable accounting day (see subsection 121AN(4) of that Act).

Liabilities and reserves of general insurance companies joining and leaving consolidated groups

713-710 Treatment of liabilities and reserves for income year when general insurance company joins or leaves group

Sections 713-715 and 713-720 affect how sections 321-10, 321-15, 321-50 and 321-55 (the *affected sections*) apply in relation to these values (the *affected values*):

- (a) the value of the outstanding claims liability of a *general insurance company under *general insurance policies that is worked out under section 321-20;
- (b) the value of the unearned premium reserve of a general insurance company under general insurance policies that is worked out under section 321-60.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-715

- Note 1: Sections 321-10 and 321-15 both operate on the basis of a comparison of the value of the outstanding claims liability of a general insurance company at the end of the current year with the value of that liability at the end of the previous income year, so that:
- (a) section 321-10 includes an amount in the company's assessable income for the current year if the value at the end of the current year is less than the value at the end of the previous income year; and
 - (b) section 321-15 allows a deduction for the current year if the value at the end of the current year is more than the value at the end of the previous income year.
- Note 2: Sections 321-50 and 321-55 both operate on the basis of a comparison of the value of the unearned premium reserve of a general insurance company at the end of the current year with the value of that reserve at the end of the previous income year, so that:
- (a) section 321-50 includes an amount in the company's assessable income for the current year if the value at the end of the current year is less than the value at the end of the previous income year; and
 - (b) section 321-55 allows a deduction for the current year if the value at the end of the current year is more than the value at the end of the previous income year.

713-715 If general insurance company joins consolidated group

- (1) This section applies if a *general insurance company becomes a *subsidiary member of a *consolidated group at a time (the *joining time*).
- (2) The object of this section is to ensure that the *head company of the *consolidated group bears the income tax consequences relating to changes after the joining time in the affected values.

Note: The general insurance company bears the income tax consequences relating to a change in the affected values before the joining time, because section 701-30 ensures that the affected sections apply in relation to a part of the income year before that time when the company was not a subsidiary member of a consolidated group as if that part were an income year.

- (3) The affected sections apply for the head company core purposes set out in section 701-1 (Single entity rule) as if each of the affected values at the end of the last income year ending before the joining time were the amount that would have been that value had that income year ended just before the joining time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 713-720

713-720 If general insurance company leaves consolidated group

- (1) This section applies if a *general insurance company ceases to be a *subsidiary member of a *consolidated group at a time (the *leaving time*) in an income year (the *leaving year*).
- (2) The object of this section is to ensure that:
 - (a) the *head company of the *consolidated group bears the income tax consequences relating to changes before the leaving time in the affected values; and
 - (b) the *general insurance company bears the income tax consequences relating to changes after the leaving time in the affected values.

Head company's income or deduction

- (3) For the head company core purposes set out in section 701-1 (Single entity rule) relating to the leaving year (but not later income years), the affected sections have effect as if each of the affected values at the end of the leaving year for the *head company of the *consolidated group were increased by the relevant value for the *general insurance company at the end of the previous income year worked out under subsection (5).

General insurance company's income or deduction

- (4) For the entity core purposes set out in section 701-1 (Single entity rule) relating to the *general insurance company and the leaving year, the affected sections have effect as if each of the affected values for the general insurance company at the end of the previous income year were worked out under subsection (5).

Working out affected values at the end of the previous income year

- (5) Work out each of the affected values for the *general insurance company at the end of the previous income year as if it had ended at the leaving time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

713-725 Treatment of certain assets and liabilities of general insurance companies

- (1) This section applies if a *general insurance company becomes or ceases to be a *subsidiary member of a *consolidated group.
- (2) If the *general insurance company becomes a *subsidiary member of the group:
 - (a) in working out the step 2 amount for the purposes of the table in section 705-60, reduce that amount by the sum of the amount of each thing mentioned in subsection (4); and
 - (b) in working out the *tax cost setting amount of a thing mentioned in subsection (4) for the purposes of section 705-35, treat the *market value of the thing as zero.
- (3) If the *general insurance company ceases to be a *subsidiary member of the group:
 - (a) in working out the step 4 amount for the purposes of the table in section 711-20, reduce that amount by the sum of the amount of each thing mentioned in subsection (4); and
 - (b) for the purposes of section 711-25, treat the *terminating value of a thing mentioned in subsection (4) as zero.
- (4) The things are the *general insurance company's:
 - (a) deferred acquisition costs in relation to the company's unearned premium reserve; and
 - (b) deferred reinsurance expenses in relation to the company's unearned premium reserve; and
 - (c) recoveries receivable in relation to the company's *outstanding claims.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Division 715—Interactions between this Part and other areas of the income tax law

Table of Subdivisions

715-A	Treatment of unrealised losses existing when ownership or control of a company changes before or during consolidation
715-B	How Subdivision 165-CD applies to consolidated groups and leaving entities
715-C	Common rules for the purposes of Subdivisions 715-A and 715-B
715-D	Treatment of company's deferred losses under Subdivision 170-D on joining a consolidated group
715-E	Interactions with Division 775 (Foreign currency gains and losses)
715-F	Interactions with Division 230 (financial arrangements)
715-G	How value shifting rules apply to a consolidated group
715-H	Cancelling loss on realisation event for direct or indirect interest in a member of a consolidated group
715-J	Entry history rule and choices
715-K	Exit history rule and choices
715-U	Effect on conduit foreign income
715-V	Entity ceasing to be exempt from income tax on becoming subsidiary member of consolidated group
715-W	Effect on arrangements where CGT roll-overs are obtained

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 715-A—Treatment of unrealised losses existing when ownership or control of a company changes before or during consolidation

Table of sections

Object

715-15 Object of this Subdivision

Effect on Subdivision 165-CC of a company becoming a member of a consolidated group

715-25 Subdivision 165-CC stops applying to earlier changeover time

715-30 Meaning of *165-CC tagged asset*

715-35 Meaning of *final RUNL*

165-CC tagged assets that affect tax cost setting amounts

715-50 Step 1 amount is reduced if membership interest in subsidiary member is 165-CC tagged asset and same business test is failed

715-55 Step 2 amount is affected if liability of subsidiary member is 165-CC tagged asset of another group member and same business test is failed

165-CC tagged assets that form loss denial pools of head company when consolidated group is formed

715-60 Assets that the head company already owns

715-70 Assets of subsidiary member that become those of head company

How Subdivision 165-CC applies to consolidated groups

715-75 Extension of single entity rule and entry history rule

Effect on Subdivision 165-CC of entity leaving consolidated group

715-80 Application of sections 715-85 to 715-110

715-85 First changeover time for leaving company at or after leaving time

715-90 How same business test applies if leaving time is changeover time for leaving company

715-95 If ownership and control of leaving entity have *not* changed since head company's last changeover time

715-100 First choice: adjustable values of leaving assets reduced to nil

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-15

715-105 Second choice: head company's final RUNL applied in reducing adjustable values of leaving assets that are loss assets

715-110 Third choice: loss denial pool of leaving entity created

Effect of assets in loss denial pool of head company becoming assets of leaving entity

715-120 What happens

715-125 First choice: adjustable values of leaving assets reduced to nil

715-130 Second choice: pool's loss denial balance applied in reducing adjustable values of leaving assets that are loss assets

715-135 Third choice: loss denial pool of leaving entity created

Effect of first and second choices on various kinds of assets

715-145 Effect of choice on adjustable value of leaving asset

General provisions about loss denial pools

715-155 When asset leaves pool

715-160 How loss denial balance is applied to losses realised on assets in pool

715-165 When pool ceases to exist

Choices under this Subdivision

715-175 When choice must be made

715-180 Head company to notify leaving entity of choice

715-185 Leaving entity may choose to cancel loss denial pool by reducing adjustable values of assets in the pool

Object

715-15 Object of this Subdivision

- (1) The object of this Subdivision is to give effect to the purposes of Subdivision 165-CC (about change of ownership or control of a company that has an unrealised net loss) in these cases:
 - (a) on formation of a *consolidated group, a *CGT asset held directly by the *head company is affected by that Subdivision, and the *same business test is failed;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) on an entity becoming a *subsidiary member of a consolidated group, an asset consisting of:
 - (i) a *membership interest that a *member of the group (including a chosen transitional entity under Division 701 of the *Income Tax (Transitional Provisions) Act 1997*) holds in the entity; or
 - (ii) a liability that the entity owes to such a member; is affected by that Subdivision, and the same business test is failed;
- (c) on a company becoming a subsidiary member:
 - (i) a CGT asset of the company that becomes an asset of the head company is affected by that Subdivision; and
 - (ii) because the company is a chosen transitional entity, the asset does not have its tax cost reset; and
 - (iii) the same business test is failed;
- (d) on an entity ceasing to be a subsidiary member, a CGT asset of the head company that becomes an asset of the entity is affected by that Subdivision, and the same business test is failed.

Note: Subdivision 165-CC also affects an entity that has deferred losses under Subdivision 170-D on assets that it formerly owned. Subdivision 715-D gives effect to the purposes of Subdivision 165-CC if such an entity becomes a member of a consolidated group.

- (2) This Subdivision achieves its object by supplementing and modifying the application of Subdivision 165-CC to take account of how the rest of this Part treats *members of a *consolidated group (in particular the provisions about entities becoming or ceasing to be members).

Effect on Subdivision 165-CC of a company becoming a member of a consolidated group

715-25 Subdivision 165-CC stops applying to earlier changeover time

- (1) At and after the time (the *membership time*) when a company becomes a *member of a *consolidated group, Subdivision 165-CC does not apply to the company in relation to a *changeover time

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-30

that happened before the membership time, except for the purposes of section 715-30 (which defines **165-CC tagged asset**).

Note 1: Subdivision 165-CC is about change of ownership or control of a company that has an unrealised net loss.

Note 2: If the company has 165-CC tagged assets at the membership time, there are further consequences under this Subdivision and Subdivision 715-D.

Also, Subdivision 165-CC can apply to the head company of the group in relation to a changeover time that happens for it at or after the membership time. See section 715-75.

- (2) Subsection (1) continues to have effect even if the company later stops being a *member of the group.

715-30 Meaning of 165-CC tagged asset

A *CGT asset is a **165-CC tagged asset** of a company at a particular time if, and only if:

- (a) that time is at or after the most recent *changeover time (if any) for the company; and
- (b) at that changeover time, the company had an unrealised net loss under section 165-115E; and
- (c) the asset is covered by subsection 165-115A(1A) as applying to that changeover time; and
- (d) the company would not, at that changeover time, satisfy the maximum net asset value test under section 152-15; and
- (e) if the company has chosen under subsection 165-115A(1B) in relation to that changeover time—the company *acquired the asset for \$10,000 or more.

715-35 Meaning of final RUNL

A company's **final RUNL** at a particular time (the **test time**) is the amount that would have been the company's *residual unrealised net loss at the time of:

- (a) if no event that subsection 165-115BB(2) refers to as a relevant event actually happens at the test time—a notional event of that kind happening at the test time; or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) otherwise—a notional event of that kind that happens at the test time, and that the company determines under paragraph 165-115BB(1)(b) to have happened *later* than each event that actually happened at that time.

Note: This Subdivision reduces a company's final RUNL as amounts of it are applied for various purposes.

165-CC tagged assets that affect tax cost setting amounts

715-50 Step 1 amount is reduced if membership interest in subsidiary member is 165-CC tagged asset and same business test is failed

- (1) The amount taken into account under subsection 705-65(1) (about the cost of membership interests in the joining entity) for a *membership interest that a *member of the joined group holds in the joining entity at the joining time is reduced if:
 - (a) apart from this section, the amount would be the membership interest's *reduced cost base (if appropriate, as modified by a later provision of section 705-65); and
 - (b) the membership interest is at that time a *165-CC tagged asset of that member, and that member owned it at the *changeover time for that member; and
 - (c) that member's *final RUNL just before the joining time was greater than nil; and
 - (d) that member does *not* satisfy the *same business test for:
 - (i) the period (the *same business test period*) consisting of the *head company's *trial year; and
 - (ii) the time (the *test time*) just before the *changeover time.
- (2) If at the joining time that *member holds:
 - (a) 2 or *more membership interests in the joining entity; or
 - (b) at least one membership interest in the joining entity, and at least one membership interest in another member of the joined group;this section applies to each such membership interest in whichever order that member determines.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-55

Amount of reduction

- (3) The amount taken into account under subsection 705-65(1) is reduced to the *membership interest's *market value at the joining time.
- (4) However, if that member's *final RUNL (as reduced by any previous reductions under this section) is *less than* the difference between:
 - (a) the *reduced cost base referred to in paragraph (1)(a); and
 - (b) the *market value referred to in subsection (3);the amount taken into account under subsection 705-65(1) is instead reduced by that final RUNL.
- (5) That *final RUNL is reduced by the amount of the reduction under subsection (3) or (4).

Non-membership equity interests

- (6) Subsection 705-65(6) (which treats *non-membership equity interests as *membership interests) also applies for the purposes of this section.

715-55 Step 2 amount is affected if liability of subsidiary member is 165-CC tagged asset of another group member and same business test is failed

- (1) The amount (the *comparison amount*) applicable under the table in subsection 705-75(2) (about reduction of the step 2 amount) for an accounting liability of the joining entity that is owed to a *member of the joined group at the joining time is reduced if:
 - (a) apart from this section, the comparison amount would be the *reduced cost base (if appropriate, as modified by a later provision of section 705-75) of the asset of that member that is constituted by the accounting liability; and
 - (b) the asset is at that time a *165-CC tagged asset of that member, and that member owned it at the *changeover time; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (c) that member's *final RUNL just before the joining time (as reduced by any reductions under section 715-50) was greater than nil; and
- (d) that member does *not* satisfy the *same business test for:
 - (i) the period (the ***same business test period***) consisting of the *head company's *trial year; and
 - (ii) the time (the ***test time***) just before the *changeover time.

Note: Paragraph (1)(c) has the effect that if both this section and section 715-50 apply to the same member of the joined group, section 715-50 is applied before this section.

- (2) If at the joining time that *member holds:
 - (a) 2 or *more assets constituted by accounting liabilities of the joining entity; or
 - (b) at least one asset constituted by an accounting liability of the joining entity, and at least one asset constituted by an accounting liability of another member of the group;this section applies to each such asset in whichever order that member determines.

Amount of reduction

- (3) The comparison amount is reduced to the asset's *market value at the joining time.
- (4) However, if that member's *final RUNL (as reduced by any previous reductions under section 715-50 or this section) is *less than* the difference between:
 - (a) the *reduced cost base referred to in paragraph (1)(a); and
 - (b) the asset's *market value at the joining time;the comparison amount is instead reduced by that final RUNL.
- (5) That *final RUNL is reduced by the amount of the reduction under subsection (3) or (4).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

165-CC tagged assets that form loss denial pools of head company when consolidated group is formed

715-60 Assets that the head company already owns

- (1) At the time (the *formation time*) when a *consolidated group comes into existence under paragraph 703-5(1)(a), a *loss denial pool* of the *head company is created if:
 - (a) the formation time is *not* a *changeover time for the head company; and
 - (b) at the formation time, the head company owns a *CGT asset:
 - (i) that is a *165-CC tagged asset of the head company at that time; and
 - (ii) that it owned at the *changeover time; and
 - (iii) that is not a *membership interest in a *member of the group; and
 - (iv) that is not a right or option (including a contingent right or option), created or issued by a member of the group, to acquire such a membership interest; and
 - (v) that is not constituted by a liability owed to the head company by a member of the group;or 2 or more such assets; and
 - (c) the head company's *final RUNL just before the formation time (as reduced by any reductions under section 715-50 or 715-55) was greater than nil; and
 - (d) the head company does *not* satisfy the *same business test for:
 - (i) the period (the *same business test period*) consisting of the head company's *trial year; and
 - (ii) the time (the *test time*) just before the *changeover time.

Note: Paragraph (1)(c) has the effect that if the head company has 165-CC tagged assets that are affected by section 715-50 or 715-55 (because they are membership interests in, or accounting liabilities owed by, another group member), those sections are applied before this section.
- (2) When it is created, the pool consists of the one or more *CGT assets referred to in paragraph (1)(b), and its *loss denial balance* is equal to the *final RUNL referred to in paragraph (1)(c).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- Note 1: The pool is distinct from any other loss denial pool of the head company, for example, one created at the formation time under section 715-70.
- Note 2: 170-D deferred losses on 165-CC tagged assets of the head company may be added to the pool by subsection 715-355(1).

715-70 Assets of subsidiary member that become those of head company

- (1) At the time (the *formation time*) when an entity becomes a *subsidiary member of a *consolidated group, a *loss denial pool* of the *head company of the group is created if:
- (a) the formation time is *not* a *changeover time for the head company; and
 - (b) the entity is a chosen transitional entity under Division 701 of the *Income Tax (Transitional Provisions) Act 1997*; and
 - (c) subsection (2) or (4) of this section is satisfied.

- Note 1: If the entity is a chosen transitional entity, section 701-15 of the *Income Tax (Transitional Provisions) Act 1997* prevents:
- section 701-10 (cost to head company of assets of joining entity); and
 - subsection 701-35(4) (setting value of trading stock at tax-neutral amount);

of this Act from applying to the entity's assets in relation to the formation time.

- Note 2: The pool is distinct from any other loss denial pool of the head company, for example, one created under this section because another entity becomes a subsidiary member of the group at the formation time.

Joining entity has 165-CC tagged assets

- (2) This subsection is satisfied if:
- (a) a *CGT asset of the entity, or each of 2 or more CGT assets of the entity:
 - (i) is a *165-CC tagged asset of the entity at the formation time; and
 - (ii) was owned by the entity at the *changeover time; and
 - (iii) is not a *membership interest in a *member of the group; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-70

- (iv) is not a right or option (including a contingent right or option), created or issued by a member of the group, to acquire such a membership interest; and
- (v) is not constituted by a liability owed to the entity by a member of the group at the formation time; and
- (b) the entity's **final RUNL* just before the formation time (as reduced by any reductions under section 715-50 or 715-55) was greater than nil; and
- (c) the entity does *not* satisfy the **same business test* for:
 - (i) the period (the *same business test period*) consisting of the entity's **trial year*; and
 - (ii) the time (the *test time*) just before the **changeover time*.

Note: Paragraph (2)(b) has the effect that if the entity has 165-CC tagged assets that are affected by section 715-50 or 715-55 (because they are membership interests in, or accounting liabilities owed by, another group member), those sections are applied before this section.

- (3) When it is created because of subsection (2), the pool consists of the one or more **CGT* assets referred to in paragraph (2)(a), and its *loss denial balance* is equal to the **final RUNL* referred to in paragraph (2)(b).

Note: 170-D deferred losses on 165-CC tagged assets of the head company may be added to the pool by subsection 715-355(2).

Entity has loss denial pool

- (4) This subsection is satisfied if, just before the formation time, the entity had a **loss denial pool*.
- (5) When it is created because of subsection (4), the **head company's* loss denial pool:
 - (a) consists of the one or more **CGT* assets of which the entity's loss **denial pool* consisted; and
 - (b) has a *loss denial balance* equal to the **loss denial balance* of the entity's loss denial pool;just before the formation time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

How Subdivision 165-CC applies to consolidated groups

715-75 Extension of single entity rule and entry history rule

- (1) Subsection 701-1(1) (Single entity rule) and section 701-5 (Entry history rule) also have effect for all the purposes of Subdivision 165-CC (about change of ownership or control of a company that has an unrealised net loss).

Note: One consequence of this is that the head company is the only member of a consolidated group that can have a changeover time and be subject to consequences under Subdivision 165-CC. The head company is treated as owning all CGT assets owned by group members, and as making relevant losses.

- (2) This section is not intended to limit the effect that subsection 701-1(1) and section 701-5 have apart from this section.

Effect on Subdivision 165-CC of entity leaving consolidated group

715-80 Application of sections 715-85 to 715-110

Sections 715-85 to 715-110 apply if, at a particular time (the *leaving time*), an entity (the *leaving entity*) ceases to be a *subsidiary member of a *consolidated group.

Note 1: If a changeover time happened to the head company at or after the group came into existence and before the leaving time, Subdivision 165-CC does *not* apply to the head company at and after the leaving time, in respect of assets that leave with the leaving entity, in relation to the changeover time.

This is because the head company can no longer make a capital loss, or become entitled to a deduction, in respect of a CGT event happening to any of those assets.

Note 2: If, just before the leaving time, the head company had a loss denial pool, see section 715-120.

715-85 First changeover time for leaving company at or after leaving time

If the leaving entity is a company, its first *changeover time at or after the leaving time is determined:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-90

- (a) on the basis that the reference time under subsection 165-115A(2A) is the one that would be used in determining whether the leaving time was a changeover time for the *head company*; and
- (b) making the additional assumptions in section 715-290.

Note: If the leaving entity is a trust, it cannot have a changeover time (because Subdivision 165-CC applies only to companies), so section 715-95 applies to it instead: see subsection 715-95(2).

715-90 How same business test applies if leaving time is changeover time for leaving company

- (1) This section applies if:
 - (a) the leaving entity is a company; and
 - (b) the leaving time is a *changeover time for the leaving entity.
- (2) In applying to the leaving entity for the *changeover time that is the leaving time, subsection 165-115B(3) and paragraph 165-115BA(5)(c) have effect as if they provided that the time just after the changeover time were the *test time* for applying section 165-13 to the company.

Note: This ensures that the same business test is applied to the business that the leaving entity carries on at the leaving time.

715-95 If ownership and control of leaving entity have *not* changed since head company's last changeover time

- (1) This section applies if:
 - (a) the leaving entity is a company; and
 - (b) the leaving time is *not* a *changeover time for the leaving entity; and
 - (c) just before the leaving time, the *head company owned at least one *CGT asset:
 - (i) that was a *165-CC tagged asset just before the leaving time; and
 - (ii) that it owned at the latest changeover time for the head company at or after the group came into existence and before the leaving time; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (d) at least one asset covered by paragraph (c) is an asset (a *leaving asset*) that becomes an asset of the leaving entity at the leaving time because subsection 701-1(1) (Single entity rule) ceases to apply to the entity; and
 - (e) the head company's *final RUNL at the leaving time is greater than nil.
- (2) This section also applies if the leaving entity is a trust.
- (3) If the *head company does *not* satisfy the *same business test for:
- (a) the period (the *same business test period*) starting at the *earlier* of:
 - (i) the time 12 months before the leaving time; and
 - (ii) when the head company came into existence; and ending just before the leaving time; and
 - (b) the time (the *test time*) just before the *changeover time;
- the head company must make one of the choices for which sections 715-100, 715-105 and 715-110 provide.

Note: For provisions about making one of these choices, see sections 715-175 to 715-185.

715-100 First choice: adjustable values of leaving assets reduced to nil

The first choice is to reduce the *adjustable value of each leaving asset to nil. The choice has effect accordingly, just before the leaving time. The *head company's *final RUNL is *not* reduced because of it.

Note: The consequences of the choice are worked out under section 715-145.

715-105 Second choice: head company's final RUNL applied in reducing adjustable values of leaving assets that are loss assets

- (1) The second choice is to reduce under this section the *adjustable value of each leaving asset (a *loss asset*) for which the *head company would have had a notional capital loss, or notional revenue loss, under section 165-115F at the time (the *test time*) just

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-110

before the leaving time if the test time had been a *changeover time for the head company. The choice has effect accordingly.

Note: The consequences of the choice are worked out under this section and section 715-145.

- (2) If:
- (a) 2 or more entities cease to be *subsidiary members of the *consolidated group at the leaving time; and
 - (b) 2 or more of them make the second choice;
- the choices have effect in whichever order the *head company determines.
- (3) This section applies to each of the loss assets in order, according to their respective *adjustable values (apart from this section) at the test time: from largest to smallest. (If an asset has more than one such adjustable value, use the greater or greatest of them.)
- (4) At the test time, the *adjustable value of the loss asset is reduced to the asset's *market value at that time.
- (5) However, if the *head company's *final RUNL at the leaving time (as reduced by any previous reductions under this section) is *less than* the difference between:
- (a) the *adjustable value of the loss asset (apart from this section) at the test time; and
 - (b) the asset's *market value at the test time;
- the adjustable value is instead reduced at the test time by that final RUNL.
- (6) That *final RUNL is reduced by the amount of the reduction under subsection (4) or (5). If 2 or more such reductions are made for the same asset (because it has 2 or more different characters), that final RUNL is reduced by the greater or greatest of the reductions.

715-110 Third choice: loss denial pool of leaving entity created

- (1) The third choice can be made only if every asset covered by paragraph 715-95(1)(c) is a leaving asset. The choice is to have a ***loss denial pool*** of the leaving entity created at the leaving time,

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

consisting of every leaving asset. (To avoid doubt, the choice can be made even if the leaving entity is not a company.)

- (2) A choice under this section has effect accordingly. The pool is distinct from any other loss denial pool of the leaving entity.
- (3) When the pool is created, its *loss denial balance* is equal to the *head company's *final RUNL at the leaving time.

Note: If the head company makes this choice, the leaving entity can choose to cancel the loss denial pool by reducing reduced cost bases of assets in the pool: see section 715-185.

Effect of assets in loss denial pool of head company becoming assets of leaving entity

715-120 What happens

- (1) This section applies if:
 - (a) at a particular time (the *leaving time*), an entity (the *leaving entity*) ceases to be a *subsidiary member of a *consolidated group; and
 - (b) just before the leaving time, the *head company had a *loss denial pool; and
 - (c) at the leaving time, at least one *CGT asset (a *leaving asset*) that was in the pool just before that time becomes a CGT asset of the leaving entity because subsection 701-1(1) (Single entity rule) ceases to apply to the entity;
- (2) Each leaving asset leaves the *loss denial pool at the leaving time.
- (3) If:
 - (a) the leaving entity is a company and the leaving time is *not* a *changeover time for the leaving entity; or
 - (b) the leaving entity is a trust;the *head company must make one of the choices for which sections 715-125, 715-130 and 715-135 provide.

For provisions about making one of these choices,
see sections 715-175 to 715-185.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-125

715-125 First choice: adjustable values of leaving assets reduced to nil

The first choice is to reduce the *adjustable value of each leaving asset to nil. The choice has effect accordingly, just before the leaving time. The *loss denial balance of the *head company's *loss denial pool is *not* reduced because of it.

Note: The consequences of the choice are worked out under section 715-145.

715-130 Second choice: pool's loss denial balance applied in reducing adjustable values of leaving assets that are loss assets

- (1) The second choice is to reduce under this section the *adjustable value of each leaving asset (a *loss asset*) for which the *head company would have had a notional capital loss, or notional revenue loss, under section 165-115F at the time (the *test time*) just before the leaving time if the test time had been a *changeover time for the head company. The choice has effect accordingly.

Note: The consequences of the choice are worked out under this section and section 715-145.

- (2) If:

- (a) 2 or more entities cease to be *subsidiary members of the *consolidated group; and

- (b) 2 or more of them make the second choice;

the choices have effect in the same order as the entities cease being subsidiary members. If 2 or more of the entities ceased at the same time, their choices have effect in whichever order the *head company determines.

- (3) This section applies to each of the loss assets in order, according to their respective *adjustable values (apart from this section) at the test time: from largest to smallest. (If an asset has more than one such adjustable value, use the greater or greatest of them.)
- (4) At the test time, the *adjustable value of the loss asset is reduced to the asset's *market value at that time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (5) However, if the *loss denial balance (as reduced by any previous reductions under this section or section 715-160) of the *head company's *loss denial pool is *less than* the difference between:
- (a) the *adjustable value of the loss asset (apart from this section) at the test time; and
 - (b) the asset's *market value at the test time;
- the adjustable value is instead reduced at the test time by that loss denial balance.
- (6) That *loss denial balance is reduced at the leaving time by the amount of the reduction under subsection (3) or (4). If 2 or more such reductions are made for the same asset (because it has 2 or more different characters), that loss denial balance is reduced by the greater or greatest of the reductions.

715-135 Third choice: loss denial pool of leaving entity created

- (1) The third choice can be made only if every asset that was in the *loss denial pool just before the leaving time is a leaving asset. The choice is to have a ***loss denial pool*** of the leaving entity created at the leaving time, consisting of every leaving asset. (To avoid doubt, the choice can be made even if the leaving entity is not a company.)
- (2) A choice under this section has effect accordingly. The pool is distinct from any other loss denial pool of the leaving entity.
- (3) When the leaving entity's loss denial pool is created, its ***loss denial balance*** equals the loss denial balance of the head company's loss denial pool (as reduced by any previous reductions under section 715-130 or 715-160).
- Note: If the head company makes this choice, the leaving entity can choose to cancel the loss denial pool by reducing reduced cost bases of assets in the pool: see section 715-185.
- (4) The head company's *loss denial pool ceases to exist when the leaving entity's loss denial pool is created.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-145

Effect of first and second choices on various kinds of assets**715-145 Effect of choice on adjustable value of leaving asset**

- (1) This section has effect for the purposes of determining the consequences of a choice under any of sections 715-100, 715-105, 715-125, 715-130 and 715-185 (the *choice provisions*) for a leaving asset.
- (2) The asset's *adjustable value* at the time (the *test time*) just before the leaving time is worked out under this table. (If the asset is covered by 2 or more items, there are consequences for it under the choice provisions and this section in respect of each of the items.)

<i>Adjustable value at the test time</i>		
Item	If:	Its <i>adjustable value</i> is:
1	the asset is a *CGT asset	its *reduced cost base
2	the asset is an item of *trading stock of the *head company at the test time, and became part of the *head company's trading stock in the income year (the <i>test year</i>) in which the test time occurs	its *cost
3	the asset is an item of *trading stock of the *head company at the test time, item 2 does not apply, and at the end of the last income year before the test year, the item was *valued at its *cost	its *cost
4	the asset is an item of *trading stock of the *head company at the test time and neither of items 2 and 3 applies	its *value as trading stock of the head company on hand at the start of the income year in which the test time occurs
5	the asset is a *depreciating asset	worked out under section 40-85

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Adjustable value at the test time

Item	If:	Its adjustable value is:
6	the asset is a *revenue asset	the total of the amounts that would be subtracted from the gross disposal proceeds in calculating any profit or loss on disposal of the asset by the head company

- (3) If any of the choice provisions reduces at the test time the asset's *adjustable value, the thing identified for the asset under the table in subsection (2) of this section is reduced by the same amount.
- (4) Subsection (3) has effect for the purposes of working out under section 711-30 the *head company's *terminating value for the asset at the leaving time.

General provisions about loss denial pools**715-155 When asset leaves pool**

A *CGT asset leaves a *loss denial pool:

- (a) just after a *realisation event happens to the asset, unless the realisation event is the ending of an income year (in the case of an item of *trading stock); or
- (b) as mentioned in subsection 715-120(2) (when it becomes an asset of the leaving entity).

715-160 How loss denial balance is applied to losses realised on assets in pool

- (1) If, apart from this section, a loss would be *realised for income tax purposes by a *realisation event that happens to a *CGT asset when it is in a *loss denial pool of an entity, the loss is reduced by the lesser of:
- (a) the amount of the loss; and
 - (b) the pool's *loss denial balance (as reduced by any previous reductions under section 715-130 or this subsection);
- and the loss denial balance is reduced by the same amount.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-165

- (2) Subsection (1) applies to *realisation events in the order in which they happen. If 2 or more happen at the same time, it applies to them in whichever order the entity determines.
- (3) Subsection (1) reduces a *loss denial balance after section 715-130 does, unless the *realisation event happens *before* the leaving time referred to in that section.

715-165 When pool ceases to exist

- (1) A *loss denial pool of a company ceases to exist when there is a *changeover time for the company.

Note: The CGT assets in the pool then become subject to the application of Subdivision 165-CC (about change of ownership or control of a company that has an unrealised net loss).

- (2) A *loss denial pool of any entity ceases to exist:
 - (a) when there are no *CGT assets, and no *170-D deferred losses, in the pool; or
 - (b) just after the *loss denial balance becomes nil; or
 - (c) when the entity becomes a *subsidiary member of a *consolidated group; or
 - (d) as mentioned in subsection 715-135(4).

Choices under this Subdivision

715-175 When choice must be made

- (1) A choice under section 715-95 or 715-120 must be made within 6 months after the leaving time, or within a further period allowed by the Commissioner.
- (2) After that 6 months, or that further period, the head company is taken to have made the first choice under section 715-100 or 715-125 unless it is established that the head company made a different choice within that 6 months or further period.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

715-180 Head company to notify leaving entity of choice

- (1) Within one month after making a choice under section 715-95 or 715-120, or within a further period allowed by the Commissioner, the head company must give the leaving entity written notice of the choice.
- (2) If the choice is to have a *loss denial pool of the leaving entity created at the leaving time, the notice must also specify the pool's *loss denial balance at that time.

715-185 Leaving entity may choose to cancel loss denial pool by reducing adjustable values of assets in the pool

- (1) Within 6 months after a *loss denial pool is created under section 715-110 or 715-135, or within a further period allowed by the Commissioner, the leaving entity may choose to be treated as if the *head company had instead made:
 - (a) the first choice under section 715-100 or 715-125; or
 - (b) the second choice under section 715-105 or 715-130;as specified by the leaving entity in its choice.
- (2) If the leaving entity makes a choice under subsection (1):
 - (a) the *loss denial pool ceases to exist just after the leaving time; and
 - (b) at the leaving time, the *adjustable value of each *CGT asset in the pool is reduced to what it would have been at that time if the head company had instead made the choice specified by the leaving entity in its choice.
- (3) The choice by the leaving entity does not affect how subsection 715-135(4) applies to the *head company.

Note: This means that the head company's loss denial pool still ceases to exist.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 715-B—How Subdivision 165-CD applies to consolidated groups and leaving entities

Table of sections

How Subdivision 165-CD applies to consolidated groups

- 715-215 Extension of single entity rule and entry history rule
- 715-225 Working out adjusted unrealised loss using individual asset method
- 715-230 No reductions or other consequences for interests subject to loss cancellation under Subdivision 715-H

How Subdivision 165-CD applies to leaving entity that is a company

- 715-240 Application of sections 715-245 to 715-260
- 715-245 If ownership or control of leaving entity has altered since head company's last alteration time or formation of group
- 715-250 If head company has had an alteration time but ownership and control of leaving entity have not altered since
- 715-255 Consequences if leaving entity is a loss company at the leaving time
- 715-260 If neither of sections 715-245 and 715-250 applies
- 715-265 Head company does not have relevant equity or debt interest in a loss company if widely held top company does not have such an interest

How Subdivision 165-CD applies to leaving entity that is a trust

- 715-270 Subdivision 165-CD applies

How Subdivision 165-CD applies to consolidated groups

715-215 Extension of single entity rule and entry history rule

- (1) Subsection 701-1(1) (Single entity rule) and section 701-5 (Entry history rule) also have effect for all the purposes of Subdivision 165-CD (about reductions after alterations in ownership or control of loss company).

Note: One consequence of this is that the head company is the only member of a consolidated group that can have an alteration time and be subject to reductions or other consequences under Subdivision 165-CD. The head company is treated as owning all CGT assets owned by group members, and as making relevant losses.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Another consequence is for working out who has a relevant equity interest or relevant debt interest in a company that has an alteration time at which it is a loss company but not a member of a consolidated group. Interests in the loss company that are owned by subsidiary members of the group are treated as being owned by the head company.

- (2) This section is not intended to limit the effect that subsection 701-1(1) and section 701-5 have apart from this section.

715-225 Working out adjusted unrealised loss using individual asset method

- (1) For the purposes of:
- (a) using the *individual asset method to work out whether the *head company of a *consolidated group has an adjusted unrealised loss under section 165-115U at an *alteration time; or
 - (b) working out under section 165-115W whether the head company of a consolidated group has a trading stock decrease at an alteration time;
- step 1 of the method statement in subsection 165-115U(1), or step 2 of the method statement in subsection 165-115W(1), does *not* apply to an amount that was counted in respect of a *CGT asset at an earlier time if:
- (c) at the time (the *joining time*) when an entity became a *subsidiary member of the group, the asset became an asset of the head company because of subsection 701-1(1) (Single entity rule); and
 - (d) the earlier time is an *alteration time that happened in respect of the entity before the joining time;

unless the entity is a chosen transitional entity under Division 701 of the *Income Tax (Transitional Provisions) Act 1997*.

Note: If the joining entity is a chosen transitional entity, section 701-15 of the *Income Tax (Transitional Provisions) Act 1997* prevents:

- section 701-10 (cost to head company of assets of joining entity); and
- subsection 701-35(4) (setting value of trading stock at tax-neutral amount);

of this Act from applying to the assets of the joining entity in relation to the joining time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-230

If the joining entity is *not* a chosen transitional entity, it is assumed that the process of resetting the tax costs of its assets will bring their tax costs into closer alignment to their market values, and so remove the need to consider unrealised losses on those assets that existed before the joining time.

- (2) This section has effect despite section 701-5 (Entry history rule).

715-230 No reductions or other consequences for interests subject to loss cancellation under Subdivision 715-H

If section 715-610 reduces a loss that would otherwise be *realised for income tax purposes by a *realisation event that happens to an interest in, or a debt owed by, a company, sections 165-115ZA and 165-115ZB do not apply (and are taken never to have applied) to the interest or debt, in relation to an *alteration time that happened for the company during the ownership period referred to in subsection 715-610(2).

Note 1: Section 715-610 is about cancelling a loss on a realisation event for certain kinds of interests in a member of a consolidated group.

Note 2: Sections 165-115ZA and 165-115ZB are about the consequences that an alteration time for a loss company has for relevant equity interests and relevant debt interests in the company.

How Subdivision 165-CD applies to leaving entity that is a company

715-240 Application of sections 715-245 to 715-260

Sections 715-245 to 715-260 affect how Subdivision 165-CD (about reductions after alterations in ownership or control of loss company) applies to a company (the *leaving entity*) at and after the time (the *leaving time*) when it ceases to be a *subsidiary member of a *consolidated group that came into existence at a particular time (the *formation time*).

Note: If a trust ceases to be a subsidiary member of a consolidated group: see section 715-270.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

715-245 If ownership or control of leaving entity has altered since head company's last alteration time or formation of group

- (1) This section applies if the leaving time would be an *alteration time for the leaving entity if:
 - (a) the reference time under subsection 165-115L(2) or 165-115M(2) were:
 - (i) if at least one alteration time has occurred in relation to the *head company of the *consolidated group since the formation time and before the leaving time—the time just after the most recent such alteration time; or
 - (ii) otherwise—the formation time; and
 - (b) the additional assumptions in section 715-290 were made.
- (2) The leaving time is an **alteration time** for the leaving entity.

Note: One consequence of this is that the reference time for working out the leaving entity's *next* alteration time is the time just after the leaving time.
- (3) The leaving entity is a **loss company** at that *alteration time if, and only if, it has an *adjusted unrealised loss at that time. If so, that adjusted unrealised loss is the leaving entity's **overall loss** at that time.

Note 1: Subsection (4) affects how the leaving entity works out its adjusted unrealised loss at the leaving time in some cases.

Note 2: If the leaving entity is a loss company at the leaving time, section 715-255 provides for the consequences.
- (4) If the leaving entity uses the *individual asset method of working out its *adjusted unrealised loss at that *alteration time, then for the purposes of:
 - (a) step 1 of the method statement in subsection 165-115U(1); and
 - (b) the method statement in subsection 165-115W(1);the leaving entity is taken to have had no earlier alteration time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-250

715-250 If head company has had an alteration time but ownership and control of leaving entity have not altered since

- (1) This section applies if:
 - (a) at least one *alteration time has occurred in relation to the *head company of the *consolidated group since the formation time and before the leaving time; and
 - (b) the leaving time is *not* an *alteration time for the leaving entity under subsection 715-245(2).
- (2) The leaving time is an **alteration time** for the leaving entity.
- (3) However, for the purposes of determining when the leaving entity's *next* *alteration time happens, the reference time under subsection 165-115L(2) or 165-115M(2) is the time just after the most recent alteration time for the *head company *before* the leaving time.
- (4) The leaving entity is a **loss company** at the leaving time if, and only if, the *head company would have had an *adjusted unrealised loss at the most recent *alteration time (the **head company alteration time**) for the head company before the leaving time if that adjusted unrealised loss (if any) were worked out on the basis that:
 - (a) the head company chooses whether the *individual asset method or the *global method is used; and
 - (b) a *CGT asset is taken into account only if:
 - (i) the head company owned it at the head company alteration time; and
 - (ii) it becomes a CGT asset of the leaving entity at the leaving time because subsection 701-1(1) (the single entity rule) ceases to apply to the entity; and
 - (c) if the individual asset method is used, then for the purposes of:
 - (i) step 1 of the method statement in subsection 165-115U(1); and
 - (ii) the method statement in subsection 165-115W(1);the head company had no earlier alteration time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (5) If the leaving entity is a *loss company at the leaving time, its **overall loss** at that time is the *adjusted unrealised loss worked out under subsection (4).

715-255 Consequences if leaving entity is a loss company at the leaving time

- (1) If:
- (a) section 715-245 or 715-250 applies; and
 - (b) the leaving entity is a *loss company at the leaving time; and
 - (ba) the *head company has a relevant equity interest under section 165-115X in the leaving entity at the leaving time;
- the head company must choose whether subsection (2) or (3) of this section has effect for the purposes of applying, to each *membership interest in the leaving entity, in relation to the time just before the leaving time, whichever of these provisions is appropriate:
- (c) subsection 701-55(3) (about trading stock);
 - (d) subsection 701-55(5), but only so far as it relates to working out the *reduced cost base of a *membership interest that was *acquired on or after 20 September 1985;
 - (e) subsection 701-55(6) (about revenue assets).

Note: Section 701-55 is about setting the tax cost of an asset.

- (1A) For the purposes of paragraph (1)(ba), in determining whether the *head company has the relevant equity interest, disregard the operation of subsection 701-1(1) (the single entity rule) in applying subsections 165-115X(2C) and 165-115X(4).
- (2) If the *head company chooses this subsection, the interest's *tax cost setting amount (apart from this section) just before the leaving time is reduced to nil.
- (3) If the *head company chooses this subsection, the interest's *tax cost setting amount (apart from this section) just before the leaving time is reduced by the adjustment amount under section 165-115ZB, which is calculated on the basis that:
- (a) just before the leaving time, all the *membership interests in the leaving entity constituted a single relevant equity interest

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-260

under section 165-115X that the head company had in the leaving entity; and

- (b) the adjustment amount is worked out and applied in accordance with subsection 165-115ZB(6), but disregarding the paragraphs of that subsection except paragraphs 165-115ZB(6)(a) and (d).
- (4) The *head company's choice must be made within 6 months after the leaving time, or within a further period allowed by the Commissioner.
- (5) After that 6 months, or that further period, the head company is taken to have chosen subsection (2) unless it is established that the head company made a different choice within that 6 months or further period.

Non-membership equity interests

- (6) Subsection 711-15(2) (which treats *non-membership equity interests as *membership interests) also applies for the purposes of this section, on the basis that the *consolidated group referred to in section 715-240 is the old group referred to in that subsection.

715-260 If neither of sections 715-245 and 715-250 applies

- (1) This section applies if:
 - (a) no *alteration time has occurred in relation to the *head company of the *consolidated group since the formation time and before the leaving time; and
 - (b) the leaving time is *not* an *alteration time for the leaving entity under subsection 715-245(2).
- (2) The leaving entity's first *alteration time after the leaving time is determined:
 - (a) on the basis that the reference time under subsection 165-115L(2) or 165-115M(2) is the time just after the formation time; and
 - (b) making the additional assumptions in section 715-290.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (3) If the leaving entity uses the *individual asset method of working out its *adjusted unrealised loss at that first *alteration time, then for the purposes of:
- (a) step 1 of the method statement in subsection 165-115U(1); and
 - (b) the method statement in subsection 165-115W(1);
- the leaving entity is taken to have had no earlier alteration time.

715-265 Head company does not have relevant equity or debt interest in a loss company if widely held top company does not have such an interest

- (1) For the purposes of Subdivision 165-CD, treat the *head company of a *consolidated group as *not* having a relevant equity interest in a *loss company at a particular time if:
- (a) the head company is an *eligible tier-1 company of a *top company at that time; and
 - (b) the top company is a *widely held company at that time; and
 - (c) because of subsections 165-115X(2A), (2B) and (2C), the top company does not have a relevant equity interest under section 165-115X in the loss company at that time.
- (2) For the purposes of paragraph (1)(c), disregard the operation of subsection 701-1(1) (the single entity rule) in determining whether subsection 165-115X(2C) has the effect that the *top company has the relevant equity interest mentioned in that paragraph.
- (3) For the purposes of Subdivision 165-CD, treat the *head company of a *consolidated group as *not* having a relevant debt interest in a *loss company at a particular time if:
- (a) the head company is an *eligible tier-1 company of a *top company at that time; and
 - (b) the top company is a *widely held company at that time; and
 - (c) because of subsections 165-115Y(3A), (3B) and (3C), the top company does not have a relevant debt interest under section 165-115Y in the loss company at that time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

How Subdivision 165-CD applies to leaving entity that is a trust

715-270 Subdivision 165-CD applies

- (1) At and after the time (the *leaving time*) when a trust ceases to be a *subsidiary member of a *consolidated group, Subdivision 165-CD (about reductions after alterations in ownership or control of loss company) applies to the trust on the basis set out in this section.
- (2) The trust is taken to be a company.
- (3) The leaving time is the only *alteration time* in respect of the trust.
- (4) The trust is a *loss company* at that time if, and only if, it has an *adjusted unrealised loss at that time. If so, that adjusted unrealised loss is its *overall loss* at that time.
- (5) If the trust is a *loss company at the leaving time and the *head company has a relevant equity interest under section 165-115X in the leaving entity at the leaving time, the head company must choose whether subsection (6) or (7) of this section has effect for the purposes of applying, to each *membership interest in the trust, in relation to the time just before the leaving time, whichever of these provisions is appropriate:
 - (a) subsection 701-55(3) (about trading stock);
 - (b) subsection 701-55(5), but only so far as it relates to working out the *reduced cost base of a *membership interest that was *acquired on or after 20 September 1985;
 - (c) subsection 701-55(6) (about revenue assets).

Note: Section 701-55 is about setting the tax cost of an asset.

- (5A) For the purposes of subsection (5), in determining whether the *head company has the relevant equity interest, disregard the operation of subsection 701-1(1) (the single entity rule) in applying subsections 165-115X(2C) and 165-115X(4).
- (6) If the *head company chooses this subsection, the interest's *tax cost setting amount (apart from this section) just before the leaving time is reduced to nil.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (7) If the *head company chooses this subsection, the interest's *tax cost setting amount (apart from this section) just before the leaving time is reduced by the adjustment amount under section 165-115ZB, which is calculated on the basis that:
- (a) just before the leaving time:
 - (i) all the *membership interests in the leaving entity constituted a single relevant equity interest under section 165-115X that the *head company had in the leaving entity; and
 - (ii) each of those interests was an equity under section 165-115X that the *head company had in the leaving entity; and
 - (b) the adjustment amount is worked out and applied in accordance with subsection 165-115ZB(6), but disregarding the paragraphs of that subsection except paragraphs 165-115ZB(6)(a) and (d).
- (8) The *head company's choice must be made within 6 months after the leaving time, or within a further period allowed by the Commissioner.
- (9) After that 6 months, or that further period, the head company is taken to have chosen subsection (6) unless it is established that the head company made a different choice within that 6 months or further period.

Non-membership equity interests

- (10) Subsection 711-15(2) (which treats *non-membership equity interests as *membership interests) also applies for the purposes of this section, on the basis that the *consolidated group is the old group referred to in that subsection.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**Subdivision 715-C—Common rules for the purposes of
Subdivisions 715-A and 715-B**

**715-290 Additional assumptions to be made when using reference
time**

The additional assumptions to be made are that, throughout the period starting at the reference time and ending just before the leaving time:

- (a) the leaving entity was in existence; and
- (b) the *head company held and beneficially owned all the *membership interests in the leaving entity (instead of whoever actually did); and
- (c) those membership interests remained the same; and
- (d) the head company directly controlled the voting power in the leaving entity.

**Subdivision 715-D—Treatment of company's deferred losses
under Subdivision 170-D on joining a consolidated
group**

Table of sections

Key terminology

715-310 What is a *170-D deferred loss*, and when it *revives*

Deferred loss on 165-CC tagged asset

715-355 Head company's own deferred losses at formation time

715-360 Deferred losses brought in by subsidiary member

715-365 How loss denial balance is applied when 170-D deferred loss revives

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Key terminology

715-310 What is a *170-D deferred loss*, and when it *revives*

- (1) A *capital loss, deduction, or partner's share of a deduction, that section 170-270 (about transactions within linked groups) requires to be disregarded is a ***170-D deferred loss*** made:
 - (a) by the company that paragraph 170-255(1)(a) refers to as the originating company; and
 - (b) at the time of the event that paragraph refers to as the deferral event; and
 - (c) on the *CGT asset *acquired by the other entity referred to in that paragraph.
- (2) The *170-D deferred loss ***revives*** at the time when section 170-275 (as applying in relation to the deferral event) treats the originating company as having made a *capital loss, or having become entitled to a deduction, in respect of that asset.

Deferred loss on 165-CC tagged asset

715-355 Head company's own deferred losses at formation time

- (1) This section applies if, at the time (the ***formation time***) when a *consolidated group comes into existence, the *head company has (otherwise than because of section 701-5 (Entry history rule)) a *170-D deferred loss that:
 - (a) it made on a *CGT asset that is a *165-CC tagged asset of the head company because of paragraph 165-115A(1A)(b) (which covers CGT assets on which it has 170-D deferred losses); and
 - (b) has not *revived.
- (2) If a *loss denial pool of the *head company is created under section 715-60 at the formation time, each *170-D deferred loss of that kind that the head company has at that time is added to the loss denial pool at that time.
- (3) Otherwise, a ***loss denial pool*** of the *head company is created at the formation time if:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-360

- (a) the formation time is *not* a *changeover time for the head company; and
- (b) the head company's *final RUNL just before the formation time (as reduced by any reductions under section 715-50 or 715-55) was greater than nil; and
- (c) the head company does *not* satisfy the *same business test for:
 - (i) the period (the *same business test period*) consisting of the head company's *trial year; and
 - (ii) the time (the *test time*) just before the *changeover time.

Note: Paragraph (3)(b) has the effect that if the head company has 165-CC tagged assets that are affected by section 715-50 or 715-55 (because they are membership interests in, or accounting liabilities owed by, another group member), those sections are applied before this section.

- (4) When it is created because of subsection (3), the pool consists of each *170-D deferred loss covered by subsection (2), and its *loss denial balance* is equal to the *final RUNL referred to in paragraph (3)(b).

Note: The pool is distinct from any other loss denial pool of the head company, for example, one created at the formation time under section 715-360.

