I, Nick Rayns, Executive Manager Fisheries, acting as delegate of the Australian Fisheries Management Authority, make the following Determination under subsection 42(1) of the Fisheries Management Act 1991.

Dated 6 December 2005

Nick Rayns
Executive Manager
Australian Fisheries Management Authority

Citation

1. This determination may be cited as the GAB2B Determination 2005.

Commencement

2. This determination commences on the day after it is registered on the Federal Register of Legislative Instruments.
Interpretation

3. In this determination:

[Note: Terms defined in the Fisheries Management Act 1991 have the same meanings in this determination.]

Determination

4. That the Great Australian Bight Trawl Fishery Catch Disposal Record (GAB2B) (at Attachment A) be the form and content of Catch Disposal Record (CDR) required for holders of relevant fishing concessions in the Southern and Eastern Scalefish and Shark Fishery.

5. That relevant concession holders in the Southern and Eastern Scalefish and Shark Fishery must keep and maintain the Great Australian Bight Trawl Fishery Catch Disposal Record (GAB2B)
Great Australian Bight Trawl Fishery
Catch Disposal Record

Commonwealth of Australia
Fisheries Management Act 1991

GAB2B

Boat Name: 

Logbook No: 
Great Australian Bight Trawl Fishery Catch Disposal Record (GAB2B)
Fisheries Management Act 1991

About this Catch Disposal Record
- This GAB2B Catch Disposal Record is designed to record verified information about fish catches.
- It does not replace the requirement to complete daily catch and effort logbooks.
- Information supplied on this Catch Disposal Record will be used for fisheries management purposes. AFMA may release data on specific returns in connection with the investigation and prosecution of offences against the Fisheries Management Act 1991 and associated legislation or under a court order.

Who must complete this Catch Disposal Record
- Parts A and B must be completed by the fishing concession holder (the holder) or an authorised representative, for any boat in respect of which a fishing concession has been issued which requires the completion of this Catch Disposal Record.
- An authorised representative is a person who has been nominated by the holder to complete logbook documents on behalf of the holder. The holder must complete and lodge with AFMA the appropriate nomination form. Note: all further references in this Catch Disposal Record to holders should be taken to also be references to an authorised representative.
- Part C must be completed by the fish receiver (the fish receiver) immediately upon receipt of the fish and before the fish are placed with any other fish that are not part of the consignment.

If you have any queries about completing this Catch Disposal Record please contact AFMA Data Processing on (02) 6272 5039.

When must this Catch Disposal Record be completed?
Except where the fish are received by an "exempt fish receiver", the holder must accurately examine the weight of the fish and complete Parts A & B of the Catch Disposal Record for every fishing trip and for all species immediately after unloading and before the consignment to which the Catch Disposal Record relates is moved more than 50 metres from the point of unloading. Where the receiver of the catch is located within 50 metres of the point of unloading, the holder must complete Parts A & B before the fish are taken onto the fish receiver's premises.

- Exempt fish receiver - where the fish is being received by an "exempt fish receiver":
  - the Catch Disposal Record must accompany the consignment to the fish receiver's premises to be completed. Once the Catch Disposal Record is completed for the consignment, and taking into account the holder's obligations in regard to the lodgement of the Catch Disposal Record, the book must remain on board the boat or within 50 metres radius of the boat.
  - where fish are received by an exempt fish receiver, the receiver must accurately weigh the fish immediately on receipt at the premises and complete Part C of the Catch Disposal Record. Holders who have not already completed Part B must do so at the 'exempt fish receiver' immediately once the fish are weighed. Once the holders obligations in regard to completion and lodgement of the Catch Disposal Record are completed, the book must be returned from the exempt fish receiver's premises to onboard or a premises within 50 metres radius of the boat.

- Two or more receivers - if a catch is split between two or more receivers, the holder must complete a separate Commonwealth Catch Disposal Record for the consignment of fish going to each receiver.

- Completing transit forms - where more than one vessel is used to carry a consignment of fish from a vessel to a receiver, the holder must complete a transit form as detailed in the fishing concession condition, and the last vessel shall carry the Catch Disposal Record, except where the fish are being received by an "exempt fish receiver".

- Releasing the Catch Disposal Record - where the fish are not being transported to an "exempt fish receiver", the holder must retain this Catch Disposal Record at all times either at the vessel that delivered the consignment of fish or on board every boat or within 50 metres radius of the boat until the book is completed. Once completed, the holder must keep the book for a minimum of two years and make it available to AFMA on request.

