## Division 4—Other provisions relating to bilateral agreements

### 65B Exclusion determination

- (1) A bilateral agreement that includes the declaration mentioned in subsection 46(1) in relation to actions in a class of actions:
  - (a) must include provisions that authorise the Minister to determine, in writing, that a specified action in the class of actions that a person proposes to take is excluded from the agreement; and
  - (b) may include provisions that authorise the Minister of the State or Territory concerned to make such a determination.

(1A) The bilateral agreement must not include a provision that prevents the Minister from making a determination mentioned in paragraph (1)(a) or limits the circumstances in which such a determination may be made.

- (2) If a determination is made in accordance with the provisions, then, for the purposes of this Act, the specified action is taken not to be an action in the class of actions to which the declaration mentioned in subsection 46(1) relates.

Note: The action is also taken to have been referred to the Minister under subsection 68(1) (see section 69A).

- (3) As soon as practicable after the determination is made, the Minister must give the following persons a copy of it, together with a written notice that the action is taken to have been referred under section 68:
  - (a) the person proposing to take the action;
  - (b) unless the determination was made by a Minister of the State or Territory concerned—the appropriate Minister of the State or Territory concerned.
- (4) If the determination was made by a Minister of the State or Territory concerned, that Minister must give the Commonwealth Minister a copy of the determination as soon as practicable after the determination is made.

### **65C Review of bilateral agreements**

- (1) The CEO must arrange for a review of a bilateral agreement to be started:
  - (a) within 3 years of the bilateral agreement commencing; and
  - (b) within 5 years of the day a report of the previous review was given to the Minister under subsection (3).

Note: A bilateral agreement may also provide for review of its operation.

- (2) The persons undertaking a review must give the CEO a report of the review within 6 months of the review starting or within a longer period agreed in writing by the CEO.
- (3) The CEO must give a copy of the report of a review to the Minister.
- (4) The Minister must publish a copy of the report:
  - (a) on the Department's website; and
  - (b) in accordance with any other requirements prescribed by the regulations.

### **65D Assurance reviews into bilateral agreements**

- (1) The CEO may from time to time cause an authorised officer to conduct an assurance review into a bilateral agreement with a State or self-governing Territory.
- (2) The assurance review may cover any or all of the following matters:
  - (a) if the bilateral agreement includes a declaration under subsection 46(1):
    - (i) whether the conditions in paragraphs 46(3)(d) to (j) continue to be met in relation to any management or authorisation framework accredited for the purposes of the agreement; and
    - (ii) whether the administration of any such management or authorisation framework is consistent with the framework as accredited;
  - (b) if the bilateral agreement includes a declaration under subsection 47(1):

- (i) whether the conditions in paragraphs 47(2)(a) and (b) continue to be met in relation to the manner of assessment specified in the declaration; and
  - (ii) whether the administration of the manner of assessment of actions is consistent with the manner as specified in the declaration;
  - (c) whether the State or Territory is complying with the bilateral agreement;
  - (d) whether the State or Territory is giving effect to the bilateral agreement in a way that accords with the objects of the Act;
  - (e) if a matter protected by a provision of Part 3 covered by the bilateral agreement is relevant to Australia's obligations under an international agreement—whether the State or Territory is giving effect to the bilateral agreement in a way that is not inconsistent with those obligations;
  - (f) any other matter prescribed by the regulations.
- (3) Before the assurance review commences, the CEO must give the appropriate Minister of the State or Territory a written notice setting out the matters to be covered by the review.
- (4) The CEO must give the Minister a report of the assurance review as soon as possible after conducting the review.
- (5) The report of the assurance review may include recommendations in relation to the bilateral agreement to which the review relates.
- (6) Without limitation, recommendations under subsection (5) may include a recommendation to the Minister on whether to vary the bilateral agreement or suspend or cancel the effect of the bilateral agreement, either generally or in relation to actions in a specified class or in relation to a specified provision of Part 3.

### **65E Duty to provide all reasonable facilities and assistance**

The appropriate Minister of a State or self-governing Territory that is party to a bilateral agreement into which an assurance review is conducted under subsection 65D(1) must provide the CEO, and any persons assisting the CEO, with all reasonable facilities and assistance necessary for the effective exercise of the CEO's duties in relation to the review.

### **65F Request for information or documents**

If the CEO reasonably believes that a person has information or documents relevant to the subject matter of an assurance review conducted under subsection 65D(1), the CEO may request the person, in writing, to give the CEO any such information or documents (or copies of any such documents).

### **155 At the end of section 66**

Add:

If approval of the taking of an action is dealt with in another way under this Act (for example, under a bilateral agreement or in a bioregional plan), then generally the action cannot be referred for assessment and approval under Parts 7 to 9 of this Chapter.

**156 Section 67**

After “or 28AB,”, insert “or but for a determination made under section 79E,”.

**157 Section 67A**

Repeal the section, substitute:

**67A Prohibition on taking controlled action without approval etc.**

A person must not take a controlled action, unless:

- (a) an approval of the taking of the action by the person is in operation under Part 9 for the purposes of the relevant provision of Part 3; or
- (b) there is in force a determination under section 79E that the action may continue to be taken and the action is taken in accordance with the conditions (if any) specified in the determination; or
- (c) the action is an action to which subsection 74AA(1) does not apply because of subsection 74AA(2), (2A), (2C) or (2D).

  - (b) the action is specified in a determination made in accordance with a bilateral agreement as mentioned in section 65B.
- (2) The referral is taken to have been made at the time the determination is made.
- (3) Subsection 68(3) and section 72 do not apply to the referral.
- (4) Section 74 applies to the referral as if subsections 74(3), (3A) and (3B) were replaced with subsections (5) and (6) of this section.
- (5) As soon as practicable after the determination is made, the Minister must publish a copy of the determination, together with a statement that the action specified in the determination is taken to have been referred to the Minister under section 68:
  - (a) on the Department's website; and
  - (b) in accordance with any other requirements prescribed by the regulations.

Note: If the action is also the subject of a permit application under section 200, 215, 237 or 257 and the application is made at or around the same time as a referral is taken to have been made under section 69A, the determination and invitation for comments that must be published under this subsection may be published together with the application and invitation for comments that must be published under section 200, 215, 237 or 257.

### 71A Relationship of Part 7 referrals to other authorisations

- (1) A person must not refer a proposal to take an action to the Minister for the Minister's decision whether or not the action is a controlled action at a time when an alternate pathway applies to the action.
- (2) If, at a time when no alternate pathway applies to an action, a proposal to take the action is referred to the Minister under this Part, then, regardless of whether an alternate pathway starts to apply, or starts to apply again, to the action:
  - (a) this Chapter continues to apply in relation to the action; and
  - (b) the action is taken not to be an action to which the alternate pathway applies.
- (3) Despite paragraph (2)(b), if a person withdraws the referral of the proposal to take the action under section 170C, the action is, from that time, taken to be, or taken to be again, an action to which the alternate pathway applies.

#### *Alternate pathway—Chapter 3 declaration*

- (4) If:
  - (a) an action is in a class of actions specified in a declaration made under section 33 or 36H not to require approval under Part 9 for the purposes of any of the provisions of Part 3; and
  - (b) the declaration is in operation in relation to the class of actions; and
  - (c) the action is not specified in a determination under section 36B(exclusion determination);

then an ***alternate pathway***, which is the provisions of this Act that apply in relation to such a declaration, applies to the action.

Note: For paragraph (b), a declaration is not in operation in relation to a class of actions if, for example, the declaration is suspended either wholly or in relation to the class of actions.

- (5) If:
  - (a) an action is in a class of actions specified in a declaration included in a bilateral agreement in accordance with section 46 not to require approval under Part 9 for the purposes of any of the provisions of Part 3, other than sections 24D and 24E; and

- (aa) the action is not an action mentioned in section 24D or 24E;  
and
- (b) the bilateral agreement is in operation in relation to the declaration and the class of actions; and
- (c) the action is not specified in a determination under section 65B (exclusion determination);

then an ***alternate pathway***, which is the provisions of this Act that apply in relation to a bilateral agreement that includes such a declaration, applies to the action.

Note: For paragraph (b), a bilateral agreement is not operation in relation to a declaration and a class of actions if, for example, the provision of the agreement making the declaration is suspended.

- (6) However, the alternate pathway in subsection (4) or (5) does not apply to an action (the ***larger action***) that a person proposes to take if a declaration mentioned in that subsection is in force that covers a component of the larger action but the larger action itself is not covered by such a declaration that is in force.

*Alternate pathway—action covered by Part 10 approval*

- (7) If subsection 146D(2) applies in relation to an action, then an ***alternate pathway***, which is the provisions of this Act that apply in relation to actions to which an approval under section 146B applies, applies to the action.

Note: If a determination is in force under section 146N (action that is component of larger action) or 146P (exclusion determination) in relation to an action, then subsection 146D(2) does not apply and the action may be referred.

*Restricted action in conservation zone*

- (8) If:
  - (a) an action is taken in a conservation zone specified in a bioregional plan; and
  - (b) the action is a restricted action for the bioregional plan; and
  - (c) subsection 177CC(1) applies to the action taken by the person;

then an ***alternate pathway***, which is the provisions of this Act that apply in relation to restricted actions taken in a conservation zone specified in a bioregional plan, applies to the action.

*Priority action in bioregional plan*

- (9) If:
- (a) an action is taken in a development zone specified in a bioregional plan; and
  - (b) the action is a priority action that can be taken in the development zone;

then an *alternate pathway*, which is the provisions of this Act that apply in relation to priority actions taken in a development zone specified in a bioregional plan, applies to the action.

Note: If a determination under subsection 177CE(1) or 177CF(1) provides that an action is taken not to be a priority action, this subsection does not apply and the action may be referred.

**161 At the end of section 72**

Add:

- (4) The referral may (but need not) include the greenhouse gas emissions information for the action.

**162 Subsections 74(1) and (2)**

Omit “must”, substitute “may”.

**163 Paragraph 74AA(1)(b)**

Repeal the paragraph, substitute:

- (b) any of the following circumstances exist:
  - (i) a proposal to take the action (or a larger action of which the action is a component) has been referred to the Minister by the person under section 68 (other than a proposal that is taken to have been referred because of section 69A);
  - (ii) the person has been notified under subsection 36B(3) or 65B(3) that a proposal to take the action (or a larger action of which the action is a component) is taken to have been referred to the Minister under section 68;
  - (iii) a proposal to take the action (or a larger action of which the action is a component) has been referred to the Minister under section 69 or 71 and the person has been informed of the referral under section 73; and

**164 After paragraph 74AA(1)(g)**

Insert:

(ga) either:

- (i) no determination that the action may continue to be taken is in force under section 79E; or
- (ii) such a determination is in force, but the action has been taken otherwise than in accordance with one or more of the conditions (if any) specified in the determination; and

**165 Before subsection 74AA(2)**

Insert:

*Defences*

**166 Subsection 74AA(2)**

Omit “an action by a”, substitute “the action by the”.

