(a) the long-term interests of end-users of carriage services or of services provided by means of carriage services; and

(b) the efficiency and international competitiveness of the Australian telecommunications industry.

(2) The other objects of this Act, when read together with Parts XIB and XIC of the *Trade Practices Act 1974*, are as follows:

(a) to ensure that standard telephone services, payphones and other carriage services of social importance are:
(i) reasonably accessible to all people in Australia on an equitable basis, wherever they reside or carry on business; and
(ii) are supplied as efficiently and economically as practicable; and
(iii) are supplied at performance standards that reasonably meet the social, industrial and commercial needs of the Australian community;

(b) to provide a framework under which a carriage service that provides digital data capability comparable to an ISDN channel is to become available to all people in Australia:
   (i) by 1 January 2000; or
   (ii) by another date having regard to the findings of the review into the timing of the availability of that service;

(c) to promote the supply of diverse and innovative carriage services and content services;

(d) to promote the development of an Australian telecommunications industry that is efficient, competitive and responsive to the needs of the Australian community;

(k) to promote responsible practices in relation to the making of telemarketing calls.

4 Regulatory policy

The Parliament intends that telecommunications be regulated in a manner that:
(a) promotes the greatest practicable use of industry self-regulation; and
(b) does not impose undue financial and administrative burdens on participants in the Australian telecommunications industry;
but does not compromise the effectiveness of regulation in achieving the objects mentioned in section 3.

5 Simplified outline

The following is a simplified outline of this Act:

- This Act sets up a system for regulating telecommunications.
- The main entities regulated by this Act are carriers and service providers.
- A carrier is the holder of a carrier licence granted under this Act.
- The owner of a network unit that is used to supply carriage services to the public must hold a carrier licence unless responsibility for the unit is transferred from the owner to a carrier.
There are 4 types of network unit:

(a) a single line link connecting distinct places in Australia, where the line link meets certain minimum distance requirements;

(b) multiple line links connecting distinct places in Australia, where the line links meet certain minimum distance requirements;

(c) a designated radiocommunications facility;

(d) a facility specified in a Ministerial determination.

Carrier licences are subject to conditions.

There are 2 types of service provider:

(a) a carriage service provider;

(b) a content service provider.

A carriage service provider is a person who supplies, or proposes to supply, certain carriage services.

A content service provider is a person who supplies, or proposes to supply, certain content services.

Service providers must comply with the service provider rules.

The Australian Communications and Media Authority (ACMA) is to monitor, and report each year to the Minister on, significant matters relating to the performance of carriers and carriage service providers.

Bodies and associations that represent sections of the telecommunications industry, the e-marketing industry or the telemarketing industry may develop industry codes.

Industry codes may be registered by the ACMA.
Compliance with an industry code is voluntary unless the ACMA directs a particular participant in the telecommunications industry, the e-marketing industry or the telemarketing industry to comply with the code.

The ACMA has a reserve power to make an industry standard if there are no industry codes or if an industry code is deficient.

Compliance with industry standards is mandatory.

Carriers and carriage service providers must protect the confidentiality of communications.

The ACMA, carriers and carriage service providers must do their best to prevent telecommunications networks and facilities from being used to commit offences.

Carriers and carriage service providers must ensure that it is possible to execute a warrant issued under the Telecommunications (Interception and Access) Act 1979.

Carriage service providers may be required to supply carriage services for defence purposes or for the management of natural disasters.

A carrier or carriage service provider may be required to enter into an agreement with the Commonwealth about:

(a) planning for network survivability; or

(b) operational requirements in times of crisis.

The ACMA must require certain carriers and carriage service providers to provide pre-selection in favour of carriage service providers.

The Advanced Mobile Phone System is to be phased out by 1 January 2000.
Section 5

- Carriers and carriage service providers may be required to comply with certain international conventions.

- The Minister may make Rules of Conduct about dealings with international telecommunications operators.

- Provision is made for the technical regulation of customer equipment, customer cabling and cabling work.

- The ACMA may regulate numbering by means of a numbering plan.

- Provision is made for standard agreements for the supply of carriage services.

- The ACMA and the ACCC may hold public inquiries about certain matters relating to telecommunications.

- The ACMA may investigate certain matters relating to telecommunications.

- Certain switching systems must be capable of providing calling line identification.

- Provision is made for the following ancillary matters:
  
  (a) information-gathering powers;
  
  (b) powers of search, entry and seizure;
  
  (c) review of decisions;
  
  (d) injunctions.

(8) A copy of a determination under subsection (3) is to be published in the Gazette.

110B Sections of the telemarketing industry

(1) For the purposes of this Part, sections of the telemarketing industry are to be ascertained in accordance with this section.

(2) If no determination is in force under subsection (3), all of the persons carrying on, or proposing to carry on, telemarketing activities constitute a single section of the telemarketing industry for the purposes of this Part.

(3) The ACMA may, by legislative instrument, determine that persons carrying on, or proposing to carry on, one or more specified kinds of telemarketing activity constitute a section of the telemarketing industry for the purposes of this Part.

(4) The section must be identified in the determination by a unique name and/or number.

(5) A determination under subsection (3) has effect accordingly.

(6) Sections of the telemarketing industry determined under subsection (3):
   (a) need not be mutually exclusive; and
   (b) may consist of the aggregate of any 2 or more sections of the telemarketing industry mentioned in subsection (2) or determined under subsection (3); and
Section 111

(c) may be subsets of a section of the telemarketing industry mentioned in subsection (2) or determined under subsection (3).

(7) Subsection (6) does not, by implication, limit subsection (3).

111 Participants in a section of the telecommunications industry

For the purposes of this Part, if a person is a member of a group that constitutes a section of the telecommunications industry, the person is a participant in that section of the telecommunications industry.

111A Participants in a section of the e-marketing industry

For the purposes of this Part, if a person is a member of a group that constitutes a section of the e-marketing industry, the person is a participant in that section of the e-marketing industry.

111AA Participants in a section of the telemarketing industry

For the purposes of this Part, if a person is a member of a group that constitutes a section of the telemarketing industry, the person is a participant in that section of the telemarketing industry.

111B Unsolicited commercial electronic messages

(1) For the purposes of this Part, an unsolicited commercial electronic message is a commercial electronic message that is sent:

(a) without the consent of the relevant electronic account-holder; or

(b) to a non-existent electronic address.

(2) An expression used in this section and in the Spam Act 2003 has the same meaning in this section as it has in that Act.
Division 3—General principles relating to industry codes and industry standards

112 Statement of regulatory policy

(1) The Parliament intends that bodies or associations that the ACMA is satisfied represent sections of the telecommunications industry should develop codes (industry codes) that are to apply to participants in the respective sections of the industry in relation to the telecommunications activities of the participants.

(1A) The Parliament intends that bodies or associations that the ACMA is satisfied represent sections of the e-marketing industry should develop codes (industry codes) that are to apply to participants in the respective sections of the industry in relation to the e-marketing activities of the participants.

(1B) The Parliament intends that bodies or associations that the ACMA is satisfied represent sections of the telemarketing industry should develop codes (industry codes) that are to apply to participants in the respective sections of the industry in relation to the telemarketing activities of the participants.

(2) The Parliament intends that the ACMA, in exercising its powers under sections 117, 118, 119, 123, 124, 125 and 125A, will act in a manner that, in the opinion of the ACMA, enables public interest considerations to be addressed in a way that does not impose undue financial and administrative burdens on participants in sections of the telecommunications industry, the e-marketing industry or the telemarketing industry.

(3) In determining whether public interest considerations are being addressed in a way that does not impose undue financial and administrative burdens on participants in sections of the telecommunications industry (other than electronic messaging service providers), the ACMA must have regard to:

(a) the number of customers who would be likely to benefit from the code or standard concerned; and

(b) the extent to which those customers are residential or small business customers; and
(c) the legitimate business interests of participants in sections of the telecommunications industry; and

(d) the public interest, including the public interest in the efficient, equitable and ecologically sustainable supply of:
   (i) carriage services; and
   (ii) goods for use in connection with carriage services; and
   (iii) services for use in connection with carriage services;
   in a manner that reflects the legitimate expectations of the Australian community.

(3A) In determining whether public interest considerations are being addressed in a way that does not impose undue financial and administrative burdens on participants in the section of the telecommunications industry that consists of electronic messaging service providers, the ACMA must have regard to:
   (a) the number of end-users who would be likely to benefit from the code or standard concerned; and
   (b) the extent to which those end-users are residential or small business end-users; and
   (c) the legitimate business interests of electronic messaging service providers.

(3B) In determining whether public interest considerations are being addressed in a way that does not impose undue financial and administrative burdens on participants in sections of the e-marketing industry, the ACMA must have regard to:
   (a) the number of persons who would be likely to benefit from the code or standard concerned; and
   (b) the extent to which those persons are householders or small business operators; and
   (c) the legitimate business interests of participants in sections of the e-marketing industry.

(3C) In determining whether public interest considerations are being addressed in a way that does not impose undue financial and administrative burdens on participants in sections of the telemarketing industry, the ACMA must have regard to:
   (a) the number of persons who would be likely to benefit from the code or standard concerned; and
   (b) the extent to which those persons are householders or small business operators; and
(c) the legitimate business interests of participants in sections of
the telemarketing industry.

(4) Subsections (3), (3A), (3B) and (3C) do not, by implication, limit
the matters to which regard may be had.

113 Examples of matters that may be dealt with by industry codes
and industry standards

(1) This section sets out examples of matters that may be dealt with by
industry codes and industry standards.

(2) The applicability of a particular example will depend on which
section of the telecommunications industry, the e-marketing
industry or the telemarketing industry is involved.

(3) The examples are as follows:
(a) telling customers about:
   (i) goods or services on offer; and
   (ii) the prices of those goods or services; and
   (iii) the other terms and conditions on which those goods or
   services are offered;
(b) giving customers information about performance indicators
   customers can use to evaluate the quality of services;
(c) regular reporting to customers about performance against
   those performance indicators;
(d) the internal handling of customer complaints;
(e) reporting about customer complaints;
(f) privacy and, in particular:
   (i) the protection of personal information; and

(m) the quality of standard telephone services;

(n) the accuracy of billing of customers of carriage service providers in relation to the supply of standard telephone services;

(o) the timeliness and comprehensibility of bills;

(p) the procedures to be followed in order to generate standard billing reports to assist in the investigation of customer complaints about bills;

(q) procedures to be followed by:
   (i) Internet service providers; and
   (ii) electronic messaging service providers;
   in dealing with unsolicited commercial electronic messages (including procedures relating to the provision or use of regularly updated software for filtering unsolicited commercial electronic messages);

(r) giving customers information about the availability, use and appropriate application of software for filtering unsolicited commercial electronic messages;

(s) action to be taken to assist in the development and evaluation of software for filtering unsolicited commercial electronic messages;

(t) action to be taken in order to minimise or prevent the sending or delivery of unsolicited commercial electronic messages, including:
   (i) the configuration of servers so as to minimise or prevent the sending or delivery of unsolicited commercial electronic messages; and
   (ii) the shutdown of open relay servers;

(u) action to be taken to ensure responsible practices in relation to the use of commercial electronic messages to market, advertise or promote goods or services to individuals who are under 18 years of age;

telemarketing calls made or attempted to be made;
(x) action to be taken to limit the total number of telemarketing
calls attempted to be made, by a particular participant in a
section of the telemarketing industry, during a particular
period, where the recipient answers the attempted call, but
the attempted call does not have any content;
(y) action to be taken to limit the total number of telemarketing
calls made, or attempted to be made, by a particular
participant in a section of the telemarketing industry, during a
particular period to a particular telephone number.

