7 Kind of injury, disease or death to which this Statement of Principles relates

(1) This Statement of Principles is about suicide and attempted suicide and death from attempted suicide.

Meaning of suicide and attempted suicide

(2) For the purposes of this Statement of Principles:

(a) suicide means the intentional act of taking one's own life; and
(b) attempted suicide means an intentional act, the purpose of which is to take one's own life, but which has a non-fatal outcome.
Death from attempted suicide

(3) For the purposes of this Statement of Principles, attempted suicide, in relation to a person, includes death from a terminal event or condition that was contributed to by the person's attempted suicide.

Note: terminal event is defined in the Schedule 1 – Dictionary.

8 Basis for determining the factors

The Repatriation Medical Authority is of the view that there is sound medical-scientific evidence that indicates that suicide or attempted suicide and death from attempted suicide can be related to relevant service rendered by veterans, members of Peacekeeping Forces, or members of the Forces under the VEA, or members under the MRCA.

Note: relevant service is defined in the Schedule 1 – Dictionary.

9 Factors that must exist

At least one of the following factors must as a minimum exist before it can be said that a reasonable hypothesis has been raised connecting suicide or attempted suicide or death from attempted suicide with the circumstances of a person's relevant service:

(1) being a prisoner of war before the suicide or the attempted suicide;

(2) having a clinically significant disorder of mental health as specified at the time of the suicide or the attempted suicide;

Note: clinically significant disorder of mental health as specified is defined in the Schedule 1 - Dictionary.

Note: peer is defined in the Schedule 1 - Dictionary.

(10) experiencing the death of a sibling due to suicide within the 15 years before the suicide or the attempted suicide;

(11) experiencing a category 2 stressor within the ten years before the suicide or the attempted suicide;

Note 1: A category 2 stressor can arise in a variety of circumstances connected with service. Such circumstances can arise during the course of service, as a result of separation from service and the conditions associated with that separation, and in the transition to civilian life in the years following separation.

Note 2: category 2 stressor is defined in the Schedule 1 – Dictionary.

11 Factors referring to an injury or disease covered by another Statement of Principles

In this Statement of Principles:

(1) if a factor referred to in section 9 applies in relation to a person; and

(2) that factor refers to an injury or disease in respect of which a Statement of Principles has been determined under subsection 196B(2) of the VEA;

then the factors in that Statement of Principles apply in accordance with the terms of that Statement of Principles as in force from time to time.
