Codes for statutes under which licences for carpenters are issued

1. Licences in this column issued under the Home Building Act 1989 (NSW)
2. Licences in this column issued under the Building Act 1993 (VIC)
3. Licences in this column issued under the Queensland Building Services Authority Act 1991 (QLD)
4. Licences in this column issued under the Building Work Contractors Act 1995 (SA)

Codes for Scopes of Work for carpenters.

Licences shown in the table above may include some or all of these scopes of work.

A	Construct or erect timber framing and roof structures
B	Construct or erect cold-formed steel framing and roof structures
C	Construct or erect non load bearing internal partition walls
D	Install windows and doors including framing
E	Erect ceiling and sub floor framing
F	Install timber and sheet flooring
G	Install exterior cladding, fascias and soffits
H	Install timber stairs
I	Fix internal linings, panelling and mouldings
J	Install door and window locks and furniture
K	Restore and renovate doors, windows and frames
L	Install fitments
M	Carry out concreting to simple forms including install formwork, reinforcement and concrete
N	Erect and strip formwork including slip form and jump form formwork
O	Joinery

Codes for statutes under which Builders' licences are issued

1. Licences in this column issued under the Home Building Act 1989 (NSW)
2. Licences in this column issued under the Building Act 1993 (VIC)
3. Licences in this column issued under the Queensland Building Services Authority Act 1991 (QLD)
4. Licences in this column issued under the Builder's Registration Act 1939 (WA)
5. Licences in this column issued under the Building Work Contractors Act 1995 (SA)
6. Licences in this column issued under the Building Act 2000 (TAS)
7. Licences in this column issued under the Construction Occupations (Licensing) Act 2004 (ACT)
8. Licences in this column issued under the Building Act 1993 (NT)

Codes for conditions (restrictions, inclusions and exclusions) applying to Builders' Licences

Basements	Basement construction
BCA	Specified classes of the Building Code of Australia. BCA means the Classification of Buildings and Structures under Part A3 of the Building Code of Australia as amended published by the Australian Building Codes Board.
Cellars	Cellar construction
Com	Commercial building construction
CT-A	Type A construction (BCA)
CT-B	Type B construction (BCA)
CT-C	Type C construction (BCA)
Dem	Demolition work
Des	Design work for construction
Dom	Domestic building construction
Exca	Excavation work (if limited in height, describe the height)
FA (specify area)	Maximum specific floor area(s)
H≤(specify height)	Indicates buildings of less than or equal to the indicated number of storeys or height
H=(specify height)	Indicates building of precisely the indicated number of storeys or height
H≥(specify height)	Indicates buildings of greater than or equal to the indicated number of storeys or height
NSF	Non-Structural Fitout
SF	Structural Fitout
SP	Swimming Pool Construction
SS	Steel framing and/or steel roof structures
SW	Specified work including prefabricated buildings, asbestos handling, removal and/or re-siting of buildings, structural landscaping fencing, glazing, etc
U	Unrestricted. Denotes where it is intended that there be no limit such as in floor area or heights

Codes for statutes under which Plumbing Occupations Licences are issued

1. Licences in this column issued under the Home Building Act 1989 (NSW)
2. Licences in this column issued under the Building Act 1993 (VIC)
3. Plumbers and Drainers Licences in this column issued under the Plumbing and Drainage Act 2002 (QLD)
Gas Licences in this column issued under the Petroleum and Gas (Production & Safety) Act 2004 (QLD)
Trade Contractor Licence in this column issued under the Queensland Building Services Authority Act 1991 (QLD)
4. Plumbers Licences in this column issued under the Water Services Licensing Act 1995 (WA)
Gas Licences in this column issued under the Gas Standards Act 1972 (WA)
5. Licences in this column issued the Plumbers, Gas-fitters and Electricians Act 1995 (SA)
6. Licences in this column issued under the Plumbers and Gas-fitters Registration Act 1951 (TAS)
7. Licences in this column issued under the Construction Occupations (Licensing) Act 2004 (ACT)
Gas Workers Accreditation Type A and Type B in this column issued under the Gas Safety Act 2000 (ACT)
8. Plumbers and Drainers Licences in this column issued under the Plumbers and Drainers Act 2003 (NT)
Gas-fitter Licences in this column issued under the Dangerous Goods Act 2004 (NT)