715-360 Deferred losses brought in by subsidiary member

- (1) This section applies if, just before the time (the *membership time*) when a company (the *deferred loss company*) becomes a *subsidiary member of a *consolidated group, it had a *170-D deferred loss that:
 - (a) it made on a *CGT asset that is a *165-CC tagged asset of the company at the membership time because of paragraph 165-115A(1A)(b) (which covers CGT assets on which it has 170-D deferred losses); and
 - (b) as at the membership time has not *revived.
- (2) If a *loss denial pool of the *head company is created under subsection 715-70(2) because of the deferred loss company becoming a *subsidiary member of the group, each *170-D deferred loss of that kind that the deferred loss company had just

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

before the membership time is added to the loss denial pool at that time.

- (3) Otherwise, a **loss denial pool** of the *head company is created at the membership time if:
- (a) the membership time is *not* a *changeover time for the head company; and
 - (b) the deferred loss company's *final RUNL just before the membership time (as reduced by any reductions under section 715-50 or 715-55) was greater than nil; and
 - (c) the deferred loss company does *not* satisfy the *same business test for:
 - (i) the period (the **same business test period**) consisting of the deferred loss company's *trial year; and
 - (ii) the time (the **test time**) just before the *changeover time.

Note 1: The 170-D deferred losses become those of the head company at the formation time because of section 701-5 (Entry history rule).

Note 2: Paragraph (3)(b) has the effect that if the deferred loss company has other 165-CC tagged assets affected by section 715-50 or 715-55 (because the membership time is when the group comes into existence, and the other 165-CC tagged assets are membership interests in, or accounting liabilities owed by, another group member), those sections are applied before this section.

- (4) When it is created because of subsection (3), the pool consists of each 170-D deferred loss covered by subsection (2), and its **loss denial balance** is equal to the *final RUNL referred to in paragraph (3)(b).

Note: The pool is distinct from any other loss denial pool of the head company, for example, one created under this section because another entity becomes a subsidiary member of the group at the membership time.

715-365 How loss denial balance is applied when 170-D deferred loss revives

- (1) If a *170-D deferred loss on a *CGT asset is in a *loss denial pool of an entity when the loss *revives, the *capital loss or deduction that section 170-275 would, apart from this section, treat the entity as having made or become entitled to at that time in respect of the asset is reduced by the lesser of:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-370

- (a) the amount of the capital loss or deduction; and
 - (b) the pool's *loss denial balance (as reduced by any previous reductions under section 715-130, subsection 715-160(1) or this subsection);and the loss denial balance is reduced by the same amount.
- (2) Subsection (1) applies to *170-D deferred losses in the order in which they *revive. If 2 or more revive at the same time, it applies to them in whichever order the entity determines.
- (3) Subsection (1) reduces a *loss denial balance before section 715-130 does, unless the *realisation event happens *after* the leaving time referred to in that section.

Subdivision 715-E—Interactions with Division 775 (Foreign currency gains and losses)

Table of sections

715-370 Cost setting—reference time for determining currency exchange rate effect

715-370 Cost setting—reference time for determining currency exchange rate effect

- (1) This section applies if:
 - (a) an entity (the *joining entity*) becomes a *subsidiary member of a *consolidated group at a time (the *joining time*); and
 - (b) taking into account the operation of subsection 701-1(1) (the single entity rule), the *head company of the group held an asset at the joining time because the joining entity became a subsidiary member of the group; and
 - (c) the asset is a reset cost base asset at the joining time (within the meaning of section 705-35); and
 - (d) in working out the asset's *tax cost setting amount, the currency exchange rate of a particular *foreign currency is taken into account in determining the *market value of the asset.
- (2) For the purposes of Division 775, determine the extent of any *currency exchange rate effect after the joining time in relation to

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

the asset, by reference to the currency exchange rate for the
*foreign currency at the joining time.

Subdivision 715-F—Interactions with Division 230 (financial arrangements)

Table of sections

715-375	Cost setting—amount of liability that is Division 230 financial arrangement
715-378	Cost setting—head company's right to receive or obligation to provide payment
715-380	Exit history rule not to affect certain matters related to Division 230 financial arrangements
715-385	Exit history rule and elective methods applying to Division 230 financial arrangements

715-375 Cost setting—amount of liability that is Division 230 financial arrangement

- (1) Subsection (2) applies if:
 - (a) an entity (the *joining entity*) becomes a *subsidiary member of a *consolidated group at a time (the *joining time*); and
 - (b) a thing (the *accounting liability*) is, in accordance with *accounting standards, or statements of accounting concepts made by the Australian Accounting Standards Board, a liability of the joining entity at the joining time (disregarding subsection 701-1(1) (the single entity rule)) that can or must be recognised in the entity's statement of financial position; and
 - (c) the accounting liability is or is part of a *Division 230 financial arrangement of the head company at the joining time (because of subsection 701-1(1) (the single entity rule)).
- (2) For the purposes of Division 230 and Schedule 1 to the *Tax Laws Amendment (Taxation of Financial Arrangements) Act 2009*, treat the *head company of the group as starting to have the accounting liability at the joining time for receiving a payment equal to:
 - (a) if the liability is or is part of a *Division 230 financial arrangement of the head company at the joining time (because of subsection 701-1(1) (the single entity rule)):

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-378

- (i) to which Subdivision 230-B (accruals method or realisation method) applies; or
 - (ii) to which Subdivision 230-E (hedging financial arrangements method) applies;
- the amount of the liability, as determined in accordance with:
- (iii) the joining entity's *accounting principles for tax cost setting; or
 - (iv) if the amount of the liability cannot be determined in accordance with the joining entity's accounting principles for tax cost setting—comparable standards for accounting made under a *foreign law; or
- (b) otherwise—the liability's *Division 230 starting value at the joining time.

715-378 Cost setting—head company's right to receive or obligation to provide payment

- (1) This section applies in relation to an asset or a liability if:
 - (a) an entity (the *joining entity*) becomes a subsidiary member of a consolidated group at a time (the *joining time*); and
 - (b) the asset or liability becomes that of the head company of the group because subsection 701-1(1) (the single entity rule) applies at the joining time; and
 - (c) in the case of an asset—subsection 701-55(5A) applies in relation to the asset at the joining time; and
 - (d) in the case of a liability—subsection 715-375(2) applies in relation to the liability at the joining time.
- (2) In the case of an asset, for the purposes of section 230-60, assume that the *head company of the group acquired the asset at the joining time (as mentioned in subsection 701-55(5A)) in return for the head company starting to have an obligation to provide the payment mentioned in that subsection.
- (3) In the case of a liability, for the purposes of section 230-60, assume that the *head company of the group started to have the liability at the joining time (as mentioned in subsection 715-375(2)) in return for the head company starting to have a right to receive the payment mentioned in that subsection.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**715-380 Exit history rule not to affect certain matters related to
Division 230 financial arrangements**

Spreading fees gain or loss

- (1) Subsection (2) applies if:
- (a) an entity (the *leaving entity*) ceases to be a *subsidiary member of a *consolidated group at a time (the *leaving time*); and
 - (b) but for the cessation of membership and section 701-40 (the exit history rule), the *head company of the group would spread a fees gain or loss mentioned in section 230-160 over a period that ended after the leaving time.
- (2) Despite section 701-40 (the exit history rule), the *head company of the *consolidated group continues to spread the fees gain or loss over that period, in accordance with section 230-160.

Assessable income and deductions under section 701-61

- (3) Subsection (4) applies if:
- (a) an entity (the *leaving entity*) ceases to be a *subsidiary member of a *consolidated group at a time (the *leaving time*); and
 - (b) but for the cessation of membership and section 701-40 (the exit history rule):
 - (i) an amount would be included in the assessable income of the *head company of the group under section 701-61 for an income year ending after the leaving time; or
 - (ii) the head company of the group would be entitled to a deduction under section 701-61 for an income year ending after the leaving time.
- (4) Despite section 701-40 (the exit history rule), the amount is included in the assessable income of the *head company for the income year, or the head company is entitled to the deduction for the income year.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

**715-385 Exit history rule and elective methods applying to
Division 230 financial arrangements**

- (1) Subsection (2) applies if:
 - (a) an entity (the *leaving entity*) ceases to be a *subsidiary member of a *consolidated group at a time (the *leaving time*); and
 - (b) the *head company of the group has a *Division 230 financial arrangement at the leaving time because the leaving entity is taken by subsection 701-1(1) (the single entity rule) to be a part of the head company; and
 - (c) after the leaving time, the leaving entity makes an election of a kind mentioned in section 230-220 (fair value method), 230-265 (foreign exchange retranslation method), 230-325 (hedging method) or 230-410 (reliance on financial reports method).
- (2) For the purposes of determining whether the election applies to the financial arrangement, disregard paragraphs 230-220(1)(d), 230-265(1)(d), 230-325(a) and 230-410(1)(b)).

Subdivision 715-G—How value shifting rules apply to a consolidated group

Table of sections

715-410	Extension of single entity rule and entry history rule
715-450	No reductions or other consequences for interests subject to loss cancellation under Subdivision 715-H

715-410 Extension of single entity rule and entry history rule

- (1) Subsection 701-1(1) (Single entity rule) and section 701-5 (Entry history rule) also have effect for all the purposes of Part 3-95 (Value shifting).

Note: One consequence of this for the operation of Division 727 (about indirect value shifting affecting interests in companies and trusts, and arising from non-arm's length dealings) is that economic benefits provided by or to a subsidiary member of a consolidated group are treated as provided by or to the head company of the group. As a result:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-450

- the head company is the only group member that can be a losing entity or gaining entity for an indirect value shift; and
- economic benefits provided by one group member to another are treated as provided by the head company to itself, and so have no relevance to Division 727.

Another consequence is that the head company is treated as owning all interests owned by group members in a losing entity or gaining entity that is not a group member.

- (2) This section is not intended to limit the effect that subsection 701-1(1) and section 701-5 have apart from this section.

715-450 No reductions or other consequences for interests subject to loss cancellation under Subdivision 715-H

If section 715-610 reduces a loss that would otherwise be *realised for income tax purposes by a *realisation event that happens to an *equity or loan interest in an entity:

- (a) the loss is not subject to reduction under Division 723 (Direct value shifting by creating right over non-depreciating asset) or 727 (Indirect value shifting); and
- (b) the interest's *adjustable value is not, and is taken never to have been, reduced under Division 725 because of a *direct value shift during the ownership period referred to in subsection 715-610(2); and
- (c) the interest's *adjustable value is not, and is taken never to have been, reduced under Division 727 because of an *indirect value shift during that period.

Note: Section 715-610 is about cancelling a loss on a realisation event for certain kinds of interests in a member of a consolidated group.

Subdivision 715-H—Cancelling loss on realisation event for direct or indirect interest in a member of a consolidated group

Table of sections

715-610	Cancellation of loss
715-615	Exception for interests in entity leaving consolidated group
715-620	Exception if loss attributable to certain matters

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-610

715-610 Cancellation of loss

- (1) This section reduces to nil a loss that would otherwise be *realised for income tax purposes by a *realisation event that happens to an *equity or loan interest (the ***realised interest***) in an entity (the ***first entity***) when it is owned by another entity (the ***owner***), if the conditions in subsections (2) and (4) are met.
- (2) The first condition is that, at some time during the period (the ***ownership period***) when the owner owned the realised interest:
 - (a) the first entity was a *subsidiary member of a *consolidated group, and the owner was *not* a *member of the group; or
 - (b) the realised interest was an *external indirect equity or loan interest in a subsidiary member of a consolidated group; or
 - (c) the realised interest was an *equity or loan interest in an entity that, at that time:
 - (i) owned an equity or loan interest in a subsidiary member of a consolidated group; and
 - (ii) was *not* a member of the group; or
 - (d) the realised interest was an *equity or loan interest in an entity that owned at that time an external indirect equity or loan interest in a subsidiary member of a consolidated group; or
 - (e) all of these conditions are satisfied at that time:
 - (i) the realised interest was an equity or loan interest, an *indirect equity or loan interest or an external indirect equity or loan interest, in the *head company of a consolidated group;
 - (ii) the owner was *not* a member of the group;
 - (iii) the head company was an *eligible tier-1 company of a *top company.
- (3) An *equity or loan interest in an entity (the ***test entity***) is an ***external indirect equity or loan interest*** in a member of a *consolidated group if, and only if, neither the owner of the interest nor the test entity is a member of the group and:
 - (a) the test entity owns an equity or loan interest in the member;or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) the test entity owns an equity or loan interest that is an external indirect equity or loan interest in the member because of one or more other applications of this subsection.
- (4) The second condition is that, at the same or a different time during the ownership period:
 - (a) the owner was, or *controlled (for value shifting purposes), the *head company of a *consolidated group because of which the first condition is satisfied; or
 - (b) the owner was an *associate of an entity that, at the same or a different time during the ownership period, was, or controlled (for value shifting purposes), the head company of such a consolidated group.

715-615 Exception for interests in entity leaving consolidated group

Membership interests in leaving entity

- (1) If:
 - (a) the realised interest is a *membership interest; and
 - (b) during the ownership period the first entity ceased to be a *subsidiary member of a *consolidated group;the first condition in section 715-610 cannot be satisfied, because of that consolidated group, at a time when the first entity was a member of the group, unless the interest needed to be disregarded under section 703-35 (about employee shares), or section 703-37 (about ADI restructures), in order for the first entity to be a member of the group at that time.

Liabilities owed by leaving entity

- (2) If the realised interest:
 - (a) consists of a liability owed by the first entity to the owner; and
 - (b) became an asset of the owner because subsection 701-1(1) (the single entity rule) ceased to apply to the first entity when it ceased to be a *subsidiary member of a *consolidated group;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-620

the first condition in section 715-610 cannot be satisfied, because of that consolidated group, at a time when the first entity was a member of the group.

715-620 Exception if loss attributable to certain matters

- (1) The loss is not reduced if all of it can be shown to be attributable to things other than these:
 - (a) something that would be reflected in what would, apart from this Part, be an overall loss under section 165-115R or 165-115S, of a *member of a *consolidated group (an *excluded group*) because of which the first condition in section 715-610 is satisfied, at an *alteration time for that member;
 - (b) an *indirect value shift for which, apart from this Part, a member of an excluded group would be the *losing entity or the *gaining entity.
- (2) If only part of the loss can be shown to be attributable to things other than the ones listed in subsection (1), the loss is reduced to the amount of that part.

Subdivision 715-J—Entry history rule and choices

Table of sections

Head company's choice overriding entry history rule

715-660 Head company's choice overriding entry history rule

Choices head company can make ignoring entry history rule to override inconsistencies

715-665 Head company's choice to override inconsistency

Choices with ongoing effect

715-670 Ongoing effect of choices made by entities before joining group

715-675 Head company adopting choice with ongoing effect

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Head company's choice overriding entry history rule

715-660 Head company's choice overriding entry history rule

Application

- (1) This section has effect if an entity becomes a *subsidiary member of a *consolidated group at a time (the **joining time**) and either:
- (a) the question whether the entity had made a choice (however described) under a provision (the **choice provision**) listed in the table was relevant to working out the entity's liability (if any) for income tax, or the entity's loss (if any) of a particular *sort, calculated by reference to an income year starting before the joining time; or
 - (b) before the joining time, the entity made a choice that:
 - (i) is described in paragraph (a); and
 - (ii) would, if the entity had not become a subsidiary member of a consolidated group, have started to have effect for working out the entity's liability (if any) for income tax, or the entity's loss (if any) of a particular *sort, calculated by reference to the first income year starting after the joining time.

List		
Item	Provision	Subject of provision
1	A provision of Part X of the <i>Income Tax Assessment Act 1936</i> for an irrevocable declaration, election, choice or selection	Attribution of income in respect of controlled foreign companies
2	A provision of Subdivision 420-D that provides for a choice	Valuing *registered emissions units
3	Item 1 of the table in subsection 960-60(1)	Choosing to use an *applicable functional currency
3A	section 230-210, 230-255, 230-315 or 230-395	Choice about treatment of gains and losses from *Division 230 financial arrangement

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-660

List		
Item	Provision	Subject of provision
4	A provision that: (a) provides for a choice (however described); and (b) is a provision of regulations made for the purposes of this Act, other than this item; and (c) is prescribed by regulations made for the purposes of this item	Choice about a matter described in the regulations
Note: Declarations, elections and selections made under the choice provision by the entity are all examples of choices under that provision (even though the provision does not call them choices), because the entity has chosen to make them.		

Objects

- (2) The main objects of this section are:
- (a) to override section 701-5 (Entry history rule) in relation to a choice (however described) by the entity under the choice provision or the absence of such a choice; and
 - (b) to extend, in some cases, the time for the *head company of the *consolidated group to make a choice (however described) under the choice provision after the joining time; and
 - (c) to modify, in some cases, the time at which such a choice by the head company starts to have effect.

Overriding the entry history rule

- (3) For the head company core purposes set out in section 701-1 (Single entity rule), ignore a choice (however described) made by the entity under the choice provision or the absence of such a choice.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Extension of time for head company to make choice

- (4) If:
- (a) because of:
 - (i) the fact that the entity became a *subsidiary member of the *consolidated group; and
 - (ii) section 701-1 (Single entity rule);the question whether the *head company of the group has made a choice (however described) under the choice provision becomes relevant for the head company core purposes set out in that section; and
 - (b) there is a limit (outside this section) on the period within which the head company may make such a choice;
- the head company has until the later of these times to make such a choice:
- (c) the last time the head company may make the choice (apart from this subsection);
 - (d) the end of 90 days after the Commissioner is given notice under Division 703 that the entity has become a *member of the group or, if the Commissioner allows a later time for the purposes of this paragraph, that later time.

When head company's choice starts to have effect

- (5) If the *head company of the *consolidated group makes a choice (however described) under the choice provision as a result of becoming able to make the choice because the entity became a *subsidiary member of the group at the joining time, the choice starts to have effect:
- (a) at the joining time; or
 - (b) if the choice relates (explicitly or implicitly) to one or more whole income years—for the income year in which the joining time occurs.

Note: Subsection (5) has effect whether or not subsection (4) contributed to the head company becoming able to make the choice.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-665

Relationship with other provisions

- (6) Section 701-5 (Entry history rule) and the choice provision have effect subject to this section.

Choices head company can make ignoring entry history rule to override inconsistencies

715-665 Head company's choice to override inconsistency

Application

- (1) This section has effect if:
- (a) an entity (the **joining entity**) becomes a *subsidiary member of a *consolidated group at a time (the **joining time**); and
 - (b) for each of the following entities, the question whether the entity had made a choice (however described) under a provision (the **choice provision**) listed in the table was relevant to working out the entity's liability (if any) for income tax, or the entity's loss (if any) of a particular *sort, calculated by reference to an income year starting before the joining time:
 - (i) the joining entity;
 - (ii) another entity that was a *member of the group at the joining time; and
 - (c) there was an inconsistency because, just before the joining time, such a choice had effect for one of the entities but not for the other.

List		
Item	Provision	Subject of provision
1	Section 148 of the <i>Income Tax Assessment Act 1936</i>	Reinsurance with non-residents
1A	section 230-210, 230-255, 230-315 or 230-395	Choice about treatment of gains and losses from *Division 230 financial arrangement
2	Section 775-80	Choosing not to have sections 775-70 and 775-75 apply to deal with *forex realisation gains and *forex realisation losses

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

List		
Item	Provision	Subject of provision
3	A provision that: (a) provides for a choice (however described); and (b) is a provision of regulations made for the purposes of this Act, other than this item; and (c) is prescribed by regulations made for the purposes of this item	Choice about a matter described in the regulations
<p>Note 1: The other entity mentioned in subparagraph (1)(b)(ii) may have become a member of the group either before or at the joining time. That other entity may be either another subsidiary member of the group or the head company of the group.</p> <p>Note 2: An election by an entity under section 148 of the <i>Income Tax Assessment Act 1936</i> is an example of a choice under that provision (even though that section does not call the election a choice) because the entity has chosen to make the election.</p>		

Object

- (2) The main objects of this section are:
- (a) to override the inconsistency; and
 - (b) to displace section 701-5 (Entry history rule), so far as it relates to the inconsistency; and
 - (c) to allow the *head company of the *consolidated group to make a choice (however described) under the choice provision.

Overriding the inconsistency

- (3) Neither of these things relating to an entity that becomes a *member of the *consolidated group at the joining time has effect for the head company core purposes set out in section 701-1 (Single entity rule):
- (a) a choice (however described) by the entity having effect under the choice provision before that time;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-665

(b) the absence of such a choice.

Note: This affects all entities that become members of the consolidated group at the joining time, including the head company if the joining time is the time at which the group comes into existence.

(4) However, if the choice provision is section 148 of the *Income Tax Assessment Act 1936* (Reinsurance with non-residents):

(a) subsection (3) of this section does not apply in relation to reinsurance under contracts made before the joining time (but does apply in relation to reinsurance under contracts made at or after that time); and

(b) that section applies for the head company core purposes in relation to reinsurance under a contract made before the joining time by an entity (the *contracting party*) that became a *member of the *consolidated group at or before the joining time:

(i) as if the *head company of the consolidated group had made an election under that section, if the contracting party had made such an election that was relevant to working out the party's liability (if any) for income tax, or the party's *tax loss (if any), for an income year in connection with the contract; or

(ii) as if the head company had not made such an election, if the contracting party had not made such an election that was relevant to working out the party's liability (if any) for income tax, or the party's tax loss (if any), for an income year in connection with the contract.

Choice replacing inconsistency

(5) If:

(a) the question whether the *head company of the *consolidated group has made a choice (however described) under the choice provision is relevant for the head company core purposes set out in section 701-1 (Single entity rule); and

(b) there is a limit (outside this section) on the period within which the head company may make such a choice;

the head company has until the later of these times to make such a choice:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (c) the last time the head company may make the choice (apart from this subsection);
- (d) the end of 90 days after the Commissioner is given notice under Division 703 that the joining entity has become a *member of the group or, if the Commissioner allows a later time for the purposes of this paragraph, that later time.

Note: If the joining time is when the consolidated group is formed, the Commissioner should be given notice under Division 703 that the joining entity has become a member of the group when the approved form of the choice to form the group is given to the Commissioner.

When head company's choice starts to have effect

- (6) If the *head company of the *consolidated group makes a choice (however described) under the choice provision as a result of becoming able to make the choice because the joining entity became a *member of the group, the choice starts to have effect:
 - (a) at the joining time; or
 - (b) if the choice relates (explicitly or implicitly) to one or more whole income years—for the income year in which the joining time occurs.
- (7) However, if:
 - (a) the *head company of the *consolidated group makes a choice as described in subsection (6); and
 - (b) the choice is an election under section 148 of the *Income Tax Assessment Act 1936* (Reinsurance with non-residents);

the election has effect only for the purposes of that section applying in relation to reinsurance under contracts made after the joining time and in an income year for which the election applies under that section.

Note: Subsection (4) explains how section 148 of the *Income Tax Assessment Act 1936* applies in relation to reinsurance under contracts made before the joining time.

Relationship with other provisions

- (8) Section 701-5 (Entry history rule) and the choice provision have effect subject to this section.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Choices with ongoing effect

715-670 Ongoing effect of choices made by entities before joining group

- (1) This section has effect if the question whether the *head company of a *consolidated group has made a choice (however described) under a provision listed in the table is relevant for the head company core purposes set out in section 701-1 (Single entity rule) because of something happening in relation to a thing:
- (a) that is an asset, right, liability or obligation of the head company; and
 - (b) that the head company started to have, at the time (the **joining time**) an entity (the **joining entity**) became a *subsidiary member of the group, because of that section and the fact that (ignoring that section) the entity had the thing at the joining time.

List

Item	Provision	Subject of provision
1	Section 775-150	Choice to apply rules about disregarding certain *forex realisation gains and *forex realisation losses

- (2) The *head company is taken to have made such a choice if the joining entity had one in effect before the joining time.
- (3) The *head company is taken not to have made the choice if the joining entity did not have one in effect before the joining time.

715-675 Head company adopting choice with ongoing effect

- (1) This section has effect, despite section 715-670, if:
- (a) an entity that becomes a *member of a *consolidated group had a choice (however described) in effect under a provision (the **choice provision**) listed in that section before becoming a member of the group; and
 - (b) the time at which the entity becomes a member of the group is the first time at which an entity that had a choice (however described) in effect under the choice provision before

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- becoming a member of the group became a member of the group; and
- (c) the *head company of the group chooses in writing, before:
- (i) the end of 90 days after the Commissioner is given notice under Division 703 that the entity has become a member of the group; or
 - (ii) a later time allowed by the Commissioner;
- to be treated as if the head company had made a choice under the choice provision.
- (2) The *head company is taken to have made a choice under the choice provision for these purposes:
- (a) the head company core purposes set out in section 701-1 (Single entity rule);
 - (b) the purposes of the application of section 715-670 and paragraph (1)(a) in relation to another *consolidated group of which the company later becomes a *subsidiary member.

Subdivision 715-K—Exit history rule and choices

Table of sections

Choices leaving entity can make ignoring exit history rule

715-700 Choices leaving entity can make ignoring exit history rule

Choices leaving entity can make ignoring exit history rule to overcome inconsistencies

715-705 Choices leaving entity can make ignoring exit history rule to overcome inconsistencies

Choices leaving entity can make ignoring exit history rule

715-700 Choices leaving entity can make ignoring exit history rule

Application

- (1) This section has effect if:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-700

- (a) an entity ceases to be a *subsidiary member of a *consolidated group at a time (the *leaving time*); and
- (b) the question whether the *head company of the group had made a choice (however described) under a provision (the *choice provision*) listed in the table in subsection 715-660(1) was relevant to working out that company's liability (if any) for income tax, or the entity's loss (if any) of a particular *sort, calculated by reference to an income year starting before the leaving time.

Note: Declarations, elections and selections made under the choice provision at the option of a company are all examples of choices under that provision (even though it does not call them choices) because the company has chosen to make them.

Objects

- (2) The main objects of this section are:
 - (a) to override section 701-40 (Exit history rule) and let the entity make a choice (however described) under the choice provision with effect after the leaving time; and
 - (b) to extend, in some cases, the time for the entity to make such a choice after the leaving time; and
 - (c) to modify, in some cases, the rules about when such a choice by the entity starts to have effect.

Overriding the exit history rule

- (3) For the entity core purposes set out in section 701-1 (Single entity rule) relating to income years ending after the leaving time, ignore a choice (however described) made by the *head company of the *consolidated group under the choice provision or the absence of such a choice.

Fresh choice by the entity

- (4) The entity may make a choice (however described) under the provision if the question whether the entity has made such a choice is relevant to working out the entity's liability (if any) for income tax, or loss (if any) of a particular *sort, calculated by reference to an income year ending after the leaving time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Extension of time for fresh choice by the entity

- (5) If there is a time limit (apart from this subsection) on the entity making such a choice, the entity has until the later of these times to make the choice:
- (a) the last time it may make the choice under the provision (apart from this section);
 - (b) the end of 90 days after the leaving time or, if the Commissioner allows a later time for the purposes of this paragraph, that later time.

Start of effect of choice

- (6) If the entity makes a choice because of this section, the choice starts to have effect:
- (a) at the leaving time; or
 - (b) if the choice relates (explicitly or implicitly) to one or more whole income years—for the income year in which the leaving time occurs.

Relationship with other provisions

- (7) Section 701-40 (Exit history rule) and the choice provision have effect subject to this section.

Choices leaving entity can make ignoring exit history rule to overcome inconsistencies

715-705 Choices leaving entity can make ignoring exit history rule to overcome inconsistencies

Application

- (1) This section has effect if an entity ceases to be a *subsidiary member of a *consolidated group at a time (the *leaving time*) and there is an inconsistency because either:
- (a) both of these conditions are met:
 - (i) a choice (however described) under a provision (the *choice provision*) listed in the table in subsection

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-705

715-665(1) by the entity had effect just before the entity became a *member of the group;

- (ii) there was not such a choice by the *head company of the group having effect just before the leaving time; or
- (b) both of these conditions are met:
 - (i) there was not a choice (however described) under the choice provision by the entity having effect just before the entity became a member of the group;
 - (ii) such a choice by the head company had effect just before the leaving time.

Note: An election by the entity or head company under the choice provision is an example of a choice under that provision (even though the provision does not call the election a choice) because the entity or company has chosen to make the election.

Object

- (2) The main objects of this section are:
 - (a) to displace section 701-40 (Exit history rule), so far as it relates to the inconsistency; and
 - (b) to allow the entity to make a choice (however described) under the choice provision with effect after the leaving time.

Displacing the exit history rule

- (3) For the entity core purposes set out in section 701-1 (Single entity rule) relating to income years ending after the leaving time, ignore a choice (however described) made by the *head company of the *consolidated group under the choice provision or the absence of such a choice.
- (4) However, if the choice provision is section 148 of the *Income Tax Assessment Act 1936* (Reinsurance with non-residents):
 - (a) subsection (3) of this section does not apply in relation to reinsurance under contracts made before the leaving time (but does apply in relation to reinsurance under contracts made at or after that time); and
 - (b) that section applies, for the entity core purposes relating to income years ending after the leaving time, in relation to reinsurance under a contract made before the leaving time:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (i) as if the entity had made an election under that section, if the *head company of the *consolidated group made, or was treated as having made, such an election that was relevant to working out that company's liability (if any) for income tax, or that company's *tax loss (if any), for an income year in connection with the contract; or
- (ii) as if the entity had not made such an election, if the head company had not made, and was not treated as having made, such an election that was relevant to working out that company's liability (if any) for income tax, or that company's tax loss (if any), for an income year in connection with the contract.

Note: In some cases, subsection 715-665(4) treats the head company of a consolidated group as having made an election under section 148 of the *Income Tax Assessment Act 1936* in relation to reinsurance under contracts made before an entity becomes a member of the group.

Fresh choice by the entity

- (5) The entity may make a choice (however described) under the choice provision if the question whether the entity has made such a choice is relevant to working out the entity's liability (if any) for income tax, or loss (if any) of a particular *sort, calculated by reference to an income year ending after the leaving time.

Extension of time for fresh choice by the entity

- (6) If there is a time limit (apart from this subsection) on the entity making such a choice, the entity has until the later of these times to make the choice:
 - (a) the last time it may make the choice under the choice provision (apart from this section);
 - (b) the end of 90 days after the leaving time or, if the Commissioner allows a later time for the purposes of this paragraph, that later time.

Start of effect of choice

- (7) If the entity makes a choice because of this section, the choice starts to have effect:
 - (a) at the leaving time; or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-875

- (b) if the choice relates (explicitly or implicitly) to one or more whole income years—for the income year in which the leaving time occurs.
 - (8) However, if:
 - (a) the entity makes a choice because of this section; and
 - (b) the choice is an election under section 148 of the *Income Tax Assessment Act 1936* (Reinsurance with non-residents);the election has effect only for the purposes of that section applying in relation to reinsurance under contracts made at or after the leaving time and in an income year for which the election applies under that section.
- Note: Subsection (4) explains how section 148 of the *Income Tax Assessment Act 1936* applies in relation to reinsurance under contracts made before the joining time.

Relationship with other provisions

- (9) Section 701-40 (Exit history rule) and the choice provision have effect subject to this section.

Subdivision 715-U—Effect on conduit foreign income

Table of sections

715-875	Extension of single entity rule and entry history rule
715-880	No CFI for leaving entity

715-875 Extension of single entity rule and entry history rule

- (1) Subsection 701-1(1) (Single entity rule) and section 701-5 (Entry history rule) also have effect for all the purposes of Subdivision 802-A (about conduit foreign income).
- (2) This section is not intended to limit the effect that subsection 701-1(1) and section 701-5 have apart from this section.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

715-880 No CFI for leaving entity

Despite section 701-40 (the exit history rule), an entity that ceases to be a *subsidiary member of a *consolidated group at a time has no *conduit foreign income at that time.

Subdivision 715-V—Entity ceasing to be exempt from income tax on becoming subsidiary member of consolidated group

Table of sections

715-900 Transition time taken to be just before joining time

715-900 Transition time taken to be just before joining time

- (1) This section has effect if:
 - (a) an entity becomes a *subsidiary member of a *consolidated group at a time (the *joining time*); and
 - (b) the entity's *ordinary income and *statutory income were not (to any extent) assessable income just before the joining time.
- (2) Division 57 in Schedule 2D to the *Income Tax Assessment Act 1936* and Division 58 of this Act have effect as if the entity's *ordinary income or *statutory income had become to some extent assessable income just before the joining time.

Note 1: Those Divisions deal with entities whose ordinary income and statutory income were previously exempt from income tax.

Note 2: The operation of Division 58 just before the joining time can affect the basis on which the tax cost is set for a depreciating asset that becomes an asset of the head company of the consolidated group at the joining time because of section 701-1 (the single entity rule). That Division provides the basis for working out under Division 40 the asset's adjustable value. This is the entity's terminating value for the asset, which in turn can affect the tax cost setting amount for the asset under sections 705-40, 705-45 and 705-47.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-910

Subdivision 715-W—Effect on arrangements where CGT roll-overs are obtained

Table of sections

715-910	Effect on restructures—original entity becomes a subsidiary member
715-915	Effect on restructures—original entity is a head company
715-920	Effect on restructures—original entity is a head company that becomes a subsidiary member of another group
715-925	Effect on restructures—original entity ceases being a subsidiary member

715-910 Effect on restructures—original entity becomes a subsidiary member

(1) This section applies if:

- (a) as a result of an *arrangement to which section 124-784A applies, an original entity (within the meaning of that section) becomes a *subsidiary member of a *consolidated group; and
- (b) section 715-920 does not apply.

Note 1: Section 715-920 applies if the original entity was the head company of another consolidated group before the arrangement was completed.

Note 2: Sections 124-784A and 124-784B apply to arrangements for restructures.

(2) For the purposes of section 124-784B:

- (a) the completion time (within the meaning of that section) for the *arrangement is taken to be the time the original entity becomes a member of the group; and
- (b) disregard Division 701 (Core rules) in relation to the original entity becoming a member of the group.

(3) The *head company of the group may choose for:

- (a) section 701-10 (cost to head company of assets of joining entity); and
- (b) subsection 701-35(4) (setting value of trading stock at tax-neutral amount); and
- (c) subsection 701-35(5) (setting value of registered emissions unit at tax-neutral amount);

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

not to apply to the original entity's assets in respect of the original entity becoming a *subsidiary member of the group.

Note: This subsection does not affect the application of subsection 701-1(1) (the single entity rule).

715-915 Effect on restructures—original entity is a head company

If:

- (a) section 124-784A applies in relation to an *arrangement; and
- (b) the original entity (within the meaning of that section) for the arrangement is the *head company of a *consolidated group just before the arrangement was completed; and
- (c) section 715-920 does not apply;

then, for the purposes of section 124-784B, subsection 701-1(1) (the single entity rule) and section 701-5 (the entry history rule) apply in respect of the group.

Note 1: This section does not otherwise affect the application of subsection 701-1(1) or section 701-5.

Note 2: Sections 124-784A and 124-784B apply to arrangements for restructures.

715-920 Effect on restructures—original entity is a head company that becomes a subsidiary member of another group

(1) This section applies if:

- (a) section 124-784A applies in relation to an *arrangement; and
- (b) the original entity (within the meaning of that section) for the arrangement is the *head company of a *consolidated group (the ***acquired group***) just before the arrangement was completed; and
- (c) as a result of the arrangement:
 - (i) the original entity; and
 - (ii) the *subsidiary members of the acquired group just before the arrangement was completed;become subsidiary members of another consolidated group.

Note: Sections 124-784A and 124-784B apply to arrangements for restructures.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 715-920

(2) For the purposes of section 124-784B:

- (a) the original entity is taken to be the *head company of the acquired group at the completion time (within the meaning of that section) for the *arrangement; and
- (b) the operation of this Part for the head company core purposes (mentioned in subsection 701-1(2)) in relation to:
 - (i) the original entity; and
 - (ii) the entities that were *subsidiary members of the acquired group just before the arrangement was completed;
continue to have effect at the completion time for the arrangement; and
- (c) the completion time for the arrangement is taken to be the time the original entity becomes a member of the other group; and
- (d) disregard Division 701 (Core rules) in relation to the original entity becoming a member of the other group.

Note: Paragraph (b) means that, for the purposes of section 124-784B, the subsidiary members of the acquired group are treated as part of the original entity.

(3) The *head company of the other group may choose for:

- (a) section 701-10 (cost to head company of assets of joining entity); and
- (b) subsection 701-35(4) (setting value of trading stock at tax-neutral amount); and
- (c) subsection 701-35(5) (setting value of registered emissions unit at tax-neutral amount);

not to apply to the original entity's assets in respect of the original entity becoming a *subsidiary member of the other group.

Note: This subsection does not affect the application of subsection 701-1(1) (the single entity rule).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

715-925 Effect on restructures—original entity ceases being a subsidiary member

If, as a result of an *arrangement to which section 124-784A applies, an original entity (within the meaning of that section):

(a) ceases to be a *subsidiary member of a *consolidated group after the completion time (within the meaning of that section) for the arrangement; and

(b) does not become a member of another consolidated group; then, for the purposes of section 124-784B, the completion time for the arrangement is taken to happen at the time of the cessation.

Note: Sections 124-784A and 124-784B apply to arrangements for restructures.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Division 716—Miscellaneous special rules

Table of Subdivisions

716-A	Assessable income and deductions spread over several membership or non-membership periods
716-E	Tax cost setting for exploration and prospecting assets
716-G	Low-value and software development pools
716-S	Miscellaneous consequences of tax cost setting
716-V	Research and Development
716-Z	Other

Subdivision 716-A—Assessable income and deductions spread over several membership or non-membership periods

Guide to Subdivision 716-A

716-1 What this Division is about

Some items of assessable income, and some deductions, are in effect spread over 2 or more income years. This Division apportions the assessable income or deduction for each of those income years among periods within the income year when an entity is, or is not, a subsidiary member of a consolidated group.

This Division also apportions in a similar way some items of assessable income, and some deductions, for a single income year.

Table of sections

Operative provisions

716-15	Assessable income spread over 2 or more income years
716-25	Deductions spread over 2 or more income years
716-70	Capital expenditure that is fully deductible in one income year

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Assessable income and deductions arising from share of net income of a partnership or trust, or from share of partnership loss

716-75	Application
716-80	Head company's assessable income and deductions
716-85	Entity's assessable income and deductions for a non-membership period
716-90	Entity's share of assessable income or deductions of partnership or trust
716-95	Special rule if not all partnership or trust's assessable income or deductions taken into account in working out amount
716-100	Spreading period

Operative provisions

716-15 Assessable income spread over 2 or more income years

- (1) This section applies if, apart from this Part, a provision of this Act would spread an amount (the *original amount*) over 2 or more income years (whether or not because of a choice) by including part of the original amount in the same entity's assessable income for each of those income years.

Head company's assessable income

- (2) If:
- (a) for some but not all of an income year, an entity is a *subsidiary member of a *consolidated group; and
 - (b) a part of the original amount:
 - (i) would have been included in the assessable income of the *head company of the group for that income year if the entity had been a subsidiary member of the group throughout that income year; but
 - (ii) would have been included in the entity's assessable income for that income year if throughout that income year the entity had not been a subsidiary member of any *consolidated group;

the head company's assessable income for that income year includes a proportion of that part.

Note 1: Examples of when paragraph (2)(b) could be satisfied are:

- the head company is the entity referred to in subsection (1), but its connection with the original amount passes to the

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 716-15

entity when the entity ceases to be a subsidiary member of the group (see section 701-40 (Exit history rule));

- the entity is the entity referred to in subsection (1) but joins a consolidated group part way through the income year, so that its connection with the original amount passes to the head company of the group (see section 701-5 (Entry history rule)).

Note 2: If the entity is a subsidiary member of the group throughout the income year, the part of the original amount will be included in the head company's assessable income for the income year, either:

- because the head company is the entity referred to in subsection (1); or
- because of section 701-1 (Single entity rule); or
- because of section 701-5 (Entry history rule).

(3) The proportion is worked out by multiplying that part of the original amount by:

- the number of days that are in both the income year and the
*spreading period, and on which the entity was a
*subsidiary member of the group;

divided by:

- the number of days that are in both the income year and the spreading period.

Entity's assessable income for a non-membership period

(4) If:

- (a) for some but not all of an income year, an entity is a
*subsidiary member of a *consolidated group; and
- (b) a part of the original amount would have been included in the entity's assessable income for that income year if throughout that income year the entity had *not* been a subsidiary member of any *consolidated group;

the assessable income of the entity for a part of the income year that is a non-membership period for the purposes of section 701-30 includes a proportion of that part.

Note 1: Section 701-30 is about working out an entity's tax position for a period when it is not a subsidiary member of any consolidated group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note 2: If throughout the income year the entity is not a subsidiary member of any consolidated group, this section does not affect the part of the original amount that is assessable income of the entity for the income year either:

- because the entity is the entity referred to in subsection (1); or
- because of section 701-40 (Exit history rule).

(5) The proportion is worked out by multiplying that part of the original amount by:

- the number of days that are in both the non-membership period and the *spreading period;

divided by:

- the number of days that are in both the income year and the spreading period.

Spreading period

(6) The *spreading period* for the original amount is the period by reference to which the respective parts of the original amount that, apart from this Part, would be included in an entity's assessable income for the 2 or more income years are worked out.

716-25 Deductions spread over 2 or more income years

(1) This section applies if, apart from this Part, a provision of this Act would spread an amount (the *original amount*) over 2 or more income years (whether or not because of a choice) by entitling the same entity to deduct part of the original amount for each of those income years.

(2) However, this section does not apply if the deductions would be for the decline in value of a *depreciating asset.

Note: Such deductions arise under Division 40 (Capital allowances) and Division 328 (Small business entities).

Head company's deduction

(3) If for some but not all of an income year an entity is a *subsidiary member of a *consolidated group, and:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 716-25

- (a) the *head company of the group could have deducted for that income year a part of the original amount if the entity had been a subsidiary member of the group throughout that income year; but
- (b) the entity could have deducted that part for that income year if throughout that income year the entity had not been a subsidiary member of any *consolidated group;

the head company can deduct for that income year a proportion of that part.

Note 1: Examples of when paragraphs (3)(a) and (b) could be satisfied are set out in note 1 to subsection 716-15(2).

Note 2: If the entity is a subsidiary member of the group throughout the income year, the head company can deduct that part for the income year, either:

- because the head company is the entity referred to in subsection (1) of this section; or
- because of section 701-1 (Single entity rule); or
- because of section 701-5 (Entry history rule).

- (4) The proportion is worked out by multiplying that part of the original amount by:

- the number of days that are in both the income year and the *spreading period, and on which the entity was a *subsidiary member of the group;

divided by:

- the number of days that are in both the income year and the spreading period.

Entity's deduction for a non-membership period

- (5) If:

- (a) for some but not all of an income year, an entity is a *subsidiary member of a *consolidated group; and
- (b) the entity could have deducted for that income year a part of the original amount if throughout that income year the entity had *not* been a subsidiary member of any *consolidated group;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

the entity can deduct a proportion of that part for a part of the income year that is a non-membership period for the purposes of section 701-30.

Note 1: Section 701-30 is about working out an entity's tax position for a period when it is not a subsidiary member of any consolidated group.

Note 2: If throughout the income year the entity is not a subsidiary member of any consolidated group or MEC group, this section does not affect the part of the original amount that the entity can deduct for the income year either:

- because the entity is the entity referred to in subsection (1); or
- because of section 701-40 (Exit history rule).

(6) The proportion is worked out by multiplying that part of the original amount by:

- the number of days that are in both the non-membership period and the *spreading period;

divided by:

- the number of days that are in both the income year and the spreading period.

Spreading period

(7) The *spreading period* for the original amount is the period by reference to which the respective parts of the original amount that, apart from this Part, an entity could deduct for the 2 or more income years are worked out.

Note: For example, under section 82KZMD of the *Income Tax Assessment Act 1936* an item of expenditure on something is spread over the period over which that thing is to be provided, which is called the eligible service period. Deductions for the item for a sequence of income years are worked out by reference to how much of that period falls within each of those income years.

716-70 Capital expenditure that is fully deductible in one income year

(1) This section applies if, apart from this Part, an entity could deduct for a single income year the whole of an amount (the *original amount*) of capital expenditure by the entity.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 716-70

- (2) If for some but not all of an income year an entity is a *subsidiary member of a *consolidated group or *MEC group, and:
- (a) the *head company of the group could have deducted the original amount for that income year if the entity had been a subsidiary member of the group throughout that income year; but
 - (b) the entity could have deducted the original amount for that income year if throughout that income year the entity had *not* been a subsidiary member of any consolidated group or MEC group;

the head company can deduct for that income year a proportion of the original amount.

Note 1: Examples of when paragraphs (2)(a) and (b) could be satisfied are set out in note 1 to subsection 716-15(2).

Note 2: If the entity is a subsidiary member of the group throughout the income year, the head company can deduct the original amount for the income year, either:

- because the head company is the entity referred to in subsection (1) of this section; or
- because of section 701-1 (Single entity rule); or
- because of section 701-5 (Entry history rule).

- (3) The proportion is worked out by multiplying the original amount by:

- the number of days that are in the *spreading period, and on which the entity was a *subsidiary member of the group;

divided by:

- the number of days that are in the spreading period.

Entity's deduction for a non-membership period

- (4) If:
- (a) for some but not all of an income year, an entity is a *subsidiary member of a *consolidated group or *MEC group; and
 - (b) the entity could have deducted the original amount for that income year if throughout that income year the entity had *not*

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

been a subsidiary member of any consolidated group or MEC group;

the entity can deduct a proportion of the original amount for a part of the income year that is a non-membership period for the purposes of section 701-30.

Note 1: Section 701-30 is about working out an entity's tax position for a period when it is not a subsidiary member of any consolidated group.

Note 2: If throughout the income year the entity is not a subsidiary member of any consolidated group or MEC group, this section does not affect the entity's ability to deduct the original amount for the income year either:

- because the entity is the entity referred to in subsection (1); or
- because of section 701-40 (Exit history rule).

(5) The proportion is worked out by multiplying the original amount by:

- the number of days that are in both the non-membership period and the *spreading period;

divided by:

- the number of days that are in the spreading period.

Spreading period

(6) The *spreading period* for the original amount:

- (a) starts when, apart from this Part, an entity would become entitled to deduct the amount for an income year; and
- (b) ends at the end of the income year.

Assessable income and deductions arising from share of net income of a partnership or trust, or from share of partnership loss

716-75 Application

Sections 716-80 to 716-100 apply if, apart from this Part:

- (a) an amount would be included in an entity's assessable income for an income year under section 92 (about income

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 716-80

and deductions of partner) of the *Income Tax Assessment Act 1936* in respect of a partnership; or

- (b) an entity could deduct an amount for an income year under section 92 of that Act in respect of a partnership; or
- (c) an amount would be included in an entity's assessable income for an income year under section 97 (Beneficiary of a trust estate who is not under a legal disability) of that Act in respect of a trust; or
- (d) an amount would be included in an entity's assessable income for an income year under section 98A (Non-resident beneficiaries assessable in respect of certain income) of that Act in respect of a trust.

716-80 Head company's assessable income and deductions

- (1) If for some but not all of the income year the entity is a *subsidiary member of a *consolidated group or *MEC group:
 - (a) the assessable income for that income year of the head company of the group includes the entity's share (worked out under section 716-90) of each of these:
 - (i) the total assessable income of the partnership or trust for the income year so far as it is reasonably attributable to a period, during the income year, throughout which the entity was a *subsidiary member of the group but the partnership or trust was *not*;
 - (ii) a proportion (worked under subsection (2) of this section) of the total assessable income of the partnership or trust for the income year so far as it is *not* reasonably attributable to a particular period within the income year; and
 - (b) the head company of the group can deduct for that income year the entity's share (worked out under section 716-90) of each of these:
 - (i) the total deductions of the partnership or trust for the income year so far as they are reasonably attributable to a period covered by subparagraph (a)(i) of this subsection;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (ii) a proportion (worked under subsection (2) of this section) of the total deductions of the partnership or trust for the income year so far as they are *not* reasonably attributable to a particular period within the income year.

Note 1: If the entity is a subsidiary member of the group throughout the income year, the amount referred to in section 716-75 will be included in the head company's assessable income, or the head company can deduct that amount, for the income year because of section 701-1 (Single entity rule).

Note 2: While the entity, and the partnership or trust, are both subsidiary members of the group, section 701-1 (Single entity rule) attributes to the head company all assessable income and deductions giving rise to the amount referred to in section 716-75.

- (2) The proportion is worked out by multiplying the amount concerned by:

- the number of days that are in the *spreading period, and on which the entity was a *subsidiary member of the group but the partnership or trust was *not*;

divided by:

- the number of days that are in the spreading period.

716-85 Entity's assessable income and deductions for a non-membership period

- (1) The assessable income of the entity for a part of the income year that is a non-membership period for the purposes of section 701-30 includes the entity's share (worked out under section 716-90) of each of these:
- (a) the total assessable income of the partnership or trust for the income year so far as it is reasonably attributable to the non-membership period;
 - (b) a proportion (worked under subsection (3) of this section) of the total assessable income of the partnership or trust for the income year so far as it is *not* reasonably attributable to a particular period within the income year.

Note 1: Section 701-30 is about working out an entity's tax position for a period when it is not a subsidiary member of any consolidated group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 716-90

Note 2: If throughout the income year the entity is not a subsidiary member of any consolidated group or MEC group, this section does not affect the amount referred to in section 716-75 being assessable income of the entity for the income year.

- (2) For a part of the income year that is a non-membership period for the purposes of section 701-30, the entity can deduct the entity's share (worked out under section 716-90) of each of these:
- (a) the total deductions of the partnership or trust for the income year so far as they are reasonably attributable to the non-membership period;
 - (b) a proportion (worked under subsection (3) of this section) of the total deductions of the partnership or trust for the income year so far as they are *not* reasonably attributable to a particular period within the income year.

Note: If throughout the income year the entity is not a subsidiary member of any consolidated group or MEC group, this section does not affect the entity's ability to deduct for the income year the amount referred to in section 716-75.

- (3) The proportion is worked out by multiplying the amount concerned by:
- the number of days that are in both the non-membership period and the *spreading period;
- divided by:
- the number of days that are in the spreading period.

716-90 Entity's share of assessable income or deductions of partnership or trust

- (1) If paragraph 716-75(a) or (b) applies, the entity's share is worked out by dividing:
- the entity's individual interest as a partner in the net income of the partnership or in the partnership loss;
- by:
- the amount of that net income or partnership loss;
- and expressing the result as a percentage.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

(2) If paragraph 716-75(c) or (d) applies, the entity's share is worked out by dividing:

- the share of the income of the trust to which the entity is presently entitled;

by:

- the amount of that income;
- and expressing the result as a percentage.

716-95 Special rule if not all partnership or trust's assessable income or deductions taken into account in working out amount

(1) To the extent that the assessable income of the partnership or trust for the income year was *not* taken into account in working out the amount referred to in section 716-75, it is disregarded in applying paragraph 716-80(1)(a) or subsection 716-85(1).