114 Industry codes and industry standards may confer powers on
the Telecommunications Industry Ombudsman

(1) If the Telecommunications Industry Ombudsman consents, an
industry code or industry standard may confer functions and
powers on the Telecommunications Industry Ombudsman.

(2) The continuity of a consent under subsection (1) is not affected by:
(a) a change in the occupancy of the position of
Telecommunications Industry Ombudsman; or
(b) a vacancy in the position of Telecommunications Industry
Ombudsman that does not continue for more than 4 months.

115 Industry codes and industry standards not to deal with certain
design features and performance requirements

(1) For the purposes of this Part, an industry code or an industry
standard has no effect:
(a) to the extent (if any) to which compliance with the code or
standard is likely to have the effect (whether direct or
indirect) of requiring customer equipment, customer cabling,
a telecommunications network or a facility:
(i) to have particular design features; or
(ii) to meet particular performance requirements; or
(b) to the extent (if any) to which it deals with the content of
content services.
Part 6  Industry codes and industry standards  
Division 3  General principles relating to industry codes and industry standards

Section 116

(2) The rule in subsection (1) does not apply to an industry code or an industry standard to the extent (if any) to which compliance with the code or standard is likely:

(a) to have the indirect effect of requiring customer equipment, customer cabling, a telecommunications network or a facility to have particular design features that relate to:
   (i) the accuracy of billing of customers of carriage service providers in relation to the supply of standard telephone services; or
   (ii) the quality of standard telephone services; or
   (iii) a matter specified in the regulations; or

(b) to have the direct or indirect effect of requiring customer equipment, customer cabling, a telecommunications network or a facility to meet performance requirements that relate to:
   (i) the accuracy of billing of customers of carriage service providers in relation to the supply of standard telephone services; or
   (ii) the quality of standard telephone services; or
   (iii) a matter specified in the regulations.

(3) The rule in subsection (1) does not apply to an industry code or an industry standard to the extent (if any) to which the code or standard deals with a matter referred to in paragraph 113(3)(f) or (t).

(4) The rule in subsection (1) does not apply to an industry code made for the purposes of Division 2AA of Part V of the Copyright Act 1968.

116  Industry codes and industry standards not to deal with matters dealt with by codes and standards under Part 9 of the Broadcasting Services Act

For the purposes of this Part, an industry code or an industry standard that deals with a matter relating to a content service has no effect to the extent (if any) to which the matter is dealt with by a code registered, or standard determined, under Part 9 of the Broadcasting Services Act 1992.
116A  Industry codes and standards do not affect Privacy Act 1988

Neither an industry code nor an industry standard derogates from a requirement made by or under the Privacy Act 1988 or an approved privacy code (as defined in that Act).
Division 4—Industry codes

117 Registration of industry codes

(1) This section applies if:

(a) the ACMA is satisfied that a body or association represents a particular section of the telecommunications industry, the e-marketing industry or the telemarketing industry; and

(b) that body or association develops an industry code that applies to participants in that section of the industry and deals with one or more matters relating to the telecommunications activities, e-marketing activities or telemarketing activities, as the case may be, of those participants; and

(c) the body or association gives a copy of the code to the ACMA; and

(d) the ACMA is satisfied that:

(i) in a case where the code deals with matters of substantial relevance to the community—the code provides appropriate community safeguards for the matters covered by the code; or

(ii) in a case where the code does not deal with matters of substantial relevance to the community—the code deals with the matters covered by the code in an appropriate manner; and

(e) the ACMA is satisfied that, before giving the copy of the code to the ACMA:

(i) the body or association published a draft of the code and invited participants in that section of the industry to make submissions to the body or association about the draft within a specified period; and

(ii) the body or association gave consideration to any submissions that were received from participants in that section of the industry within that period; and

(f) the ACMA is satisfied that, before giving the copy of the code to the ACMA:

(i) the body or association published a draft of the code and invited members of the public to make submissions to the body or association about the draft within a specified period; and
(ii) the body or association gave consideration to any
submissions that were received from members of the
public within that period; and

(g) the ACMA is satisfied that the ACCC has been consulted
about the development of the code; and

(h) except in a case where the code applies to participants in a
section of the telemarketing industry and deals with one or
more matters relating to the telemarketing activities of those
participants—the ACMA is satisfied that the
Telecommunications Industry Ombudsman has been
consulted about the development of the code; and

(i) the ACMA is satisfied that at least one body or association
that represents the interests of consumers has been consulted
about the development of the code; and

(j) in a case where the code deals with a matter set out in
paragraph 113(3)(f)—the ACMA is satisfied that the Privacy
Commissioner has been consulted by the body or association
about the development of the code before the body or
association gave the copy of the code to the ACMA; and

(k) the ACMA has consulted the Privacy Commissioner about
the code and consequently believes that he or she is satisfied
with the code, if the code deals directly or indirectly with a
matter dealt with by:

(i) the National Privacy Principles (as defined in the
Privacy Act 1988); or

(ii) other provisions of that Act that relate to those
Principles; or

(iii) an approved privacy code (as defined in that Act) that
binds a participant in that section of the
telecommunications industry, the e-marketing industry
or the telemarketing industry; or

(iv) provisions of that Act that relate to the approved privacy
code.

(2) The ACMA must register the code by including it in the Register
of industry codes kept under section 136.

(3) A period specified under subparagraph (1)(e)(i) or (1)(f)(i) must
run for at least 30 days.
Part 6  Industry codes and industry standards
Division 4  Industry codes

Section 118

(4) If:

(a) an industry code (the new code) is registered under this Part; and
(b) the new code is expressed to replace another industry code; the other code ceases to be registered under this Part when the new code is registered.

Note: An industry code also ceases to be registered when it is removed from the Register of industry codes under section 122A.

118 ACMA may request codes

(1) If the ACMA is satisfied that a body or association represents a particular section of the telecommunications industry, the e-marketing industry or the telemarketing industry, the ACMA may, by written notice given to the body or association, request the body or association to:

(a) develop an industry code that applies to participants in that section of the industry and deals with one or more specified matters relating to the telecommunications activities, e-marketing activities or telemarketing activities, as the case may be, of those participants; and
(b) give the ACMA a copy of the code within the period specified in the notice.

Note: The ACMA may request the body or association to develop the industry code to replace an earlier industry code that the Privacy Commissioner (exercising functions under the Privacy Act 1988) has advised the ACMA is inconsistent with the National Privacy Principles or a relevant approved privacy code (as defined in that Act).

(2) The period specified in a notice under subsection (1) must run for at least 120 days.

(3) The ACMA must not make a request under subsection (1) in relation to a particular section of the telecommunications industry, the e-marketing industry or the telemarketing industry unless the ACMA is satisfied that:

(a) the development of the code is necessary or convenient in order to:

(i) provide appropriate community safeguards; or
(ii) otherwise deal with the performance or conduct of participants in that section of the industry; and

122  Telecommunications Act 1997
(b) in the absence of the request, it is unlikely that an industry code would be developed within a reasonable period.

(4) The ACMA must not make a request under subsection (1) in relation to a code if:
   (a) the code would deal with a matter referred to in paragraph 113(3)(f) (which relates to privacy); and
   (b) compliance with the code would be likely to have the effect (whether direct or indirect) of requiring customer equipment, customer cabling, a telecommunications network or a facility:
       (i) to have particular design features; or
       (ii) to meet particular performance requirements.

However, this rule does not apply if the ACMA is satisfied that the benefits to the community from the operation of the code would outweigh the costs of compliance with the code.

(4A) The ACMA must consult the Privacy Commissioner before making a request under subsection (1) for the development of an industry code that could reasonably be expected to deal directly or indirectly with a matter dealt with by:
   (a) the National Privacy Principles (as defined in the Privacy Act 1988); or
   (b) other provisions of that Act relating to those Principles; or
   (c) an approved privacy code (as defined in that Act) that binds one or more participants in the section of the telecommunications industry, the e-marketing industry or the telemarketing industry to which the request relates; or
   (d) provisions of that Act that relate to the approved privacy code.

(5) The ACMA may vary a notice under subsection (1) by extending the period specified in the notice.

(6) Subsection (5) does not, by implication, limit the application of subsection 33(3) of the Acts Interpretation Act 1901.

(7) A notice under subsection (1) may specify indicative targets for achieving progress in the development of the code (for example, a target of 60 days to develop a preliminary draft of the code).
Part 6  Industry codes and industry standards
Division 4  Industry codes

Section 119

119  Publication of notice where no body or association represents a section of the telecommunications industry, the e-marketing industry or the telemarketing industry

(1) If the ACMA is satisfied that a particular section of the telecommunications industry, the e-marketing industry or the telemarketing industry is not represented by a body or association, the ACMA may publish a notice in the Gazette:

(a) stating that, if such a body or association were to come into existence within a specified period, the ACMA would be likely to give a notice to that body or association under subsection 118(1); and

(b) setting out the matter or matters relating to telecommunications activities, e-marketing activities or telemarketing activities, as the case may be, that would be likely to be specified in the subsection 118(1) notice.

(2) The period specified in a notice under subsection (1) must run for at least 60 days.

120  Replacement of industry codes

(1) Changes to an industry code are to be achieved by replacing the code instead of varying the code. However, this does not prevent the ACMA from removing under section 122A an industry code, or a provision of an industry code, from the Register of industry codes kept under this Part.

(2) If the replacement code differs only in minor respects from the original code, section 117 has effect, in relation to the registration of the code, as if paragraphs 117(1)(e) and (f) had not been enacted.

Note: Paragraphs 117(1)(e) and (f) deal with submissions about draft codes.

121  Directions about compliance with industry codes

(1) If:

(a) a person is a participant in a particular section of the telecommunications industry, the e-marketing industry or the telemarketing industry; and
(b) the ACMA is satisfied that the person has contravened or is contravening an industry code that:
   (i) is registered under this Part; and
   (ii) applies to participants in that section of the industry;
the ACMA may, by written notice given to the person, direct the person to comply with the industry code.

(1A) If the ACMA is satisfied that the contravention of the industry code relates directly or indirectly to a matter dealt with by the National Privacy Principles (as defined in the Privacy Act 1988) or by an approved privacy code (as defined in that Act), the ACMA must consult the Privacy Commissioner before giving the direction.

(1B) If:
   (a) at a time when an industry code (the original code) was registered under this Part, a direction could have been given to a person under subsection (1) in respect of the original code; and
   (b) the original code has been replaced by another code that is registered under this Part; and
   (c) the person could have been given a direction under subsection (1) in respect of the replacement code, if the conduct concerned had occurred after the replacement code was registered;
then, during the period when the replacement code is registered under this Part, the person may be given a direction under subsection (1) in respect of the replacement code.

(2) A person must comply with a direction under subsection (1).

(3) A person must not:
   (a) aid, abet, counsel or procure a contravention of subsection (2); or
   (b) induce, whether by threats or promises or otherwise, a contravention of subsection (2); or
   (c) be in any way, directly or indirectly, knowingly concerned in, or party to, a contravention of subsection (2); or
   (d) conspire with others to effect a contravention of subsection (2).
Part 6  Industry codes and industry standards
Division 4  Industry codes

Section 122

(4) Subsections (2) and (3) are civil penalty provisions.

Note: Part 31 provides for pecuniary penalties for breaches of civil penalty provisions.

(5) A direction under subsection (1) is not a legislative instrument for the purposes of the Legislative Instruments Act 2003.