**167 Subsection 74AA(2) (note)**

Omit “subsection (1)”, substitute “this subsection”.

**168 After subsection 74AA(2)**

Insert:

- (2A) Subsection (1) does not apply to the taking of the action by the person if:
- (a) the action is a minor or preparatory component of a larger action; and
  - (b) the person has obtained the Minister’s written agreement, in accordance with any regulations prescribed for the purposes of this paragraph, to take the action.

Note 1: A defendant bears an evidential burden in relation to the matters in this subsection: see subsection 13.3(3) of the *Criminal Code*.

Note 2: This means that subsection (1) does not prohibit the person from taking a minor or preparatory action that is a component of a larger action that has been referred.

- (2B) Regulations prescribed for the purposes of paragraph (2A)(b) may make provision for and in relation to the following:

- (a) applications to the Minister for agreement to take an action;
- (b) matters the Minister is to be satisfied of or have regard to in deciding whether to agree;
- (c) notice and publication of the Minister's decision;
- (d) when the Minister's decision has effect.

(2C) Subsection (1) does not apply to the taking of the action by the person if a decision approving the taking of the action is in operation under Part 9.

Note 1: A defendant bears an evidential burden in relation to the matters in this subsection: see subsection 13.3(3) of the *Criminal Code*.

Note 2: This means that subsection (1) does not prohibit the person from taking an approved action that is a component of a larger action that has been referred.

(2D) Subsection (1) does not apply to the taking of the action by the person if:

- (a) a decision that the action is not a controlled action is in operation under section 75; and
- (b) if the decision was made because the Minister believed the action would be taken in a manner specified in the notice of the decision under section 77, the action is taken in that manner.

Note 1: A defendant bears an evidential burden in relation to the matters in this subsection: see subsection 13.3(3) of the *Criminal Code*.

Note 2: This means that subsection (1) does not prohibit the person from taking an action that the Minister has decided is not a controlled action even if the action is a component of a larger action that has been referred.

### **169 At the end of subsections 74B(1), 74C(2) and 74D(4)**

Add:

Note: See the definition of *unacceptable impacts* in section 527F.

### **169A Subsection 75(2B)**

Omit all the words after “adverse impacts of”, substitute “any RFA forestry operation to which, under Division 4 of Part 4, Part 3 does not apply.”.

## **170 After section 75**

Insert:

### **75A Action excluded from section 146B approval taken to be national interest proposal**

If:

- (a) a determination is in force under section 146P in relation to an action (exclusion determination in relation to approval under section 146B); and
  - (b) the Minister decides that the action is a controlled action;

### **75C Certain restricted actions taken to be national interest proposal**

If:

- (a) an exemption from the operation of section 177CC in relation to the taking of a restricted action by a person in a conservation zone is in force; and

(b) the exemption was granted on the basis that the Minister was satisfied as mentioned in paragraph 177BV(1)(b)(which deals with the national interest); and

(c) the Minister decides that the restricted action is a controlled action;

the Minister is also taken, from the time the Minister makes that decision, to have made a determination under section 157A that the taking of the restricted action is a national interest proposal.

### **171 Subsection 76(1)**

Repeal the subsection, substitute:

  - (b) there is a high degree of certainty associated with the quality and accuracy of the information.

- (b) the person considers the identified manner is no longer appropriate for the action;

the person may apply to the Minister for reconsideration of the decision.

(2) The application must:

- (a) be in writing; and
- (b) if the person proposes to take the action in a manner different to the identified manner—set out the manner in which the person proposes to take the action; and
- (c) include any other information prescribed by the regulations.

**79B Minister must inform interested persons of application under section 79A and invite comments**

*Other Commonwealth Ministers*

- (1) If the Minister (the *Environment Minister*) receives an application under section 79A, the Environment Minister may:

- (a) inform any other Minister who the Environment Minister believes has administrative responsibilities relating to the action of the application; and
- (b) invite each other Minister informed to give the Environment Minister, within 10 business days, any information the other Minister considers relevant to the reconsideration.

*State and Territory Ministers*

- (2) If the application relates to an action proposed to be taken in a State or self-governing Territory and the Environment Minister thinks the action may have an impact on a matter protected by a provision of Division 1 of Part 3 (about matters of national environmental significance), the Environment Minister may:

  - (b) invite that Minister to give the Environment Minister, within 10 business days:

**79C Reconsideration of decision on application under section 79A**

- (1) If the Minister receives an application under section 79A from a person for reconsideration of a decision (the *first decision*), the

Minister must reconsider the first decision and do one of the following:

- (a) revoke the first decision and substitute a new decision under subsection 75(1) for the first decision;
  - (b) refuse the application.
- (2) As soon as practicable after either revoking the first decision and substituting a new decision, or refusing the application, the Minister must:
- (a) give the person written notice of the Minister's decision; and
  - (b) if the decision is to revoke the first decision and substitute a new decision—publish a copy of the notice on the Department's website.
- (3) A provision of Part 3 letting an action be taken if the Minister has decided that a particular provision (the *prohibiting provision*) of that Part is not a controlling provision for the action does not prevent the Minister from taking action under subsection (1) to revoke a decision that the prohibiting provision is not a controlling provision for an action and substitute a decision that the prohibiting provision is a controlling provision for the action.
- (4) If the first decision is revoked and a new decision substituted for it:
- (a) any provisions of this Chapter that applied in relation to the action because of the first decision cease to apply in relation to the action; and

  - (b) the Minister revokes the first decision under subsection 78(1) or 79C(1) and substitutes the first decision with a decision (the *subsequent decision*) under subsection 75(1) that:
    - (i) the action is a controlled action; and
    - (ii) one or more provisions of Part 3 are controlling provisions for the action;
  - (c) the taking of the action commences before the subsequent decision is made;
  - (d) the Minister is satisfied, based on information before the Minister at the time of making the determination, that allowing the action to continue in accordance with any conditions specified under subsection (2) would not be inconsistent with Australia's obligations under a designated international agreement;

then the Minister may determine, in writing, that the action may continue to be taken.

Note: In some cases the first decision may have been that an action is not a controlled action because the Minister believed the action would be taken in the manner identified under subsection 77A(1) in the notice given under section 77.

*Content of determination*

- (2) The determination may specify conditions to which the taking of the action is subject.
- (3) The Minister must be satisfied that any conditions specified for the purposes of subsection (2) are necessary or convenient for:

- (a) protecting from the action any matter protected by a provision of Part 3 of this Act that the Minister has decided is a controlling provision for the action; or
  - (b) repairing or mitigating damage that may or will be, or has been, caused by the action to any matter protected by a provision of Part 3 that the Minister has decided is a controlling provision for the action.
- (4) The determination must specify a day on which the determination ceases to be in force.
- Note: The determination may cease to be in force earlier than the specified day (see paragraphs (7)(a) to (g)).

- (5) The determination must specify a period within which the original proposal may be withdrawn and a new proposal referred.
- Note: This period is relevant to the determination continuing despite withdrawal of the original proposal (see paragraph 170C(5)(b)).

*Variation of determination*

- (6) The Minister may, in writing, vary the determination to specify:
- (a) different conditions for the purposes of subsection (2); or
  - (b) a later day for the purposes of subsection (4) or (5).

*When determination ceases to be in force*

- (7) The determination ceases to be in force at the time the first of the following occurs after the determination is made:
- (a) the Minister decides under Part 9 whether to approve the taking of the action;
  - (b) if the Minister accepts a variation of the original proposal under section 156B—the Minister decides under Part 9 whether to approve the taking of the action that is the subject of the varied proposal;
  - (c) if subsection 170C(5) applies in relation to the determination—the Minister decides under section 75 that the new action referred to in subsection 170C(5) is not a controlled action;
  - (d) if subsection 170C(5) applies in relation to the determination—the Minister decides under Part 9 whether to

approve the taking of the new action referred to in subsection 170C(5);

- (e) if subsection 170C(5) applies in relation to the determination and a variation of the proposal to take the new action is accepted by the Minister under section 156B—the Minister decides under section 75 that the action that is the subject of the varied proposal is not a controlled action;
- (f) if subsection 170C(5) applies in relation to the determination and a variation of the proposal to take the new action is accepted by the Minister under section 156B—the Minister decides under Part 9 whether to approve the taking of the action that is the subject of the varied proposal;
- (g) the end of the day specified in the determination for the purposes of subsection (4).

*Notice of making, or varying, determination*

- (8) Within 10 business days after making a determination under subsection (1), or varying a determination under subsection (6), in relation to the taking of an action, the Minister must give written notice of the making of the determination or variation to:
  - (a) the person taking the action; and
  - (b) the designated proponent of the action (if the designated proponent of the action is not the person taking the action).

*Publication of determination*

- (9) The Minister must publish a copy of a determination made under subsection (1), or a variation made under subsection (6), on the Department's website as soon as practicable after giving notice of the determination or variation under subsection (8).

*Determination or variation not a legislative instrument*

- (10) A determination under subsection (1), or a variation under subsection (6), is not a legislative instrument.

## **Division 4—Lapsing of decision that action is not a controlled action**

### **79F Lapsing of decision that action is not a controlled action**

- (1) A decision under section 75 that an action is not a controlled action ceases to be in force, on the fifth anniversary of the date of the notice of the decision under section 77, if the taking of the action has not substantially commenced before that anniversary.
- (1A) However, if the Minister decides under section 79G to extend the date on which a decision under section 75 ceases to be in force, the references in subsection (1) to the fifth anniversary of the date of the notice of the decision are taken to be references to the date decided by the Minister under section 79G.
- (2) Subsection (1) applies regardless of whether the decision was made because the Minister believed the action would be taken in a particular manner.
- (3) If a decision under section 75 ceases to be in force because of subsection (1), the action is taken never to have been referred to the Minister.

### **79G Extending date of lapsing of decision that action is not a controlled action**

- (1) At least 6 months before the fifth anniversary of the date of a notice given under section 77 (the *initial notice*) of a decision under section 75 (the *initial decision*) that an action is not a controlled action, the Minister must give the person to whom the initial notice was given written notice that, if the taking of the action has not substantially commenced before the fifth anniversary, the initial decision will cease to be in force under subsection 79F(1) on that anniversary.
- (2) The person may request the Minister to extend the date on which the initial decision will cease to be in force under subsection 79F(1). The request must:
  - (a) be in writing; and
  - (b) be in the approved form (if any); and

- (c) be accompanied by the following:
  - (i) the information or documents (if any) that the approved form specifies are required;
  - (ii) the information or documents (if any) prescribed by the regulations.
- (3) The request must be made at least 20 business days before the fifth anniversary.
- (4) The Minister must make a decision on the request within 20 business days.
- (5) The Minister may, if satisfied that it is appropriate to do so, extend the date on which the initial decision will cease to be in force under subsection 79F(1) to a later date specified by the Minister. The later date must not be later than the tenth anniversary of the date of the initial notice.
- (6) If the Minister extends the date to a date that is sooner than the tenth anniversary of the date of the initial notice, the Minister may, if the Minister is satisfied that it is appropriate to do so, further extend the date, so long as the later date is not later than the tenth anniversary of the date of the initial notice.
- (7) The Minister may further extend the date under subsection (6) on one or more occasions (so long as no further later date is later than the tenth anniversary of the date of the initial notice).
- (8) As soon as practicable after the Minister decides a request under subsection (2), or extends a date under subsection (6), the Minister must:
  - (a) give the person written notice of the Minister's decision; and
  - (b) publish a copy of the decision on the Department's website.

