Part VII had provided for the establishment of an Advisory Council and State Committees for the Commonwealth Scientific and Industrial Research Organisation.

The Science and Industry Research (Advisory Council and State Committees) Regulations were made on 22 December 1978. These regulations prescribe the quorum for the Advisory Council and State Committees, the period of appointment of members of State Committees, and procedures for the meetings of the State Committees.

With the repeal of Part VII, the principal regulations are now spent. The attached regulation provides formally for their repeal.
