

STANDARD 1.4.4

PROHIBITED AND RESTRICTED PLANTS AND FUNGI

Purpose

This standard regulates plants and fungi. It lists the species of plants and fungi that must not be added to food or offered for sale as food. It also lists the species of plants and fungi that may not be used in food except as a source of a flavouring substance.

Table of Provisions

- 1 Prohibited plants and fungi
- 2 Restricted plants and fungi

- Schedule 1 Prohibited plants and fungi
- Schedule 2 Restricted plants and fungi

Clauses

1 Prohibited plants and fungi

- (1) A plant or fungus, or a part or a derivative of a plant or fungus listed in Schedule 1, or any substance derived therefrom, must not be intentionally added to food or offered for sale as food.
- (2) *Eurythroxylum coca* (coca bush) or any substance derived therefrom must not be present in a food unless the cocaine has been removed.

Editorial note:

Subclause (1) is not intended to prohibit the natural presence of plants and fungi in food; or the unintentional addition of plants and fungi to food that occur within the bounds of recognised acceptable Good Agricultural Practice or Good Manufacturing Practice. If a public health and safety concern is identified because of the presence of such substances, they will be addressed through the setting of a limit on these substances in final food products. Standard 1.4.1 establishes maximum limits for some natural toxicants in food.

2 Restricted plants and fungi

A plant or fungus, or a part or a derivative of a plant or fungus listed in Schedule 2, or any substance derived there from, may only be added to or be present in a food if it complies with the requirements for natural toxicants from the addition of a flavouring substance in the Table to clause 4 of Standard 1.4.1.

Editorial Note:

Clause 4 of Standard 1.4.1 imposes maximum levels of natural toxicants arising from the use of certain flavouring substances.

Standard 1.3.1 regulates food additives, including the addition and presence of flavourings in food.

Amendment History

The Amendment History provides information about each amendment to the Standard. The information includes commencement or cessation information for relevant amendments.

These amendments are made under section 92 of the *Food Standards Australia New Zealand Act 1991* unless otherwise indicated. Amendments do not have a specific date for cessation unless indicated as such.

About this compilation

This is a compilation of Standard 1.4.4 as in force on **15 January 2015** (up to Amendment No. 152). It includes any commenced amendment affecting the compilation to that date.

Prepared by Food Standards Australia New Zealand on **15 January 2015**.

Uncommenced amendments or provisions ceasing to have effect

To assist stakeholders, the effect of any uncommenced amendments or provisions which will cease to have effect, may be reflected in the Standard as shaded boxed text with the relevant commencement or cessation date. These amendments will be reflected in a compilation registered on the Federal Register of Legislative Instruments including or omitting those amendments and provided in the Amendment History once the date is passed.

The following abbreviations may be used in the table below:

ad = added or inserted
exp = expired or ceased to have effect
rs = repealed and substituted

am = amended
rep = repealed

Standard 1.4.4 was published in the *Commonwealth of Australia Gazette* No. P 30 on 20 December 2000 as part of Amendment 53 (F2008B00621 — 30 September 2008) and has since been amended as follows:
