Part A INTRODUCTION

1 *Legislative Authority*

This document is relevant to all reporting Entities covered by:

- s49 of the *Financial Management and Accountability Act 1997*; or
- Clause 2 of Schedule 1, to the *Commonwealth Authorities and Companies Act 1997*.

The Schedule, policy and guidance contained in this document apply to all financial reporting periods ending on or after 1 July 2006, until withdrawn or replaced.

The Minister for Finance and Administration (Finance Minister) makes:

- the *Financial Management and Accountability Orders 2005* under subsection 63(1) of the *Financial Management and Accountability Act 1997* (FMA Act); and
- the *Commonwealth Authorities and Companies Orders (Financial Statements for periods ended on or after 1 July 2006)* under subsection 48(1) of the *Commonwealth Authorities and Companies Act 1997* (CAC Act).

These Orders include a Schedule 1, which sets out the actual reporting requirements, part of the applicable Financial Reporting Framework for Australian Government Reporting Entities. Schedule 1 comprises the black letter of this document.

The applicable Financial Reporting Framework for Australian Government Reporting Entities also comprises and requires Entities to:

(a) comply with:

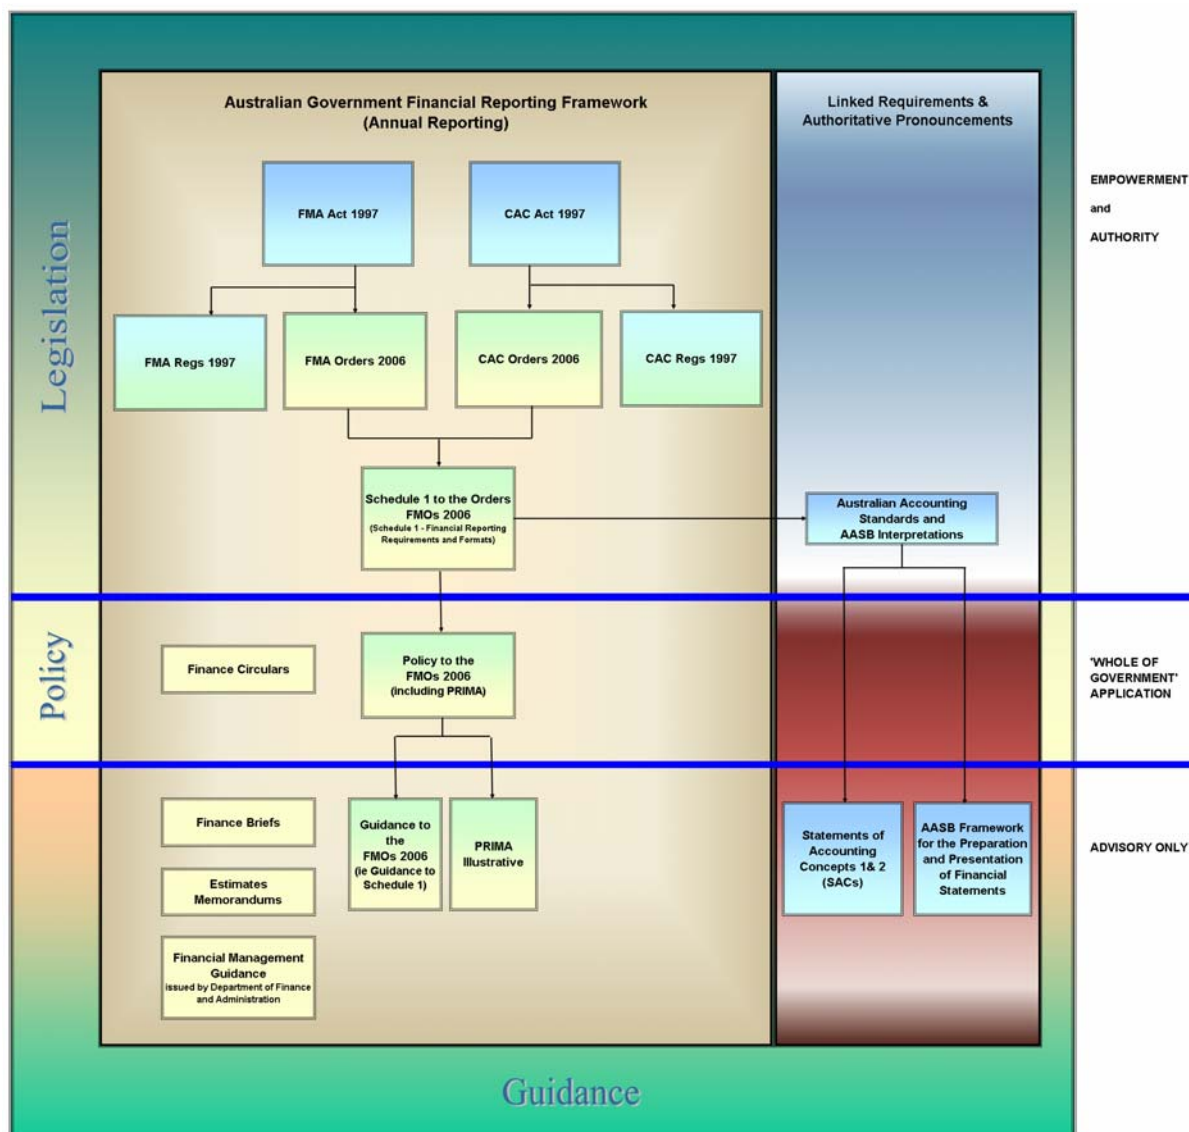

- (i) applicable accounting standards and accounting interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period;
- (ii) policies issued by the Department of Finance and Administration;
- (iii) *Commonwealth Authorities and Companies (Report of Operations) Orders 2005* (does not apply to FMA Agencies); and

(b) have regard to:

- (i) guidance to Schedule 1 and Annexure A;
- (ii) the Statements of Accounting Concepts 1 and 2 (SACs);
- (iii) the AASB *Framework for the Preparation and Presentation of Financial Statements*; and

Requirements and Guidance for the Preparation of Financial Reports

- (iv) Estimates Memorandums, Finance Briefs, Finance Circulars, Financial Management Guidance series and other guidance issued by the Department of Finance and Administration.

Where a choice of accounting policy is required to be made that is not covered by these Finance Minister's Orders, Australian Accounting Standards, AASB Interpretations or other Framework documents, the treatment under Government Finance Statistics (GFS) must be considered.

The purpose of having identical requirements for Government Entities is to achieve uniformity in financial reporting and assist in the preparation of the Australian Government Consolidated Financial Statements as required under s55 of the *FMA Act*.