Note: For example, if a trust's net income for an income year must be worked out under section 268-45 in Schedule 2F to the *Income Tax Assessment Act 1936*, the trust's assessable income attributed to a period (in the income year) for which it has a notional loss under section 268-30 of that Act is not taken into account.

(2) To the extent that the deductions of the partnership or trust for the income year were *not* taken into account in working out the amount referred to in section 716-75, they are disregarded in applying paragraph 716-80(1)(b) or subsection 716-85(2).

Note: For example, in the case described in the note to subsection (1) of this section, the trust's deductions attributed to that period are not taken into account in working out the trust's net income for the income year.

716-100 Spreading period

The *spreading period* for the amount referred to in section 716-75 is made up of each period:

- (a) that is all or part of the income year; and
- (b) throughout which the entity is a partner in the partnership or a beneficiary of the trust, as appropriate.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 716-E—Tax cost setting for exploration and prospecting assets

Table of sections

716-300 Prime cost method of working out decline in value

716-300 Prime cost method of working out decline in value

- (1) This section has effect if:
- (a) an entity (the *joining entity*) becomes a *subsidiary member of a *consolidated group at a time (the *joining time*); and
 - (b) because of subsection 40-80(1), the joining entity could (or did) deduct for a period before the joining time the *cost of a *depreciating asset that became an asset of the *head company of the group at the joining time because section 701-1 (Single entity rule) applied to the joining entity; and
 - (c) the joining entity could not deduct an amount under Subdivision 40-B (except because of subsection 40-80(1)) for the income year that includes the joining time for that cost.

Note: Subdivision 40-B allows deductions for the decline in value of depreciating assets. Subsection 40-80(1), which is in that Subdivision, provides that the decline in value of certain assets used for exploration and prospecting equals their cost.

- (2) Subsection 701-55(2) has effect as if the *prime cost method for working out the decline in value of the *depreciating asset applied just before the joining time.

Note: This may affect both the method of working out the decline in value of the asset and the asset's effective life.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 716-G—Low-value and software development pools

Table of sections

Assets in joining entity's low-value pool

716-330 Head company's deductions for decline in value of assets in joining entity's low-value pool

Entity leaving group with asset allocated to head company's low-value pool

716-335 Entity leaving group with asset allocated to head company's low-value pool

Depreciating assets arising from expenditure in joining entity's software development pool

716-340 Depreciating assets arising from expenditure in joining entity's software development pool

Software development pools if entity leaves consolidated group

716-345 Head company taken not to have incurred expenditure

Assets in joining entity's low-value pool

716-330 Head company's deductions for decline in value of assets in joining entity's low-value pool

- (1) This section modifies the operation of sections 40-430, 40-435, 40-440, 40-445, 701-10 and 701-60 and Division 705 for the head company core purposes mentioned in section 701-1 if:
 - (a) an entity (the *joining entity*) becomes a *subsidiary member of a *consolidated group at a time (the *joining time*); and
 - (b) there are one or more *depreciating assets (the *previous pool assets*) that:
 - (i) were allocated to the joining entity's low-value pool; and
 - (ii) become assets of the *head company of the group at the joining time because section 701-1 applies to the joining entity; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 716-330

- (c) *none* of the previous pool assets was an asset to which Division 58 applied to affect the joining entity's deductions relating to the asset.

- Note 1: Sections 40-430, 40-435 and 40-440 are relevant to allocating depreciating assets to a low-value pool and to working out the decline in value of assets allocated to a low-value pool. Section 40-445 affects the closing pool balance, and may give rise to assessable income, if a balancing adjustment event happens to such an asset.
- Note 2: Section 701-10 provides that, for each asset the joining entity has at the joining time, the asset's tax cost is set at the joining time at the asset's tax cost setting amount, which is defined by section 701-60 as the amount worked out under Division 705.
- Note 3: Division 58 is about capital allowances for depreciating assets previously owned by an exempt entity.

Objects

- (2) The main objects of this section are:
- (a) to clarify how sections 40-430, 40-435 and 40-440 operate in relation to the previous pool assets; and
 - (b) to reduce compliance costs by providing that the *tax cost is set for all the previous pool assets in one operation, rather than individually for each such asset.

Time of allocation of assets to head company's low-value pool

- (3) Sections 40-430, 40-435, 40-440 and 40-445 operate as if the *head company of the *consolidated group allocated the previous pool assets to a low-value pool for the income year that includes the joining time. Section 701-5 has effect subject to this subsection.

- Note 1: Under section 40-435, the head company must make a reasonable estimate of the taxable use percentage for each asset.
- Note 2: This subsection affects the percentages and amounts to be taken into account for working out under section 40-440 the decline in value of assets in the pool and the closing pool balance.

Allocating other low-cost assets to head company's low-value pool

- (4) Subsection 40-430(1) operates as if the previous pool assets were *low-cost assets.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note: This has the effect that the head company must allocate to the low-value pool each low-cost asset it starts to hold in the income year that includes the joining time or a later income year, whether or not the head company starts to hold the asset because of section 701-1.

If joining time was in first day of joining entity's income year

- (5) If the joining time was in the first day of the joining entity's income year, section 40-440 operates as if:
- (a) all the previous pool assets were *low-value assets; and
 - (b) the sum of the previous pool assets' *opening adjustable values for the income year that includes the joining time equalled the *tax cost setting amount for the hypothetical asset worked out on the basis described in subsections (7), (8) and (9) of this section.

If joining time was not in first day of joining entity's income year

- (6) If the joining time was *not* in the first day of the joining entity's income year, section 40-440 operates as if:
- (a) all the previous pool assets were *low-cost assets; and
 - (b) the sum of the previous pool assets' *costs equalled the total of:
 - (i) the *tax cost setting amount for the hypothetical asset worked out on the basis described in subsections (7), (8) and (9) of this section; and
 - (ii) the expenditure (if any) that was incurred after the joining time (but in the income year that includes that time) and included in the second element of the costs (ignoring this paragraph) of the previous pool assets.

Tax cost is set for assets collectively not individually

- (7) Sections 701-10 and 701-60 and Division 705 operate as if all the previous pool assets formed a single *depreciating asset (the ***hypothetical asset***), and were not separate assets.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 716-335

Modified operation of Division 705 for hypothetical asset

- (8) Sections 705-40 and 705-57 operate as if the joining entity's *terminating value for the hypothetical asset were the amount worked out using the table:

Modification of basis on which sections 705-40 and 705-57 operate	
If the joining time is:	Sections 705-40 and 705-57 operate as if the joining entity's terminating value for the hypothetical asset were:
1 In the first day of an income year of the joining entity	The *closing pool balance for the joining entity's low-value pool for the previous income year
2 In another day	The *closing pool balance for the joining entity's low-value pool for the non-membership period described in section 701-30 that ends just before the joining time
<p>Note: Sections 705-40 and 705-57 are about reduction of an asset's tax cost setting amount to an amount that may be affected by the joining entity's terminating value for the asset.</p>	

Entity leaving group with asset allocated to head company's low-value pool

716-335 Entity leaving group with asset allocated to head company's low-value pool

- (1) This section sets out rules affecting the *head company of a *consolidated group and an entity (the *leaving entity*) that ceases to be a *subsidiary member of the group at a time (the *leaving time*) in an income year (the *leaving year*), if:
- (a) a *depreciating asset becomes an asset of the leaving entity at the leaving time because section 701-1 (Single entity rule) ceases to apply to the leaving entity; and
 - (b) the asset was in the head company's low-value pool.

Note: Section 701-40 (Exit history rule) treats the asset as having been allocated to the leaving entity's low-value pool, with the taxable use percentage estimated by the head company, for the income year for which the head company allocated the asset to the head company's low-value pool.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Objects

- (2) The main objects of this section are:
- (a) to ensure that the decline in value of assets in the *head company's low-value pool and the decline in value of assets in the leaving entity's low-value pool are worked out so that:
 - (i) for the leaving year, the *depreciating asset is taken into account in working out the decline in value of assets in the *head company's* low-value pool only; and
 - (ii) for later income years, the depreciating asset is taken into account in working out the decline in value of assets in the *leaving entity's* low-value pool only; and
 - (b) to specify the *adjustable value of the depreciating asset just before and at the leaving time.

Reduced decline in value for leaving entity for leaving year

- (3) The decline in value worked out for the leaving year under subsection 40-440(1) for assets in the leaving entity's low-value pool is reduced by such amount as is reasonable to prevent duplication of deductions for the leaving year in respect of the *depreciating asset by the *head company and the leaving entity.

Reduced closing pool balance for head company's pool for leaving year

- (4) The *closing pool balance of the *head company's low-value pool for the leaving year is reduced by so much of the balance as reasonably relates to the *depreciating asset.

Cost of head company's membership interests in leaving entity etc.

- (5) Sections 701-15, 701-40 and 701-60 and Division 711 have effect as if the *adjustable value of the *depreciating asset for the *head company just before and at the leaving time were such amount as is reasonable, having regard to:
- (a) the reduction described in subsection (4) of this section; and
 - (b) the taxable use percentage estimated for the depreciating asset by the head company under section 40-435.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 716-340

- Note 1: Section 701-15 provides that, for each membership interest the head company holds in the leaving entity, the interest's tax cost is set just before the leaving time at the interest's tax cost setting amount, which is defined by section 701-60 as the amount worked out under certain sections of Division 711.
- Note 2: Division 711 sets the interest's tax cost setting amount by reference to the head company's terminating value of the asset, which is to be worked out under section 711-30 by reference to the adjustable value of the asset for the head company just before the leaving time.
- Note 3: Section 701-40 has the effect that the adjustable value of the asset for the leaving entity at the leaving time is the same as the adjustable value of the asset for the head company then.

Depreciating assets arising from expenditure in joining entity's software development pool

716-340 Depreciating assets arising from expenditure in joining entity's software development pool

- (1) This section modifies the basis on which Subdivision 40-B and sections 40-455, 701-10, 701-55 and 701-60 and Division 705 operate if:
- (a) an entity (the *joining entity*) becomes a *subsidiary member of a *consolidated group at a time (the *joining time*); and
 - (b) the joining entity had incurred before the joining time expenditure that it allocated to a software development pool; and
 - (c) some or all of the expenditure is reasonably related to *in-house software that:
 - (i) is a *depreciating asset; and
 - (ii) became an asset of the *head company of the consolidated group at the joining time because section 701-1 (Single entity rule) applied to the joining entity.

- Note 1: Subdivision 40-B allows deductions for the decline in value of a depreciating asset, but only if expenditure on the asset has not been allocated to a software development pool. Section 40-455 provides for deduction of expenditure allocated to such a pool. Section 701-5 (Entry history rule) treats the head company as having incurred the expenditure that was allocated to the pool.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- Note 2: Section 701-10 provides that, for each asset the joining entity has at the joining time, the asset's tax cost is set at the joining time at the asset's tax cost setting amount, which is defined by section 701-60 as the amount worked out under Division 705, which in turn depends on the adjustable value of the asset worked out under section 40-85.
- Note 3: Section 701-55 affects matters relevant to working out the head company's deductions for the decline in value of depreciating assets that became assets of the head company at the joining time because section 701-1 (Single entity rule) applied to the joining entity.
- Note 4: This section operates whether or not the joining entity's deductions under section 40-455 for the period before the joining time for expenditure allocated to the pool total 100% of the expenditure allocated to the pool.

Object

- (2) The main object of this section is to ensure that:
- (a) the *head company's deductions for the *in-house software:
 - (i) are *not* worked out under section 40-455 on the basis of section 701-5 (Entry history rule) treating the expenditure relating to the software as being the head company's expenditure; and
 - (ii) are instead worked out under Subdivision 40-B, using the *prime cost method with the *effective life given by subsection 40-95(7) and taking account of the *tax cost setting amount for the software; and
 - (b) the tax cost setting amount is worked out in a way that takes account of deductions for the period before the joining time for the expenditure reasonably related to the in-house software.

Joining entity taken not to have incurred certain expenditure

- (3) Subdivision 40-B and section 40-455 operate for the head company core purposes mentioned in section 701-1 (Single entity rule) as if the expenditure reasonably related to the *in-house software had not been incurred by the joining entity.

- Note 1: This has the effects that:
- (a) subsection 40-50(2) does not apply because of section 701-5 (Entry history rule) to deny the head company deductions under Subdivision 40-B for the decline in value of the software; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 716-340

- (b) the head company cannot deduct the expenditure under section 40-455 as it operates because of section 701-5.

Note 2: This does not prevent the head company from deducting under section 40-455 expenditure that is *not* reasonably related to the in-house software and that the head company is treated by section 701-5 as having incurred and allocated to a software development pool because the joining entity did.

Prime cost method of working out decline in value of software

- (4) Subsection 701-55(2) operates as if the *prime cost method of working out the decline in value of the *in-house software applied just before the joining time.

Note: This affects the method of working out the decline in value of the software for the head company of the consolidated group.

Effective life of software

- (5) Subdivision 40-B operates as if the *effective life of the *in-house software were the period specified for in-house software in subsection 40-95(7). Subsection 701-55(2) is subject to this subsection.

Cost of in-house software

- (6) Sections 701-10 and 701-60 and Division 705 (and section 40-85, so far as it affects that Division) operate as if the *cost of the *in-house software were the total amount of the joining entity's expenditure that reasonably related to the software and was allocated to a software development pool.

Earlier decline in value of the in-house software

- (7) Sections 701-10 and 701-60 and Division 705 (and section 40-85, so far as it affects that Division) operate as if the decline in value, and deductions for the decline in value, of the *in-house software for a period before the joining time were the amount worked out under subsection (8).

- (8) Work out the amount by:
(a) working out, for each software development pool to which expenditure relating to the *in-house software was allocated,

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- the amount of the joining entity's deductions under section 40-455 that reasonably relates to the software; and
- (b) adding up each of those amounts if there are 2 or more such pools.

Note: Subsections (6), (7) and (8) can affect the working out of the tax cost setting amount for the in-house software, by affecting the joining entity's terminating value for the software, which section 705-30 defines as being the adjustable value of the software just before the joining time, and which is relevant to sections 705-40 and 705-57 (which may reduce the tax cost setting amount for the software).

Software development pools if entity leaves consolidated group

716-345 Head company taken not to have incurred expenditure

- (1) This section has effect if:
- (a) an entity (the *leaving entity*) ceases to be a *subsidiary member of a *consolidated group at a time in an income year (the *leaving year*); and
- (b) under section 701-40 (Exit history rule), expenditure is taken to have been allocated by the leaving entity to a software development pool.

Note: Section 701-40 treats expenditure incurred by the head company of the consolidated group and allocated by that company to a software development pool as having been incurred by the leaving entity and allocated by it to a software development pool.

- (2) Work out deductions of the *head company of the *consolidated group for income years after the leaving year as if the head company had not incurred the expenditure.
- (3) The leaving entity cannot deduct an amount for the leaving year for the expenditure it is taken to have allocated to the software development pool.

Subdivision 716-S—Miscellaneous consequences of tax cost setting

Table of sections

716-400 Tax cost setting and bad debts

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

716-400 Tax cost setting and bad debts

- (1) The object of this section is to clarify the effect of section 701-5 (entry history rule) and subsection 701-55(6) in relation to an asset that may give rise to a bad debt. It achieves this object by clarifying that certain things are taken to have happened in relation to the asset through the operation of section 701-5 and subsection 701-55(6).
- (2) This section applies if:
 - (a) the tax cost of an asset was set at the time (the *joining time*) an entity (the *joining entity*) became a subsidiary member of a *consolidated group at the asset's tax cost setting amount; and
 - (b) the asset is a debt; and
 - (c) any of the following apply:
 - (i) the debt was included in the joining entity's assessable income before the joining time;
 - (ii) the debt was in respect of money that the joining entity lent before the joining time in the ordinary course of a business of lending money;
 - (iii) the joining entity bought the debt before the joining time in the ordinary course of a business of lending money; and
 - (d) the requirements in subsection 701-58(1) (intra-group assets) are *not* satisfied in relation to the asset.
- (3) To avoid doubt, in determining the extent to which the *head company of the group can deduct an amount under section 25-35 (bad debts) in relation to the asset, section 701-5 (entry history rule) and subsection 701-55(6) have the effect that, before the joining time:
 - (a) in a case covered by subparagraph (2)(c)(i)—the head company included an amount equal to the tax cost setting amount in its assessable income in respect of the debt; or
 - (b) in a case covered by subparagraph (2)(c)(ii)—the head company lent an amount of money in respect of the debt equal to the tax cost setting amount in the ordinary course of a business of lending money; or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (c) in a case covered by subparagraph (2)(c)(iii)—the head company incurred expenditure equal to the tax cost setting amount in buying the debt in the ordinary course of a business of lending money.

Subdivision 716-V—Research and Development

Table of sections

716-500	Head company bound by agreements binding on subsidiary members
716-505	History for entitlement to tax offset: joining entity
716-510	History for entitlement to tax offset: leaving entity

716-500 Head company bound by agreements binding on subsidiary members

Section 355-220 (about R&D activities conducted for a foreign entity) applies to the *head company of a *consolidated group as if the head company were bound by an agreement during any period that a *subsidiary member of the group is bound by the agreement.

716-505 History for entitlement to tax offset: joining entity

If:

- (a) a company becomes a *subsidiary member of a *consolidated group; and
- (b) apart from this section, things happening in relation to the company before it became a subsidiary member would, because of section 701-5 (the entry history rule), be taken into account as things happening in relation to the *head company for working out the head company's *aggregated turnover for the purposes of section 355-100 (tax offsets for R&D);

the things happening are not to be taken into account as mentioned in paragraph (b).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

716-510 History for entitlement to tax offset: leaving entity

If:

- (a) a company ceases to be a *subsidiary member of a *consolidated group; and
- (b) while the company was a subsidiary member, things happened in relation to an entity which, if section 701-1 (the single entity rule) were disregarded:
 - (i) would be *connected with the company; or
 - (ii) would be an *affiliate of the company; or
 - (iii) would have the company as an affiliate; and
- (c) those things would, if section 701-1 were disregarded, have been taken into account in working out the company's *aggregated turnover for the purposes of section 355-100 (tax offsets for R&D); and
- (d) the things are not also things that, because of section 701-40 (the exit history rule), are taken into account as things happening in relation to an eligible asset etc. (within the meaning of that section) of the company in working out for the entity core purposes the company's aggregated turnover for the purposes of section 355-100;

the things are to be taken into account in working out the company's aggregated turnover for the purposes of section 355-100.

Subdivision 716-Z—Other

Table of sections

716-800	Allocating amounts to periods if head company and subsidiary member have different income years
716-850	Grossing up threshold amounts for periods of less than 365 days
716-855	Working out the cost base or reduced cost base of a pre-CGT asset after certain roll-overs
716-860	CGT event straddling joining or leaving time

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

716-800 Allocating amounts to periods if head company and subsidiary member have different income years

- (1) The principles in this section apply if:
 - (a) an entity becomes, or stops being, a *subsidiary member of a *consolidated group; and
 - (b) the entity has an income year that starts and ends at a different time from when the income year of the *head company of the group starts and ends.
- (2) Items are to be allocated to, or apportioned among, periods (whether consisting of all or part of an income year of the entity or *head company):
 - (a) in the most appropriate way having regard to the objects of this Part, and of particular provisions of this Part; and
 - (b) in particular, so as to ensure that what is in substance the same item is recognised only once for what is in substance the same purpose.

716-850 Grossing up threshold amounts for periods of less than 365 days

- (1) Under some provisions of this Act, something that is relevant to working out:
 - (a) an entity's taxable income (if any); or
 - (b) the income tax (if any) payable on an entity's taxable income; or
 - (c) an entity's loss (if any) of a particular *sort;is determined on the basis of a comparison between an amount worked out for an income year, or an amount *derived from 2 or more such amounts, and another amount.

Note: The other amount assumes an income year of 365 days.
- (2) This section affects how such a provision (the *threshold provision*) operates for the purposes of subsection 701-30(3), which requires each thing covered by paragraph (1)(a), (b) or (c) of this section to be worked out for an entity for a non-membership period (under section 701-30) during an income year.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 716-855

Note: A non-membership period is a period (of less than an income year) when the entity is not a subsidiary member of any consolidated group.

- (3) An amount that would otherwise be worked out for the non-membership period, for the purposes of the comparison under the threshold provision, is instead:
- (a) to be worked out by reference to the period (the *reference period*) starting at the start of the income year and ending at the end of the non-membership period; and
 - (b) then to be grossed up by multiplying it by this fraction:
$$\frac{365}{\text{Number of days in reference period}}$$

716-855 Working out the cost base or reduced cost base of a pre-CGT asset after certain roll-overs

If:

- (a) it is necessary for the purposes of this Part to work out the *cost base or *reduced cost base of a *pre-CGT asset owned at a particular time; and
- (b) before that time:
 - (i) the owner was the recipient company involved in a roll-over under Subdivision 126-B in relation to a *CGT event that happened in relation to the CGT asset; or
 - (ii) the owner was the transferee in relation to a disposal of the CGT asset to which former section 160ZZO of the *Income Tax Assessment Act 1936* applied;

the cost base or reduced cost base is worked out as if, in applying Subdivision 126-B or former section 160ZZO in relation to the CGT event or the disposal, the provisions of that Subdivision or section applying to CGT assets *acquired on or after 20 September 1985 replaced those that applied to CGT assets acquired on or before that date.

Note: The effect is that the owner's cost base or reduced cost base will be the same as that of the originating company or transferor, as is the case with post-CGT assets.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

716-860 CGT event straddling joining or leaving time

- (1) This section applies if:
- (a) an entity (the *joining entity*) becomes a subsidiary member of a *consolidated group at a particular time (the *joining time*); and
 - (b) disregarding the operation of subsection 701-1(1) (the single entity rule), the joining entity held a *CGT asset at the joining time; and
 - (c) taking into account the operation of subsection 701-1(1) (the single entity rule), the *head company of the group held the CGT asset at the joining time; and
 - (d) a *CGT event happened in relation to the asset at a time before the joining time (disregarding this section), but the circumstances that gave rise to the CGT event first existed at a time on or after the joining time.
- (2) This section also applies if:
- (a) an entity (the *leaving entity*) ceases to be a *subsidiary member of a *consolidated group at a particular time (the *leaving time*); and
 - (b) taking into account the operation of subsection 701-1(1) (the single entity rule), the *head company of the group held a *CGT asset at the leaving time; and
 - (c) disregarding the operation of subsection 701-1(1) (the single entity rule), the leaving entity held the CGT asset at the leaving time; and
 - (d) a *CGT event happened in relation to the asset at a time before the leaving time (disregarding this section), but the circumstances that gave rise to the CGT event first existed at a time on or after the leaving time.
- (3) For the purposes of this Act, treat the *CGT event as happening at the time when the circumstances that gave rise to the CGT event first existed.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Division 717—International tax rules

Table of Subdivisions

- 717-A Foreign income tax offsets
- 717-D Transfer of certain surpluses under CFC provisions and former FIF and FLP provisions: entry rules
- 717-E Transfer of certain surpluses under CFC provisions and former FIF and FLP provisions: exit rules
- 717-O Offshore banking units

Subdivision 717-A—Foreign income tax offsets

717-1 What this Subdivision is about

If an entity becomes a subsidiary member of a consolidated group, the head company receives any tax offsets under section 770-10 that arise because the entity pays foreign income tax while it is a subsidiary member of the group.

Table of sections

Object

- 717-5 Object of this Subdivision

Foreign income tax on amounts in head company's assessable income

- 717-10 Head company taken to be liable for subsidiary member's foreign income tax

Object

717-5 Object of this Subdivision

The object of this Subdivision is to allow the *head company of a *consolidated group to get the benefit of *foreign income tax paid

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

in respect of amounts included in the head company's assessable income because another entity is or was a *subsidiary member of the group.

Foreign income tax on amounts in head company's assessable income

717-10 Head company taken to be liable for subsidiary member's foreign income tax

- (1) This section operates if:
 - (a) an entity was a *subsidiary member of a *consolidated group for all or part of an income year; and
 - (b) an amount was included in the *ordinary income or *statutory income of the *head company of the group for that income year; and
 - (c) the entity paid *foreign income tax (except *credit absorption tax or *unitary tax) in respect of the amount.
- (2) Division 770 operates as if:
 - (a) the *head company had paid the *foreign income tax; and
 - (b) the entity had not paid the foreign income tax.

Note: Division 770 provides a tax offset for foreign income tax paid.

- (3) This section does not limit the operation of Division 770.

Subdivision 717-D—Transfer of certain surpluses under CFC provisions and former FIF and FLP provisions: entry rules

Guide to Subdivision 717-D

717-200 What this Subdivision is about

Each attribution surplus and post FIF abolition surplus relating to a company that becomes a subsidiary member of a consolidated group is transferred to the head company of the group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Table of sections

Object

717-205 Object of this Subdivision

Transfers

717-210 Attribution surpluses

717-220 FIF surpluses

717-227 Deferred attribution credits

Object

717-205 Object of this Subdivision

The main object of this Subdivision is to avoid double taxation by transferring from a company (the *joining company*) that becomes a *subsidiary member of a *consolidated group at a time (the *joining time*) to the *head company of the group the benefit of each of these:

- (a) the attribution surplus (if any) for an attribution account entity (within the meaning of Part X of the *Income Tax Assessment Act 1936*) in relation to the joining company just before the joining time;
- (b) the post FIF abolition surplus (if any) (within the meaning of the *Income Tax Assessment Act 1936*) for a FIF attribution account entity (within the meaning of former Part XI of that Act) in relation to the joining company just before the joining time.

Transfers

717-210 Attribution surpluses

- (1) This section operates for the purposes of Part X of the *Income Tax Assessment Act 1936* if:
 - (a) a company (the *joining company*) becomes a *subsidiary member of a *consolidated group at a time (the *joining time*); and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) just before the joining time there was an attribution surplus for an attribution account entity in relation to the joining company for the purposes of that Part; and
- (c) just before the joining time the joining company's attribution account percentage in relation to the attribution account entity for the purposes of that Part was more than nil.

Credit in relation to the head company

- (2) An attribution credit arises at the joining time for the attribution account entity in relation to the *head company of the group. The credit is equal to the attribution surplus.

Debit in relation to the joining company

- (3) An attribution debit arises at the joining time for the attribution account entity in relation to the joining company. The debit is equal to the attribution surplus.

717-220 FIF surpluses

- (1) This section operates for the purposes of sections 23AK and 23B of the *Income Tax Assessment Act 1936* if:
 - (a) a company (the **joining company**) becomes a *subsidiary member of a *consolidated group at a time (the **joining time**); and
 - (b) just before the joining time there was a post FIF abolition surplus for a FIF attribution account entity in relation to the joining company for the purposes of those sections; and
 - (c) just before the joining time, the joining company's FIF attribution account percentage in relation to the FIF attribution account entity for the purposes of those sections was more than nil.

Credit in relation to the head company

- (2) A post FIF abolition credit arises at the joining time for the FIF attribution account entity in relation to the *head company of the group. The credit is equal to the post FIF abolition surplus.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 717-227

Debit in relation to the joining company

- (3) A post FIF abolition debit arises at the joining time for the FIF attribution account entity in relation to the joining company. The debit is equal to the post FIF abolition surplus.

Definitions

- (4) In this section:

FIF attribution account entity has the same meaning as in former Part XI of the *Income Tax Assessment Act 1936*.

FIF attribution account percentage has the same meaning as in former Part XI of the *Income Tax Assessment Act 1936*.

post FIF abolition credit has the same meaning as in the *Income Tax Assessment Act 1936*.

post FIF abolition debit has the same meaning as in the *Income Tax Assessment Act 1936*.

post FIF abolition surplus has the same meaning as in the *Income Tax Assessment Act 1936*.

717-227 Deferred attribution credits

- (1) This section operates for the purposes of Part X of the *Income Tax Assessment Act 1936* if:
- (a) a company (the **joining company**) becomes a *subsidiary member of a *consolidated group at a time (the **joining time**); and
 - (b) assuming the joining company had not done so, an attribution credit would have arisen under subsection 371(8) of that Act at a later time for an attribution account entity in relation to the joining company for the purposes of that Part.

Credit in relation to the head company

- (2) The attribution credit arises instead at the later time for the attribution account entity in relation to the *head company of the group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 717-E—Transfer of certain surpluses under CFC provisions and former FIF and FLP provisions: exit rules

Guide to Subdivision 717-E

717-235 What this Subdivision is about

Each attribution surplus and post FIF abolition surplus relating to a company that ceases to be a subsidiary member of a consolidated group is transferred to that company from the head company of the group.

Table of sections

Object

717-240 Object of this Subdivision

Transfers

717-245 Attribution surpluses

717-255 FIF surpluses

717-262 Deferred attribution credits

Object

717-240 Object of this Subdivision

The main object of this Subdivision is to avoid double taxation by transferring from the *head company of a *consolidated group to a company (the ***leaving company***) that ceases to be a *subsidiary member of the group at a time (the ***leaving time***) the benefit of each of these surpluses (to the extent that each surplus can be attributed to the leaving company):

- (a) the attribution surplus (if any) for an attribution account entity (within the meaning of Part X of the *Income Tax Assessment Act 1936*) in relation to the head company just before the leaving time;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 717-245

- (b) the post FIF abolition surplus (if any) (within the meaning of the *Income Tax Assessment Act 1936*) for a FIF attribution account entity (within the meaning of former Part XI of that Act) in relation to the head company just before the leaving time.

Transfers

717-245 Attribution surpluses

- (1) This section operates for the purposes of Part X of the *Income Tax Assessment Act 1936* if:
 - (a) a company (the **leaving company**) ceases to be a *subsidiary member of a *consolidated group at a time (the **leaving time**); and
 - (b) just before the leaving time there was, for the purposes of that Part, an attribution surplus for an attribution account entity in relation to the *head company of the group; and
 - (c) at the leaving time the leaving company's attribution account percentage in relation to the attribution account entity for the purposes of that Part is more than nil.

Credit in relation to leaving company

- (2) An attribution credit arises at the leaving time for the attribution account entity in relation to the leaving company. The credit is the amount worked out under subsection (4).

Debit in relation to head company

- (3) An attribution debit arises at the leaving time for the attribution account entity in relation to the company that was the *head company of the group just before the leaving time. The debit is the amount worked out under subsection (4).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Amount of credit and debit

- (4) The amount of the credit and debit is worked out using the formula:

$$\frac{\text{Leaving company's attribution account percentage in relation to the attribution account entity at the leaving time}}{\text{*Head company's attribution account percentage in relation to the attribution account entity just before the leaving time}} \times \text{Attribution surplus for the attribution account entity in relation to the *head company just before the leaving time}$$

717-255 FIF surpluses

- (1) This section operates for the purposes of sections 23AK and 23B of the *Income Tax Assessment Act 1936* (the **1936 Act**) if:
- (a) a company (the **leaving company**) ceases to be a *subsidiary member of a *consolidated group at a time (the **leaving time**); and
 - (b) just before the leaving time, there was a post FIF abolition surplus for a FIF attribution account entity in relation to the *head company of the group for the purposes of those sections; and
 - (c) at the leaving time, the leaving company's FIF attribution account percentage in relation to the FIF attribution account entity for the purposes of those sections is more than nil.

Credit in relation to the leaving company

- (2) A post FIF abolition credit arises at the leaving time for the FIF attribution account entity in relation to the leaving company. The credit is the amount worked out under subsection (4).

Debit in relation to head company

- (3) A post FIF abolition debit arises at the leaving time for the FIF attribution account entity in relation to the company that was the *head company of the group just before the leaving time. The debit is the amount worked out under subsection (4).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 717-262

Amount of credit and debit

- (4) The amount of the credit and debit is worked out using the formula:

$$\frac{\text{Leaving company's FIF attribution account percentage in relation to the FIF attribution account entity at the leaving time}}{\text{*Head company's FIF attribution account percentage in relation to the FIF attribution account entity just before the leaving time}} \times \text{Post FIF abolition surplus for the FIF attribution account entity in relation to the *head company just before the leaving time}$$

Definitions

- (5) In this section:

FIF attribution account entity has the same meaning as in former Part XI of the *Income Tax Assessment Act 1936*.

FIF attribution account percentage has the same meaning as in former Part XI of the *Income Tax Assessment Act 1936*.

post FIF abolition credit has the same meaning as in the *Income Tax Assessment Act 1936*.

post FIF abolition debit has the same meaning as in the *Income Tax Assessment Act 1936*.

post FIF abolition surplus has the same meaning as in the *Income Tax Assessment Act 1936*.

717-262 Deferred attribution credits

- (1) This section operates for the purposes of Part X of the *Income Tax Assessment Act 1936* if:
- (a) a company (the ***leaving company***) ceases to be a *subsidiary member of a *consolidated group at a time (the ***leaving time***); and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) disregarding this section, an attribution credit (the *original credit*) will arise under subsection 371(8) of that Act at a later time for an attribution account entity in relation to the *head company of the group (including because of the operation of section 717-227) for the purposes of that Part; and
- (c) at the leaving time the leaving company's attribution account percentage in relation to the attribution account entity for the purposes of that Part is more than nil.

Credit in relation to the leaving company

- (2) An attribution credit arises at the later time for the attribution account entity in relation to the leaving company. The credit is the amount worked out under subsection (3).

Amount of credit

- (3) The amount of the credit is worked out using the formula:

$$\frac{\text{Leaving company's attribution account percentage in relation to the attribution account entity at the leaving time}}{\text{*Head company's attribution account percentage in relation to the attribution account entity just before the leaving time}} \times \text{Original credit}$$

Reduction in credit in relation to the head company

- (4) The attribution credit that arises at the later time for the attribution account entity in relation to the *head company is reduced by the amount of the attribution credit that arises under subsection (2) in relation to the leaving company.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 717-O—Offshore banking units

Guide to Subdivision 717-O

717-700 What this Subdivision is about

The head company of a consolidated group is treated for certain purposes as an offshore banking unit at a time when a subsidiary member of the group is an offshore banking unit.

Table of sections

717-705	Object of this Subdivision
717-710	Head company treated as OBU

717-705 Object of this Subdivision

The object of this Subdivision is to ensure that certain rules in the *Income Tax Assessment Act 1936* relating to offshore banking units interact properly with the consolidation regime in this Part.

717-710 Head company treated as OBU

- (1) Division 9A of Part III of the *Income Tax Assessment Act 1936* applies to the *head company of a *consolidated group as if the head company were an OBU (within the meaning of that Division) at a time when a *subsidiary member of the group is an OBU (within the meaning of that Division).
- (2) Subsection (1) operates for the head company core purposes mentioned in subsection 701-1(2).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Division 719—MEC groups

Subdivision 719-A—Modified application of Part 3-90 to MEC groups

719-2 Modified application of Part 3-90 to MEC groups

- (1) This Part (other than Division 703 and this Division) has effect in relation to a *MEC group in the same way in which it has effect in relation to a *consolidated group.

Note: A provision in this Part (other than in Division 703 or in this Division) mentioning 2 separate consolidated groups will, under subsection (1), have an additional operation when the groups are both MEC groups or when one is a MEC group and the other is a consolidated group.

- (2) However, that effect is subject to the modifications set out in this Division.
- (3) For the purposes of subsection (1), a reference in this Part (other than in Division 703 or this Division) to a provision in Division 703 applies as if it referred instead to that provision or the corresponding provision in Subdivision 719-B (as appropriate).

Subdivision 719-B—MEC groups and their members

719-4 What this Subdivision is about

A MEC group and a potential MEC group each consist of certain Australian-resident entities that are wholly-owned subsidiaries of a foreign top company.

A company that is a first-tier subsidiary of the top company is a tier-1 company.

A MEC group cannot be formed unless there are at least 2 tier-1 companies of the top company that are eligible to be members of the group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-4

A MEC group becomes consolidated at a time chosen by the eligible tier-1 companies.

One of the eligible tier-1 companies becomes the head company of the group.

The remaining members of the group are the subsidiary members.

Table of sections

Basic concepts

- 719-5 What is a *MEC group*?
- 719-10 What is a potential MEC group?
- 719-15 What is an *eligible tier-1 company*?
- 719-20 What is a *top company* and a *tier-1 company*?
- 719-25 Head company, subsidiary members and members of a MEC group
- 719-30 Treating entities as wholly-owned subsidiaries by disregarding employee shares
- 719-35 Treating entities held through non-fixed trusts as wholly-owned subsidiaries
- 719-40 Special conversion event—potential MEC group
- 719-45 Application of sections 703-20 and 703-25

Choice to consolidate a potential MEC group

- 719-50 Eligible tier-1 companies may choose to consolidate a potential MEC group
- 719-55 When choice starts to have effect

Provisional head company

- 719-60 Appointment of provisional head company
- 719-65 Qualifications for the provisional head company of a MEC group
- 719-70 Income year of new provisional head company to be the same as that of former provisional head company

Head company

- 719-75 Head company

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Notice of events affecting group

- 719-76 Notice of choice to consolidate
- 719-77 Notice in relation to new eligible tier-1 members etc.
- 719-78 Notice of special conversion event
- 719-79 Notice of appointment of provisional head company after formation of group
- 719-80 Notice of events affecting MEC group

Effects of change of head company

- 719-85 Application
- 719-90 New head company treated as substituted for old head company at all times before the transition time
- 719-95 No consequences of old head company becoming, and new head company ceasing to be, subsidiary member of the group

Basic concepts

719-5 What is a *MEC group*?

When MEC group comes into existence

- (1) A ***MEC (multiple entry consolidated) group*** comes into existence when:
 - (a) a choice, by 2 or more *eligible tier-1 companies of a *top company, that the *potential MEC group derived from those companies be consolidated starts to have effect under section 719-55; or
 - (b) a *special conversion event happens to a potential MEC group derived from an eligible tier-1 company of a top company.

Original members of a MEC group that results from a choice

- (2) A MEC group that results from a choice by 2 or more companies under section 719-50 consists of the potential MEC group derived from time to time from whichever one or more of those companies continue to be eligible tier-1 companies of the top company. This subsection has effect subject to subsection (4) (which deals with new eligible tier-1 members).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-5

Original members of a MEC group that results from a special conversion event

- (3) A MEC group that results from a special conversion event consists of the potential MEC group derived from time to time from whichever one or more of the following companies continue to be eligible tier-1 companies of the top company:
- (a) the company mentioned in paragraph 719-40(1)(b);
 - (b) the companies specified in the notice under paragraph 719-40(1)(e).

This subsection has effect subject to subsection (4) (which deals with new eligible tier-1 members).

New eligible tier-1 members of a MEC group

- (4) If:
- (a) a MEC group consists of the members of a potential MEC group derived from one or more eligible tier-1 companies of a top company; and
 - (b) at a particular time after the MEC group came into existence, one or more other companies become eligible tier-1 companies of the top company; and
 - (c) the *provisional head company of the MEC group makes a choice in writing no later than the day mentioned in subsection (6):
 - (i) specifying one or more of the companies mentioned in paragraph (b); and
 - (ii) stating that the specified companies are to become members of the MEC group with effect from that time; and
 - (d) if:
 - (i) a company specified in the choice was a member of another MEC group immediately before that time; and
 - (ii) all of the eligible tier-1 companies in that other MEC group became eligible tier-1 companies of the top company at that time;each eligible tier-1 company in that other MEC group is specified in the choice;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

then, with effect from that time, the MEC group mentioned in paragraph (a) is taken to consist of the potential MEC group derived from time to time from whichever one or more of the following companies continue to be eligible tier-1 companies of the top company:

- (e) the companies mentioned in paragraph (a);
- (f) the companies specified in the choice.

Note: The provisional head company of the group must give the Commissioner a notice in the approved form containing information about each entity that becomes a subsidiary member of the group on that day because of the choice (see sections 719-77 and 719-80).

- (5) To avoid doubt, paragraph (4)(a) applies to a MEC group even if the composition of the group has been worked out because of one or more previous applications of subsection (4).
- (6) The day mentioned in paragraph (4)(c) is:
 - (a) if the company mentioned in subsection (6A) is required to give the Commissioner its *income tax return for the income year during which the time mentioned in paragraph (4)(b) occurs—the day on which that company gives the Commissioner that income tax return; or
 - (b) otherwise—the last day in the period within which that company would be required to give the Commissioner such a return if it were required to give the Commissioner such a return.
- (6A) The company is:
 - (a) in a case where subsection 719-75(1) or (2) applies—the company that will be the *head company of the group as at the end of the income year; and
 - (b) in a case where subsection 719-75(3) applies—the company that will be the head company of the group immediately before the group ceased to exist.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-10

Continued existence of MEC group

- (7) If a MEC group (the ***first MEC group***) consists of the members of a potential MEC group derived from one or more eligible tier-1 companies of a top company, the first MEC group continues to exist until:

- (a) the potential MEC group ceases to exist; or
- (b) there is a change in the identity of the top company, and the eligible tier-1 companies that were members of the first MEC group immediately before the change become members of another MEC group immediately after the change; or
- (c) there ceases to be a provisional head company of the first MEC group.

The first MEC group ceases to exist when one of those events happens.

Note: Subsection 719-10(7) sets out the circumstances in which the potential MEC group ceases to exist.

719-10 What is a potential MEC group?

- (1) A ***potential MEC group*** derived from one or more *eligible tier-1 companies of a *top company consists of the following members:
- (a) those eligible tier-1 companies;
 - (b) all of the other entities (if any) which:
 - (i) meet the requirements of the table; or
 - (ii) are entities for which the requirements in section 701C-10 of the *Income Tax (Transitional Provisions) Act 1997* are met; or
 - (iii) are entities for which the requirements in section 701C-15 of the *Income Tax (Transitional Provisions) Act 1997* are met.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Requirements for other entities		
Column 1 Income tax treatment requirements	Column 2 Australian residence requirements	Column 3 Ownership requirements
<p>The entity must be a company, trust or partnership and, if it is a company, all or some of its taxable income (if any) must have been taxable at a rate that is or equals the *corporate tax rate apart from this Part</p> <p>The entity must not be covered by an item in the table in section 703-20</p> <p>The entity must not be a non-profit company (as defined in the <i>Income Tax Rates Act 1986</i>)</p>	<p>The entity must:</p> <p>(a) be an Australian resident (but not a *prescribed dual resident), if it is a company; or</p> <p>(b) meet the conditions in item 1, 2 or 3 of the table in section 703-25, if it is a trust; or</p> <p>(c) be a partnership</p>	<p>The entity must be:</p> <p>(a) a *wholly-owned subsidiary of any of those *eligible tier-1 companies; or</p> <p>(b) an entity that would be covered by paragraph (a), if it were assumed that all of the membership interests that are beneficially owned by any of those eligible tier-1 companies were owned by a single one of those eligible tier-1 companies</p>

- (2) For the purposes of column 3 of the table, if there are one or more entities interposed between an entity (the **test entity**) and an eligible tier-1 company, the test entity can be a wholly-owned subsidiary of the eligible tier-1 company only if each of the interposed entities:
- (a) meets the conditions in columns 1 and 2 of the table; or
 - (b) holds membership interests only as a nominee of one or more entities each of which is:
 - (i) an eligible tier-1 company of the top company; or
 - (ii) a wholly-owned subsidiary of an eligible tier-1 company of the top company, being a subsidiary that meets the conditions in columns 1 and 2 of the table.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-10

- (3) For the purposes of subparagraph (2)(b)(ii), in determining whether an entity is a wholly-owned subsidiary of an eligible *tier-1 company of the *top company, assume that all of the *membership interests that are beneficially owned by eligible tier-1 companies of the top company were owned by a single eligible tier-1 company of the top company.

Only one eligible tier-1 company in a potential MEC group

- (6) To avoid doubt, if:
- (a) there is only one *eligible tier-1 company of a *top company; and
 - (b) there are no entities which meet the requirements of the table in subsection (1); and
 - (c) there are no entities for which the requirements mentioned in subparagraph (1)(b)(ii) are met; and
 - (d) there are no entities for which the requirements mentioned in subparagraph (1)(b)(iii) are met;
- the *potential MEC group derived from the eligible tier-1 company consists of the eligible tier-1 company alone.

When potential MEC group ceases to exist

- (7) If a *potential MEC group is derived from one or more *eligible tier-1 companies of a *top company, the potential MEC group ceases to exist when:
- (a) none of those companies are eligible tier-1 companies of the top company; or
 - (b) there is a change in the identity of the top company, and the eligible tier-1 companies that were members of the group immediately before the change are not the same as the eligible tier-1 companies that are members of the group immediately after the change.

Continuity of potential MEC group

- (8) If:
- (a) a *potential MEC group is derived from one or more *eligible tier-1 companies of a *top company; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) there is a change in the identity of the top company in relation to the potential MEC group; and
 - (c) the eligible tier-1 companies that were members of the group immediately before the change are the same as the eligible tier-1 companies that are members of the group immediately after the change;
- the change does not affect the continuity of:
- (d) the group; or
 - (e) the status of any of those companies as eligible tier-1 companies of the top company.

719-15 What is an *eligible tier-1 company*?

- (1) A *tier-1 company of a *top company is an ***eligible tier-1 company*** if subsection (2) does not apply to the tier-1 company.
- (2) This subsection applies to a *tier-1 company if:
 - (a) there are one or more entities interposed between the tier-1 company and the *top company; and
 - (b) the conditions in subsection (3) are satisfied in relation to at least one of those interposed entities.
- (3) For the purposes of paragraph (2)(b), the conditions are as follows:
 - (a) the interposed entity must be one of the following:
 - (i) a company that is a foreign resident;
 - (ii) a *prescribed dual resident;
 - (iii) a trust that does not meet the conditions in item 1, 2 or 3 of the table in section 703-25;
 - (iv) a trust that meets the conditions in item 1, 2 or 3 of the table in section 703-25 and is not a *wholly-owned subsidiary of another *tier-1 company of the *top company;
 - (v) an entity covered by an item in the table in section 703-20;
 - (vi) a company that is an Australian resident, where no part of its taxable income (if any) would be taxable at a rate that is or equals the *general company rate;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-20

- (vii) a non-profit company (as defined in the *Income Tax Rates Act 1986*) that is a wholly-owned subsidiary of another tier-1 company of the top company;
- (b) the interposed entity must not hold *membership interests only as nominee of one or more entities each of which is:
 - (i) another tier-1 company of the top company; or
 - (ii) an entity that is a wholly-owned subsidiary of another tier-1 company of the top company;
- (c) at least one of the following entities must hold a membership interest in the interposed entity:
 - (i) another tier-1 company of the top company;
 - (ii) a wholly-owned subsidiary of another tier-1 company of the top company;
 - (iii) an entity that holds membership interests only as a nominee of one or more entities each of which is mentioned in subparagraph (i) or (ii).
- (4) For the purposes of subparagraphs (3)(a)(iv) and (vii) and paragraphs (3)(b) and (c), in determining whether an entity is a wholly-owned subsidiary of another *tier-1 company of the *top company, assume that all of the *membership interests that are beneficially owned by tier-1 companies of the top company were owned by a single tier-1 company of the top company.

719-20 What is a *top company* and a *tier-1 company*?

- (1) At a particular time, a company is:
 - (a) a ***top company*** if the requirements in item 1 of the table are met; or
 - (b) a ***tier-1 company*** of the top company if the requirements in item 2 of the table are met.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-20

Top companies and tier-1 companies			
Column 1 Kind of entity	Column 2 Income tax treatment requirements	Column 3 Residence requirements	Column 4 Ownership requirements
1 Top company	No specific requirements	The company must be a foreign resident	The company must not be a *wholly-owned subsidiary of another company (other than a company that is a *prescribed dual resident, or a company that is an Australian resident that fails to meet a condition in column 2 of item 2)
2 Tier-1 company	The company must have all or some of its taxable income (if any) taxed at a rate that is or equals the *corporate tax rate apart from this Part The company must not be covered by an item in the table in section 703-20	The company must be an Australian resident (but not a *prescribed dual resident)	The company: (a) must be a *wholly-owned subsidiary of the *top company; and (b) must not be a wholly-owned subsidiary of a company that is an Australian resident (other than a company that fails to meet a condition in column 2 or 3)

- (2) For the purposes of paragraph (b) of column 4 of item 2 of the table, in determining whether a company (the test company) is a *tier-1 company, if 2 or more other companies beneficially own all of the *membership interests in the test company, and each of those other companies:
- (a) is a *wholly-owned subsidiary of the *top company; and
 - (b) meets the conditions in columns 2 and 3 of item 2 of the table;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-25

the test company is taken to be a wholly-owned subsidiary of one of those other companies.

719-25 Head company, subsidiary members and members of a MEC group

- (1) The *head company* of a *MEC group is worked out under section 719-75.
- (2) The remaining members of the group are the *subsidiary members* of the group.
- (3) The *members* of a *MEC group are the *head company of the group and the *subsidiary members of the group.

719-30 Treating entities as wholly-owned subsidiaries by disregarding employee shares

- (1) The object of this section is to ensure that an entity is not prevented from being a *wholly-owned subsidiary of another entity, just because there are minor holdings of *membership interests in an entity issued under *arrangements for employee shareholdings.
- (2) For the purposes of this Division, in determining whether an entity is a *wholly-owned subsidiary of another entity, disregard:
 - (a) particular *shares in a company if the shares are covered by subsection (3) and the total number of those shares is not more than 1% of the number of ordinary shares in the company; and
 - (b) particular *membership interests in an entity if the membership interests are covered by subsection (5) and the total number of those membership interests is not more than 1% of the number of membership interests of that kind in the entity.
- (3) A *share or *membership interest in a company is covered by this subsection if:
 - (a) the entity who holds the beneficial interest in the share or membership interest acquired that beneficial interest:
 - (i) under an *employee share scheme; or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (ii) by exercising a right, a beneficial interest in which was acquired under an employee share scheme; and
- (b) paragraphs 83A-105(1)(a) and (b) and subsection 83A-105(2) apply to the beneficial interest acquired under the scheme; and
- (c) in the case of a membership interest—the interest is part of a stapled security.

719-35 Treating entities held through non-fixed trusts as wholly-owned subsidiaries

- (1) This section operates to ensure that an entity (the *test entity*) is not prevented from being a *wholly-owned subsidiary of a company, just because there is a trust that is not a *fixed trust interposed between the test entity and the company.
- (2) For the purposes of this Division, in determining whether the test entity is a *wholly-owned subsidiary of the company, assume that the interposed trust is a *fixed trust and all its objects are beneficiaries.

