EXPLANATORY STATEMENT

Environment Protection and Biodiversity Conservation Act 1999
Amendment of the List of Exempt Native Specimens in accordance with Section 303DC

Section 303DB of the Environment Protection and Biodiversity Conservation Act 1999 (EPBC Act) provides for the establishment of a list of exempt native specimens. Specimens included in the list are exempt from the trade control provisions that apply to regulated native specimens.

The effect of this instrument is to include the following specimens in the list of exempt native specimens:

- specimens that are or are derived from fish or invertebrates, other than specimens that belong to species listed under Part 13 of the EPBC Act, taken in the Western Australian South Coast Trawl Fishery as defined in the Western Australian Department of Fisheries Exemption Number 2215 relating to the South Coast Trawl Fishery made under the Western Australian Fish Resources Management Act 1994 and the Western Australian Fish Resources Management Regulations 1995,

with a notation that inclusion of the specimens in the list is subject to the following restrictions or conditions:

- the specimen, or the fish or invertebrate from which it is derived, was taken lawfully, and
- the specimens are covered by the declaration of an approved wildlife trade operation under section 303FN of the EPBC Act in relation to the fishery.

Listing of the specimens described above in the list of exempt native specimens will allow export of these specimens, without requiring export permits, while an approved wildlife trade operation declaration for the fishery is in force.

In determining to include the specimens in the list of exempt native specimens regard was had to the Australian Government’s 'Guidelines for the Ecologically Sustainable Management of Fisheries – 2nd Edition.' Those Guidelines establish the criteria for assessment of the ecological sustainability of the relevant fishery’s management arrangements.

Subsection 303DC(3) of the EPBC Act provides that before amending the list, the Minister for Sustainability, Environment, Water, Population and Communities must consult such other Commonwealth minister or ministers and such other minister or ministers of each state and self-governing territory, as the minister considers appropriate. The minister may also consult with such other persons and organisations as the minister considers appropriate. In this instance, the Delegate of the Minister for Sustainability, Environment, Water, Population and Communities consulted with the Western Australian Department of Fisheries as the Western Australian Department of Fisheries has management responsibilities for the fishery concerned. In addition, the proposal to amend the list of exempt native specimens was advertised on the Department of Sustainability, Environment, Water, Population and Communities’ website and comment was invited from interested people for a period of 22 business days. All comments received were taken into account in the decision to include specimens derived from the fishery in the list of exempt native specimens.

This instrument is a legislative instrument for the purposes of the Legislative Instruments Act 2003.

The instrument commenced on the day after it was registered on the Federal Register of Legislative Instruments.

Unique Identifying Number:
EPBC303DC/SFS/2013/25

Explanatory Statement to F2013L00807
Statement of Compatibility with Human Rights

Prepared in accordance with Part 3 of the Human Rights (Parliamentary Scrutiny) Act 2011

Amendment of List of Exempt Native Specimens

This Legislative Instrument is compatible with the human rights and freedoms recognised or declared in the international instruments listed in section 3 of the Human Rights (Parliamentary Scrutiny) Act 2011.

Overview of the Legislative Instrument

The effect of this instrument is to include the following specimens in the list of exempt native specimens:

- specimens that are or are derived from fish or invertebrates, other than specimens that belong to species listed under Part 13 of the EPBC Act, taken in the Western Australian South Coast Trawl Fishery as defined in the Western Australian Department of Fisheries Exemption Number 2215 relating to the South Coast Trawl Fishery made under the Western Australian Fish Resources Management Act 1994 and the Western Australian Fish Resources Management Regulations 1995,

with a notation that inclusion of the specimens in the list is subject to the following restrictions or conditions:

- the specimen, or the fish or invertebrate from which it is derived, was taken lawfully, and
- the specimens are covered by the declaration of an approved wildlife trade operation under section 303FN of the EPBC Act in relation to the fishery.

Listing of the specimens described above in the list of exempt native specimens will allow continued export of these specimens, without requiring export permits, while an approved wildlife trade operation declaration for the fishery is in force.

Human rights implications

This Legislative Instrument does not engage any of the applicable rights or freedoms.

Conclusion

This Legislative Instrument is compatible with human rights as it does not raise any human rights issues.

Geoff Richardson, Assistant Secretary, Marine Biodiversity and Biosecurity Branch
(Delegate of the Minister for Sustainability, Environment, Water, Population and Communities)
