Statement of Principles
concerning

DERMATOMYOSITIS

No. 52 of 2005

for the purposes of the

Veterans’ Entitlements Act 1986
and
Military Rehabilitation and Compensation Act 2004

Title
1. This Instrument may be cited as Statement of Principles concerning dermatomyositis No. 52 of 2005.

Determination
2. The Repatriation Medical Authority under subsection 196B(3) and (8) of the Veterans’ Entitlements Act 1986 (the VEA):
   (a) revokes Instrument No. 16 of 2005; and
   (b) determines in its place this Statement of Principles.

Kind of injury, disease or death
3. (a) This Statement of Principles is about dermatomyositis and death from dermatomyositis.
   (b) For the purposes of this Statement of Principles, “dermatomyositis” means a chronic inflammatory disease of skeletal muscle characterised by progressive and often symmetric muscle weakness and occurring in association with, or following, characteristic inflammatory skin changes.
Basis for determining the factors

4. On the sound medical-scientific evidence available, the Repatriation Medical Authority is of the view that it is more probable than not that dermatomyositis and death from dermatomyositis can be related to relevant service rendered by veterans or members of the Forces under the VEA, or members under the Military Rehabilitation and Compensation Act 2004 (the MRCA).

Factors that must be related to service

5. Subject to clause 7, at least one of the factors set out in clause 6 must be related to the relevant service rendered by the person.

Factors

6. The factor that must exist before it can be said that, on the balance of probabilities, dermatomyositis or death from dermatomyositis is connected with the circumstances of a person’s relevant service is:

(a) having a malignant neoplasm, other than non-melanotic malignant neoplasm of the skin, within five years of the clinical onset of dermatomyositis; or

(b) inability to obtain appropriate clinical management for dermatomyositis.

Factors that apply only to material contribution or aggravation

7. Paragraph 6(b) applies only to material contribution to, or aggravation of, dermatomyositis where the person’s dermatomyositis was suffered or contracted before or during (but not arising out of) the person’s relevant service.

Inclusion of Statements of Principles

8. In this Statement of Principles if a relevant factor applies and that factor includes an injury or disease in respect of which there is a Statement of Principles then the factors in that last mentioned Statement of Principles apply in accordance with the terms of that Statement of Principles as in force from time to time.
Other definitions

9. For the purposes of this Statement of Principles:

“death from dermatomyositis” in relation to a person includes death from a terminal event or condition that was contributed to by the person’s dermatomyositis;

“relevant service” means:
(a) eligible war service (other than operational service) under the VEA; or
(b) defence service (other than hazardous service) under the VEA; or
(c) peacetime service under the MRCA;

“terminal event” means the proximate or ultimate cause of death and includes:
(a) pneumonia;
(b) respiratory failure;
(c) cardiac arrest;
(d) circulatory failure; or
(e) cessation of brain function.

Application

10. This Instrument applies to all matters to which section 120B of the VEA or section 339 of the MRCA applies.

Date of effect

11. This Instrument takes effect from 28 December 2005.

Dated this fifteenth day of December 2005

The Common Seal of the
Repatriation Medical Authority
was affixed to this instrument
in the presence of:

KEN DONALD
CHAIRPERSON