The Department of Finance and Administration (Finance) publishes this document, *Requirements and Guidance for the Preparation of Financial Reports of Australian Government Entities*, which includes the 'Finance Minister's Orders' for reporting periods ending on or after 1 July 2006, commonly known as the FMOs (ie Schedule 1 to the Orders above), related policy and guidance. These

Finance Minister's Orders replace previously published Finance Minister's Orders.

2 Structure

In this document the black letter legislation (i.e. text in bold):

- constitutes Schedule 1 to the Orders made under the respective FMA and CAC legislation;
- are mandatory principles, bases or rules made by the Finance Minister for preparing and presenting general-purpose Financial Reports of Australian Government Entities;
- clarify accounting treatments in Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board or legislation applicable to Whole-of-Government application; and
- specify the accounting treatments to be applied when the Accounting Standards or legislation permit choice.

The policies including Annexure A (PRIMA) (ie text in grey letter):

- are prescriptive principles, bases or rules that support the subordinate legislation (ie in the black letter) made by the Finance Minister for preparing and presenting general-purpose Financial Reports of Australian Government Entities; and
- do not form part of Schedule 1.

The guidance (i.e. text that appears within boxes with green background):

- provides explanatory guidance which does not form part of Schedule 1;
- is intended to assist in interpretation of the black letter and policy; and
- may be modified from time to time by Finance as the need arises (for example, in response to requests by Entities for further clarification of particular black letter or policy clauses).

 - (i) all applicable requirements of this Schedule 1 to the *Financial Management and Accountability Orders 2005* and *Commonwealth Authorities and Companies Orders (Financial Statements for periods ended on or after 1 July 2006)* comprising the black letter, as well as supporting policies including the Primary Reporting and Information Management Aid (PRIMA) and other policies issued by the Department of Finance and Administration;

- (ii) applicable accounting standards and accounting interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period; and
 - (iii) *Commonwealth Authorities and Companies (Report of Operations) Orders 2005* (does not apply to FMA Agencies); and

9 Financial Reporting Structure and Form

9.1 The Financial Report of each Entity must be presented in the following order:

- (a) statement required by Sections 14.2 or 14.3 of this Schedule;
- (b) primary Financial Statements (Income Statement, Balance Sheet, Statement of Changes in Equity or Statement of Recognised Income and Expense and Cash Flow Statement); and
- (c) schedules and notes to the Financial Statements.

