1 Name of Determination
This Determination is the Telecommunications (Emergency Call Service) Amendment Determination 2008 (No. 1).

2 Commencement
This Determination commences at the end of the period of 3 months starting on the day on which this Determination is registered.
3 Amendment of Telecommunications (Emergency Call Service) Determination 2002

Schedule 1 amends the Telecommunications (Emergency Call Service) Determination 2002.

Schedule 1 Amendment

(section 3)

[1] After subsection 10 (7), including the examples

insert

(8) Subsections 10 (2), (2A), (3), (5) and (5A) do not apply if:

(a) an end-user uses the emergency service number 000, 106 or 112 on a public mobile telecommunications service or a satellite service; and

(b) the customer equipment used to make the call does not provide a unique service identifying number to the provider.

Example of a unique service identifying number

An International Mobile Subscriber Identity.

An International Mobile Subscriber Identity (or IMSI) is a unique number that identifies a subscriber of a public mobile telecommunications service that uses GSM or UMTS technologies. Universal Mobile Telecommunications System (or UMTS) is a third generation mobile telecommunications technology derived from GSM standards.