122 Formal warnings—breach of industry codes

(1) This section applies to a person who is a participant in a particular section of the telecommunications industry, the e-marketing industry or the telemarketing industry.

(2) The ACMA may issue a formal warning if the person contravenes an industry code registered under this Part.

(3) If the ACMA is satisfied that the contravention of the industry code relates directly or indirectly to a matter dealt with by the National Privacy Principles (as defined in the Privacy Act 1988) or by an approved privacy code (as defined in that Act), the ACMA must consult the Privacy Commissioner before issuing the warning.

(4) If:

(a) at a time when an industry code (the original code) was registered under this Part, a formal warning could have been given to a person under subsection (2) in respect of the original code; and

(b) the original code has been replaced by another code that is registered under this Part; and

(c) the person could have been given a formal warning under subsection (2) in respect of the replacement code, if the conduct concerned had occurred after the replacement code was registered;

then, during the period when the replacement code is registered under this Part, the person may be given a formal warning under subsection (2) in respect of the replacement code.
122A De-registering industry codes and provisions of industry codes

(1) The ACMA may remove from the Register of industry codes kept under section 136:
   (a) an industry code; or
   (b) a provision of an industry code.

(2) An industry code ceases to be registered when it is removed from the Register.

(3) If the ACMA removes a provision of an industry code from the Register, this Part has effect in relation to things occurring after the removal of the provision as if the code registered under this Part did not include the provision removed.
128 Telecommunications Act 1997
Section 124

(4) A standard under subsection (2) is a disallowable instrument for the purposes of section 46A of the Acts Interpretation Act 1901.

124 ACMA may determine industry standard where no industry body or association formed

(1) This section applies if:
   (a) the ACMA is satisfied that a particular section of the telecommunications industry, the e-marketing industry or the telemarketing industry is not represented by a body or association; and
   (b) the ACMA has published a notice under subsection 119(1) relating to that section of the industry; and
   (c) that notice:
      (i) states that, if such a body or association were to come into existence within a particular period, the ACMA would be likely to give a notice to that body or association under subsection 118(1); and
      (ii) sets out one or more matters relating to the telecommunications activities, e-marketing activities or telemarketing activities, as the case may be, of the participants in that section of the industry; and
   (d) no such body or association comes into existence within that period; and
   (e) the ACMA is satisfied that it is necessary or convenient for the ACMA to determine a standard in order to:
      (i) provide appropriate community safeguards in relation to that matter or those matters; or
      (ii) otherwise regulate adequately participants in that section of the industry in relation to that matter or those matters.

(2) The ACMA may, by written instrument, determine a standard that applies to participants in that section of the industry and deals with that matter or those matters. A standard under this subsection is to be known as an industry standard.

(3) A standard under subsection (2) is a disallowable instrument for the purposes of section 46A of the Acts Interpretation Act 1901.
125 ACMA may determine industry standards where industry codes fail

(1) This section applies if:
(a) an industry code that:
   (i) applies to participants in a particular section of the telecommunications industry, the e-marketing industry or the telemarketing industry; and
   (ii) deals with one or more matters relating to the telecommunications activities, e-marketing activities or telemarketing activities, as the case may be, of those participants;
   has been registered under this Part for at least 180 days; and
(b) the ACMA is satisfied that the code is deficient (as defined by subsection (7)); and
(c) the ACMA has given the body or association that developed the code a written notice requesting that deficiencies in the code be addressed within a specified period; and
(d) that period ends and the ACMA is satisfied that it is necessary or convenient for the ACMA to determine a standard that applies to participants in that section of the industry and deals with that matter or those matters.

(2) The period specified in a notice under paragraph (1)(c) must run for at least 30 days.

(3) The ACMA may, by written instrument, determine a standard that applies to participants in that section of the industry and deals with that matter or those matters. A standard under this subsection is to be known as an industry standard.

(4) If the ACMA is satisfied that a body or association represents that section of the industry, the ACMA must consult the body or association before determining an industry standard under subsection (3).

(5) A standard under subsection (3) is a disallowable instrument for the purposes of section 46A of the Acts Interpretation Act 1901.

(6) The industry code ceases to be registered under this Part on the day on which the industry standard comes into force.
(7) For the purposes of this section, an industry code that applies to participants in a particular section of the telecommunications industry, the e-marketing industry or the telemarketing industry and deals with one or more matters relating to the telecommunications activities, e-marketing activities or telemarketing activities, as the case may be, of those participants is **deficient** if, and only if:

(a) the code is not operating to provide appropriate community safeguards in relation to that matter or those matters; or

(b) the code is not otherwise operating to regulate adequately participants in that section of the industry in relation to that matter or those matters.

**125A ACMA must determine certain industry standards relating to the telemarketing industry**

(1) Before the commencement of Part 2 of the *Do Not Call Register Act 2006*, the ACMA must, by legislative instrument, determine a standard that:

(a) applies to participants in each section of the telemarketing industry; and

(b) deals with the following matters relating to the telemarketing activities of those participants:

(i) restricting the hours and/or days during which telemarketing calls may be made or attempted to be made;

(ii) requiring that a telemarketing call must contain specified information about the relevant participant;

(iii) requiring that, if a person other than the relevant participant caused a telemarketing call to be made, the call must contain specified information about the person who caused the call to be made;

(iv) requiring the relevant participant to terminate a telemarketing call if a specified event happens;

(v) requiring the relevant participant to ensure that calling line identification is enabled in respect of the making of a telemarketing call; and

(c) is expressed to commence at the same time as the commencement of Part 2 of the *Do Not Call Register Act 2006*. 

---

*Telecommunications Act 1997* 131
Section 126

(2) A standard under subsection (1) is to be known as an industry standard.

(3) If the ACMA is satisfied that a body or association represents a section of the telemarketing industry, the ACMA must consult the body or association before determining a standard under subsection (1).

(4) The ACMA must ensure that a standard is in force under subsection (1) at all times after the commencement of Part 2 of the Do Not Call Register Act 2006.

126 Industry standards not to be determined for certain privacy matters

The ACMA must not determine an industry standard if:
(a) the standard would deal with a matter referred to in paragraph 113(3)(f) (which relates to privacy); and
(b) compliance with the standard would be likely to have the effect (whether direct or indirect) of requiring customer equipment, customer cabling, a telecommunications network or a facility:
   (i) to have particular design features; or
   (ii) to meet particular performance requirements.

However, this rule does not apply if the ACMA is satisfied that the benefits to the community from the operation of the standard would outweigh the costs of compliance with the standard.

127 Industry standards not to be determined during the first 180 days after commencement

The ACMA must not determine an industry standard during the first 180 days after the commencement of this section.

128 Compliance with industry standards

(1) If an industry standard that applies to participants in a particular section of the telecommunications industry, the e-marketing industry or the telemarketing industry is registered under this Part, each participant in that section of the industry must comply with the standard.

- The ACMA must require certain carriers and carriage service providers to provide pre-selection in favour of carriage service providers.
- Pre-selection must include over-ride dial codes for selecting alternative carriage service providers on a call-by-call basis.

349 Requirement to provide pre-selection

(1) The ACMA must make a written determination requiring each carrier or carriage service provider who supplies a standard telephone service to:
   (a) provide pre-selection in favour of a specified carriage service provider, in relation to calls made using a standard telephone service, in the manner specified in the determination; and

### 350 When pre-selection is provided in favour of a carriage service provider

(1) For the purposes of this Part, a determination requires a carrier to provide pre-selection in favour of a carriage service provider in relation to calls made using a particular carriage service if, and only if, the determination requires:
   (a) the controlled networks and controlled facilities of the carrier to permit an end-user to:
      (i) pre-select the carriage service provider as the end-user’s preferred carriage service provider for such of the end-user’s requirements, in relation to calls made using that carriage service, as are specified in the determination; and
Section 350A

(ii) change that selection from time to time; and
(c) the controlled networks and controlled facilities of the carrier to provide over-ride dial codes for selecting alternative carriage service providers, in relation to calls made using that carriage service, on a call-by-call basis.

Note: End-user is defined by subsection (3).

(2) For the purposes of this Part, a determination requires a carriage service provider (the first provider) to provide pre-selection in favour of another carriage service provider (the second provider) in relation to calls made using a particular carriage service if, and only if, the determination requires:

(a) the controlled networks and controlled facilities of the first provider to permit an end-user to:
   (i) pre-select the second provider as the end-user’s preferred carriage service provider for such of the end-user’s requirements, in relation to calls made using that carriage service, as are specified in the determination; and
   (ii) change that selection from time to time; and

(c) the controlled networks and controlled facilities of the first provider to provide over-ride dial codes for selecting alternative carriage service providers, in relation to calls made using that carriage service, on a call-by-call basis.

(2) The declaration has effect accordingly.

(3) In deciding whether to make a declaration under this section, the ACCC must have regard to whether the declaration will promote the long-term interests of end-users of:
   (a) carriage services; or
   (b) services supplied by means of carriage services.

(4) The ACCC may have regard to any other matters that it thinks are relevant.

(5) For the purposes of this section, the question whether a particular thing promotes the long-term interests of end-users of:
   (a) carriage services; or
   (b) services supplied by means of carriage services;
   is to be determined in the same manner in which that question is determined for the purposes of Part XIC of the *Trade Practices Act 1974*.

Note: See section 152AB of the *Trade Practices Act 1974*.

### 351 Pre-selection to be provided

(1) This section applies to a person if a determination under section 349 is in force and that determination requires the person to provide pre-selection.

(2) A person must provide pre-selection in accordance with the requirements set out in the determination and on such terms and conditions as are:
   (a) agreed between the following parties:
      (i) the person;
      (ii) the carriage service provider in whose favour pre-selection is required to be provided; or
   (b) failing agreement, determined by an arbitrator appointed by the parties.

If the parties fail to agree on the appointment of an arbitrator, the ACCC is to be the arbitrator.

(3) The regulations may make provision for and in relation to the conduct of an arbitration under this section.
(4) The regulations may provide that, for the purposes of a particular arbitration conducted by the ACCC under this section, the ACCC may be constituted by a single member, or a specified number of members, of the ACCC. For each such arbitration, that member or those members are to be nominated in writing by the Chairperson of the ACCC.

(5) Subsection (4) does not, by implication, limit subsection (3).

(6) A person must comply with any rules set out in the determination as mentioned in paragraph 349(1)(b) or (2)(b).

352 Exemptions from requirement to provide pre-selection

(1) The ACMA may, by notice in the Gazette, declare that a specified carrier or carriage service provider is exempt from a requirement imposed under section 349. The declaration has effect accordingly.  

Note: Carriers or providers may be specified by name, by inclusion in a particular class or in any other way.

(2) In deciding whether a carrier or carriage service provider should be exempt from a requirement imposed under section 349, the ACMA must have regard to the following matters:

(a) whether it would be technically feasible for the carrier or provider to comply with the requirement concerned;

(b) whether compliance with the requirement concerned would impose unreasonable financial hardship on the carrier or provider.

(3) Subsection (2) does not, by implication, limit the matters to which the ACMA may have regard.

(4) Before making a declaration under this section, the ACMA must consult the ACCC.

353 Use of over-ride dial codes

(1) This section applies to a carriage service provider (the first provider) if:

(a) the first provider supplies a carriage service that involves the use of a controlled network, or a controlled facility, of a carrier, of the first provider or of another carriage service provider; and
(b) in accordance with a determination under section 349, the network or facility, as the case may be, provides over-ride dial codes for selecting alternative carriage service providers on a call-by-call basis.

