VARIATION TO LICENCE AREA PLAN

TAREE

(RADIO)

DECEMBER 1998
The Australian Broadcasting Authority hereby varies the licence area plan (LAP) for radio services in the Taree area of New South Wales, determined on 8 October 1998, under subsection 26(2) of the *Broadcasting Services Act 1992*.

The variation comprises the variation of technical specifications for a community radio service designated by the technical specification number TS10008623, as set out below:

<table>
<thead>
<tr>
<th>Category of Service</th>
<th>Service Licence No:</th>
<th>Transmitter Specification No:</th>
<th>Technical Specifications</th>
<th>General Area Served by Transmitter</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>Community</td>
<td>SL1823</td>
<td>TS10008623</td>
<td>See attachment 2.2.1</td>
<td>Taree</td>
<td>Vary</td>
</tr>
</tbody>
</table>

The technical specification set out in Schedule Two at Attachment 2.2 of the licence area plan is deleted.

The varied technical specification now applicable to this service is set out in Schedule Two at Attachment 2.2.1 to this instrument.
SCHEDULES

Each of the Schedules sets out:

- the category of each of the services that are to be available in that area (column one).
- The status of the service (column two) does not form part of the licence area plan decision and is included for reference only.
- The frequency for each transmitter (column three) does not form part of the licence area plan decision and is included for reference only.
- the service licence number which has been allocated to the service, if appropriate (column four); N/A = Not Applicable, as the Broadcasting Services Act 1992 only requires service licences for Commercial and Community services.
- the number of transmitters required to transmit the service,
- the transmitter specification number which has been allocated to each transmitter (column five),
- the identifying number of the attachment where the technical specifications for each transmitter are described (column six). (Each set of technical specifications referred to in the Schedules is an attachment to this determination).
- the general area served by each transmitter (column seven).

Status Column

Licensed : service is already licensed
Available : new licence available for allocation
Proposed : transmitter for existing broadcasting service licence
Alternative : alternative channel proposed for licensed service
Reserved : capacity reserved for a national or community service in accordance with Ministerial notification

Frequency Column

- The frequency shown is the centre frequency of the channel.
For ease of reference, the Schedule affected by this variation to the LAP has been updated to reflect the variation to the plan.