719-40 Special conversion event—potential MEC group

- (1) A *special conversion event* happens at a particular time to a *potential MEC group derived from an *eligible tier-1 company of a *top company if:
 - (a) at that time, the group is not a *MEC group as a result of a choice under section 719-50; and
 - (b) immediately before that time, a company is:
 - (i) that eligible tier-1 company; and
 - (ii) the *head company of a *consolidated group; and
 - (c) at that time, one or more other companies become eligible tier-1 companies of the top company; and
 - (d) immediately after that time, no *membership interests in the company mentioned in paragraph (b) are beneficially owned by another member of the potential MEC group derived from:
 - (i) the company mentioned in paragraph (b); and
 - (ii) the companies mentioned in paragraph (c); and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-45

- (e) the company mentioned in paragraph (b) makes a choice in writing no later than the day mentioned in subsection (2):
 - (i) specifying one or more of the companies mentioned in paragraph (c); and
 - (ii) stating that a MEC group is to come into existence at that time as a result of the specified companies becoming eligible tier-1 companies of the top company; and
- (f) if:
 - (i) a company specified in the choice was a member of another MEC group immediately before that time; and
 - (ii) all of the eligible tier-1 companies in that other MEC group became eligible tier-1 companies of the top company at that time;each eligible tier-1 company in that other MEC group is specified in the choice.

Note: The company mentioned in paragraph (b) must give the Commissioner a notice in the approved form containing information about the special conversion event (see sections 719-78 and 719-80).

- (2) The day mentioned in paragraph (1)(e) is:
 - (a) if the company is required to give the Commissioner its *income tax return for the income year during which that time occurs—the day on which the company gives the Commissioner that income tax return; or
 - (b) otherwise—the last day in the period within which the company would be required to give the Commissioner such a return if it were required to give the Commissioner such a return.

719-45 Application of sections 703-20 and 703-25

- (1) For the purposes of this Division, if an item in section 703-20 refers to an income year, an entity is covered by that item at a particular time if, and only if, that time is in that income year.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (2) For the purposes of this Division, if a condition in item 1, 2 or 3 of the table in section 703-25 refers to an income year, an entity meets that condition at a particular time if, and only if, that time is in that income year.

Choice to consolidate a potential MEC group

719-50 Eligible tier-1 companies may choose to consolidate a potential MEC group

Making a choice to consolidate

- (1) If:
- (a) a *potential MEC group (the *first group*) derived from 2 or more *eligible tier-1 companies of a *top company is in existence at the start of a particular day; and
 - (b) that day is after 30 June 2002; and
 - (c) none of those eligible tier-1 companies is already a member of a *MEC group or a *consolidated group;
- those eligible tier-1 companies, jointly, may make a choice in writing that the first group be consolidated on and after that day. If they do so, the choice must specify that day.

Note 1: The provisional head company must give the Commissioner a notice in the approved form containing information about the group (see sections 719-76 and 719-80).

Note 2: A group that is consolidated for income tax purposes may also consolidate for the purposes of the *Minerals Resource Rent Tax Act 2012* (see section 215-10 of that Act).

Note 3: A group that is consolidated for income tax purposes may also consolidate for the purposes of the *Petroleum Resource Rent Tax Assessment Act 1987* (see section 58N of that Act).

Choice cannot be revoked or specified day amended

- (2) A choice cannot be revoked and the specification of the day cannot be amended.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-50

(3) A choice can be made no later than:

- (a) if the company mentioned in subsection (3A) is required to give the Commissioner its *income tax return for the income year during which that day occurs—the day on which that company gives the Commissioner that income tax return; or
- (b) otherwise—the last day in the period within which that company would be required to give the Commissioner such a return if it were required to give the Commissioner such a return.

(3A) The company is:

- (a) in a case where subsection 719-75(1) or (2) applies—the company that will be the *head company of the group as at the end of the income year; and
- (b) in a case where subsection 719-75(3) applies—the company that will be the head company of the group immediately before the group ceased to exist.

Company ceases to be an eligible tier-1 company before choice is given to the Commissioner

(4) If:

- (a) as a result of a choice:
 - (i) subsection 719-75(1), (2) or (3) would apply to the *MEC group concerned in relation to the *income year of a company in which the specified day occurred; and
 - (ii) in a case where subsection 719-75(1) or (2) applies—the company will be the *head company of the group as at the end of the income year; and
 - (iii) in a case where subsection 719-75(3) applies—the company will be the *head company of the group immediately before the group ceased to exist; and
- (b) another company (the ***other company***) that was an eligible tier-1 company at the start of the specified day ceased to exist at a time before:
 - (i) the day on which the company mentioned in paragraph (a) gives the Commissioner its *income tax return for the income year during which the day specified in the choice occurs; or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (ii) the last day in the period within which the company mentioned in paragraph (a) would be required to give the Commissioner such a return if it were required to give the Commissioner such a return; and
 - (c) having regard to all relevant circumstances, it would be reasonable to conclude that the other company would have been a party to the choice if the other company had continued to exist;
- the other company is taken to have authorised the company that will be the head company as mentioned in subparagraph (a)(ii) or (iii):
- (d) to make the choice on behalf of the other company; and
 - (e) to do, on behalf of the other company, anything else under:
 - (i) subsection (1) of this section; or
 - (ii) subsection 719-60(1) or (3).

719-55 When choice starts to have effect

A choice under section 719-50 is taken to have started to have effect on the day specified in the choice.

Provisional head company

719-60 Appointment of provisional head company

Appointment on formation of group—choice

- (1) If companies make a choice under section 719-50, the choice must include an appointment, made jointly by the companies, of one of those companies to be the provisional head company of the *MEC group concerned. The appointment comes, or is taken to have come, into force at the time when the choice starts or started to have effect.

Appointment on formation of group—special conversion event

- (2) If a *special conversion event happens to a *potential MEC group, the *eligible tier-1 companies that were the members of the MEC group that resulted from the event are taken to have appointed the

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-60

company mentioned in paragraph 719-40(1)(b) as the provisional head company of the *MEC group. The appointment is taken to have come into force when the event happened.

Appointment after formation of group

- (3) If a *cessation event happens to the *provisional head company of a *MEC group, the *eligible tier-1 companies that are or were members of the MEC group immediately after the cessation event may make a choice in writing, jointly appointing one of those companies to be the provisional head company of the group. The appointment is taken to have come into force immediately after the cessation event.

Qualifications for provisional head company

- (4) An appointment of a company under subsection (1) or (3) as the *provisional head company of a *MEC group has no effect unless, at the time the appointment comes into force, the company is qualified to be the *provisional head company of the MEC group under section 719-65.

Appointment remains in force until cessation event

- (5) The appointment of a company as the *provisional head company of a *MEC group remains in force until a *cessation event happens to the company.

What is a cessation event?

- (6) A **cessation event** happens to a *provisional head company of a *MEC group if:
- (a) the company ceases to be qualified to be the *provisional head company of the group under section 719-65; or
 - (b) the company ceases to exist.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

719-65 Qualifications for the provisional head company of a MEC group

Qualifications for the provisional head company

- (1) A company is qualified to be the *provisional head company of a *MEC group if:
- (a) the company is an *eligible tier-1 company of the *top company; and
 - (b) no *membership interests in the company are beneficially owned by another member of the group.
- (2) Subsection (1) has effect subject to subsection (3).

Period during which new provisional head company must have been a member of the group

- (3) If:
- (a) a company (the **new company**) is to be appointed as the *provisional head company of a *MEC group under subsection 719-60(3); and
 - (b) the appointment will come into force immediately after a *cessation event happens to the former provisional head company of the group; and
 - (c) a company (the **original company**) (which may be the former provisional head company) was appointed as the provisional head company of the group under subsection 719-60(1) or (2);
- the new company is not qualified to be the provisional head company of the group unless the new company has been a member of the group at all times during the period:
- (d) beginning at whichever of the following times is applicable:
 - (i) if the cessation event happened in the income year of the original company in which the group came into existence—the time when the group came into existence;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-70

- (ii) in any other case—the start of the income year of the former provisional head company in which the cessation event happened; and
- (e) ending when the cessation event happened.

719-70 Income year of new provisional head company to be the same as that of former provisional head company

If:

- (a) a company (the *new company*) is appointed as the *provisional head company of a *MEC group under subsection 719-60(3); and
- (b) the appointment comes into force immediately after a *cessation event happens to the former provisional head company of the group;

then:

- (c) if, for the income year in which the cessation event happened, the former provisional head company had not adopted an accounting period in place of the financial year concerned—the new company is taken not to have adopted an accounting period in place of that financial year; or
- (d) if, for the income year in which the cessation event happened, the former provisional head company had adopted an accounting period in place of the financial year concerned—the new company is taken to have adopted an accounting period in place of that financial year that is the same as the accounting period adopted by the former provisional head company.

Head company

719-75 Head company

Group in existence throughout income year

(1) If:

- (a) a company is the *provisional head company of a *MEC group at the end of the income year of the company; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

(b) the group was in existence throughout the income year;
the company is the head company of the group at all times during
the income year.

Group comes into existence in income year

(2) If:

- (a) a company is the *provisional head company of a *MEC
group at the end of the income year of the company; and
- (b) the group is in existence at the end of the income year; and
- (c) the group came into existence in the income year;
that company is the head company of the group at all times during
the period:
- (d) beginning when the group came into existence; and
- (e) ending at the end of the income year.

Group ceases to exist in income year

(3) If:

- (a) a *MEC group ceases to exist in an income year of a
company; and
- (b) the company was the *provisional head company of the group
immediately before the group ceased to exist;
that company is the head company of the group at all times during
the period:
- (c) beginning at whichever is the later of:
 - (i) the start of the income year; and
 - (ii) the time the group came into existence; and
- (d) ending at the time when the group ceased to exist.

Notice of events affecting group

719-76 Notice of choice to consolidate

(1) This section applies if:

- (a) a *MEC group comes into existence on the day specified in a
choice under section 719-50; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-76

- (b) subsection 719-75(1), (2) or (3) would apply to the MEC group in relation to the ^{*}income year of a company in which the specified day occurred; and
 - (c) in a case where subsection 719-75(1) or (2) applies—the company will be the ^{*}head company of the group as at the end of the income year; and
 - (d) in a case where subsection 719-75(3) applies—the company will be the head company of the group immediately before the group ceased to exist.
- (2) The company must give the Commissioner a notice in the ^{*}approved form containing the following information:
 - (a) the identity of the company;
 - (b) the day specified in the choice on which the ^{*}MEC group comes into existence;
 - (c) the identity of each ^{*}eligible tier-1 company of the ^{*}top company in relation to the MEC group on that day;
 - (d) the identity of each ^{*}subsidiary member of the group on that day;
 - (e) the identity of each entity that was a subsidiary member of the group on that day but was *not* such a subsidiary member when the notice is given;
 - (f) the identity of each entity that was *not* a subsidiary member of the group on that day but was such a subsidiary member when the notice is given;
 - (g) the identity of each entity that became a subsidiary member of the group after that day but was *not* such a subsidiary member when the notice is given.
- (3) The notice must be given no later than:
 - (a) if the company is required to give the Commissioner its ^{*}income tax return for the income year during which that day occurs—the day on which the company gives the Commissioner that income tax return; or
 - (b) otherwise—the last day in the period within which the company would be required to give the Commissioner such a return if it were required to give the Commissioner such a return.

^{*}To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

719-77 Notice in relation to new eligible tier-1 members etc.

- (1) This section applies if:
 - (a) a *MEC group consists of the members of a *potential MEC group derived from one or more *eligible tier-1 companies of a *top company; and
 - (b) one or more other companies become eligible tier-1 companies of the top company at a time because of a choice under subsection 719-5(4).
- (2) The *head company of the *MEC group must give the Commissioner a notice in the *approved form containing the following information:
 - (a) the identity of the head company;
 - (b) the time mentioned in paragraph (1)(b);
 - (c) the identity of each entity that became an *eligible tier-1 company of the *top company in relation to the MEC group at that time because of the choice;
 - (d) the identity of each entity that became a *subsidiary member of the group at that time because of the choice;
 - (e) the identity of each entity that was a subsidiary member of the group at that time but was not such a subsidiary member when the notice is given.
- (3) The notice must be given no later than:
 - (a) if the *head company is required to give the Commissioner its *income tax return for the income year during which that time occurs—the day on which the head company gives the Commissioner that income tax return; or
 - (b) otherwise—the last day in the period within which the head company would be required to give the Commissioner such a return if it were required to give the Commissioner such a return.

719-78 Notice of special conversion event

- (1) This section applies if a *MEC group comes into existence at the time because of a choice under paragraph 719-40(e).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-79

- (2) The company mentioned in paragraph 719-40(b) must give the Commissioner a notice in the *approved form containing the following information:
 - (a) the identity of the company;
 - (b) the time at which the *MEC group comes into existence;
 - (c) the identity of each *eligible tier-1 company of the *top company in relation to the MEC group on that day;
 - (d) the identity of each *subsidiary member of the group at that time;
 - (e) the identity of each entity that was a subsidiary member of the group at that time but was *not* such a subsidiary member when the notice is given;
 - (f) the identity of each entity that was *not* a subsidiary member of the group at that time but was such a subsidiary member when the notice is given;
 - (g) the identity of each entity that became a subsidiary member of the group after that time but was *not* such a subsidiary member when the notice is given.
- (3) The notice must be given no later than:
 - (a) if the company is required to give the Commissioner its *income tax return for the income year during which that time occurs—the day on which the company gives the Commissioner that income tax return; or
 - (b) otherwise—the last day in the period within which the company would be required to give the Commissioner such a return if it were required to give the Commissioner such a return.

719-79 Notice of appointment of provisional head company after formation of group

- (1) This section applies if an entity is appointed to be the *provisional head company of a *MEC group because of a choice under subsection 719-60(3).
- (2) The *provisional head company must give the Commissioner a notice in the *approved form containing the following information:
 - (a) the identity of the provisional head company;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) the day on which the choice was made;
 - (c) the day on which the *cessation event mentioned in subsection 719-60(3) occurs.
- (3) The notice must be given no later than:
- (a) if:
 - (i) the group came into existence because of a choice under section 719-50; and
 - (ii) the event happens more than 28 days before a notice under section 719-76 in relation to the choice is given; the day on which the notice mentioned in subparagraph (ii) is given; or
 - (b) in any other case—28 days after the *cessation event.

719-80 Notice of events affecting MEC group

- (1) If an event (the *notifiable event*) described in column 2 of an item of the table happens in relation to a *MEC group, the entity described in column 3 of the item must give the Commissioner notice in the *approved form of the notifiable event.

Notice of events		
Column 1 Item	Column 2 If this event happens:	Column 3 Notice must be given by:
1.	An entity becomes a member of a *MEC group	The *provisional head company of the group
2.	An entity ceases to be a member of a MEC group	The provisional head company of the group
3.	A *cessation event happens to the *provisional head company of a MEC group	The company, or the person (if any) who was its public officer just before it ceased to exist if the company ceased to be the provisional head company because it ceases to exist

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-85

- (2) The entity described in column 3 of the relevant item must give notice of the notifiable event:
- (a) if:
 - (i) the group came into existence because of a choice under section 719-50; and
 - (ii) the notifiable event happens before the relevant notice is given to the Commissioner under section 719-76 (notice of choice to consolidate);no later than the day mentioned in subsection (3); or
 - (b) if:
 - (i) the group results from a *special conversion event; and
 - (ii) a choice under section 703-50 is made in relation to the *consolidated group mentioned in paragraph 719-40(1)(b); and
 - (iii) the notifiable event happens before the relevant notice is given to the Commissioner under section 703-58 (notice of choice to consolidate);no later than the day mentioned in subsection (3); or
 - (c) in any other case—within 28 days after the notifiable event.
- (3) The day is:
- (a) if the entity is required to give the Commissioner its *income tax return for the income year during which the notifiable event happens—the day on which the company gives the Commissioner that income tax return; or
 - (b) otherwise—the last day in the period within which the entity would be required to give the Commissioner such a return if it were required to give the Commissioner such a return.

Effects of change of head company

719-85 Application

Sections 719-90 to 719-95 set out the effects if:

- (a) a company (the *old head company*) is the *head company of a *MEC group at the end of an income year; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) a different company (the *new head company*) is the head company of the group at the start of the next income year (the *transition time*).

Note: This case can arise from the operation of section 719-75, which treats an entity that is the provisional head company of the group at a certain time in the income year as being the group's head company at all times in the income year when the group is in existence.

The old head company is also taken to become a subsidiary member of the group at the transition time, and the new head company is taken to cease being a subsidiary member at that time. Section 719-95 ensures that these results do not change the tax position of the group.

719-90 New head company treated as substituted for old head company at all times before the transition time

- (1) Everything that happened in relation to the old head company before the transition time is taken to have happened in relation to the new head company instead, just as if the new head company had been the old head company at all times before the transition time.

Note: This section treats the new head company as having in effect assumed the identity of the old head company throughout the period before the transition time, but without affecting any of the other attributes of the old head company.

- (2) To avoid doubt, subsection (1) also covers everything that, immediately before the transition time, was taken, because of:
- (a) section 701-1 (Single entity rule); or
 - (b) section 701-5 (Entry history rule); or
 - (c) section 703-75 (about the effects of choice to continue consolidated group after shelf company becomes new head company); or
 - (ca) section 719-125 (about the effects of a group conversion involving a MEC group); or
 - (d) one or more previous applications of this section;
- to have happened in relation to the old head company.
- (3) Subsections (1) and (2) have effect:
- (a) for the head company core purposes in relation to an income year ending after the transition time; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-95

- (b) for the entity core purposes in relation to an income year ending after the transition time.
- (4) Subsections (1) and (2) have effect subject to:
 - (a) section 701-40 (Exit history rule); and
 - (b) a provision of this Act to which section 701-40 is subject because of section 701-85 (about exceptions to the core rules in Division 701).

Note: An example of provisions covered by paragraph (b) of this subsection is section 707-410, which ensures that section 701-40 (Exit history rule) does not result in a leaving entity inheriting a loss of any sort.

719-95 No consequences of old head company becoming, and new head company ceasing to be, subsidiary member of the group

- (1) A provision of this Part that applies on an entity becoming a *subsidiary member of a *MEC group does *not* apply to an entity being taken to have become such a member because the entity stopped being the *head company of the group as mentioned in section 719-85, unless the provision is expressed to apply despite this subsection.

Note: An example of the effect of this subsection is that section 701-5 (Entry history rule) does not apply. See instead section 719-90.

- (2) To avoid doubt, subsection (1) does not affect the application of subsection 701-1(1) (the single entity rule).
- (3) A provision of this Part that applies on an entity ceasing to be a *subsidiary member of a *MEC group does *not* apply to an entity being taken to cease being such a member because the entity became the *head company of the group as mentioned in section 719-85, unless the provision is expressed to apply despite this subsection.

Note: An example of the effect of this subsection is that section 701-40 (Exit history rule) does not apply. See instead section 719-90.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 719-BA—Group conversions involving MEC groups

Table of sections

719-120	Application
719-125	Head company of new group retains history of head company of old group
719-130	Provisions of this Part not to apply to conversion
719-135	Provisions of this Part applying to conversion despite section 719-130
719-140	Other provisions of this Part not applying to conversion

719-120 Application

- (1) This Subdivision applies if, at a particular time (the *conversion time*):
 - (a) a *consolidated group (the *new group*) is *created from a *MEC group (the *old group*); or
 - (b) a MEC group (the *new group*) is created from a consolidated group (the *old group*).
- (2) However, sections 719-130 and 719-135 apply only in relation to entities that:
 - (a) were *members of the old group just before the conversion time; and
 - (b) are members of the new group at that time.

719-125 Head company of new group retains history of head company of old group

- (1) Everything that happened in relation to the *head company of the old group before the conversion time is taken instead to have happened in relation to:
 - (a) if the head company of the old group is the same entity as the head company of the new group—that entity in its role as head company of the new group; or
 - (b) otherwise—the head company of the new group (just as if the head company of the new group had been the head company of the old group at all times before the conversion time).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-130

- (2) To avoid doubt, subsection (1) also covers everything that, immediately before the conversion time, was taken to have happened in relation to the *head company of the old group because of:
 - (a) section 701-1 (the single entity rule); or
 - (b) section 701-5 (the entry history rule); or
 - (c) section 703-75 (about the effects of choice to continue *consolidated group after shelf company becomes new head company); or
 - (d) section 719-90 (about the effects of a change of head company of a *MEC group); or
 - (e) one or more previous applications of this Division.
- (3) Subsections (1) and (2) have effect:
 - (a) for the *head company core purposes in relation to an income year ending after the conversion time; and
 - (b) for the entity core purposes in relation to an income year ending after the conversion time; and
 - (c) for the purposes of determining the balance of the *franking account of the head company of the new group at and after the conversion time.
- (4) Subsections (1) and (2) have effect subject to:
 - (a) section 701-40 (Exit history rule); and
 - (b) a provision of this Act to which section 701-40 is subject because of section 701-85 (about exceptions to the core rules in Division 701).

Note: An example of provisions covered by paragraph (b) of this subsection is Subdivision 717-E (about transferring to a company leaving a consolidated group various surpluses under the CFC rules in Part X of the *Income Tax Assessment Act 1936*).

719-130 Provisions of this Part not to apply to conversion

- (1) A provision mentioned in subsection (5) that applies on an entity becoming a *member of a *consolidated group or *MEC group does *not* apply to an entity becoming such a member because of a situation described in subsection 719-120(1), unless the provision is expressed to apply despite this subsection.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note 1: An example of the effect of this subsection is that section 701-5 (entry history rule) does not apply. See instead section 719-125.

Note 2: Further examples of the effect of this subsection are that Division 705 (cost setting on entry) and Division 707 (losses) do not apply.

(2) Subsection (1) does not affect the application of subsection 701-1(1) (the single entity rule).

(3) A provision mentioned in subsection (5) that applies on an entity ceasing to be a *member of a *consolidated group or *MEC group does *not* apply to an entity ceasing being such a member because of a situation described in subsection 719-120(1), unless the provision is expressed to apply despite this subsection.

Note 1: An example of the effect of this subsection is that section 701-40 (Exit history rule) does not apply. See instead section 719-125.

Note 2: Another example of the effect of this subsection is that Division 711 (cost setting on exit) does not apply.

(4) Subsection (3) does not apply if:

- (a) the old group mentioned in subsection 719-120(1) is a *consolidated group; and
- (b) the new group mentioned in subsection 719-120(1) is a *MEC group; and
- (c) the entity ceasing to be a *member of the old group becomes an *eligible tier-1 company in respect of the new group.

(5) The provisions are as follows:

- (a) Subdivision 104-L;
- (b) section 165-212E;
- (c) this Part (other than this Subdivision);
- (d) Part 3-90 of the *Income Tax (Transitional Provisions) Act 1997*.

719-135 Provisions of this Part applying to conversion despite section 719-130

(1) This section applies despite subsections 719-130(1) and (3).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-140

- (2) If the new group is a *consolidated group, the following provisions may apply on an entity ceasing to be a *member of the old group:
- (a) Subdivision 719-K;
 - (b) any other provision of this Part, to the extent that the application of the provision is necessary for the application of Subdivision 719-K.

719-140 Other provisions of this Part not applying to conversion

If the new group is a *consolidated group, the following provisions do not apply merely because the old group ceases to exist at the conversion time (or merely because the *potential MEC group of which the old group consisted ceases to exist at that time):

- (a) section 719-280;
- (b) section 719-465;
- (c) section 719-705;
- (d) section 719-725;
- (e) any other provision of this Part, to the extent that the application of the provision is necessary for the application of any of those sections.

Subdivision 719-C—MEC group cost setting rules: joining cases

Guide to Subdivision 719-C

719-150 What this Subdivision is about

When an entity (other than an eligible tier-1 company) becomes a subsidiary member of a MEC group, the tax cost of its assets is set at a tax cost setting amount that is worked out in accordance with Divisions 701 and 705 as modified by this Subdivision. Assets of eligible tier-1 companies becoming members of a MEC group do not have their tax cost set.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Table of sections

Application and object

719-155 Object of this Subdivision

Modified application of tax cost setting rules for joining

719-160 Tax cost setting rules for joining have effect with modifications

719-165 Trading stock value and registered emissions unit value not set for assets of eligible tier-1 companies

719-170 Modified effect of subsections 705-175(1) and 705-185(1)

Application and object

719-155 Object of this Subdivision

The object of this Subdivision is to modify the tax cost setting rules in Divisions 701 and 705 so that they take account of the special characteristics of *MEC groups.

Modified application of tax cost setting rules for joining

719-160 Tax cost setting rules for joining have effect with modifications

- (1A) This section applies if an entity (the *MEC joining entity*) becomes a *subsidiary member of a *MEC group at a time (the *MEC joining time*).
- (1) This section has effect for the head company core purposes set out in subsection 701-1(2).

General modifying rule

- (2) The provisions mentioned in subsection (3) operate, for the purposes of setting the *tax cost of an asset of the MEC joining entity, as if each *subsidiary member of the group (including the MEC joining entity) that is an *eligible tier-1 company at the MEC joining time were a part of the *head company of the group, rather than a separate entity.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-165

Note 1: This subsection means that references in those provisions to matters internal to the group operate as if eligible tier-1 companies in the group were parts of the head company of the group. For example:

- (a) provisions operating if the head company holds (whether directly or indirectly) membership interests in another entity operate even if an eligible tier-1 company actually holds those interests; and
- (b) provisions operating if the head company owns or controls another entity operate even if one or more eligible tier-1 companies actually own or control that other entity; and
- (c) provisions operating if an entity is interposed between the head company and another entity operate even if the first entity is actually interposed between an eligible tier-1 company and the other entity.

Note 2: If the MEC joining entity is an eligible tier-1 company, this subsection means the assets of the entity do not have their tax cost reset at the MEC joining time. This is because Subdivision 705-A (and related provisions) reset the tax cost of assets of *subsidiary* members of a group, but not assets of the head company.

(3) The provisions are:

- (a) section 701-10 (about setting the tax cost of assets of an entity joining a group); and
- (b) Subdivision 705-A; and
- (c) any other provision of this Act giving Subdivision 705-A a modified effect in circumstances other than those covered by that Subdivision.

Note: An example of provisions covered by paragraph (c) are the provisions of Subdivision 705-B giving Subdivision 705-A a modified effect when a consolidated group is formed.

719-165 Trading stock value and registered emissions unit value not set for assets of eligible tier-1 companies

- (1) This section applies if an entity (the *MEC joining entity*) becomes a ^{*}subsidiary member of a ^{*}MEC group at a time (the *MEC joining time*).
- (2) Subsection 701-35(4) (setting value of trading stock at tax-neutral amount) does not apply to the assets of the MEC joining entity if it is an ^{*}eligible tier-1 company at the MEC joining time.

^{*}To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (3) Subsection 701-35(5) (setting value of registered emissions unit at tax-neutral amount) does not apply to the assets of the MEC joining entity if it is an *eligible tier-1 company at the MEC joining time.

719-170 Modified effect of subsections 705-175(1) and 705-185(1)

- (1) This section applies if all of the *members of a *MEC group (the ***acquired group***) become members of another MEC group, or of a *consolidated group, at a particular time (the ***acquisition time***) as a result of the *acquisition of *membership interests in:
- (a) the *head company of the acquired group; and
 - (b) other entities that were *eligible tier-1 companies of the acquired group just before the acquisition time.
- (2) Subsections 705-175(1) and 705-185(1) have effect as if a *membership interest in an entity mentioned in paragraph (1)(b) of this section were a membership interest in the *head company of the acquired group.

Note 1: If the *acquiring* group is a MEC group, and the head company of the acquired group becomes an eligible tier-1 company of the *acquiring* group, the assets of the members of the acquired group do *not* have their tax cost reset at the acquisition time. This is because:

- (a) section 719-160 treats an entity becoming an eligible tier-1 company of the *acquiring* group as if it were a part of the head company of that group; and
- (b) section 705-185 treats the subsidiary members of the acquired group as part of the head company of the acquired group.

Note 2: If:

- (a) the *acquiring* group is a MEC group, but the head company of the acquired group does *not* become an eligible tier-1 company of the *acquiring* group; or
- (b) the *acquiring* group is a consolidated group and the acquired group is a MEC group;

the assets of the members of the acquired group have their tax cost reset at the acquisition time (section 719-160 does not preclude tax cost resetting in these cases). For the purposes of resetting the tax cost of those assets, section 705-185 treats the subsidiary members of the acquired group as part of the head company of the acquired group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 719-F—Losses

Guide to Subdivision 719-F

719-250 What this Subdivision is about

This Subdivision modifies the rules about transferring and utilising losses so the rules operate appropriately in relation to MEC groups, taking account of the special characteristics of those groups. The modifications mainly affect:

- (a) rules about maintaining the same ownership to be able to utilise a loss; and
- (b) rules for working out how much of a loss can be utilised by reference to bundles of losses and their available fractions.

Table of sections

Maintaining the same ownership to be able to utilise loss

- 719-255 Special rules
- 719-260 Special test for utilising a loss because a company maintains the same owners
- 719-265 What is the test company?
- 719-270 Assumptions about the test company having made the loss for an income year
- 719-275 Assumptions about nothing happening to affect direct and indirect ownership of the test company
- 719-280 Assumptions about the test company failing to meet the conditions in section 165-12

Same business test and change of head company

- 719-285 Same business test and change of head company

Bundles of losses and their available fractions

- 719-300 Application

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- 719-305 Subdivision 707-C affects utilisation of losses made by ongoing head company while it was head company
- 719-310 Adjustment of available fractions for bundles of losses previously transferred to ongoing head company
- 719-315 Further adjustment of available fractions for all bundles
- 719-320 Limit on utilising losses other than the prior group losses
- 719-325 Cancellation of all losses in a bundle

Maintaining the same ownership to be able to utilise loss

719-255 Special rules

- (1) This section and section 719-260 have effect for the purposes of working out whether a loss can be *utilised for an income year (the ***claim year***) by a company (the ***focal company***) that made the loss if:
 - (a) section 165-12 is relevant to the question whether the focal company can utilise the loss; and
 - (b) the focal company is the *head company of a *MEC group at any time in its *ownership test period for the loss (as affected by section 707-205, if relevant).

Note: If the focal company made the loss because of a transfer under Subdivision 707-A, section 707-205 has the effect that the ownership test period starts for the focal company at the time of the transfer.

Section 707-210 does not have effect

- (2) Section 707-210 does not have effect for the purposes of working out whether the focal company can *utilise the loss for the claim year.

Note: Section 707-210 is about whether a company can utilise a loss it made because the loss was transferred to it under Subdivision 707-A because the transferor met the conditions in section 165-12.

719-260 Special test for utilising a loss because a company maintains the same owners

Meeting the conditions in section 165-12

- (1) The focal company is taken to meet the conditions in section 165-12 for the claim year and the loss if and only if the

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-260

company (the *test company*) identified in relation to the focal company in accordance with section 719-265 would have met those conditions for that year on the relevant assumptions in:

- (a) section 719-270 (which is about assuming the test company made the loss for a particular income year); and
- (b) section 719-275 (which is about assuming that nothing happened in relation to certain things that would affect whether the test company would meet those conditions); and
- (c) section 719-280 (which is about assuming that the test company would have failed to meet those conditions in certain circumstances).

Focal company's failure to meet conditions in section 165-12

- (2) The focal company is taken to fail to meet a condition in section 165-12 only at:
 - (a) the first time the test company would have failed to meet the condition on the relevant assumptions mentioned in subsection (1); or
 - (b) the **test time* described in subsection 166-5(6) for the test company, if:
 - (i) Division 166 is relevant to working out whether the test company could have **utilised* the loss for the claim year on the relevant assumptions mentioned in paragraphs (1)(a) and (b); and
 - (ii) the test company is not assumed under section 719-280 to fail to meet the condition before the test time.

Note: If the focal company is taken to fail to meet a condition in section 165-12, the focal company will not be able to utilise the loss for the claim year unless the focal company meets the condition in section 165-13 by satisfying the same business test. That test applies to the focal company (and not the test company).

Same business test for focal company under Division 166

- (3) If subsection 166-5(5) affects whether the focal company can **utilise* the loss for the claim year because the focal company is a **widely held company* or an **eligible Division 166 company*, or both, during the year, subsection 166-5(6) operates as if it required the **same business test* to be applied to the **business* the focal

***To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

company carried on just before the time described in subsection (2) of this section.

Same business test for focal company to transfer loss

- (4) If subsection 707-125(4) is relevant to working out whether the focal company can transfer the loss to a company under Subdivision 707-A, that subsection:
- (a) has effect as if subsection 707-125(5) described the focal company's income year containing the time at which the focal company is taken under subsection (2) of this section to fail to meet a condition in section 165-12; and
 - (b) has effect despite subsection (3) of this section.

Note: For working out whether certain losses can be transferred under Subdivision 707-A, subsection 707-125(4) modifies the operation of subsection 166-5(6) by extending the same business test period to include the income year described in subsection 707-125(5).

719-265 What is the test company?

- (1) To identify for the purposes of section 719-260 the company that is the test company for the focal company for the loss:
- (a) first, identify the test company for the focal company by applying whichever one of subsections (2), (3), (4) and (6) is relevant; and
 - (b) then, if the condition in column 1 of an item of the table is met, apply this section again to identify the test company as if the company described in column 2 of the item were the focal company, taking account only of things that happened before the event described in column 3 of the item.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Repeated application of this section		
Column 1 If the test company for the focal company is identified:	Column 2 Apply this section again as if this company were the focal company:	Column 3 Take account only of things that happened before this event:
1 Under subsection (2) as the company that is the test company for the transferor	The transferor mentioned in subsection (2)	The transfer mentioned in subsection (2)
2 Under subsection (6) as the company that is the test company for the first head company	The first head company mentioned in subsection (6)	The first head company ceasing to be the *head company of the *MEC group mentioned in subsection (6)

Note: More than 2 applications of this section may be needed to identify the test company for the focal company.

COT transfer of loss to focal company

- (2) The test company for the focal company is the company described in column 2 of the relevant item of the table if the focal company made the loss because of a *COT transfer to the focal company.

Test company for the focal company	
Column 1 If:	Column 2 The test company for the focal company is:
1 The focal company and the transferor are the same company	The focal company
2 The focal company and the transferor are different companies	The company that is the test company for the transferor

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Loss transferred because same business test satisfied

- (3) The test company for the focal company is the company described in column 2 of the relevant item of the table if the focal company made the loss because the loss was transferred under Subdivision 707-A to the focal company from a company because it satisfied the *same business test for:
- (a) the *same business test period; and
 - (b) the *test time specified in Division 165 or 166 or section 707-125.

Test company for the focal company	
Column 1 If:	Column 2 The test company for the focal company is:
1 The focal company was the *head company of a *MEC group at the time of the transfer	The company that was the *top company for the MEC group at the time of the transfer
2 The focal company was <i>not</i> the *head company of a *MEC group at the time of the transfer	The focal company

Loss not transferred from a company

- (4) The test company for the focal company is the company described in column 2 of the relevant item of the table if the focal company made the loss *apart from* a transfer of the loss under Subdivision 707-A from a company.

Test company for the focal company	
Column 1 If:	Column 2 The test company for the focal company is:
1 The focal company made the loss apart from Subdivision 707-A and was the *head company of a *MEC group at the start of the income year for which it made the loss	The company that was the *top company for the MEC group at the start of the income year

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-265

Test company for the focal company	
Column 1 If:	Column 2 The test company for the focal company is:
2 The focal company made the loss because it was transferred under Subdivision 707-A to the focal company as the *head company of a *MEC group from an entity other than a company	The company that was the *top company for the MEC group at the time of the transfer
3 Neither item 1 nor item 2 applies	The focal company

Relationship between subsections (2), (3) and (4)

- (5) Subsection (2) or (3), and *not* subsection (4), is relevant for identifying the test company for the focal company if the focal company made the loss apart from a transfer under Subdivision 707-A, and later transferred the loss to itself under that Subdivision.

Change of head company

- (6) If, under section 719-90, the focal company is taken to have made the loss because:
- (a) a company (the ***first head company***) other than the focal company made the loss apart from that section and either:
 - (i) was the *head company of a *MEC group at any time during the income year for which it made the loss; or
 - (ii) became the head company of a MEC group after that income year (without having been a *subsidiary member of the group before becoming the head company); and
 - (b) the focal company was later the head company of the MEC group;

the test company for the focal company is the company that is the test company for the first head company.

Note: Section 719-90 applies if there is a change in the head company of a MEC group, treating the later head company as if what had happened to the earlier head company had happened to the later head company.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (7) Subsections (2), (3) and (4) and section 719-90 have effect subject to subsection (6) of this section.

719-270 Assumptions about the test company having made the loss for an income year

If test company was top company for focal company's MEC group

- (1) If the test company was the *top company for a *MEC group and the focal company is or was the *head company of that MEC group, assume that the test company made the loss for an income year starting at the relevant time shown in the table.

Start of income year for which test company is assumed to have made loss	
If:	The relevant time is:
1 The focal company made the loss apart from Subdivision 707-A	The start of the income year for which the focal company made the loss
2 The focal company made the loss because it was transferred to the focal company under Subdivision 707-A	The time of the transfer

Note: Subsection (1) applies even if the test company is still the top company for the MEC group at the end of the claim year.

If test company is focal company or first head company

- (2) If the test company is:
- (a) the focal company; or
 - (b) the first head company identified in subsection 719-265(6) by reference to the focal company;
- assume that the test company made the loss for an income year starting at the relevant time shown in the table.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-270

Start of income year for which test company is assumed to have made loss

If:	The relevant time is:
1 The test company made the loss apart from Subdivision 707-A (even if the test company later transferred the loss to itself in a *COT transfer)	The start of the income year for which the test company made the loss
2 The test company made the loss because it was transferred to the test company under Subdivision 707-A in a transfer other than a *COT transfer (even if the test company first made the loss apart from that Subdivision)	The time of the transfer

- (3) If the test company is the first head company, disregard section 719-90 for the purposes of working out the relevant time using the table in subsection (2) of this section.

Note: This ensures that section 719-90 does not make the items in the table inapplicable by treating the test company as if another company had made the loss instead of the test company.

If subsections (1) and (2) do not apply

- (4) If neither subsection (1) nor subsection (2) applies, assume that the test company made the loss for an income year starting at the relevant time shown in the table.

Start of income year for which test company is assumed to have made loss

If:	The relevant time is:
1 The test company made the loss apart from Subdivision 707-A (even if the test company later transferred the loss to itself in a *COT transfer)	The start of the income year for which the test company made the loss
2 The test company made the loss because it was transferred to the test company under Subdivision 707-A in a transfer other than a *COT transfer (even if the test company first made the loss apart from that Subdivision)	The time of the transfer

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Start of income year for which test company is assumed to have made loss

If:	The relevant time is:
3 The test company is the test company for the focal company for the loss because the test company was the *top company for a *MEC group whose *head company made the loss before it was transferred to the focal company under Subdivision 707-A	The time that was the relevant time under subsection (1) for the test company as the test company for the <i>first</i> company for which the test company was the test company for the loss

Note: Subsection (4) applies if the focal company made the loss because of a COT transfer of the loss to the focal company from another company.

- (5) Disregard section 719-90 for the purposes of items 1 and 2 of the table in subsection (4) of this section if the test company was identified using subsection 719-265(6).

Note: This ensures that section 719-90 does not make those items inapplicable by treating the test company as if another company had made the loss instead of the test company.

Other events do not override assumption

- (6) If the test company transferred the loss to itself or another company under Subdivision 707-A, assume that the transfer did not affect, for income years ending after the transfer:
- (a) the fact that the test company made the loss; or
 - (b) the income year for which the test company is assumed (under subsection (1), (2) or (4)) to have made the loss.

719-275 Assumptions about nothing happening to affect direct and indirect ownership of the test company

- (1) This section sets out an assumption that must be made whenever an event described in subsection (2) occurs:
- (a) after the time assumed under section 719-270 to be the start of the income year for which the test company made the loss; and
 - (b) before the end of the claim year;
- (whether or not the test company or the focal company is one of the companies mentioned in the description of the event).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (2) Assume that, after an event described in an item of the table, nothing happens in relation to *membership interests or voting power in an entity described in the item that would affect whether the test company would meet the conditions in section 165-12 for the claim year and the loss.

Assumption about nothing happening to membership interests or voting power	
If this event occurs:	Assume that nothing happens in relation to membership interests or voting power in:
1 There is a *COT transfer of the loss to the *head company of a *MEC group (but not from a company that was the head company of another MEC group just before the transfer)	The transferor or an entity that was at the time of the transfer interposed between the transferor and the *top company for the MEC group
2 There is a *COT transfer of the loss to the *head company of a *MEC group from a company that was the head company of another MEC group just before the transfer	The company that was just before the transfer the *top company for the other MEC group, or an entity that was at the time of the transfer interposed between that company and the top company of the MEC group to whose head company the loss was transferred
3 There is a change in the identity of the *top company for a *MEC group whose *head company has made the loss	The company that ceased to be the top company for the MEC group as part of the change or an entity that was at the time of the change interposed between that company and the company that became the top company for the MEC group as part of the change
4 A company that has made the loss becomes at a time the *head company of a *MEC group (as the first company to be the head company of the group) and has not before that time transferred the loss to another company under Subdivision 707-A	The company or an entity that was at the time interposed between the company and the *top company for the MEC group
5 There is a *COT transfer of the loss to the *head company of a *consolidated group from another company	The other company or an entity that was at the time of the transfer interposed between the other company and the head company

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (3) For the purposes of this section, a company is taken to make a loss:
 - (a) at the *start* of the income year for which the company makes the loss, if it makes the loss apart from a transfer under Subdivision 707-A (even if the company later transfers the loss to itself under that Subdivision); or
 - (b) at the time the loss is transferred to the company under that Subdivision, if the company makes the loss because of that transfer.
- (4) Disregard section 719-90 for the purposes of making an assumption on the basis of item 1 of the table in subsection (2) of this section if (apart from that section):
 - (a) the *COT transfer mentioned in that item was from the *head company of the *MEC group to itself; and
 - (b) for an income year starting after the transfer, another company was the head company of the group.

719-280 Assumptions about the test company failing to meet the conditions in section 165-12

- (1) Assume that the test company fails to meet the conditions in section 165-12 at the time an event described in subsection (2), (3) or (4) happens after the start of the *ownership test period for the focal company in relation to:
 - (a) the *MEC group whose *head company was the focal company; or
 - (b) the *potential MEC group whose membership was the same as the membership of that MEC group.

Note: If the test company is assumed to fail to meet the conditions in section 165-12 for the claim year and the loss, the focal company is taken (under section 719-260) to have failed to meet those conditions.

- (2) One event is the *potential MEC group ceasing to exist.
- (3) Another event is something happening that meets these conditions:
 - (a) the thing happens at a time in relation to *membership interests in one or more of these entities:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-285

- (i) a company that was just before that time a *member of the *MEC group and an *eligible tier-1 company of the *top company for the MEC group;
 - (ii) an entity interposed between a company described in subparagraph (i) and the company that was the top company for the group just before that time;
 - (b) the thing does not cause the *potential MEC group to cease to exist but does cause a change in the identity of the top company for the potential MEC group.
- (4) Another event is the *MEC group ceasing to exist because there ceases to be a *provisional head company of the group.

Other causes of failure to meet conditions in section 165-12

- (5) To avoid doubt, this section does not limit the circumstances in which the test company would have failed to meet the conditions in section 165-12 on the relevant assumptions set out in sections 719-270 and 719-275.

Same business test and change of head company

719-285 Same business test and change of head company

In working out whether the *same business test is satisfied by a company that, after the *test time, became the *head company of a *MEC group that existed before that time, disregard what happened in relation to the company before it became a *member of the group. Section 719-90 has effect subject to this section.

Note 1: The same business test is to be applied on the basis that the company's business at the test time was the business that section 719-90 treats the company as having carried on at that time, except to the extent that section 719-90 attributes to the company its actual history before it became a member of the MEC group.

Note 2: Section 719-90 applies if there is a change in the head company of a MEC group, treating the later head company as if what had happened to the earlier head company had happened to the later head company.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Bundles of losses and their available fractions

719-300 Application

- (1) Sections 719-305, 719-310, 719-315, 719-320 and 719-325 operate only if:
 - (a) a company (the *ongoing head company*) is the *head company of a *MEC group for an income year or a period in an income year; and
 - (b) an event (the *application event*) described in subsection (2) or (3) happens at a time in the income year in relation to the group.
- (2) One application event is that another company (the *new tier-1 member*) becomes both a *member of the *MEC group and an *eligible tier-1 company of the *top company for the group.
- (3) The other application event is that the *MEC group comes into existence as a result of a *special conversion event happening to the *potential MEC group derived from the ongoing head company.

Note: This application event happens only if the ongoing head company was the head company of a consolidated group just before the special conversion event.

Exceptions for events involving subsidiary members of group

- (4) Those sections do not operate because of the event described in subsection (2) if the new tier-1 member was a *subsidiary member of the *MEC group immediately before the event.
- (5) Those sections do not operate because of the event described in subsection (3) if all the other companies that are described in paragraph 719-40(1)(c) and are involved in the *special conversion event were *subsidiary members of the *consolidated group just before the event.
- (6) Subsections (4) and (5) have effect despite subsection (1).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

719-305 Subdivision 707-C affects utilisation of losses made by ongoing head company while it was head company

- (1) For income years ending after the application event happened, Subdivision 707-C affects the *utilisation of all losses (the **prior group losses**) of any *sort that the ongoing head company made (apart from Subdivision 707-A) for an income year that:
 - (a) was an income year during which the *MEC group was in existence (or, if the application event involved the MEC group coming into existence because of a *special conversion event involving a *consolidated group, the consolidated group was in existence); and
 - (b) was before the income year in which the event happened.

Prior group losses taken to have been transferred at time of event

- (2) The ongoing head company is taken to have transferred the prior group losses to itself under Subdivision 707-A at the time of the application event, for the purposes of:
 - (a) the application of Subdivision 707-C in relation to the *utilisation of the prior group losses and other losses; and
 - (b) future applications of this section and section 719-310.

Available fraction for bundle of losses

- (3) For the purpose of working out the *available fraction for the *bundle of the prior group losses at the time of the transfer, work out the ongoing head company's *modified market value at the time of the application event as if:
 - (a) the ongoing head company had become a *member of a *consolidated group at the time; and
 - (b) each *subsidiary member of the MEC group or consolidated group of which the ongoing head company was the *head company just before the event were a part of the ongoing head company (and not a separate entity) at the time of the event; and
 - (c) each subsidiary member of that group at an earlier time had been a part of the ongoing head company (and not a separate entity) at the earlier time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Deemed transfer does not affect year of loss

- (4) Subdivision 707-C affects the *utilisation as if each of the prior group losses had been made by the ongoing head company for the income year for which the company actually made the loss (and not the income year in which the application event happened). Subsection (2) has effect subject to this subsection.

719-310 Adjustment of available fractions for bundles of losses previously transferred to ongoing head company

- (1) This section affects the *available fraction for each *bundle of losses that were transferred to the ongoing head company under Subdivision 707-A before the application event.
- (2) The *available fraction* for the *bundle is reduced or maintained just after the event by multiplying it by this fraction:

$$\frac{\text{*Market value of the ongoing head company just before the application event}}{\text{*Market value of the ongoing head company just after the application event}}$$

Note: The market value of the ongoing head company at the time just before or just after the application event will be worked out on the basis that subsidiary members of the MEC group or consolidated group headed by the ongoing head company at that time are part of the ongoing head company, because of section 701-1 (the single entity rule).

- (3) Item 3 of the table in subsection 707-320(2) does *not* apply to affect the *available fraction for the *bundle because of:
- (a) the transfer mentioned in section 719-305; or
 - (b) the transfer (if any) to the ongoing head company of a loss of any *sort under Subdivision 707-A at the time of the application event from an entity that became a *subsidiary member of the *MEC group as a result of the event.

719-315 Further adjustment of available fractions for all bundles

- (1) If, because of the application event:
- (a) there is under section 719-305 an *available fraction for the *bundle of prior group losses; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-320

- (b) section 719-310 affects the available fraction for one or more other bundles of losses;
this section affects the available fraction for *every* one of those bundles.
- (2) The **available fraction** (as affected by section 719-305 or 719-310) is reduced by multiplying it by this fraction:
- $$\frac{\text{*Available fraction for the *bundle of prior group losses}}{\text{Sum of the *available fraction for every *bundle of losses whose available fraction is affected by this section}}$$
- (3) For the purposes of working out the fraction in subsection (2), use the value of an *available fraction for a *bundle of losses apart from:
- (a) this section; and
 - (b) if item 5 of the table in subsection 707-320(2) would apply as a result of the calculation of the available fraction in accordance with section 719-305 or 719-310—that item.

719-320 Limit on utilising losses other than the prior group losses

- (1) This section has effect for the purposes of working out how much of the losses, other than prior group losses, in a *bundle the ongoing head company can *utilise for the income year in which the application event happens.
- (2) For the purposes of subsection 707-310(3), the prior group losses are to be treated as if they had *not* been transferred under Subdivision 707-A, to the extent to which the ongoing head company can *utilise them for the income year because they are treated as being included in a *bundle whose available fraction was 1 from the start of the income year until the time of the application event.
- (3) This section is a matter that is relevant for the purposes of paragraph 707-335(3)(f), if section 707-335 applies to the ongoing head company's *utilisation of the losses in the *bundle for the income year.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note: That section applies to a company's utilisation for an income year of losses in a bundle if the losses are transferred under Subdivision 707-A after the start of the year or if the value of the available fraction for the bundle changes during the year while the company is treated as having made the losses because of that Subdivision.

(4) Section 719-305 has effect subject to this section.

719-325 Cancellation of all losses in a bundle

- (1) The ongoing head company:
 - (a) may choose to cancel all the losses in the *bundle of prior group losses; and
 - (b) may choose to cancel all the losses in a *bundle of losses to which section 719-310 applies.
- (2) If the ongoing head company chooses to cancel all the losses in a *bundle, subsections (3), (4), (5), (6) and (7) operate.
- (3) The ongoing head company cannot *utilise for the income year in which the application event happened more of the losses than it would have been able to utilise under Subdivision 707-C assuming:
 - (a) if the losses are prior group losses:
 - (i) the losses were in a *bundle for the income year; and
 - (ii) the *available fraction for the bundle were 1 for the period from the start of the income year until the event happened; and
 - (b) in any case—the available fraction for the bundle including the losses were 0 from the time of the event until the end of the income year.

Note: Section 707-335 is relevant to working out how much of the losses could be utilised, because the value of the available fraction for the bundle changes during the period described in that section.

- (4) The ongoing head company cannot:
 - (a) transfer the losses to another company under Division 170 for an income year ending after the application event; or
 - (b) transfer the losses to another company under Subdivision 707-A after the application event.

This subsection has effect despite subsection (3).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-425

- (5) Disregard the existence of the *bundle at and after the time of the application event for the purposes of working out the *available fraction for another *bundle of losses.
- (6) The losses cannot be *utilised by any entity for an income year starting after the application event.
- (7) The choice cannot be revoked.

Subdivision 719-H—Imputation issues

719-425 Guide to Subdivision 719-H

This Subdivision deals with some imputation issues in relation to MEC groups.

