3 Authority

This regulation is made under the Product Stewardship Act 2011.

4 Schedule(s)

Each instrument that is specified in a Schedule to this instrument is amended or repealed as set out in the applicable items in the Schedule concerned, and any other item in a Schedule to this instrument has effect according to its terms.
Schedule 1—Amendments commencing day after registration

Product Stewardship (Televisions and Computers) Regulations 2011

1 Subregulations 3.04(5) and (6)
   Repeal the subregulations.

2 After regulation 3.04
   Insert:

3.04A Import or manufacture share—no co-regulatory membership on 30 June

   (1) This regulation applies if a person:
       (a) is a liable party in a financial year because of television or computer products that were imported or manufactured before the financial year; and
       (b) is not a member of a co-regulatory arrangement on 30 June of the financial year; and
       (c) becomes a member of a co-regulatory arrangement at a later time.

   (2) For subregulation 3.04(4), a proportion of the products are taken to have been imported or manufactured in the financial year immediately before the year in which the person becomes a member of the co-regulatory arrangement, as worked out according to the following formula:

   \[
   \frac{\text{Non-membership days}}{\text{Number of days in year}} \times \text{Products}
   \]

   where:

   \(\text{non-membership days}\) means the number of days in the financial year, immediately before 30 June, for which the liable party was not a member of a co-regulatory arrangement.

OPC50272 - A
number of days in year means the number of days in the financial year.

products means the television or computer products mentioned in paragraph (1)(a).

(3) Regulation 3.04B (which allows proportioning of the products) does not apply to those products.

Example 1: A person imports 20 000 web cameras in the 2013/2014 financial year, and therefore is a liable party in the 2014/2015 financial year. The person is not a member of a co-regulatory arrangement in the 2014/2015 financial year, and does not become a member of a co-regulatory arrangement until the 2015/2016 financial year.

The co-regulatory arrangement must count all of the 20 000 web cameras as if the web cameras had been imported in the 2014/2015 financial year, even if the liable party is not a member of the co-regulatory arrangement for the whole of the 2015/2016 financial year.

Example 2: A person imports 36 500 web cameras in the 2013/2014 financial year, and therefore is a liable party in the 2014/2015 financial year. The person is a member of a co-regulatory arrangement for the first 265 days of the 365 days in the financial year, but is not a member for the last 100 days, including on 30 June.

The co-regulatory arrangement must count 10 000 web cameras (10 000 = 36 500 ÷ 365 x 100) as if the web cameras had been imported in the 2014/2015 financial year, even if the liable party is not a member of the co-regulatory arrangement for the whole of the 2015/2016 financial year.

(4) Subregulation (2) does not affect the import of manufacture share of co-regulatory arrangements in the financial year mentioned in paragraph (1)(a).

3.04B Import or manufacture share—co-regulatory membership for part of year

(1) This regulation applies if:

(a) a co-regulatory arrangement is working out its import or manufacture share of a kind of television or computer products, for a financial year; and

(b) a liable party was a member of the co-regulatory arrangement for only part of the financial year.

(2) For subregulation 3.04(4), the co-regulatory arrangement must count only a proportion of the kind of television or computer

No. 148, 2013 Product Stewardship (Televisions and Computers) Amendment (Single Product Class) Regulation 2013

OPC50272 - A
products that were imported or manufactured by the member, as worked out using the following formula:

\[
\frac{\text{Membership days}}{\text{Number of days in year}} \times \text{Products}
\]

where:

- **membership days** means the number of days in the financial year that the liable party was a member of the co-regulatory arrangement.
- **number of days in year** means the number of days in the financial year.
- **products** means the number of that kind of television or computer product that was imported or manufactured in the year before the financial year.

Example: A liable party imported 36,500 web cameras in the year before the financial year. The liable party was a member of a co-regulatory arrangement for 100 days of the financial year.

The co-regulatory arrangement must count only 10,000 of the web cameras (i.e. 10,000 = \(36,500 \times 100 \div 365\)) when working out its import or manufacture share for the financial year.

(3) For subregulation (2), if the liable party:

(a) becomes a member of a co-regulatory arrangement after 1 July in a financial year; and

(b) has not previously been a member of another co-regulatory arrangement in the financial year;

the liable party is taken to be a member of the co-regulatory arrangement from 1 July of the financial year.

