

## EXPLANATORY STATEMENT

### *Environment Protection and Biodiversity Conservation Act, 1999*

Amendment of the List of Exempt Native Specimens in accordance with Section 303DC

Section 303DB of the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act) provides for the establishment of a list of exempt native specimens. Specimens included on the list are exempt from the trade control provisions that apply to regulated native specimens.

The effect of this instrument is to **delete** from the list of exempt native specimens the following specimens and any associated notations:

- Specimens that are or are derived from fish or invertebrates taken in the Queensland Marine Aquarium Fish Fishery.

Subsection 303DC(3) of the EPBC Act provides that before amending the list, the Minister must consult such other Minister or Ministers, including a Minister or Ministers of each State and self-governing Territory and such other persons and organizations as the Minister considers appropriate. In this instance, the Delegate of the Minister for Environment, Heritage and the Arts consulted with the Queensland Minister for Primary Industries and Fisheries and the Queensland Department of Primary Industries and Fisheries as the Minister and Department have management responsibilities for the fishery concerned. In addition, the proposal to amend the list of exempt native specimens was advertised on DEWHA's website and comment was invited from interested people for a period of 22 days. Any comments received were taken into account in the decision to include the fishery on the list of exempt native specimens.

This instrument is a legislative instrument for the purposes of the *Legislative Instruments Act 2003*.

The instrument commenced on the day after it was registered on the Federal Register of Legislative Instruments.
