Amendment of the List of Exempt Native Specimens in accordance with Section 303DC

Section 303DB of the Environment Protection and Biodiversity Conservation Act 1999 (the EPBC Act) provides for the establishment of a list of exempt native specimens. Specimens included on the list are exempt from the trade control provisions that apply to regulated native specimens.

The effect of this instrument is to include the following specimens to the list of exempt native specimens and to make those inclusions subject to the notations specified below:

- Specimens that are or are derived from fish or invertebrates, other than specimens that belong to species listed under Part 13 of the EPBC Act, taken in the Torres Strait Prawn Fishery, as defined in the Torres Strait Fisheries Act 1984 and Torres Strait Fisheries Regulations 1985.

The inclusion of the specimens in the list is subject to the following notations:

- The specimen was taken lawfully; and
- The specimen is included on the list until 1 December 2008.

Listing of the specimens described above on the list of exempt native specimens will allow continued export of these specimens to the end of the 2008 fishing season on 1 December 2008.

In determining to include the specimens in the list of exempt native specimens regard was had to the Australian Government’s Guidelines for the Ecologically Sustainable Management of Fisheries – 2nd Edition. Those Guidelines establish the criteria for assessment of the ecological sustainability of the relevant fisheries management arrangements.

Subsection 303DC(3) of the EPBC Act provides that before amending the list, the Minister must consult such other Minister or Ministers, including a Minister or Ministers of each State and self-governing Territory and such other persons and organizations as the Minister considers appropriate. In this instance, the Delegate of the Minister for Environment, Heritage and the Arts consulted with the Minister for Agriculture Fisheries and Forestry and the Australian Fisheries Management Authority (AFMA) as the Minister and AFMA have management responsibilities for the fishery concerned.

This instrument is a legislative instrument for the purposes of the Legislative Instruments Act 2003.

The instrument commenced on the day after it was registered on the Federal Register of Legislative Instruments.