- (aa) an assessment on preliminary documentation (see Division 4);
- (b) a streamlined assessment (see Division 5A);
- (c) an environmental impact statement (see Division 6);
- (d) a public inquiry (see Division 7).

The Minister may change the chosen approach in certain circumstances.

The designated proponent must provide information about the greenhouse gas emissions for the action.

## 190 Division 2 of Part 8 (heading)

Repeal the heading, substitute:

## Division 2—Application and general provisions

### 191 At the end of Division 2 of Part 8

Add:

#### 84A Greenhouse gas emissions information

- (1) The requirements in this Part that relate to giving greenhouse gas emissions information for actions apply regardless of whether the information relates to the relevant impacts of the action.

#### *Greenhouse gas emissions information*

- (2) The following is the **greenhouse gas emissions information** for an action:
  - (a) either:
    - (i) a reasonable estimate of the likely amount of scope 1 greenhouse gas emissions of the action; or
    - (ii) if an amount is prescribed by the regulations for the purposes of this subparagraph and a reasonable estimate of the likely amount of scope 1 greenhouse gas emissions of the action is below the amount—a statement that scope 1 greenhouse gas emissions of the action are below the prescribed amount; and

- (b) either:
  - (i) a reasonable estimate of the likely amount of scope 2 greenhouse gas emissions of the action; or
  - (ii) if an amount is prescribed by the regulations for the purposes of this subparagraph and a reasonable estimate of the likely amount of scope 2 greenhouse gas emissions of the action is below the amount—a statement that scope 2 greenhouse gas emissions of the action are below the prescribed amount; and
- (c) in relation to emissions for which a reasonable estimate is provided in accordance with subparagraph (a)(i) or (b)(i)—the strategies and measures the designated proponent will implement to manage those emissions; and
- (d) how those strategies and measures are consistent with the laws and relevant government policies of the Commonwealth.

*Scope 1 greenhouse gas emissions*

- (3) The release of greenhouse gas into the atmosphere is a **scope 1 greenhouse gas emission** of an action if it is a direct result of taking the action.

*Scope 2 greenhouse gas emissions*

- (4) The release of greenhouse gas into the atmosphere is a **scope 2 greenhouse gas emission** of an action if it is a direct result of any activity that:
  - (a) generates electricity, heating, cooling or steam that is used or disposed of by the taking of the action; but
  - (b) does not form part of the action.

*Method for estimating the likely amount of emissions*

- (5) The regulations may prescribe a method for making a reasonable estimate of the likely amount of a type of emission mentioned in paragraph (2)(a) or (b).
- (6) Regulations made for the purposes of subsection (5) may make provision in relation to a matter by applying, adopting, or

incorporating, with or without modification, any instrument or other writing as in force from time to time.

- (7) Subsection (6) has effect despite anything in subsection 14(2) of the *Legislation Act 2003*.
- (8) The designated proponent of an action must use the prescribed method (if any) in making a reasonable estimate of the likely amount of that type of emission for the action.

#### **84B Designated report writer for recommendation reports**

The Minister must, by written instrument, declare that the *designated report writer* for recommendation reports under Division 4 (assessment on preliminary documentation), Division 5A (streamlined assessment) or Division 6 (assessment by environmental impact statement) is:

- (a) the Secretary; or

**194 After subsection 87(5)**

Insert:

*Streamlined assessment*

- (5A) The Minister may decide on an assessment by streamlined assessment only if the Minister is satisfied (after considering the matters in subsection (3)) that:
- (a) the action is not a fossil fuel action; and
  - (b) the approach will allow the Minister to make an informed decision whether or not to approve under Part 9, for the purposes of each controlling provision, the taking of the action; and
  - (c) the greenhouse gas emissions information for the action has been provided.
- (5B) If the greenhouse gas emissions information for the action is provided for the purposes of paragraph (5A)(c) other than by being included in the referral of the action, the Secretary must publish the information on the Department's website as soon as practicable after it is provided to the Minister.

**195 After section 87**

Insert:

**87A Additional considerations and decisions if assessment started under certain management or authorisation frameworks**

- (1) In making the decision under section 87 in relation to an action, the Minister must also comply with this section if, at a time before the Minister decided the action is a controlled action:
- (a) an alternate pathway applied to the action as mentioned in:
    - (i) subsection 71A(4) (about declarations made under section 33 or 36H); or

- (ii) subsection 71A(5) (about bilateral agreements that include a declaration in accordance with section 46); and
    - (b) an assessment of the relevant impacts of the action had started in accordance with a management or authorisation framework that was:
      - (i) if the alternate pathway related to a declaration made under section 33—accredited for the purposes of the declaration; or
      - (ii) if the alternate pathway related to a declaration made under section 36H—specified in the declaration; or
      - (iii) if the alternate pathway related to a declaration included in a bilateral agreement in accordance with section 46—accredited for the purposes of the bilateral agreement.
- Note: An action cannot be referred under Part 7 at a time when an alternate pathway applies to it, but if it ceases to apply, even temporarily, the action may be referred (see sections 69A and 71A).
- (2) If the assessment mentioned in paragraph (1)(b) was completed at a time when the alternate pathway applied to the action, then:
    - (a) the Minister must consider whether the completed assessment should be used for the purposes of this Part; and
    - (b) if the Minister is satisfied that it should be—the Minister may determine, in writing, that the completed assessment is an assessment for the purposes of this Part.
  - (3) The Minister must not determine, under paragraph (2)(b), that the completed assessment is an assessment for the purposes of this Part unless the Minister is satisfied that:
    - (a) the body that carried out the assessment has provided or will provide the Minister with an assessment report; and
    - (b) the report includes or will include sufficient information to enable the Minister to decide whether to approve the taking of the action for the purposes of each provision of Part 3 that is a controlling provision for the action.
  - (4) If the assessment mentioned in paragraph (1)(b) was not completed by the time the alternate pathway ceased to apply to the action, then:

- (a) the Minister must consider the extent to which the partly completed assessment should be completed under an approach for assessment set out in this Part and used for the purposes of this Part; and
  - (b) if the Minister is satisfied that it should be, to any extent—the Minister may determine, in writing, that the partly completed assessment is to be completed using the approach for assessment under this Part that the Minister decides to use; and
  - (c) if the Minister makes the determination—the determination must specify:
    - (i) the steps of the partly completed assessment that are to be used for the purposes of the assessment under this Part; and
    - (ii) the remaining steps to be carried out to complete the partly completed assessment as an assessment under this Part.
- (5) A determination made under paragraph (2)(b) or (4)(b) is not a legislative instrument.

*Conditions relating to residual significant impacts*

- (3F) In deciding whether to attach a condition to an approval of an action requiring:

*Exception—national interest proposals*

- (2) Despite subsection (1), the Minister may approve the taking of an action if:
- (a) the action is a national interest proposal; and

- (b) the Minister is satisfied that, so far as the approval of the taking of the action is inconsistent with one or more national environmental standards prescribed by the regulations for the purposes of subsection (1), the inconsistencies are reasonably necessary for the taking of the action to result, or be likely to result, in the intended outcome for the national interest proposal.

Note: See the definition of *intended outcome* in section 528.

- (3) For the purposes of subsection (2), in deciding whether an inconsistency is reasonably necessary, the Minister must take into account the following:
  - (a) the extent to which the inconsistency could be reduced or removed without changing whether the taking of the action would be likely to result in the intended outcome;
  - (b) the extent to which any conditions to be attached to the approval would reduce or remove the inconsistency.

### **136B Action must not have unacceptable impact**

#### *Action must not have unacceptable impact*

Note: See the definition of *unacceptable impacts* in section 527F.

#### *Exception—national interest proposals*

- (2) Despite subsection (1), the Minister may approve the taking of an action if:
  - (a) the action is a national interest proposal; and
  - (b) the Minister is satisfied that, so far as the taking of the action will have one or more unacceptable impacts on matters protected by provisions of Part 3 that the Minister has decided are controlling provisions for the action, the impacts are reasonably necessary for the taking of the action to result,

or be likely to result, in the intended outcome for the national interest proposal.

Note: See the definition of *intended outcome* in section 528.

- (3) For the purposes of subsection (2), in deciding whether an unacceptable impact on a protected matter is reasonably necessary, the Minister must take into account the following considerations relating to the damage likely to be caused by the impact on the matter:
- (a) the extent to which that damage could be reasonably mitigated or repaired without changing whether the taking of the action would be likely to result in the intended outcome;
  - (b) the extent to which any conditions to be attached to the approval would assist in mitigating or repairing that damage.

*Approvals must pass net gain test*

- (1) The Minister must not approve the taking of an action that will have or is likely to have a residual significant impact on a matter protected by a provision of Part 3 that the Minister has decided is a controlling provision for the action unless the Minister is satisfied that, taking into account any conditions to be attached to the approval, the approval passes the net gain test in relation to the residual significant impact on the matter.

Note: See the definitions of *residual significant impact* and *passes the net gain test* in sections 527J and 527K.

*Exception—national interest proposals*

- (2) Despite subsection (1), the Minister may approve the taking of an action if:

  - (b) the Minister is satisfied that, so far as the taking of the action will have or be likely to have a residual significant impact on a matter protected by a provision of Part 3 that the Minister has decided is a controlling provision for the action, requiring the approval to pass the net gain test in relation to that impact

on that matter would prevent or be likely to prevent the intended outcome for the national interest proposal.

Note: See the definition of *intended outcome* in section 528.

- (3) For the purposes of subsection (2), in determining whether the Minister is satisfied, the Minister must take into account the reasons why the approval would not pass the net gain test in relation to the residual significant impact on the protected matter.

- (3) The Minister must decide whether to make the determination, or refuse the application, within 20 business days of the day the application is made.
- (4) If the Minister decides to refuse the application, the Minister must give the applicant written notice of the Minister's decision, and the reasons for it, as soon as practicable.

### **146R Request for information**

- (1) The Minister may, in writing, request any person to provide specified information that the Minister reasonably believes is necessary in order to make an informed decision whether or not to make a determination under section 146P.
- (2) If the Minister makes a request under subsection (1) in respect of a decision in which there is an applicant, a day is not to be counted as a business day for the purposes of subsection 146Q(3) if it is:

- (a) on or after the day the Minister requested the information;  
and
- (b) on or before the day the Minister receives the last of the  
information requested.

