1  Name of Technical Standard
This Technical Standard is the Telecommunications Technical Standard (Analogue Interworking and Non-interference Requirements for Customer Equipment for Connection to the Public Switched Telephone Network — AS/CA S002:2010) Amendment 2012 (No.1).

2  Commencement
This Technical Standard commences on the day after it is registered.

Note All legislative instruments and compilations are registered on the Federal Register of Legislative Instruments kept under the Legislative Instruments Act 2003. See http://www.frli.gov.au.
3 Amendment of *Telecommunications Technical Standard (Analogue Interworking and Non-Interference Requirements for Customer Equipment for Connection to the Public Switched Telephone Network – AS/CA S002:2010) 2011*

**Schedule 1 Amendment**

*(section 3)*

[1] **Section 6**

*substitute*

6 **Requirement**

Customer equipment must comply with the mandatory requirements set out in the Australian Standard — *Analogue interworking and non-interference requirements for Customer Equipment for connection to the Public Switched Telephone Network (AS/CA S002:2010)*, published by Communications Alliance Ltd in October 2010, and incorporating the amendment made to the standard of that name published on 23 April 2012.

*Note* Amendment No.1/2012 to AS/CA S002:2010 was published by Communications Alliance Ltd on 23 April 2012. The amendment corrects an error in ‘Figure 8’ of the standard.