(2) Unless, in the ACMA’s opinion:
   (a) it would not be technically feasible; or
   (b) it would impose unreasonable financial hardship on the first provider;
the first provider must take such steps as are necessary to ensure that each end-user of the carriage service is able to make use of those codes for selecting alternative carriage service providers on a call-by-call basis.

(3) The requirement in subsection (2) does not, by implication, prevent an alternative carriage service provider from refusing to supply a carriage service to the end-user concerned.
Part 18—Calling line identification

354  Simplified outline

The following is a simplified outline of this Part:

- Certain switching systems must be capable of providing calling line identification.

355  Calling line identification

   (a) the person is a carrier or a carriage service provider; and
   (b) a controlled facility of the person consists of:
      (i) a switching system used in connection with the supply of a standard telephone service; or
      (ii) a switching system of a kind specified in a determination under subsection (3); and
   (c) either:
      (i) the completion of the installation of the system occurred on or after 1 July 1997; or
      (ii) immediately before 1 July 1997, the system was capable of providing calling line identification.

(2) The person must take all reasonable steps to ensure that the system is capable of providing calling line identification.

(3) The ACMA may make a written determination for the purposes of subparagraph (1)(b)(ii).

(4) A determination under subsection (3) is a disallowable instrument for the purposes of section 46A of the Acts Interpretation Act 1901.

356  Exemptions from calling line identification requirement

(1) The ACMA may, by notice in the Gazette, declare that a specified person is exempt from the requirement set out in section 355. The declaration has effect accordingly.
Note: A person may be identified by name, by inclusion in a particular class or in any other way.

(2) In deciding whether a person should be exempt from the requirement set out in section 355, the ACMA must have regard to the following matters:
   (a) whether it would be unreasonable to impose the requirement;
   (b) whether it is in the public interest to impose the requirement.

(3) Subsection (2) does not, by implication, limit the matters to which the ACMA may have regard.
Part 19—Advanced Mobile Phone System (AMPS)

357 Simplified outline

The following is a simplified outline of this Part:

- The Advanced Mobile Phone System is to be phased out by 1 January 2000.

358 Meaning of AMPS

In this Part:

359 Scope of Part

This Part applies to a person who is:

(a) a carrier; or
(b) a carriage service provider.

360 No new AMPS

Before 1 January 2000, a person other than Telstra must not install or operate an AMPS network.

361 AMPS to be phased out

(2) Before 1 January 2000, a person must comply with any written plan determined by the Minister in relation to:

(a) ceasing installation or operation of an AMPS network; or
(b) ceasing the supply of AMPS services; or
(c) ceasing to use, for AMPS purposes, the radiocommunications spectrum used in relation to AMPS services.
Section 362

(3) Subsections (1) and (2) have effect subject to section 362.

(4) A plan under subsection (2) may make provision in relation to a matter by applying, adopting or incorporating (with or without modifications) provisions of any frequency band plan (within the meaning of the *Radiocommunications Act 1992*), either:
   (a) as in force at a particular time; or
   (b) as in force from time to time.

(5) Subsection (4) does not, by implication, limit section 589.

362 Limited exemption from phase-out of AMPS

(1) A person may install or operate an AMPS network in a particular area:
   (a) on or after 1 January 2000; or
   (b) contrary to the requirements of a plan of a kind to which subsection 361(2) applies;
if:
   (c) the Minister and each eligible mobile carrier agree in writing; or
   (d) the Minister agrees in writing after:
      (i) the Minister has consulted each eligible mobile carrier; and
      (ii) the Minister has determined that the installation or operation of the AMPS network will not erode unduly the practical value to an eligible mobile carrier of the regime embodied in sections 360 and 361.

(2) Subsection (1) does not authorise a person to do anything that would contravene a provision of this Act (other than section 360 or 361).

(3) In this section:

   *eligible mobile carrier* means a person who was a mobile carrier (within the meaning of the *Telecommunications Act 1991*) immediately before 1 July 1997.

   *this Act* includes the *Telecommunications (Consumer Protection and Service Standards) Act 1999* and regulations under that Act.
363 Competition not to be reduced

(1) This section applies if a person installs or operates an AMPS network.

(2) The person must not use the installation of the AMPS network, or operate the AMPS network, in a way that could unfairly reduce the scope for competition between carriage service providers who supply public mobile telecommunications services.

if, in the opinion of the ACCC, the disclosure of the information:
(iv) would promote the fair and efficient operation of a market; or
(v) would otherwise be in the national interest.

(3) Before the ACCC makes a determination, or gives a direction, under the Rules of Conduct, the ACCC must consult the ACMA.

(4) Rules of Conduct are disallowable instruments for the purposes of section 46A of the Acts Interpretation Act 1901.

(5) A determination mentioned in paragraph (2)(b) is a disallowable instrument for the purposes of section 46A of the Acts Interpretation Act 1901.

Section 370

370  Unenforceability of agreements

(1) This section applies if an agreement, or a provision of an agreement, is unenforceable because of section 369.

(2) A party to the agreement is not entitled, as against any other party:
   (a) to enforce the agreement or provision, as the case may be, whether directly or indirectly; or
   (b) to rely on the agreement or provision, as the case may be, whether directly or indirectly and whether by way of defence or otherwise.

(3) A party (the first party) to the agreement is not entitled to recover by any means (including, for example, set-off, a quasi-contractual claim or a claim for a restitutionary remedy) any amount that another party would have been liable to pay to the first party under or in connection with the agreement or provision, as the case may be, if this section had not been enacted.

371  Investigations by the ACCC

(1) This Act does not prevent the ACCC from carrying out an investigation of a contravention of Rules of Conduct in force under section 367.

(2) If the ACCC begins an investigation of a contravention of the Rules of Conduct, the ACCC must:
   (a) notify the ACMA accordingly; and
   (b) consult the ACMA about any significant developments that occur in the course of that investigation.

372  Reviews of the operation of this Division

(1) The ACCC must review, and report each financial year to the Minister on, the operation of this Division.

(2) The ACCC must give a report under subsection (1) to the Minister as soon as practicable after the end of the financial year concerned.

(3) The ACCC must, if directed in writing to do so by the Minister, review, and report to the Minister on, specified matters relating to the operation of this Division.
(4) The ACCC must give a report under subsection (3) to the Minister before the end of the period specified in the direction.

(5) The Minister must cause a copy of a report under this section to be laid before each House of the Parliament within 15 sitting days of that House after receiving the report.
Part 21—Technical regulation

Division 1—Simplified outline

373 Simplified outline

The following is a simplified outline of this Part:

- The ACMA may make the following types of standards:
  - technical standards about customer equipment and customer cabling;
  - standards relating to the features of customer equipment that are designed to cater for the special needs of persons with disabilities;
  - technical standards about the interconnection of facilities.

- The ACMA may require customer equipment and customer cabling to be labelled so as to indicate compliance with standards.

- The ACMA may issue connection permits, and make connection rules, authorising the connection of customer equipment and customer cabling that does not comply with the labelling requirements.

- A label may include a compliance symbol. The unauthorised use of compliance symbols is prohibited.

- The ACMA may grant cabling licences, and make cabling provider rules, authorising the performance of cabling work.

- Civil actions may be instituted for unlawful or dangerous connections of customer equipment or customer cabling.
• Dangerous equipment and cabling may be disconnected from networks.

• The ACMA may prohibit the supply or possession of dangerous equipment or cabling.
Division 2—Interpretative provisions

374 Part applies to networks or facilities in Australia operated by carriers or carriage service providers

(1) A reference in this Part to a telecommunications network is a reference to a telecommunications network in Australia that is operated by a carrier or carriage service provider.

(2) A reference in this Part to a facility is a reference to a facility in Australia that is operated by a carrier or carriage service provider.

375 Manager of network or facility

For the purposes of this Part, the manager of:

(a) a telecommunications network; or
(b) a facility of a telecommunications network;

is the carrier, or carriage service provider, who operates the network or facility, as the case may be.
Division 3—Technical standards about customer equipment and customer cabling

376 ACMA’s power to make technical standards

(1) The ACMA may, by written instrument, make a technical standard relating to specified customer equipment or specified customer cabling.

(2) Standards under this section are to consist only of such requirements as are necessary or convenient for:
   (a) protecting the integrity of a telecommunications network or a facility; or
   (b) protecting the health or safety of persons who:
       (i) operate; or
       (ii) work on; or
       (iii) use services supplied by means of; or
       (iv) are otherwise reasonably likely to be affected by the operation of;
       a telecommunications network or a facility; or
   (c) ensuring that customer equipment can be used to give access to an emergency call service; or
   (d) ensuring, for the purpose of the supply of a standard telephone service, the interoperability of customer equipment with a telecommunications network to which the equipment is, or is proposed to be, connected; or
   (e) achieving an objective specified in the regulations.

(3) Regulations made for the purposes of paragraph (2)(e) must not specify an objective if the achievement of the objective is likely to have the effect (whether direct or indirect) of requiring a telecommunications network or a facility to:
   (a) have particular design features; or
   (b) meet particular performance requirements.

(4) A standard under this section may be of general application or may be limited as provided in the standard. This subsection does not, by implication, limit subsection 33(3A) of the Acts Interpretation Act 1901.
Part 21  Technical regulation  
Division 3  Technical standards about customer equipment and customer cabling

Section 377

(5) A standard under this section takes effect:
(a) if the instrument making the standard specifies a day for the purpose—on that day; or
(b) otherwise—on the day on which the standard was notified in the Gazette.

(6) A standard under this section is a disallowable instrument for the purposes of section 46A of the Acts Interpretation Act 1901.

377 Adoption of voluntary standards

(1) In making a technical standard under section 376, the ACMA may apply, adopt or incorporate (with or without modification) any matter contained in a standard proposed or approved by:
(a) Standards Australia International Limited; or
(b) any other body or association;
either:
(c) as in force or existing at a particular time; or
(d) as in force or existing from time to time.

(2) Subsection (1) does not, by implication, limit section 589.

378 Procedures for making technical standards

(1) Before making a technical standard under section 376, the ACMA must, so far as is practicable, try to ensure that:
(a) interested persons have had an adequate opportunity to make representations about the proposed standard (either directly, or indirectly by means of a report under paragraph (2)(g)); and
(b) due consideration has been given to any representation so made.

Note: This subsection has effect subject to section 379 (which deals with the ACMA’s power to make standards in cases of urgency).

(2) The ACMA may make an arrangement with any of the following bodies or associations:
(a) Standards Australia International Limited;
(b) a body or association approved in writing by Standards Australia International Limited for the purposes of this subsection;

220  Telecommunications Act 1997
(c) a body or association specified in a written determination made by the ACMA for the purposes of this subsection; under which the body or association:
(d) prepares a draft of a standard; and
(e) publishes the draft standard; and
(f) undertakes a process of public consultation on the draft standard; and
(g) reports to the ACMA on the results of that process of public consultation.

(3) A copy of an approval under paragraph (2)(b) is to be published in the Gazette.

(4) A copy of a determination under paragraph (2)(c) is to be published in the Gazette.

(5) For the purposes of subsection (1), interested persons are taken not to have had an adequate opportunity to make representations unless there was a period of at least 60 days during which the representations could be made.

379 Making technical standards in cases of urgency

(1) The ACMA is not required to comply with subsection 378(1) in relation to the making of a particular technical standard if the ACMA is satisfied that it is necessary to make the standard as a matter of urgency in order to:
(a) protect the integrity of a telecommunications network or of a facility; or
(b) protect the health or safety of persons who:
   (i) operate; or
   (ii) work on; or
   (iii) use services supplied by means of; or
   (iv) are otherwise reasonably likely to be affected by the operation of;
   a telecommunications network or a facility.