Table of sections

Operative provisions

- 719-430 Transfer of franking account balance on cessation event
- 719-435 Distributions by subsidiary members of MEC group taken to be distributions by head company

Operative provisions

719-430 Transfer of franking account balance on cessation event

- (1) This section operates if:
 - (a) a *cessation event happens to the *provisional head company of a *MEC group (the *former head company*); and
 - (b) another company (the *new head company*) is appointed as the provisional head company of the group under subsection 719-60(3).
- (2) When the new head company is appointed:
 - (a) the *franking account of the former head company ceases to operate; and
 - (b) the new head company has a franking account; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (c) any *franking surplus or *franking deficit in the franking account of the former head company just before the *cessation event happened becomes that of the new head company.

719-435 Distributions by subsidiary members of MEC group taken to be distributions by head company

- (1) Part 3-6 operates as if a *frankable distribution made by an *eligible tier-1 company that:
 - (a) is a member of a *MEC group; and
 - (b) is not the *provisional head company of the group;had been made by the provisional head company of the group to a *member of the provisional head company.

Note: Part 3-6 deals with imputation.

- (2) Part 3-6 operates as if a *frankable distribution made by a *subsidiary member of a *MEC group (the ***foreign-held subsidiary***) that is not an *eligible tier-1 company were a frankable distribution made by the *head company of the group to a *member of the head company if:
 - (a) the foreign-held subsidiary meets the set of requirements in section 703-45, section 701C-10 of the *Income Tax (Transitional Provisions) Act 1997* or section 701C-15 of that Act; and
 - (b) the frankable distribution is made to a foreign resident.

Subdivision 719-I—Bad debts

Guide to Subdivision 719-I

719-450 What this Subdivision is about

The head company of a MEC group is taken to meet the conditions in section 165-123 (about maintaining the same ownership in an ownership test period to be able to deduct a bad debt) if and only if the top company for the group at the start of the period meets those conditions for the period.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Table of sections

Maintaining the same ownership to be able to deduct bad debt

- 719-455 Special test for deducting a bad debt because a company maintains the same owners
- 719-460 Assumptions about nothing happening to affect direct and indirect ownership of the test company
- 719-465 Assumptions about the test company failing to meet the conditions in section 165-123

Maintaining the same ownership to be able to deduct bad debt

719-455 Special test for deducting a bad debt because a company maintains the same owners

- (1) This section has effect for the purposes of working out whether the *head company of a *MEC group:
- (a) can deduct a debt it writes off as bad; or
 - (b) could have deducted a debt as described in subsection 709-215(2).

- Note: Whether the head company of the MEC group could have deducted a debt as described in subsection 709-215(2) is relevant under Subdivision 709-D to:
- (a) the question whether the head company can deduct the debt it writes off as bad, or the swap loss it makes in extinguishing the debt as part of a debt/equity swap, after the debt was owed to an entity while the entity was not a member of the MEC group; and
 - (b) the question whether an entity that was owed the debt after it was owed to the head company can deduct the amount of the debt the entity writes off as bad or the swap loss the entity makes in extinguishing the debt as part of a debt/equity swap.

- (2) The *head company is taken to meet the conditions in section 165-123 (about the company maintaining the same owners) for the *ownership test period if and only if the company (the **test company**) that was the *top company for the *MEC group at the start of the same period would have met those conditions for that period on the assumptions in the following sections (if applicable):
- (a) section 719-460 (which is about assuming that nothing happened in relation to certain things that would affect whether the test company would meet those conditions);

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) section 719-465 (which is about assuming that the test company would have failed to meet those conditions in certain circumstances).

Note 1: Even though subsection (2) of this section raises the issue whether the test company meets the conditions in section 165-123, that is determined by reference to:

- (a) the ownership test period for the head company of the MEC group; and
- (b) the debt owed to the head company.

Note 2: If this section is applying for the purposes of working out whether the head company could have deducted a debt as described in subsection 709-215(2), section 709-215 affects what is the ownership test period for the purposes of section 165-123 as it applies for those purposes.

Head company's failure to meet conditions in section 165-123

- (3) The *head company is taken to fail to meet a condition in section 165-123 only at:
- (a) the first time the test company would have failed to meet the condition on the relevant assumptions mentioned in subsection (2); or
 - (b) the *test time described in section 166-40 for the test company, if:
 - (i) Division 166 is relevant to working out whether the test company met the conditions in section 165-123 on the relevant assumption mentioned in paragraph (2)(a); and
 - (ii) the test company is not assumed under section 719-465 to fail to meet the condition before the test time.

Note 1: If the head company is taken to fail to meet a condition in section 165-123, the head company will not be able to deduct the debt unless that company meets the condition in section 165-126 by satisfying the same business test. That test applies to the head company (and not the test company).

Note 2: Section 719-285 may affect whether the head company satisfies the same business test if there has been a change in the identity of the head company of the group during the ownership test period.

Same business test for head company under Division 166

- (4) If section 166-40 directly affects whether the *head company can deduct the debt, the subsection of that section that requires the *same business test be applied to a particular *business operates as

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-460

if it required that test to be applied to the business the head company carried on just before the time described in subsection (3) of this section.

Note: Section 166-40 has an *indirect* effect on whether the head company can deduct the debt so far as that section affects whether the *test* company meets the conditions in section 165-123 and therefore whether the head company is taken to meet those conditions.

719-460 Assumptions about nothing happening to affect direct and indirect ownership of the test company

- (1) This section sets out an assumption that must be made whenever there is a change in the identity of the *top company for the *MEC group during the *ownership test period.
- (2) Assume that after the change nothing happens in relation to *membership interests or voting power in the following entities that would affect whether the test company would meet the conditions in section 165-123:
 - (a) the company that was the *top company for the *MEC group before the change;
 - (b) an entity (if any) that at the time of the change was interposed between:
 - (i) the company that was the top company for the MEC group before the change; and
 - (ii) the company that became the top company for the MEC group as part of the change.

719-465 Assumptions about the test company failing to meet the conditions in section 165-123

- (1) Assume that the test company fails to meet the conditions in section 165-123 at the time an event described in subsection (2), (3) or (4) happens after the start of the *ownership test period in relation to:
 - (a) the *MEC group; or
 - (b) the *potential MEC group whose membership was the same as the membership of the MEC group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note: If the test company is assumed to fail to meet the conditions in section 165-123, the head company of the MEC group is taken (under section 719-455) to have failed to meet those conditions.

- (2) One event is the *potential MEC group ceasing to exist.
- (3) Another event is something happening that meets these conditions:
 - (a) the thing happens at a time in relation to *membership interests in one or more of these entities:
 - (i) a company that was just before that time a *member of the *MEC group and an *eligible tier-1 company of the *top company for the MEC group;
 - (ii) an entity interposed between a company described in subparagraph (i) and the company that was the top company for the group just before that time;
 - (b) the thing does not cause the *potential MEC group to cease to exist but does cause a change in the identity of the top company for the potential MEC group.
- (4) Another event is the *MEC group ceasing to exist because there ceases to be a *provisional head company of the group.

Other causes of failure to meet conditions in section 165-123

- (5) To avoid doubt, this section does not limit the circumstances in which the test company would have failed to meet the conditions in section 165-123.

Subdivision 719-J—MEC group cost setting rules: leaving cases

Guide to Subdivision 719-J

719-500 What this Subdivision is about

When an entity ceases to be a subsidiary member of a MEC group, the tax cost setting amount for the group's membership interests in the entity is worked out in accordance with Division 711 as modified by this Division.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Table of sections

- 719-505 Application and object of this Subdivision
719-510 Modified operation of paragraphs 711-15(1)(b) and (c)

719-505 Application and object of this Subdivision

Application

- (1) This Subdivision applies if the old group mentioned in subsection 711-5(1) is a *MEC group.

Object

- (2) The object of this Subdivision is to modify the rules in Division 711 so that they take account of the special characteristics of *MEC groups.

719-510 Modified operation of paragraphs 711-15(1)(b) and (c)

- (1) This section applies if the leaving entity mentioned in subsection 711-15(1) is a *subsidiary member of the old group that is an *eligible tier-1 company.
- (2) Paragraphs 711-15(1)(b) and (c) apply as if the membership interests mentioned in those paragraphs included *pooled interests in the *eligible tier-1 company.

Note: This subsection means that, in working out tax cost setting amounts for internal interests in the eligible tier-1 company, section 711-15 will allocate part of the old group's allocable cost amount for the eligible tier-1 company to the pooled interests in the company. However, the tax cost of the pooled interests is not set according to section 711-15. Subdivision 719-K contains rules that set the cost of the pooled interests.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 719-K—MEC group cost setting rules: pooling cases

Guide to Subdivision 719-K

719-550 What this Subdivision is about

This Subdivision contains cost setting rules for membership interests in eligible tier-1 companies that are members of a MEC group, where those interests are not held by members of the group.

Table of sections

719-555	Application and object of this Subdivision
719-560	Pooled interests
719-565	Setting cost of reset interests
719-570	Cost setting amount

719-555 Application and object of this Subdivision

Application

- (1) This Subdivision applies if:
- (a) one or more entities hold *pooled interests (the ***reset interests***) in *eligible tier-1 companies that are members of a *MEC group, just before a particular time (the ***trigger time***); and
 - (b) at the trigger time, either or both of these things happen to one or more of those eligible tier-1 companies (the ***trigger companies***):
 - (i) the company ceases to be a member of the group;
 - (ii) a *CGT event happens in relation to one or more reset interests in the company; and
 - (c) the *market value of the reset interests as a whole (including the market value of synergies arising from the combination of those interests) just before the trigger time is more than nil.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-560

Object

- (2) The object of this Subdivision is to set the cost of all reset interests:
 - (a) first, by allocating to each reset interest held in a trigger company so much of the total cost of all reset interests held in members of the group that the *market value of the interest bears to the group's market value; and
 - (b) then, by allocating the remainder of that total cost to all reset interests held in other *eligible tier-1 companies, by dividing that remainder by the number of those interests.

719-560 Pooled interests

- (1) A *pooled interest* in an *eligible tier-1 company that is a member of a *MEC group is a *membership interest in the eligible tier-1 company that is held by an entity that is *not* a member of the group.

Note: A membership interest in the head company of a MEC group can be a pooled interest.

- (2) Despite subsection (1), a *membership interest is *not* a pooled interest if it is:
 - (a) a *share that is disregarded under subsection 719-30(2); or
 - (b) held by an entity only as a nominee of one or more other entities each of which is a member of the group.

719-565 Setting cost of reset interests

CGT provisions—cost base

- (1) If Part 3.1 or 3.3 is to apply in relation to a reset interest, the Part applies as if the interest's *cost base were increased or reduced so that the cost base just before the trigger time equals the cost setting amount worked out under section 719-570.

CGT provisions—reduced cost base

- (2) If Part 3.1 or 3.3 is to apply in relation to a reset interest, the Part applies as if the interest's *reduced cost base were increased or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

reduced so that the reduced cost base just before the trigger time equals the cost setting amount worked out under section 719-570.

Other provisions

- (3) If a provision of this Act (other than Part 3.1 or 3.3) is to apply in relation to a reset interest, the provision applies as if the interest's cost just before the trigger time were equal to the cost setting amount worked out under section 719-570.

719-570 Cost setting amount

Reset interests held in trigger companies—cost setting amount for cost base etc.

- (1) Work out the cost setting amount for the purposes of subsections 719-565(1) and (3) for a reset interest in a trigger company using the formula:

$$\frac{\text{*Market value of the reset interest}}{\text{*Market value of the group}} \times \text{Pooled cost amount}$$

where:

market value of the group is:

- (a) if every *eligible tier-1 company that is a member of the group just before the trigger time is a trigger company—the sum of the *market value (just before the trigger time) of all reset interests in each of those companies; or
(b) otherwise—the amount mentioned in paragraph 719-555(1)(c).

market value of the reset interest is the *market value (just before the trigger time) of all reset interests in that trigger company, in the same class as the interest, divided by the number of reset interests in that company in that class.

pooled cost amount is the sum of the *cost bases (just before the trigger time) of all reset interests.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-570

Reset interests held in other eligible tier-1 companies—cost setting amount for cost base etc.

- (2) Work out the cost setting amount for the purposes of subsections 719-565(1) and (3) for a reset interest that is *not* in a trigger company, using the formula:

$$\frac{\text{Pooled cost amount} - \text{Amount allocated to trigger company interests}}{\text{Number of non-trigger company interests}}$$

where:

amount allocated to trigger company interests is the sum of all cost setting amounts worked out under subsection (1) for the reset interests covered by that subsection.

number of non-trigger company interests is the number of reset interests, other than those covered by subsection (1).

pooled cost amount has the same meaning as in subsection (1).

Cost setting amount for reduced cost base

- (3) Work out the cost setting amount for the purposes of subsection 719-565(2) for a reset interest by applying subsections (1) and (2) of this section in relation to the interest, as if every reference in those subsections to *cost base were a reference to *reduced cost base.

Subdivision 719-T—Interactions between this Part and other areas of the income tax law: special rules for MEC groups

Table of sections

How Subdivision 165-CC applies to MEC groups

719-700 Changeover times under section 165-115C or 165-115D

719-705 Additional changeover times for head company of MEC group

How Subdivision 165-CD applies to MEC groups

719-720 Alteration times under section 165-115L or 165-115M

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- 719-725 Additional alteration times for head company of MEC group
- 719-730 Some alteration times only affect interests in top company
- 719-735 Some alteration times affect only pooled interests
- 719-740 Head company does not have relevant equity or debt interest in a loss company if widely held top company does not have such an interest

How indirect value shifting rules apply to a MEC group

- 719-755 Effect on MEC group cost setting rules if head company is losing entity or gaining entity for indirect value shift

Cancelling loss on realisation event for direct or indirect interest in a subsidiary member of a MEC group

- 719-775 Cancellation of loss
- 719-780 Exception for pooled interests in eligible tier-1 companies
- 719-785 Exception for interests in top company
- 719-790 Exception for interests in entity leaving MEC group
- 719-795 Exception if loss attributable to certain matters

How Subdivision 165-CC applies to MEC groups

719-700 Changeover times under section 165-115C or 165-115D

- (1) This section has effect for the purposes of determining whether a time (the *test time*) is a *changeover time under section 165-115C (about changes in ownership) or 165-115D (about changes in control) in respect of the *head company of a *MEC group.

Modified meaning of reference time

- (2) The *reference time* is:
 - (a) if no *changeover time has occurred in respect of the head company since the group came into existence and before the test time—when the group came into existence; or
 - (b) otherwise—the time just after the last such changeover time.
- (3) Subsection (2) of this section has effect despite subsection 165-115A(2A).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-705

Assumptions to make

- (4) Assume that, while the *MEC group exists:
- (a) the *top company for the group holds and beneficially owns all the *membership interests in the *head company (instead of whoever actually does); and
 - (b) those membership interests remain the same; and
 - (c) the top company directly controls the voting power in the head company.

719-705 Additional changeover times for head company of MEC group

- (1) The time when a *potential MEC group ceases to exist is a ***changeover time*** in respect of the *head company of a *MEC group if, just before that time, the potential MEC group's membership was the same as the membership of the MEC group.

Note: The changeover times in subsections (1), (2) and (3) are based on the events described in subsections 719-280(2), (3) and (4), each of which causes the test company referred to in section 719-280 to be assumed to fail the continuity of ownership test in section 165-12.

- (2) If something:
- (a) happens at a time in relation to *membership interests in one or more of these entities:
 - (i) a company that was just before that time a *member of a *MEC group and an *eligible tier-1 company of the *top company for the MEC group;
 - (ii) an entity interposed between a company described in subparagraph (i) and the company that was the top company for the group just before that time; and
 - (b) does not cause the *potential MEC group whose membership is the same as the membership of the MEC group to cease to exist, but does cause a change in the identity of the top company for the potential MEC group;
- that time is a ***changeover time*** in respect of the *head company of the *MEC group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (3) The time when a *MEC group ceases to exist because there ceases to be a *provisional head company of the group is a *changeover time* in respect of the *head company of the *MEC group.

How Subdivision 165-CD applies to MEC groups

719-720 Alteration times under section 165-115L or 165-115M

- (1) This section has effect for the purposes of determining whether a time (the *test time*) is an *alteration time under section 165-115L (about alterations in ownership) or 165-115M (about alterations in control) in respect of the *head company of a *MEC group.

Modified meaning of reference time

- (2) The *reference time* is:
- (a) if no *alteration time has occurred in respect of the head company since the group came into existence and before the test time—when the group came into existence; or
 - (b) otherwise—the time just after the last such alteration time.
- (3) In applying subsection (2), disregard an *alteration time arising under subsection 719-725(4).
- (4) Subsection (2) of this section has effect despite subsections 165-115L(2) and 165-115M(2).

Assumptions to make

- (5) Assume that, while the *MEC group exists:
- (a) the *top company for the group holds and beneficially owns all the *membership interests in the *head company (instead of whoever actually does); and
 - (b) those membership interests remain the same; and
 - (c) the top company directly controls the voting power in the head company.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

719-725 Additional alteration times for head company of MEC group

Additional alteration times based on section 719-280

- (1) The time when a *potential MEC group ceases to exist is an **alteration time** in respect of the *head company of a *MEC group if, just before that time, the potential MEC group's membership was the same as the membership of the MEC group.

Note: The alteration times in subsections (1), (2) and (3) are based on the events described in subsections 719-280(2), (3) and (4), each of which causes the test company referred to in section 719-280 to be assumed to fail the continuity of ownership test in section 165-12.

- (2) If something:
- (a) happens at a time in relation to *membership interests in one or more of these entities:
 - (i) a company that was just before that time a *member of a *MEC group and an *eligible tier-1 company of the *top company for the MEC group;
 - (ii) an entity interposed between a company described in subparagraph (i) and the company that was the top company for the group just before that time; and
 - (b) does not cause the *potential MEC group whose membership is the same as the membership of the MEC group to cease to exist, but does cause a change in the identity of the top company for the potential MEC group;
- that time is an **alteration time** in respect of the *head company of the *MEC group.

- (3) The time when a *MEC group ceases to exist because there ceases to be a *provisional head company of the group is an **alteration time** in respect of the *head company of the *MEC group.

Additional alteration times based on Subdivision 719-K

- (4) If Subdivision 719-K (MEC group cost setting rules: pooling cases) applies, the time just before the trigger time referred to in paragraph 719-555(1)(a) is an **alteration time** in respect of the *head company of the *MEC group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

719-730 Some alteration times only affect interests in top company

- (1) This section applies if an *alteration time (except one arising under subsection 719-725(4)) happens for the *head company of a *MEC group.
- (2) Sections 165-115ZA and 165-115ZB apply, in relation to the alteration time, to an interest or debt that is, or is part of, a relevant equity interest or relevant debt interest that an entity has in the *head company just before the *alteration time, *only if* the interest or debt is:
 - (a) an *equity or loan interest in the *top company for the MEC group; or
 - (b) an *indirect equity or loan interest in the top company.

Note: Sections 165-115ZA and 165-115ZB are about the consequences that an alteration time for a loss company has for relevant equity interests and relevant debt interests in the company.

- (3) In determining what is a relevant equity interest or relevant debt interest that an entity has in the *head company just before the *alteration time, make the assumptions in subsection 719-720(5).

719-735 Some alteration times affect only pooled interests

- (1) Sections 165-115ZA and 165-115ZB do not apply in relation to an *alteration time that happens for the *head company of a *MEC group because of subsection 719-725(4) (trigger time for MEC group cost setting rules: pooling cases).
- (2) Instead, Subdivision 719-K applies to the *MEC group, in relation to the trigger time, on the basis that:
 - (a) what would, apart from this section, be the pooled cost amount for the purposes of the formulas in subsections 719-570(1) and (2) is reduced by the amount of the *head company's overall loss under section 165-115R or 165-115S at that alteration time; but
 - (b) paragraph (a) of this subsection *only* affects the application of those formulas because of subsection 719-570(3) (to work out the *reduced cost base of a *membership interest).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

719-740 Head company does not have relevant equity or debt interest in a loss company if widely held top company does not have such an interest

- (1) For the purposes of Subdivision 165-CD, treat the *head company of a *MEC group as *not* having a relevant equity interest in a *loss company at a particular time if:
 - (a) the *top company of the group is a *widely held company at that time; and
 - (b) because of subsections 165-115X(2A), (2B) and (2C), the top company does not have a relevant equity interest under section 165-115X in the loss company at that time.
- (2) For the purposes of paragraph (1)(b), disregard the operation of subsection 701-1(1) (the single entity rule) in determining whether subsection 165-115X(2C) has the effect that the *top company has the relevant equity interest mentioned in that paragraph.
- (3) For the purposes of Subdivision 165-CD, treat the *head company of a *MEC group as *not* having a relevant debt interest in a *loss company at a particular time if:
 - (a) the *top company of the group is a *widely held company at that time; and
 - (b) because of subsections 165-115Y(3A), (3B) and (3C), the top company does not have a relevant debt interest under section 165-115Y in the loss company at that time.

How indirect value shifting rules apply to a MEC group

719-755 Effect on MEC group cost setting rules if head company is losing entity or gaining entity for indirect value shift

- (1) This section has effect for the purposes of working out the consequences (if any) of an *indirect value shift if the *losing entity or *gaining entity is the *head company of a *MEC group. (Subsection (3) has effect in addition to section 727-455.)

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (2) An *equity or loan interest can be an *affected interest in the *head company only if it is:
 - (a) an *equity or loan interest in the *top company for the MEC group; or
 - (b) an *indirect equity or loan interest in the top company.
- (3) Subdivision 719-K (MEC group cost setting rules: pooling cases) applies to the *MEC group, in relation to the first time referred to in that Subdivision as a trigger time that happens at or after the *IVS time, on the basis that:
 - (a) what would, apart from this section, be the pooled cost amount for the purposes of the formulas in subsections 719-570(1) and (2) is:
 - (i) if the *head company is the *losing entity—reduced; or
 - (ii) if the head company is the gaining entity—increased; by the amount of the indirect value shift; and
 - (b) paragraph (a) of this subsection also affects the application of those formulas because of subsection 719-570(3) (to work out the *reduced cost base of a *membership interest).

Cancelling loss on realisation event for direct or indirect interest in a subsidiary member of a MEC group

719-775 Cancellation of loss

- (1) This section reduces to nil a loss that would otherwise be *realised for income tax purposes by a *realisation event that happens to an *equity or loan interest (the ***realised interest***) in an entity (the ***first entity***) when it is owned by another entity (the ***owner***), if the conditions in subsections (2) and (4) are met.
- (2) The first condition is that, at some time during the period (the ***ownership period***) when the owner owned the realised interest:
 - (a) the first entity was a *subsidiary member of a *MEC group (except an *eligible tier-1 company), and the owner was *not* a *member of the group; or
 - (b) the realised interest was an *external indirect equity or loan interest in a subsidiary member of a MEC group (except an eligible tier-1 company); or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (c) the realised interest was an *equity or loan interest in an entity that, at that time:
 - (i) owned an equity or loan interest in a subsidiary member of a MEC group (except an eligible tier-1 company); and
 - (ii) was *not* a member of the group; or
 - (d) the realised interest was an equity or loan interest in an entity that owned at that time an external indirect equity or loan interest in a subsidiary member of a MEC group (except an eligible tier-1 company); or
 - (e) the realised interest was an equity or loan interest, or an *indirect equity or loan interest, in an eligible tier-1 company that was a member of a MEC group at that time.
- (3) An *equity or loan interest in an entity (the *test entity*) is an ***external indirect equity or loan interest*** in a *subsidiary member of a *MEC group if, and only if, neither the owner of the interest nor the test entity is a member of the group and:
- (a) the test entity owns an equity or loan interest in the subsidiary member; or
 - (b) the test entity owns an equity or loan interest that is an external indirect equity or loan interest in the subsidiary member because of one or more other applications of this subsection.
- (4) The second condition is that, at the same or a different time during the ownership period:
- (a) the owner was, or *controlled (for value shifting purposes), the *head company of a *MEC group because of which the first condition is satisfied; or
 - (b) the owner was an *associate of an entity that, at the same or a different time during the ownership period, was, or controlled (for value shifting purposes), the head company of such a MEC group.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

719-780 Exception for pooled interests in eligible tier-1 companies

The first condition in section 719-775 cannot be satisfied, because of a *MEC group, at a time when the realised interest was a *pooled interest in an *eligible tier-1 company that is a member of the group.

719-785 Exception for interests in top company

The first condition in section 719-775 cannot be satisfied, because of a *MEC group, at a time when:

- (a) the first entity was the *top company for the MEC group; or
- (b) the realised interest was an *indirect equity or loan interest in the top company for the MEC group.

719-790 Exception for interests in entity leaving MEC group

Membership interests in leaving entity

(1) If:

- (a) the realised interest is a *membership interest; and
- (b) during the ownership period the first entity ceased to be a *subsidiary member of a *MEC group;

the first condition in section 719-775 cannot be satisfied, because of that MEC group, at a time when the first entity was a member of the group, unless the interest needed to be disregarded under section 719-30 (about employee shares) in order for the first entity to be a member of the group at that time.

Liabilities owed by leaving entity

(2) If the realised interest:

- (a) consists of a liability owed by the first entity to the owner; and
- (b) became an asset of the owner because subsection 701-1(1) (the single entity rule) ceased to apply to the first entity when it ceased to be a *subsidiary member of a *MEC group;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 719-795

the first condition in section 719-775 cannot be satisfied, because of that MEC group, at a time when the first entity was a member of the group.

719-795 Exception if loss attributable to certain matters

- (1) The loss is not reduced if all of it can be shown to be attributable to things other than these:
 - (a) something that would be reflected in what would, apart from this Part, be an overall loss under section 165-115R or 165-115S, of a *member of a *MEC group (an *excluded group*) because of which the first condition in section 719-775 is satisfied, at an *alteration time for that member;
 - (b) an *indirect value shift for which, apart from this Part, a member of an excluded group would be the *losing entity or the *gaining entity.
- (2) If only part of the loss can be shown to be attributable to things other than the ones listed in subsection (1), the loss is reduced to the amount of that part.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Division 721—Liability for payment of tax where head company fails to pay on time

Guide to Division 721

721-1 What this Division is about

If the head company of a consolidated group fails to meet an income tax related liability by the time it becomes due and payable, entities that were subsidiary members of the group during the period to which the liability relates can also be responsible for all or part of the liability.

Table of sections

Object

721-5 Object of this Division

When this Division operates

721-10 When this Division operates

Joint and several liability of contributing member

721-15 Head company and contributing members jointly and severally liable to pay group liability

721-17 Notice of joint and several liability for general interest charge

721-20 Limit on liability where group first comes into existence

Tax sharing agreements

721-25 When a group liability is covered by a tax sharing agreement

721-30 TSA contributing members liable for contribution amounts

721-32 Notice of general interest charge liability under TSA

721-35 When a TSA contributing member has left the group clear of the group liability

721-40 TSA liability and group liability are linked

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 721-5

Object

721-5 Object of this Division

The object of this Division is to secure the payment of certain tax liabilities of the *head company of a *consolidated group where the head company fails to meet all of those liabilities by the time they become due and payable. Accordingly:

- (a) if a relevant liability is *not* covered by a tax sharing agreement—this Division provides for a process to make certain entities that were *subsidiary members of the group for at least part of the period to which each tax liability relates jointly and severally liable with the head company for those liabilities; or
- (b) if a relevant liability is covered by a tax sharing agreement—this Division:
 - (i) provides for a process to make each of those entities liable for the amount determined under the agreement in relation to the liability; but
 - (ii) exempts an entity from a liability determined under the agreement if it leaves the group in certain circumstances.

When this Division operates

721-10 When this Division operates

- (1) This Division operates if:
 - (a) a *tax-related liability mentioned in subsection (2) (a ***group liability***) of the *head company of a *consolidated group was not paid or otherwise discharged in full by the time the liability became due and payable (the ***head company's due time***); and
 - (b) one or more entities (the ***contributing members***) were *subsidiary members of the group for at least part of the period to which the group liability relates.

Note: This Division operates even if some or all of the contributing members were no longer members of the group at the head company's due time.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (2) The following table lists the *tax-related liabilities for the purposes of paragraph (1)(a) and the periods to which each of those liabilities relate:

Tax-related liabilities of the head company and the periods to which they relate		
Item	The tax-related liability of the head company that becomes due and payable as specified in this provision relates to this period
3	section 5-5 of the <i>Income Tax Assessment Act 1997</i> (income tax, and other amounts treated in the same way as income tax under that section)	the *financial year to which the income tax etc. relates
5	section 197-70 of the <i>Income Tax Assessment Act 1997</i> (untainting tax)	the *franking period of the *head company in which the *untainting tax became due and payable
10	subsection 214-150(1) of the <i>Income Tax Assessment Act 1997</i> (franking tax)	the income year to which the *franking tax relates
15	subsection 214-150(2) of the <i>Income Tax Assessment Act 1997</i> (franking tax—part year assessment)	the particular period mentioned in subsection 214-70(1) to which the *franking tax relates
20	subsection 214-150(3) of the <i>Income Tax Assessment Act 1997</i> (franking tax—amended assessments otherwise than because of deficit deferral)	the income year (or particular period mentioned in subsection 214-70(1)) to which the *franking tax relates
22	subsection 214-150(4) of the <i>Income Tax Assessment Act 1997</i> (franking tax—deficit deferral)	the income year (or particular period mentioned in subsection 214-70(1)) to which the *franking deficit tax relates
30	section 45-61 in Schedule 1 to the <i>Taxation Administration Act 1953</i> (quarterly *PAYG instalment)	the *instalment quarter to which the *instalment relates

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules**Part 3-90** Consolidated groups**Division 721** Liability for payment of tax where head company fails to pay on time

Section 721-10

Tax-related liabilities of the head company and the periods to which they relate		
Item	The tax-related liability of the head company that becomes due and payable as specified in this provision relates to this period
35	section 45-70 in Schedule 1 to the <i>Taxation Administration Act 1953</i> (annual *PAYG instalment)	the income year to which the *instalment relates
40	section 8AAE of the <i>Taxation Administration Act 1953</i> (general interest charge)	the period provided for in this table for the *tax-related liability to which the general interest charge relates
45	subsection 45-230(4) in Schedule 1 to the <i>Taxation Administration Act 1953</i> (general interest charge on shortfall in quarterly instalment worked out on basis of varied rate)	the *instalment quarter to which the general interest charge relates
50	subsection 45-232(5) in Schedule 1 to the <i>Taxation Administration Act 1953</i> (general interest charge on shortfall in quarterly instalment worked out on basis of estimated benchmark tax)	the *instalment quarter to which the general interest charge relates
55	subsection 45-235(5) in Schedule 1 to the <i>Taxation Administration Act 1953</i> (general interest charge on shortfall in annual instalment)	the income year to which the general interest charge relates
60	subsection 45-875(2) in Schedule 1 to the <i>Taxation Administration Act 1953</i> (head company's liability to GIC on shortfall in quarterly instalment)	the *instalment quarter to which the general interest charge relates
65	if an administrative penalty of a kind mentioned in section 284-75, 284-145, 286-75 or 288-25 in Schedule 1 to the <i>Taxation Administration Act 1953</i> relates only to another *tax-related liability mentioned in this table—section 298-15 in that Schedule	the period provided for in this table for the *tax-related liability to which the penalty relates

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Tax-related liabilities of the head company and the periods to which they relate		
Item	The tax-related liability of the head company that becomes due and payable as specified in this provision relates to this period
70	Division 280 in Schedule 1 to the <i>Taxation Administration Act 1953</i> (shortfall interest charge)	the period provided for in this table for the *tax-related liability to which the shortfall interest charge relates
75	section 50-5 of the <i>Minerals Resource Rent Tax Act 2012</i> (when assessed MRRT is payable)	the *MRRT year to which the *assessed MRRT relates
80	section 50-10 of the <i>Minerals Resource Rent Tax Act 2012</i> (shortfall interest charge on shortfall in assessed MRRT)	the *MRRT year to which the *shortfall interest charge relates
85	section 115-25 in Schedule 1 to the <i>Taxation Administration Act 1953</i> (when MRRT instalments are due)	the *instalment quarter to which the instalment relates
95	subsection 82(1) or (2) of the <i>Petroleum Resource Rent Tax Assessment Act 1987</i> (when tax assessed under that Act is payable)	the year of tax (within the meaning of that Act) to which the tax assessed under that Act relates
100	subsection 82(3) of the <i>Petroleum Resource Rent Tax Assessment Act 1987</i> (shortfall interest charge on shortfall in tax assessed under that Act)	the year of tax (within the meaning of that Act) to which the *shortfall interest charge relates
105	section 95 of the <i>Petroleum Resource Rent Tax Assessment Act 1987</i> (when instalment of tax is payable)	the instalment period (within the meaning of that Act) in relation to the instalment
110	subsection 98C(4) of the <i>Petroleum Resource Rent Tax Assessment Act 1987</i> (when instalment transfer interest charge is due)	the instalment transfer charge period (within the meaning of that Act) in relation to the charge

- Note: The other amounts referred to in item 3 of the table are:
- (a) interest payable under section 102AAM of the *Income Tax Assessment Act 1936* (distributions from certain non-resident trust estates); and
 - (b) tax payable under section 159GZZZZH of that Act (Tax payable where infrastructure borrowing certificate cancelled).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 721-15

- (3) Item 30 of the table in subsection (2) is taken not to include a *PAYG instalment of the *head company if the Commissioner gave the head company its *initial head company instalment rate after the end of the *instalment quarter of the head company to which the PAYG instalment relates.
- (4) Items 75, 80 and 85 of the table in subsection (2) apply in relation to tax-related liabilities that are due and payable by the *head company because it chooses, under section 215-10 of the *Minerals Resource Rent Tax Act 2012*, to apply Division 215 of that Act in relation to the *consolidated group.
- (5) Items 95, 100, 105 and 110 of the table in subsection (2) only apply in relation to tax-related liabilities that are due and payable by the *head company because it chooses, under section 58N of the *Petroleum Resource Rent Tax Assessment Act 1987*, to apply Division 8 of Part V of that Act in relation to the *consolidated group.

Joint and several liability of contributing member

721-15 Head company and contributing members jointly and severally liable to pay group liability

- (1) The following are jointly and severally liable to pay the group liability:
 - (a) the *head company; and
 - (b) each contributing member (other than a contributing member excluded by subsection (2)).

Note: A group liability is a tax-related liability in relation to the head company and each contributing member. For rights of contribution in respect of such a liability, see subsection 265-45(2) in Schedule 1 to the *Taxation Administration Act 1953*.

- (2) For the purposes of paragraph (1)(b), a contributing member is excluded by this subsection if it is, at the head company's due time, prohibited according to the effect of an *Australian law from entering into any arrangement under which the entity becomes subject to a liability referred to in subsection (1).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (3) Subsection (1) does not operate if the group liability is covered by a tax sharing agreement (see section 721-25).
- (3A) Subsection (1) is taken never to have made a particular contributing member jointly and severally liable to pay the group liability if:
- (a) the group liability was taken never to have been covered by the tax sharing agreement because of subsection 721-25(3); and
 - (b) the Commissioner gave the contributing member written notice of the group liability under subsection (5); and
 - (c) apart from the operation of subsection 721-25(3), the contributing member left the group clear of the group liability in accordance with section 721-35; and
 - (d) the contributing member gave the Commissioner a copy of the tax sharing agreement (that is, the relevant agreement mentioned in paragraph 721-25(1)(a)) in the *approved form; and
 - (e) if the Commissioner gave the contributing member written notice of the group liability under subsection (5) (ignoring subsection 721-17(2))—the contributing member gave that copy of the agreement to the Commissioner within 14 days after that notice was given.
- (4) The joint and several liability of the contributing members under subsection (1) arises just after the *head company's due time.
- (5) The joint and several liability of a particular contributing member under subsection (1) becomes due and payable by the member 14 days after the Commissioner gives the member written notice under this subsection of the liability.

Note 1: If the Commissioner gives this notice to one contributing member, and gives this notice to another contributing member on another day, the 2 contributing members will have different due and payable dates for the same liability.

Note 2: This section does not affect the time at which the group liability arose for, or became due and payable by, the head company.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 721-17

- (5A) Despite subsection (5), if the group liability is *general interest charge for a day, the joint and several liability of a particular contributing member under subsection (1) becomes due and payable by the member at the end of the day on which the Commissioner gives the member written notice of the liability under subsection (5).
- (6) To the extent that the contributing members' liability under subsection (1) is not a liability for income tax, that liability is to be treated as a liability for income tax for the purposes of section 254 of the *Income Tax Assessment Act 1936*.

721-17 Notice of joint and several liability for general interest charge

- (1) This section operates if:
 - (a) the group liability is *general interest charge for a day in relation to another liability (the *primary liability*); and
 - (b) the Commissioner gives a particular contributing member written notice under subsection 721-15(5) of the group liability; and
 - (c) general interest charge arises for a subsequent day in relation to the primary liability; and
 - (d) the general interest charge for the subsequent day has not been paid or otherwise discharged in full by the time it became due and payable.
- (2) The Commissioner is taken to have given the contributing member written notice under subsection 721-15(5) of the *general interest charge for the subsequent day. The notice is taken to have been given on that day.

721-20 Limit on liability where group first comes into existence

- (1) This section operates if the group came into existence during the period to which a group liability relates.
- (2) The contributing members' liability under subsection 721-15(1) to pay the group liability is limited to the proportion of the group liability that is reasonably attributable to the period:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (a) beginning at the time the group came into existence; and
- (b) ending at the time when the period to which the group liability relates ends.

Tax sharing agreements

721-25 When a group liability is covered by a tax sharing agreement

- (1) For the purposes of this Division, a group liability is covered by a tax sharing agreement if, just before the head company's due time:
 - (a) an agreement existed between the *head company of the group and one or more of the contributing members (the *TSA contributing members*); and
 - (b) a particular amount (the *contribution amount*) could be determined under the agreement for each TSA contributing member in relation to the group liability; and
 - (c) the contribution amounts for each of the TSA contributing members in relation to the group liability, as determined under the agreement, represented a reasonable allocation of the total amount of the group liability among the head company and the TSA contributing members; and
 - (d) the agreement complied with the requirements (if any) set out in the regulations.
- (1A) The requirement in paragraph (1)(c) is taken to be satisfied if:
 - (a) the group liability is a *tax-related liability mentioned in item 3 of the table in subsection 721-10(2) in relation to an income year; and
 - (b) before, at or after the head company's due time, the *head company of the group became entitled to either or both of the following:
 - (i) a credit under section 45-30 in Schedule 1 to the *Taxation Administration Act 1953* for that income year;
 - (ii) a credit under section 45-865 in Schedule 1 to that Act for that income year; and
 - (c) just before the head company's due time, the contribution amounts for each of the TSA contributing members in relation to the group liability, as determined under the agreement, represented a reasonable allocation among the

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 721-25

head company and the TSA contributing members of the difference between:

- (i) the total amount of the group liability; and
- (ii) the amount of the credit, or the sum of the credits, mentioned in paragraph (b).

(1AA) The requirement in paragraph (1)(c) is also taken to be satisfied if:

- (a) the group liability is a ^{*}tax-related liability mentioned in item 75 of the table in subsection 721-10(2) in relation to an ^{*}MRRT year; and
- (b) before, at or after the head company's due time, the ^{*}head company of the group became entitled to a credit under section 115-20 in Schedule 1 to the *Taxation Administration Act 1953* for that MRRT year; and
- (c) just before the head company's due time, the contribution amounts for each of the TSA contributing members in relation to the group liability, as determined under the agreement, represented a reasonable allocation among the head company and the TSA contributing members of the difference between:
 - (i) the total amount of the group liability; and
 - (ii) the amount of the credit mentioned in paragraph (b).

(1B) Despite subsections (1), (1A) and (1AA), the group liability is *not* covered by a tax sharing agreement for the purposes of this Division if, apart from this subsection, the requirements in those subsections in relation to the group liability would be satisfied in relation to 2 or more agreements.

(2) Despite subsections (1), (1A) and (1AA), the group liability is *not* covered by a tax sharing agreement for the purposes of this Division if:

- (a) the agreement mentioned in paragraph (1)(a) was entered into as part of an arrangement; and
- (b) a purpose of the arrangement was to prejudice the recovery by the Commissioner of some or all of the amount of the group liability or liabilities of that kind.

^{*}To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (3) Despite subsections (1), (1A) and (1AA), the group liability is taken never to have been covered by a tax sharing agreement for the purposes of this Division if:
- (a) the Commissioner gives the *head company of the group written notice under this subsection (whether before, at or after the head company's due time) in relation to the group liability; and
 - (b) the notice requires the head company to give the Commissioner a copy of the agreement mentioned in paragraph (1)(a) in the *approved form within 14 days after the notice is given; and
 - (c) the Commissioner does not receive a copy of the agreement by the time required.

Note: If this subsection operates, joint and several liability can arise under section 721-15 in relation to the group liability.

721-30 TSA contributing members liable for contribution amounts

- (1) This section operates if a group liability is covered by a tax sharing agreement.
- (2) Each TSA contributing member is liable to pay to the Commonwealth an amount equal to the contribution amount for that member in relation to the group liability.
- (3) Despite subsection (2), a TSA contributing member is not liable under that subsection if the member left the group clear of the group liability (see section 721-35).
- (4) The liability of a TSA contributing member under subsection (2) arises just after the *head company's due time.
- (5) The liability of a TSA contributing member under subsection (2) becomes due and payable by the member 14 days after the Commissioner gives the member written notice under this subsection of the liability.

Note: This section does not affect the time at which the group liability arose for, or became due and payable by, the head company.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 721-32

- (5A) Despite subsection (5), if the group liability is *general interest charge for a day, the liability of a TSA contributing member under subsection (2) becomes due and payable by the member at the end of the day on which the Commissioner gives the member written notice of the liability under subsection (5).
- (6) The liability of a TSA contributing member under subsection (2) is to be treated as a liability for income tax for the purposes of section 254 of the *Income Tax Assessment Act 1936*.

721-32 Notice of general interest charge liability under TSA

- (1) This section operates if:
 - (a) the group liability is *general interest charge for a day in relation to another liability (the ***primary liability***); and
 - (b) the Commissioner gives a particular TSA contributing member written notice under subsection 721-30(5) of its liability under subsection 721-30(2) in relation to the general interest charge for that day; and
 - (c) general interest charge arises for a subsequent day in relation to the primary liability; and
 - (d) the TSA contributing member is liable under subsection 721-30(2) for an amount in relation to the general interest charge for the subsequent day.
- (2) The Commissioner is taken to have given the TSA contributing member written notice under subsection 721-30(5) of the amount in relation to the *general interest charge for the subsequent day. The notice is taken to have been given on that day.

721-35 When a TSA contributing member has left the group clear of the group liability

For the purposes of subsection 721-30(3), a TSA contributing member left the group clear of the group liability if:

- (a) the TSA contributing member ceased to be a member of the group at a time (the ***leaving time***) before the *head company's due time; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) the cessation of membership was not part of an arrangement, a purpose of which was to prejudice the recovery by the Commissioner of some or all of the amount of the group liability or liabilities of that kind; and
- (c) before the leaving time, the TSA contributing member had paid to the head company:
 - (i) if the contribution amount for that member in relation to the group liability could be determined before the leaving time—an amount equal and attributable to that amount; or
 - (ii) otherwise—an amount that is a reasonable estimate of, and attributable to, that amount.

721-40 TSA liability and group liability are linked

- (1) The liability of a TSA contributing member under subsection 721-30(2) (the ***TSA liability***) is separate and distinct for all purposes from the group liability to which it relates (the ***linked group liability***). For example, the Commissioner may take proceedings to recover the unpaid amount of the TSA liability, proceedings to recover the unpaid amount of the linked group liability, or both.

Note: The TSA contributing member will not be jointly and severally liable for the linked group liability under section 721-15 (see subsection 721-15(3)). However, the head company of the group remains liable for the linked group liability.

Payment or discharge of TSA liability

- (2) If an amount is paid or applied at a particular time towards discharging the TSA liability, the linked group liability is discharged at that time to the extent of the same amount.

Payment or discharge of linked group liability

- (3) If:
 - (a) an amount is paid or applied at a particular time towards discharging the linked group liability; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 721-40

- (b) as a result, the amount unpaid on the TSA liability at that time (apart from this section) exceeds the amount unpaid on the linked group liability at that time;
the TSA liability is discharged at that time to the extent of the excess.
- (4) Subsections (2) and (3) operate in relation to a liability under a judgment (the *judgment liability*):
 - (a) if the judgment liability is for the entire amount unpaid on the TSA liability—as if the judgment liability were the TSA liability; and
 - (b) if the judgment liability is for the entire amount unpaid on the linked group liability—as if the judgment liability were the linked group liability.
- (5) This section does not discharge a liability to a greater extent than the amount of the liability.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Part 3-95—Value shifting

Division 723—Direct value shifting by creating right over non-depreciating asset

Table of Subdivisions

- | | |
|-------|--|
| 723-A | Reduction in loss from realising non-depreciating asset |
| 723-B | Reducing reduced cost base of interests in entity that acquires non-depreciating asset under roll-over |

Subdivision 723-A—Reduction in loss from realising non-depreciating asset

Table of sections

- | | |
|--------|--|
| 723-1 | Object |
| 723-10 | Reduction in loss from realising non-depreciating asset over which right has been created |
| 723-15 | Reduction in loss from realising non-depreciating asset at the same time as right is created over it |
| 723-20 | Exceptions |
| 723-25 | Realisation event that is only a partial realisation |
| 723-35 | Multiple rights created to take advantage of the \$50,000 threshold |
| 723-40 | Application to CGT asset that is also trading stock or revenue asset |
| 723-50 | Effects if right created over underlying asset is also trading stock or a revenue asset |

723-1 Object

The purpose of this Division is to reduce a loss that would otherwise be *realised for income tax purposes by a *realisation event happening to an asset (except a *depreciating asset), to the extent that:

- (a) value has been shifted out of the asset by the owner creating in an associate a right over the asset; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 723-10

- (b) the value shifted was not brought to tax when the right was created and has not since been brought to tax on a realisation of the right.

723-10 Reduction in loss from realising non-depreciating asset over which right has been created

- (1) A loss that would, apart from this Division, be *realised for income tax purposes by a *realisation event is reduced by the amount worked out under subsections (3) and (4) if:
 - (a) the event happens to a *CGT asset (the *underlying asset*) you own that, at the time of the event (the *realisation time*):
 - (i) is *not* a *depreciating asset; or
 - (ii) is an item of your *trading stock; or
 - (iii) is a *revenue asset of yours; and
 - (b) before the realisation time:
 - (i) you created in an *associate of yours; or
 - (ii) an entity covered by subsection (2) (about previous owners of the underlying asset) created in an associate of the entity;
a right in respect of the underlying asset; and
 - (c) immediately before the realisation time, the right is still in existence and is owned by an associate of yours; and
 - (d) a decrease in the underlying asset's *market value is reasonably attributable to the creating of the right; and
 - (e) creating the right involved a *CGT event:
 - (i) whose *capital proceeds are *less* than the market value of the right when created (the difference between those capital proceeds and that market value is called the *shortfall on creating the right*); and
 - (ii) that is *not* a CGT event that happens to some part of the underlying asset but not to the remainder of it; and
 - (f) the shortfall on creating the right is more than \$50,000; and
 - (g) the market value of the underlying asset at the realisation time is less than it would have been if the right no longer existed at that time (the difference is called the *deficit on realisation*).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Note: If subparagraph (1)(e)(ii) applies, the cost base and reduced cost base of the underlying asset is apportioned under section 112-30, so there is no need for this section to apply to the right.

- (2) This subsection covers an entity if:
- (a) the entity *acquired the underlying asset before you did; and
 - (b) there has been a roll-over for each *CGT event (if any) as a result of which an entity (including you) acquired the asset after the first entity acquired it, and before the realisation time; and
 - (c) for each such CGT event (if any), the entity (including you) that acquired the underlying asset as a result of the event was, immediately after the event, an *associate of the entity that last acquired the asset before the event.
- (3) The amount by which this section reduces the loss is the lesser of:
- (a) the shortfall on creating the right; and
 - (b) the deficit on realisation.

However, that amount is reduced by each gain that:

- (c) is *realised for income tax purposes by a *realisation event that happens to the right:
 - (i) before or at the realisation time for the underlying asset; and
 - (ii) at a time when the right is owned by an entity that is your *associate immediately before the realisation time for the underlying asset; and
- (d) is not disregarded.

Note: To work out a gain realised for income tax purposes by a realisation event that happens to the right, see sections 977-15, 977-35, 977-40 and 977-55. If more than one of those sections applies to the right, see section 723-50.

- (4) For each gain that:
- (a) is *realised for income tax purposes by a *realisation event that happens to the right:
 - (i) within 4 years after the realisation time for the underlying asset; and
 - (ii) at a time when the right is owned by an entity that is your *associate immediately before the realisation time for the underlying asset; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 723-15

(b) is not disregarded;
the amount worked out under subsection (3) is taken to have been reduced by the amount of that gain.

Note: This subsection may result in amendment of an assessment for the income year in which the realisation time happens.

723-15 Reduction in loss from realising non-depreciating asset at the same time as right is created over it

- (1) A loss that would, apart from this Division, be *realised for income tax purposes by a *realisation event is reduced by the amount worked out under subsections (2) and (3) if:
- (a) the event happens to a *CGT asset (the *underlying asset*) you own that, at the time of the event (the *realisation time*):
 - (i) is *not* a *depreciating asset; or
 - (ii) is an item of your *trading stock;
 - (iii) is a *revenue asset of yours; and
 - (b) at the realisation time, you create in an *associate of yours a right in respect of the underlying asset; and
 - (c) creating the right involves a *CGT event:
 - (i) whose *capital proceeds are *less* than the *market value of the right when created (the difference between those capital proceeds and that market value is called the *shortfall on creating the right*); and
 - (ii) that is *not* a CGT event that happens to some part of the underlying asset but not to the remainder of it; and
 - (d) the shortfall on creating the right is more than \$50,000; and
 - (e) the market value of the underlying asset at the realisation time is less than it would have been if the right had not been created (the difference is called the *deficit on realisation*).

Note: If subparagraph (1)(c)(ii) applies, the cost base and reduced cost base of the underlying asset is apportioned under section 112-30, so there is no need for this section to apply to the right.

- (2) The amount by which this section reduces the loss is the lesser of:
- (a) the shortfall on creating the right; and
 - (b) the deficit on realisation.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

(3) For each gain that:

- (a) is *realised for income tax purposes by a *realisation event that happens to the right:
 - (i) within 4 years after the realisation time for the underlying asset; and
 - (ii) at a time when the right is owned by an entity that is your *associate immediately before the realisation time for the underlying asset; and
- (b) is not disregarded;

the amount worked out under subsection (2) is taken to have been reduced by the amount of that gain.

Note 1: To work out a gain realised for income tax purposes by a realisation event that happens to the right, see sections 977-15, 977-35, 977-40 and 977-55. If more than one of those sections applies to the right, see section 723-50.

