EXPLANATORY STATEMENT

Environment Protection and Biodiversity Conservation Act, 1999

Amendment of the List of Exempt Native Specimens in accordance with Section 303DC

Section 303DB of the Environment Protection and Biodiversity Conservation Act 1999 (EPBC Act) provides for the establishment of a list of exempt native specimens. Specimens included in the list are exempt from the trade control provisions that apply to regulated native specimens.

The effect of this instrument is to delete from the list of exempt native specimens the following specimens and any associated notations:

- Specimens that are or are derived from fish or invertebrates, taken in the Western Australian Shark Bay Snapper Fishery, as defined in the Shark Bay Snapper Management Plan 1994, made under the Western Australian Fisheries Resources Management Act 1994, other than specimens that belong to species listed under Part 13 of the Act.

Subsection 303DC(3) of the EPBC Act provides that before amending the list, the Minister for Environment Protection, Heritage and the Arts must consult such other Commonwealth Minister or Ministers and such other Minister or Ministers of each State and self-governing Territory, as the Minister considers appropriate. The Minister may also consult with such other persons and organisations as the Minister considers appropriate. In this instance, the Delegate of the Minister for Environment Protection, Heritage and the Arts consulted with the Department of Fisheries Western Australian as the Department has management responsibility for the fishery concerned.

This instrument is a legislative instrument for the purposes of the Legislative Instruments Act 2003.

The instrument commenced on the day after it was registered on the Federal Register of Legislative Instruments.
