Specimens included on the list are exempt from the trade control provisions that apply to regulated native specimens.

The effect of this instrument is to add the following specimens to the list of exempt native specimens and to make those inclusions subject to the notations specified below:

- Specimens that are or are derived from fish or invertebrates, other than specimens that belong to species listed under Part 13 of the Act, taken in the Queensland East Coast Trochus Fishery.

The inclusion of the specimens in the list is subject to the following notations:

- The specimen, or the fish or invertebrate from which it is derived, was taken lawfully.

The specimen is included on the list until 3 June 2010.

Listing of the specimens described above on the list of exempt native specimens will allow continued export of these specimens for the next five years.

In determining to include the above specimens in the list of exempt native specimens regard was had to the Australian Government's *Guidelines for the ecologically sustainable management of fisheries*.