Note 2: This subsection may require amendment of an assessment for the income year in which the realisation time happens.

723-20 Exceptions

Conservation covenant over land

- (1) Section 723-10 or 723-15 does not reduce a loss if:
 - (a) the underlying asset is land; and
 - (b) the right referred to in paragraph 723-10(1)(b) or 723-15(1)(b) is a *conservation covenant over the land.

Right created on death of owner

- (2) Section 723-10 or 723-15 does not reduce a loss if the right referred to in paragraph 723-10(1)(b) or 723-15(1)(b) is created by:
 - (a) a will or codicil; or
 - (b) an order of a court varying or modifying a will or codicil; or
 - (c) a total or partial intestacy; or
 - (d) an order of a court varying or modifying the application of the law about distributing the estate of someone who dies intestate.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

723-25 Realisation event that is only a partial realisation

- (1) Section 723-10 or 723-15 applies differently if:
- (a) a *realisation event happens to some part of a *CGT asset (the *underlying asset*) you own that, at the time of the event:
 - (i) is *not* a *depreciating asset; or
 - (ii) is an item of your *trading stock; or
 - (iii) is a *revenue asset of yours;but not to the remainder of the underlying asset; or
 - (b) a realisation event consists of creating an interest in a CGT asset (also the *underlying asset*) you own that, at the time of the event, is covered by subparagraph (a)(i), (ii) or (iii).
- (2) The section applies on the basis that:
- (a) the *realisation event happens to the underlying asset; and
 - (b) the shortfall on creating the right referred to in paragraph 723-10(1)(e) or 723-15(1)(c); and
 - (c) the deficit on realisation referred to in paragraph 723-10(1)(g) or 723-15(1)(e);
- are each reduced by multiplying its amount by this fraction:

$$\frac{\text{*Market value of part}}{\text{*Market value of underlying asset}}$$

- (3) For the purposes of the formula in subsection (2):

market value of part means the *market value, at the time of the *realisation event, of the part referred to in paragraph (1)(a) or the interest referred to in paragraph (1)(b), as appropriate.

market value of underlying asset means the *market value, immediately before the *realisation event, of the underlying asset.

723-35 Multiple rights created to take advantage of the \$50,000 threshold

- (1) Sections 723-10 and 723-15 apply differently if, having regard to all relevant circumstances, it is reasonable to conclude that the sole or main reason why a right was created as a different right from

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

one or more other rights created in respect of the same thing was so that paragraph 723-10(1)(f) or 723-15(1)(d) would not be satisfied for one or more of the rights mentioned in this subsection.

- (2) Those sections:
- (a) apply to that thing, in relation to each of the rights mentioned in subsection (1) of this section, as if paragraphs 723-10(1)(f) and 723-15(1)(d) were omitted; and
 - (b) are taken always to have so applied.

723-40 Application to CGT asset that is also trading stock or revenue asset

If a *CGT asset you own is also an item of your *trading stock or a *revenue asset, this Division applies to the asset once in its character as a CGT asset and again in its character as trading stock or a revenue asset.

723-50 Effects if right created over underlying asset is also trading stock or a revenue asset

- (1) Subsection 723-10(3) or (4) or 723-15(3) applies differently if the right created in respect of the underlying asset is also *trading stock or a *revenue asset at the time of a *realisation event that happens to the right.
- (2) The gain that is taken into account for the purposes of that subsection is:
 - (a) if the right is also *trading stock—worked out under section 977-35 or 977-40 (about realisation events for trading stock); or
 - (b) if the right is also a *revenue asset—the greater of:
 - (i) the gain worked out under section 977-15 (about realisation events for CGT assets); and
 - (ii) the gain worked out under section 977-55 (about realisation events for revenue assets).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 723-B—Reducing reduced cost base of interests in entity that acquires non-depreciating asset under roll-over

Table of sections

723-105	Reduced cost base of interest reduced when interest realised at a loss
723-110	Direct and indirect roll-over replacement for underlying asset

723-105 Reduced cost base of interest reduced when interest realised at a loss

- (1) The *reduced cost base of a *primary equity interest, *secondary equity interest, or *indirect primary equity interest, in a company or trust is reduced just before a *realisation event that is a *CGT event happens to the interest if:
 - (a) apart from this Division, a loss would be *realised for income tax purposes by the CGT event; and
 - (b) apart from this Division, a loss would have been *realised for income tax purposes by a realisation event if the event had happened, just before the CGT event, to a *CGT asset (the ***underlying asset***) that the company or trust then owned and that:
 - (i) was *not* then a *depreciating asset; or
 - (ii) was then an item of *trading stock of the company or trust; or
 - (iii) was then a *revenue asset of the company or trust; and
 - (c) the loss referred to in paragraph (b) would have been reduced under Subdivision 723-A by an amount (the ***underlying asset loss reduction***); and
 - (d) for the entity (the ***transferor***) that owned the interest just before the CGT event, the interest was a *direct roll-over replacement or *indirect roll-over replacement for the underlying asset.
- (2) If the interest was a *direct roll-over replacement, its *reduced cost base is reduced by the amount worked out using this formula, unless that amount does not appropriately reflect the matters referred to in subsection (4):

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

$$\frac{\text{RCB of interest}}{\text{Total of RCBs of direct roll-over replacements}} \times \text{Underlying asset loss reduction}$$

- (3) For the purposes of the formula in subsection (2):

RCB of interest means the interest's *reduced cost base when the transferor *acquired it.

total of RCBs of direct roll-over replacements means the total of the *reduced cost bases of all *direct roll-over replacements for the underlying asset when the transferor *acquired them.

- (4) If:

- (a) the interest was an *indirect roll-over replacement; or
- (b) the amount worked out under subsection (2) does not appropriately reflect the matters referred to in this subsection; the interest's *reduced cost base is reduced by an amount that is appropriate having regard to these matters:
 - (c) the underlying asset loss reduction; and
 - (d) the quantum of the interest relative to all *direct roll-over replacements and indirect roll-over replacements that the transferor owns or has previously owned.

723-110 Direct and indirect roll-over replacement for underlying asset

- (1) For an entity (the **transferor**) that owns a *CGT asset, the CGT asset is a **direct roll-over replacement** for something (the **underlying asset**) that another entity owns if, and only if:
- (a) a *CGT event happened to the underlying asset while the transferor owned it; and
 - (b) the other entity *acquired the underlying asset as a result of that CGT event; and
 - (c) there was a *replacement-asset roll-over for the CGT event; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (d) the transferor received the CGT asset (or CGT assets including it) in respect of the CGT event as the replacement asset (or the replacement assets).
- (2) For an entity (the *transferor*) that owns a *CGT asset, the CGT asset is an *indirect roll-over replacement* for something (the *underlying asset*) that another entity owns if, and only if:
 - (a) a *CGT event happened to another CGT asset at a time when the transferor owned it and the other entity already owned the underlying asset; and
 - (b) for the transferor, the other CGT asset was at that time:
 - (i) a *direct roll-over replacement for the underlying asset; or
 - (ii) an indirect roll-over replacement for the underlying asset because of any other application or applications of this subsection; and
 - (c) there was a *replacement-asset roll-over for the CGT event; and
 - (d) the transferor received the first CGT asset (or CGT assets including it) in respect of the CGT event as the replacement asset (or the replacement assets).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Division 725—Direct value shifting affecting interests in companies and trusts

Table of Subdivisions

	Guide to Division 725
725-A	Scope of the direct value shifting rules
725-B	What is a direct value shift
725-C	Consequences of a direct value shift
725-D	Consequences for down interest or up interest as CGT asset
725-E	Consequences for down interest or up interest as trading stock or a revenue asset
725-F	Value adjustments and taxed gains

Guide to Division 725

725-1 What this Division is about

If, under a scheme, value is shifted from equity or loan interests in a company or trust to other equity or loan interests in the same company or trust (including interests issued at a discount), this Division:

- (a) adjusts the value of those interests for income tax purposes to take account of material changes in market value that are attributable to the value shift; and
- (b) treats the value shift as a partial realisation to the extent that value is shifted between interests held by different owners, and in some other cases.

However, it does so only for interests that are owned by entities involved in the value shift.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 725-A—Scope of the direct value shifting rules

Table of sections

725-45	Main object
725-50	When a direct value shift has consequences under this Division
725-55	Controlling entity test
725-65	Cause of the value shift
725-70	Consequences for down interest only if there is a material decrease in its market value
725-80	Who is an affected owner of a down interest?
725-85	Who is an affected owner of an up interest?
725-90	Direct value shift that will be reversed
725-95	Direct value shift resulting from reversal

725-45 Main object

- (1) The main object of this Division is:
 - (a) to prevent inappropriate losses from arising on the realisation of *equity or loan interests from which value has been shifted to other equity or loan interests in the same entity; and
 - (b) to prevent inappropriate gains from arising on the realisation of equity or loan interests in the same entity to which the value has been shifted;so far as those interests are owned by entities involved in the value shift.
- (2) This is done by:
 - (a) adjusting the value of those interests for income tax purposes to take account of changes in *market value that are attributable to the value shift; and
 - (b) treating the value shift as a partial realisation to the extent that value is shifted:
 - (i) between interests held by different owners; or
 - (ii) in the case of interests in their character as CGT assets—from post-CGT assets to pre-CGT assets; or
 - (iii) between interests of different characters.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

725-50 When a direct value shift has consequences under this Division

A *direct value shift under a *scheme involving *equity or loan interests in an entity (the **target entity**) has consequences for you under this Division if, and only if:

- (a) the target entity is a company or trust at some time during the *scheme period; and
- (b) section 725-55 (Controlling entity test) is satisfied; and
- (c) section 725-65 (Cause of the value shift) is satisfied; and
- (d) you are an *affected owner of a *down interest, or an *affected owner of an *up interest, or both; and
- (e) neither of sections 725-90 and 725-95 (about direct value shifts that are reversed) applies.

Note: For a down interest of which you are an affected owner, the direct value shift has consequences under this Division only if section 725-70 (about material decrease in market value) is satisfied.

725-55 Controlling entity test

An entity (the **controller**) must *control (for value shifting purposes) the target entity at some time during the period starting when the *scheme is entered into and ending when it has been carried out. (That period is the **scheme period**.)

For the concept of **control (for value shifting purposes)**,
see sections 727-355 to 727-375.

725-65 Cause of the value shift

- (1) It must be the case that one or more of the following:
 - (a) the target entity;
 - (b) the controller;
 - (c) an entity that was an *associate of the controller at some time during or after the *scheme period;
 - (d) an *active participant in the *scheme;(either alone or together with one or more other entities) did under the scheme the one or more things:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 725-70

- (e) to which the decrease in the *market value of the *down interests is reasonably attributable; and
- (f) to which the increase in the market value of the *up interests, or the issue of up interests at a *discount, is reasonably attributable, or that is or include the issue of up interests at a *discount.

Active participants (if target entity is closely held)

- (2) An entity (the **first entity**) is an **active participant** in the *scheme if, and only if:
 - (a) at some time during the *scheme period, the target entity has fewer than 300 members (in the case of a company) or fewer than 300 beneficiaries (in the case of a trust); and
 - (b) the first entity has actively participated in, or directly facilitated, the entering into or carrying out of the *scheme (whether or not it did so at the direction of some other entity); and
 - (c) the first entity:
 - (i) owns a *down interest at the *decrease time; or
 - (ii) owns an *up interest at the *increase time or has an up interest issued to it at a *discount because of the *direct value shift.

When an entity has 300 or more members or beneficiaries

- (3) Section 124-810 (under which certain companies and trusts are not regarded as having 300 or more members or beneficiaries) also applies for the purposes of this Division.
- (4) In addition, this Division applies to a *non-fixed trust as if it did not have 300 or more beneficiaries.

725-70 Consequences for down interest only if there is a material decrease in its market value

- (1) For a *down interest of which you are an *affected owner, the *direct value shift has consequences under this Division only if the sum of the decreases in the *market value of all down interests

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

because of direct value shifts under the same *scheme as the direct value shift is at least \$150,000.

Note: In working out the sum of the decreases in market value of all down interests, it will be necessary to include decreases not only in your down interests, but also in those of other affected owners and of entities that are not affected owners.

- (2) However, if, having regard to all relevant circumstances, it is reasonable to conclude that the sole or main reason why a *direct value shift happened under a different scheme from one or more other direct value shifts was so that subsection (1) would not be satisfied for one or more of the direct value shifts mentioned in this subsection, subsection (1) does not apply (and is taken never to have applied) to any of the direct value shifts.

725-80 Who is an affected owner of a down interest?

An entity is an *affected owner* of a *down interest if, and only if, the entity owns the down interest at the *decrease time and at least one of these paragraphs is satisfied:

- (a) the entity is the controller;
- (b) the entity was an *associate of the controller at some time during or after the *scheme period;
- (c) the entity is an *active participant in the *scheme.

725-85 Who is an affected owner of an up interest?

An entity is an *affected owner* of an *up interest if, and only if:

- (a) there is at least one *affected owner of *down interests; and
- (b) the entity owns the up interest at the *increase time, or the interest is an up interest because it was issued to the entity at a *discount;

and at least one of these paragraphs is satisfied:

- (c) the entity is the controller;
- (d) the entity was an *associate of the controller at some time during or after the *scheme period;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 725-90

- (e) at some time during or after the scheme period, the entity was an associate of an entity that is an affected owner of down interests because it was an associate of the controller at some time during or after that period;
- (f) the entity is an *active participant in the *scheme.

725-90 Direct value shift that will be reversed

- (1) The *direct value shift does *not* have consequences for you under this Division if:
 - (a) the one or more things referred to in paragraph 725-145(1)(b) brought about a state of affairs, but for which the direct value shift would not have happened; and
 - (b) as at the time referred to in that paragraph, it is more likely than not that, because of the *scheme, that state of affairs will cease to exist within 4 years after that time.

Example: Under a scheme, the voting rights attached to a class of shares in a company are changed. As a result, the market value of shares in that class decreases, and the market value of other classes of shares in the company increases. The company's constitution provides that the change is to last for only 3 years.

- (2) However, this section stops applying if the state of affairs referred to in paragraph (1)(a) still exists:
 - (a) at the end of those 4 years; or
 - (b) when a *realisation event happens to *down interests or *up interests of which you are, or any other entity is, an *affected owner;whichever happens sooner.
- (3) If this section stops applying, it is taken *never* to have applied to the *direct value shift.

Note: This may result in an assessment for an earlier income year having to be amended to give effect to the consequences that the direct value shift would have had for you under this Division if this section hadn't applied.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

725-95 Direct value shift resulting from reversal

- (1) A *direct value shift does not have consequences for any entity under this Division if:
 - (a) section 725-90 applies, and the state of affairs referred to in paragraph 725-90(1)(a) ceases to exist; and
 - (b) the direct value shift would not have happened but for that state of affairs ceasing to exist.
- (2) However, if section 725-90 stops applying, this section is taken *never* to have applied to the later direct value shift.

Subdivision 725-B—What is a direct value shift

Table of sections

725-145	When there is a <i>direct value shift</i>
725-150	Issue of equity or loan interests at a <i>discount</i>
725-155	Meaning of <i>down interests</i> , <i>decrease time</i> , <i>up interests</i> and <i>increase time</i>
725-160	What is the nature of a direct value shift?
725-165	If market value decrease or increase is only partly attributable to the scheme

725-145 When there is a *direct value shift*

- (1) There is a *direct value shift* under a *scheme involving *equity or loan interests in an entity (the *target entity*) if:
 - (a) there is a decrease in the *market value of one or more equity or loan interests in the target entity; and
 - (b) the decrease is reasonably attributable to one or more things done under the scheme, and occurs at or after the time when that thing, or the first of those things, is done; and
 - (c) either or both of subsections (2) and (3) are satisfied.Examples of something done under a scheme are issuing new shares at a *discount, buying back shares or changing the voting rights attached to shares.
- (2) One or more *equity or loan interests in the target entity must be issued at a *discount. The issue must be, or must be reasonably attributable to, the thing, or one or more of the things, referred to in

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 725-150

paragraph (1)(b). It must also occur at or after the time referred to in that paragraph.

Example: A company runs a family business. There are 2 shares originally issued for \$2 each. They are owned by husband and wife. The market value of the shares is much greater (represented by the value of the assets of the company less its liabilities). The company issues one more share for \$2 to their son.

Caution is needed in such a situation. The example would result in a large CGT liability for the husband and wife under this Division, because they have shifted 1/3 of the value of their own shares to their son. No such liability would arise if the share had been issued for its market value.

- (3) Or, there must be an increase in the *market value of one or more *equity or loan interests in the target entity. The increase must be reasonably attributable to the thing, or to one or more of the things, referred to in paragraph (1)(b). It must also occur at or after the time referred to in that paragraph.

725-150 Issue of equity or loan interests at a *discount*

- (1) An *equity or loan interest is issued at a *discount* if, and only if, the *market value of the interest when issued exceeds the amount of the payment that the issuing entity receives. The excess is the amount of the *discount*.
- (2) The payment that the issuing entity receives can include property. If it does, use the *market value of the property in working out the amount of the payment.

Amounts for which bonus equities are treated as being issued

- (3) If:
- (a) a *primary equity interest is issued as mentioned in subsection 130-20(1) (about bonus equities issued in relation to original equities); and
 - (b) subsection 130-20(3) does *not* apply (about bonus equities that are a dividend or otherwise assessable income);
- subsection (1) of this section applies to the interest as if the amount of the payment that the issuing entity receives were equal to the *cost base of the interest when issued (as worked out under section 130-20).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (4) If:
- (a) a *primary equity interest is issued as mentioned in subsection 6BA(1) of the *Income Tax Assessment Act 1936* (about bonus shares issued in relation to original shares); and
 - (b) subsection 6BA(2) of that Act applies (about bonus shares that are a dividend);
- subsection (1) of this section applies to the interest as if the amount of the payment that the issuing entity receives were equal to the consideration worked out under subsection 6BA(2) of that Act.
- (5) If both of subsections (3) and (4) apply to the issue of the same *primary equity interest, subsection (1) of this section applies to the interest as if the amount of the payment that the issuing entity receives were equal to the greater of the amounts worked out under subsections (3) and (4).

Application of subsections (3), (4) and (5)

- (6) Subsection (3) does not apply if, for the income year in which the interest is issued, the issuing entity is:
- (a) a corporate unit trust within the meaning of section 102J of the *Income Tax Assessment Act 1936*; or
 - (b) a public trading trust within the meaning of section 102R of that Act.
- (7) Subsections (3), (4) and (5) have effect only for the purposes of working out whether a *direct value shift has happened and, if so, its consequences (if any) under this Division.

725-155 Meaning of *down interests*, *decrease time*, *up interests* and *increase time*

- (1) An *equity or loan interest in the target entity is a ***down interest*** if a decrease in its *market value is reasonably attributable to the one or more things referred to in paragraph 725-145(1)(b), and occurs at or after the time referred to in that paragraph. The time when the decrease happens is called the ***decrease time*** for that interest.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 725-160

- (2) An *equity or loan interest in the target entity is an *up interest* if subsection 725-145(2) or (3) is satisfied for the interest. The time when the interest is issued at a *discount, or the increase in *market value happens, is called the *increase time* for that interest.

725-160 What is the nature of a direct value shift?

- (1) The *direct value shift has 2 aspects.
- (2) Overall, it consists of:
- (a) the decreases in *market value of the down interests; and
 - (b) the issue at a *discount of the up interests covered by subsection 725-145(2); and
 - (c) the increases in market value of the up interests covered by subsection 725-145(3).
- (3) This Division also proceeds on the basis that the *direct value shift is from *each* of the *down interests to *each* of the *up interests.

725-165 If market value decrease or increase is only partly attributable to the scheme

If it is reasonable to conclude that an increase or decrease in *market value, or the issuing of an *equity or loan interest at a *discount, is only partly caused by the doing of the one or more things under the *scheme, this Division applies to the increase, decrease, or issue at a discount, to that extent only.

Subdivision 725-C—Consequences of a direct value shift

Table of sections

General

- 725-205 Consequences depend on character of down interests and up interests
- 725-210 Consequences for down interests depend on pre-shift gains and losses

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Special cases

- 725-220 Neutral direct value shifts
- 725-225 Issue of bonus shares or units
- 725-230 Off-market buy-backs

General

725-205 Consequences depend on character of down interests and up interests

- (1) The consequences for you of the *direct value shift depend on the character of the *down interests and *up interests of which you are an *affected owner.
- (2) There are consequences for all your *down interests and *up interests in their character as *CGT assets. However, some of them may also be *trading stock or *revenue assets. There are additional consequences for those interests in their character as trading stock or revenue assets.

Note: For example, you may own a down interest that is a CGT asset and a revenue asset.

Sections 725-240 to 725-255 set out the consequences for you of a shift in value from that interest in its character as a CGT asset. The cost base of the asset will be decreased, which will affect the calculation of a capital gain when a CGT event happens to the interest.

Section 725-320 sets out the consequences for you of a shift in value from that interest in its character as a revenue asset. The adjustment made under that section will affect the calculation of any profit on the sale of the interest.

Any overlap between the capital gain and the profit realised on the sale of the interest is then dealt with under section 118-20.

In some instances, the direct value shift may result in a taxing event generating a gain for you in the income year in which the shift happens. That gain will be both a capital gain (because the down interest can be characterised as a CGT asset) and an increase in your assessable income (because the down interest can be characterised as a revenue asset). Again, any overlap is dealt with under section 118-20.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

725-210 Consequences for down interests depend on pre-shift gains and losses

- (1) The consequences for a *down interest also depend on whether it has a *pre-shift gain or a *pre-shift loss.
- (2) It has a ***pre-shift gain*** if, immediately before the *decrease time, its *market value was *greater than* its *adjustable value.
- (3) It has a ***pre-shift loss*** if, immediately before the *decrease time, its *market value was *equal to or less than* its *adjustable value.

Special cases

725-220 Neutral direct value shifts

- (1) The consequences are different if the total decrease in *market value of your *down interests is equal to the sum of:
 - (a) the total increase in market value of your *up interests; and
 - (b) the total *discounts given to you on the issue of your up interests.
- (2) In that case, this Subdivision and Subdivisions 725-D to 725-F apply to you as if the *direct value shift:
 - (a) consisted only of:
 - (i) the decreases in *market value of your *down interests; and
 - (ii) the issue at a *discount of your *up interests covered by subsection 725-145(2); and
 - (iii) the increases in market value of your up interests covered by subsection 725-145(3); and
 - (b) were from each of your down interests to each of your up interests.
- (3) This section has effect despite section 725-160.

725-225 Issue of bonus shares or units

- (1) The consequences are different if you are an *affected owner of *up interests (the ***bonus interests***) that the target entity issues to you, at

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

a *discount, under the *scheme, in relation to *down interests (the *original interests*) of which you are an affected owner.

Effect of treatment under subsection 130-20(3)

- (2) To the extent that the *direct value shift is *to* the bonus interests *from* original interests in relation to which the target entity issued bonus interests to which:
- (a) subsection 130-20(3) applies (because none of them is a dividend or otherwise assessable income); and
 - (b) item 1 of the table in that subsection applies (because the original interests are post-CGT assets);
- these paragraphs apply:
- (c) the respective *cost bases and *reduced cost bases of those original interests are not reduced;
 - (d) the bonus interests referred to in subsection (1) do not give rise to a *taxing event generating a gain for you under the table in section 725-245 on any of those original interests.
- (3) To the extent that the *direct value shift is *from* the original interests *to* bonus interests to which subsection 130-20(3) applies (because none of them is a dividend or otherwise assessable income) and:
- (a) item 1 of the table in that subsection applies (because the original interests are post-CGT assets); or
 - (b) item 2 of that table applies (because the original interests are pre-CGT assets and an amount has been paid for the bonus interests that you were required to pay);
- the respective *cost bases and *reduced cost bases of those bonus interests are not uplifted.

Effect of treatment under subsection 6BA(3) of the Income Tax Assessment Act 1936

- (4) To the extent that the *direct value shift is *to* the bonus interests *from* original interests in relation to which the target entity issued bonus interests to which subsection 6BA(3) of the *Income Tax Assessment Act 1936* applies (either because they are shares issued

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 725-230

for no consideration and none of them is a dividend or because they qualify for the intercorporate dividend rebate):

- (a) the respective *adjustable values of those original interests, in their character as *trading stock or *revenue assets, are not reduced; and
 - (b) the bonus interests referred to in subsection (1) do not give rise to a *taxing event generating a gain for you under the table in section 725-335 on any of those original interests.
- (5) To the extent that the *direct value shift is *from* the original interests to bonus interests to which subsection 6BA(3) of the *Income Tax Assessment Act 1936* applies, the respective *adjustable values of those bonus interests of which you are an affected owner, in their character as *trading stock or *revenue assets, are not uplifted.

725-230 Off-market buy-backs

- (1) The consequences are different if:
- (a) a decrease in the *market value of a *down interest of which you are an *affected owner is reasonably attributable to the target entity proposing to buy back that interest for less than its market value; and
 - (b) the target entity does buy back that down interest; and
 - (c) subsection 159GZZZQ(2) of the *Income Tax Assessment Act 1936* treats you as having received the down interest's market value worked out as if the buy-back had not occurred and was never proposed to occur.

- (2) The *adjustable value of the *down interest is not reduced, and there is no *taxing event generating a gain.

Note: The down interest is not dealt with here because it is already dealt with in Division 16K of Part III of the *Income Tax Assessment Act 1936*.

- (3) Also, to the extent that the *direct value shift is from the *down interest to *up interests of which you are an *affected owner, uplifts in the *adjustable value of the up interests are worked out under either or both of:
- (a) item 8 of the table in subsection 725-250(2); and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) item 9 of the table in subsection 725-335(3);
as if the down interest were one owned by another affected owner.

Subdivision 725-D—Consequences for down interest or up interest as CGT asset

Table of sections

725-240	CGT consequences; meaning of <i>adjustable value</i>
725-245	Table of <i>taxing events generating a gain</i> for interests as CGT assets
725-250	Table of consequences for adjustable values of interests as CGT assets
725-255	Multiple CGT consequences for the same down interest or up interest

725-240 CGT consequences; meaning of *adjustable value*

- (1) The CGT consequences for you of a *direct value shift are of one or more of these 3 kinds:
- (a) there are one or more *taxing events generating a gain for *down interests of which you are an affected owner (see subsection (2));
 - (b) the *cost base and *reduced cost base of down interests of which you are an *affected owner are reduced (see subsection (3));
 - (c) the cost base and reduced cost base of *up interests of which you are an affected owner are uplifted (see subsection (4)).

Note: If there is a taxing event generating a gain, CGT event K8 happens. See section 104-250.

Taxing event generating a gain

- (2) To work out:
- (a) whether under the table in section 725-245 there is a *taxing event generating a gain for you on a *down interest; and
 - (b) if so, the amount of the gain;
- assume that the *adjustable value* from time to time of that or any other *equity or loan interest in the *target entity is its *cost base.

Note: For example, for that purpose the question whether the interest has a pre-shift gain or a pre-shift loss is determined on the basis that the interest's adjustable value is its cost base.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Reduction or uplift of cost base and reduced cost base

- (3) The *cost base and the *reduced cost base of a *down interest are reduced at the *decrease time to the extent that section 725-250 provides for the *adjustable value of the interest to be reduced.
- (4) The *cost base and the *reduced cost base of an *up interest are uplifted at the *increase time to the extent that section 725-250 provides for the *adjustable value of the interest to be uplifted.
- (5) However, the *cost base or *reduced cost base is *uplifted* only to the extent that the amount of the uplift is still reflected in the *market value of the interest when a later *CGT event happens to the interest.
- (6) To work out:
 - (a) whether the *cost base or *reduced cost base of the interest is reduced or uplifted; and
 - (b) if so, by how much;assume that:
 - (c) the *adjustable value* from time to time of that or any other *equity or loan interest in the *target entity is its cost base or reduced cost base, as appropriate; and
 - (d) if the interest is an *up interest because it was issued at a *discount—the *adjustable value* of the interest immediately before it was issued was its cost base or reduced cost base, as appropriate, when it was issued.

Note: For example, for that purpose the question whether the interest has a pre-shift gain or a pre-shift loss is determined on the basis that the interest's adjustable value is its cost base or reduced cost base, as appropriate.

Reductions and uplifts also apply to pre-CGT assets

- (7) A reduction or uplift occurs regardless of whether the entity that owns the interest *acquired it before, on or after 20 September 1985.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

725-245 Table of *taxing events generating a gain* for interests as CGT assets

To the extent that the *direct value shift is from *down interests of which you are an *affected owner, and that are specified in an item in the table, to *up interests specified in that item, those up interests give rise to a ***taxing event generating a gain*** for you on each of those down interests. The gain is worked out under section 725-365.

<i>Taxing events generating a gain for down interests as CGT assets</i>		
Item	Down interests:	Up interests:
1	*down interests that: (a) are owned by you; and (b) are <i>neither your *revenue assets nor your *trading stock</i> ; and (c) have <i>*pre-shift gains</i> ; and (d) are <i>*post-CGT assets</i>	*up interests owned by you that: (a) are <i>neither your revenue assets nor your trading stock</i> ; and (b) are <i>*pre-CGT assets</i>
2	*down interests that: (a) are owned by you; and (b) are <i>neither your *revenue assets nor your *trading stock</i> ; and (c) have <i>*pre-shift gains</i>	*up interests owned by you that are <i>your trading stock or revenue assets</i>
3	*down interests owned by you that: (a) are of the one kind (either <i>your *trading stock or your *revenue assets</i>); and (b) have <i>*pre-shift gains</i>	*up interests owned by you that: (a) are <i>of the other kind</i> (either <i>your revenue assets or your trading stock</i>); or (b) are <i>neither your *revenue assets nor your *trading stock</i>
4	*down interests owned by you that have <i>*pre-shift gains</i>	up interests owned by <i>other *affected owners</i>

Note: If there is a taxing event generating a gain on a down interest, CGT event K8 happens: see section 104-250. However, a capital gain you make under CGT event K8 is disregarded if the down interest:

- is your trading stock (see section 118-25); or
- is a pre-CGT asset (see subsection 104-250(5)).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

725-250 Table of consequences for adjustable values of interests as CGT assets

- (1) The table in subsection (2) sets out consequences of the *direct value shift for the *adjustable values of *down interests and *up interests of which you are an *affected owner, in their character as *CGT assets.
- (2) To the extent that the *direct value shift is from *down interests specified in an item in the table to *up interests specified in that item:
- the *adjustable value of each of those down interests is decreased by the amount worked out under the section (if any) specified for the down interests in the last column of that item; and
 - the adjustable value of each of those *up interests is uplifted by the amount worked out under the section (if any) specified for the up interests in that column.

Consequences of the direct value shift for adjustable values of CGT assets			
Item	To the extent that the direct value shift is from:	To:	The decrease or uplift is worked out under:
1	*down interests that: (a) are owned by <i>you</i> ; and (b) have * <i>pre-shift gains</i> ; and (c) are * <i>post-CGT assets</i>	*up interests owned by <i>you</i> that do <i>not</i> give rise to a *taxing event generating a gain for you on those down interests under section 725-245	for the down interests: section 725-365; and for the up interests: section 725-370
2	*down interests that: (a) are owned by <i>you</i> ; and (b) have * <i>pre-shift gains</i> ; and (c) are * <i>pre-CGT assets</i>	*up interests owned by <i>you</i> that are * <i>pre-CGT assets</i>	for the down interests: section 725-365; and for the up interests: section 725-370

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Consequences of the direct value shift for adjustable values of CGT assets			
Item	To the extent that the direct value shift is from:	To:	The decrease or uplift is worked out under:
3	*down interests that: (a) are owned by <i>you</i> ; and (b) have <i>*pre-shift gains</i> ; and (c) are <i>*pre-CGT assets</i>	*up interests owned by <i>you</i> that are <i>*post-CGT assets</i>	for the down interests: section 725-365; and for the up interests: section 725-375
4	*down interests owned by <i>you</i> that have <i>*pre-shift gains</i>	*up interests owned by <i>you</i> that give rise to a <i>*taxing event</i> generating a gain on those down interests under section 725-245	for the down interests: section 725-365; and for the up interests: section 725-375
5	*down interests owned by <i>you</i> that have <i>*pre-shift losses</i>	*up interests owned by <i>you</i>	for the down interests: section 725-380; and for the up interests: section 725-375
6	*down interests owned by <i>you</i> that have <i>*pre-shift gains</i>	*up interests owned by <i>other *affected owners</i>	for the down interests: section 725-365
7	*down interests owned by <i>you</i> that have <i>*pre-shift losses</i>	*up interests owned by <i>other *affected owners</i>	for the down interests: section 725-380
8	*down interests owned by <i>other *affected owners</i>	*up interests owned by <i>you</i>	for the up interests: section 725-375
9	*down interests owned by <i>you</i>	*up interests owned by <i>entities that are not *affected owners</i>	(there are no decreases or uplifts)
10	*down interests owned by <i>entities that are not *affected owners</i>	*up interests owned by <i>you</i>	(there are no decreases or uplifts)

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 725-255

Reducing uplift to prevent double increase in cost base etc.

- (3) However, if, apart from paragraph (2)(b), an amount is included in the *cost base or *reduced cost base of an *up interest as a result of the *scheme under which the *direct value shift happens, the uplift in the *adjustable value of the interest under that paragraph is reduced by that amount.

725-255 Multiple CGT consequences for the same down interest or up interest

- (1) A *down interest or *up interest of which you are an *affected owner may be covered by 2 or more items in the table in subsection 725-250(2).
- (2) If the *cost base or *reduced cost base of the same *down interest or *up interest is decreased or uplifted under 2 or more items, it is decreased or uplifted by the total of the amounts worked out under those items.

Note: If subsection 725-250(3) is relevant, it will affect all the uplifts worked out under all those items.

- (3) If for a particular *down interest there is a *taxing event generating a gain under an item in the table in section 725-245, that taxing event is in addition to:
- (a) each taxing event generating a gain for that interest under any other item in that table; and
 - (b) each decrease in the *cost base or *reduced cost base of the interest under an item in the table in subsection 725-250(2).

Subdivision 725-E—Consequences for down interest or up interest as trading stock or a revenue asset

Table of sections

725-310	Consequences for down interest or up interest as trading stock
725-315	<i>Adjustable value</i> of trading stock
725-320	Consequences for down interest or up interest as a revenue asset
725-325	<i>Adjustable value</i> of revenue asset
725-335	How to work out those consequences

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

725-340 Multiple trading stock or revenue asset consequences for the same down interest or up interest

725-310 Consequences for down interest or up interest as trading stock

- (1) The consequences of the *direct value shift for your *trading stock are of one or more of these 3 kinds:
 - (a) the *adjustable values of *down interests of which you are an *affected owner are reduced (see subsection (2));
 - (b) the adjustable values of *up interests of which you are an affected owner are uplifted (see subsection (3));
 - (c) there are one or more *taxing events generating a gain for down interests of which you are an affected owner (see subsection (5)).

Effect of reduction or uplift of adjustable value

- (2) If the *adjustable value of a *down interest that is your *trading stock is reduced under section 725-335, you are treated as if:
 - (a) *immediately before the *decrease time, you had sold the interest to someone else (at *arm's length and in the ordinary course of business) for its *adjustable value immediately before the decrease time; and
 - (b) immediately after the decrease time, you had bought the interest back for the reduced adjustable value.
- (3) If the *adjustable value of an *up interest that is your *trading stock is uplifted under section 725-335, you are treated as if:
 - (a) *immediately before the *increase time, you had sold the interest to someone else (at *arm's length and in the ordinary course of business) for its *adjustable value immediately before the increase time; and
 - (b) immediately after the increase time, you had bought the interest back for the uplifted adjustable value.
- (4) However, the increase in the cost of an *up interest because of paragraph (3)(b) is taken into account from time to time only to the extent that the amount of the increase is still reflected in the *market value of the interest.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 725-315

Note: The situations where the increase in cost would be taken into account include:

- in working out your deductions for the cost of trading stock acquired during the income year in which the increase time happens; and
- the end of an income year if the interest's closing value as trading stock is worked out on the basis of its cost; and
- the start of the income year in which the interest is disposed of, if that happens in a later income year and the interest's closing value as trading stock at the end of the previous income year was worked out on the basis of its cost.

If the interest stops being trading stock, section 70-110 treats you as having disposed of it.

Taxing event generating a gain

- (5) For each *taxing event generating a gain under an item in the table in subsection 725-335(3), the gain is included in your assessable income for the income year in which the *decrease time happens.

725-315 Adjustable value of trading stock

If a *down interest or *up interest is your *trading stock, its **adjustable value** at a particular time is:

- (a) if the interest has been trading stock of yours ever since the start of the income year in which that time occurs—its *value as trading stock at the start of the income year; or
- (b) otherwise—its cost.

Note 1: If an interest has been affected by an earlier direct value shift during the same income year, it will be treated as having already been sold and repurchased (because of an earlier application of section 725-310). As a result, the cost on repurchase becomes its adjustable value immediately before the decrease time or increase time for the later direct value shift.

Note 2: The adjustable value of an interest that is an up interest because it was issued at a discount is worked out under paragraph (b).

725-320 Consequences for down interest or up interest as a revenue asset

- (1) The consequences of the *direct value shift for your *revenue assets are of one or more of these 3 kinds:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (a) the *adjustable values of *down interests of which you are an *affected owner are reduced (see subsection (2));
- (b) the adjustable values of *up interests of which you are an affected owner are uplifted (see subsection (3));
- (c) one or more *taxing events generating a gain for down interests of which you are an affected owner (see subsection (5)).

Effect of reduction or uplift of adjustable value

- (2) If the *adjustable value of a *down interest that is your *revenue asset is decreased under section 725-335, you are treated as if:
 - (a) *immediately before the *decrease time, you had sold the interest to someone else for its *adjustable value immediately before the decrease time; and
 - (b) immediately afterwards, you had bought the interest back for the reduced adjustable value; and
 - (c) from the time when you bought it back, the interest continued to be a revenue asset, for the same reasons as it was a revenue asset before you sold it.
- (3) If the *adjustable value of an *up interest that is your *revenue asset is uplifted under section 725-335, you are treated as if:
 - (a) *immediately before the *increase time, you had sold the interest to someone else for its *adjustable value immediately before the increase time; and
 - (b) immediately afterwards, you had bought the interest back for the uplifted adjustable value; and
 - (c) from the time when you bought it back, the interest continued to be a revenue asset, for the same reasons as it was a revenue asset before you sold it.
- (4) However, the uplift in *adjustable value is taken into account only to the extent that the amount of the uplift is still reflected in the *market value of the interest when it is disposed of or otherwise realised.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 725-325

Taxing event generating a gain

- (5) For each *taxing event generating a gain under an item in the table in subsection 725-335(3), the gain is included in your assessable income for the income year in which the *decrease time happens.

725-325 Adjustable value of revenue asset

- (1) If a *down interest is your *revenue asset, its **adjustable value** immediately before the *decrease time is the total of the amounts that would be subtracted from the gross disposal proceeds in calculating any profit or loss on disposal of the interest if you disposed of it immediately before the decrease time.
- (2) If an *up interest is your *revenue asset and it increases in *market value because of the *direct value shift, its **adjustable value** immediately before the *increase time is the total of the amounts that would be subtracted from the gross disposal proceeds in calculating any profit or loss on disposal of the interest if you disposed of it immediately before the increase time.
- (3) If an *up interest is your *revenue asset and it is issued at a *discount, it is taken to have an **adjustable value** immediately before it is issued equal to the consideration paid or given by you for the interest.

Note: If an interest has been affected by an earlier direct value shift during the same income year, it will be treated as having already been sold and repurchased (because of an earlier application of section 725-320). As a result, the cost on repurchase becomes its adjustable value immediately before the decrease time or increase time for the later direct value shift.

725-335 How to work out those consequences

- (1) This section sets out the consequences of the *direct value shift for a *down interest or *up interest as *trading stock or a *revenue asset.
- (2) If you have both *trading stock and *revenue assets, items 1 and 2 of the table in subsection (3) can apply once to the trading stock and again to the revenue assets. The other items apply (if at all) to the trading stock and revenue assets together.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Decreases and uplifts in adjustable value

- (3) To the extent that the *direct value shift is from *down interests specified in an item in the table to *up interests specified in that item:
- (a) the *adjustable value of each of those down interests is decreased by the amount worked out under the section (if any) specified for the down interests in the last column of that item; and
 - (b) the adjustable value of each of those *up interests is uplifted by the amount worked out under the section (if any) specified for the up interests in that column.

Consequences for down interest or up interest as trading stock or revenue asset			
Item	To the extent that the direct value shift is from:	To:	The decrease or uplift is worked out under:
1	*down interests owned by you that: (a) are of the one kind (either your *trading stock or your *revenue assets); and (b) have *pre-shift gains	*up interests owned by you that are of that same kind	for the down interests: section 725-365; and for the up interests: section 725-370
2	*down interests owned by you that: (a) are of the one kind (either your *trading stock or your *revenue assets); and (b) have *pre-shift gains	*up interests owned by you that are of the other kind (either your revenue assets or your trading stock)	for the down interests: section 725-365; and for the up interests: section 725-375
3	*down interests owned by you that: (a) are your *trading stock or *revenue assets; and (b) have *pre-shift losses	*up interests owned by you that are of that same kind or of the other kind	for the down interests: section 725-380; and for the up interests: section 725-375

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 725-335

Consequences for down interest or up interest as trading stock or revenue asset			
Item	To the extent that the direct value shift is from:	To:	The decrease or uplift is worked out under:
4	*down interests owned by <i>you</i> that: (a) are <i>your</i> *trading stock or *revenue assets; and (b) have *pre-shift gains	*up interests owned by <i>you</i> that are <i>neither your revenue assets nor your trading stock</i>	for the down interests: section 725-365
5	*down interests owned by <i>you</i> that: (a) are <i>your</i> *trading stock or *revenue assets; and (b) have *pre-shift losses	*up interests owned by <i>you</i> that are <i>neither your revenue assets nor your trading stock</i>	for the down interests: section 725-380
6	*down interests owned by <i>you</i> that are <i>neither your *revenue assets nor your *trading stock</i>	*up interests owned by <i>you</i> that are <i>your trading stock or revenue assets</i>	for the up interests: section 725-375
7	*down interests owned by <i>you</i> that: (a) are <i>your</i> *trading stock or *revenue assets; and (b) have *pre-shift gains	up interests owned by <i>other</i> *affected owners	for the down interests: section 725-365
8	*down interests owned by <i>you</i> that: (a) are <i>your</i> *trading stock or *revenue assets; and (b) have *pre-shift losses	*up interests owned by <i>other</i> *affected owners	for the down interests: section 725-380
9	*down interests owned by <i>other</i> *affected owners	*up interests owned by <i>you</i> that are <i>your *trading stock or *revenue assets</i>	for the up interests: section 725-375
10	*down interests owned by <i>you</i> that are <i>your</i> *trading stock or *revenue assets	*up interests owned by <i>entities that are not</i> *affected owners	(there are no decreases or uplifts)

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Consequences for down interest or up interest as trading stock or revenue asset			
Item	To the extent that the direct value shift is from:	To:	The decrease or uplift is worked out under:
11	*down interests owned by entities that are not *affected owners	*up interests owned by you that are your *trading stock or *revenue assets	(there are no decreases or uplifts)

Reducing uplift to prevent double increase in adjustable value

- (3A) However, if, apart from paragraph (3)(b), an amount is included, as a result of the *scheme under which the *direct value shift happens, in the *adjustable value of an *up interest that is your *trading stock or *revenue asset, the uplift in the adjustable value of the interest under that paragraph is reduced by that amount.

Taxing events generating a gain

- (4) To the extent that the *direct value shift is from *down interests:
- of which you are an *affected owner; and
 - that are specified in item 2, 4 or 7 in the table in subsection (3);
- to *up interests specified in that item, those up interests give rise to a ***taxing event generating a gain*** for you under that item on each of those down interests. The gain is worked out under section 725-365.

725-340 Multiple trading stock or revenue asset consequences for the same down interest or up interest

- A *down interest or *up interest of which you are an *affected owner may be covered by 2 or more items in the table in subsection 725-335(3).
- If the *adjustable value of the same *down interest or *up interest is decreased or uplifted under 2 or more items, it is decreased or uplifted by the total of the amounts worked out under those items.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 725-365

Note: If subsection 725-335(3A) is relevant, it will affect all the uplifts worked out under all those items.

- (3) If for a particular *down interest there is a *taxing event generating a gain under an item, that taxing event is in addition to:
- (a) each taxing event generating a gain for that interest under any other item in the table; and
 - (b) each decrease in the *adjustable value of the interest under that or any other item in the table.

Subdivision 725-F—Value adjustments and taxed gains

Table of sections

725-365	Decreases in adjustable values of down interests (with pre-shift gains), and taxing events generating a gain
725-370	Uplifts in adjustable values of up interests under certain table items
725-375	Uplifts in adjustable values of up interests under other table items
725-380	Decreases in adjustable value of down interests (with pre-shift losses)

725-365 Decreases in adjustable values of down interests (with pre-shift gains), and taxing events generating a gain

Use the following method statement:

- (a) to work out the amount of the gain for a *taxing event generating a gain under:
 - (i) section 725-245; or
 - (ii) item 2, 4 or 7 of the table in subsection 725-335(3); and
- (b) to work out the decrease in *adjustable value of a *down interest under:
 - (i) item 1, 2, 3, 4 or 6 of the table in subsection 725-250(2); or
 - (ii) item 1, 2, 4 or 7 of the table in subsection 725-335(3).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Method statement

Step 1. Group together all *down interests that:

- (a) are of the kind referred to in the relevant item; and
- (b) immediately before the *decrease time, had the same *adjustable value as the down interest; and
- (c) immediately before that time had the same *market value as the down interest; and
- (d) sustained the same decrease in market value as the down interest because of the *direct value shift.

Step 2. Work out the value shifted from that group of *down interests to the *up interests referred to in the relevant item using the following formula:

$$\frac{\text{Sum of the decreases in *market value of all *down interests in the group because of the *direct value shift}}{\text{Sum of the increases in *market value of, and *discounts on the issue of, those *up interests because of the *direct value shift}} \times \frac{\text{Sum of the increases in *market value of, and *discounts given on the issue of, all *up interests because of the *direct value shift}}{\text{Sum of the increases in *market value of, and *discounts on the issue of, those *up interests because of the *direct value shift}}$$

Step 3. Work out the notional adjustable value of the value shifted from that group of *down interests to those *up interests using the formula:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 725-370

$$\frac{\text{Sum of the *adjustable values, immediately before the *decrease time, of all *down interests in the group}}{\text{Value shifted}} \times \frac{\text{Sum of the *market values, immediately before the *decrease time, of all *down interests in the group}}{\text{Value shifted}}$$

Step 4. The decrease in the *adjustable value of the *down interest under the relevant item is equal to:

$$\frac{\text{Notional adjustable value}}{\text{Number of *down interests in the group}}$$

Step 5. For a *taxing event generating a gain under the relevant item, the amount of the gain is equal to:

$$\frac{\text{Value shifted} - \text{Notional adjustable value}}{\text{Number of *down interests in the group}}$$

725-370 Uplifts in adjustable values of up interests under certain table items

Use the following method statement to work out the uplift in *adjustable value of an *up interest under:

- (a) item 1 or 2 of the table in subsection 725-250(2); or
- (b) item 1 of the table in subsection 725-335(3).

Method statement

Step 1. If the *market value of the *up interest increases because of the *direct value shift, group together all up interests of the kind referred to in the relevant item that:

- (a) immediately before the *increase time, had the same *adjustable value as the up interest; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) sustained the same increase in market value as the up interest because of the *direct value shift.

If the *up interest is issued at a *discount, group together all *up interests of the kind referred to in the relevant item that:

- (c) immediately before the *increase time, had the same *adjustable value as the up interest; and
- (d) because of the direct value shift, are issued at the same discount as the up interest.

Step 2. The notional adjustable value of the value shifted from the *down interests referred to in the relevant item to all the *up interests referred to in that item has already been worked out under one or more applications of step 3 of the method statement in section 725-365.

Step 3. Use the following formula to work out how much of that notional adjustable value is attributable to the value shifted to the group of *up interests referred to in step 1 of this method statement:

$$\text{Notional adjustable value} \times \frac{\text{Sum of the *market values, immediately after the *increase time, of all *up interests in the group}}{\text{Sum of the *market values, immediately after the *increase time, of all *up interests referred to in the relevant item}}$$

Step 4. The uplift in the *adjustable value of the *up interest under the relevant item is equal to:

$$\frac{\text{The amount worked out under step 3}}{\text{Number of interests in that group of *up interests}}$$

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

725-375 Uplifts in adjustable values of up interests under other table items

Use the following method statement to work out the uplift in

*adjustable value of an *up interest under:

- (a) item 3, 4, 5 or 8 of the table in subsection 725-250(2); or
- (b) item 2, 3, 6 or 9 of the table in subsection 725-335(3).

Method statement

Step 1. If the *market value of the *up interest increases because of the direct value shift, group together all *up interests of the kind referred to in the relevant item that sustained the same increase in market value as the up interest because of the direct value shift.

If the up interest is issued at a discount, group together all up interests of the kind referred to in the relevant item that are issued at a discount of the same amount as the up interest because of the direct value shift.

Step 2. The value shifted to that group of *up interests from the *down interests referred to in the relevant item is the amount worked out using the formula:

$$\frac{\text{Sum of the group increases or discounts}}{\text{Total value of the *direct value shift}} \times \frac{\text{Sum of the decreases in *market value of those *down interests}}{\text{Total value of the *direct value shift}}$$

where:

sum of the group increases or discounts means (as appropriate):

- (a) the sum of the increases in *market value of all *up interests in the group because of the *direct value shift; or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) the sum of the *discounts at which all *up interests in the group were issued because of the *direct value shift.

total value of the direct value shift means:

- (a) if the sum of the decreases in *market value of all *down interests because of the *direct value shift is equal to or greater than the sum of the increases in market value of all *up interests and all *discounts given because of the shift—the sum of the decreases; or
- (b) if the sum of the decreases in market value of all down interests because of the direct value shift is less than the sum of the increases in market value of all up interests and all discounts given because of the shift—the sum of the increases and discounts.

Step 3. The uplift in the *adjustable value of the *up interest under the relevant item is equal to:

$$\frac{\text{Value shifted}}{\text{Number of *up interests in the group}}$$

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

725-380 Decreases in adjustable value of down interests (with pre-shift losses)

Use the following method statement to work out the decrease in *adjustable value of a *down interest under:

- (a) item 5 or 7 of the table in subsection 725-250(2); or
- (b) item 3, 5 or 8 of the table in subsection 725-335(3).

Method statement

Step 1. Group together all *down interests of the kind referred to in the relevant item that:

- (a) immediately before the *decrease time, had the same *adjustable value as the down interest; and
- (b) immediately before that time had the same *market value as the down interest; and
- (c) sustained the same decrease in market value as the down interest because of the *direct value shift.