(2) If subsection (1) applies to a standard (the urgent standard), the urgent standard ceases to have effect 12 months after it came into operation. However, this rule does not prevent the ACMA from
revoking the urgent standard and making another standard under section 376 that:
(a) is not a standard to which subsection (1) applies; and
(b) deals with the same subject matter as the urgent standard.
Division 4—Disability standards

380 Disability standards

(1) The ACMA may, by written instrument, make a standard relating to specified customer equipment if:
   (a) the customer equipment is for use in connection with the standard telephone service; and
   (b) the customer equipment is for use primarily by persons who do not have a disability; and
   (c) the standard relates to the features of the equipment that are designed to cater for any or all of the special needs of persons with disabilities.

(2) The following are examples of features mentioned in paragraph (1)(c):
   (a) an induction loop that is designed to assist in the operation of a hearing aid;
   (b) a raised dot on the button labelled “5” on a telephone.

(4) A standard under this section takes effect:
   (a) if the instrument making the standard specifies a day for the purpose—on that day; or
   (b) otherwise—on the day on which the standard was notified in the Gazette.

(5) A standard under this section is a disallowable instrument for the purposes of section 46A of the Acts Interpretation Act 1901.

(6) In this section:

(disability) has the same meaning as in the Disability Discrimination Act 1992.
381 Adoption of voluntary standards

(1) In making a standard under section 380, the ACMA may apply, adopt or incorporate (with or without modification) any matter contained in a standard proposed or approved by:
   (a) Standards Australia International Limited; or
   (b) any other body or association;
   either:
   (c) as in force or existing at a particular time; or
   (d) as in force or existing from time to time.

(2) Subsection (1) does not, by implication, limit section 589.

382 Procedures for making disability standards

(1) Before making a standard under section 380, the ACMA must, so far as is practicable, try to ensure that:
   (a) interested persons have had an adequate opportunity to make representations about the proposed standard (either directly, or indirectly by means of a report under paragraph (2)(g)); and
   (b) due consideration has been given to any representation so made.

(2) The ACMA may make an arrangement with any of the following bodies or associations:
   (a) Standards Australia International Limited;
   (b) a body or association approved in writing by Standards Australia International Limited for the purposes of this subsection;
   (c) a body or association specified in a written determination made by the ACMA for the purposes of this subsection, under which the body or association:
       (d) prepares a draft of a standard; and
       (e) publishes the draft standard; and
       (f) undertakes a process of public consultation on the draft standard; and
       (g) reports to the ACMA on the results of that process of public consultation.
(3) A copy of an approval under paragraph (2)(b) is to be published in the Gazette.

(4) A copy of a determination under paragraph (2)(c) is to be published in the Gazette.

(5) For the purposes of subsection (1), interested persons are taken not to have had an adequate opportunity to make representations unless there was a period of at least 60 days during which the representations could be made.

383 Effect of compliance with disability standards

(1) In determining whether a person has infringed section 24 of the Disability Discrimination Act 1992 in relation to the supply or provision of customer equipment, regard must be had to whether the customer equipment complies with a standard in force under section 380.

(2) Subsection (1) does not, by implication, limit the matters to which regard may be had.
Division 5—Technical standards about the interconnection of facilities

384 ACMA’s power to make technical standards

(1) The ACMA may, by written instrument, make a technical standard relating to the interconnection of facilities.

Note: For enforcement of the standards, see section 152AR of the Trade Practices Act 1974.

(2) The ACMA must not make a standard under subsection (1) unless the ACMA is directed to do so by the ACCC under subsection (3).

(3) The ACCC may give written directions to the ACMA in relation to the exercise of the power to make standards under subsection (1).

(4) The ACMA must exercise its powers under subsection (1) in a manner consistent with any directions given by the ACCC under subsection (3).

(5) The ACCC must not give a direction under subsection (3) unless, in the ACCC’s opinion, it is necessary to do so in order to:

   (a) promote the long-term interests of end-users of carriage services or of services supplied by means of carriage services; or
   (b) reduce or eliminate the likelihood of hindrance to the provision of access to declared services.

(6) A standard under subsection (1) may be of general application or may be limited as provided in the standard. This subsection does not, by implication, limit subsection 33(3A) of the Acts Interpretation Act 1901.

(7) A standard under subsection (1) takes effect:

   (a) if the instrument making the standard specifies a day for the purpose—on that day; or
   (b) otherwise—on the day on which the standard was notified in the Gazette.

(8) A standard under subsection (1) is a disallowable instrument for the purposes of section 46A of the Acts Interpretation Act 1901.
(9) In this section:

*declared service* has the same meaning as in Part XIC of the *Trade Practices Act 1974*.

### 385 Adoption of voluntary standards

(1) In making a technical standard under section 384, the ACMA may apply, adopt or incorporate (with or without modification) any matter contained in a standard proposed or approved by:

- Standards Australia International Limited; or
- any other body or association;

either:

- as in force or existing at a particular time; or
- as in force or existing from time to time.

(2) Subsection (1) does not, by implication, limit section 589.

### 386 Procedures for making technical standards

(1) Before making a technical standard under section 384, the ACMA must, so far as is practicable, try to ensure that:

- interested persons have had an adequate opportunity to make representations about the proposed standard (either directly, or indirectly by means of a report under paragraph (2)(g)); and
- due consideration has been given to any representations so made.

(2) The ACMA may make an arrangement with any of the following bodies or associations:

- Standards Australia International Limited;
- a body or association approved in writing by Standards Australia International Limited for the purposes of this subsection;
- a body or association specified in a written determination made by the ACMA for the purposes of this subsection; under which the body or association:
- prepares a draft of a standard; and
- publishes the draft standard; and
Section 387

(f) undertakes a process of public consultation on the draft standard; and

(g) reports to the ACMA on the results of that process of public consultation.

(3) A copy of an approval under paragraph (2)(b) is to be published in the *Gazette*.

(4) A copy of a determination under paragraph (2)(c) is to be published in the *Gazette*.

(5) For the purposes of subsection (1), interested persons are taken not to have had an adequate opportunity to make representations unless there was a period of at least 60 days during which the representations could be made.

387 Procedures for making technical standards

(1) The ACMA must not make a standard under section 384 relating to a particular matter unless:

Part 22—Numbering of carriage services and regulation of electronic addressing

Division 1—Simplified outline

454  Simplified outline

The following is a simplified outline of this Part:

- The ACMA is required to make a plan for:
  
  (a) the numbering of carriage services in Australia; and
  
  (b) the use of numbers in connection with the supply of such services.

- The plan is called the numbering plan.

- Numbers may be allocated to carriage service providers:
  
  (a) in accordance with an allocation system; or
  
  (b) otherwise than in accordance with such a system.

- The numbering plan will specify emergency service numbers.

- The ACMA and the ACCC may give directions to managers of electronic addressing so long as the electronic addressing is of public importance.
Division 2—Numbering of carriage services

Subdivision A—Numbering plan

455 Numbering plan

(1) The ACMA must, by written instrument, make a plan for:
   (a) the numbering of carriage services in Australia; and
   (b) the use of numbers in connection with the supply of such services.

(2) The plan is called the numbering plan.

(3) The numbering plan must specify the numbers that are for use in connection with the supply of carriage services to the public in Australia.

Note: Specification is the “first tier” concept. It operates at the level of a general specification of numbers.

(4) Different numbers may be specified for use in connection with the supply of different types of carriage services.

(5) The numbering plan may set out rules about:
   (a) the allocation of numbers to carriage service providers; and
   (b) the transfer of allocated numbers between carriage service providers; and
   (c) the surrender or withdrawal of allocated numbers; and
   (d) the portability of allocated numbers (including rules about the maintenance of, and access to, databases that facilitate portability); and
   (e) the use of allocated numbers in connection with the supply of carriage services to the public in Australia (including rules about the issue of allocated numbers by carriage service providers to customers for use in connection with the supply of carriage services).

Note 1: Allocation is the “second tier” concept. It operates at the level of particular carriage service providers.

Note 2: Issue is the “third tier” concept. It operates at the level of particular customers of carriage service providers. The issue of an allocated number to a customer does not affect the allocation of the number to the carriage service provider concerned.
(6) Rules made for the purposes of paragraph (5)(a) may authorise the allocation of specified numbers:
   (a) in accordance with an allocation system determined under section 463; or
   (b) otherwise than in accordance with such a system.

(7) The numbering plan may make provision for, or in relation to, a matter by empowering the ACMA to make decisions of an administrative character.

(8) Subsections (3) to (7) (inclusive) do not, by implication, limit the matters that may be dealt with by the numbering plan.

(9) The renumbering of a number in accordance with the numbering plan does not affect the continuity of:
   (a) the allocation of the number; or
   (b) the issue of the number.

(10) In making or varying the numbering plan, the ACMA must have regard to:
     (a) the obligations imposed on carriage service providers by Part 4 of the *Telecommunications (Consumer Protection and Service Standards) Act 1999*; and
     (b) recognised international standards.
     This subsection does not, by implication, limit the matters to which regard may be had.

(11) An instrument under subsection (1) is a disallowable instrument for the purposes of section 46A of the *Acts Interpretation Act 1901*.  

(12) Despite subsection (1), the ACMA is not required to make a numbering plan before 1 January 1998.

456 Numbering plan—supply to the public

(1) This section sets out the circumstances in which a carriage service is taken, for the purposes of section 455, to be supplied to the public.

(2) If:
   (a) a carriage service is used for the carriage of communications between 2 end-users; and
(b) each end-user is outside the immediate circle of the supplier of the service;
the service is supplied to the public.

457 Numbering plan—allocation otherwise than in accordance with an allocation system

(1) The numbering plan must impose the following requirements in relation to an application for the allocation of a number otherwise than in accordance with an allocation system determined under section 463:
(a) a requirement that the application must be accompanied by the charge (if any) fixed by a determination under section 60 of the Australian Communications and Media Authority Act 2005;
(b) a requirement that the applicant must tender the amount of charge (if any) imposed on the allocation by Part 2 of the Telecommunications (Numbering Charges) Act 1997.

(2) If an applicant tenders an amount as mentioned in paragraph (1)(b), but the application is not successful, the amount is to be refunded to the applicant.

458 Numbering plan—rules about portability of allocated numbers

(1) The ACMA must not make a numbering plan that sets out rules about the matter mentioned in paragraph 455(5)(d) (portability of allocated numbers) unless the ACMA is directed to do so by the ACCC under subsection (2).

(2) The ACCC may give written directions to the ACMA in relation to the exercise of the power to determine a numbering plan setting out rules as mentioned in subsection (1).

(3) In exercising the power conferred by subsection (2), the ACCC must ensure that, at all times when the numbering plan is in force, the plan sets out rules about the matter mentioned in paragraph 455(5)(d).

(4) The ACMA must exercise its powers under section 455 in a manner consistent with any directions given by the ACCC under subsection (2).
Section 459

(5) In exercising the power conferred by subsection (2), the ACCC must have regard to whether portability of particular allocated numbers is required in order to promote the long-term interests of end-users of carriage services or of services supplied by means of carriage services.

(6) For the purposes of this section, the question whether a particular thing promotes the long-term interests of end-users of carriage services or of services supplied by means of carriage services is to be determined in the same manner as that question is determined for the purposes of Part XIC of the Trade Practices Act 1974.

459 ACMA to administer numbering plan

The ACMA has the general administration of the numbering plan.

