

# Television Licence Area Plan (Regional Queensland) 2012

*Broadcasting Services Act 1992*

---

The Authority Division for Switchover and Planning, delegate of the AUSTRALIAN COMMUNICATIONS AND MEDIA AUTHORITY, makes this Plan under subsection 26 (1B) of the *Broadcasting Services Act 1992*.

Dated 5<sup>th</sup> December 2012

*Chris Chapman*

*Richard Bean*  
[signed]  
Member/~~General Manager~~

Australian Communications and Media Authority

---

## **1 Name of Plan**

This Plan is the *Television Licence Area Plan (Regional Queensland) 2012*.

---

## 2 Commencement

This Plan comes into force on the day after the end of the simulcast period for the Regional Queensland TV1 licence area.

*Note* Subparagraph 6(3)(c)(iia) of Schedule 4 to the Act provides that the simulcast period for a regional licence area should run until 31 December 2013, or for such other period as is determined by the Minister under subclause 6A(2) of Schedule 4 to the Act.

## 3 Definitions

In this Plan:

*ACMA* means the Australian Communications and Media Authority.

*Act* means the *Broadcasting Services Act 1992*.

*commercial television broadcasting licensee* means the licensee of a commercial television broadcasting licence.

*ERP* means effective radiated power.

*national television broadcasting service* has the same meaning as in clause 2 of Schedule 4 to the Act.

*Regional Queensland TV1 licence area* means the area described in Attachment 1.

*simulcast period* has the same meaning as in clause 2 of Schedule 4 to the Act.

*television broadcasting service* has the same meaning as in section 26 of the Act.

*transmitter licence* has the same meaning as in section 5 of the *Radiocommunications Act 1992*.

*Note* Terms and expressions used in this Plan have the meaning given by section 6 of the Act. For example:

- commercial television broadcasting licence.
- national broadcaster.

## 4 Specification of channels to be available in particular areas within the Regional Queensland TV1 licence area

(1) Subject to subsection (2), each channel specified in column 1 of an item in a table in a Schedule to this Plan is available, in the area in column 7, to provide television broadcasting services.

(2) If a date is specified in column 3 of an item in a table in a Schedule to this Plan, the channel specified in column 1 of the item is not available in the area in column 7 to provide television broadcasting services after that date.

*Note 1* A channel may be specified to be available only for a limited period in order to allow a broadcaster to swap channels on which it transmits services.

*Note 2* Although a channel is specified to be available for all parts of a licence area, a particular broadcaster may only be authorised to use that channel in one part of a licence area.

---

*Example* Channel 28 may be specified to be available for all parts of a licence area. Channel 28 may be allotted to Broadcaster A and Broadcaster B. The ACMA may issue a transmitter licence for the use of channel 28 to Broadcaster A in one part of the licence area (*Part A*), and issue a transmitter licence for the use of a different channel to the same broadcaster in another part of the licence area (*Part B*). The ACMA may issue a transmitter licence for the use of channel 28 to Broadcaster B in Part B. Broadcaster A will not be entitled to transmit on channel 28 in Part B, as the broadcaster will not have a transmitter licence authorising such a transmission.

## **5 Allotment of channels to commercial television broadcasting licensees – Schedule 1**

### *Allotment of channels to commercial television broadcasting licensees*

- (1) Each channel specified in column 1 of an item in a table in Schedule 1 is allotted to the commercial television broadcasting licensee of the licence specified for the table for use in the area in column 7, from the date (if any) specified in column 2 until the date (if any) specified in column 3.
- (2) If no date is specified in column 2 for an item in a table in Schedule 1, the channel specified in column 1 of the item is allotted to the commercial television broadcasting licensee of the licence specified for the table from the day on which this Plan comes into force.
- (3) If no licensee is specified for a table in Schedule 1, the ACMA may allot the channel specified in column 1 of an item in the table to the commercial television broadcasting licensee of a commercial television broadcasting licence for the licence area specified for the table, for use in the area in column 7.

*Note* If the ACMA has not allotted a channel specified in the table, the ACMA may make the channel available for use in an area by a commercial television broadcasting licensee, a national broadcaster or any other person by making a determination under section 34 of the Act and issuing a licence under section 100 of the *Radiocommunications Act 1992*.

### *Determination of technical specifications of transmission of commercial television broadcasting services*

- (4) A channel specified in column 1 of an item in a table in Schedule 1 must only be used for transmission of commercial television broadcasting services in accordance with the following specifications:
  - (a) subject to subsection (5), the transmission must not have an ERP greater than that specified in column 4;
  - (b) the transmission must have the polarisation specified in column 5;
  - (c) the transmission must comply with any additional specification specified in column 6.

