

# Clean Energy Amendment Regulation 2012 (No. 4)<sup>1</sup>

**Select Legislative Instrument 2012 No. 126**

---

I, QUENTIN BRYCE, Governor-General of the Commonwealth of Australia, acting with the advice of the Federal Executive Council, make the following regulation under the *Clean Energy Act 2011*.

Dated 28 June 2012

QUENTIN BRYCE  
Governor-General

By Her Excellency's Command

GREG COMBET  
Minister for Climate Change and Energy Efficiency

---

**1 Name of regulation**

This regulation is the *Clean Energy Amendment Regulation 2012 (No. 4)*.

**2 Commencement**

This regulation commences on 1 July 2012.

**3 Amendment of *Clean Energy Regulations 2011***

Schedule 1 amends the *Clean Energy Regulations 2011*.

**Schedule 1 Amendments**

(section 3)

**[1] Regulation 1.3, definition of *liquid petroleum gas*, or **LPG****

*substitute*

*liquefied petroleum gas*, or **LPG**, has the same meaning as *liquefied petroleum gas* in regulation 1.03 of the NGER Regulations.

**[2] Paragraph 1.9 (1) (a)**

*omit*

at which:

*insert*

in relation to which:

---

**[3] After subregulation 1.9 (1)**

*insert*

- (1A) However, if the natural gas exits from a point on a pipeline in the circumstances in paragraph (1) (a), or is combusted in the circumstances in paragraph (1) (b), during the period between 1 July 2012 and 31 August 2012, a withdrawal of natural gas is taken to have occurred on 1 September 2012.

**[4] After regulation 3.2**

*insert*

**3.3 Adjustment of provisional emissions number—Joint Petroleum Development Area and Greater Sunrise unit area**

For the definition of *prescribed percentage* in subsections 26 (2), 27 (2) and 28 (2) of the Act, 0% is specified in relation to the facility for the eligible financial years commencing on 1 July 2012, 1 July 2013 and 1 July 2014.

**[5] Regulation 3.5**

*omit each mention of*

liquid petroleum gas

*insert*

liquefied petroleum gas

**[6] Schedule 1, Part 3, after Division 43***insert***Division 44 Manufacture of reconstituted wood-based panels**

344 (1) The manufacture of reconstituted wood-based panels is the physical and chemical transformation of wood, including wood particles and residues (such as chips, shavings and sawdust) into a reconstituted wood-based panel that:

- (a) has a density of greater than 500 kg a cubic metre; and
- (b) has individual wood particles or fibres with an average maximum dimension of no more than 30 mm.

*Examples of reconstituted wood-based panels* are particleboard and medium density fibreboard.

- (2) The manufacture of reconstituted wood-based panels is specified as an emissions-intensive trade-exposed activity.
- (3) The manufacture of reconstituted wood-based panels is a moderately emissions-intensive activity.
- (4) The basis for the issue of free carbon units for the manufacture of reconstituted wood-based panels is by a tonne of raw reconstituted wood-based panel that:
  - (a) has a density of greater than 500 kg a cubic metre; and
  - (b) has individual wood particles or fibres with an average maximum dimension of no more than 30 mm; and
  - (c) is produced by carrying on the emissions-intensive trade-exposed activity; and
  - (d) is of saleable quality.

*Note* **Saleable quality** is explained in Part 2.

---

**[7]        Schedule 1, subclause 401 (1), table, after item 2.11**

*insert*

2.12	Manufacture of reconstituted wood-based panels	Raw reconstituted wood-based panel of saleable quality	0.0888	0.372	n/a