Example: A liable party is not a member of a co-regulatory arrangement between 1 July 2014 and 31 August 2014, when the liable party becomes a member of co-regulatory arrangement ABC. The liable party remains a member of co-regulatory arrangement ABC until 30 June 2015.

The liable party is taken to have been a member of co-regulatory arrangement ABC from 1 July 2014 to 30 June 2015.
(4) For subregulation (2), if a liable party:

(a) becomes a member of a co-regulatory arrangement (the previous co-regulatory arrangement) in a financial year; and

(b) becomes a member of another co-regulatory arrangement (the later co-regulatory arrangement) later that financial year;

the liable party is taken to be a member of the later co-regulatory arrangement from the day after the liable party stopped being a member of the previous co-regulatory arrangement.

Example 1: A liable party was a member of co-regulatory arrangement ABC from 1 July until 31 August 2013. The liable party becomes a member of co-regulatory arrangement XYZ on 1 December 2013 and remains a member until 30 June 2014.

For subregulation (2), the liable party is taken to be a member of co-regulatory arrangement XYZ between 1 September 2013 and 30 June 2014.

Example 2: A liable party became a member of co-regulatory arrangement ABC on 1 July, and stopped being a member on 31 August 2013. The liable party becomes a member of co-regulatory arrangement XYZ on 1 August 2013, (i.e. before the liable party stopped being a member of co-regulatory arrangement ABC) and remains a member until 30 June 2014.

For subregulation (2), the liable party is taken to be a member of co-regulatory arrangement XYZ between 1 September 2013 and 30 June 2014.
Schedule 2—Amendments commencing 1 July 2013

Product Stewardship (Televisions and Computers) Regulations 2011

1 Subregulation 1.03(1)
   Omit “(1) In”, substitute “In”.

2 Subregulation 1.03(1) (definition of class of products)
   Repeal the definition.

3 Subregulation 1.03(1)
   Insert:
   
   *computer* means a product with a product code mentioned in Part 2
   of Schedule 1, 1A or 1B.

4 Subregulation 1.03(1) (definition of computer class)
   Repeal the definition.

5 Subregulation 1.03(1)
   Insert:
   
   *computer part or peripheral* means a product with a product code
   mentioned in Part 4 of Schedule 1, 1A or 1B.

6 Subregulation 1.03(1) (definition of converted weight)
   Repeal the definition, substitute:
   
   *converted weight*, in relation to a number of units of a kind of
   television or computer product, means the number obtained by
   multiplying the number of units by the conversion factor
   mentioned for the product in column 3 of the relevant Schedule.

7 Subregulation 1.03(1) (definition of import or manufacture
   share of a co-regulatory arrangement)
   Repeal the definition.
8 Subregulation 1.03(1)
Insert:

*import or manufacture share*: see regulation 3.04.

*kind of television or computer product* means a television or computer product with a distinct product code.

Example: Plasma televisions with a screen size less than 76cm have the distinct product code 8528.72.00.23. They are a kind of television or computer product.

9 Subregulation 1.03(1) (definition of *material recovery target*)
Omit “products in a class of products”, substitute “television or computer products.”

10 Subregulation 1.03(1) (definition of *percentage target*)
Repeal the definition, substitute:

*percentage target*, in relation to a television or computer product for a financial year, means the percentage target set out in Schedule 2 for the television or computer product for the financial year.

11 Subregulation 1.03(1)
Insert:

*printer* means a product with a product code mentioned in Part 3 of Schedule 1, 1A or 1B.

12 Subregulation 1.03(1) (definition of *product code*)
Repeal the definition, substitute:

*product code*, for a television or computer product, means the code mentioned for the product in the document called the *Combined Australian Customs Tariff Nomenclature and Statistical Classification*.

**Note:** In 2013, the *Combined Australian Customs Tariff Nomenclature and Statistical Classification* was accessible on the Australian Customs and Border Protection Service website (www.customs.gov.au).
13 Subregulation 1.03(1) (definition of recycle)
Omit “a product,”, substitute “a television or computer product,“.

14 Subregulation 1.03(1) (definition of recycling target)
Repeal the definition, substitute:

recycling target: see regulation 3.04.

15 Subregulation 1.03(1)
Insert:

relevant Schedule, for a unit of a television or computer product, means:
(a) for a unit imported or manufactured before 1 January 2012—Schedule 1; and
(b) for a unit imported or manufactured on or after 1 January 2012 and before 1 July 2012—Schedule 1A; and
(c) for a unit imported or manufactured on or after 1 July 2012—Schedule 1B.

