

Quarantine Amendment Proclamation 1999

made under the

Quarantine Act 1908

I, MAJOR GENERAL MICHAEL JEFFERY, AC, MC, Administrator of the Commonwealth of Australia, acting with the advice of the Federal Executive Council, make this proclamation under sections 5, 12, 13 and 14 of the *Quarantine Act 1908*.

Signed and sealed with the
Great Seal of Australia on
30 Apr 1999

M. Jeffery
Administrator

By His Excellency's Command,

Mark Vaile

MARK VAILE
Minister for Agriculture, Fisheries and Forestry

Quarantine Amendment Proclamation 1999

made under the

Quarantine Act 1908

Section 1

1 Name of this proclamation

This proclamation is the *Quarantine Amendment Proclamation 1999*.

2 Commencement

This proclamation commences on gazettal.

3 Amendment of *Quarantine Proclamation 1998*

Schedule 1 amends the *Quarantine Proclamation 1998*.

Schedule 1 Amendments

(section 3)

[1] Section 3

insert

canned means in an unopened hermetically sealed container that has been heated for a time, and to a temperature, sufficient to render the contents commercially sterile.

fish means an animal that is a member of the class Pisces or the class Agnatha, and includes a shark, a skate and a ray.

[2] Subsection 14 (2)

omit

in the east to Corrigan Road in the west,

insert

in the west to Corrigan Road in the east,

[3] Subsection 23 (2)

substitute

- (2) However, subsection (1) is not taken to prohibit the importation by a person of a corpse or part if a Director of Quarantine has granted the person a permit to import the corpse or part into Australia.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[4] Subsection 24 (2)*substitute*

- (2) However, subsection (1) is not taken to prohibit the introduction or importation by a person of a thing if a Director of Quarantine has granted the person a permit to import the thing into Australia.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[5] Subsection 25 (2)*substitute*

- (2) However, subsection (1) is not taken to prohibit the importation by a person of a corpse or part if a Director of Quarantine has granted the person a permit to import the corpse or part into the Cocos Islands.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[6] Subsection 26 (2)*substitute*

- (2) However, subsection (1) is not taken to prohibit the introduction or importation by a person of a thing if a Director of Quarantine has granted the person a permit to import the thing into the Cocos Islands.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[7] Paragraphs 28 (2) (c), (d), (e) and (f)

substitute

- (c) an article that:
 - (i) in its normal use, is generally meant for human therapeutic use; and
 - (ii) is accompanied into Australia by a person who intends to use it for their own personal therapeutic use; and
 - (iii) is in a quantity of no more than 3 months' supply for that use; and
 - (iv) is not prohibited from being imported under Part 7; or
- (d) a cosmetic substance or perfume for human bodily use that contains, in total less than 20% by mass of material of animal origin (for example, musk, civet or ambergris).

[8] Subsection 28 (3)

substitute

- (3) Also, subsection (1) is not taken to prohibit the importation by a person of a thing if a Director of Quarantine has granted the person a permit to import the thing into Australia.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[9] Subsection 29 (2)*substitute*

- (2) However, subsection (1) is not taken to prohibit the importation of an item that is a starter culture, or a derivative of a starter culture (including enzymes) listed in table 11A, if the item is not contained in a milk-based carrier, and is intended for:
- (a) human food, beverage, or cosmetic manufacture; or
 - (b) in-vitro laboratory work; or
 - (c) in-vivo work in laboratory animals.

Table 11A Starter cultures

Item	Starter culture
1	<i>Acetobacter</i> spp.
2	<i>Aspergillus oryzae</i>
3	Baker's yeast
4	<i>Bifidobacterium</i> spp.
5	<i>Brevibacterium linens</i>
6	Brewer's yeast
7	<i>Candida</i> spp.
8	<i>Citeromyces</i> spp.
9	<i>Clavispora</i> spp.
10	<i>Debaromyces</i> spp.
11	<i>Dekkera</i> spp.
12	<i>Enterococcus durans</i>
13	<i>Enterococcus faecalis</i>
14	<i>Enterococcus faecium</i>
15	<i>Geotrichum candidum</i>
16	<i>Hansenula</i> spp.
17	<i>Hasagawaea</i> spp.
18	<i>Hypopichia</i> spp.

