I, Nick Rayns, Executive Manager Fisheries, acting as a delegate of the Australian Fisheries Management Authority, make the following determination under subsection 42 (1) of the Fisheries Management Act 1991.

Dated 1 December 2005
Nick Rayns

Executive Manager Fisheries of the
Australian Fisheries Management Authority

Citation
1. This determination may be cited as the NT01 Determination 2005.

Commencement
2. This determination commences on the day after it is registered on the Federal Register of Legislative Instruments.
Interpretation

3. In this determination:

“Southern and Eastern Scalefish and Shark Fishery” means all commercial fishing under a concession for the Southern and Eastern Scalefish and Shark Fishery in the sectors defined in Schedule 1 Part 2 (1) of the Southern and Eastern Scalefish and Shark Fishery Management Plan 2003.

[Note: Terms defined in the Fisheries Management Act 1991 have the same meanings in this determination.]

Determination

4. That NT01 (at Attachment A) be the form and content of logbook required for holders of relevant fishing concessions in the Southern and Eastern Scalefish and Shark Fishery.

5. That relevant concession holders in the Southern and Eastern Scalefish and Shark Fishery must keep and maintain the Commonwealth Gillnet Daily Fishing Log (NT01).

Commonwealth Gillnet Daily Fishing Log – NT01

General Information and Instructions for Holders of Fishing Concessions

**Purpose**

This logbook is to be used when gillnetting in Commonwealth Fisheries. It is designed to provide a continuous record of gillnet fishing operations undertaken by Commonwealth fishing concession holders. Accurate data collected in this logbook is essential to provide information for research into and management of Australian fisheries.

**Important Information and Instructions**

**Completing the logbook**

- This logbook must be completed for every day that the fishing concession is in force, regardless of whether or not fishing takes place on that day (see the “How to Complete” section).
- All logbook information must be recorded on a sheet by sheet end only basis and details for the last day of the trip must be recorded before the boat docks at the end of each trip.
- No carbon paper is required when completing these forms. Please use a ballpoint pen and place the fold-out flap under the blue page to prevent marking the lead set of forms.

**Location of the logbook**

- This logbook must be kept on board the boat that is nominated in respect of the fishing concession and named on the front of the logbook during fishing operations.
- This logbook must remain within a 50 metre radius of the boat.

**Who should use this logbook?**

- The holder of the fishing concession is responsible for ensuring that this logbook is completed and that it is certified as complete and correct. Alternatively, the holder can ensure these things are done on their behalf by a person authorised in writing to do so by the fishing concession holder in the approved form. Contact AFMA on phone 02 6272 5029 for details of how to authorise another person to complete the logbook.

**Submitting logsheets**

This logbook contains numbered pages in duplicate which are referred to as logsheets. Original copies must be returned to AFMA in date order in either the reply paid envelope provided or posted to:

The Logbook Co-ordinator
Australian Fisheries Management Authority
BOX 7051
Canberra Business Centre ACT 2610

For quota managed fisheries and/or fisheries that require the completion of a catch disposal record (CDR) the original copies of logsheets must be returned with the CDR for that trip within the time stipulated in the CDR instructions. For the Small Pelagic Fishery (SPF) the original copies of logsheets must be returned within 7 days of the completion of each fishing trip.

For all other fisheries the original copies of logsheets must be returned by the 14th day of the following month, e.g. logsheets for March are due by the 14th of April.

All duplicate copies of logsheets should be retained.

**Penalties**

Concession holders and authorised persons completing this logbook on their behalf are advised that:

(i) a failure by a concession holder to ensure the completion of the logbook in accordance with these instructions;
(ii) the giving of false or misleading information in the logbook by the concession holder or an authorised person completing the logbook on their behalf; or
(iii) the recording or communicating by the concession holder or anyone else of information in a logbook concerning the affairs of another person, or the giving by the concession holder or anyone else to another person of a part of a logbook in which information is recorded (unless the recording, communicating or giving is done in accordance with the Fisheries Management Act 1981, Fisheries Administration Act 1991 or the Fisheries Management Regulations 1992 or an order of court, tribunal or a person authorised to receive evidence) may constitute serious offences under Commonwealth law.

Concession holders are also advised that failure to ensure the completion of the logbook in accordance with the instructions may lead to suspension or cancellation of their concession.

**Help Available**

There is an example of a completed logsheet and further information and instructions about how to complete the logbook at the front of this logbook. If you have any questions or problems, please contact an AFMA Logbook Officer on (02) 6272 5029.

Commonwealth Gillnet Daily Fishing Log – NT01

Instruction Page

**Vessel, Gear and Contact Details**

The Vessel, Gear and Contact Details Form should be completed by the Concession Holder or Authorised Person and submitted to AFMA within 14 days of receipt of the logbook. A second Vessel, Gear and Contact Details Form is located in the middle of the logbook. Please complete and submit this form if any of the vessel and/or gear details change, or if the authorised person for the vessel logbook has changed.

**Catch and Effort Log Page**

When fishing, record details on a shot by shot basis.

**Page Header**

Enter the Boat Name, Distinguishing Symbol and Prior Landing Number here.

