Amendment of the List of Exempt Native Specimens in accordance with Section 303DC

Section 303DB of the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act) provides for the establishment of a list of exempt native specimens. Specimens included in the list are exempt from the trade control provisions that apply to regulated native specimens.

The effect of this instrument is to revoke the conditions to which the inclusion of the following item in the list of exempt native specimens on 30 June 2009 is subject:

- specimens that are or are derived from fish or invertebrates, other than specimens that belong to species listed under Part 13 of the EPBC Act, taken in the Victorian Abalone Fishery, as defined in the management regime in force under the Victorian *Fisheries Act 1995*.

and impose the following conditions to which the inclusion of the specimens in the list is subject:

- the specimen, or the fish or invertebrate from which it is derived, was taken lawfully, and
- the specimens are included in the list until 21 June 2012.

Revoking the conditions and imposing the above conditions to which the inclusion of the specimens in the list of exempt native specimens is subject will allow continued export of these specimens until 21 June 2012.

In determining to include the specimens in the list of exempt native specimens regard was had to the Australian Government’s *Guidelines for the Ecologically Sustainable Management of Fisheries – 2nd Edition*. Those Guidelines establish the criteria for assessment of the ecological sustainability of the relevant fisheries management arrangements.

Subsection 303DC(3) of the EPBC Act provides that before amending the list, the Minister for Sustainability, Environment, Water, Population and Communities must consult such other Commonwealth minister or ministers and such other minister or ministers of each state and self-governing territory, as the minister considers appropriate. The minister may also consult with such other persons and organisations as the minister considers appropriate. In this instance, the Victorian Department of Primary Industries was consulted, as the Victorian Department of Primary Industries has management responsibilities for the fishery concerned.

This instrument is a legislative instrument for the purposes of the *Legislative Instruments Act 2003*.

The instrument commenced on the day after it was registered on the Federal Register of Legislative Instruments.