16 Subregulation 1.03(1) (definition of scheme target)
Repeal the definition, substitute:

scheme target: see regulation 3.04.

17 Subregulation 1.03(1)
Insert:

television means a product with a product code mentioned in Part 1 of Schedules 1, 1A and 1B.

18 Subregulation 1.03(1) (definition of television class)
Repeal the definition.

19 Subregulation 1.03(1)
Insert:

television or computer product: see subregulation 1.04(2).
20 **Subregulation 1.03(1) (definition of waste arising)**

Repeal the definition, substitute:

`waste arising`: see regulation 3.04.

21 **Subregulation 1.03(1) (definition of whole unit)**

Omit “a product” (wherever occurring), substitute “a television or computer product,”.

22 **Subregulation 1.03(2)**

Repeal the subregulation.

23 **Regulation 1.04**

Repeal the regulation, substitute:

1.04 Application

(1) These Regulations apply to television or computer products.

(2) A **television or computer product** is:

(a) a television; or

(b) a computer that was manufactured outside Australia; or

(c) a printer; or

(d) a computer part or peripheral.

24 **Regulation 1.05 (note)**

Repeal the note.

25 **Regulations 2.01 to 2.03**

Repeal the regulations, substitute:

2.01 **What this Division does**

(1) This Division specifies the class of persons who are liable parties in relation to television or computer products; and

(2) This Division is made for subsection 19(1) of the Act.
2.02 Liable parties

Television

(1) A person is a liable party, for a financial year, if:
   (a) the person is a constitutional corporation in that financial year; and
   (b) in the previous financial year:
      (i) the person imported or manufactured more than 5 000 televisions; or
      (ii) the person, and a related body corporate, imported or manufactured more than 5 000 televisions, of which more than 1 000 were imported or manufactured by the person.

Note 1: An example of subparagraph (1)(b)(i) is a person who imported 4 000 televisions and manufactured 2 000 televisions.

Note 2: An example of subparagraph (1)(b)(ii) is a person who imported 2 000 televisions when a related body corporate imported 4 000 televisions.

Computers or printers

(2) A person is a liable party, for a financial year, if:
   (a) the person is a constitutional corporation in that financial year; and
   (b) in the previous financial year:
      (i) the person imported or manufactured more than 5 000 computers or printers; or
      (ii) the person, and a related body corporate, imported or manufactured more than 5 000 computers or printers, of which more than 1 000 were imported or manufactured by the person.

Note 1: An example of subparagraph (2)(b)(i) is a person who imported 4 000 computers and manufactured 2 000 printers.

Note 2: An example of subparagraph (2)(b)(ii) is a person who imported 2 000 computers when a related body corporate manufactured 4 000 printers.

Computer parts or peripherals

(3) A person is a liable party, for a financial year, if:
   (a) the person is a constitutional corporation in that financial year; and
(b) in the previous financial year, the person imported or manufactured more than 15 000 computer parts or peripherals.

Obligation as liable party continues

(4) If:

(a) a person is a liable party for television or computer products in a financial year; and

(b) the person is not a member of a co-regulatory arrangement on 30 June of that financial year;

the person continues to be a liable party, for those products, until the end of the financial year in which the person becomes a member of a co-regulatory arrangement, regardless of whether the person would have been a liable party in that financial year but for this subregulation.

Definitions for regulation

(5) In this regulation:

imported, in relation to a product, means:

(a) the product is the subject of an import declaration under section 71A of the Customs Act 1901; and

(b) the product has been entered for home consumption under subsection 68(3A) of that Act.

manufactured means manufactured in Australia.

26 Subregulation 3.01(1)

Omit “a class of products”, substitute “television or computer products”.

27 Paragraph 3.01(1)(a)

Repeal the paragraph, substitute:

(a) reasonable access to collection services in metropolitan, inner regional, outer regional and remote areas must be provided in accordance with regulation 3.03 before the later of:

(i) 31 December 2013; and

(ii) the end of 12 months after the co-regulatory arrangement was approved;
28 **Subregulation 3.01(2)**

Omit “a class of products”, substitute “television or computer products”.

29 **Paragraph 3.01(2)(a)**

Omit “a product”, substitute “a television or computer product”.