**Trip Date**

On the first sheet used for a trip record the date of departure, on the last page used for a trip record the date of return.

**Non-Fishing Period**

If you are not fishing for a period within the month(s), please specify the dates during which you did not work. This will reduce the number of logbooks needed to account for every day your fishing concession is valid. Do not use single pages for single sequential non-fishing days.

**Non-Fishing Code**

Circle the reason why you were not working during the indicated dates. If you were operating in another fishery please write in the name in the space provided.

**Fishery**

Circle the code for the fishery/bay you are operating in, GHT (Gillnet, Hook and Trap) or SESSF or others. If other fill in the space provided e.g. High Seas (HS).

- Subject to the concession conditions, if during the one trip you have operations from one fishery to another you must start a new logpage and circle the new fishery.

**Fishing Details**

Date

Each column refers to one fishing shot. Record the date for each shot.

Start Fishing Time

Record the time when starting to shoot each shot.

Start and End Position

Record a start and an end latitude and longitude that represent the area that your gear is set between.

Start Haul Time

Record the time when starting to haul each shot.

End Fishing Time

Record the time when hauling ends for each shot.

Minimum and Maximum Depth

Circle depth units (metres or fathoms) and record the maximum and minimum of the depth range fished.

Mesh Size

Record the mesh size in millimetres used for each shot.

Total Net Length

Record the length in metres of net used for each shot.

Net Height

Record the height in metres of the net.

Total Length of net lost

Record the total length in metres of net lost for each shot.

Continued on next page
Catch Details

Target Species
Place a tick in the space provided to show the main target species you were trying to catch for the day. It is important that you specify what species you were trying to catch rather than what species you ended up catching.

Catch Weight
For each species caught and retained you must record the estimated weight (kg) kept.

Catch Number
This is voluntary but is very useful to determine whether there has been a change in average fish size over time. NOTE: Shark numbers must be recorded.

Format Code
If the estimated weight you recorded refers to fish that have been processed in line with concession requirements record the appropriate form code. GG = Gilled and Gutted, HG = Headed and Gutted, F = Filleted, TR = Trunked (shark).

Discard Weight
For each species caught and not retained record the estimated weight (kg) discarded.

Discard Code
For each discarded species indicate the reason(s) they were not kept using discard codes. NO = No Catch, MP = Market Price, US = Under Size, UM = Un-Marketable, DM = Damaged, TL = Trips Limit.

Other Species - If any species are caught that are not listed on the logsheet provide their names in the blank spaces provided and record the estimated weights (kg) and form/discard codes for retained and discarded catch. Please be species specific and avoid recording fish as “mixed fish.”

Listed Marine and Threatened Species
Please circle YES or NO to indicate if your gear came into contact with or caught a listed marine or threatened species.

If you did have an interaction with a listed marine or threatened species please complete the Listed Marine and Threatened Species Form at the back of this logbook and submit it with the relevant log page.

Time Box
All Commonwealth Departments are required to have time boxes included on their forms. This initiative forms a part of the Government’s regulatory reform strategy to reduce the paperwork and compliance burden on business.

Comments
This section is provided for any further information that you think may be important such as gear failure, weather, damaged fish, size of fish, loss of catch to sharks etc.

Signature and Date Box
Each logsheet requires the date and signature of the Concession holder or Authorised Person (person authorised to act on behalf of the concession holder). The signature verifies that the information recorded in the logbook is an accurate record of the fishing operation including estimated landed weights.

Comments

Is there anything else that you believe to be important information, for example: Female, male, adult, juvenile? Where was the animal targeted (gillnet, longline, entanglement, etc.)? How was the animal released (by hook, line, hand, hand, longline, etc.)?

I certify the information, which I have provided on this form to be a complete and accurate record.

Please Remember

- In this logbook you must account for every day that your Fishing Concession is in force, regardless of whether or not you fish on that day.

- This logbook should be on your vessel and completed daily while you are fishing. The details for a shot must be recorded before hauling the next shot. Details for the last shot of the trip must be completed before the vessel enters port.

Gillnet Fishing Daily Fishing Log – NT01
Listed Marine and Threatened Species List

Under the Environment Protection and Biodiversity Conservation Act 1999 the following species are listed as protected. This list is current at the date of publishing. For further information about Listed Marine and Threatened Species or to check updates to these lists please go to www.deh.gov.au.

Please be as specific as you can with regard to the species identification.

**LISTED MARINE SPECIES**

**Fish**
All species of Syngnathid (Pipefish, Seahorse & Sea Dragon).

**Marine Reptiles**
All species of Turtle, Sea Snake and Crocodile.

**Seals**
All species of Seal and Sea Lion.

**Cetaceans**
All species of Dolphin, Whale, Porpoise and Dugong.

**Sea Birds**
All species of Seabird.

**THREATENED FISH SPECIES**

Grey Nurse Shark (*Carcharias taurus*) - East and west coast population
Speartooth Shark (*Glyphis sp. A*)
Northern River Shark (*Glyphis sp. C*)
Great White Shark (*Carcharodon carcharias*)
Freshwater Sawfish (*Pristis microdon*)
Whale Shark (*Rhincodon typus*)

Federal Register of Legislative Instruments F2005L03998