Item	Starter culture
19	<i>Issatchenkia</i> spp.
20	<i>Kluyveromyces</i> spp.
21	Lactic acid bacteria
22	<i>Lactobacillus</i> spp.
23	<i>Lactococcus</i> spp.
24	<i>Leuconostoc</i> spp.
25	<i>Monascus</i> spp.
26	<i>Pediococcus pentasaceus</i>
27	<i>Penicillium camemberti</i>
28	<i>Penicillium roqueforti</i>
29	<i>Phaffia</i> spp.
30	<i>Pichia</i> spp.
31	<i>Propionibacterium</i> spp.
32	<i>Saccharomyces</i> spp.
33	<i>Schizosaccharomyces</i> spp.
34	<i>Schwanniomyces</i> spp.
35	<i>Staphylococcus carnosus</i>
36	<i>Staphylococcus xylosus</i>
37	<i>Streptococcus cremoris</i>
38	<i>Streptococcus diacetylactis</i>
39	<i>Streptococcus durans</i>
40	<i>Streptococcus faecalis</i>
41	<i>Streptococcus lactis</i>
42	<i>Streptococcus paracitrovirus</i>
43	<i>Streptococcus salivarius</i>
44	<i>Streptococcus thermophilus</i>
45	<i>Torulaspora</i> spp.
46	<i>Torulopsis</i> spp.
47	Wine culture
48	Yoghurt/Kefir culture

Item	Starter culture
49	<i>Zygoascus</i> spp.
50	<i>Zygosaccharomyces</i> spp.

[10] Subsection 29 (3)

substitute

- (3) However, subsection (1) is not taken to prohibit the introduction or importation by a person of a thing if a Director of Quarantine has granted the person a permit to import the thing into Australia.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[11] Paragraphs 30 (2) (c), (d), (e) and (f)

substitute

- (c) an article that:
- (i) in its normal use, is generally meant for human therapeutic use; and
 - (ii) is accompanied into the Cocos Islands by a person who intends to use it for their own personal therapeutic use; and
 - (iii) is in a quantity of no more than 3 months' supply for that use; and
 - (iv) is not prohibited from being imported under Part 7; or
- (d) a cosmetic substance or perfume for human bodily use that contains, in total less than 20% by mass of material of animal origin (for example, musk, civet or ambergris).

[12] Subsection 30 (3)

substitute

- (3) Also, subsection (1) is not taken to prohibit the introduction or importation by a person of a thing if a Director of Quarantine has granted the person a permit to import the thing into the Cocos Islands.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[13] Subsections 31 (2) and (3)

substitute

- (2) However, subsection (1) is not taken to prohibit the importation of an item that is a starter culture, or a derivative of a starter culture (including enzymes) listed in table 11A, if the item is not contained in a milk-based carrier, and is intended for:
- (a) human food, beverage, or cosmetic manufacture;
or
 - (b) in-vitro laboratory work; or
 - (c) in-vivo work in laboratory animals.
- (3) Also, subsection (1) is not taken to prohibit the introduction or importation by a person of a thing if a Director of Quarantine has granted the person a permit to import the thing into the Cocos Islands.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[14] Section 32, table 12*substitute***Table 12 Articles likely to introduce a pest or disease**

Item	Article
Soil etc	
1	Soil and articles containing soil
Water etc	
2	Water, other than: (a) commercially bottled water; or (b) rose water; or (c) orange flower water; or (d) holy water for personal use
3	Sea or ocean water, unless: (a) free from suspended and solid material and marine pathogens; and (b) in a consignment of less than 5 litres; and (c) intended for use in a testing laboratory
Fertilisers and soil conditioners	
4	Fertiliser of any type, including synthetic fertiliser, mined fertiliser, chemical fertiliser, and guano, but not including: (a) chemical liquid fertiliser; and (b) chemical fertiliser packed at the place of production, in new packaging, in units of 100kg or less
5	Growth supplements
6	Soil conditioners of animal, plant or microbial origin
Animal food	
7	Food for animals, of plant, animal (including fish) or microbial origin

