   (1) This section applies in relation to a person who:

   (2) For:

(3) The matters are:

(ii) the duration of the journey from the place of work to the person’s home would normally exceed 60 minutes;

that journey; and

(b) if the person would be financially worse off as a result of undertaking the work, by comparison with not undertaking the work:

(i) because of the financial cost to the person in providing appropriate care and supervision for one or more children, for whom the person is the principal carer, at the times when the person would be required to undertake the work; and

(ii) because of the financial cost of travel that would be incurred by the person in undertaking the work;

that fact; and

(c) if the financial benefit for the person of undertaking the work would be marginal, because of the financial cost to the person in providing appropriate care and supervision for one or more children, for whom the person is the principal carer, at the times when the person would be required to undertake the work — that fact.

(4) In considering, for the purposes of paragraph 5(3)(a), whether the duration of a journey would normally exceed 60 minutes, the Secretary must have regard to all forms of transport (whether public or private) that are available to and accessible by the person.