460 Consultation about numbering plan

(1) Before making a numbering plan, the ACMA must:
   (a) cause to be published in a newspaper circulating in each State a notice:
      (i) stating that the ACMA has prepared a draft of the plan; and
      (ii) stating that copies of the draft will be available for inspection and purchase by members of the public during normal office hours throughout the period of 90 days after the publication of the notice; and
      (iii) specifying the place or places where the copies will be available for inspection and purchase; and
      (iv) inviting interested persons to give written comments about the draft to the ACMA within 90 days after the publication of the notice; and
   (b) make copies of the draft available for inspection and purchase in accordance with the notice.

(2) If interested persons have given comments about the draft in accordance with the notice, the ACMA must have due regard to those comments in making the plan.
(3) If the ACMA is of the opinion:
   (a) that a variation of a numbering plan:
      (i) will affect a number issued to a customer of a carriage
          service provider, being a customer located in a
          particular State; and
      (ii) is not a variation that, under a written declaration made
          by the ACMA under this subparagraph, is taken to be a
          minor variation; or
   (b) that it is in the public interest that the public in a particular
       State should be consulted about a variation of a numbering
       plan;
    the ACMA must:
   (c) cause to be published in a newspaper circulating in the State
       a notice:
      (i) stating that the ACMA has prepared a draft of the
          variation; and
      (ii) stating that copies of the draft will be available for
          inspection and purchase by members of the public
          during normal office hours throughout the period of 30
          days after the publication of the notice; and
      (iii) specifying the place or places where the copies will be
          available for inspection and purchase; and
      (iv) inviting interested persons to give written comments
          about the draft to the ACMA within 30 days after the
          publication of the notice; and
   (d) make copies of the draft available for inspection and
       purchase in accordance with the notice.

(4) If interested persons have given comments about the draft in
    accordance with the notice, the ACMA must have due regard to
    those comments in varying the plan.

(4A) A declaration under subparagraph (3)(a)(ii) is a legislative
     instrument for the purposes of the *Legislative Instruments Act*
     2003.

(5) In this section:
    
    *State* includes the Northern Territory and the Australian Capital
    Territory.
Part 22  Numbering of carriage services and regulation of electronic addressing  
Division 2  Numbering of carriage services

Section 461

461 Consultation with ACCC

(1) Before making or varying a numbering plan, the ACMA must consult the ACCC.

(2) The numbering plan may provide that, before exercising a power conferred on the ACMA by the numbering plan, the ACMA must consult the ACCC.

462 Compliance with the numbering plan

(1) A person who is a carrier or a carriage service provider must comply with the numbering plan.

(2) If:

(a) a person (the first person) is a carrier or a carriage service provider; and

(b) the plan requires the first person to provide number portability in relation to customers of a carriage service provider;

the first person must comply with that requirement on such terms and conditions as are:

(c) agreed between the following parties:

(i) the first person;

(ii) the carriage service provider; or

(d) failing agreement, determined by an arbitrator appointed by the parties.

If the parties fail to agree on the appointment of an arbitrator, the ACCC is to be the arbitrator.

(3) The regulations may make provision for and in relation to the conduct of an arbitration under this section.

(4) The regulations may provide that, for the purposes of a particular arbitration conducted by the ACCC under this section, the ACCC may be constituted by a single member, or a specified number of members, of the ACCC. For each such arbitration, that member or those members are to be nominated in writing by the Chairperson of the ACCC.

(5) Subsection (4) does not, by implication, limit subsection (3).

280  Telecommunications Act 1997
Numbering of carriage services and regulation of electronic addressing  
Part 22  
Numbering of carriage services  
Division 2

Section 463

(6) A determination made in an arbitration under this section must not be inconsistent with:
   (a) the numbering plan; or
   (b) with a pricing principles determination.

For this purpose, a pricing principles determination is a written determination made by the Minister that sets out principles dealing with price-related terms and conditions relating to a requirement of a kind referred to in paragraph (2)(b).

(7) A determination made by the Minister under subsection (6) is a disallowable instrument for the purposes of section 46A of the Acts Interpretation Act 1901.

(8) In this section:

price-related terms and conditions means terms and conditions relating to price or a method of ascertaining price.

Subdivision B—Allocation system for numbers

463 Allocation system for numbers

(1) The ACMA may, by written instrument, determine an allocation system for allocating specified numbers to carriage service providers.

(2) Before so determining the system, the ACMA must consult the ACCC.

(3) A system so determined:
   (a) may apply generally or in respect of a particular area; and
   (b) may require payment of an application fee.

(4) A system so determined may:
   (a) impose limits on the quantity of numbers that the ACMA may allocate to:
      (i) any one person; or
      (ii) a specified person; or
   (b) impose limits on the quantity of numbers that the ACMA may, in total, allocate to the members of a specified group of persons.
Section 464

Note: Persons or groups may be specified by name, by inclusion in a specified class or in any other way.

(5) Subsections (3) and (4) do not, by implication, limit subsection (1).

(6) A system so determined must provide for:
(a) the successful applicant for the allocation of a particular number; and
(b) an amount, to be known as the eligible amount, in relation to the allocation of that number;

to be determined by reference to the results of:
(c) a tender process; or
(d) a public auction; or
(e) another process;
carried out or conducted as provided by the system.

(7) The ACMA may enter into an arrangement with a person about the collection, on behalf of the ACMA, of fees of a kind referred to in subsection (3).

464 Consultation about an allocation system

(1) Before determining or varying an allocation system under section 463, the ACMA must:
(a) cause to be published in a newspaper circulating in each State a notice:
(i) stating that the ACMA has prepared a draft of the plan or variation; and
(ii) stating that copies of the draft will be available for inspection and purchase by members of the public during normal office hours throughout the period of 30 days after the publication of the notice; and
(iii) specifying the place or places where the copies will be available for inspection and purchase; and
(iv) inviting interested persons to give written comments about the draft to the ACMA within 30 days after the publication of the notice; and
(b) make copies of the draft available for inspection and purchase in accordance with the notice.
(2) If interested persons have given comments about the draft in accordance with the notice, the ACMA must have due regard to those comments in determining or varying the system, as the case may be.

(3) Subsection (1) does not apply to a variation if the variation is of a minor nature.

(4) In this section:

*State* includes the Northern Territory and the Australian Capital Territory.

**Subdivision C—Miscellaneous**

**465 Register of allocated numbers**

(1) For the purposes of this section, the *designated authority* is:

(a) the ACMA; or

(b) if the ACMA enters into an arrangement with another person under which the other person agrees to perform the functions conferred on the designated authority by this section—that other person.

Note: An arrangement under paragraph (b) may provide for the payment of amounts by the ACMA to the other person.

(2) The designated authority is to maintain a Register in which the designated authority includes:

(a) particulars of numbers that have been allocated to carriage service providers under the authority of the numbering plan; and

(b) in the case of a number that has been allocated in accordance with an allocation system determined under section 463:

(i) the name of the successful applicant for the allocation; and

(ii) the eligible amount in relation to the allocation of the number; and

(c) in the case of numbers that have been allocated otherwise than in accordance with such a system—the names of the persons to whom the numbers were allocated.
(3) The designated authority may include in the Register particulars relating to numbers that are taken, for the purposes of Part 3 of the *Telecommunications (Numbering Charges) Act 1997*, to be held by carriage service providers. Those particulars are to include the names of the carriage service providers concerned.

(4) The Register may be maintained by electronic means.

(5) If the ACMA is the designated authority, a person may, on payment of the charge (if any) fixed by a determination under section 60 of the *Australian Communications and Media Authority Act 2005*:
   - (a) inspect the Register; and
   - (b) make a copy of, or take extracts from, the Register.

(6) If the ACMA is not the designated authority, a person may, on payment to the designated authority of the fee (if any) specified in the regulations:
   - (a) inspect the Register; and
   - (b) make a copy of, or take extracts from, the Register.

(7) For the purposes of this section, if the Register is maintained by electronic means, a person is taken to have made a copy of, or taken an extract from, the Register if the designated authority gives the person a printout of, or of the relevant parts of, the Register.

(8) If a person requests that a copy be provided in an electronic form, the designated authority may provide the relevant information:
   - (a) on a data processing device; or
   - (b) by way of electronic transmission.

(3) The numbering plan may specify different numbers for use in different areas.

(4) The numbering plan may specify different numbers for use in connection with different types of services.

(5) The numbering plan may set out rules about the use of emergency service numbers.

(6) In making the numbering plan, the ACMA must have regard to the objective that, as far as practicable, there should be no more than one emergency service number for use throughout Australia.

(7) Subsection (6) does not, by implication, limit section 455.

### 467 Delegation

(1) The ACMA may, by writing, delegate any or all of the powers conferred on the ACMA by the numbering plan to a body corporate.

(1A) If, under section 50 of the Australian Communications and Media Authority Act 2005, the ACMA has delegated a power referred to in subsection (1) to a Division of the ACMA, the following provisions have effect:

(a) the Division may delegate the power to a body corporate;

(b) subsections 52(2), (3), (4), (5) and (6) of the Australian Communications and Media Authority Act 2005 have effect as if the delegation by the Division were a delegation under section 52 of that Act.

(2) The delegate is, in the exercise of a delegated power, subject to the written directions of:

(a) the ACMA, if the delegation to the delegate was under subsection (1); or

Part 22 Numbering of carriage services and regulation of electronic addressing
Division 2 Numbering of carriage services

Section 468

(a) 20% per annum; or

(b) if the determination specifies a lower percentage—that lower percentage per annum;

on the amount unpaid, computed from that time.
Determination has effect

(5) A determination under subsection (4) has effect accordingly.

Remission of penalty

(6) A determination under subsection (4) may authorise the ACMA to make decisions about the remission of the whole or a part of an amount of late payment penalty.

Payment of charge and late payment penalty

Payment to the Commonwealth

(9) Amounts received by way of allocation charge, annual charge or late payment penalty must be paid to the Commonwealth.

Withdrawal of number for non-payment of annual charge

(10) If any annual charge payable by a person in relation to a number remains unpaid after the time when it became due for payment, the ACMA may, by written notice given to the person, withdraw the number. Such a withdrawal is taken to be in accordance with the numbering plan.

Disallowable instrument

(11) A determination under subsection (3) or (4) is a disallowable instrument for the purposes of section 46A of the Acts Interpretation Act 1901.
Section 469

469 Collection of charges on behalf of the Commonwealth

The ACMA may enter into an arrangement with a person under which the person may, on behalf of the Commonwealth, collect payments of charge imposed by the *Telecommunications (Numbering Charges) Act 1997*.

470 Cancellation of certain exemptions from charge

(1) This section cancels the effect of a provision of another Act that would have the effect of exempting a person from liability to pay charge imposed by the *Telecommunications (Numbering Charges) Act 1997*.

(2) The cancellation does not apply if the provision of the other Act is enacted after the commencement of this section and refers specifically to charge imposed by the *Telecommunications (Numbering Charges) Act 1997*.

471 Commonwealth not liable to charge

(1) The Commonwealth is not liable to pay charge imposed by the *Telecommunications (Numbering Charges) Act 1997*.

(2) Even though the Commonwealth is not liable to pay charge imposed by Division 1 of Part 2 of the *Telecommunications (Numbering Charges) Act 1997*, it is the intention of the Parliament that the following should be notionally liable for such a charge:

   (a) a Department of State;

(4) Directions under subsection (3) have effect, and must be complied with, despite any other law of the Commonwealth.

(5) A reference in this section to the *Commonwealth* includes a reference to an authority of the Commonwealth that cannot, by a law of the Commonwealth, be made liable to taxation by the Commonwealth.