Codes for Scopes of Work for Plumbing Occupations

BFP	Backflow Prevention Devices
D	Drainage
FP	Fire Protection
FP (a)	Hydrant and hose reels
FP (b)	Residential and domestic fire sprinkler systems
FP (c)	Commercial and industrial fire sprinkler systems
FP (d)	Fire systems pump sets
FP (e)	Hazards fire suppression
G	Gasfitting
G Type A	Gas Appliances Type A
G Type B	Gas Appliances Type B
HWU	Hot Water Temperature Control Devices
I	Irrigation (non-agricultural)
LPG-V	LPG Vapour
LPG-L	LPG Liquid; Liquid LPG is a tank based product usually at petrol stations.
MS	Mechanical Services
MS-HC	Heating and Cooling Systems
NG	Natural Gas

Schedule 6 - Mutual recognition matrix – Plumbing Occupations -Registrations
(includes Registrations and Restricted Registrations)

Codes for statutes under which Plumbing Occupations licences are issued

1. Licences in this column issued under the Home Building Act 1989 (NSW)
2. Licences in this column issued under the Building Act 1993 (VIC)
3. Plumbers and Drainers Licences in this column issued under the Plumbing and Drainage Act 2002 (QLD)
Gas Licences in this column issued under the Petroleum and Gas (Production & Safety) Act 2004 (QLD)
Trade Contractor Licence in this column issued under the Queensland Building Services Authority Act 1991 (QLD)
4. Plumbers Licences in this column issued under the Water Services Licensing Act 1995 (WA)
Gas Licences in this column issues under the Gas Standards Act 1972 (WA)
5. Licences in this column issued the Plumbers, Gas-fitters and Electricians Act 1995 (SA)
6. Licences in this column issued under the Plumbers and Gas-fitters Registration Act 1951 (TAS)
7. Licences in this column issued under the Construction Occupations (Licensing) Act 2004 (ACT)
Gas Workers Accreditation Type A and Type B in this column issued under the Gas Safety Act 2000 (ACT)
8. Plumbers and Drainers Licences in this column issued under the Plumbers and Drainers Act 2003 (NT)
Gas-fitter Licences in this column issued under the Dangerous Goods Act 2004 (NT)

Codes for Scopes of Work for Plumbing Occupations

BFP	Backflow Prevention Devices
D	Drainage
FP	Fire Protection
FP (a)	Hydrant and hose reels
FP (b)	Residential and domestic fire sprinkler systems
FP (c)	Commercial and industrial fire sprinkler systems
FP (d)	Fire systems pump sets
FP (e)	Hazards fire suppression
G	Gasfitting
G Type A	Gas Appliances Type A
G Type B	Gas Appliances Type B
HWU	Hot Water Temperature Control Devices
I	Irrigation (non-agricultural)
LPG-V	LPG Vapour
LPG-L	LPG Liquid; Liquid LPG is a tank based product usually at petrol stations.
MS	Mechanical Services
MS-HC	Heating and Cooling Systems
NG	Natural Gas
RP	Roof Plumbing
SP	Sanitary Plumbing
WP	Water Plumbing
WP-P	Water Pipe – conditions

Schedule 7: Mutual Recognition matrix – Automotive gas installers

21	Gas Fitter Certificate – Autogas (Provisional)	Not licensed in this jurisdiction	Not licensed in this jurisdiction	Not licensed in this jurisdiction	Not licensed in this jurisdiction	Gas Fitting Permit - Class II - LPG	Not licensed in this jurisdiction	Not licensed in this jurisdiction	

Codes for Statutes under which Automotive gas installer licences are issued:

1. Licences issued in this column under the Motor Vehicle Repairs Act 1980(NSW)
2. Licences issued in this column under the Dangerous Goods Act 1998 (VIC)
3. Licences issued in this column under the Gas Standards Act 1972 (WA)
4. Licences issued in this column under the Dangerous Substances Act 1979 (SA)
5. Licences issued in this column under the Dangerous Goods Act 1998 (TAS)
6. Licences issued in this column under the Construction Occupations (Licensing) Act 2004 (ACT)
7. Licences issued in this column under the Dangerous Goods Act 1998 (NT)

Codes for Scope of Work for Automotive gas installers:

Licences shown in the table above may include some or all of these scopes of work.