### **146S Effect of exclusion determination**

If a determination is in force under section 146P in relation to an action, then the action specified in the determination is taken not to be an action in the class of actions specified in the approval under section 146B.

Note: This means that no alternate pathway applies to the action under section 71A (because subsection 146D(2) does not apply in relation to the action), which in turn means that the action may be referred under Part 7 for assessment and approval under Parts 8 and 9.

### **146T Revocation of exclusion determination**

#### *Revocation on request*

- (1) The Minister must, by written instrument, revoke a determination under section 146P in relation to an action if:
  - (a) the person proposing to take the action, or the designated proponent (if any), has made a written request for the revocation; and
  - (b) the Minister has not decided whether to approve the taking of the action under section 133; and
  - (c) the Minister has not made a decision under Division 2 of Part 7 that the action is not a controlled action.

#### *Revocation on Minister's initiative*

- (2) The Minister must, on the Minister's initiative, by written instrument, revoke a determination under section 146P in relation to an action if:
  - (a) the Minister is no longer satisfied that the taking of the action would result or be likely to result in the intended outcome mentioned in subsection 146P(1); and
  - (b) the Minister has not decided whether to approve the taking of the action under section 133; and

- (c) the Minister has not made a decision under Division 2 of Part 7 that the action is not a controlled action.

*Timing*

- (3) A revocation comes into force on the day specified in the revocation (which must not be earlier than the day the revocation is made).

*Not legislative instrument*

- (4) A revocation made under subsection (1) is not a legislative instrument.

**146U Notice of revocation of exclusion determination**

As soon as practicable after revoking, under section 146T, a determination under section 146P in relation to an action, the Minister must:

- (a) give a copy of the revocation to:
  - (i) the person proposing to take the action; and
  - (ii) the holder of the approval under section 146B; and
  - (iii) the responsible person for the policy, plan or program to which the approval relates; and
  - (iv) the designated proponent (if any); and
- (b) publish a copy of the revocation on the Department's website.

**146V Effect of revocation of exclusion determination if Minister has decided action is a controlled action**

At the time a determination under section 146P in relation to an action is revoked under section 146T, any determination that, under section 75A, was taken to have been made in relation to the action is also taken to be revoked.

**288 At the end of section 156A**

Add:

- (5) Despite subsection (4):

- (a) any determination in force under section 79E at the time the request is made in relation to the action that is the subject of the original proposal continues in force, and section 79E continues to apply in relation to any such determination; and
- (b) any such determination continues to have effect for the purposes of sections 67, 67A and 74AA, and those sections continue to apply, in relation to the action that is the subject of the original proposal.

**289 At the end of subsection 156D(1)**

Add:

Note: Provisions of this Chapter that relate to section 79E (determination that certain reconsidered actions may continue to be taken) do not cease to apply in relation to the original proposal (see subsection 156A(5)).

**290 At the end of subsection 156D(2)**

Add:

Note: Provisions of this Chapter that relate to section 79E (determination that certain reconsidered actions may continue to be taken) do not cease to apply in relation to the original proposal (see subsection 156A(5)).

**291 After Division 2 of Part 11**

Insert:

**Division 2A—National interest proposals**

Note: The Minister is taken to have made a determination under this section in certain circumstances (see sections 75A, 75B and 75C).

- (1A) Despite subsection (1), the Minister must not determine that the taking of a specified action is a national interest proposal if the action is a fossil fuel action.

- (3) A determination made under subsection (1) is not a legislative instrument.

- (1) The following persons may apply to the Minister (the ***Environment Minister***) for a determination that the taking of an action is a national interest proposal:
- (a) the designated proponent of the action;

- (2) The application must:
- (a) be in writing; and
  - (b) include the information (if any) prescribed by the regulations.
- (3) The Minister must decide whether to make a determination under section 157A within 20 business days of receiving the application.
- Note: If the Minister requests information to make an informed decision under section 157G, days between the request and receipt of the information do not count towards this timeframe (subsection 157G(3)).

- Note: If the Minister makes the determination, the Minister must give the persons listed in subsection (1) a copy of the determination (see section 157D).

### **157C Grounds for determination**

- That outcome is the *intended outcome* for the national interest proposal.

- (2) In determining Australia's national interest for the purposes of a provision listed in subsection (3), the Minister may consider:
- (a) Australia's defence, security or strategic interests; or

This does not limit the matters the Minister may consider.

- (3) For the purposes of subsection (2), the following provisions are listed:

- (1) As soon as practicable after revoking, under section 157E, a determination that the taking of an action is a national interest proposal, the Minister must:
- (a) give a copy of the revocation to the designated proponent of the action; and
  - (b) publish a copy of the revocation together with the Minister's reasons for making the revocation on the Department's website.

Note: Subsection 157C(2) applies in relation to determining Australia's national interest.

  - (b) revoke, under section 157E, such a determination.
- (2) If the Minister has requested information under subsection (1) in respect of a decision for which there is an applicant, a day is not to be counted as a business day for the purposes of subsection 157B(3) (application for determination) if it is:

#### *Not a legislative instrument*

- (6) An exemption made under subsection (1) is not a legislative instrument.

### 157J Effect of national interest exemption

- (a) the action is taken by the person to whom the exemption applies; and
- (b) the person takes the action in accordance with the conditions (if any) of the exemption.

Note 1: For conditions of an exemption, see section 157M.

**157L Grounds for grant of national interest exemption**

- (1) Before granting a national interest exemption for an action from a provision of Part 3 or this Chapter, the Minister must be satisfied that:
- (a) the action is, or is likely to be, a controlled action; and
  - (b) for an exemption from a provision of Part 3—the provision is, or is likely to be, a controlling provision for the action; and
  - (c) it is in the national interest that the provision not apply to the taking of the action by the person to whom the exemption is to apply.
- (2) In deciding whether the Minister is satisfied as required by paragraph (1)(a) or (b), the Minister:
- (a) if the action has been referred under a provision of Part 7—must have regard to the information provided in relation to the referral; and
  - (b) whether or not the action has been referred under a provision of Part 7—may have regard to any other information the Minister considers relevant.
- (3) In determining the national interest for the purposes of a provision of this Division, the Minister may consider:
- (a) Australia's defence or security; or
  - (b) a national emergency, including an emergency to which a national emergency declaration (within the meaning of the *National Emergency Declaration Act 2020*) relates.

Note: Subsection 157C(2) applies in relation to determining Australia's national interest.

### **157P Variation of national interest exemption**

- (b) the provisions from which the action is exempt, but not in a way that results in the action being exempt from additional provisions;
- (c) the person to whom the exemption applies;
- (d) the period for which the exemption is in force;
- (e) the conditions of the exemption, including by imposing additional conditions.

#### *Grounds for variation*

*Notice of decision*

- (4) As soon as practicable after the decision is made, the Minister must:

Note: It is an offence not to comply with a condition attached to taking a priority action in a development zone, subject to specified exceptions: see section 177BZ.

- (2) Before a priority class of actions is specified, the Minister must be satisfied that, taken as a whole, the actions in the class have, will have or are likely to have a significant impact on one or more matters protected by a provision of Part 3. Each such matter is an ***impacted protected matter*** for the priority actions in the class.

  - (a) the condition is necessary or convenient to protect the impacted protected matter (whether or not the protection is protection from priority actions in the class);
  - (b) the condition is necessary or convenient to mitigate or repair damage to the impacted protected matter (whether or not the damage has been, will be or may be caused by the priority actions in the class).
- (3) The bioregional plan must specify, for each condition, the impacted protected matters to which the condition relates.
- (4) A condition that relates to an impacted protected matter for a priority action does not apply to the taking of the priority action by a person for whom the priority action is a designated priority action for the impacted protected matter.
- (5) If an impacted protected matter to which a condition relates ceases to be a matter protected by a provision of Part 3, the condition ceases to have effect to the extent that the condition relates to the impacted protected matter.

  - (d) if a Territory has consented to be specified—the Territory;
  - (e) any other person who has consented to be specified.
- (5) To avoid doubt, a bioregional plan may specify that the Restoration Contributions Holder is responsible for delivering a bioregional restoration measure on behalf of the Commonwealth.

#### **177AI Conditions about delivery of bioregional restoration measures**

- (1) A bioregional plan for a region may include the following conditions relating to bioregional restoration measures:
  - (a) conditions requiring the delivery of a bioregional restoration measure by a person specified in the bioregional plan to be responsible for the delivery;

#### **177AK Restricted actions and restricted protected matters**

- (1) A bioregional plan must specify, for each conservation zone in the bioregional plan, one or more classes of actions that are prohibited in the conservation zone. Each action in such a class is a ***restricted action*** in the class.
- (2) Before a class of actions is specified, the Minister must be satisfied that, taken as a whole, the actions in the class have, will have, or

are likely to have, a significant impact on one or more matters protected by a provision of Part 3. Each such matter is a *restricted protected matter* for the restricted actions in the class.

- (3) The bioregional plan must specify, for each class of actions, the restricted protected matters for the restricted actions in the class.

## **Division 2—Process for making a bioregional plan**

### **177AL Minister must notify and seek comments on draft of a bioregional plan before it is made**

- (2) If the Minister does not consider that there is a protection statement that is relevant to a bioregional plan that the Minister proposes to make, but considers that there is a recovery plan that is relevant to the bioregional plan, the Minister must not make the bioregional plan unless the Minister is satisfied that the bioregional plan is not inconsistent with the recovery plan.
- (3) If the Minister considers that there is a protection statement and a recovery plan that are relevant to a bioregional plan that the Minister proposes to make, the Minister must not make the bioregional plan unless the Minister is satisfied that the bioregional plan is not inconsistent with the protection statement, but is not required to be satisfied that the bioregional plan is not inconsistent with the recovery plan.

**177AP Matters of which the Minister must be satisfied before making a bioregional plan—outcomes of the bioregional plan**

The Minister must not make a bioregional plan for a region unless the Minister is satisfied of the following:

- (a) that making the bioregional plan will promote the objects of this Act;
- (b) that threats to matters protected by a provision of Part 3 in the region have been identified and addressed as appropriate, being threats arising other than from priority actions;

- (xi) the environment on Commonwealth land;
- (d) that the bioregional plan will not have an unacceptable impact on a matter protected by a provision of Part 3;
- (e) that the bioregional plan will, or will be likely to, result in the residual significant impacts of each priority class of actions (taken as a whole) on impacted protected matters being compensated to a net gain (within the meaning of paragraph 527K(1)(b) or (2)(b), as the case requires);
- (f) that the bioregional plan includes consideration of:
  - (i) the expected impacts of climate change; and
  - (ii) appropriate adaptation and resilience measures to protect matters protected by a provision of Part 3 in response to those impacts.

Note: See the definition of *unacceptable impacts* in section 527F.