Item	Article
Beehives and beekeeping equipment	
8	Beehives, used
9	Beekeeping equipment, used
Birds' nests etc	
10	Birds' nests (including nests intended for use in making soup)
11	Birds' nest products, other than commercially manufactured and canned birds' nest products for consumption by the person wishing to import the product
Coir peat etc	
12	Coir peat and coir peat products
Peat etc	
13	Peat and peat products, including peat moss
Straw	
14	Cereal straw articles, other than small quantities that: (a) are for the personal use of the person wishing to import the article and are not intended for marketing or commercial use; and (b) are treated by an approved treatment on arrival
15	Cereal straw packing
16	Cereal straw bedding
Used Packaging	
17	Used bags, cartons and packaging that have been in contact with animals, animal products, plants or plant products
18	Used egg crates, containers and packaging that have been in contact with eggs

Item	Article
Used Machinery	
19	Used food-processing equipment, other than equipment for domestic use, that has been in contact with: (a) cooked or uncooked animal products; or (b) cooked or uncooked plant products
20	Used earth-moving, agricultural, construction or timber felling machinery, including assembled parts, that have come into contact with soil or material of plant origin
21	Used tyres, with or without rims, other than those imported as part of a vehicle or as a spare tyre for an imported vehicle
22	Used mining machinery, including oil-field drilling machinery that has come into contact with soil
23	Used grain-milling machinery
24	Field-tested agricultural machinery that has come into contact with soil or material of plant origin
Bioremedial products	
25	Bioremedial products

[15] Section 33

substitute

33 Importation of articles likely to introduce pests or diseases

The importation into Australia of an article likely to introduce a pest or disease is prohibited unless a Director of Quarantine has granted the person a permit to import the article into Australia.

Note 1 For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

Note 2 For the meaning of *article likely to introduce a pest or disease*, see table 12.

[16] Section 34

substitute

34 Importation of articles likely to introduce pests or diseases

The importation into the Cocos Islands of an article likely to introduce a pest or disease is prohibited unless a Director of Quarantine has granted the person a permit to import the article into the Cocos Islands.

Note 1 For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

Note 2 For the meaning of *article likely to introduce a pest or disease*, see table 12.

[17] Section 35, after paragraph (a)

insert

(aa) tissue; and

[18] Subsection 37 (2)

substitute

- (2) The importation into Australia of a live animal by a person is prohibited unless a Director of Quarantine has granted the person a permit to import it into Australia.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[19] Subsection 38 (2)

substitute

- (2) However, subsection (1) is not taken to prohibit the importation into Australia of an article mentioned in column 2 of table 13 if the article complies with any condition mentioned in column 2 for that article.

[20] Section 38, table 13*substitute***Table 13 Dead animals and animal parts**

Column 1 Item	Column 2 Animal, article or part
Animals and animal parts	
1	Animals and animal tissues (including fish) if preserved in 70% alcohol or 10% formalin or a minimum of 2% gluteraldehyde, and the preservative fills at least 80% of the container
2	Animals (including fish), if preserved by taxidermy for display, or cremated
3	Bees of the genus <i>Apis</i> , if preserved in 70% alcohol or 10% formalin or a minimum of 2% gluteraldehyde
4	Insects (other than bees of the genus <i>Apis</i>), spiders and scorpions, if preserved for collections or display
Skins and hides	
5	Animal (including fish) skins, if preserved or tanned
6	Rawhide dog chews, if accompanied by a manufacturer's declaration stating that the product has been soaked in a lime solution of pH 14 for not less than 8 hours
Bones, teeth, horn etc	
7	Animal bones, tusks or teeth, for use as curios or jewellery
8	Animal horn without velvet
Hair, bristles, feathers, wool etc	
9	Bristles and hair, if clean, and not for use in animal foods or fertilisers
10	Feathers, if not intended for stockfeed