30 **Paragraph 3.01(2)(b)**

Omit “a product in the class of products”, substitute “television or computer products”.

31 **Paragraphs 3.02(a) to (e)**

Omit “products”, substitute “television or computer products”.

32 **Regulation 3.04**

Repeal the regulation, substitute:

3.04 Working out recycling target

(1) The recycling target of a co-regulatory arrangement, for a financial year, is the scheme target for that year multiplied by the co-regulatory arrangement’s import or manufacture share for that year.

(2) The scheme target is the percentage target for a financial year (see Schedule 2) multiplied by the waste arising.

(3) Waste arising is worked out as follows:

<table>
<thead>
<tr>
<th>Method statement</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Step 1</strong> Identify the total converted weight of all television or computer products imported or manufactured in the last 3 financial years.</td>
</tr>
</tbody>
</table>

| **Step 2** Work out the annual average converted weight of products by dividing the result of step 1 by 3. |
Step 3   Multiply the result of step 2 by 0.9

Note:   In 2013, the total converted weight was accessible on the department’s website (http://www.environment.gov.au/).

(4) The import or manufacture share, of a co-regulatory arrangement, for a financial year (the current financial year), is worked out using the following steps:

Method statement

Step 1A   For each kind of television or computer product, identify the total number of units imported or manufactured, in the previous financial year, by all liable parties who are members of the co-regulatory arrangement during the current financial year.

Step 1B   Multiply that number by the conversion factor for that kind of product (as set out in column 3 of the relevant Schedule).

Step 2A   For each kind of television or computer product, identify the total number of units exported, in the previous financial year, by all liable parties who are members of the co-regulatory arrangement on 15 September of the current financial year.

Step 2B   Multiply that number by the conversion factor for that kind of product (as set out in column 3 of the relevant Schedule).

Step 3   For each kind of television or computer product, take the result of step 1B and subtract the result of step 2B.

Step 4   Add together each result of step 3.
Step 5A Identify the total converted weight of all television or computer products imported or manufactured by all liable parties in the previous financial year.

Note: In 2013, the total converted weight of each kind of television or computer product was accessible on the department’s website (http://www.environment.gov.au/).

Step 5B From that number, deduct the total converted weight of the exported products reported under regulation 3.04C.

Step 6 Divide the result of step 4 by the result of step 5B.

(5) For subregulation (4), the co-regulatory arrangement:
(a) must use the same conversion factor for steps 1B and 2B; and
(b) may only count products of a kind for which the requirements of subregulation 2.02(1), (2) or (3) are satisfied.

Example: If a person imports 6,000 televisions and 6,000 computers in a financial year, the televisions and the computers must be taken into account when working out the import share. However, if a person imports 6,000 televisions and 2,000 computers (i.e. less than the number of computers required in subregulation 2.02(2)) in a financial year, only the televisions must be counted when working out the import or manufacture share.

33 After regulation 3.04B

Insert:

3.04C Import or manufacture share—counting exported products

(1) This regulation applies if:
(a) a liable party was a member of a co-regulatory arrangement on 15 September of a financial year (the current financial year); and
(b) the liable party exported television or computer products in the previous financial year.
(2) The co-regulatory arrangement, when working out its import or manufacture share for the current financial year, may count the exported products only if the administrator of the arrangement, on or before 15 September of the current financial year, gives the Minister:

(a) a report that states:

(i) the total number of units of each kind of television or computer product (identified by product code) exported by members in the previous financial year; and

(ii) the total converted weight of each kind of television or computer product exported by members in the previous financial year; and

(iii) evidence that each product was imported or manufactured no more than 1 year before the product was exported; and

(b) a report, prepared by an auditor, that states the report mentioned in paragraph (a) is accurate.

(3) In this regulation:

*auditor* means:

(a) a person that is a registered company auditor under section 1280 of the *Corporations Act 2001*; or

(b) a company that is an authorised audit company under section 1299C of the *Corporations Act 2001*.

34 **Subregulation 3.05(1)**

Omit “A product in a class of products”, substitute “A television or computer product”.

35 **Regulation 3.06**

Omit “the products in a class of products”, substitute “television or computer products”.

36 **Paragraph 4.01(e)**

Omit “products”, substitute “television or computer products”.

37 **Subregulation 5.08(1)**

Omit “a class of products”, substitute “television or computer products”.