9.2 The Financial Report of each Entity must include:

- (a) the primary statements, schedules and notes in the form prescribed in Annexure A (PRIMA) to this Schedule; and
- (b) all note disclosures specified by black letter in this Schedule and outlined in Annexure A (PRIMA) to this Schedule; and
- (c) be presented in the English language and Australian dollars.

9.3 Unless specifically otherwise stated as not required in this Schedule or in an accounting standard, comparative information must be disclosed in the financial statements and notes in compliance with the requirements of this Schedule.

9.4 This Schedule and supporting policy and guidance apply to departmental as well as administered items unless otherwise specified.

9.5 Entities must include sub-total columns in Annexure A (PRIMA) tables as required to reconcile to line items on the face of the Balance Sheet. Additional total and sub-total rows and columns may be included to present information required by Australian Accounting Standards or improve the understandability of the Financial Report.

9.6 Where zero balances occur, the line item may be omitted, except for balances that relate to the following items:

- **Appropriations under Part I;**
- **Special Accounts under Division 120;**
- **Compensation and Debt Relief disclosures under Division 122; and**
- **Remuneration of Auditors under Division 23.**

10 *Simplified Reporting*

10.1 Entities may adopt the simplified reporting provisions set out in Sections 10.2 to 10.6 having regard to Section 8.2 and the order of information outlined in Annexure A (PRIMA).

10A PRESENTATION OF PRIMARY FINANCIAL STATEMENTS

10.2 Where an Entity's net surplus/deficit is solely attributable to the Australian Government in both the current and immediately preceding reporting periods, the Income Statement line items 'Surplus (deficit) attributable to the Australian Government' and 'Surplus (deficit) attributable to minority interest' may be omitted.

10.3 Where an amount is disclosed on the face of a primary statement, it is not necessary to repeat this information in the notes to the financial statements, unless this is required in conjunction with the presentation of other information.

10B NOTES TO THE FINANCIAL STATEMENTS

10.4 Where the fair value of each class of an Entity's financial assets and financial liabilities equals its carrying amount in both the current and immediately preceding reporting periods, Entities may state this fact rather than disclosing these amounts.

10.5 In relation to Division 122 of this Schedule, an Entity that has no transactions in either the current reporting or any comparative period, must disclose by way of a note that there were no such transactions or balances.

10.6 Where there are no commitments or contingencies in either the current or the immediately preceding reporting periods, it is not necessary to include a schedule for such items. Instead, the fact that there are no such items must be disclosed in the notes to the financial statements.

11 *Early Adoption of Accounting Pronouncements*

11.1 If an Entity wishes to adopt a new accounting standard or AASB Interpretation earlier than its effective date of application, other than as

- 12.1** The requirements of this Schedule apply where information resulting from their application is material, or as specifically stated within the Schedule.
- 12.2** Information is material if its omission, misstatement or non-disclosure has the potential, individually or collectively, to:

 - (b)** affect the discharge of accountability by management or the governing body of the Entity.
- 12.3** Entities must prepare financial statements and notes to reflect materiality of information pursuant to this Schedule at the individual Entity level.
- 12.4** Entities must maintain proper accounting records to support all disclosures required by this Schedule and the supporting policy.

13 *Rounding Off*

- 13.1** Unless otherwise provided in this Schedule, amounts in the financial statements and notes may be rounded off to the nearest dollar, or where applicable as follows:
- (a)** where a reporting Entity has assets, liabilities, expenses, income, commitments or contingencies in excess of \$10 million — it may round an amount to the nearest \$1,000, unless that amount is \$500 or less, in which case the amount should be rounded to zero; and
 - (b)** where a reporting Entity has assets, liabilities, expenses, income, commitments or contingencies in excess of \$1 billion — it may round an amount to the nearest \$1 million, unless that amount is \$500,000 or less, in which case the amount should be rounded to zero.
- 13.2** Amounts reported in the notes to the financial statements for appropriations, Special Accounts and outcomes are to be rounded to the nearest dollar, or \$1,000 where the Entity meets the requirements of 13.1(a).
- 13.3** Rounding may be applied differently between Departmental and Administered reporting. However, with the exception of appropriations,

outcomes and Special Accounts disclosures, rounding must be applied consistently within Departmental items and within Administered items respectively.