Column 1 Item	Column 2 Animal, article or part
11	Wool, goat fibre or other animal fibre in commercial consignments, if scoured and with certification confirming the scouring process, and free from contamination by extraneous material (for example faeces, plant material or insects)
12	Wool, goat fibre or other animal fibre for the personal use of the person wishing to import the item, and if scoured and free from contamination by extraneous material (for example faeces, plant material or insects)
Egg shells	
13	Egg shells and egg shell ornaments, if clean and free of adhering material (such as faeces, feathers and egg)
Aquatic animals and their products	
14	Crustaceans (other than prawns or freshwater crayfish, or crustacean meal), if non-viable and clean <i>Note</i> For the importation of fish and crustacean meal, see sections 44 and 54.
15	Fish, dried, (other than fish meal) if free from insects, soil and other debris, and not of the family Salmonidae <i>Note 1</i> For the importation of fish and particular products of fish of the family Salmonidae, see sections 43 and 53. <i>Note 2</i> For the importation of fish and crustacean meal, see sections 44 and 54.
16	Fish, processed (including fish fingers, fish cakes and fish balls, but excluding fish meal), if not of the family Salmonidae, containing less than 10% egg content and fit for human consumption <i>Note 1</i> For the importation of fish and particular products of fish of the family Salmonidae, see sections 43 and 53. <i>Note 2</i> For the importation of fish and crustacean meal, see sections 44 and 54.
17	Cooked freshwater crayfish
18	Molluscs (other than oysters in full or half shell and snails), if non-viable and clean

Column 1 Item	Column 2 Animal, article or part
19	Prawns (other than dried prawns or prawn meal), if cooked or intended for human consumption <i>Note</i> For the importation of fish and crustacean meal, see sections 44 and 54.
20	Prawns, dried (other than prawn meal), if free from insects, soil and other debris <i>Note</i> For the importation of fish and crustacean meal, see sections 44 and 54.
21	Cnidarians (Coelenterates) other than coral sand, if non-viable and clean
22	Echinoderms, if non-viable and clean
23	Tunicates, if non-viable and clean
24	Shells, sea (other than oyster shell), if free of insects, soil and other debris
25	Dead fish or fish parts, other than dried fish, fish meal, and processed fish, if non-viable, clean and not of the family Salmonidae <i>Note 1</i> For the importation of fish and particular products of fish of the family Salmonidae, see sections 43 and 53. <i>Note 2</i> For the importation of fish and crustacean meal, see sections 44 and 54.
Miscellaneous products of animal origin	
26	Fishing flies, if clean and no animal tissue is present
27	Cosmetics of, or partly of, animal origin, if commercially manufactured and packaged and for the personal use of the person wishing to import the item
28	Gelatin, if commercially prepared
29	Canned snails
Meat and meat products	
30	Meat products, if canned, containing less than 5% by weight of meat, and not requiring refrigeration to maintain quality

Column 1 Item	Column 2 Animal, article or part
31	Meat products, if canned, not containing pork meat, not requiring refrigeration to maintain quality, and if for the personal consumption of the person wishing to import the product
32	Meat or meat products, other than pork or avian meat, if declared to be of New Zealand origin and: (a) clearly labelled with the date of processing; and (b) clearly labelled with the name and address of the processing premises; and (c) the outermost wrapping of the largest packaged unit is labelled 'Product of New Zealand' <i>Note</i> If the container is a full sealed shipping container, it is not necessary for each individual package to carry the 'Product of New Zealand' label.
33	Meat or meat products, other than pork or avian meat, if clearly labelled as a product of New Zealand, and if for the personal consumption of the person wishing to import the article
34	Commercially prepared meat floss, if without discernible meat portions, and if for the personal consumption of the person wishing to import the article

[21] Subsection 38 (4)

substitute

- (4) Also, subsection (1) is not taken to prohibit the importation into Australia of oysters in half shells from New Zealand if the shells are clean and free of viable animals and plants.
- (5) Also, subsection (1) is not taken to prohibit the importation of an article listed in item 13, 14, 18, 21, 22, 23, 25, or 26 of table 13 if it is not clean, but it is a condition of its importation that the article is cleaned immediately after import by a method approved by a Director of Quarantine.

- (6) Also, subsection (1) is not taken to prohibit the importation by a person of a thing if a Director of Quarantine has granted the person a permit to import the article into Australia.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[22] Subsection 39 (1), definition of *meat*

omit

a fish, a crustacean,

insert

a fish,

[23] Subsection 39 (1), definition of *meat*, paragraph (b)

omit

gelatin,

[24] Subsections 39 (2) and (3)

substitute

- (2) The importation into Australia of meat or a meat product is prohibited, other than meat or a meat product that is mentioned in table 13 and complies with any condition stated in that item for the meat or meat product.
- (3) However, subsection (2) is not taken to prohibit the importation by a person of meat or a meat product if a Director of Quarantine has granted the person a permit to import the meat or meat product into Australia.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[25] Paragraph 40 (3) (d)

substitute

- (d) lactose, and its derivatives;
- (e) commercially prepared and packaged clarified butter oil.