- Take-home packs - any fish kept for private or domestic use, consistent with the holder's fishing concession conditions, must be recorded in the comments box of the GAB2B Catch Disposal Record for the relevant trip by entering the words 'take-home pack' and the species and total weight of fish. If there is insufficient room in the comments box of the GAB2B Catch Disposal Record for that trip the holder must complete a separate GAB2B Catch Disposal Record Parts A and B and enter the words 'take-home pack' in the comments box of that record to identify the fish as 'take-home packs'. The holder must return Parts A, B and C to AFMA.

Where and how must the forms be submitted?
Note: As each page of this Catch Disposal Record is numbered, any spoiled or incorrectly completed forms must be clearly marked 'cancelled' and returned to AFMA.

- White copy – unless disputed to be lodged at a location specified by an authorised AFMA officer (as defined in section 4(1) of the Fisheries Management Act 1991) and entered in the white copy of AFMA within seven calendar days of the consignment being unloaded.
  - the authorised person completing the form must sign it to certify that all the details are correct on the date of unloading prior to dispatch of the consignment. Holders should not delay lodging or forwarding forms because they are trying to obtain additional space to cover fish already caught.

- Green copy – must remain in this book and be made available to authorised officers upon request.

- Blue and Yellow copies – the holder is responsible for ensuring that true and authentic copies accompany every consignment of fish that is transported to the receiver.
  - If more than one consignment of fish is sent from one unloading to one receiver, a separate Catch Disposal Record must be completed for each consignment.

FAILURE TO SUPPLY A COMPLETE AND ACCURATE CATCH DISPOSAL RECORD FOR ALL FISH LANDED IS AN OFFENCE. 

*Note: an "exempt fish receiver" is a fish receiver whose premises are located within 500 metres of the point at which the boat unloads and who has been granted an exemption by AFMA.

All other requirements of this Catch Disposal Record apply to exempt fish receivers.

## Instructions for Fishers

More detailed instructions are located on the front of the writing template.

When completing Parts A and B of this form:

- **Recording daily catch and effort book:**
  - Record the book and page numbers for this trip.
  - If you completed Pages 1, 2, and 3 of Logbook 134A, in the space above enter Book No. 134A. Page No. from 1 to 3. If you used more than one logbook, enter the numbers in the separate boxes.

- **Lodging forms:**
  - Fishers, after completing this form:
    - Lodge the white copy with AFMA.
    - Leave the green copy in the book.
    - Send the blue and yellow copies with the fish to the receiver of the fish.
  - Entering the area - if applicable, enter the 'Region' from which the catch was taken.
  - Form code - a form code MUST BE entered for each species.

### Form Codes:

- **Boilfish:**
  - CO = grilled and gutted, F = filleted, W = whole,
  - G = gutted, HG = headless and gutted
  - Shrimp only:
    - TR = trawled
    - PE = pealed with belly flaps removed

### Warning to Fishers

An infringement notice may be issued or other prosecution action taken if the concession holder or authorised representative fails to complete and lodge this form in accordance with these instructions.

*In line with government policy of Commonwealth forms to be completed by small business must indicate a time box indicating the length of time the form took to complete.*

**Instructions for Fishers**

More detailed instructions are located on the front of the writing template.

When completing Parts A and B of this form:

- Recording daily catch and effort logbook book and page numbers:

  Record the book and page numbers for this trip, eg. if you completed pages 1, 2 and 3 of Logbook 1234, in the spaces above enter Block No. 1234, Page No.s from 1 to 3. If you use more than one logbook, enter the numbers in the separate boxes.

- Lodging forms:
  - Fishers, after completing this form -
    - lodge the white copy with AFMA
    - leave the green copy in this book
    - send the blue and yellow copies with the fish to the receiver of the fish.
  - Entering the area - if applicable, enter the "Region" from which the catch was taken.

- Form code - a form code MUST BE entered for each species.

**Instructions for Fish Receivers**

More detailed instructions are on the back of the yellow form.

When completing Part C of this form:

- Enter your name (or company name) as on your Fish Receiver Permit.
- Enter your Fish Receiver Permit number, address, and the date on which the fish were received.
- Enter the weight of the fish received in kilograms (kgs).