- 13.4 **Materiality must be considered prior to rounding generally, to ensure rounding does not affect overall materiality of disclosure.**

14 Certificates

- 14.1 **The signed audit opinion on the Financial Report must be attached to the Financial Report.**

- 14.2 **Each economic Entity, comprising an Authority or an Authority and its subsidiaries' Financial Reports as applicable, must present a statement signed by the Chair of the Board (or a Director) in accordance with a resolution of the Board and the Chief Executive Officer, stating:**

- 43.4 Entities with more than 1,000 FTE are to undertake their own assessments to estimate the liability for long service leave. The method of doing this would be one of the following:**
- (a) If an Entity's employee profile is demonstrably not materially different from the Australian Government's standard profile, Entities may use the shorthand method;**

- 45.4 For ‘regular way purchase or sale’, ‘trade date’ accounting must be applied.**
- 45.5 Entities must recognise all impairment losses on financial instruments under AASB 139 in an allowance account where permitted, rather than adjusting these losses directly against the carrying amount of the related assets. A separate account must be maintained for each class of financial asset.**
- 45.6 Where AASB 139 allows Entities to choose between:**
- (a) capitalising gains and losses on hedges into the carrying amount of the underlying assets; and**
 - (b) progressively transferring such gains and losses from equity to income or expense,**
- Entities must adopt (a) in all cases.**
- 45.7 Where an Entity has held derivative financial instruments that are not part of a qualifying hedging arrangement, at any time during the period, it shall disclose:**

Part H SPECIFIC REPORTING REQUIREMENTS – RESTRUCTURES

- 92.1** Where restructures have occurred during the reporting period, the financial statements of Entities must include a note giving particulars of the restructure. Separate disclosure must be made for administered and departmental items. Entries need not physically have been processed by the date of transfer for an Entity to make the required note disclosure.

Part I SPECIFIC REPORTING REQUIREMENTS – APPROPRIATIONS

100 Recognition of Appropriations – General Information

- 100.1** Appropriations, including Special Appropriations, are to be recognised and disclosed, in accordance with this Schedule, regardless of whether the relevant amounts are considered to be material in accordance with Section 12.2.
- 100.2** Amounts reported in the notes to the financial statements for appropriations are to be rounded to the nearest \$1,000, unless that amount is \$500 or less, in which case the amount must be rounded to zero.

101 Recognition of Appropriations - Departmental

- 101.1** Agencies must recognise all departmental appropriations as outlined in Section 101.3.
- 101.2** ‘Departmental outputs’ and ‘Departmental non-operating appropriations’ with the exception of loan appropriations are non-reciprocal transactions for the purposes of revenue recognition.
- 101.3** Subject to Section 101.10, the earliest point of recognition for a departmental appropriation by an Agency is when the Agency gains control of the appropriation for accounting purposes as follows, for:
- (a) ‘Departmental outputs’ and ‘departmental non-operating appropriations’ (excluding loans) specified in the *Appropriation Acts* at the later of:
 - i. Date of royal assent of the *Appropriation Act*; or
 - ii. The commencement of the financial period the appropriation relates to. That is, when the appropriation is effective (normally *Appropriation Acts No. 1 and No. 2 and Appropriation*

(Parliamentary Departments) Act No. 1 are effective from 1 July);

- (b) 'Loans' specified in the *Appropriation Acts*, when drawn down from the Official Public Account for the amount to be received;
- (c) 'Departmental Special Appropriations', when the obligation for which the Special Appropriation exists is incurred to the amount of the obligation;
- (d) 's31 of the *FMA Act*', for the increased appropriation provided by amounts received that are eligible s31 receipts, as the income is earned (ie on an accrual basis);
- (e) 'departmental items – adjustments' specified in the *Appropriation Acts*. The date of application is to be used for disclosure. Where the date is unknown at the time of reporting, the date of determination is to be used; and
- (f) 'Advance to the Finance Minister' (for Parliamentary Departments, the Presiding Officer) specified in the *Appropriation Acts*, the date of the determination or the date applicable as stated in the determination.