**177AQ Matters of which the Minister must be satisfied before making a bioregional plan—consistency with international conventions and other instruments**

- (1) The Minister must not make a bioregional plan unless the Minister is satisfied that making the bioregional plan would not be inconsistent with any of the following:
  - (a) Australia's obligations under a designated international agreement;
  - (b) any threat abatement plan the Minister considers relevant;
  - (c) a designated environmental instrument.
- (2) The Minister must not make a bioregional plan unless the Minister is satisfied that making the bioregional plan would be consistent with any national environmental standards prescribed by the regulations for the purposes of this subsection.

### **177AR Minister must publish bioregional plan**

The Minister must publish each bioregional plan, and the reasons for the decision to make the bioregional plan, on the Department's website as soon as practicable after the plan is made.

## **Division 3—Variation of bioregional plans**

### **Subdivision A—Process for varying bioregional plans**

#### **177AS Minister may vary a bioregional plan in certain circumstances**

  - (a) a review of the bioregional plan has recommended the bioregional plan be varied;
  - (b) the objectives of the bioregional plan are not being met;
  - (c) both:
    - (i) an ecological event has occurred that has had, will have, or is likely to have, a significant impact on a matter protected by a provision of Part 3; and
    - (ii) varying the bioregional plan is reasonably necessary to protect, or lessen any threats to, a matter protected by a provision of Part 3;
  - (d) there has been a change in development pressures in the region and varying the bioregional plan is appropriate in the circumstances;
  - (e) both:
    - (i) significant new information about a threat to a matter protected by a provision of Part 3 is available; and
    - (ii) having regard to the new information, varying the bioregional plan is reasonably necessary to protect, or lessen the threat to, a matter protected by a provision of Part 3;
  - (f) one or more priority actions taken have had or will have an unacceptable impact on a matter protected by a provision of Part 3;

Note: See the definition of *unacceptable impacts* in section 527F.

- (g) the bioregional plan has not resulted, or is not likely to result, in the residual significant impacts of each priority class of actions (taken as a whole) on one or more impacted protected matters being compensated to a net gain (within the meaning of paragraph 527K(1)(b) or (2)(b), as the case requires);
- (h) both:
  - (i) there has been a change in a matter protected by a provision of Part 3, or in the status of a matter protected by a provision of Part 3, or in the importance of the population of a matter protected by a provision of Part 3; and
  - (ii) varying the bioregional plan is reasonably necessary to protect, or lessen any threats to, a matter protected by a provision of Part 3;
- (i) both:
  - (i) an action taken within or outside the region has had, or is likely to have, a significant impact on a matter protected by a provision of Part 3 in the region; and
  - (ii) varying the bioregional plan is reasonably necessary to protect, or lessen any threats to, a matter protected by a provision of Part 3;
- (j) a condition of the bioregional plan relating to the delivery of a bioregional restoration measure has been, or is likely to be, contravened;
- (k) a bioregional restoration measure is no longer appropriate to achieve its purpose;
- (l) both:
  - (i) an existing condition of the bioregional plan in relation to the taking of a priority action by a person is no longer necessary or convenient to protect, or to mitigate or repair damage to, an impacted protected matter to which the existing condition relates; and
  - (ii) the variation of the bioregional plan is to vary or revoke the existing condition;
- (m) the variation has been agreed to by:
  - (i) each relevant State and relevant Territory for the bioregional plan; or
  - (ii) if the region is wholly located in one or more Commonwealth areas—the Commonwealth;

- (n) the variation is to a part of the bioregional plan that does not have regulatory effect;
  - (o) the variation is necessary to ensure that the bioregional plan is consistent with a national environmental standard prescribed by the regulations for the purposes of subsection 177AQ(2);
  - (p) a ground prescribed by the regulations exists.
- (2) The Minister may vary a bioregional plan for a region during a period when the bioregional plan is suspended under Division 4.
- (3) Without limiting paragraph (1)(j), a reference to a change in a matter protected by a provision of Part 3 includes the occurrence of a listing event (within the meaning of subsection 158A(1)) in relation to the matter.

### **177AT Scope of variations of a bioregional plan**

- (1) Without limiting this Division, a variation of a bioregional plan may relate to one or more of the following:

  - (d) impacted protected matters;
  - (e) restricted actions;
  - (f) restricted protected matters;
  - (g) bioregional restoration measures;
  - (h) conditions of the bioregional plan.
- (2) A variation of a bioregional plan may:
- (a) be minor or machinery in nature; or
  - (b) relate to a provision of the bioregional plan that does not have regulatory effect.

### **177AU Requirements for variation to specify new impacted protected matters**

The Minister must not vary a bioregional plan to specify a new impacted protected matter for an existing priority class of actions, without varying the existing priority class of actions, unless the

Minister is satisfied that, taken as a whole, the actions in the class have, will have, or are likely to have, a significant impact on the new impacted protected matter.

Note: If the priority class of actions is also being varied in such a way that impacted protected matters are varied because of the application of section 177AE, the significant impact tests in those provisions will apply because of the operation of paragraph 177AX(1)(f).

### **177AV Requirements for variation to specify new restricted protected matters**

The Minister must not vary a bioregional plan to specify a new restricted protected matter for an existing class of actions unless the Minister is satisfied that, taken as a whole, the actions in the class have, will have, or are likely to have, a significant impact on the new restricted protected matters.

Note: If the class of actions is also being varied in such a way that restricted protected matters are varied because of the application of section 177AE, the significant impact tests in those provisions will apply because of the operation of paragraph 177AX(1)(f).

### **177AW Consent requirements for variation of conditions of a bioregional plan**

The Minister must not vary a bioregional plan in such a way that:

- (a) an existing condition requiring, or otherwise relating to, the delivery of a bioregional restoration measure by a person (other than the Commonwealth or a Commonwealth agency) is varied; or
- (b) a new condition requiring or otherwise relating to the delivery of a bioregional restoration measure by a person (other than the Commonwealth or a Commonwealth agency) is included;

unless the person has consented to the variation.

### **177AX Other matters relating to variations of a bioregional plan**

- (1) In addition to the matters specified in this Division, for the purposes of deciding whether or not to vary a bioregional plan, the Minister must:

- (a) have regard to the matters specified in section 177AM (other than paragraphs 177AM(d) to (g)) in relation to the bioregional plan as proposed to be varied; and

Note:

The requirement for the Minister to ensure the matters in Division 1 are satisfied means, for example, that the Minister must ensure that:

- (a) any new or varied class of priority actions that can be taken in a development zone is specified in accordance with section 177AE, including that the bioregional plan specifies the impacted protected matters for the new or varied class; and
  - (b) any new or varied development zone is specified in accordance with section 177AD and that the bioregional plan specifies classes of priority actions that can be taken in the zone and the impacted protected matters for each class in accordance with section 177AE; and
  - (c) any new or varied condition in relation to the taking of a priority action by a person is attached in accordance with section 177AG, including that the bioregional plan specifies the condition and the impacted protected matters that the condition relates to.
- (2) Subsection (1) does not apply to a variation of a bioregional plan to the extent that the variation:
- (a) is minor or machinery in nature; or
  - (b) relates to a provision of the bioregional plan that does not have regulatory effect.

### **177AY Minister must publish, notify and seek comments on a proposed variation of a bioregional plan**

- (1) Before the Minister varies a bioregional plan for a region under section 177AS, the Minister must give a notice to the following:

- (3) The Minister must:
- (a) publish a copy of a notice under subsection (1) on the Department's website as soon as practicable after giving it; and

- (a) if the Minister reasonably believes that the variation is necessary to prevent or lessen a serious and imminent threat to human health or the environment; or
  - (b) to the extent that the variation is minor or machinery in nature, or relates to a provision of the bioregional plan that does not have regulatory effect.
- (8) This section is taken to be an exhaustive statement of the requirements of the natural justice hearing rule in relation to a decision under section 177AS to vary a bioregional plan.

**177AZ Variation of a bioregional plan must be in writing, etc.**

- (1) A variation of a bioregional plan must be in writing.
- (2) A variation of a bioregional plan must specify the day on which the variation commences, which must not be earlier than the day on which it is published on the Department's website under section 177BA.

**177BA Minister must publish, etc. bioregional plan as varied**

- (1) The Minister must publish each varied bioregional plan for a region on the Department's website as soon as practicable after varying the plan.
- (2) The Minister must also give a copy of the varied bioregional plan to the following:

  - (b) each person who must comply with a condition of the bioregional plan in relation to the delivery of a bioregional restoration measure;
  - (c) each registered person for the bioregional plan.

## **Subdivision B—Application of variations of bioregional plans to existing actions**

### **177BB Variation of conditions—persons who have already registered priority actions**

- (1) If the Minister varies a bioregional plan by attaching a new condition, or varying an existing condition, in relation to the taking of a priority action by a person, the new or varied condition does not apply to the taking of the priority action by the person if, immediately before the variation, the priority action was a registered priority action in relation to the person.
- (2) If a new or varied condition does not apply to the taking of a priority action by a person because of subsection (1), the Minister may, if the Minister considers it appropriate to do so, determine that the condition applies despite that subsection.
- (3) If the Minister makes a determination under subsection (2), the Minister must give the person written notice of the determination and the reasons for it.
- (4) The notice must specify the day the condition starts to apply to the taking of the priority action by the person (which must not be earlier than the day after the day the notice is given to the person).

### **177BC Variation of development zones—persons who have already commenced actions**

- (1) This section applies to the taking of an action by a person if:
  - (a) the Minister varies a bioregional plan by specifying a new development zone or varying an existing development zone; and
  - (b) the new or varied development zone covers an area (the *new area*) that was not a development zone immediately before the variation; and

    - (i) the person commenced taking the action in the new area; or

- (ii) the action was referred to the Minister under section 68, 69 or 71; and
  - (d) immediately after the variation, the action is a priority action in relation to the new or varied development zone.
- (2) On and after the variation, a condition of the bioregional plan that would, but for this subsection, apply to the taking of the action by the person in the new area, is taken not to apply to the taking of the action by the person in the new area.

Note: The person is also not required to register the action (see subsection 177CB(4)).

### **177BD Variation of development zones—persons who have already registered priority actions**

- (1) This section applies if:
- (a) the Minister varies a bioregional plan by removing or varying an existing development zone; and
  - (b) as a result of the variation, an area (the *old area*) that was covered by the existing development zone is no longer a development zone; and
  - (c) immediately before the variation, a priority action in relation to the existing development zone was a registered priority action in relation to a person.
- (2) The bioregional plan as in force immediately before the variation (including any conditions of the plan) continues to apply to the person in relation to the taking of the action on and after the variation as if the variation had not happened.

### **177BE Variation of priority actions—persons who have already commenced actions**

- (1) This section applies to the taking of an action by a person if:
- (a) the Minister varies a bioregional plan by specifying a new priority class of actions, or varying an existing priority class of actions, that can be taken in a development zone; and
  - (b) before the variation:
    - (i) the person commenced taking the action; or

- (ii) the action was referred to the Minister under section 68, 69 or 71; and
  - (c) immediately before the variation, the action was not a priority action; and
  - (d) immediately after the variation, the action becomes a priority action because it is included in the new or varied class.
- (2) On and after the variation, a condition of the bioregional plan that would, but for this subsection, apply to the taking of the action by the person, is taken not to apply to the taking of the action by the person.