[26] Subsections 40 (4) and (5)

substitute

- (4) Also, subsection (2) is not taken to prohibit the importation by a person of a thing if a Director of Quarantine has granted the person a permit to import the thing into Australia.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

- (5) Also, if a person entering Australia has the care of, and is accompanied by, 1 or more infants, subsection (2) is not taken to prohibit the importation by the person of a commercially prepared dairy product that is an infant food.

[27] Subsection 41 (1), before the definition of *egg product*

insert

egg means an egg of a bird.

[28] Subsection 41 (4)

substitute

- (4) Also, subsection (2) is not taken to prohibit the importation by a person of a thing if a Director of Quarantine has granted the person a permit to import the thing into Australia.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[29] Subsection 42 (2)*substitute*

- (2) The importation into Australia of a bee product (whether for human consumption or not), is prohibited.
- (3) However, subsection (2) is not taken to prohibit the importation of honey (including honey that contains honeycomb), bee venom, or honeycomb, that is pure and free from extraneous material.
- (4) Also, subsection (2) is not taken to prohibit the importation by a person of a thing if a Director of Quarantine has granted the person a permit to import it into Australia.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[30] Subsections 43 (3) and (4)*substitute*

- (3) However, subsections (1) and (2) are not taken to prohibit the importation of:
 - (a) canned fish, roe or caviar of fish of that family; or
 - (b) smoked salmon:
 - (i) accompanied into Australia by the person wishing to import it; and
 - (ii) in an amount of up to 5 kilograms; and
 - (iii) produced by a manufacturer approved by a Director of Quarantine; or
 - (c) salmon oil, for the personal consumption or use of the person wishing to import it, in a quantity of no more than 3 months' supply for that use.
- (4) Also, subsections (1) and (2) are not taken to prohibit the importation of salmon products otherwise permitted under item 1, 2 or 5 of table 13.

-
- (5) Also, subsections (1) and (2) are not taken to prohibit the importation by a person of fish, fish parts, roe or caviar of that family if a Director of Quarantine has granted the person a permit to import the fish, fish parts, roe or caviar into Australia.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[31] Section 44

substitute

44 Importation of fish meal and crustacean meal

The importation into Australia of fish meal or crustacean meal by a person is prohibited unless a Director of Quarantine has granted the person a permit to import the fish meal or crustacean meal into Australia.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[32] Section 45

omit

[33] Section 46*substitute***46 Importation of animals, animal parts and animal products from Cocos Islands**

The importation into Australia from the Cocos Islands of an animal, animal part or animal product is prohibited unless a Director of Quarantine has granted the person seeking to import it into Australia a permit to do so.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[34] Subsection 47 (2)*substitute*

- (2) The importation into the Cocos Islands of a live animal by a person is prohibited.

[35] After subsection 47 (4)*insert*

- (5) Also, subsection (2) is not taken to prohibit the importation by a person of a live animal if a Director of Quarantine has granted the person a permit to import it into the Cocos Islands.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[36] Subsections 48 (2) and (3)*substitute*

- (2) However, subsection (1) is not taken to prohibit the importation into the Cocos Islands of an article mentioned in column 2 of table 13 if the article complies with any condition stated in column 2 for that article.
- (3) Also, subsection (1) is not taken to prohibit the importation into the Cocos Islands of oysters in half shells from New Zealand, if the shells are clean and free of viable animals and plants.
- (4) Also, subsection (1) is not taken to prohibit the importation of an article listed in item 13, 14, 18, 21, 22, 23, 25, or 26 of table 13 if it is not clean, but it is a condition of its importation that the article is cleaned immediately after import by a method approved by a Director of Quarantine.
- (5) Also, subsection (1) is not taken to prohibit the importation by a person of a thing if a Director of Quarantine has granted the person a permit to import the article into the Cocos Islands.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[37] Subsection 49 (1), definition of *meat**omit*

a fish, a crustacean,

insert

a fish,

[38] Subsection 49 (1), definition of *meat*, paragraph (b)

omit

gelatin,

[39] Subsections 49 (2) and (3)

substitute

- (2) The importation into the Cocos Islands of meat or a meat product is prohibited, other than meat or a meat product that is mentioned in table 13 and complies with any condition mentioned in that item for the meat or meat product.
- (3) However, subsection (2) is not taken to prohibit the importation by a person of meat or a meat product if a Director of Quarantine has granted the person a permit to import the meat or meat product into the Cocos Islands.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[40] Paragraph 50 (3) (d)

substitute

- (d) lactose, and its derivatives;
- (e) commercially prepared and packaged clarified butter oil.