Step 2. Work out the value shifted from that group of *down interests to the *up interests referred to in the relevant item using the formula:

$$\frac{\text{Sum of the decreases in *market value of all *down interests in the group because of the *direct value shift}}{\text{Sum of the increases in *market value of, and *discounts on the issue of, those *up interests because of the *direct value shift}} \times \frac{\text{Sum of the increases in *market value of, and *discounts given on the issue of, all *up interests because of the *direct value shift}}{\text{Sum of the increases in *market value of, and *discounts on the issue of, those *up interests because of the *direct value shift}}$$

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Step 3. The decrease in *adjustable value of the *down interest under the relevant item is equal to:

$$\frac{\text{Value shifted}}{\text{Number of *down interests in the group}}$$

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Division 727—Indirect value shifting affecting interests in companies and trusts, and arising from non-arm's length dealings

Table of Subdivisions

Guide to Division 727

- 727-A Scope of the indirect value shifting rules
- 727-B What is an indirect value shift
- 727-C Exclusions
- 727-D Working out the market value of economic benefits
- 727-E Key concepts
- 727-F Consequences of an indirect value shift
- 727-G The realisation time method
- 727-H The adjustable value method
- 727-K Reduction of loss on equity or loan interests realised before the IVS time
- 727-L Indirect value shift resulting from a direct value shift

Guide to Division 727

727-1 What this Division is about

If there is a net shift of value between 2 related entities because of a non-arm's length dealing, this Division:

- (a) prevents losses from arising, because of the value shift, on realisation of direct or indirect equity or loan interests in the losing entity; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) within limits, prevents gains from arising, because of the value shift, on realisation of direct or indirect equity or loan interests in the gaining entity.

However, it does so only for interests that are owned by entities involved in the value shift.

Table of sections

727-5	What is an indirect value shift?
727-10	How does this Division deal with indirect value shifts?
727-15	When does an indirect value shift have consequences under this Division?
727-25	Effect of this Division on realisations at a loss that occur before the nature or extent of an indirect value shift can be fully determined

727-5 What is an indirect value shift?

- (1) An indirect value shift arises when there is a net shift of value from one entity to another.

Example: Company A transfers property to company B in return for a cash payment. If the market value of the property is \$180 million but the cash payment is only \$50 million, there is a net shift of value from company A to company B of \$130 million.

- (2) It is called *indirect* because the transaction will have the indirect effect of shifting value from equity or loan interests in the losing entity to equity or loan interests in the gaining entity.

This is because the net shift in value between the entities will usually *decrease* the market value of interests in the losing entity and *increase* the market value of interests in the gaining entity.

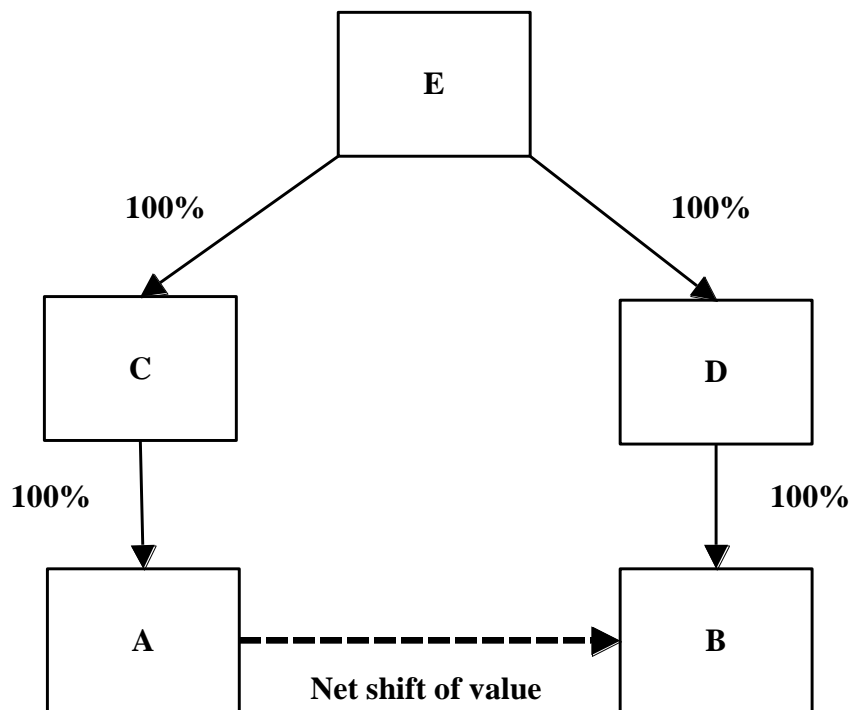

Example: Assume that company C owns all the shares in company A and company D owns all the shares in company B. The net shift of value from company A to company B will reduce the value of company C's shares in company A and increase the value of company D's shares in company B.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-5

- (3) It will also produce corresponding effects further up a chain of entities.

Example: Assume that company E owns all the shares in company C and company D. The net shift of value from company A to company B will also reduce the value of company E's shares in company C and increase the value of its shares in company D.

- (4) This Division is *not* concerned with the tax treatment of the net shift in value between the entities at the bottom of the chains. Instead, it deals with the effects on the market value of interests (both direct and indirect) in those entities.
- (5) An indirect value shift distorts the relationship between the market value of an equity or loan interest and its value for income tax purposes. When the interest is realised, this can produce an inappropriate loss for income tax purposes, or an inappropriate gain.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-10

Example: If company E sold its shares in company C, the indirect value shift could (apart from this Division) result in a loss for income tax purposes. Company E could defer the corresponding gain on its shares in company D by not selling these.

727-10 How does this Division deal with indirect value shifts?

- (1) To prevent an inappropriate loss or gain from arising on realisation of an interest, this Division reduces the amount of the loss or gain (realisation time method). However, a choice can be made to adjust the interest's value for income tax purposes in a way that takes account of the indirect value shift (adjustable value method).
- (2) This Division does *not* create taxing events giving rise to gains or losses.

727-15 When does an indirect value shift have consequences under this Division?

- (1) Indirect value shift is defined very broadly, but the application of this Division is limited in various ways.
- (2) The losing entity must be a company or trust (except a superannuation entity). However, the gaining entity can be any kind of entity, including an individual.
- (3) This Division does *not* apply if entities deal with each other at arm's length, or provide economic benefits in return for full market value.
- (4) The losing entity and the gaining entity must be connected by having had the same *ultimate controller*. In the case of closely held entities, they may instead be connected by having had a high level of *common ownership*.
- (5) The only interests affected are those owned by entities involved in the indirect value shift or by their associates.
- (6) There are a range of exclusions, such as:
 - (a) exclusions for minor indirect value shifts; and
 - (b) a series of rules designed to provide safe harbour treatment for common transactions relating to services; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-95 Value shifting

Division 727 Indirect value shifting affecting interests in companies and trusts, and arising from non-arm's length dealings

Section 727-25

- (c) anti-overlap provisions to prevent double-counting.
- (7) Rules of thumb are included to make it easier to determine the market value of some kinds of economic benefits.
- (8) To reduce compliance costs for:
 - (a) *small business entities; and
 - (b) entities that meet the CGT small business net asset threshold (\$6 million);interests owned by those entities are not affected by this Division.

727-25 Effect of this Division on realisations at a loss that occur before the nature or extent of an indirect value shift can be fully determined

- (1) To determine whether a scheme gives rise to an indirect value shift, it must be possible to identify all the economic benefits under the scheme, and the providers and recipients of those benefits.
- (2) Before then, interests that might be affected by the scheme may be realised at a loss. Subdivision 727-K contains special rules that apply if that happens.

Subdivision 727-A—Scope of the indirect value shifting rules

Table of sections

727-95	Main object
727-100	When an indirect value shift has consequences under this Division
727-105	Ultimate controller test
727-110	Common-ownership nexus test (if both losing and gaining entities are closely held)
727-125	No consequences if losing entity is a superannuation entity

727-95 Main object

The main object of this Division is:

- (a) to prevent inappropriate losses from arising on the realisation of direct or indirect equity or loan interests in an entity from which there has been a net shift of value because of a non-arm's length dealing; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) to prevent inappropriate gains from arising on the realisation of *direct equity interests or *indirect equity interests in the entity to which that value has been shifted;

in cases where the 2 entities are related as set out in this Division.

727-100 When an indirect value shift has consequences under this Division

An *indirect value shift (see Subdivision 727-B) has consequences under this Division if, and only if:

- (a) the *losing entity is at the time of the indirect value shift a company or trust (except one listed in section 727-125 (about superannuation entities)); and
- (b) in relation to either or both of the following:
 - (i) the losing entity *providing one or more economic benefits to the gaining entity *in connection with the *scheme from which the indirect value shift results;
 - (ii) the gaining entity providing one or more economic benefits to the losing entity in connection with the scheme;

the 2 entities are not dealing with each other at *arm's length; and

- (c) either or both of sections 727-105 and 727-110 are satisfied; and
- (d) no exclusion in Subdivision 727-C applies.

Note 1: The consequences for direct and indirect interests in the losing entity or in the gaining entity are set out in Subdivision 727-F. If those consequences are to be worked out using the realisation time method (under Subdivision 727-G), there are further exclusions for certain 95% services indirect value shifts: see section 727-700.

Note 2: An indirect value shift does not have consequences for interests in the losing entity or gaining entity owned immediately before the IVS time by an entity that:

- is a small business entity for each income year that includes any of the IVS period; or
- would satisfy the maximum net asset value test in section 152-15 throughout the IVS period.

See subsection 727-470(2).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-105

727-105 Ultimate controller test

It must be the case that, at some time during the **IVS period*:

- (a) the **losing entity* and the **gaining entity* have the same **ultimate controller*; or
- (b) the ultimate controller of the losing entity is the same entity that was the ultimate controller of the gaining entity at a different time during that period; or
- (c) the gaining entity is the ultimate controller of the losing entity; or
- (d) the losing entity is the ultimate controller of the gaining entity.

For the concept of *IVS period*, see section 727-150.

For the concept of *ultimate controller*, see section 727-350.

727-110 Common-ownership nexus test (if both losing and gaining entities are closely held)

(1) Or, it must be the case that:

- (a) at some time during the **IVS period*, neither the **losing entity* nor the **gaining entity* has 300 or more members (in the case of a company) or 300 or more beneficiaries (in the case of a trust); and
- (b) the losing entity and the gaining entity have a **common-ownership nexus* within the *IVS period*.

For the concept of *IVS period*, see section 727-150.

For the concept of *common-ownership nexus*, see section 727-400.

- (2) Section 124-810 (under which certain companies and trusts are not regarded as having 300 or more members or beneficiaries) also applies for the purposes of this Division.
- (3) In addition, this Division applies to a **non-fixed trust* as if it did not have 300 or more beneficiaries.

***To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

727-125 No consequences if losing entity is a superannuation entity

An *indirect value shift has no consequences under this Division if the *losing entity is one of these in relation to the income year in which the indirect value shift happens:

- (a) a *complying superannuation fund; or
- (b) a *non-complying superannuation fund; or
- (c) a *complying approved deposit fund; or
- (d) a *non-complying approved deposit fund; or
- (e) a *pooled superannuation trust.

Subdivision 727-B—What is an indirect value shift**Table of sections**

727-150	How to determine whether a scheme results in an indirect value shift
727-155	Providing economic benefits
727-160	When an economic benefit is provided <i>in connection with</i> a scheme
727-165	Preventing double-counting of economic benefits

727-150 How to determine whether a scheme results in an indirect value shift

- (1) A *scheme can result in one or more *indirect value shifts only if one or more economic benefits have been, are being, or are to be, *provided *in connection with the scheme.
- (2) The question whether the *scheme has that result must be determined by reference to the facts and circumstances that exist at the earliest time (either when the scheme is entered into or later) when it is reasonable to conclude that:
 - (a) all the economic benefits that have been, are being, or are to be, *provided *in connection with the scheme can be identified; and
 - (b) for each of those economic benefits:
 - (i) the entity that has provided, is providing, or is to provide, the economic benefit can be identified; and
 - (ii) the entity to which the economic benefit has been, is being, or is to be, provided can be identified; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-150

- (iii) if the economic benefit is to be provided—those entities are in existence, and the providing of the economic benefit is not contingent; and

- (c) there are no other economic benefits that are to be provided in connection with the scheme if some contingency is met.

That time is called the *IVS time* for the scheme.

Note: In most cases, the IVS time will be at or soon after the scheme is entered into. However, if:

- direct or indirect interests in a company or trust are realised at a loss when the IVS time for the scheme has not yet happened (even if it never happens); and
- the company or trust has provided, is providing, is to provide, or might provide, economic benefits in connection with the scheme;

there may be consequences for those interests similar to those of an indirect value shift resulting from the scheme. See Subdivision 727-K.

- (3) The ^{*}scheme results in an *indirect value shift* from one entity (the *losing entity*) to another entity (the *gaining entity*) if the total ^{*}market value of the one or more economic benefits (the *greater benefits*) that the losing entity has ^{*}provided, is providing, or is to provide, to the gaining entity ^{*}in connection with the scheme exceeds:

- (a) the total market value of the one or more economic benefits (*lesser benefits*) that the gaining entity has provided, is providing, or is to provide, to the losing entity in connection with the scheme; or
- (b) if there are no economic benefits covered by paragraph (a)—nil.

That excess is the amount of the indirect value shift.

- (4) The ^{*}market value of an economic benefit is to be determined as at the earliest time when it is reasonable to conclude that:
- (a) the economic benefit can be identified; and
- (b) paragraph (2)(b) is satisfied for that benefit.

For more rules affecting how the market value of an economic benefit is determined, see Subdivision 727-D.

- (5) Neither the ^{*}losing entity nor the ^{*}gaining entity needs to be a party to the ^{*}scheme. A benefit can be provided by act or omission.

^{*}To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (6) The indirect value shift happens at the *IVS time.
- (7) The *IVS period* for a *scheme starts immediately before the scheme is entered into and ends at the *IVS time.
- (8) A contingency that is artificial, or is virtually certain to be met, is treated under this Division as if it had been met.

727-155 Providing economic benefits

Examples

- (1) These are some examples of an entity providing an economic benefit to another entity:
 - (a) the first entity pays an amount to the other entity (in this case the *market value of the benefit is the amount of the payment);
 - (b) the first entity provides an asset or services to the other entity;
 - (c) the first entity does something that creates an asset in the hands of the other entity (for example, a company issues shares to its members);
 - (d) the first entity incurs a liability to the other entity, or increases a liability it already owes to the other entity;
 - (e) the first entity terminates all or part of a liability owed by the other entity;
 - (f) the first entity does something that increases the market value of an asset that the other entity holds.
- (2) These examples are not intended to limit the meaning of providing an economic benefit.

Things treated as economic benefits

- (3) This Division applies as if the ending of:
 - (a) a *primary equity interest or *secondary equity interest in an entity; or
 - (b) a right that the owner of a *primary equity interest or *secondary equity interest in an entity has because of owning the interest;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-160

were an economic benefit that the owner of the interest provides to that entity.

727-160 When an economic benefit is provided *in connection with* a scheme

- (1) An economic benefit has been, is being, is to be, or might be,
*provided by an entity to another entity *in connection with* a
*scheme if, and only if:
 - (a) the benefit has been, is being, is to be, or might be, provided under the scheme; or
 - (b) the providing of the benefit is reasonably attributable to:
 - (i) something that has been, is being, is to be, or might be, done or omitted under the scheme (whether before, at the time of, or after, the providing of the benefit) by an entity that is either of those entities or a third entity; or
 - (ii) 2 or more such things.
- (2) An entity referred to in paragraph (1)(b) need not be a party to the
*scheme. A benefit can be provided by act or omission.

727-165 Preventing double-counting of economic benefits

Rights to have economic benefits provided

- (1) If an economic benefit that has been, is being, is to be, or might be,
*provided as mentioned in subsection 727-150(3) or 727-855(1) consists of a right to have economic benefits provided, that subsection applies to the right but does not also apply to those economic benefits.

Example: Acme Ltd enters into an agreement with Paragon Pty Ltd under which Acme is to provide services to Paragon over a 5 year period in return for payments.

Paragon's rights under the agreement are economic benefits that Acme provides to Paragon when the agreement is made. The services are economic benefits that Acme is to provide to Paragon.

Because of this subsection, the market value of the rights is taken into account in working out whether there has been an indirect value shift, but the market value of the services is not.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-200

Effect of an economic benefit on interests in the entity to which it is provided

- (2) If an economic benefit has been, is being, or is to be, *provided to an entity, then, for the purposes of subsection 727-150(3) or 727-855(1), disregard an economic benefit to the extent that:
- (a) it consists of an increase in the *market value of:
 - (i) an *equity or loan interest in the entity; or
 - (ii) an *indirect equity or loan interest in the entity; and
 - (b) the increase is reasonably attributable to the first-mentioned benefit.

Subdivision 727-C—Exclusions**Guide to Subdivision 727-C****727-200 What this Subdivision is about**

Some indirect value shifts do not have consequences under this Division.

- Note 1: If the consequences of an indirect value shift are to be worked out using the realisation time method (under Subdivision 727-G), there are further exclusions for certain 95% services indirect value shifts: see section 727-700.
- Note 2: For cases where there may be both a direct value shift and an indirect value shift, see Subdivision 727-L.

Table of sections**General**

- 727-215 Amount does not exceed \$50,000
- 727-220 Disposal of asset at cost, or at undervalue if full value is not reflected in adjustable values of equity or loan interests in the losing entity

Indirect value shifts involving services

- 727-230 Services provided by losing entity to gaining entity for at least their direct cost

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-95 Value shifting

Division 727 Indirect value shifting affecting interests in companies and trusts, and arising from non-arm's length dealings

Section 727-215

- 727-235 Services provided by gaining entity to losing entity for no more than a commercially realistic price
- 727-240 What services certain provisions apply to
- 727-245 How to work out certain amounts for the purposes of sections 727-230 and 727-235

Anti-overlap provisions

- 727-250 Distribution by an entity to a member or beneficiary

Miscellaneous

- 727-260 Shift down a wholly-owned chain of entities

General

727-215 Amount does not exceed \$50,000

- (1) An *indirect value shift does not have consequences under this Division if the amount of it does not exceed \$50,000.
- (2) However, subsection (1) does not apply to an *indirect value shift (and is taken never to have applied to it) if:
 - (a) before, at the same time as, or after it, another indirect value shift happens for which the same entity is the losing entity as for the first indirect value shift; and
 - (b) having regard to all relevant circumstances, it is reasonable to conclude that the sole or main reason why one of the indirect value shifts happened under a different *scheme from the other was so that its amount would not exceed \$50,000.

727-220 Disposal of asset at cost, or at undervalue if full value is not reflected in adjustable values of equity or loan interests in the losing entity

- (1) An *indirect value shift does not have consequences under this Division if the conditions in this section are met.
- (2) The *greater benefits must consist entirely of:
 - (a) the *losing entity transferring a *CGT asset to the *gaining entity; or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) a right to have the losing entity transfer an asset to the gaining entity.
- (3) There must be *lesser benefits and, as at the *IVS time, the total *market value of the lesser benefits must not be less than the greatest of these amounts:
 - (a) the asset's *cost base at that time;
 - (b) the asset's cost;
 - (c) the asset's market value immediately before the most recent time (if any), since the *losing entity *acquired the asset, when an *affected owner has acquired:
 - (i) a *primary equity interest in the losing entity; or
 - (ii) an *indirect primary equity interest in the losing entity.
- (4) A *primary equity interest in an entity is an *indirect primary equity interest* in another entity if, and only if:
 - (a) the first entity owns a primary equity interest in the other entity; or
 - (b) the first entity owns a primary equity interest that is an indirect primary equity interest in the other entity because of one or more other applications of this subsection.

Indirect value shifts involving services

727-230 Services provided by losing entity to gaining entity for at least their direct cost

An *indirect value shift does not have consequences under this Division if:

- (a) to the extent of at least 95% of their total *market value, the *greater benefits consist entirely of:
 - (i) a right to have services that are covered by section 727-240 provided directly by the losing entity to the gaining entity; or
 - (ii) services that are covered by section 727-240 and have been, are being, or are to be, so provided;
- or both; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-235

- (b) there are *lesser benefits and, as at the *IVS time, the total market value of the lesser benefits is not less than the total of:
 - (i) the present value of the direct cost to the losing entity of providing the services; and
 - (ii) the present value of a reasonable allocation of the total direct cost to the losing entity of providing services that include the first-mentioned services (so far as it is not already covered by subparagraph (i)).

To work out the costs and present values referred to in paragraph (b), see section 727-245.

727-235 Services provided by gaining entity to losing entity for no more than a commercially realistic price

- (1) An *indirect value shift does not have consequences under this Division if:
 - (a) there are *lesser benefits and, to the extent of at least 95% of their total *market value, the lesser benefits consist entirely of:
 - (i) a right to have services that are covered by section 727-240 provided directly by the gaining entity to the losing entity; or
 - (ii) services that are covered by section 727-240 and have been, are being, or are to be, so provided;or both; and
 - (b) as at the *IVS time, the total market value of the greater benefits is not more than the total of:
 - (i) the present value of the direct cost to the gaining entity of providing the services; and
 - (ii) the present value of a reasonable allocation of the total direct cost to the gaining entity of providing services that include the first-mentioned services (so far as it is not already covered by subparagraph (i)); and
 - (iii) the present value of a reasonable allocation of the indirect cost to the gaining entity of providing the first-mentioned services; and
 - (iv) the mark-up worked out under subsection (2) or (3) of this section.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-240

To work out the costs and present values referred to in paragraph (1)(b), see section 727-245.

- (2) If it is reasonable to estimate that an entity providing the same quantity of services of the same kind in the same market would charge for them on the basis of a particular percentage mark-up, or on the basis of a percentage mark-up within a particular range, the mark-up for the purposes of subparagraph (1)(b)(iv) is:
- the total of the respective present values of the costs mentioned in subparagraphs (1)(b)(i), (ii) and (iii);
- multiplied by:
- that percentage mark-up, or the highest percentage in that range.
- (3) Otherwise, the mark-up for the purposes of subparagraph (1)(b)(iv) is 10% of the total of the respective present values of the costs mentioned in subparagraphs (1)(b)(i), (ii) and (iii).

727-240 What services certain provisions apply to

- (1) Sections 727-230, 727-235, 727-700 and 727-725 apply only to services consisting of:
- (a) doing work (including professional work and giving professional advice or any other kind of advice); or
- Note: Examples include accounting or legal services; advertising services and financial management services.
- (b) providing (including allowing use of) facilities for entertainment, recreation or instruction; or
 - (c) leasing, renting, hiring, or allowing the use of, any asset; or
 - (d) packaging, transporting or storing any property; or
 - (e) providing insurance; or
 - (f) services provided, by a banker to a customer, in the course of the banker carrying on the business of banking; or
 - (g) lending money or providing any other form of financial accommodation.
- (2) It does not matter whether services covered by paragraph (1)(a) also involve supplying property.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-245

727-245 How to work out certain amounts for the purposes of sections 727-230 and 727-235

- (1) The costs mentioned in paragraph 727-230(b) or 727-235(1)(b) are to be worked out:
 - (a) in accordance with generally accepted accounting practices; and
 - (b) to the extent that the services are to be provided in the future, on the basis of a reasonable estimate of those costs.
 - (2) To avoid doubt, the direct cost or indirect cost mentioned in paragraph 727-230(b) or 727-235(1)(b) does *not* include:
 - (a) to the extent that the services consist of or include lending money or providing any other form of financial accommodation—the amount of the loan or other accommodation; or
 - (b) to the extent that the services consist of or include leasing, renting, hiring, or allowing the use of, any asset:
 - (i) the cost of acquiring the asset; or
 - (ii) the cost of acquiring an interest in, or right in respect of, the asset in order to provide the services.
- Example: Acme Ltd is the holding company of Group Financier Pty Ltd. Group Financier Pty Ltd borrows \$20 million at 7% per annum, and on lends it to other subsidiaries of Acme Ltd at 8% per annum.
- The \$20 million does not form part of Group Financier Pty Ltd's direct cost of the services it provides to the other subsidiaries in the form of the on lending. However, the 7% interest that Group Financier Pty Ltd pays on the \$20 million does form part of that direct cost.
- (3) The present values mentioned in paragraph 727-230(b) or 727-235(1)(b) are to be worked out using a discount rate equal to the rate that, for the purposes of section 109N of *Income Tax Assessment Act 1936*, is the benchmark interest rate for the income year in which the *IVS time occurs.

Note: That section is about distributions to entities connected with a private company.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Anti-overlap provisions**727-250 Distribution by an entity to a member or beneficiary**

- (1) An *indirect value shift does not have consequences under this Division if:
- (a) the *greater benefits consist entirely of:
 - (i) a distribution of income or capital that the *losing entity makes to the *gaining entity; or
 - (ii) a right to a distribution of income or capital that the losing entity is to make to the gaining entity; because the gaining entity holds *primary equity interests in the losing entity; and
 - (b) either:
 - (i) an amount covered by one or more of subsections (2), (3) and (4); or
 - (ii) the total of 2 or more such amounts; equals or exceeds the amount of the distribution.

Conditions

- (2) This subsection covers an amount that the assessable income or exempt income of the gaining entity for any income year includes because of the distribution or right.
- (3) This subsection covers an amount by which the *cost base or *reduced cost base (or both) of some or all of the *primary equity interests referred to in subsection (1) changes because of the distribution or right.
- (4) This subsection covers an amount that, because of the distribution or right, is taken into account:
 - (a) under section 116-20 in working out the *capital proceeds of a *CGT event that happens during any income year to some or all of the *primary equity interests referred to in subsection (1); or
 - (b) in working out a *capital gain that an entity makes from CGT event E4 or G1 happening during any income year to some or all of those primary equity interests; or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-260

- (c) in working out whether a loss or gain is *realised for income tax purposes by a *realisation event that happens to some or all of those primary equity interests (in their character as *trading stock or *revenue assets).

Application of section to deemed dividend

- (5) If a *corporate tax entity makes a *distribution that is not otherwise a distribution of income or capital, this section applies as if the distribution were a distribution of income or capital the entity made.

Note: Subsection (5) extends this section to cover something that is taken to be a dividend paid by a company. Compare item 1 of the table in subsection 960-120(1).

Miscellaneous

727-260 Shift down a wholly-owned chain of entities

- (1) An *indirect value shift does not have consequences under this Division if the *gaining entity is a *wholly-owned subsidiary of the *losing entity throughout the *IVS period.

Exception: impact on market value of primary loan interest

- (2) However, subsection (1) does not apply if the *indirect value shift has produced a *disaggregated attributable decrease, in the *market value of an *affected interest in the *losing entity that is also a *primary loan interest in an entity covered by subsection (3), for the owner of the interest.
- (3) This subsection covers:
- (a) the *losing entity; and
 - (b) an entity that owns *primary equity interests in an entity that this subsection covers because of one or more previous applications of it.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 727-D—Working out the market value of economic benefits**Table of sections**

727-300	What the rules in this Subdivision are for
727-315	Transfer, for its adjustable value, of depreciating asset acquired for less than \$1,500,000

727-300 What the rules in this Subdivision are for

This Subdivision is used in determining whether there has been an *indirect value shift and, if so:

- (a) whether it has consequences under this Division; and
- (b) if it does, the amount of it.

727-315 Transfer, for its adjustable value, of depreciating asset acquired for less than \$1,500,000

- (1) This Division applies to an economic benefit consisting of:

- (a) an entity transferring to another entity a *depreciating asset (except a building or structure) for which the transferring entity has deducted or can deduct an amount under Division 40; or
- (b) a right to have an entity transfer such a depreciating asset to another entity;

as if the economic benefit's *market value were equal to the greater (the *residual value*) of:

- (c) the asset's *adjustable value at the time when the economic benefit was or is *provided; and
- (d) the value assigned to the asset at that time in the transferring entity's books;

but only if:

- (e) as at that time, the *cost of the unit to the transferring entity is less than \$1,500,000; and
- (f) it is reasonable for the transferring entity to conclude that the unit's actual market value at that time was, is, or will be, not

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-95 Value shifting

Division 727 Indirect value shifting affecting interests in companies and trusts, and arising from non-arm's length dealings

Section 727-315

less than 80%, and not more than 120%, of the residual value; and

- (g) both the transferring entity and the other entity choose to have the market value of that economic benefit treated as being equal to the residual value.

(2) If:

- (a) each of 2 or more economic benefits of the kind mentioned in subsection (1) has been, is being, is to be, or might be, provided by the same transferring entity, to the same other entity, *in connection with the same *scheme; and
- (b) it is reasonable for the transferring entity to conclude that the total of the *depreciating assets' actual *market values at the respective times when the economic benefits were or are *provided was, is, or will be, not less than 80%, and not more than 120%, of the total of their respective residual values under subsection (1);

paragraph (1)(f) is taken to be satisfied for each of the economic benefits.

Subdivision 727-E—Key concepts

Table of sections

Ultimate controller

- 727-350 *Ultimate controller*
- 727-355 *Control (for value shifting purposes)* of a company
- 727-360 *Control (for value shifting purposes)* of a fixed trust
- 727-365 *Control (for value shifting purposes)* of a non-fixed trust
- 727-370 Preventing double counting for percentage stake tests
- 727-375 Tests in this Subdivision are exhaustive

Common-ownership nexus and ultimate stake of a particular percentage

- 727-400 When 2 entities have a common-ownership nexus within a period
- 727-405 *Ultimate stake* of a particular percentage in a company
- 727-410 *Ultimate stake* of a particular percentage in a fixed trust
- 727-415 Rules for tracing

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Ultimate controller**727-350 *Ultimate controller***

An entity is an ***ultimate controller*** of another entity if, and only if:

- (a) the first entity ^{*}controls (for value shifting purposes) the other entity; and
- (b) there is no entity that controls (for value shifting purposes) both the first entity and the other entity.

727-355 *Control (for value shifting purposes) of a company**50% stake test*

- (1) An entity ***controls (for value shifting purposes)*** a company if the entity, or the entity and its ^{*}associates between them:
 - (a) can exercise, or can control the exercise of, at least 50% of the voting power in the company (either directly, or indirectly through one or more interposed entities); or
 - (b) have the right to receive (either directly, or indirectly through one or more interposed entities) at least 50% of any dividends that the company may pay; or
 - (c) have the right to receive (either directly, or indirectly through one or more interposed entities) at least 50% of any distribution of capital of the company.

40% stake test

- (2) An entity also ***controls (for value shifting purposes)*** a company if the entity, or the entity and its ^{*}associates between them:
 - (a) can exercise, or can control the exercise of, at least 40% of the voting power in the company (either directly, or indirectly through one or more interposed entities); or
 - (b) have the right to receive (either directly, or indirectly through one or more interposed entities) at least 40% of any dividends that the company may pay; or
 - (c) have the right to receive (either directly, or indirectly through one or more interposed entities) at least 40% of any distribution of capital of the company;

^{*}To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-360

unless an entity (other than the first entity and its associates) either alone or together with its associates in fact controls the company.

Actual control test

- (3) An entity also ***controls (for value shifting purposes)*** a company if the entity, either alone or together with its *associates, in fact controls the company.

727-360 Control (for value shifting purposes) of a fixed trust

40% stake test

- (1) An entity ***controls (for value shifting purposes)*** a *fixed trust if the entity, or the entity and its *associates between them, have the right to receive (either directly, or indirectly through one or more interposed entities) at least 40% of any distribution of trust income, or trust capital, to beneficiaries of the trust.

Other tests

- (2) An entity also ***controls (for value shifting purposes)*** a *fixed trust if:
- (a) the entity, or an *associate of the entity, whether alone or with other associates (the ***relevant entity***), has the power to obtain the beneficial enjoyment of the trust's capital or income (whether or not by exercising its power of appointment or revocation, and whether with or without another entity's consent); or
 - (b) the relevant entity is able to control the application of the trust's capital or income in any manner (whether directly or indirectly); or
 - (c) the relevant entity is able to do a thing mentioned in paragraph (a) or (b) under a *scheme; or
 - (d) a trustee of the trust is accustomed or is under an obligation (whether formally or informally), or might reasonably be expected, to act in accordance with the relevant entity's directions, instructions or wishes; or
 - (e) the relevant entity is able to remove or appoint a trustee of the trust.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

727-365 Control (for value shifting purposes) of a non-fixed trust*Trustee tests*

- (1) An entity **controls (for value shifting purposes)** a *non-fixed trust if:
- (a) the entity or an *associate of the entity is a trustee of the trust; or
 - (b) the entity, or the entity and its *associates between them, can remove or appoint the trustee, or one or more of the trustees, of the trust; or
 - (c) a trustee of the trust is accustomed to act, is under an obligation (whether formally or informally) to act, or might reasonably be expected to act, in accordance with the directions, instructions or wishes of:
 - (i) the entity or an *associate of the entity; or
 - (ii) 2 or more entities, at least one of which is the entity or an associate of the entity.

Tests based on control of the trust income or capital

- (2) An entity also **controls (for value shifting purposes)** a *non-fixed trust if the entity, or the entity and its *associates between them:
- (a) have the power to obtain the beneficial enjoyment of trust income or capital; or
 - (b) can control in any way at all, whether directly or indirectly, the application of trust income or capital; or
 - (c) can, under a *scheme, gain the enjoyment or control referred to in paragraph (a) or (b).
- (3) An entity also **controls (for value shifting purposes)** a *non-fixed trust if:
- (a) the entity, or any of its *associates, can benefit under the trust otherwise than because of a *fixed entitlement to a share of the income or capital of the trust; or
 - (b) if the entity, or the entity and its *associates between them, have the right to receive (either directly, or indirectly through one or more interposed entities) at least 40% of any distribution of trust income, or trust capital.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-370

727-370 Preventing double counting for percentage stake tests

If an interest giving an entity, or an entity and its *associates:

- (a) the ability to exercise, or control the exercise of, any of the voting power in a company; or
- (b) the right to receive dividends that a company may pay; or
- (c) the right to receive a distribution of capital of a company; or
- (d) the right to receive a distribution of trust income or trust capital;

is both direct and indirect, and (apart from this section) would be counted more than once in applying subsection 727-355(1) or (2) or section 727-360, only the direct interest is to be counted.

727-375 Tests in this Subdivision are exhaustive

An entity does not *control (for value shifting purposes)* a company or trust except as provided in this Subdivision.

Common-ownership nexus and ultimate stake of a particular percentage

727-400 When 2 entities have a common-ownership nexus within a period

- (1) 2 entities have a *common-ownership nexus* within a period if, and only if, they satisfy the test in any of the one or more items in the table applicable to them.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Common-ownership nexus within a period

Item	If the entities are:	This is the test:
1	both companies	<p>There must be 2 or more *ultimate owners who:</p> <p>(a) at some time during that period, because of the same test in section 727-405, have *ultimate stakes, of percentages totalling at least 80%, in one of the companies; and</p> <p>(b) at that or a different time during that period, because of that same test, have *ultimate stakes, of percentages totalling at least 80%, in the other company</p> <p>Also, subsection (2) of this section must be satisfied</p>
2	both *fixed trusts	<p>There must be 2 or more *ultimate owners who:</p> <p>(a) at some time during that period, because of the same test in section 727-410, have *ultimate stakes, of percentages totalling at least 80%, in one of the trusts; and</p> <p>(b) at that or a different time during that period, because of that same test, have *ultimate stakes, of percentages totalling at least 80%, in the other trust</p> <p>Also, subsection (2) of this section must be satisfied</p>
3	a company and a *fixed trust	<p>There must be 2 or more *ultimate owners who:</p> <p>(a) at some time during that period, because of the same test in section 727-405, have *ultimate stakes, of percentages totalling at least 80%, in the company; and</p> <p>(b) at that or a different time during that period, because of the same test in section 727-410, have *ultimate stakes, of percentages totalling at least 80%, in the trust</p> <p>Also, subsection (2) of this section must be satisfied</p>
4	a company and a *non-fixed trust	<p>There must be 2 or more *ultimate owners:</p> <p>(a) each of whom *controls (for value shifting purposes) the non-fixed trust because of section 727-365 at the same time during that period; and</p> <p>(b) who, at that or a different time during that period, have *ultimate stakes, of percentages totalling at least 80%, in the company because of the same test in section 727-405</p>

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-95 Value shifting

Division 727 Indirect value shifting affecting interests in companies and trusts, and arising from non-arm's length dealings

Section 727-405

Common-ownership nexus within a period

Item	If the entities are:	This is the test:
5	a *fixed trust and a *non-fixed trust	There must be 2 or more *ultimate owners: (a) each of whom *controls (for value shifting purposes) the non-fixed trust because of section 727-365 at the same time during that period; and (b) who, at that or a different time during that period, have *ultimate stakes, of percentages totalling at least 80%, in the fixed trust because of the same test in section 727-410

Additional condition about profile of percentage ultimate stakes held by 2 or more ultimate owners

- (2) In order to satisfy the test in item 1, 2 or 3 in the table in subsection (1), at least one of subsections (3), (4) and (5) must be satisfied.
- (3) For at least one of the *ultimate owners referred to in that item, the percentage of the *ultimate stake that owner has as mentioned in paragraph (a) in the last column of that item must be at least 40%, and so must the percentage of the ultimate stake that owner has as mentioned in paragraph (b) in the last column of that item.
- (4) Alternatively, for *each* of those *ultimate owners, the percentage of the *ultimate stake that owner has as mentioned in that paragraph (a) must be the same as the percentage of the ultimate stake that owner has as mentioned in that paragraph (b).
- (5) Alternatively, the number of those *ultimate owners must not exceed 16.

727-405 *Ultimate stake of a particular percentage in a company*

- (1) This section sets out 3 tests of whether an entity has an **ultimate stake** of a particular percentage (the **test percentage**) in a company.

Note: In applying the tests, follow the rules in section 727-415.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Voting power

- (2) The first test is that, after tracing, to the *ultimate owners who ultimately hold it, the direct and indirect ownership of all *shares in the company that carry the right to exercise voting power in the company, that ownership is held by the entity to the extent of the test percentage of that voting power.

Dividends

- (3) The second test is that, after tracing, to the *ultimate owners who ultimately hold it, the direct and indirect ownership of all *shares in the company that carry the right to receive any dividends that the company may pay, that ownership is held by the entity to the extent of the test percentage of those dividends.

Capital distributions

- (4) The third test is that, after tracing, to the *ultimate owners who ultimately hold it, the direct and indirect ownership of all *shares in the company that carry the right to receive any distribution of capital of the company, that ownership is held by the entity to the extent of the test percentage of the distribution.

Certain shares ignored

- (5) In tracing the ownership of *shares in a company, ignore *shares whose *dividends can reasonably be regarded as being equivalent to the payment of interest on a loan having regard to:
- (a) how the dividends are calculated; and
 - (b) the conditions applying to the payment of the dividends; and
 - (c) any other relevant matters.

727-410 Ultimate stake of a particular percentage in a fixed trust

- (1) This section sets out 2 tests of whether an entity has an *ultimate stake* of a particular percentage (the *test percentage*) in a *fixed trust.

Note: In applying the tests, follow the rules in section 727-415.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-95 Value shifting

Division 727 Indirect value shifting affecting interests in companies and trusts, and arising from non-arm's length dealings

Section 727-415

Income distributions

- (2) The first test is that, after tracing, to the *ultimate owners who ultimately hold them, the direct and indirect rights to receive distributions of trust income, those rights are held by the entity to the extent of the test percentage of each such distribution.

Capital distributions

- (3) The second test is that, after tracing, to the *ultimate owners who ultimately hold them, the direct and indirect rights to receive distributions of trust capital, those rights are held by the entity to the extent of the test percentage of each such distribution.

727-415 Rules for tracing

- (1) In applying sections 727-400, 727-405 and 727-410, follow the rules in this section.

Interposed entities

- (2) Tracing is to be done through any interposed entities.

Ownership or rights held jointly

- (3) If some of the ownership or rights of a particular kind in relation to a company or trust are held by 2 or more entities jointly or in common, each of the entities is treated as holding a proportion of the ownership or rights so held. The proportion is to be worked out on a reasonable basis, so that the total of the proportions equals the total of the ownership or rights so held.

Ownership or rights held by associate

- (4) If, at a particular time:
- (a) an *ultimate owner is an *associate of another ultimate owner; and
 - (b) the associate ultimately holds some of the ownership or rights of a particular kind in relation to a company or trust;
- then, in determining whether the other ultimate owner is one of 2 or more ultimate owners because of whom the conditions in an

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-450

item in the table in section 727-400 are satisfied, the ownership or rights of that kind in relation to the company or trust held by the associate at that time:

- (c) to the extent of a particular percentage, may be treated as being instead held by the other ultimate owner; and
 - (d) to the extent so treated, cannot be treated as being instead held by any other ultimate owner of whom the first ultimate owner is an associate.
- (5) If one or more applications of subsection (4) are necessary to establish that an *ultimate owner is one of 2 or more ultimate owners because of whom the conditions in an item in the table in section 727-400 are satisfied, that subsection must be applied accordingly.

Subdivision 727-F—Consequences of an indirect value shift**Guide to Subdivision 727-F****727-450 What this Subdivision is about**

This Subdivision tells you:

- which method to use to work out the consequences of an indirect value shift for equity or loan interests, and indirect equity or loan interests, in the losing entity and in the gaining entity; and
- which interests, and which owners, are affected.

Table of sections**Operative provisions**

727-455 Consequences of the indirect value shift

Affected interests

727-460 *Affected interests* in the losing entity

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-95 Value shifting

Division 727 Indirect value shifting affecting interests in companies and trusts, and arising from non-arm's length dealings

Section 727-455

- 727-465 *Affected interests* in the gaining entity
- 727-470 Exceptions
- 727-520 *Equity or loan interest* and related terms
- 727-525 *Indirect equity or loan interest*

Affected owners

- 727-530 Who are the *affected owners*

Choices about method to be used

- 727-550 Choosing the adjustable value method
- 727-555 Giving other affected owners information about the choice

Operative provisions

727-455 Consequences of the indirect value shift

The consequences (if any) of an *indirect value shift must be worked out using the *realisation time method unless the *adjustable value method is chosen in accordance with section 727-550.

Note: Later provisions of this Subdivision set out the interests to which those consequences apply (see sections 727-460 to 727-525), which are in turn determined by who are the affected owners (see section 727-530).

Affected interests

727-460 *Affected interests in the losing entity*

These are the *affected interests* in the *losing entity:

- (a) each *equity or loan interest that an *affected owner owns in the losing entity immediately before the *IVS time; and
- (b) each equity or loan interest that:
 - (i) an affected owner owns in another affected owner immediately before the IVS time; and
 - (ii) is an *indirect equity or loan interest in the losing entity; (except one covered by an exception in section 727-470).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

727-465 Affected interests in the gaining entity

If immediately before the *IVS time the *gaining entity is a company or trust (except one listed in section 727-125 (about superannuation entities)), these are the *affected interests* in the gaining entity:

- (a) each *equity or loan interest that an *affected owner owns in the gaining entity immediately before the *IVS time; and
 - (b) each equity or loan interest that:
 - (i) an affected owner owns in another affected owner immediately before the IVS time; and
 - (ii) is an *indirect equity or loan interest in the gaining entity;
- (except one covered by an exception in section 727-470).

727-470 Exceptions*Mere active participants*

- (1) An *equity or loan interest that an *active participant in the *scheme owns in another active participant immediately before the *IVS time is not an *affected interest in the *losing entity or in the *gaining entity unless one of the active participants is also covered by 1, 2, 3 or 4 in the table in subsection 727-530(1) (about who is an affected owner).

Entity that is a small business entity, or satisfies the maximum net asset value test for small business relief

- (2) An *equity or loan interest that an entity (the **owner**) owns immediately before the *IVS time is not an *affected interest in the *losing entity or in the *gaining entity if the owner:
 - (a) is a *small business entity for each income year that includes any of the *IVS period; or
 - (b) would satisfy the maximum net asset value test in section 152-15 throughout the *IVS period.
- (3) If the owner is not in existence for part of the *IVS period, disregard that part in applying subsection (2).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-520

Interests in superannuation entities not covered

- (4) An *equity or loan interest in an *affected owner is not an *affected interest in the *losing entity or in the *gaining entity if the affected owner is an entity listed in section 727-125 (about superannuation entities) in relation to the income year in which the *IVS time happens.

727-520 Equity or loan interest and related terms

- (1) An **equity or loan interest** in an entity is a *primary interest, or a *secondary interest, in the entity.
- (2) A **primary interest** in an entity is a *primary equity interest, or a *primary loan interest, in the entity.
- (3) The meaning of **primary equity interest** in an entity is set out in the table.

Primary equity interests		
Item	In the case of this kind of entity:	Primary equity interest means:
1	a company	a *share in the company; or an interest as joint owner (including as tenant in common) of a *share in the company
2	a trust	any of these: (a) an interest in the trust income or trust capital; or (b) any other interest in the trust; or (c) an interest as joint owner (including as tenant in common) of an interest covered by paragraph (a) or (b)

- (4) A **primary loan interest** in an entity is:
- (a) a loan to the entity; or
- (b) an interest as joint owner (including as tenant in common) of a loan to the entity.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (5) A ***secondary interest*** in an entity is a *secondary equity interest, or a *secondary loan interest, in the entity.
- (6) A ***secondary equity interest*** in an entity is a right or option:
 - (a) to *acquire an existing *primary equity interest in the entity; or
 - (b) to have the entity issue a new primary equity interest.
- (7) A ***secondary loan interest*** in an entity is a right or option:
 - (a) to *acquire an existing *primary loan interest in the entity; or
 - (b) to have the entity issue a new primary loan interest.

727-525 Indirect equity or loan interest

An *equity or loan interest in an entity is an ***indirect equity or loan interest*** in another entity if, and only if:

- (a) the first entity owns an equity or loan interest in the other entity; or
- (b) the first entity owns an equity or loan interest that is an indirect equity or loan interest in the other entity because of one or more other applications of this section.

Affected owners**727-530 Who are the affected owners**

- (1) The table sets out the ***affected owners*** for the *indirect value shift.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-95 Value shifting

Division 727 Indirect value shifting affecting interests in companies and trusts, and arising from non-arm's length dealings

Section 727-530

Affected owners

Item	In this case:	The affected owners include:
1	At least one condition in section 727-105 (ultimate controller test) is satisfied	each *ultimate controller because of which a condition in that section is satisfied; and each entity that, at a time during the *IVS period when such an ultimate controller *controlled (for value shifting purposes) the <i>losing</i> entity, was an *intermediate controller of the <i>losing</i> entity; and each entity that, at a time during the IVS period when such an ultimate controller controlled (for value shifting purposes) the <i>gaining</i> entity, was an intermediate controller of the <i>gaining</i> entity
2	The conditions in section 727-110 (common-ownership nexus test) are satisfied in respect of: (a) one or more times; or (b) one or more sets of 2 times	each *ultimate owner who is one of 2 or more ultimate owners because of whom the condition in the applicable item of that table is satisfied in respect of any of those times; and each entity through which ownership or rights are traced to such an ultimate owner in applying the applicable item of that table in respect of any of those times
3	Any case	the *losing entity and the *gaining entity
4	Any case	each entity that, at any time after the *scheme was entered into, is an *associate of an entity that is an affected owner because of item 1, 2 or 3 of this table
5	Any case	each *active participant in the *scheme

- (2) An entity is an *intermediate controller* of another entity if, and only if:
- (a) the first entity *controls (for value shifting purposes) the other entity; and
 - (b) the first entity is *controlled (for value shifting purposes) by an *ultimate controller of the other entity.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Active participants (if both losing and gaining entities are closely held)

- (3) An entity (the **first entity**) is an **active participant** in the *scheme if:
- (a) at some time during the *IVS period, neither the losing entity nor the gaining entity has 300 or more members (in the case of a company) or 300 or more beneficiaries (in the case of a trust); and
 - (b) the first entity:
 - (i) actively participated in, or directly facilitated, the entering into of the *scheme; or
 - (ii) at some time during the *IVS period actively participated in, or directly facilitated, the carrying out of the scheme;
 (whether or not it did so at the direction of some other entity); and
 - (c) at some time during the *IVS period, the first entity owned:
 - (i) an *equity or loan interest in the losing entity or in the gaining entity; or
 - (ii) an *indirect equity or loan interest in the losing entity or in the gaining entity; and
 - (d) the first entity is neither the losing entity nor the gaining entity.

Note: Subsections 727-110(2) and (3) contain rules about when an entity is treated as having or not having 300 or more members or beneficiaries.

Choices about method to be used

727-550 Choosing the adjustable value method

- (1) This section sets out rules for:
- (a) choosing to use the *adjustable value method to work out the consequences of an *indirect value shift; or
 - (b) choosing (when using the adjustable value method) *not* to work out on a *loss-focussed basis the reductions in the *adjustable values of *affected interests.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-95 Value shifting

Division 727 Indirect value shifting affecting interests in companies and trusts, and arising from non-arm's length dealings

Section 727-550

Who makes the choice

- (2) The choice must be made in accordance with the table.

Who makes the choice		
Item	In this case:	The choice must be made by:
1	If the conditions in section 727-110 (common-ownership nexus test) are satisfied	jointly by the *ultimate owners because of whom the condition in the applicable item of the table in section 727-400 is satisfied
2	Item 1 does not apply, and there is an entity: (a) who is the sole *ultimate controller because of whom the conditions in section 727-105 (ultimate controller test) are satisfied; or (b) who would be that sole ultimate controller if sections 727-355 to 727-375 were applied ignoring that entity's *associates	that entity
3	Neither of items 1 and 2 applies	jointly by the 2 or more *ultimate controllers because of whom the conditions in section 727-105 (ultimate controller test) are satisfied

When choice must be made

- (3) The choice must be made within 2 years after the *first* *realisation event that happens to an *affected interest at or after the IVS time.

Choice binds all affected owners

- (4) The choice binds all *affected owners for the *indirect value shift.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

727-555 Giving other affected owners information about the choice

- (1) An entity that makes a choice under section 727-550 (including a choice made jointly with one or more other entities) must inform all entities that it knows to be *affected owners for the *indirect value shift about the content of the choice. The entity must do so in writing within one month after making the choice.

Penalty: 30 penalty units.

- (2) If:
 - (a) a choice under section 727-550 is made jointly by 2 or more entities; and
 - (b) one of the entities complies with subsection (1);no other entity need comply with that subsection in relation to that choice.
- (3) If an *affected owner for an *indirect value shift has reason to believe that an entity may have made a choice under section 727-550 (including a choice made jointly with one or more other entities), the affected owner may give the entity a written notice asking whether the entity has made such a choice.
- (4) Within one month after receiving a notice under subsection (3), an entity must inform the *affected owner in writing whether the entity has made a choice under section 727-550 and, if so, about the content of the choice.

Penalty: 30 penalty units.