IN	Installation
MS	Maintenance/Servicing
RE	Repairing
AM	Altering/Modifying
TE	Testing
CO	Commissioning
CE	Certifying compliance with relevant Australian Standards and jurisdictional regulatory requirements
LPG	Liquefied Petroleum Gas
LNG	Liquefied Natural Gas
CNG	Compressed Natural Gas

Codes for statutes under which Air-conditioning and Refrigeration Mechanics licences are issued

1. Licences in this column issued under the Home Building Act 1989 Section 27 (NSW)
2. Licences in this column issued under the Building Act 1993 (VIC)
3. Licences in this column issued under the Queensland Building Services Authority Act 1991(QLD)
NB *Electrical work of a like-for-like nature and disconnect / reconnect incidental to the Refrigeration Mechanic's trade will require the possession of a Restricted Electrical Work Licence, issued under the Electrical Safety Act 2002.*
4. Licences in this column issued under the Building Work Contractors Act 1995 (SA)
5. Licences in this column issued under the Plumbers and Gas-fitters Registration Act 1951(TAS)

Codes for Scopes of Work for Air-conditioning and Refrigeration Mechanics

ABW-A	Building work related to the installation, replacement, repair, alteration, maintenance, testing and commissioning of mechanical heating and cooling and ventilation systems in or of buildings.
ABW-B	Building work related to the installation of ducting associated with mechanical heating and cooling and ventilation systems
AMSP-A	Construction, installation, replacement, repair, alteration, maintenance, testing and commissioning of mechanical heating, cooling and ventilation systems (excluding ducting) in or of buildings, (does not mean Gasfitting or Water plumbing).
AMSP-B	Construction, installation, replacement, repair, alteration, maintenance, testing and commissioning of mechanical heating, cooling and ventilation systems (excluding ducting) in or of a structure (that isn't a building), (does not mean Gasfitting or Water plumbing).
AMSP-C	Construction, installation, replacement, repair, alteration, maintenance, testing and commissioning of mechanical heating, cooling and ventilation systems (excluding ducting) in a vessel (does not mean Gasfitting or Water plumbing).
AMSP-D	Construction, installation, replacement, repair, alteration, maintenance, testing and commissioning of mechanical heating, cooling and ventilation systems (excluding ducting) in or of a container (does not mean Gasfitting or Water plumbing).
AMSP-E	Construction, installation, replacement, repair, alteration, maintenance, testing and commissioning of mechanical heating, cooling and ventilation systems (excluding ducting) in or of a railway vehicle (does not mean Gasfitting or Water plumbing).
AMSP-F	Replacement, repair, alteration, maintenance, testing and commissioning of ducting associated with mechanical heating and cooling and ventilation systems in or of buildings.
AMSP-G	Replacement, repair, alteration, maintenance, testing and commissioning of ducting associated with mechanical heating and cooling and ventilation systems in or of a vessel.
ADW-A	Design of mechanical heating and cooling and ventilation systems in or of buildings subject to the following conditions (but does not mean Gasfitting or Water plumbing);
ADW-B	Restricted to systems of no greater than 18 Kilowatts capacity.
ADW-C	Restricted to a class of building as defined under the Building Code of Australia.