- 
- (5) A transmission may have an ERP greater than that specified in column 4, if:
- (a) the ACMA issues a transmitter licence that authorises the use of the channel specified in column 1 of the item; and
  - (b) a condition of that transmitter licence relates to the maximum ERP of the transmission made by that transmitter; and
  - (c) either:
    - (i) the condition complies with any applicable requirements in the *Broadcasting Services (Technical Planning) Guidelines 2007*; or
    - (ii) if there are no applicable requirements – the condition does not allow the transmitter to be used to provide a transmission greater than 5 dB more than the ERP specified in column 4.

*Note* Under the *Radiocommunications Act 1992*, the ACMA may also impose a transmitter licence condition specifying an output radiated pattern for the use of a transmitter. The condition may set a limit for the ERP in a particular direction that is less than the maximum ERP specified in column 4 of an item that applies to the channel used by that transmitter.

*Determination of technical limitations and conditions on use of channel*

- (6) A channel specified in column 1 of an item in a table in Schedule 1 must only be used for transmission of commercial television broadcasting services in accordance with a technical limitation (if any) specified for the table that is applicable to that channel.
- (7) The ACMA may determine additional technical limitations on the use of the channel.

*Note* Even if no applicable technical limitation is specified for the table, the ACMA may still determine additional technical limitations on the use of a channel by making a determination under this subsection.

- (8) A channel specified in column 1 of an item in a table in Schedule 1 must only be used for transmission of commercial television broadcasting services if an event or circumstance (if any) specified for the table that is applicable to that channel occurs.
- (9) The ACMA may determine additional events or circumstances which must occur before the channel may be used.

*Note* Even if no applicable event or circumstance is specified for the table, the ACMA may still determine additional events or circumstances that must be met before the channel may be used by making a determination under this subsection.

---

## 6 Allotment of channels to national broadcasters – Schedule 2

### *Allotment of channels to national broadcasters*

- (1) Each channel specified in column 1 of an item in a table in Schedule 2 is allotted to the national broadcaster specified for the table for use in the area in column 7, from the date (if any) specified in column 2 until the date (if any) specified in column 3.
- (2) If no date is specified in column 2 for an item in a table in Schedule 2 the channel specified in column 1 of the item is allotted to the national broadcaster specified for the table from the day on which this Plan comes into force.
- (3) If no national broadcaster is specified for a table in Schedule 2, the ACMA may allot the channel specified in column 1 of an item in the table to a national broadcaster for use in the area in column 7.

*Note* If the ACMA has not allotted a channel specified in the table, the ACMA may make the channel available for use in an area by a commercial television broadcasting licensee, a national broadcaster or any other person by making a determination under section 34 of the Act and issuing a licence under section 100 of the *Radiocommunications Act 1992*.

### *Determination of technical specifications of transmission of national television broadcasting services*

- (4) A channel specified in column 1 of an item in a table in Schedule 2 must only be used for transmission of national television broadcasting services in accordance with the following specifications:
  - (a) subject to subsection (5), the transmission must not have an ERP greater than that specified in column 4;
  - (b) the transmission must have the polarisation specified in column 5;
  - (c) the transmission must comply with any additional specification specified in column 6.

- 
- (5) A transmission may have an ERP greater than that specified in column 4, if:
- (a) the ACMA issues a transmitter licence that authorises the use of the channel specified in column 1 of the item; and
  - (b) a condition of that transmitter licence relates to the maximum ERP of the transmission made by that transmitter; and
  - (c) either:
    - (i) the condition complies with any applicable requirements in the *Broadcasting Services (Technical Planning) Guidelines 2007*; or
    - (ii) if there are no applicable requirements – the condition does not allow the transmitter to be used to provide a transmission greater than 5 dB more than the ERP specified in column 4.

*Note* Under the *Radiocommunications Act 1992*, the ACMA may also impose a transmitter licence condition specifying an output radiated pattern for the use of a transmitter. The condition may set a limit for the ERP in a particular direction that is less than the maximum ERP specified in column 4 of an item that applies to the channel used by that transmitter.

*Determination of technical limitations and conditions on use of channel*

- (6) A channel specified in column 1 of an item in a table in Schedule 2 must only be used for transmission of national television broadcasting services in accordance with a technical limitation (if any) specified for the table that is applicable to that channel.
- (7) The ACMA may determine additional technical limitations on the use of the channel.

*Note* Even if no applicable technical limitation is specified for the table, the ACMA may still determine additional technical limitations on the use of a channel by making a determination under this subsection.