**Note:** The total amount of a single non-quota species is less than 100kgs, this species may be combined with another non-quota species of the same or less weight (ie 100kgs) and be recorded under the category of 'other fish'. Where the total amount of a single non-quota species exceeds 100kgs, that species must be recorded individually in the 'Other Species' section. All quota species must be recorded separately and not mixed with any other species.

**Form Codes:**

- **Sailfish**: GC = gilled and gutted, F = filleted, W = whole, G = gutted, HG = headed and gutted

- **Shark only:** TR = trunked, FB = trunked with belly flaps removed

- Enter the number of shark carcasses in the consignment (if applicable)

- Send the completed blue copy to APFMA within 3 calendar days of the date you received the fish.

**ADVISORY NOTE:** You are legally required to provide all the information required in this form.

Federal Register of Legislative Instruments F2005L04009
Instructions for Fishers

Using this Catch Disposal Record book

- There are three parts to this Catch Disposal Record book – Parts A, B and C.
- The fishing concession holder/the holder must complete all sections of Parts A and B (the white copy of the form) at the end of every fishing trip.
- To complete these sections, please use the writing template under the yellow page to prevent smearing the next set of forms.
- Make corrections in blue or black felt tip pen only.
- No carbon paper is required when completing these forms.
- A new book will be issued to you just before you finish your current one – use all of the current book before using the new book. If you do require a new book you should contact AFMA Duty Enquiry on (03) 8277 5279.
- Note: The holder must only dispose of fish to the holder of a current AFMA Fish Receiver Permit. Before disposing of a consignment of fish to a receiver, the holder must complete a separate Catch Disposal Record page for each consignment of fish sent to a receiver.

Compiling this Catch Disposal Record book

Part A

- Boat Name – enter the name of the boat the fish were caught from.
- Distinguishing Symbol – enter the distinguishing symbol of the boat the fish were caught from.
- Fishery – circle or write in which fishery you are operating in.
- Method – enter what method you are using to catch fish (eg demersal net, mid water trawl).
- Conservation number – enter the number of the fishing concession you are fishing out. This is the number of your Statutory Fishing Right, Fishing Permit or Foreign Fishing Licence.
- Duration of Trip – enter the duration of the trip. For example, a boat leaves to fish on 26 March 2000 and returns on 1 April 2000, fill this section in as 02/03/00 to 01/04/00.
- Date/time of Unloading – enter the date and time at which unloading commenced.
- Port of Unloading – enter the port of unloading (eg Alcoa, Gladstone, Albany).
- Receiver/concession holder name – enter the name of the receiver or the holder of this consignment here. A consignment is defined as the whole or part of the catch taken from a single unloading and sent to a single fish receiver.
- Prior morning – to be completed by fisher in accordance with permit conditions.
- Method used to determine average weight – enter the method used to determine the average weight (eg no. of boxes, trawl scales etc).
- Total weight of consignment – enter the total weight of the consignment.
- Type of vessel – if the fish has been transported from the boat to the receiver, enter the type of vessel (eg Mauds trust).
- Number of vehicles used – if more than one vehicle, circle the appropriate number. You must send a separate transport form with each load.
- Type of goods – enter the type of goods (eg fish, fish by-products).
- Diesel consignment left from point of unloading – enter the date and time the consignment left from the point of unloading.
- Daily catch and effort logbook page numbers – enter the daily catch and effort logbook page numbers relevant to the pages of this Catch Disposal Record. For example, if you are using only one number and effort logbook page 1384 and page 152 and 39 of the logbook relate to the catch that you are recording in your Catch Disposal Record then you must fill out this box with the details of the book and page numbers for the logbook.
- Time to complete form – enter an estimate of the time taken to complete this form.

