**9 Operation of Schedules 1 to 5**

- (1) In Schedules 1 to 5:
  - (a) lines are specified by reference to points; and
  - (b) the columns of an item in a table in which a point is specified set out information about the point; and
  - (c) the information about the point:
    - (i) includes the point identifier shown in the first column of an item in the table (the point identifier is sometimes used in this Proclamation to refer to the point); and
    - (ii) may also include a treaty point reference, which is a reference to how the point is referred to in the relevant treaty for a point mentioned in section 10; and
    - (iii) also includes geographic coordinates for the point (for more about geographic coordinates, see section 11); and
  - (d) the geographic coordinates for a point determine the location of the point for this Proclamation.

*Note* For some points mentioned in Schedule 1, the information may include more than one treaty (and more than one treaty point reference).

- (2) In Schedules 1 and 3:
  - (a) the geographic coordinates for a point (and the datum by reference to which they are determined) shown in Part 1 of each Schedule determine the location of the point for this Proclamation; and
  - (b) the geographic coordinates shown in Part 2 of each Schedule:
    - (i) represent the authoritative conversion for some of the points mentioned in Part 1 of each Schedule into the International Terrestrial Reference Frame 2000 (ITRF2000), as defined by the International Earth Rotation and Reference Systems Service at epoch 1 January 2000 in *IERS Technical Note No. 31*; and
    - (ii) are included for the information of readers; and
    - (iii) do not determine the location of those points for this Proclamation; and

- (iv) are included to clarify the relationship between certain historical datums and ITRF 2000, so that a connection with future datums can be maintained.

## 10 Relevant treaties

The relevant treaty for a point is as follows:

## Part 2 References to certain points by geographic coordinates in terms of International Terrestrial Reference Frame 2000

The following table shows the geographic coordinates for some points mentioned in Part 1 in terms of ITRF2000, and represents the authoritative conversion into ITRF2000. This table is for information only and is included to clarify the relationship between certain historical datums and ITRF 2000, so that a connection with future datums can be maintained. For this Proclamation, the location of a point mentioned in Part 1 is determined by the geographic coordinates, and by reference to the datum, mentioned for the point in Part 1. The coordinates and the datum for a point mentioned in Part 1 reflect the terms of any relevant treaty (see paragraph 9 (2) (b)).