### 472 Integrated public number database

(1) The Minister may, by written instrument, determine that a specified person (other than Telstra) is to provide and maintain an integrated public number database.

(2) If a determination is in force under subsection (1) in relation to a person, the person must comply with the determination.

(3) If a determination is in force under subsection (1) in relation to a person, the Minister may, by written notice given to the person, direct the person to do, or refrain from doing, a specified act or thing relating to the provision or maintenance of the integrated public number database.

(4) A direction under subsection (3) may require the database to include specified information. This subsection does not, by implication, limit subsection (3).

(5) A determination under subsection (1) has no effect if Telstra is obliged by a condition of a carrier licence to provide and maintain an integrated public number database.

(6) A determination under subsection (1) is a disallowable instrument for the purposes of section 46A of the *Acts Interpretation Act 1901*.

(7) In this section:

*public number* means a number specified in the numbering plan as mentioned in subsection 455(3).

### 473 Letters and symbols taken to be numbers

For the purposes of this Division, a letter or a symbol is taken to be a number.
Division 3—Regulation of electronic addressing

474 Declared manager of electronic addressing

(1) The ACMA may, by notice in the Gazette, determine that, for the purposes of this Division, a specified person or association is a declared manager of electronic addressing in relation to a specified kind of electronic addressing and a specified kind of listed carriage service.

(2) The determination has effect accordingly.

(3) The ACMA must not make a determination under subsection (1) in relation to a particular person or association unless:
   (a) the ACMA is directed to do so by the ACCC under subsection (4); or
   (b) the ACMA considers that the person or association is not managing that kind of electronic addressing to the ACMA’s satisfaction.

(4) The ACCC may give written directions to the ACMA in relation to the exercise of the power conferred by subsection (1).

13 Itemised billing

(1) This clause applies to a carriage service provider who supplies a standard telephone service.

(2) The provider must provide itemised billing for calls made using such a service. The provider may do this by:
   (a) providing the itemised billing itself; or
   (b) arranging with another person for the provision of the itemised billing.

(3) The rule set out in subclause (2) does not apply in relation to calls made using a particular service if the customer chooses not to have itemised billing for calls made using that service.

(4) The rule set out in subclause (2) does not apply to designated local calls unless the customer requests the provider to provide itemised billing in relation to those calls.

(5) For the purposes of the application of this clause to a carriage service provider who supplies a standard telephone service to a customer, a designated local call is a call that:
   (a) is made using that service; and
   (b) is made between points in the applicable zone in relation to the provider and in relation to the customer; and

(b) the call involves the use of a satellite service.

(7) A reference in this clause to the applicable zone is a reference to the applicable zone for the purposes of Part 4 of the Telecommunications (Consumer Protection and Service Standards) Act 1999.

(i) the date on which the call was made;
(ii) the number to which the call was made;
(iii) the duration of the call;
(iv) the charge applicable to the call;

(1) The ACMA may, by notice in the Gazette, declare that a specified carriage service provider is exempt from the requirement set out in subclause 13(2) in so far as that requirement applies in relation to specified customers. The declaration has effect accordingly.

Note: Providers or customers may be specified by name, by inclusion in a particular class or in any other way.

(2) In deciding whether a provider should be exempt from the requirement set out in subclause 13(2), the ACMA must have regard to:

(a) the technical feasibility of complying with the requirement set out in that subclause; and

(b) any plans by the provider to install a capability to provide itemised billing to those customers.

(3) Subclause (2) does not, by implication, limit the matters to which the ACMA may have regard.

15 Details that are not to be specified in an itemised bill

(1) The ACMA may, by written instrument, determine that specified details must not be shown in an itemised bill provided by a carriage service provider to a customer.

(2) In making a determination under subclause (1), the ACMA must have regard to the Information Privacy Principles set out in section 14 of the Privacy Act 1988 and the National Privacy Principles (as defined in that Act). This subclause does not, by implication, limit the matters to which the ACMA is to have regard.

Clause 20

20 Roads etc. to remain open for passage

If a carrier engages in an activity covered by Division 3, the carrier must ensure that a facility installed over a road, bridge, path or navigable water is installed in a way that will allow reasonable passage by persons, vehicles and vessels.
Division 6—Facility installation permits

21 Application for facility installation permit

(1) A carrier may apply to the ACMA for a permit authorising the carrier to carry out the installation of one or more facilities.

(2) The permit is called a facility installation permit.

22 Form of application

An application must be:
(a) in writing; and
(b) in accordance with the form approved in writing by the ACMA.

23 Application to be accompanied by charge

An application for a facility installation permit must be accompanied by the charge (if any) fixed by a determination under section 60 of the Australian Communications and Media Authority Act 2005 in relation to so much of the ACMA’s expenses in connection with dealing with the application as do not relate to the conduct of a public inquiry in relation to the permit.

24 Withdrawal of application

This Division does not prevent the withdrawal of an application and the submission of a fresh application.

25 Issue of facility installation permit

(1) After considering the application, the ACMA may issue a facility installation permit authorising the applicant to carry out the installation of any or all of the facilities specified in the application.

(2) The ACMA must not issue a facility installation permit unless the ACMA has held a public inquiry in relation to the permit.
Clause 26

(3) The ACMA may decide to refuse to issue a facility installation permit without holding a public inquiry in relation to the permit.

Note: An example of the operation of this subclause would be a case where the application does not disclose grounds on which the ACMA could issue the permit.

(4) If the ACMA decides to refuse to issue a facility installation permit, it must give the applicant a written notice setting out the decision.

(5) Clause 23 does not prevent a charge from being fixed by a determination under section 60 of the Australian Communications and Media Authority Act 2005 in relation to the holding of a public inquiry in relation to a permit.

26 Deemed refusal of facility installation permit

(1) If:

(a) the ACMA receives an application for a facility installation permit; and

(b) 10 business days pass and the ACMA has neither:

(i) notified the applicant in writing that the ACMA has decided to refuse to issue the permit; nor

(ii) notified the applicant in writing that the ACMA has decided to hold a public inquiry in relation to the permit;

the ACMA is taken, at the end of that period of 10 business days, to have decided to refuse to issue the permit.

(2) If:

(a) the ACMA receives an application for a facility installation permit; and

(b) 65 business days pass and the ACMA has neither:

(i) notified the applicant in writing that the ACMA has decided to refuse to issue the permit; nor

(ii) notified the applicant in writing that the ACMA has decided to issue the permit;

the ACMA is taken, at the end of that period of 65 business days, to have decided to refuse to issue the permit.

(3) The ACMA may, by written instrument, determine that subclause (2) has effect, in relation to a specified application for a
facility installation permit, as if a reference in that subclause to 65 business days were a reference to such greater number of business days, not exceeding 85 business days, as is specified in the determination. The determination has effect accordingly.

(4) In determining the validity of any action taken by the ACMA under Part 25 in relation to the holding of a public inquiry in relation to in a permit, regard must be had to the ACMA’s need to act with sufficient speed to meet the time limit imposed by subclause (2).

27 Criteria for issue of facility installation permit

Criteria

(1) The ACMA must not issue a facility installation permit that authorises a carrier to carry out the installation of one or more facilities unless the ACMA is satisfied that:

(b) the facilities are, or are likely to be, an important part of the telecommunications network to which the facilities relate; and

(c) any of the following conditions is satisfied:

(i) the greater part of the infrastructure of the telecommunications network to which the facilities relate has already been installed;

(ii) the greater part of the infrastructure of the telecommunications network to which the facilities relate has not been installed but each administrative authority whose approval was required or would, apart from Division 3, be required, for the installation of the greater part of the infrastructure of the network has given, or is reasonably likely to give, such approval;

(iii) no part of the infrastructure of the telecommunications network to which the facilities relate has been installed, but each administrative authority whose approval was required or would, apart from Division 3, be required, for the installation of the greater part of the infrastructure of the network has given, or is reasonably likely to give, such an approval; and
(d) the advantages that are likely to be derived from the operation of the facilities in the context of the telecommunications network to which the facilities relate outweigh any form of degradation of the environment that is likely to result from the installation of the facilities; and

(e) in a case where none of the facilities consists of a designated overhead line—the conditions set out in subclause (2) are satisfied; and

(f) in a case where any of the facilities consists of a designated overhead line—all the conditions set out in subclause (2A) are satisfied; and

(g) where the facility is proposed to be located near a community sensitive site, including residential areas, childcare centres, schools, aged care centres, hospitals, playgrounds and regional icons:
   (i) the community has been fully consulted, and wherever possible, has agreed to the facility; and
   (ii) alternative less sensitive sites have been considered; and
   (iv) efforts have been made to minimise electromagnetic radiation exposure to the public.

**Conditions relating to facilities other than designated overhead lines**

(2) For the purposes of paragraph (1)(e), the following conditions are specified:

(a) the carrier has made reasonable efforts to negotiate in good faith with:
   (i) each proprietor whose approval is required, or would, apart from Division 3, be required, for carrying out the installation; and
   (ii) each administrative authority whose approval is required, or would, apart from Division 3, be required, for carrying out the installation; and

(b) at least one of those approvals has not been obtained within 20 business days after the beginning of the negotiations concerned; and

(c) each administrative authority whose approval is required, or would, apart from Division 3, be required, for the installation of the line has given such an approval.

Networks of national significance

(3) In determining the matter set out in paragraph (1)(a), the ACMA must have regard to the following:

(b) the impact of the installation, maintenance or operation of the facilities on the environment;

(c) the objective of facilitating the timely supply of efficient, modern and cost-effective carriage services to the public;

(d) any relevant technical and/or economic aspects of the installation, maintenance or operation of the facilities in the context of the telecommunications network to which the facilities relate;

(e) whether the installation of the facilities contributes to the fulfilment by the applicant of the universal service obligation;

(f) whether the installation of the facilities involves co-location with one or more other facilities;

(g) whether the installation of the facilities facilitates co-location, or future co-location, with one or more other facilities;

(h) such other matters (if any) as the ACMA considers relevant.

*Long-term interests of end-users*

(6) For the purposes of this clause, the question whether a particular thing promotes the long-term interests of end-users of carriage services or of services supplied by means of carriage services is to be determined in the same manner as that question is determined for the purposes of Part XIC of the *Trade Practices Act 1974.*
Environmental impact

(7) In determining the matter set out in paragraph (5)(b), the ACMA must have regard to the following:

(a) whether the installation, maintenance or operation of the facilities:

   (xi) will have or is likely to have a significant impact on the environment in a Commonwealth marine area (as defined in the Environment Protection and Biodiversity Conservation Act 1999); or
   (xii) will have or is likely to have a significant impact on the environment on Commonwealth land (as defined in the Environment Protection and Biodiversity Conservation Act 1999);

(b) the visual effect of the facilities on streetscapes and other landscapes;
Clause 27

(c) whether the facilities are to be installed at any of the following places:
   (i) a declared World Heritage property (as defined in the Environment Protection and Biodiversity Conservation Act 1999);
   (ia) a declared Ramsar wetland (as defined in the Environment Protection and Biodiversity Conservation Act 1999);

(e) such other matters (if any) as the ACMA considers relevant.

Deemed approvals by administrative authorities

(8) The ACMA may, by written instrument, determine that this clause has the effect it would have if it were assumed that a specified administrative authority had given a specified approval for the installation of one or more specified facilities. The determination has effect accordingly.

Note: For specification by class, see section 46 of the Acts Interpretation Act 1901.

5 Declaration on ACMA’s initiative or in response to request

A declaration of a protection zone may be made:

(a) on the ACMA’s own initiative; or

(b) at the request of a person.