101.4 Each Agency must ensure they have a valid appropriation for all amounts drawn from the Official Public Account for refunds (including repayments) required or permitted by law. These refunds, which include repayments made under s28 of the *FMA Act*, must be recognised and/or disclosed under their valid appropriation, and as required by Table D in Annexure A (PRIMA) to this Schedule.

101A MEASUREMENT

101.5 For 'departmental output appropriations' specified in the *Appropriation Acts* (Part 2), the full amount appropriated is to be recognised as income in the year of appropriation, adjusted only by applicable current year formal additions and reductions listed at Section 101.13.

Departmental Non-Operating Appropriations Specified in Appropriation Acts

101.6 Subject to Section 101.8, departmental non-operating appropriations must be recognised and disclosed at the amounts in the *Appropriation Acts*, adjusted, where applicable, in accordance with Section 101.13.

101.7 'Equity injections', 'loans' and 'previous years' outputs' must be recognised in compliance with the following Sections for each item. These entries must be adjusted only by applicable current year formal additions and reductions listed at Section 101.13.

101.8 Equity Injections must be recognised as a contribution by owners, increasing 'Contributed Equity' in full from the commencement of the financial year to which the appropriation applies irrespective of when drawn down. Appropriations for equity in Acts passed after the commencement of the period for which the appropriation applies will be recognised from the date of royal assent.

- 101.9** Loan appropriations must be recognised as increases in borrowings. They are not revenue.
- 101.10** Previous years' outputs, where additional work is requested by Government with funding to follow in the subsequent period, as 'previous years' outputs', the Agency may book a revenue and an appropriation receivable in the year of agreement for the amount agreed so long as the transaction is appropriately evidenced. Evidence will include at a minimum, written ministerial agreement. The subsequent appropriation for previous years' outputs will reduce the appropriation receivable.
- 101.11** When an Agency transfers cash to the Official Public Account (OPA) in the nature of repayments of amounts drawn down but does not relinquish the right to redraw those amounts, the Agency must account for this by increasing 'Appropriations Receivable'.

Adjustments to current Year Departmental Appropriations

- 101.12** Formal additions or reductions to recognition of departmental appropriations as outlined in Section 101.13, occur when an Entity has gained or lost the capacity to control the appropriation. Formal additions or reductions necessitate adjustments to recognition and/or disclosure of appropriations to the extent they have not already resulted in adjustments in previous years.
- 101.13** Departmental appropriations for the current year may only be adjusted by formal additions or reductions in the current year in relation to the appropriations. To be a formal addition or reduction, the gain or loss of control event, as outlined below, must be evidenced in writing from the appropriate authority. Formal additions and reductions are as follows:
- (a) appropriations under s31 of the *FMA Act*;
 - (b) transfers of appropriation under s32 of the *FMA Act*;
 - (c) other amounts (excluding s31 of the *FMA Act*) determined by the Finance Minister (or delegate) or an Agency Minister or Presiding Officer under Part 3 Additions to basic appropriations of *Appropriation Acts*;
 - (d) determination of reductions in accordance with the *Appropriation Acts*;
 - (e) adjustments as stipulated by any agreement that provides for additional revenue for over-delivery or a reduction of revenue for under-delivery, such as purchasing, workload or other agreements;
 - (f) adjustments made as a result of a decision by the Government, for an Entity to provide additional outputs during the current financial period that will be provided for in the subsequent financial period or to provide fewer outputs where savings are to be returned to the Budget; and/or
 - (g) all other adjustments (including savings approved during the year), made as a consequence of a policy of the Government, evidenced by a decision of the Cabinet or the Prime Minister.

101.14 The agreements referred to in Section 101.13 must:

- (a) set out one or more quantifiable deliverable(s) and/or a specific amount of appropriation relating to each; and
- (b) be approved by, or arise from, Ministerial or cabinet decisions prior to the funding being given.

101B EQUITY RETURNS AND ADJUSTMENTS

101.15 Departmental equity returns must be recognised as a return of capital by adjusting ‘Contributed Equity’ and not as a reduction in, or refund of, revenue. Departmental equity returns occur where an Entity relinquishes control of funds which had been appropriation revenue in a previous financial year, by making a non-reciprocal payment to the Official Public Account other than as a dividend referred to in Division 41 of this Schedule. Entities shall account for these payments as a reduction in ‘Contributed equity’ from the time the return of capital is paid.