- (5) The Commissioner may extend the period for complying with a provision of this section.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Subdivision 727-G—The realisation time method

727-600 What this Subdivision is about

Under the realisation time method:

- losses on realisation of affected interests in the losing entity are reduced; and
- gains on realisation of affected interests in the gaining entity are reduced, within limits worked out by reference to the reductions in losses on affected interests in the losing entity; and
- certain 95% services indirect value shifts are disregarded.

This Subdivision also explains how its reduction of a loss or gain affects CGT assets, trading stock and revenue assets.

Table of sections

Operative provisions

727-610	Consequences of indirect value shift
727-615	Reduction of loss on realisation event for affected interest in losing entity
727-620	Reduction of gain on realisation event for affected interest in gaining entity
727-625	Total gain reductions not to exceed total loss reductions
727-630	How cap in section 727-625 applies if affected interest is also trading stock or a revenue asset
727-635	Splitting an equity or loan interest
727-640	Merging equity or loan interests
727-645	Effect of CGT roll-over

Further exclusion for certain 95% services indirect value shifts if realisation time method must be used

727-700	When 95% services indirect value shift is excluded
---------	--

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

95% services indirect value shifts that are *not* excluded

- 727-705 Another provision of the income tax law affects amount related to services by at least \$100,000
- 727-710 Ongoing or recent service arrangement reduces value of losing entity by at least \$100,000
- 727-715 Service arrangements reduce value of losing entity that *is* a group service provider by at least \$500,000
- 727-720 Abnormal service arrangement reduces value of losing entity that is *not* a group service provider by at least \$500,000
- 727-725 Meaning of *predominantly-services indirect value shift*

Operative provisions**727-610 Consequences of indirect value shift**

- (1) This Subdivision sets out the *realisation time method* of working out the consequences (if any) of an *indirect value shift.
- (2) If those consequences are to be worked out using that method, this Subdivision applies to each *realisation event:
 - (a) by which a loss would, apart from this Division, be *realised for income tax purposes; and
 - (b) that happens to an *affected interest in the *losing entity; and
 - (c) that is the first realisation event that happens to that interest at or after the *IVS time; and
 - (d) that happens:
 - (i) if the amount of the indirect value shift is \$500,000 or more—at any time after the IVS time; or
 - (ii) otherwise—within 4 years after the IVS time.
- (3) If:
 - (a) those consequences are to be worked out using that method; and
 - (b) the *gaining entity is a company or trust (except one listed in section 727-125 (about superannuation entities)) immediately before the *IVS time;
 this Subdivision applies to each *realisation event:
 - (c) by which a gain would, apart from this Division, be *realised for income tax purposes; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-615

- (d) that happens to an *affected interest in the *gaining entity;
and
 - (e) that is the first realisation event that happens to that interest
at or after the IVS time.
- (4) The consequences for the *affected interest depend on its character. There are consequences for the interest in its character as a *CGT asset. However, if the interest is also *trading stock or a *revenue asset, there are additional consequences for it in that character.
- (5) In working out the consequences for an *affected interest in the *losing entity or *gaining entity, in the interest's character as *trading stock, a *realisation event is disregarded for the purposes of identifying under paragraph (2)(c) or (3)(e) the first realisation event that happens to that interest at or after the *IVS time, if:
 - (a) the realisation event consists of the ending of an income year;
and
 - (b) the *value of the interest as trading stock on hand of an entity at the end of the income year is the interest's *cost; and
 - (c) the interest became part of the entity's trading stock on hand during that income year, or the value of the interest as trading stock of the entity on hand at the start of the income year was also the interest's cost.

727-615 Reduction of loss on realisation event for affected interest in losing entity

If this Subdivision applies to a *realisation event that happens to an *affected interest in the *losing entity, a loss that would, apart from this Division, be *realised for income tax purposes by the event is reduced by an amount that is reasonable having regard to:

- (a) a reasonable estimate of the amount (if any) by which the *indirect value shift has reduced the interest's *market value;
and
- (b) if the interest is also an affected interest in the *gaining entity—a reasonable estimate of the extent (if any) to which the interest's market value at the time of the realisation event still reflects the effect of the indirect value shift on the market value of *equity or loan interests in the gaining entity.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

727-620 Reduction of gain on realisation event for affected interest in gaining entity

If this Subdivision applies to a *realisation event that happens to an *affected interest in the *gaining entity, a gain that would, apart from this Division, be *realised for income tax purposes by the event is reduced by an amount that is reasonable having regard to:

- (a) a reasonable estimate of the amount (if any) by which the *indirect value shift has increased the interest's *market value; and
- (b) a reasonable estimate of the extent (if any) to which the interest's market value at the time of the realisation event still reflects the effect of the indirect value shift on the market value of *equity or loan interests in the gaining entity.

727-625 Total gain reductions not to exceed total loss reductions

- (1) This section ensures that the total (*total gain reductions*) of the amounts by which section 727-620 reduces gains *realised for income tax purposes by *realisation events happening at the same time does not exceed the total (*total loss reductions*) of:
 - (a) the amounts by which section 727-615 reduces losses that:
 - (i) would, apart from this Division, be *realised for income tax purposes by *realisation events happening before or at that time; and
 - (ii) have not already been taken into account in a previous application of this section; and
 - (b) the amounts by which section 727-850 (as applying to the *scheme from which the *indirect value shift results) reduces losses that:
 - (i) would, apart from this Division, be realised for income tax purposes by realisation events happening before the *IVS time to *equity or loan interests, or *indirect equity or loan interests, in the *losing entity; and
 - (ii) have not already been taken into account in a previous application of this section.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-630

- (2) If, apart from this section, the total gain reductions would exceed the total loss reductions, the amount by which section 727-620 reduces each of the gains is itself reduced by the amount worked out using this formula:

$$\frac{(\text{Total gain reductions} - \text{Total loss reductions})}{\text{Number of interests}}$$

- (3) For the purposes of the formula:

number of interests means the number of *affected interests in the *gaining entity to which *realisation events happened at that time.

727-630 How cap in section 727-625 applies if affected interest is also trading stock or a revenue asset

- (1) This section affects how to work out the total gain reductions and the total loss reductions for the purposes of section 727-625 if:
- (a) a *realisation event covered by that section happens to an *equity or loan interest, or to an *indirect equity or loan interest, in the *losing entity or in the *gaining entity; and
 - (b) the interest is also *trading stock or a *revenue asset at the time of the event.

Trading stock

- (2) In the case of an *equity or loan interest, or an *indirect equity or loan interest, in the *losing entity that is *trading stock at that time:
- (a) the amount (if any) by which section 727-615 or 727-850 reduces a loss worked out under section 977-25 or 977-30 (about realisation events for trading stock) that would, apart from this Division, be *realised for income tax purposes by the event is taken into account; and
 - (b) the amount (if any) by which section 727-615 or 727-850 reduces a loss worked out under section 977-10 (about realisation events for CGT assets) that would, apart from this Division, be *realised for income tax purposes by the event is *not* taken into account;
- in working out the total loss reductions.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

-
- (3) In the case of an *affected interest in the *gaining entity that is *trading stock at that time:
- (a) the amount (if any) by which section 727-620 reduces a gain worked out under section 977-35 or 977-40 (about realisation events for trading stock) that would, apart from this Division, be *realised for income tax purposes by the event is taken into account; and
 - (b) the amount (if any) by which section 727-620 reduces a gain worked out under section 977-15 (about realisation events for CGT assets) that would, apart from this Division, be *realised for income tax purposes by the event is *not* taken into account;
- in working out the total gain reductions.

Revenue asset

- (4) In the case of an *equity or loan interest, or an *indirect equity or loan interest, in the *losing entity that is a *revenue asset at that time, the greater of the following is taken into account in working out the total loss reductions:
- (a) the amount (if any) by which section 727-615 or 727-850 reduces a loss worked out under section 977-55 (about realisation events for revenue assets) that would, apart from this Division, be *realised for income tax purposes by the event;
 - (b) the amount (if any) by which section 727-615 or 727-850 reduces a loss worked out under section 977-10 (about realisation events for CGT assets) that would, apart from this Division, be *realised for income tax purposes by the event.
- (5) In the case of an *affected interest in the *gaining entity that is a *revenue asset at that time, the greater of the following amounts is taken into account in working out the total gain reductions:
- (a) the amount (if any) by which section 727-620 reduces a gain worked out under section 977-55 (about realisation events for revenue assets) that would, apart from this Division, be *realised for income tax purposes by the event;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-635

- (b) the amount (if any) by which section 727-620 reduces a gain worked out under section 977-15 (about realisation events for CGT assets) that would, apart from this Division, be *realised for income tax purposes by the event.

727-635 Splitting an equity or loan interest

If an *equity or loan interest in the *losing entity or in the *gaining entity is split into 2 or more equity or loan interests at or after the *IVS time:

- (a) each of the 2 or more interests inherits whatever characteristics would have been relevant to applying this Subdivision to the first interest if the split had not happened; and
- (b) those characteristics include characteristics the first interest has inherited because of any other application or applications of this section or section 727-640; and
- (c) if a characteristic of the first interest involves an amount or quantity, the amount or quantity for that characteristic as inherited by each of the 2 or more interests is a reasonable proportion of the amount or quantity for that characteristic of the first interest.

727-640 Merging equity or loan interests

If 2 or more *equity or loan interests (the *original interests*) in the *losing entity or in the *gaining entity are merged into 1 or more *equity or loan interests (the *new interests*) at or after the *IVS time:

- (a) each of the new interests inherits whatever characteristics would have been relevant to applying this Subdivision to the original interests if the merging had not happened; and
- (b) those characteristics include characteristics inherited by any of the original interests because of any other application or applications of this section or section 727-635; and
- (c) if a characteristic of any of the original interests involves an amount or quantity, the amount or quantity for that characteristic as inherited by any of the new interests is a

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

reasonable proportion of the amount or quantity for that characteristic of the original interest.

727-645 Effect of CGT roll-over

(1) If:

- (a) this Subdivision applies to a *realisation event that is a *CGT event that happens to an *affected interest in the *losing entity; and
- (b) section 727-615 reduces a loss that would, apart from this Division, be *realised for income tax purposes by the CGT event; and
- (c) there is a roll-over for the CGT event;

the interest's *reduced cost base at the time of the CGT event is taken to have been reduced by the amount by which section 727-615 reduces that loss, but is so taken only for the purposes of working out:

- (d) the interest's reduced cost base, from time to time after the roll-over, for the entity that *acquired the interest because of the CGT event; and
- (e) in the case of a *replacement-asset roll-over—the reduced cost base of the replacement CGT asset, from time to time after the roll-over, for the entity that *disposed of the interest.

Note: Because of the roll-over, the loss reduction under section 727-615 will have no tax effect. This subsection ensures that the loss reduction is passed on, through the reduction in reduced cost base, to prevent or reduce a loss arising on a later CGT event.

(2) If:

- (a) this Subdivision applies to a *realisation event that is a *CGT event that happens to an *affected interest in the *gaining entity; and
- (b) section 727-620 reduces a gain that would, apart from this Division, be *realised for income tax purposes by the CGT event; and
- (c) there is a roll-over for the CGT event;

the interest's *cost base at the time of the CGT event is taken to have been uplifted by the amount by which section 727-620

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-700

reduces that gain, but is so taken only for the purposes of working out:

- (d) the interest's cost base, from time to time after the roll-over, for the entity that *acquired the interest because of the CGT event; and
- (e) in the case of a *replacement-asset roll-over—the cost base of the replacement CGT asset, from time to time after the roll-over, for the entity that *disposed of the interest.

Note: Because of the roll-over, the gain reduction under section 727-620 will have no tax effect. This subsection ensures that the gain reduction is passed on, through the uplift in cost base, to prevent or reduce a gain arising on a later CGT event.

Further exclusion for certain 95% services indirect value shifts if realisation time method must be used

727-700 When 95% services indirect value shift is excluded

- (1) If the *indirect value shift is a *95% services indirect value shift, this Subdivision does not apply to a *realisation event that:
 - (a) happens to an *affected interest in the *losing entity that is owned by an entity (the *owner*); and
 - (b) is covered by subsection 727-610(2);unless:
 - (c) the conditions in section 727-705 are met for the indirect value shift; or
 - (d) the conditions in section 727-710, 727-715 or 727-720 are met for the indirect value shift and for that realisation event.
- (2) An *indirect value shift is a **95% services indirect value shift** if, and only if, to the extent of at least 95% of their total *market value, the *greater benefits consist entirely of:
 - (a) a right to have services that are covered by section 727-240 provided directly by the *losing entity to the *gaining entity; or
 - (b) services that are covered by section 727-240 and have been, are being, or are to be, so provided;or both.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (3) This section does not limit any other exclusion in this Subdivision or in Subdivision 727-C.

95% services indirect value shifts that are *not* excluded**727-705 Another provision of the income tax law affects amount related to services by at least \$100,000**

The conditions in this section are met if:

- (a) the *losing entity or the *gaining entity lodges an *income tax return for an income year during some or all of which the owner owned the interest; and
- (b) a provision of this Act:
 - (i) reduces or excludes an amount that is included in the return; or
 - (ii) increases an amount that is so included; or
 - (iii) includes an amount not included in the return;for the purposes of working out the taxable income, a *tax loss, or a *net capital loss, of that entity for that income year; and
- (c) the amount is related to the right mentioned in paragraph 727-700(2)(a), or to some or all of the services mentioned in paragraph 727-700(2)(a) or (b), from the point of view of the losing entity providing the services or of the gaining entity receiving them; and
- (d) if the amount is so reduced or increased—the reduction or increase is at least \$100,000; and
- (e) if the amount is so excluded or included—the amount is at least \$100,000; and
- (f) at some time after the return is lodged, the entity that lodged it is aware, or ought reasonably to be aware, of the reduction, exclusion, increase or inclusion.

Example: If the Commissioner has notified an entity affected by a determination under Part IVA of the *Income Tax Assessment Act 1936*, the entity ought reasonably to be aware of the effect of the determination.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-710

727-710 Ongoing or recent service arrangement reduces value of losing entity by at least \$100,000

- (1) Either or both of these must be true:
 - (a) when the *realisation event mentioned in subsection 727-700(1) happens, some or all of the services mentioned in paragraph 727-700(2)(a) or (b) have not yet been provided; or
 - (b) some or all of those services have been provided in the income year (of the *losing entity) in which the realisation event happens, or in the previous income year.
- (2) It must be reasonable to conclude that the total (the ***total market value***) of the *market values, immediately before the *realisation event, of *primary interests in the *losing entity then owned by *affected owners is less than it would have been if none of the following had happened:
 - (a) the *95% services indirect value shift; and
 - (b) all other *predominantly-services indirect value shifts that satisfy subsection (1) (or that would satisfy it if they were *95% services indirect value shifts).
- (3) It must also be reasonable to conclude that the total *market value is less than it would have been by at least:
 - (a) \$100,000, if the total of the *adjustable values, immediately before the *realisation event, of the *primary interests referred to in subsection (2) is less than or equal to \$2,000,000; or
 - (b) 5% of the total of those *adjustable values, if that total is greater than \$2,000,000 and less than or equal to \$10,000,000; or
 - (c) \$500,000, if that total is greater than \$10,000,000.
- (4) For the purposes of subsections (2) and (3), disregard an *indirect value shift referred to in paragraph (2)(a) or (b) if services are provided directly by the *losing entity to the *gaining entity under the *scheme before the income year (of the losing entity) before the one in which the *realisation event happened.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

727-715 Service arrangements reduce value of losing entity that is a group service provider by at least \$500,000

- (1) At some time during the period (the *ownership period*) when the owner owned the interest, the sole or dominant activity of the *losing entity must consist of providing services directly to one or more entities (the *group entities*) each of which is covered by one or more of the following paragraphs:
 - (a) the *gaining entity;
 - (b) an *affected owner;
 - (c) an entity that has at that time the same *ultimate controller as the losing entity or the gaining entity;
 - (d) if the conditions in section 727-110 (common-ownership nexus test) are satisfied for the *indirect value shift—an entity that has with the losing entity or with the gaining entity a *common-ownership nexus within that period.
- (2) It must be reasonable to conclude that the total (the *total market value*) of the *market values, immediately before the *realisation event, of *primary interests in the *losing entity then owned by *affected owners is less than it would have been if none of the following had happened:
 - (a) the *95% services indirect value shift; and
 - (b) each *predominantly-services indirect value shift for which the same entity is the losing entity as for the 95% services indirect value shift, and that happened:
 - (i) if the amount of the *indirect value shift is \$500,000 or more—at any time during the ownership period; or
 - (ii) otherwise—during the ownership period but within 4 years before the realisation event, or at the same time as the realisation event.

Thresholds for reduction of the total market value

- (3) It must also be reasonable to conclude that the total *market value is less than it would have been by at least \$500,000, and by at least the lesser of:
 - (a) 5% of the total of the *adjustable values of *primary interests in the *losing entity owned by *affected owners at:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-95 Value shifting

Division 727 Indirect value shifting affecting interests in companies and trusts, and arising from non-arm's length dealings

Section 727-715

- (i) if subsection (4) applies—the time determined under that subsection; or
 - (ii) otherwise—the start of the income year in which the *realisation event happens; and
- (b) the amount worked out under the table.

Alternative threshold for reduction of the total market value		
Item	In this case:	The amount is:
1	The ownership period is 4 years or less	worked out using this formula: $\$5,000,000 \times \frac{\text{Number of days in that period}}{365}$
2	The ownership period is more than 4 years	\$25,000,000

- (3A) If at the time referred to in subsection (3) a *primary interest covered by that subsection was *trading stock or a *revenue asset, its *adjustable value taken into account under that subsection is the greater of its adjustable value as a *CGT asset and its adjustable value as trading stock or a revenue asset.
- (4) If the owner of the interest is an *affected owner because of item 1, 2, 3 or 4 in the table in subsection 727-530(1) (about who is an affected owner), the time for the purposes of subparagraph (3)(a)(i) of this section is the latest of:
- (a) the start of the income year in which the *realisation event happens; and
 - (b) the start of the most recent period (if any):
 - (i) that ended before or at the time of the *realisation event; and
 - (ii) throughout which at least one of the group entities had the same *ultimate controller as the losing entity or the gaining entity; and
 - (c) the start of the most recent period (if any):
 - (i) that ended before or at the time of the realisation event; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (ii) within which at least one of the group entities has with the losing entity or with the gaining entity a
*common-ownership nexus.

727-720 Abnormal service arrangement reduces value of losing entity that is *not* a group service provider by at least \$500,000

- (1) It must be the case that at *no* time during the period when the owner owned the interest did the sole or dominant activity of the *losing entity consist of providing services as mentioned in subsection 727-715(1).
- (2) It must be reasonable to conclude that the total (the ***total market value***) of the *market values, immediately before the *realisation event, of *primary interests in the *losing entity then owned by *affected owners is less than it would have been if none of the following had happened:
 - (a) the *95% services indirect value shift;
 - (b) each *predominantly-services indirect value shift that meets either of these conditions:
 - (i) its amount was less than \$500,000 and it happened within 4 years before the realisation event, or at the same time as the realisation event;
 - (ii) its amount was \$500,000 or more and it happened at any time before the realisation event, or at the same time as the realisation event;
 and that meets all of these conditions:
 - (iii) the same entity is the losing entity for it as for the 95% services indirect value shift;
 - (iv) it happened under a different *scheme from the 95% services indirect value shift; and
 - (v) having regard to all relevant circumstances, it is reasonable to conclude that the sole or main reason why it happened under a different scheme was to prevent the conditions in section 727-705, 727-710, 727-715 or this section from being met.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-725

- (3) It must also be reasonable to conclude that the total *market value is less than it would have been by at least:
- (a) \$500,000, if the total of the *adjustable values, immediately before the *realisation event, of the *primary interests referred to in subsection (2) is less than or equal to \$10,000,000; or
 - (b) 5% of the total of those *adjustable values, if that total is greater than \$10,000,000 and less than or equal to \$100,000,000; or
 - (c) \$5,000,000, if that total is greater than \$100,000,000.
- (4) The providing of the services mentioned in paragraph 727-700(2)(a) or (b) by the losing entity must *not* be in the ordinary course of its business.

727-725 Meaning of *predominantly-services indirect value shift*

An *indirect value shift is a *predominantly-services indirect value shift* if, and only if, the *greater benefits consist entirely or predominantly of:

- (a) a right to have services that are covered by section 727-240 provided directly by the *losing entity to the *gaining entity; or
 - (b) services that are covered by section 727-240 and have been, are being, or are to be, so provided;
- or both.

Subdivision 727-H—The adjustable value method

Guide to Subdivision 727-H

727-750 What this Subdivision is about

Under the adjustable value method:

- the adjustable values of affected interests in the losing entity are reduced; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- the adjustable values of affected interests in the gaining entity are uplifted, within limits worked out by references to the reductions in the adjustable values of affected interests in the losing entity.

The consequences of that are:

- the cost base and reduced cost base of the interests are reduced or uplifted (or both); and
- if the interests are also trading stock or revenue assets, there are further consequences for them in their character as such.

Table of sections

727-755 Consequences of indirect value shift

Reductions of adjustable value

727-770 Reduction under the adjustable value method

727-775 Has there been a disaggregated attributable decrease?

727-780 Working out the reduction on a *loss-focussed basis*

Uplifts of adjustable value

727-800 Uplift under the attributable increase method

727-805 Has there been a disaggregated attributable increase?

727-810 Scaling-down formula

Consequences of the method for various kinds of assets

727-830 CGT assets

727-835 Trading stock

727-840 Revenue assets

727-755 Consequences of indirect value shift

- (1) This Subdivision sets out the *adjustable value method* of working out the consequences (if any) of an *indirect value shift.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-770

- (2) If those consequences are to be worked out using that method:
 - (a) the *adjustable value of each *affected interest in the *losing entity is reduced as provided in this Subdivision; and
 - (b) if the *gaining entity is a company or trust (except one listed in section 727-125 (about superannuation entities)) immediately before the *IVS time, the *adjustable value of each *affected interest in the *gaining entity is uplifted as provided in this Subdivision.
- (3) The consequences for the *affected interest depend on its character. There are consequences for the interest in its character as a *CGT asset. However, if the interest is also *trading stock or a *revenue asset, there are additional consequences for it in that character.

Reductions of adjustable value

727-770 Reduction under the adjustable value method

- (1) This section sets out how to work out the amount (if any) by which the *adjustable value of an *affected interest in the *losing entity is reduced.
- (2) First, work out under section 727-775 whether the *indirect value shift has produced for the owner of the interest a *disaggregated attributable decrease in the *market value of the interest.
- (3) If it has not, the interest's *adjustable value is *not* reduced because of the *indirect value shift.
- (4) If it has, the amount (if any) by which the interest's *adjustable value is reduced is worked out on a *loss-focussed basis under section 727-780.
- (5) However, if a choice is made in accordance with section 727-550 for the reduction *not* to be worked out on a *loss-focussed basis, the reduction is equal to the *disaggregated attributable decrease.

Reduction not to exceed reasonable amount

- (6) If the reduction worked out as provided in subsection (4) or (5) is not reasonable in the circumstances, having regard to the objects of

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-775

this Division, the interest's *adjustable value is instead reduced by so much of that reduction as is reasonable in the circumstances, having regard to those objects.

Note: The main object of this Division is set out in section 727-95.

727-775 Has there been a disaggregated attributable decrease?

- (1) This section sets out how to determine whether an *indirect value shift has produced, for the owner of an *equity or loan interest, a ***disaggregated attributable decrease*** in the *market value of the interest and, if so, the amount of it.
- (2) Work out the *market value of the interest at the *IVS time, but disregarding:
 - (a) all effects on the market value of the interest during the *IVS period, except effects that are reasonably attributable to the *indirect value shift; and
 - (b) the effects (if any) of the indirect value shift on the market value of *equity or loan interests, or *indirect equity or loan interests, in the gaining entity.

(This result is called the ***notional resulting market value***.)

Note: Paragraph (2)(b) is necessary because the market value of the interest may also have been affected by the increase in the market value of interests in the gaining entity, because the entity in which the interest is held had direct or indirect interests in both the losing entity and the gaining entity.

In such a case, the reduction in adjustable value under this Division will usually be offset by an uplift under this Division.

- (3) If the notional resulting *market value is *less than* the market value (the ***old market value***) of the interest:
 - (a) at the start of the *IVS period; or
 - (b) if the owner last began to own the interest during that period—when the owner last began to own the interest;
 the difference is the ***disaggregated attributable decrease***.
- (4) The *indirect value shift has *not* produced a disaggregated attributable decrease for the owner of the interest if the notional resulting *market value is *greater than or equal to* the old market value.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-780

- (5) The *market value of the interest at a particular time may be worked out under subsection (2) or (3) by making a reasonable estimate of that market value.

727-780 Working out the reduction on a *loss-focussed basis*

- (1) Use the table in subsection (2) of this section to work out on a *loss-focussed basis* the amount (if any) by which the interest's *adjustable value is reduced.
- (2) This involves comparing the old *market value, and the notional resulting market value, with the interest's *adjustable value (the *old adjustable value*) immediately before the *IVS time.

Reduction under the attributable decrease method			
Item	If the old market value:	And the notional resulting market value:	This is the result:
1	is <i>greater than or equal to</i> the old adjustable value	is <i>less than</i> the old adjustable value	the *adjustable value is reduced to the notional resulting market value
2	is <i>greater than or equal to</i> the old adjustable value	is <i>greater than or equal to</i> the old adjustable value	the *adjustable value is <i>not</i> reduced because of the *indirect value shift
3	is <i>less than</i> the old adjustable value	is <i>less than</i> the old adjustable value	the *adjustable value is reduced by the amount of the *disaggregated attributable decrease

Note 1: Because of item 1, the indirect value shift cannot cause a loss to arise on disposal of the interest.

Note 2: Because of item 3 the loss already embedded in the interest is preserved, but the indirect value shift does not increase it.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Uplifts of adjustable value**727-800 Uplift under the attributable increase method**

- (1) This section sets out how to work out the amount (if any) by which the *adjustable value of an *affected interest in the *gaining entity is uplifted.
- (2) First, work out under section 727-805 whether the *indirect value shift has produced for the owner of the interest a *disaggregated attributable increase in the *market value of the interest.
- (3) If it has not, the interest's *adjustable value is *not* uplifted because of the *indirect value shift.
- (4) If it has, the *adjustable value is uplifted by the amount worked out using the scaling-down formula in section 727-810, subject to the rest of this section.

Note: The uplift will be less than or equal to the disaggregated attributable increase.

Cap if interest has both a disaggregated attributable increase and a disaggregated attributable decrease

- (5) If the *indirect value shift has also produced for the owner of the interest a *disaggregated attributable decrease in the *market value of the interest, the interest's *adjustable value:
 - (a) is *not* uplifted if it is not also reduced under this Division because of the indirect value shift; and
 - (b) if it is also reduced under this Division because of the indirect value shift—is not uplifted by more than the reduction.

Cap based on notional distribution by gaining entity of dividends or capital equal to total reductions in adjustable value of affected interests in losing entity

- (6) However, the interest's *adjustable value is not uplifted by more than the greater of these amounts:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-800

- (a) the amount (if any) that the *affected owner of the interest would receive (directly, or indirectly through one or more interposed entities) in respect of the interest if:
 - (i) the *gaining entity were to pay as *dividends, at the time (the **payment time**) immediately before the *IVS time, an amount (the **total reduction amount**) equal to the total of the amounts by which the *adjustable values of *equity or loan interests in the *losing entity are reduced under this Subdivision because of the *indirect value shift; and
 - (ii) those dividends were successively paid or distributed at the payment time by each entity interposed between the gaining entity and that affected owner; and
 - (b) the amount (if any) that the *affected owner of the interest would receive (directly, or indirectly through one or more interposed entities) in respect of the interest if:
 - (i) the gaining entity were to pay the total reduction amount at the payment time as a distribution of capital; and
 - (ii) that capital was successively paid or distributed at the payment time by each entity interposed between the gaining entity and that affected owner.
- (6A) The reduction of *adjustable value that is to be taken into account under subparagraph (6)(a)(i) for an *equity or loan interest in the *losing entity is:
- (a) if the interest is *trading stock immediately before the *IVS time—the one worked out on the basis of the interest's adjustable value under subsection 727-835(2); or
 - (b) otherwise—the greater or greatest of these:
 - (i) the reduction of the interest's *cost base;
 - (ii) the reduction of the interest's *reduced cost base;
 - (iii) the reduction (if any) worked out on the basis of the interest's adjustable value under subsection 727-840(2) (about revenue assets).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Uplift not to exceed reasonable amount

- (7) If the uplift worked out as provided in subsections (4), (5) and (6) is not reasonable in the circumstances, having regard to the objects of this Division, the interest's *adjustable value is instead uplifted by an amount that is reasonable in the circumstances, having regard to those objects.

Note: The main object of this Division is set out in section 727-95.

727-805 Has there been a disaggregated attributable increase?

- (1) This section sets out how to determine whether an *indirect value shift has produced, for the owner of an *equity or loan interest, a **disaggregated attributable increase** in the *market value of the interest and, if so, the amount of it.
- (2) Make a reasonable estimate of the *market value of the interest at the *IVS time, but disregarding:
- (a) all effects on the market value of the interest during the *IVS period, except effects that are reasonably attributable to the *indirect value shift; and
 - (b) the effects (if any) of the indirect value shift on the market value of *equity or loan interests, or *indirect equity or loan interests, in the losing entity.
- (This result is called the **notional resulting market value**.)

Note: Paragraph (2)(b) is necessary because the market value of the interest may also have been affected by the decrease in the market value of interests in the losing entity, because the entity in which the interest is held had direct or indirect interests in both the losing entity and the gaining entity.

In such a case, the increase in adjustable value under this Division will usually be offset by a reduction under this Division.

- (3) If the notional resulting market value is *greater than* a reasonable estimate of the *market value (the **old market value**) of the interest:
- (a) at the start of the *IVS period; or
 - (b) if the owner last began to own the interest during that period—when the owner last began to own the interest;
- the difference is the **disaggregated attributable increase**.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-810

- (4) The *indirect value shift has *not* produced a disaggregated attributable increase for the owner of the interest if the notional resulting market value is *less than or equal to* the old market value.

727-810 Scaling-down formula

- (1) The scaling-down formula for the purposes of section 727-800 is:

$$\frac{\text{The *disaggregated attributable increase}}{\text{Total reductions for affected interests}} \times \frac{\text{Total reductions for affected interests}}{\text{Total disaggregated attributable decreases}}$$

Note: The numerator in the fraction can never exceed the denominator. This means that the fraction can never exceed 1, so the uplift will never exceed the disaggregated attributable increase.

- (2) For the purposes of the formula:

total disaggregated attributable decreases means the total of:

- (a) all *disaggregated attributable decreases that the *indirect value shift has produced, in the *market values of *affected interests in the *losing entity, for the entities that owned those interests immediately before the *IVS time; and
- (b) if:
- (i) section 727-850 (as applying to the *scheme from which the indirect value shift results) reduces losses that are *realised for income tax purposes by *realisation events happening before the *IVS time to *equity or loan interests, or to *indirect equity or loan interests, in the losing entity; and
 - (ii) the indirect value shift is the only indirect value shift, or is the greater or greatest of 2 or more indirect value shifts, that results from the scheme and for which the losing entity is the losing entity;
- for each of those realisation events, the amounts that would, if:
- (iii) the *presumed indirect value shift were an indirect value shift; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

(iv) the IVS time for the presumed indirect value shift were the time of that realisation event;

be the disaggregated attributable decreases that the presumed indirect value shift has produced, in the market value of the equity or loan interests to which that realisation event happened, for the entities that owned those interests immediately before the time of that realisation event.

total reductions for affected interests means the total of:

- (a) all reductions under this Division, because of the indirect value shift, of *adjustable values of affected interests in the losing entity; and
- (b) if paragraph (b) of the definition of ***total disaggregated attributable decreases*** applies—the amounts by which section 727-850 reduces the losses (if any) referred to in that paragraph.

Consequences of the method for various kinds of assets

727-830 CGT assets

- (1) The *cost base of an *equity or loan interest is reduced or uplifted immediately before the *IVS time to the extent that this Division provides for the *adjustable value of the interest to be reduced or uplifted.
- (2) The *reduced cost base of an *equity or loan interest is reduced or uplifted immediately before the *IVS time to the extent that this Division provides for the *adjustable value of the interest to be reduced or uplifted.
- (3) However, the *cost base or *reduced cost base is *uplifted* only to the extent that the amount of the uplift is still reflected in the *market value of the interest when a later *CGT event happens to the interest.
- (4) To work out:
 - (a) whether the *cost base or *reduced cost base of the interest is reduced or uplifted; and
 - (b) if so, by how much;

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-835

assume that the *adjustable value* from time to time of that or any other *equity or loan interest is its cost base or reduced cost base, as appropriate.

- (5) If this Division provides for the *adjustable value of an *equity or loan interest to be *both* reduced and uplifted:
- (a) the reduction and uplift for which subsection (1) or (2) of this section provides offset each other to the extent of whichever of them is the lesser; but
 - (b) if subsection (3) of this section cancels or reduces the uplift, this subsection is taken always to have applied on that basis.

Reductions and uplifts also apply to pre-CGT assets

- (6) A reduction or uplift occurs regardless of whether the entity that owns the interest *acquired it before, on or after 20 September 1985.

727-835 Trading stock

- (1) This section deals with:
- (a) how this Division applies to an *equity or loan interest that is *trading stock of an entity at the time (the *adjustment time*) immediately before the *IVS time; and
 - (b) the income tax consequences of this Division reducing or uplifting the *adjustable value of the interest.
- (2) The interest's *adjustable value* at a particular time is:
- (a) if the interest has been *trading stock of the entity ever since the start of the income year of the entity in which that time occurs—its *value as trading stock at the start of the income year; or
 - (b) otherwise—its cost.
- (3) If this Division reduces or uplifts the interest's *adjustable value, the entity is treated as if:
- (a) immediately before the adjustment time, the entity had sold the interest to someone else (at *arm's length and in the ordinary course of business) for its *adjustable value immediately before that time; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) immediately after the adjustment time, the entity had bought the interest back for the reduced or uplifted adjustable value.

Note: The notional sale and repurchase are separated in time. As a result, if this section is applied to another indirect value shift that happens later in the same income year, the interest's adjustable value will be the cost on the notional repurchase: see paragraph (2)(b).

- (4) However, the increase in the cost of an interest because of paragraph (3)(b) is taken into account from time to time only to the extent that the amount of the increase is still reflected in the *market value of the interest.

Note: The situations where the increase in cost would be taken into account include:

- in working out your deductions for the cost of trading stock acquired during the income year in which the increase happens; and
- the end of an income year if the interest's closing value as trading stock is worked out on the basis of its cost; and
- the start of the income year in which the interest is disposed of, if that happens in a later income year and the interest's closing value as trading stock at the end of the previous income year was worked out on the basis of its cost.

- (5) If this Division provides for the *adjustable value of the interest to be *both* reduced and uplifted:

- (a) the reduction and uplift offset each other to the extent of whichever of them is the lesser, and subsection (3) of this section applies accordingly; but
- (b) to the extent that the amount of the uplift is no longer reflected in the *market value of the interest, this section is taken always to have applied on the basis that the amount of the uplift was reduced to the same extent.

727-840 Revenue assets

- (1) This section deals with:
 - (a) how this Division applies to an *equity or loan interest that is a *revenue asset of an entity at the time (the *adjustment time*) immediately before the *IVS time; and
 - (b) the income tax consequences of this Division reducing or uplifting the *adjustable value of the interest.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-840

- (2) The interest's *adjustable value* at a particular time is the total of the amounts that would be subtracted from the gross disposal proceeds in calculating any profit or loss on disposal of the interest if the entity disposed of it at that time.
- (3) If this Division reduces or uplifts the interest's *adjustable value, the entity is treated as if:
 - (a) immediately before the adjustment time, the entity had sold the interest to someone else (at *arm's length and in the ordinary course of business) for its adjustable value immediately before that time; and
 - (b) immediately after the adjustment time, the entity had bought the interest back for the reduced or uplifted adjustable value.

Note: The notional sale and repurchase are separated in time. As a result, if this section is applied to another indirect value shift that happens later in the same income year, the interest's adjustable value will be based on the cost on the notional repurchase: see subsection (2).

- (4) However, an uplift in the *adjustable value of the interest is taken into account only to the extent that the amount of the uplift is still reflected in the *market value of the interest when it is disposed of or otherwise realised.
- (5) If this Division provides for the *adjustable value of the interest to be *both* reduced and uplifted:
 - (a) the reduction and uplift offset each other to the extent of whichever of them is the lesser, and subsection (3) of this section applies accordingly; but
 - (b) to the extent that the amount of the uplift is no longer reflected in the *market value of the interest, this section is taken always to have applied on the basis that the amount of the uplift was reduced to the same extent.

Subdivision 727-K—Reduction of loss on equity or loan interests realised before the IVS time

Table of sections

727-850	Consequences of scheme under this Subdivision
727-855	Presumed indirect value shift

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-850

- 727-860 Conditions about the prospective gaining entity
 727-865 How other provisions of this Division apply to support this Subdivision
 727-870 Effect of CGT roll-over
 727-875 Application to CGT asset that is also trading stock or revenue asset

727-850 Consequences of scheme under this Subdivision

(1) If:

- (a) as at the time when a *scheme is entered into, or a later time, an entity (the *prospective losing entity*) has *provided, is providing, is to provide, or might provide, one or more economic benefits *in connection with the scheme; and
- (b) the prospective losing entity is a company or trust (except one listed in section 727-125 (about superannuation entities)); and
- (c) a *realisation event happens to an *equity or loan interest, or to an *indirect equity or loan interest, in the prospective losing entity at a time when no *IVS time for the scheme has yet happened (whether or not one happens later); and
- (d) apart from this Division, a loss would be *realised for income tax purposes by the realisation event; and
- (e) because of section 727-855, the scheme results in a *presumed indirect value shift affecting the realisation event; and
- (f) section 727-860 (about prospective gaining entities) is satisfied; and
- (g) no exclusion in Subdivision 727-C applies to the presumed indirect value shift because of section 727-865; and
- (h) on the assumptions set out in subsection 727-865(3), the interest would be an *affected interest in the prospective losing entity;

the loss is reduced by an amount that is reasonable having regard to a reasonable estimate of the amount (if any) by which the scheme has reduced the interest's *market value during the period that ends at the time of the realisation event and started at the later of:

- (i) when the scheme was entered into; and
- (j) the time of the last realisation event that happened to the interest.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-95 Value shifting

Division 727 Indirect value shifting affecting interests in companies and trusts, and arising from non-arm's length dealings

Section 727-855

Note 1: This Subdivision does not reduce gains from realisation events, but loss reductions under this Subdivision are taken into account in working out:

- gain reductions under Subdivision 727-G for interests in a gaining entity that are realised after the IVS time for the scheme (see section 727-625); or
- uplifts under Subdivision 727-H in the adjustable values of interests in a gaining entity (see section 727-810).

Note 2: Section 727-865 provides for how other provisions of this Division apply for the purposes of this Subdivision.

Further exclusion for certain 95% services indirect value shifts

- (2) The loss is not reduced if the *presumed indirect value shift is a *95% services indirect value shift because of subsection 727-865(2), unless:
- (a) the conditions in section 727-705 (as applying because of that subsection) are met for the presumed indirect value shift; or
 - (b) the conditions in section 727-710, 727-715 or 727-720 (as applying because of that subsection) are met for the presumed indirect value shift and for the realisation event.

727-855 Presumed indirect value shift

- (1) The *scheme results in a ***presumed indirect value shift*** affecting the *realisation event if, and only if, as at the time of the realisation event, it is reasonable to conclude that the total *market value of the economic benefits (the ***greater benefits***) that:
- (a) the *prospective losing entity has *provided, is providing, is to provide, or might provide, *in connection with the *scheme, to another entity, or to each of 2 or more other entities; and
 - (b) can be identified (even if the other entity or entities cannot be identified or are not all in existence, or the provision of some or all of the economic benefits is contingent);
- exceeds:
- (c) the total market value of the economic benefits (the ***lesser benefits***) that:

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-860

- (i) have been, are being, are to be, or might be, provided to the prospective losing entity in connection with the scheme; and
- (ii) can be identified (even if the entity or entities providing the benefits cannot be identified or are not all in existence, or the provision of some or all of the economic benefits is contingent); or
- (d) if there are no economic benefits covered by paragraph (c)—nil.

That excess is the amount of the presumed indirect value shift, which happens at the time of the realisation event.

- (2) The *market value of an economic benefit is to be determined as at the earliest time when it is reasonable to conclude that:
 - (a) the economic benefit can be identified; and
 - (b) paragraph 727-150(2)(b) is satisfied for that benefit;
 if that time is before the *realisation event.
- (3) Otherwise, the *market value of the economic benefit is to be determined as at the time immediately before the *realisation event, taking account of any contingency to which provision of the benefit is subject at that time.

For more rules affecting how the market value of an economic benefit is determined, see Subdivision 727-D (as applying because of subsection 727-865(1)).

- (4) An entity referred to in paragraph (1)(a) need not be a party to the *scheme. A benefit can be provided by act or omission.

727-860 Conditions about the prospective gaining entity

- (1) By the deadline set out in subsection (5), the conditions in subsections (2) and (3) must be satisfied for at least one of these entities:
 - (a) the entity or entities referred to in paragraph 727-855(1)(a);
 - (b) if at the time of the *realisation event it is reasonable to conclude that the entity, or at least one of the entities, referred to in paragraph 727-855(1)(a) will be one of 2 or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-860

more entities, but it cannot be determined which—those 2 or more entities.

- (2) Enough must be known about the identity of an entity covered by subsection (1) for it to be reasonable to conclude that, if:
- (a) the *presumed indirect value shift were an *indirect value shift resulting from the *scheme; and
 - (b) the *IVS period for the scheme ended at the time of the *realisation event; and
 - (c) that entity were the *gaining entity for the indirect value shift;
 - (d) the *prospective losing entity were the *losing entity for the indirect value shift; and
- either or both of these would be satisfied for the indirect value shift:
- (e) section 727-105 (Ultimate controller test); and
 - (f) section 727-110 (Common-ownership nexus test).
- (3) Enough must be known about the identity of the entity referred to in subsection (2) for it also to be reasonable to conclude that, in relation to either or both of the following:
- (a) the *prospective losing entity *providing one or more economic benefits to that entity *in connection with the *scheme; or
 - (b) that entity providing one or more economic benefits to the prospective losing entity in connection with the scheme;
- that entity and the prospective losing entity were not, are not, will not be, or would not be, dealing with each other at *arm's length.
- (4) Each entity that is covered by subsection (1), and for which subsections (2) and (3) are satisfied, is called a **prospective gaining entity** for the *scheme.
- (5) The deadline is:
- (a) if the entity that owned the *equity or loan interest immediately before the *realisation event must lodge an *income tax return for the income year in which the event happens—the time by which the return must be lodged; or

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (b) otherwise—the end of the 6 months immediately after that income year.

727-865 How other provisions of this Division apply to support this Subdivision

- (1) To avoid doubt, these provisions apply for the purposes of working out whether there has been a *presumed indirect value shift and, if so, the amount of it:
 - (a) sections 727-155, 727-160 and 727-165 (about economic benefits);
 - (b) section 727-315 (Transfer, for its adjustable value, of depreciating asset acquired for less than \$1,500,000).
- (2) For the purposes of section 727-850, these provisions:
 - (a) Subdivision 727-C (Exclusions), except section 727-260 (about a shift down a wholly-owned chain of entities);
 - (b) sections 727-700 to 727-725 (about 95% services indirect value shifts), except subsection 727-700(1);
 apply to the *presumed indirect value shift on the assumptions set out in subsection (3).
- (3) The assumptions are:
 - (a) the *presumed indirect value shift is an *indirect value shift resulting from the *scheme; and
 - (b) the *prospective losing entity for the scheme is the *losing entity for that indirect value shift; and
 - (c) each *prospective gaining entity for the scheme is the *gaining entity for that indirect value shift; and
 - (d) the *greater benefits under the presumed indirect value shift are the greater benefits under that indirect value shift; and
 - (e) the *lesser benefits (if any) under the presumed indirect value shift are the lesser benefits under that indirect value shift; and
 - (f) the time of the realisation event mentioned in paragraph 727-850(1)(c) is the *IVS time for the scheme; and
 - (g) the *IVS period for the scheme ends at the time of the realisation event; and

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-95 Value shifting

Division 727 Indirect value shifting affecting interests in companies and trusts, and arising from non-arm's length dealings

Section 727-865

- (h) section 727-105 (Ultimate controller test) is satisfied for that indirect value shift according to what it is reasonable to conclude under subsection 727-860(2) as applying to the presumed indirect value shift; and
 - (i) section 727-110 (Common-ownership nexus test) is satisfied for that indirect value shift according to what it is reasonable to conclude under subsection 727-860(2) as applying to the presumed indirect value shift; and
 - (j) a reference to the realisation event mentioned in subsection 727-700(1) were a reference to the realisation event mentioned in paragraph 727-850(1)(c); and
 - (k) the interest to which the realisation event mentioned in paragraph 727-850(1)(c) happens were the interest referred to in paragraph 727-700(1)(a); and
 - (l) a reference in any of sections 727-700 to 727-725 (about 95% services indirect value shifts), except subsection 727-700(1), to the owner were a reference to the entity that, at the time of the realisation event mentioned in paragraph 727-850(1)(c), owns the interest to which the event happens.
- (4) Sections 727-635 and 727-640 affect how this Subdivision applies to *equity or loan interests, and *indirect equity or loan interests, in the *prospective losing entity that are split or merged during the period:
- (a) starting when the *scheme is entered into; and
 - (b) ending at the time of the *realisation event mentioned in paragraph 727-850(1)(c);
- in the same way as those sections affect how Subdivision 727-G would apply to those interests on the assumptions set out in subsection (3) of this section.
- (5) The application of a provision because of this section is additional to, and is not intended to limit, any other application of the provision.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

727-870 Effect of CGT roll-over

(1) If:

- (a) the *realisation event mentioned in paragraph 727-850(1)(c) is a *CGT event; and
- (b) section 727-850 reduces a loss that would, apart from this Division, be *realised for income tax purposes by the CGT event; and
- (c) there is a roll-over for the CGT event;

the interest's *reduced cost base at the time of the CGT event is taken to have been reduced by the amount by which section 727-850 reduces that loss, but is so taken only for the purposes of working out:

- (d) the interest's reduced cost base, from time to time after the roll-over, for the entity that *acquired the interest because of the CGT event; and
- (e) in the case of a *replacement-asset roll-over—the reduced cost base of the replacement CGT asset, from time to time after the roll-over, for the entity that *disposed of the interest.

Note: Because of the roll-over, the loss reduction under section 727-850 will have no tax effect. This subsection ensures that the loss reduction is passed on, through the reduction in reduced cost base, to prevent or reduce a loss arising on a later CGT event.

727-875 Application to CGT asset that is also trading stock or revenue asset

If an *equity or loan interest is also an item of *trading stock or a *revenue asset, this Subdivision applies to the interest once in its character as a CGT asset and again in its character as trading stock or a revenue asset.

Subdivision 727-L—Indirect value shift resulting from a direct value shift**Table of sections**

727-905	How this Subdivision affects the rest of this Division
727-910	Treatment of value shifted under the direct value shift

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Section 727-905

727-905 How this Subdivision affects the rest of this Division

- (1) This Subdivision affects how the rest of this Division applies to a *scheme (the ***IVS scheme***) that is or includes a scheme (the ***DVS scheme***) under which there is a *direct value shift.
- (2) If the *direct value shift:
 - (a) has consequences under Division 725 for an entity as an *affected owner of *down interests (or would do so apart from section 725-90 (about direct value shifts that will be reversed)); and
 - (b) also has consequences under that Division for another entity as an affected owner of *up interests (or would do so apart from section 725-90);the rest of this Subdivision has effect, for the purposes of Subdivisions 727-A to 727-K, in order to determine:
 - (c) whether the IVS scheme results in an *indirect value shift, from the first entity to the other entity, that has consequences under this Division; and
 - (d) whether the IVS scheme has consequences under Subdivision 727-K because it results in a *presumed indirect value shift affecting a *realisation event happening to *equity or loan interests, or to *indirect equity or loan interests, in the first entity; and
 - (e) those consequences.

Note: Section 725-50 sets out when a direct value shift has consequences under Division 725.

- (3) If:
 - (a) the IVS scheme is the DVS scheme; and
 - (b) subsection 725-145(2) is satisfied for the *direct value shift (because one or more equity or loan interests in the target entity are issued at a discount); but
 - (c) subsection 725-145(3) (about an increase in the market value of one or more equity or loan interests in the target entity) is not satisfied for the direct value shift;

Subdivisions 727-A to 727-K apply to the IVS scheme only as provided in this section.

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

- (4) Otherwise, those Subdivisions apply to the IVS scheme as provided in this section in addition to any other application they have to the scheme.

727-910 Treatment of value shifted under the direct value shift

- (1) The first entity is treated as *providing economic benefits to the other entity, *in connection with the IVS scheme, at the time of a decrease (or future decrease) in the *market value of any of the *down interests, to the extent that the decrease is (or will be) covered by subsection 725-155(1).
- (2) Despite subsections 727-150(4) and 727-855(2) and (3), the *market value of all economic benefits that subsection (1) of this section treats the first entity as providing to the other entity:
 - (a) is to be determined as at the time immediately before the *IVS time, or immediately before the *realisation event, as appropriate; and
 - (b) is equal to the total value shifted from the *down interests to the *up interests, as worked out under one or more applications of step 2 of the method statement in section 725-365 or 725-380.
- (3) The 2 entities are treated as not dealing with each other at *arm's length in relation to the providing of those benefits.
- (4) None of those benefits is treated as consisting of, or including, services provided or a right to have services provided.

Note: This means that the exclusions in Subdivisions 727-C and 727-G for indirect value shifts involving services will not apply.
- (5) Except as provided in this section, none of the following is treated as the *providing of economic benefits *in connection with the IVS scheme:
 - (a) a decrease (or future decrease) in the *market value of *down interests owned by the first entity or the other entity, to the extent that the decrease is (or will be) covered by subsection 725-155(1);

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.

Chapter 3 Specialist liability rules

Part 3-95 Value shifting

Division 727 Indirect value shifting affecting interests in companies and trusts, and arising from non-arm's length dealings

Section 727-910

- (b) an increase (or future increase) in the market value of *up interests owned by the first entity or the other entity, to the extent that the increase is (or will be) covered by subsection 725-145(3);
- (c) an issue of *up interests at a *discount to the first entity or the other entity, to the extent that the issue is (or will be) covered by subsection 725-145(2).

Note: Value shifted from down interests owned by the other entity to up interests owned by the first entity are dealt with by a separate application of this Subdivision to those interests (because of paragraphs 727-905(2)(a) and (b).

*To find definitions of asterisked terms, see the Dictionary, starting at section 995-1.