ADW-D	Restricted to a system designed to service a floor area of less than 2000 square metres.
ADW-E	Restricted to a building height of less than 3 storeys.
AEW	<p>Disconnection and reconnection of domestic or commercial air-conditioning and refrigeration equipment or components and includes faultfinding of equipment to determine component failure. It includes installation work (excluding the installation of fixed wiring) and plug and cord faultfinding.</p> <p>Note: South Australia and Western Australia allows licensees for this class to install factory supplied fixed cable between split air-conditioning systems up to 4 Kilowatts.</p>
AC-S	Supervision only of the performance of any airconditioning work.
RBW-A	Building work related to the installation, replacement, repair, alteration, maintenance, testing and commissioning of refrigeration equipment, including coolrooms, in buildings.
RBW-B	Building work related to the installation of ducting associated with refrigeration systems
RMSP-A	Construction, installation, replacement, repair, alteration, maintenance, testing and commissioning of refrigeration equipment which is associated with mechanical heating and cooling and ventilation systems located in or of a building.
RMSP-B	Construction, installation, replacement, repair, alteration, maintenance, testing and commissioning of refrigeration equipment which is associated with mechanical heating and cooling and ventilation systems located in or of a structure.
RMSP-C	Construction, installation, replacement, repair, alteration, maintenance, testing and commissioning of refrigeration equipment which is associated with mechanical heating and cooling and ventilation systems located in or of a vessel.
RMSP-D	Construction, installation, replacement, repair, alteration, maintenance, testing and commissioning of refrigeration equipment which is associated with mechanical heating and cooling and ventilation systems located in or of a container.
RMSP-E	Construction, installation, replacement, repair, alteration, maintenance, testing and commissioning of refrigeration equipment which is associated with mechanical heating and cooling and ventilation systems located in or of a vehicle.
RDW	Design of refrigeration equipment systems in buildings.
REW	<p>Disconnection and reconnection of domestic or commercial air-conditioning and refrigeration equipment or components and includes faultfinding of equipment to determine component failure. It includes installation work (excluding the installation of fixed wiring) and plug and cord faultfinding. Note: South Australia and Western Australia allow licensees for this class to install factory supplied fixed cable between split air-conditioning systems up to 4 Kilowatts.</p>
R-S	Supervision only of the performance of any refrigeration work
CW	Contracting with clients for the performance of air-conditioning and/or refrigeration work or a class of that work, and/or certifying air-conditioning and/or refrigeration work or a class of that work.

Schedule 9: Mutual recognition matrix – Electricians

Codes for statutes under which Electrician licences are issued

1. Licences in this column issued under the *Home Building Act 1989* (NSW)
2. Licences in this column issued under the *Electricity Safety Act 1998* (VIC)
3. Licences in this column issued under the *Electrical Safety Act 2002* (QLD)
4. Licences in this column issued under the *Electricity Act 1945* (WA)
5. Licences in this column issued under the *Plumbers Gasfitters and Electricians Act 1995* (SA)
6. Licences in this column issued under the *Electricity Industry Safety and Administration Act 1997* (TAS)
7. Licences in this column issued under the *Construction Occupations (Licensing) Act 2004* (ACT)
8. Licences in this column issued under the *Electrical Workers and Contractors Act 2002* (NT)

Agreed scope of work for all electrician licences in the above table

“Licensed electrician” means a person who is licensed to undertake unsupervised electrical work in a jurisdiction.

“Electrical work” means, selection, assembling, constructing, installing, testing, fault-finding, commissioning, maintaining, repairing, altering, removing, or replacing of electrical equipment and/or electrical installations. It may include the supervision or inspection of electrical work.

"Electrical equipment" means any appliance, article, accessory, wire, fitting, cable, conduit or apparatus that generates, uses, conveys or controls (or that is intended to, or has been used to, generate, use, convey or control) electricity operating above extra low voltage.

“Extra low voltage” means as defined in AS/NZS 3000"Electrical installation" is as defined in AS/NZS 3000 (commonly known as the “wiring rules”).

Schedule 10: Mutual recognition matrix – Electrical Fitters

2. Licences in this column issued under the Plumbers, Gas Fitters and Electricians Act 1995 (SA)
3. Licences in this column issued under the Electrical Workers and Contractors Act 2002 (NT)

Codes for Scope of Work for Lineworkers

Licences shown in the table above may include some or all of these scopes of work.

ELT Electrical Linework - Transmission
 ELD Electrical Linework - Distribution
 ELR Electrical Linework - Rail Traction

Schedule 13: Mutual recognition matrix – Restricted electrical licences

Note: Prior to the issue of an equivalent restricted electrical licence in this table through the mutual recognition process, the need for the issue of the equivalent licence must be established by the jurisdictional regulator based on the demonstrated requirement for the performance of this work in the specific job being undertaken.

In some instances a Restricted Electrical Licence (REL) will only be given when the applicant holds a relevant licence in their primary trade, for example a plumbing licence or a gas-fitting licence.