Note: The person is also not required to register the action (see subsection 177CB(4)).

### **177BF Variation of actions—persons who have already registered actions**

- (1) This section applies if:
- (a) the Minister varies a bioregional plan by removing or varying an existing priority class of actions that can be taken in a development zone; and
  - (b) as a result of the variation, an action that was included in the existing class is no longer included in any priority class of actions that can be taken in the development zone; and
  - (c) before the variation, a priority action in relation to the development zone was a registered priority action in relation to a person.
- (2) The bioregional plan as in force immediately before the variation (including any conditions of the plan) continues to apply to the taking of the action by the person on and after the variation as if the variation had not happened.

### **Subdivision A—Process for suspending or revoking bioregional plans**

#### **177BG Minister may suspend or revoke a bioregional plan**

  - (b) the objectives of the bioregional plan are not being met;
  - (c) there has been a change in development pressures in the region and suspending or revoking the bioregional plan is appropriate in the circumstances;
  - (d) both:
    - (i) an ecological event has occurred that has had, will have, or is likely to have, a significant impact on a matter protected by a provision of Part 3; and
    - (ii) suspending or revoking the bioregional plan is reasonably necessary to protect, or lessen any threats to, a matter protected by a provision of Part 3;
  - (e) both:
    - (i) significant new information about a threat to a matter protected by a provision of Part 3 is available; and
    - (ii) having regard to the new information, suspending or revoking the bioregional plan is reasonably necessary to protect, or lessen the threat to, a matter protected by a provision of Part 3;
  - (f) one or more priority actions taken have had or will have an unacceptable impact on a matter protected by a provision of Part 3;

Note: See the definition of *unacceptable impacts* in section 527F.

- (g) the bioregional plan has not resulted, or is not likely to result, in the residual significant impacts of each priority class of actions (taken as a whole) on one or more impacted protected matters being compensated to a net gain (within the meaning of paragraph 527K(1)(b) or (2)(b), as the case requires);
- (h) both:
  - (i) there has been a change in a matter protected by a provision of Part 3, in the status of a matter protected by a provision of Part 3, or in the importance of the population of a matter protected by a provision of Part 3; and
  - (ii) suspending or revoking the bioregional plan is reasonably necessary to protect, or lessen any threats to, a matter protected by a provision of Part 3;
- (i) both:
  - (i) an action taken within or outside the region has had, or is likely to have, a significant impact on a matter protected by a provision of Part 3 in the region; and
  - (ii) suspending or revoking the bioregional plan is reasonably necessary to protect, or lessen any threats to, a matter protected by a provision of Part 3;
- (j) a condition of the bioregional plan relating to the delivery of bioregional restoration measures has been, or is likely to be, contravened;
- (k) the suspension or revocation has been agreed to by:
  - (i) each relevant State and relevant Territory for the bioregional plan; or
  - (ii) if the region is wholly located in one or more Commonwealth areas—the Commonwealth;
- (l) a ground prescribed by the regulations exists.

*Effect of suspension of a bioregional plan—no new registrations*

- (2) The effect of a suspension of a bioregional plan is that the Minister must not register a priority action under section 177BN, or transfer a registration under section 177BO, in a development zone specified in the bioregional plan during the period of suspension.

- (3) The suspension of a bioregional plan does not otherwise affect the operation of the bioregional plan, which remains in effect for all other purposes.

*Meaning of change in a matter*

- (4) Without limiting subparagraph (1)(h)(i), a reference to a change in a matter protected by a provision of Part 3 includes, but is not limited to, a reference to the occurrence of a listing event (within the meaning of subsection 158A(1)) in relation to the matter.

**177BH Minister must notify and seek comments on proposed suspension or revocation of a bioregional plan**

  - (b) a committee established under Part 19.
- (7) Despite subsections (1) to (4), the Minister is not required to publish, notify or invite comments on a draft of a proposed suspension or revocation of a bioregional plan if the Minister reasonably believes that the suspension or revocation is necessary to prevent or lessen a serious and imminent threat to human health or the environment.
- (8) This section is taken to be an exhaustive statement of the requirements of the natural justice hearing rule in relation to a decision under section 177BG to suspend or revoke a bioregional plan.

**177BI Minister must publish and notify suspension of a bioregional plan**

- (1) If the Minister suspends a bioregional plan for a region under section 177BG, the Minister must give written notice of the suspension (a *suspension notice*) to the following as soon as practicable after the suspension:

- (c) either:
  - (i) the things that must be done for the suspension to end (see subsection (3)); or
  - (ii) a fixed period for the suspension.
- (3) For the purposes of subparagraph (2)(c)(i), the things may be one or more specified things to be done by the Commonwealth, a relevant State or a relevant Territory for the bioregional plan.
- (4) The Minister must publish a copy of a notice under subsection (1) on the Department's website as soon as practicable after giving it.

### **177BJ Period of suspension**

#### *Suspension notices specifying fixed period*

- (1) If a suspension notice specifies a fixed period for the suspension, the suspension ceases to have effect immediately after the end of the fixed period.

#### *Suspension notices requiring things to be done*

- (2) If a suspension notice specifies things that a person must do for the suspension to end:

- (3) The Minister must publish a copy of a notice under subsection (1) on the Department's website as soon as practicable after giving it.

**Subdivision B—Application of suspended or revoked bioregional plans to existing actions**

**177BL Application of bioregional plan to actions commenced during suspension period**

- (1) This section applies to an action taken by a person if, during the period starting when a bioregional plan is suspended and ending when the suspension ceases:
  - (a) the person commences taking the action in a development zone specified in the bioregional plan; or
  - (b) the action is referred to the Minister under section 68, 69 or 71.
- (2) If, as a result of the suspension ceasing, the action would, but for this subsection, become a priority action in relation to a development zone specified in the bioregional plan, the action is

taken not to be a priority action in relation to the development zone, to the extent that the action is taken by the person.

**177BM Continuation of a revoked bioregional plan in relation to certain matters**

- (1) This section applies if:
  - (a) before the revocation of a bioregional plan:
    - (i) a person commences an action that is a priority action in relation to a development zone; and
    - (ii) the action is still a priority action in relation to the development zone under the bioregional plan as in force immediately before its revocation; or

- (3) On and after the revocation, any conditions included in the bioregional plan under section 177AI continue to apply as if the revocation had not happened (despite section 177AC) but, to avoid doubt, cannot be varied after that revocation.

**Division 5—Registering priority actions**

**177BN Registering priority actions**

- (1) A person proposing to take a priority action in a development zone specified in a bioregional plan may request that the Minister register the priority action in relation to the person.

Note: A person who takes a priority action that is not registered may commit an offence (see section 177CB).

- (2) A request under subsection (1) must:
- (a) be in writing; and
  - (b) be in the approved form (if any); and
  - (c) be accompanied by the greenhouse gas emissions information for the priority action; and

Note 1: The Minister must not decide to register a priority action during a period when the bioregional plan is suspended (see subsection 177BG(2)).

Note 2: The Minister is not required to make a decision until further information requested has been provided (see subsection 177BR(2)).

- (4) The Minister must not decide to register a priority action in relation to a person unless the Minister is satisfied:
- (a) that the priority action would not be a designated priority action for the person for any impacted protected matter; and
  - (b) that all of the impacted protected matters for the priority action have not ceased to be protected matters; and
  - (c) that the person is capable of complying with the conditions of the bioregional plan that would apply to the taking of the priority action by the person; and
  - (d) that any other matters prescribed by the regulations are satisfied.

- (5) In deciding whether or not to register a priority action specified in a development zone in a bioregional plan, the Minister may consider whether the person is a suitable person to take the priority action in the development zone, having regard to:
- (a) the person's history in relation to environmental matters; and
  - (b) if the person is a body corporate—the history of its executive officers in relation to environmental matters; and
  - (c) if the person is a body corporate that is a subsidiary of another body or company (the *parent body*)—the history in relation to environmental matters of the parent body and its executive officers.
- (6) As soon as practicable after making a decision under subsection (3), the Minister must give the person:

    - (ii) the day on which a revocation of the registration takes effect under subsection 177BP(3);
    - (iii) the day on which the registration ceases to have effect under subsection 177BQ(2).
- (8) As soon as practicable after making the decision, the Minister must publish, on the Department's website:
- (a) a copy of the decision; and
  - (b) if the decision is to register the priority action—the greenhouse gas emissions information for the priority action.

### **177BO Transfer of registration**

- (1) A person (the *transferor*) in relation to whom a priority action is registered may request that the Minister transfer the registration of the priority action to another person (the *transferee*).
- (2) The request must:
  - (a) be in writing; and
  - (b) be in the approved form (if any); and
  - (c) be accompanied by the following:

- (4) The Minister must not consent to the transfer unless the Minister is satisfied of the matters specified in paragraphs 177BN(4) (a), (b), (c) and (d) in relation to the transferee.
- (5) In considering whether to consent to the transfer, the Minister may consider whether the transferee is a suitable person to take the priority action in the development zone specified in the bioregional plan, having regard to the matters specified in paragraphs 177BN(5)(a), (b) and (c) in relation to the transferee.
- (6) As soon as practicable after making a decision under subsection (3), the Minister must give the transferor and the transferee:
  - (a) written notice of the decision; and
  - (b) if the decision is to refuse to consent to the transfer—the reasons for the decision.
- (7) If the Minister decides to consent to the transfer, the notice under paragraph (6)(a) must specify the day on which the transfer takes

effect, which must not be earlier than the day on which the notice is given.

- (8) If the Minister decides to consent to the transfer then, on and after the day specified by the Minister in accordance with subsection (7) as the day on which the transfer takes effect:
- (a) the priority action becomes registered in relation to the transferee; and
  - (b) the priority action ceases to be registered in relation to the transferor; and
  - (c) any conditions attached to the taking of the priority action that applied to the transferor immediately before that day cease to apply to the transferor on that day and apply to the transferee on and after that day.
- (9) If the Minister decides to consent to the transfer, the priority action remains registered in relation to the transferee until either of the following events occurs:
- (a) the day on which a transfer of the registration takes effect under subsection (7);
  - (b) the day on which the registration ceases to have effect under subsection 177BQ(2).
- (10) The Minister must publish a copy of the decision on the Department's website as soon as reasonably practicable after making the decision.

### **177BP Revocation of registration**

- (1) The Minister may, by written instrument, revoke the registration of a priority action in relation to a person if the Minister is satisfied that:
- (a) the action is a priority action for an impacted protected matter; and
  - (b) the person has failed to comply with a condition that relates to the impacted protected matter that is attached by the bioregional plan to the taking of the priority action; and
  - (c) the condition applies to the taking of the priority action by the person.