71 Matters the ACMA must have regard to before it makes a decision about a permit

In deciding whether to grant a non-protection zone installation permit, the ACMA must have regard to:
(a) the objective of facilitating the supply of efficient, modern and cost-effective carriage services to the public; and
(b) the impact of the installation on the environment; and
(c) any relevant technical and economic aspects of the
installation; and
(d) whether the installation involves co-location of the
submarine cable or cables to which the application relates
with one or more other submarine cables; and
(e) any other matters that the ACMA considers relevant.

72 Environment and heritage considerations

For the purposes of paragraph 71(b), the ACMA must have regard to:
(a) whether the installation, maintenance or operation of the
submarine cable:
   (i) is inconsistent with Australia’s obligations under a
listed international agreement; or
   (ii) could have an adverse effect on a listed threatened
species or threatened ecological community, or impede
the recovery of a listed threatened species or threatened
ecological community; or
   (iii) could have an adverse effect on a listed marine species;
   or
   (iv) could have an adverse effect on the environment,
including the environment within a Commonwealth
marine area; or
   (v) could have an adverse effect on cetaceans; or
   (vi) could have an adverse effect on a listed migratory
species; or
   (vii) could have an adverse effect on the National Heritage
values of a place included in the National Heritage List;
or
   (viii) could have an adverse effect on the ecological character
of a declared Ramsar wetland; or
   (ix) could have an adverse effect on the world heritage
values of a declared World Heritage property; or
   (x) could have an adverse effect on a place that Australia is
required to protect by the terms of a listed international
agreement; or
Clause 73

(xi) could have an adverse effect on an area that, under the law of the Commonwealth, a State or a Territory, is reserved wholly or principally for marine conservation purposes (however described); or

(xii) could have an adverse effect on an area that, under a law of the Commonwealth, a State or a Territory, is protected from significant environmental disturbance; and

(b) whether the submarine cable is to be installed at or near an area or thing that is of particular significance to Aboriginal persons, or Torres Strait Islanders, in accordance with their traditions; and

(c) such other matters (if any) as the ACMA considers relevant.

73 Time limit on decision about a permit

(1) The ACMA must decide whether to grant, or refuse to grant, a non-protection zone installation permit within 180 days after the day on which the application for the permit was made.

(2) The ACMA may extend, or further extend, the 180 day period by giving written notice to the applicant only if:

(a) the extension or further extension is for a period of not more than 90 days; and

(b) the notice includes a statement explaining why the ACMA has been unable to make a decision about the application within the 180 day period, or the 180 day period as previously extended.

(3) If the ACMA has requested further information about the application under clause 68, a day on which the request for information remains unfulfilled, or partly unfulfilled, is disregarded for the purposes of calculating the 180 day period or the 180 day period as extended.

74 Duration of permit

A non-protection zone installation permit is in force for a period of 18 months from the day the permit is granted.

544  Telecommunications Act 1997
75 **Surrender of permit**

The holder of a non-protection zone installation permit may, at any time, surrender the permit by written notice given to the ACMA.

76 **Extension of permit**

(1) Before a non-protection zone installation permit expires, the holder of the permit may apply to the ACMA to extend the duration of the permit for a further 180 days.

(2) The holder must give the ACMA reasons for requesting to extend the duration of the permit.

(3) If the ACMA refuses the application, the ACMA must give the holder written notice of the ACMA’s decision and the reasons for the decision.

77 **Suspension or cancellation of permit**

(1) The ACMA may suspend or cancel a non-protection zone installation permit by written notice to the holder of the permit, if the ACMA is satisfied that:

   (a) the holder has breached a condition to which the permit is subject; or

   (b) the holder has not complied with a condition of the Code of Practice in force under clause 15 of Schedule 3 that applies to the installation of submarine cables.

(2) Before a permit is suspended or cancelled under subclause (1):

   (a) the ACMA must give the holder 30 days’ written notice of the ACMA’s intention to suspend or cancel the permit and the ground or grounds on which the ACMA intends to do so; and

   (b) the ACMA must give the holder an opportunity to submit to the ACMA any matters that the holder wishes the ACMA to take into account in deciding whether to suspend or cancel the permit; and

   (c) the ACMA must take into account any matters submitted by the holder under paragraph (b) and any action taken by the holder to address the ACMA’s concerns or to prevent the recurrence of similar circumstances.
Division 4—Conditions applicable to the installation of submarine cables

78 Application of this Division
This Division applies to the installation of a submarine cable:
(a) in a protection zone; or
(b) in Australian waters, other than coastal waters of a State or Territory;
by or on behalf of a carrier.

Note: A Code of Practice made under subclause 15(1) of Schedule 3 may impose conditions in addition to the conditions imposed in this Division.

79 Installation to do as little damage as practicable
The carrier must ensure that all reasonable steps are taken to ensure that the installation causes as little detriment and inconvenience, and as little damage, as is practicable.

80 Management of installation activities
The carrier must ensure that all reasonable steps are taken:
(a) to act in accordance with good engineering practice; and
(b) to protect the safety of persons and property; and
(c) to protect the environment.

81 Compliance with industry standards
The carrier must ensure that the installation is done in accordance with any standard that:
(a) relates to installation; and
(b) is recognised by the ACMA as a standard for use in the telecommunications industry; and
(c) is likely to reduce a risk to the safety of the public if the carrier complies with the standard.
Clause 82

82 Compliance with international agreements

The carrier must ensure that the installation is done in a manner that is consistent with Australia’s obligations under a listed international agreement that is relevant to the installation.

83 Conditions specified in the regulations

The carrier must ensure that the installation complies with any conditions that are specified in the regulations.
Clause 84

Division 5—Offences in relation to installation of submarine cables

   (a) the person installs, or causes to be installed, a submarine cable; and
   (b) the cable is installed:
      (i) in Australian waters that are not in a protection zone and that are not coastal waters of a State or the Northern Territory; or
      (ii) in a protection zone; and
   (c) the person does not have a permit under this Part authorising the installation of the cable in the place in which it is installed.

Penalty: 200 penalty units.

(2) Strict liability applies to paragraph (1)(b).

Note: For strict liability, see section 6.1 of the Criminal Code.

(3) Subclause (1) does not apply to a person who installs a submarine cable on behalf of a carrier, if the carrier has a permit authorising the installation of the cable.

Note: The defendant bears an evidential burden in relation to the matters in subclause (3). See subsection 13.3(3) of the Criminal Code.

85 Breaching conditions of a permit

A carrier commits an offence if:
   (a) the carrier holds a permit under this Part authorising the installation of a submarine cable; and
   (b) the carrier, or a person acting on behalf of the carrier, engages in conduct; and
   (c) the conduct breaches a condition of the permit.

Penalty: 100 penalty units.
86 Failing to comply with ACMA direction to remove an unlawfully installed cable

(1) The ACMA may direct a carrier to remove a submarine cable if:
   (a) the carrier installed the submarine cable, or caused it to be installed, in a protection zone or in Australian waters without a permit under this Part authorising the installation; or
   (b) the carrier is installing the submarine cable, or causing it to be installed, in a protection zone or in Australian waters without a permit under this Part authorising the installation.

(2) A carrier who does not comply with a direction under subclause (1) commits an offence.

Penalty: 200 penalty units.

(3) The ACMA must not give a direction to a carrier under subclause (1) in relation to a submarine cable that the carrier installed, or began to install, before the commencement of this Schedule.
Clause 87

   (a) any property owned by the person; or
   (b) any property in which the person has an interest;
   there is payable to the person by the carrier such reasonable amount of compensation;
   (c) as is agreed between them; or
   (d) failing agreement—as is determined by a court of competent jurisdiction.

(2) Compensation payable under subclause (1) includes, without limitation, compensation in relation to:
   (a) damage of a temporary character as well as of a permanent character; and
   (b) the taking of sand, soil, water and other things.

(3) In this clause:

   court of competent jurisdiction, in relation to property, includes the Federal Court.

88 Compensation for acquisition of property

(1) If:
   (a) either of the following would result in an acquisition of property from a person:
      (i) anything done by a carrier under, or because of, this Schedule;
      (ii) the existence of rights conferred on a carrier under, or because of, this Schedule in relation to a submarine cable; and
   (b) the acquisition of property would not be valid, apart from this section, because a particular person had not been compensated;
Clause 88

the carrier must pay that person:
   (c) a reasonable amount of compensation agreed on between the person and the carrier; or
   (d) failing agreement—a reasonable amount of compensation determined by a court of competent jurisdiction.

(2) In assessing compensation payable under this clause arising out of an event, the following must be taken into account:
   (a) any compensation obtained by the person as a result of an agreement between the person and the carrier otherwise than under this clause but arising out of the same event;
   (b) any damages or compensation recovered by the person from the carrier, or other remedy given, in a proceeding begun otherwise than under this clause but arising out of the same event.

(3) This clause does not limit the operation of clause 87.

(4) In this clause:

   *acquisition of property* has the same meaning as in paragraph 51(xxxi) of the Constitution.
Clause 89

Part 5—Miscellaneous

(2) The ACA must give at least 14 days’ notice to the carrier of the ACA’s proposal to make the assessment based on the estimate, and of the amount of eligible return proposed to be assessed. The notice must be in writing.

(3) The ACA must not make an assessment based on an estimate after receiving a return for the year from the carrier concerned.
(4) However, if the ACA has made an assessment based on the estimate, the ACA is not required to change it if a return is later given to the ACA.

4 Nil assessments

The ACA may make an assessment under section 193 of the former law or item 3 of this Schedule that a participating carrier’s eligible revenue for the 1998-1999 financial year is nil if, in the ACA’s opinion, without such an assessment:

(a) it is unlikely that the carrier would be able to pay any levy that would be payable; or
(b) the carrier is unlikely to pay the levy unless the Commonwealth takes action to recover it and the cost of doing so would exceed the amount of the levy.

Note: However, the ACA could later amend a nil assessment under section 195 of the former law.

5 Distributions before all levies have been paid

Despite paragraph 215(b) of the former law, an amount is payable from the Universal Service Account for the 1998-1999 financial year even if all of the participating carriers in respect of which the levy was assessed have not yet paid the levy.

6 Working out how much levy is payable

(1) If the total of the amounts payable to carriers out of the Universal Service Account is more than the balance of the Universal Service Account, after paying any refunds that are due under section 208 of the former law, the ACA must:

(a) work out the amount payable to each carrier as a proportion of the total amounts payable; and
(b) ensure that any payments out of the Universal Service Account are made in accordance with those proportions (rounding amounts to whole dollars as the ACA considers appropriate).

(2) However, if the Minister determines in writing a different method for making payments out of the Universal Service Account than the method provided in subitem (1), the ACA must act in accordance with that determination.
Table A

(3) A determination under subitem (2) is a disallowable instrument for the purposes of section 46A of the *Acts Interpretation Act 1901*.

(4) A carrier’s levy credit balance for the 1998-1999 financial year is reduced by the amount (worked out under this item) that is paid to the carrier.

(5) This item continues to apply until each carrier’s levy credit balance for the year is reduced to nil.

60 Saving—secondary disclosure/use offences

Despite the repeal of section 298 of the Telecommunications Act 1997 made by this Act, that section continues to apply after the commencement of this item in relation to disclosures made before or after that commencement as if that repeal had not been made.

61 Saving—record keeping

63 Transitional—delivery points

(1) This item applies in relation to a delivery point (the old point) in force, immediately before the commencement of this item, in respect of a carriage service of a carrier or carriage service provider and of an agency under section 314A of the Telecommunications Act 1997.