[41] Subsections 50 (4) and (5)

substitute

- (4) Also, subsection (2) is not taken to prohibit the importation by a person of a thing if a Director of Quarantine has granted the person a permit to import the thing into the Cocos Islands.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

-
- (5) Also, if a person entering Australia has the care of, and is accompanied by, 1 or more infants, subsection (2) is not taken to prohibit the importation by the person of a commercially prepared dairy product that is an infant food.

[42] Subsection 51 (1), before the definition of *egg product*

insert

egg means an egg of a bird.

[43] Subsection 51 (4)

substitute

- (4) Also, subsection (2) is not taken to prohibit the importation by a person of a thing if a Director of Quarantine has granted the person a permit to import the thing into the Cocos Islands.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[44] Subsection 52 (2)

substitute

- (2) The importation into the Cocos Islands of a bee product (whether for human consumption or not), is prohibited.
- (3) However, subsection (2) is not taken to prohibit the importation of honey (including honey that contains honeycomb), bee venom, or honeycomb, that is pure and free from extraneous material.
- (4) Also, subsection (2) is not taken to prohibit the importation by a person of a thing if a Director of Quarantine has granted the person a permit to import it into the Cocos Islands.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[45] Subsections 53 (3) and (4)*substitute*

- (3) However, subsections (1) and (2) are not taken to prohibit the importation of:
- (a) canned fish, roe or caviar of fish of that family; or
 - (b) smoked salmon:
 - (i) accompanied into the Cocos Islands by the person wishing to import it; and
 - (ii) in an amount of up to 5 kilograms; and
 - (iii) produced by a manufacturer approved by a Director of Quarantine; or
 - (c) salmon oil, for the personal consumption or use of the person wishing to import it, in a quantity of no more than 3 months' supply for that use.
- (4) Also, subsections (1) and (2) are not taken to prohibit the importation of salmon products otherwise permitted under item 1, 2 or 5 of table 13.
- (5) Also, subsections (1) and (2) are not taken to prohibit the importation by a person of fish, fish parts, roe or caviar of that family if a Director of Quarantine has granted the person a permit to import the fish, fish parts, roe or caviar into the Cocos Islands.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[46] Section 54

substitute

54 Importation of fish meal and crustacean meal

The importation into the Cocos Islands of fish meal or crustacean meal by a person is prohibited unless a Director of Quarantine has granted the person a permit to import the fish meal or crustacean meal into Australia.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[47] Section 55

omit

[48] Section 56, table 15, item 1

substitute

- 1 Meat (including carcases) and meat products (other than canned meat and meat products)

[49] Section 56, table 15, after item 5

insert

- 6 Animal and animal tissue products

[50] Section 57

insert

plant product means a product, wholly or partly of plant origin, that has been processed to prevent:

- (a) the plant material from being infected or contaminated with a quarantinable disease; or
- (b) the plant material being capable of propagation.

[51] After section 57

insert

57A Plant products excluded from application of Part 7

Part 7 does not apply to plant products.

[52] Sections 61 and 62

substitute

61 Importation of plants and plant parts affected by diseases

The importation into Australia of a plant, or part of a plant, that is infected, infested or contaminated with a quarantinable disease is prohibited unless a Director of Quarantine has granted the person wishing to import it into Australia a permit to do so.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

62 Importation of living plants

The importation into Australia of a living plant is prohibited unless a Director of Quarantine has granted the person wishing to import it into Australia a permit to do so.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[53] Subsection 63 (3)

substitute

- (3) However, subsection (1) or (2) is not taken to prohibit the importation by a person of a seed if a Director of Quarantine has granted the person a permit to import it into Australia.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.

[54] Section 64

substitute

64 Importation of fresh fruit and vegetables

The importation into Australia of a fresh fruit or vegetable is prohibited unless a Director of Quarantine has granted the person a permit to import it into Australia.

Note For what a Director of Quarantine must consider when deciding whether to grant such a permit, see Part 8.