101.16 Reductions in ‘Contributed Equity’ under Section 101.15 of this Schedule are recognised in the financial statements of the Entity:

- (a) at the date of effect of a Ministerial direction;
- (b) at the date the appropriation amount is reduced as a consequence of Government policy;
- (c) at the date of the determination of reduction for a departmental appropriation in accordance with *Appropriation Acts*; or
- (d) at the date that payment is made in all other cases.

101C INVESTMENT OF PUBLIC MONEY

101.17 Each Entity must recognise and/or disclose all public money invested in authorised investments under s39 of the *FMA Act* or surplus funds under s18 and s19 of the *CAC Act* in Table E in Annexure A (PRIMA) to this Schedule. All money invested under a Special Account must also be disclosed in accordance with Division 120 of this Schedule.

102 Recognition of Appropriations - Administered

102.1 Agencies must recognise all administered appropriations as outlined below, in the ‘Administered Reconciliation Table’ (refer Section 85.6 of this Schedule), but not as revenue, except for eligible *FMA Act* s31 administered receipts which are recognised as income in the Schedule of ‘Income Administered on Behalf of Government’ when earned (ie accrual basis). This Section also applies to appropriations for administered items that are assets and liabilities.

102.2 Internal transactions (within the administered Entity) must not be reported in the Schedule of Administered Income, Expense, Assets and Liabilities but are otherwise disclosed in the administered items.

- 102.3** The earliest point of recognition for an administered appropriation by an Agency for accounting purposes is as follows, for:
- (a) ‘Administered items – basic appropriations’ and ‘State, ACT, NT and local government items’ appropriated under Part 2 of *Appropriation Acts*, when drawn down for the amount to be received or drawn against the appropriation;
 - (b) Administered Special Appropriations, when it is drawn down for the amount to be received or adjusted against the appropriation.
 - (c) Administered s31 receipts, that is, the increased appropriation provided by amounts received that are eligible s31 receipts, as the income is earned; and
 - (d) The funding for State, ACT, NT and local government items (Specific Purpose Payments to the States and Territories), when drawn down for the amount to be received or drawn against the appropriation; and
 - (e) other amounts determined by the Finance Minister (or delegate) or an Agency Minister or Presiding Officer under ‘Part 2 – Basic appropriation’ or ‘Part 3 Additions to basic appropriations’ of *Appropriation Acts*, the date of the determination or the date applicable as stated in the determination.
- 102.4** Adjustments to the current year can be made where an eligible s31 receipt was incorrectly raised.
- 102.5** Each Agency must ensure they have a valid appropriation for all amounts drawn from the Official Public Account for refunds (including repayments) required or permitted by law. These refunds, which include repayments made under s28 of the *FMA Act*, must be recognised and/or disclosed under their valid appropriation, and as required by Table D in Annexure A (PRIMA) to this Schedule.

103 Recognition of Appropriations – CAC Entities

- 103.1** CAC Entities (Authorities) are required to report amounts appropriated by Parliament to them through annual or Special Appropriations even where it is determined that the amount may not legally be classified as an appropriation. Amounts must be reported in line with the treatment identified for Agencies as set out in Divisions 101 and 102 where Authorities receive funding under the *Appropriation Acts*.
- 103.2** Authorities shall modify the revenues from Government disclosures as required in Divisions 101 and 102 to exclude items not applicable (for example appropriations under the *FMA Act*).
- 103.3** Where an Authority makes a repayment to the OPA, the amount of the repayment is automatically relinquished.

- 103.4** Each Entity must recognise all authorised investments under s18 and s19 of the *CAC Act* or other relevant legislation in Table E in Annexure A (PRIMA) to this Schedule.

Requirements and Guidance for the Preparation of Financial Reports

Appropriation Draw Down Model (Disclosure Clarification)

- 104.7** Where there are material variances between the cash payments for the reporting period and the amount appropriated, otherwise authorised or estimated through Budget Estimates, Entities must provide an explanation of those variances below the relevant Table in Annexure A (PRIMA).
- 104.8** The amounts shown in the lines for the Budget Estimates for unlimited Special Appropriations legislation must use the latest estimates from the following year's budget papers, and be based on an Entity's estimate of payments where eligibility is established.