Part B

- Species/species code – these have been pre-printed in order based on the species order contained in the Southern and Western Fishery Trawl Daily Fishing Log (SM1T1). Where one or more species are not pre-printed on the page, individual species catch details should be entered in the ‘Other Species’ box.
- Kilos of fish – where the fish have not been processed in any way, enter the individual average weight of all the whole fish of the individual species landed. Where fish have been processed on board the boat, enter the weight received in kilograms of each individual species after processing. Where only part of the estimated catch has been informed or transported on board, a separate entry for the processed part of the species should be made in the ‘Other Species’ box. You should identify individual species, eg rock ling must be identified as rock ling and not ling.
- Farm Code – for each species caught, enter the farm code specified on the Catch Disposal Record page, in: W = Whitby, H = Heads and Scibos.
- Note: where the total amount of a single non-quota species is less than 10kg, this species may be combined with another non-quota species of the same or less weight (5kg) and recorded under the category of ‘other fish’. Where the total amount of a single non-quota species exceeds 10kg, that species must be recorded individually in the ‘Other Species’ section. All quota species must be recorded separately and not mixed with any other species.
- Shark Carcasse No. – if applicable, enter an accurate count of carcass numbers for all shark landed.
- Artefact/What fish (if applicable) – to be completed for species managed as separate geographic stocks.

Submitting copies of Catch Disposal Records:

- White copy – you must complete and forward this copy to AFMA, or at a location specified by an authorised AFMA officer (as defined in Section 4(1) of the Fisheries Management Act 1991), within 3 calendar days of the consignment being unloading.
- When forwarding to AFMA, please send to Data Processing, Australian Fisheries Management Authority, Box 705, Canberra BC ACT 2601.
- Green copy – you must retain this copy in the book for your records. It must be available to AFMA Officers if requested.
- Blue and yellow copies – you must send these copies with every consignment of fish in transit and lodge them with the fish receiver. Note that these copies are highly valued together so that they will not become separated in transit.
- Fax – if you are required to lodge your catch disposal reports by fax please ensure the sheet is reduced to include the whole record or alternatively fax the sheet in 2 stages. Fax the section above the dotted line (see record pages) first followed by the section below the dotted line.

GA2B Catch Disposal Record
Instructions for Fish Receivers

To receive fish from a person who is required to complete the Catch Disposal Record, you must be the holder of a current AFMA Fish Receiver Permit.

Where you have received fish from such a person, you should resolve blue and yellow copy of the Catch Disposal Record. These forms will contain information on the boat name, landing date and place of unloading.

You must also maintain records as detailed in your permit.

Immediately upon receipt of the fish, before any of the fish are processed, and before placing the fish with any other fish that are not part of the consignment, you must weigh the fish accurately and complete all sections of Part C of the Catch Disposal Record. You are legally required to provide this information for all species received.

Completing Part C

You must provide details for each consignment of fish as follows:
- Name - enter your name or, if applicable, the name of your company as on your Fish Receiver Permit.
- FRP No. - enter your Fish Receiver Permit number.
- Address - enter your address or, if applicable, the address of your company.
- Date fish received on - enter date when the consignment was received.
- KGS OF FISH
  - Where the fish have not been processed in any way, enter the individual accurate weight of all the whole fish received of each individual species.
  - Where fish have been processed on board the boat, enter the weight received in kilograms of each individual species after processing.
  - Where one or more species are netlisted, provide individual species catch details in the "Other Species" box in Part C.
- Form Code - for each species received, enter the appropriate form code.
  - Form codes are: C0Complied and gutted, C1Filleted, C3Whole, C6Gutted, C7Gutted and gutted, S6Shark only: T5Trunked, P5Partlabeled with belly fins removed.
- Shark carcasses No. - if applicable, enter the number of shark carcasses received.
- Comments - enter any comments you may have in relation to this consignment.
- Certification - complete and sign this part to certify accurate completion of the Catch Disposal Record.

Lodging Catch Disposal Records

Yellow copy: you must retain the yellow copy of the Catch Disposal Record for your own records for a minimum period of five years.

Blue copy: you must retain the completed blue copy of the Catch Disposal Record to AFMA within 3 calendar days of the date on which you receive the fish. Please send the form to:

Data Processing
Australian Fisheries Management Authority
Box 7161
Canberra BC ACT 2601

Fax: If you are required to lodge your catch disposal records by fax please ensure the sheet is reduced to include the whole record or alternatively the sheet in 2 stages. Fax the section above the dotted line (see record pages) first followed by the section below the dotted line.

What penalties apply in relation to these Catch Disposal Records?

- The Court can impose maximum penalties of:
  - $27,500: upon conviction for the offence of not providing the required information, with a similar penalty for not forwarding returns within the required time.
  - Imprisonment for up to 12 months upon conviction for the offence of providing information in a record, report, return or other document that is false or misleading in material particular.

If you have any queries about completing this Catch Disposal Record please contact AFMA Data Processing on (02) 6272 3529.