- (2) The Minister must, as soon as practicable after revoking the registration:
  - (a) give the person a notice that includes:
    - (i) a copy of the instrument of revocation; and
    - (ii) the reasons for the revocation; and
  - (b) publish the instrument of revocation, and the reasons for the revocation, on the Department's website.
- (3) The revocation takes effect on the day specified in the instrument (which must not be earlier than the day the instrument is given to the person).
- (4) An instrument made under subsection (1) is not a legislative instrument.

### **177BQ Cessation of registration of priority actions**

- (1) This section applies if:
  - (a) the Minister decides under paragraph 177BN(3)(a) to register a priority action in a development zone in a bioregional plan; and
  - (b) as at the end of the period of 5 years beginning when the Minister made the decision, the priority action has not substantially commenced.
- (2) The registration ceases to have effect at the end of the period.
- (3) However, if the Minister decides under section 177BQA to extend the date on which the registration ceases to have effect, the reference in paragraph (1)(b) to the end of the period of 5 years beginning when the Minister made the decision is taken to be a reference to the date decided by the Minister under section 177BQA.

### **177BQA Extending date of cessation of registration of priority action**

- (1) At least 6 months before the fifth anniversary of the date of a notice given under subsection 177BN(6) (the *initial notice*) of a decision under paragraph 177BN(3)(a) to register a priority action, the Minister must give the person to whom the initial notice was

given written notice that, if the priority action has not substantially commenced before the fifth anniversary, the registration of the priority action will cease to have effect under subsection 177BQ(2) on that anniversary.

- (2) The person may request the Minister to extend the date on which the registration will cease to have effect under subsection 177BQ(2). The request must:
  - (a) be in writing; and
  - (b) be in the approved form (if any); and
  - (c) be accompanied by the following:
    - (i) the information or documents (if any) that the approved form specifies are required;
    - (ii) the information or documents (if any) prescribed by the regulations.
- (3) The request must be made at least 20 business days before the fifth anniversary.
- (4) The Minister must make a decision on the request within 20 business days.
- (5) The Minister may, if satisfied that it is appropriate to do so, extend the date on which the registration will cease to have effect under subsection 177BQ(2) to a later date specified by the Minister. The later date must not be later than the tenth anniversary of the date of the initial notice.
- (6) If the Minister extends the date to a date that is sooner than the tenth anniversary of the date of the initial notice, the Minister may, if the Minister is satisfied that it is appropriate to do so, further extend the date, so long as the later date is not later than the tenth anniversary of the date of the initial notice.
- (7) The Minister may further extend the date under subsection (6) on one or more occasions (so long as no further later date is later than the tenth anniversary of the date of the initial notice).
- (8) As soon as practicable after the Minister decides a request under subsection (2), or extends a date under subsection (6), the Minister must:
  - (a) give the person written notice of the Minister's decision; and

(b) publish a copy of the decision on the Department's website.

**177BR Minister may request further information for making decision**

## **Division 2—Delivering restoration actions and bioregional restoration actions**

### **Subdivision A—Restoration actions—general**

#### **177CS Spending on restoration actions**

*Application of this section*

- (1) This section applies if an amount of restoration contribution charge is imposed in relation to a particular residual significant impact (the *primary impact*) of an approved action, or an approved class

of actions, on a matter (the *affected matter*) protected by a provision of Part 3 for which the approval has effect.

*Default requirement for general restoration action*

- (2) The Restoration Contributions Holder must spend an amount that reasonably relates to the amount of restoration contribution charge imposed to deliver a restoration action that the Restoration Contributions Holder is satisfied:
- (a) is directed towards protecting, conserving or restoring the affected matter in the bioregion where the affected matter is located; and
  - (b) will result in a net gain (within the meaning of paragraph 527K(1)(b) or (2)(b), as the case requires) for the affected matter in that bioregion; and
  - (c) complies with the requirements (if any) prescribed by the regulations.

Note 1: For example, if an amount of restoration contribution charge is imposed in relation to the primary impact on a particular listed threatened species in a particular bioregion, an amount that reasonably relates to that amount must be spent on that listed threatened species in that bioregion (subject to subsection (4)).

Note 2: If an amount of restoration contribution charge has not yet been received, top-up amounts can be used: see section 177DB.

- (3) A restoration action that satisfies paragraphs (2)(a), (b) and (c) is a **general restoration action** for the primary impact of the approved action or approved class of actions on the affected matter.

*Alternative restoration action if default requirement is not met*

- (4) Subject to section 177CT (which covers the situation in which subsection (2) is partly satisfied but not wholly satisfied), if:
- (a) the Restoration Contributions Holder has considered under subsection (2) whether the Restoration Contributions Holder must spend an amount to deliver a general restoration action for the primary impact of the approved action or approved class of actions on the affected matter; and
  - (b) the Restoration Contributions Holder is satisfied that:

- (i) a general restoration action is not feasible for the primary impact of the action or the class of actions, as the case requires; or
- (ii) a general restoration action would not provide the best environmental outcome for the primary impact of the action or the class of actions, as the case requires; and
- (c) if the regulations prescribe requirements that must be met in order for the Restoration Contributions Holder to deliver an alternative restoration action in relation to the primary impact of an approved action or approved class of actions—  
Restoration Contributions Holder is satisfied that those requirements are met;

the Restoration Contributions Holder must spend an amount that reasonably relates to the amount of restoration contribution charge imposed to deliver a restoration action (an **alternative restoration action**) for the primary impact of the approved action or approved class of actions on the affected matter, being a restoration action that meets the requirements of subsection (5).

- (5) A restoration action meets the requirements of this subsection for the primary impact of the approved action or approved class of actions on the affected matter if the Restoration Contributions Holder is satisfied that the restoration action:
  - (a) will benefit a matter protected by the same provision of Part 3 as the affected matter; and
  - (b) so far as is reasonably practicable, is directed towards protecting, conserving or restoring a matter protected by the same provision of Part 3 as the affected matter in the bioregion where the affected matter is located; and
  - (c) provides a net gain (within the meaning of paragraph 527K(1)(b) or (2)(b), as the case requires) for the matter protected by the same provision of Part 3 as the affected matter; and
  - (d) complies with the requirements (if any) prescribed by the regulations.

Note: A restoration action under this subsection could be a restoration action that benefits a matter that is the same as the affected matter but in a different bioregion from the affected matter.

*Minister must be notified if no general restoration action*

- (6) The Restoration Contributions Holder must notify the Minister, in writing, if the Restoration Contributions Holder is satisfied that subsection (4) applies to the approved action or approved class of actions.

*Section subject to sections 177CT and 177CV*

- (7) This section has effect subject to sections 177CT (combining general restoration actions and alternative restoration actions) and 177CV (pooling amounts).

### **177CT Combination of general restoration action and alternative restoration action**

- (1) This section applies if the Restoration Contributions Holder is satisfied that subsection 177CS(2) is partly, but not wholly, satisfied in relation to a particular residual significant impact (the ***primary impact***) of an approved action, or an approved class of actions, on a matter protected by a provision of Part 3.
- (2) The Restoration Contributions Holder must:
- (a) first—to the extent that the Restoration Contributions Holder is satisfied as mentioned in subsection 177CS(2), spend an amount that reasonably relates to the amount of restoration contribution charge imposed in relation to the primary impact on delivering a general restoration action for the primary impact; and
  - (b) secondly—to the extent that the Restoration Contributions Holder is satisfied as mentioned in subsection 177CS(4), spend any remaining amount that reasonably relates to the amount of restoration contribution charge imposed in relation to the primary impact on delivering an alternative restoration action for the primary impact.

Note: If an amount of restoration contribution charge has not yet been received, top-up amounts can be used: see section 177DB.

**177CU No requirement to spend restoration contribution charge if residual significant impact already compensated**

The Restoration Contributions Holder is not required by section 177CS or 177CT to spend an amount that reasonably relates to the amount of restoration contribution charge imposed in relation to a residual significant impact (the *primary impact*) of an approved action, or an approved class of actions, on an affected matter if the Restoration Contributions Holder is satisfied that the primary impact has already been compensated for by previous expenditure from money standing to the credit of the Restoration Contributions Special Account.

**177CV Pooling amounts to cover multiple residual significant impacts**

- (1) The Restoration Contributions Holder may spend an amount (the *aggregated amount*) that is the sum of amounts that reasonably relate to amounts of restoration contribution charge imposed in relation to the residual significant impacts of one or more approved actions, or one or more approved classes of actions, on a matter or matters protected by a provision of Part 3, if:
  - (a) the aggregated amount is spent to deliver one or more restoration actions to compensate for those impacts; and
  - (b) the Restoration Contributions Holder is satisfied that there will be a better environmental outcome for each of the matters if the aggregated amount were spent than would otherwise be achieved.

Note: If an amount of restoration contribution charge has not yet been received, top-up amounts can be used: see section 177DB.

- (2) The aggregated amount must be spent in accordance with sections 177CS and 177CT.

**177CW Consultation with the Restoration Contributions Advisory Committee on proposed restoration actions**

*Consultation not required if general restoration action feasible etc.*

- (1) If the Restoration Contributions Holder is satisfied that the Restoration Contributions Holder may deliver a general restoration

action to compensate for a residual significant impact of one or more approved actions, or one or more approved classes of actions, on a matter or matters protected by a provision of Part 3, the Restoration Contributions Holder may, but is not required to, seek advice from the Restoration Contributions Advisory Committee on appropriate restoration actions in relation to that impact.

*Consultation required if general restoration action not available*

- (2) If the Restoration Contributions Holder is satisfied as mentioned in subsection 177CS(4) in relation to a residual significant impact of one or more approved actions, or one or more approved classes of actions, on a matter or matters protected by a provision of Part 3, the Restoration Contributions Holder must seek advice from the Restoration Contributions Advisory Committee on:
- (a) whether a general restoration action to compensate for the residual significant impact is feasible and would provide the best environmental outcome; and
  - (b) if a general restoration action is not feasible or would not provide the best environmental outcome—an appropriate alternative restoration action for the residual significant impact.
- (3) The Restoration Contributions Holder may also consult the following in relation to restoration actions:
- (a) any other committee established under Part 19;
  - (b) the Australian Heritage Council.

- (a) on the Minister's initiative; or
  - (b) on application under section 302C.

Note: The Minister may request information to make an informed decision under subsection 302N(1).

#### *Content of exemption*

- (2) The exemption must specify:
- (a) the action; and
  - (b) each provision from which the action is exempt; and
  - (c) the person to whom the exemption applies; and
  - (d) the period for which the exemption is in force; and
  - (e) any conditions imposed on the exemption under section 302E.
- (3) The Minister must be satisfied that the period specified for the purposes of paragraph (2)(d) is reasonably necessary to address the national interest that is the basis for the exemption.

#### *When exemption comes into force*

- (4) An exemption comes into force at the start of the period specified for the purposes of paragraph (2)(d) (which must not be earlier than the day the exemption is made).

#### *Not a legislative instrument*

- (5) An exemption made under subsection (1) is not a legislative instrument.