47	Restricted electrical worker registration – disconnect/reconnect electric hot water heaters	Disconnection and reconnection of fixed electrical equipment licence - Plumbing equipment restricted to WP-6,	Disconnect / reconnect worker's licence - Class Description 3. Plumbing/gasfitting equipment restricted to WP-6	Restricted Electrical Work Licence Plumbing /gas: Trade qualified plumber (NREL 1,2,3 only) / (NRE 1A only) restricted to WP-6.	Electrical Workers Licence Restricted – Plumbing Worker restricted to WP-6.		Restricted Electrical Technicians Licence, Plumbing & Gas Fitting Equipment restricted to WP-6, limited to water heaters only.	Electrician restricted: electro-technology systems licence plumbing and gasfitting-restricted to WP-6, GE-7.	No Equivalent Declared
48	Restricted electrical worker registration – disconnect/reconnect industrial equipment	Disconnection and reconnection of fixed electrical equipment licence - Commercial and industrial equipment restricted to CE-8, MD-10.	Disconnect / reconnect worker's licence - Class Description 1. Office equipment restricted CE-8. And Disconnect / reconnect worker's licence - Class Description 5, Industrial equipment, restricted to MD-10.	Restricted Electrical Work Licence – disconnect/reconnect (NREL 1,2)/ (NRE - 1A) , restricted to CE-8, MD-10.	Electrical Workers Licence Restricted- Disconnect and Reconnect (Industrial) restricted to MD-10.		Restricted Electrical Technicians Licence, Industrial Equipment restricted to CE-8, MD-10	Electrician restricted: electro-technology systems – licence mechanics services, restricted to MD-10.	Restricted Electrical Licence – Disconnection and Reconnection, restricted to CE-8, MD-10, EE-14

Codes for statutes under which Restricted Electrical Licences are issued:

1. Licences in this column are issued under the Home Building Act 1989 (NSW)
2. Licences in this column are issued under the Electrical Safety Act 1998 (VIC)
3. Licences in this column are issued under the Electrical Safety Act 2002 (QLD)
4. Licences in this column are issued under the Electrical Act 1945 (WA)
5. Licences in this column are issued under the Plumbers Gasfitter and Electricians Act 1995 (SA)
6. Licences in this column are issued under the Electricity Industry Safety and Administration Act 1997 (TAS)
7. Licences in this column are issued under the Construction Occupations (Licensing) Act 2004 (ACT)
8. Licences in this column are issued under the Electrical Workers and Contractors Act 2002 (NT)

Codes for Scope of Work for Restricted Electrical Licences

RA-1	Refrigeration and Air Conditioning
IP-2	Instrumentation and Process control Equipment
EF-3	Electrical Fitting
WG-4	Assembly and Servicing White Goods
NS-5	Neon Signs
WP-6	Water Plumbing
GE-7	Gas Equipment
CE-8	Composite Equipment
EP-9	Explosion protection Equipment
MD-10	Motors Disconnection and Reconnection
EM-11	Self-propelled Earth-moving Equipment
PC-12	Plug and Cord Connect Equipment Rated to 250V
PC-13	Plug and Cord Connect Equipment Rated to 1000V
EE-14	Electronics Equipment
DA-15	Domestic Appliances and Equipment
MS-16	Electrical Marine on-vessel Systems
FF-17	Fault Finding

Codes relating specifically to Queensland licence names

NREL - National Restricted Electrical Licence (old version of licence)

NREL - 1	Occupational Health and Safety
NREL – 2	Disconnect Reconnect fixed wired equipment
NREL – 3	Locate and rectify faults in 650V equipment
NREL – 3 & 4	Locate and rectify faults in 650v equipment
NREL – 5	Attached flexible cord and plug to 250v equipment
NREL – 6	Attached flexible cord and plug to 650v equipment

NRE - National Restricted Electrical (new version of licence)

NRE – 1A	Disconnect/Reconnect fixed wired equipment to LV support
NRE – 2A	Attach cords and plugs to equipment sing phase 250V supply
NRE – 3A	Attach cords and plugs to equip 1000Vac or 1500 Vdc
NRE – 7A	Locate and rectify faults in LV equipment – 250V only or 1000V