### **302B Effect of Part 13 exemption**

While a Part 13 exemption from a provision is in force for an action, the provision does not apply in relation to the taking of the action if:

- (a) the action is taken by the person to whom the exemption applies; and
- (b) the person takes the action in accordance with the conditions (if any) of the exemption.

Note 1: For conditions of an exemption, see section 302E.

Note 2: To the extent a defendant seeks to rely on this section as a defence to an offence, the defendant bears an evidential burden in relation to the matter in this section: see subsection 13.3(3) of the *Criminal Code*.

### **302C Application for Part 13 exemption**

- (1) The following may apply to the Minister (the ***Environment Minister***) for a Part 13 exemption for an action:

### **302D Grounds for grant of Part 13 exemption**

- (1) Before granting a Part 13 exemption for an action from a provision (including a regulation made under a provision) of this Part the Minister must be satisfied that:
  - (a) if the exemption were not granted, the action would contravene the provision; and
  - (b) it is in the national interest that the provision not apply to the taking of the action by the person to whom the exemption is to apply.
- (2) In determining the national interest for the purposes of a provision of this Division, the Minister may consider:
  - (a) Australia's defence or security; or
  - (b) a national emergency, including an emergency to which a national emergency declaration (within the meaning of the *National Emergency Declaration Act 2020*) relates.

This does not limit the matters the Minister may consider.

Note: Subsection 157C(2) applies in relation to determining Australia's national interest.

  - (e) the conditions of the exemption, including by imposing additional conditions.

#### *Grounds for variation*

Note: Subsection 302D(2) applies in relation to determining the national interest.

**Part 19B—National environmental standards**

**514YC Simplified outline of this Part**

National environmental standards are legislative instruments made by the Minister.

Before making a national environmental standard, the Minister must be satisfied that it promotes the objects of this Act and is not inconsistent with relevant international agreements.

A national environmental standard must specify outcomes or objectives. It may also specify parameters, principles, processes or actions for achieving the outcomes or objectives.

When varying or revoking a national environmental standard, the Minister must comply with the no regression principle.

National environmental standards must be applied in making certain decisions under this Act. Those decisions are indicated either by the provision of this Act under which a decision is made or by the regulations. The regulations will prescribe which standards must be applied in making such decisions.

For other decisions, where national environmental standards do not need to be applied, a decision maker can still choose to apply them.

**514YD Making national environmental standards**

- (1) The Minister may, by legislative instrument, make national environmental standards for the purposes of this Act.
- (2) Before making a national environmental standard, the Minister must be satisfied that:
  - (a) the standard would promote the objects of this Act; and

- (b) the standard would not be inconsistent with Australia's obligations under the international agreements specified in subsection 520(3).
- (3) The Minister may have regard to any other matter the Minister considers relevant when deciding whether to make a national environmental standard.
- (4) A national environmental standard:
  - (a) must prescribe one or more outcomes or objectives; and
  - (b) may prescribe any of the following:
    - (i) parameters within, or principles by which, an outcome or objective is to be achieved;
    - (ii) processes or actions to be followed or taken in achieving an outcome or objective.
- (5) A national environmental standard, or an instrument varying or revoking a national environmental standard, may also prescribe:
  - (a) any matters required or permitted by this Act to be dealt with by national environmental standards; or
  - (b) other matters (including matters of an application, saving or transitional nature) incidental to matters prescribed as mentioned in subsection (4) or prescribed as mentioned in paragraph (a) of this subsection.
- (6) In prescribing matters of an application, saving or transitional nature, a national environmental standard, or an instrument varying or revoking a national environmental standard, may provide that the standard, variation or revocation applies in relation to a decision made on or after the day the standard, variation or revocation commences, regardless of whether the decision relates to an application, referral or other matter made before that day.

### **514YE Incorporation by reference**

- (1) Despite subsection 14(2) of the *Legislation Act 2003*, a national environmental standard may make provision in relation to a matter by applying, adopting or incorporating, with or without modification, any matter contained in an instrument or other writing:
  - (a) as in force or existing at a particular time; or

- (b) as in force or existing from time to time.
- (2) The Minister must arrange for a copy of any matter applied, adopted or incorporated to be published on the Department's website, as soon as practicable after it is applied, adopted or incorporated.
- (3) Subsection (2) does not apply in relation to matter that is, or is included in, an Act, a legislative instrument or a notifiable instrument.

**514YF Varying and revoking national environmental standard**

- (1) The Minister may, by legislative instrument, vary or revoke a national environmental standard.
- (2) Before varying or revoking a national environmental standard, the Minister must be satisfied that:
  - (a) the standard as varied, or the revocation, promotes the objects of this Act; and
  - (b) the standard as varied, or the revocation, is not inconsistent with Australia's obligations under the international agreements specified in subsection 520(3).
- (3) The Minister may have regard to any other matter the Minister considers relevant in deciding whether to vary or revoke a national environmental standard.

**514YG No regression principle**

- (1) Before varying or revoking a national environmental standard, the Minister must be satisfied that the variation or revocation:
  - (a) does not reduce protections of the environment; and
  - (b) does not reduce the likelihood that environmental data or information provided to the Minister, Secretary, Department or a Commonwealth agency under this Act or the regulations is appropriate, including as to quality, for the purposes for which it is provided; and
  - (c) does not reduce the likelihood that appropriate consultation or engagement (including with Indigenous persons) will occur under the Act;

- (d) does not reduce the likelihood that outcomes or objectives specified in the standard will be achieved;
  - (e) meets the prescribed requirements (if any).
- (2) In deciding whether the Minister is satisfied for the purposes of subsection (1), the Minister is not required to have regard to the content of any instrument or other writing applied, adopted or incorporated for the purposes of making provision in the national environmental standard in relation to a matter.
- (3) In deciding whether the Minister is satisfied for the purposes of subsection (1), the Minister may take into account protections or requirements under any of the following:
- (a) this Act or another law of the Commonwealth;
  - (b) a law of a State or a self-governing Territory;
  - (c) another national environmental standard in force or proposed to be made.
- (4) Subsection (1) does not apply in relation to a variation or revocation of a national environmental standard within 18 months of the standard being made.

#### **514YH Consultation**

- (1) Before making, varying, or revoking a national environmental standard, the Minister must:
- (a) publish a draft of the proposed standard, variation, or revocation on the Department's website; and
  - (b) invite public comment on the draft within the period specified in the invitation (which must be at least 20 business days); and
  - (c) consider any relevant comments made within the specified period.
- (2) Subsection (1) does not apply in relation to a variation of a standard if the Minister is satisfied that the variation is of a minor or machinery nature.

**514YI Consultation in relation to engagement with Indigenous persons**

- (1) Before making, varying, or revoking a national environmental standard that relates to engagement with Indigenous persons, the Minister must:
  - (a) invite the Indigenous Advisory Committee to provide any comments on the proposed standard, variation or revocation, within the period specified in the invitation (which must be a reasonable period); and
  - (b) consider any comments made by the Committee within the specified period.
- (2) To avoid doubt, the Minister is not prevented from making, varying or revoking the standard if no comments are made by the Committee within the specified period.

**514YJ Review of national environmental standards**

- (1) The Minister must arrange for a review of a national environmental standard to be started:
  - (a) within 18 months of the standard commencing; and
  - (b) at least every 5 years after that.
- (2) A standard must be reviewed in accordance with paragraph (1)(a) even if it is varied before the end of the 18 months.
- (3) If a standard is varied (other than a variation of a minor or machinery nature) more than 18 months after it commenced, the next review of the standard is to be started within 5 years of the variation commencing.
- (4) A review of a standard must consider the extent to which the standard is achieving its outcomes and objectives and what changes, if any, should be made to the standard.
- (5) The persons undertaking a review must give the Minister a written report of the review by the end of:
  - (a) the period of 12 months starting on the day the review commenced; or

- (b) if the Minister, in writing, extends that period—the extended period.
- (6) The Minister must arrange for the report to be published on the Department’s website as soon as practicable after the report is given to the Minister.

### **514YK Using national environmental standards**

#### *Mandatory use*

- (1) In making a decision prescribed by the regulations for the purposes of this subsection, a person must:
  - (a) apply any national environmental standard prescribed for the decision; and
  - (b) apply it in the way prescribed.

Note: Other provisions of this Act may also require a person to apply a standard in a specified way in making a decision (see for example section 136A).

- (2) For the purposes of paragraph (1)(b), the regulations may prescribe the following ways that a national environmental standard is to be applied by a person making a decision:
  - (a) by the person being satisfied that the decision is not inconsistent with the standard;
  - (ab) by the person being satisfied that the decision is consistent with the standard;
  - (b) by the person having regard to the standard;
  - (c) any other way.

#### *Prescribing all or part of a national environmental standard*

- (3) Regulations prescribing a national environmental standard for the purposes of a provision of this Act that refers to a national environmental standard prescribed for the purposes of the provision may prescribe the whole or a specified part of a standard. If a specified part is prescribed, the provision is taken to refer to the part of the standard that is prescribed.

*Discretionary use*

- (4) A person may, in making a decision under this Act, have regard to any national environmental standard the person considers relevant to the decision.
- (5) However, a person is only required to apply a national environmental standard in making a decision under this Act if subsection (1) of this section, or another provision of this Act, requires it.

*Effect on validity of decisions*

- (6) Unless this Act requires a person to apply a national environmental standard in making a decision under this Act, a failure by a person to have regard to or apply a national environmental standard does not affect the validity of the decision.

Insert:

**Part 19C—Rulings**

**514YL Simplified outline of this Part**

The Minister and CEO may publish their opinions on the way in which provisions of environment law should apply in relation to persons, activities and other matters. These are called rulings.

Generally, decision makers are required to act consistently with rulings, but not if they are satisfied it is not appropriate to follow a ruling in particular circumstances. In this case decision makers must publish their reasons.

## **514YM Minister's rulings**

### *Ruling about how environment law provision should apply*

- (1) The Minister may, by written instrument, make for the purposes of the performance of functions and exercise of powers under this Act a ruling setting out the Minister's opinion on the way in which one or more specified environment law provisions should apply in relation to:
  - (a) a particular person or a class of persons; or
  - (b) a particular action or activity, or a class of actions or activities; or
  - (c) a matter protected by a provision of Part 3, or a class of matters protected by a provision of Part 3; or
  - (d) a particular application (however described) made under this Act or the regulations, or a class of applications (however described) made under this Act or the regulations; or
  - (e) particular circumstances; or
  - (f) any other matters prescribed by the regulations.
- (2) The ruling may set out circumstances or factors that, in the Minister's opinion, are relevant to the exercise of discretion (if applicable) by a decision maker in applying the environment law provision.
- (3) A provision of any of the following is an ***environment law provision***:
  - (a) this Act;
  - (b) the regulations;
  - (c) a national environmental standard;
  - (d) any other instrument made under this Act.

  - (a) confers a function or power on the CEO; or
  - (b) relates to the performance of the CEO's functions or the exercise of the CEO's powers under this Act or the regulations.