- (8) A channel specified in column 1 of an item in a table in Schedule 2 must only be used for transmission of national television broadcasting services if an event or circumstance (if any) specified for the table that is applicable to that channel occurs.
- (9) The ACMA may determine additional events or circumstances which must occur before the channel may be used.

*Note* Even if no applicable event or circumstance is specified for the table, the ACMA may still determine additional events or circumstances that must be met before the channel may be used by making a determination under this subsection.

---

**7 Allotment of channels to providers of other television broadcasting services – Schedule 3**

*Allotment of channels to providers of other television broadcasting services*

- (1) Each channel specified in column 1 of an item in a table in Schedule 3 is allotted to the person specified for the table for use in the area in column 7, from the date (if any) specified in column 2 until the date (if any) specified in column 3.
- (2) If no date is specified in column 2 for an item in a table in Schedule 3, the channel specified in column 1 of the item is allotted to the person specified for the table from the day on which this Plan comes into force.
- (3) If no person is specified for the table, the ACMA may allot a channel specified in column 1 of the table to any person for use in the area in column 7.

*Note* If the ACMA has not allotted a channel specified in the table, the ACMA may make the channel available for use in an area by a commercial television broadcasting licensee, a national broadcaster or any other person by making a determination under section 34 of the Act and issuing a licence under section 100 of the *Radiocommunications Act 1992*.

*Determination of technical specifications of transmission of television broadcasting services*

- (4) A channel specified in column 1 of an item in a table in Schedule 3 must only be used for transmission of television broadcasting services in accordance with the following specifications:
  - (a) subject to subsection (5), the transmission must not have an ERP greater than that specified in column 4;
  - (b) the transmission must have the polarisation specified in column 5;
  - (c) the transmission must comply with any additional specification specified in column 6.

- 
- (5) A transmission may have an ERP greater than that specified in column 4, if:
- (a) the ACMA issues a transmitter licence that authorises the use of the channel specified in column 1 of the item; and
  - (b) a condition of that transmitter licence relates to the maximum ERP of the transmission made by that transmitter; and
  - (c) either:
    - (i) the condition complies with any applicable requirements in the *Broadcasting Services (Technical Planning) Guidelines 2007*; or
    - (ii) if there are no applicable requirements – the condition does not allow the transmitter to be used to provide a transmission greater than 5 dB more than the ERP specified in column 4.

*Note* Under the *Radiocommunications Act 1992*, the ACMA may also impose a transmitter licence condition specifying an output radiated pattern for the use of a transmitter. The condition may set a limit for the ERP in a particular direction that is less than the maximum ERP specified in column 4 of an item that applies to the channel used by that transmitter.

*Determination of technical limitations and conditions on use of channel*

- (6) A channel specified in column 1 of an item in a table in Schedule 3 must only be used for transmission of television broadcasting services in accordance with a technical limitation (if any) specified for the table that is applicable to that channel.
- (7) The ACMA may determine additional technical limitations on the use of the channel.

*Note* Even if no applicable technical limitation is specified for the table, the ACMA may still determine additional technical limitations on the use of a channel by making a determination under this subsection.

- (8) A channel specified in column 1 of an item in a table in Schedule 3 must only be used for transmission of television broadcasting services if an event or circumstance (if any) specified for the table that is applicable to that channel occurs.
- (9) The ACMA may determine additional events or circumstances which must occur before the channel may be used.

*Note* Even if no applicable event or circumstance is specified for the table, the ACMA may still determine additional events or circumstances that must be met before the channel may be used by making a determination under this subsection.

---

## Schedule 1 – Allotment of channels to commercial television broadcasting licensees

(sections 4 and 5)

### 1 Table 1.1 – Allotment of channels to licensee of BSL113

- (1) The commercial television broadcasting licence for this table is the licence with the number BSL113.

*Note* This licence operates in the Regional Queensland TV1 licence area, and uses the callsign TNQ.

- (2) No technical limitations are specified for this table.

- (3) The following events or circumstances are specified for this table:

- (a) for item 6, the channel must not be used until both:

- (i) the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 49 in the Collinsville North IBL general area served; and
- (ii) the Australian Broadcasting Corporation ceases to provide a service on channel 49 in the Bowen Town general area served;

- (b) for item 18, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL115 (STQ) ceases to provide a service on channel 49 in the Glenden general area served;

- (c) for item 20, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 44 in the Moranbah general area served;

- (d) for item 45, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 44 in the Airlie Beach general area served;

- (e) for item 49, the channel must not be used until the Australian Broadcasting Corporation ceases to provide a service on channel 50 in the Airlie Beach general area served;
- (f) for item 50, the channel must not be used until the licensee of the community television broadcasting licence with the number BSL1150810 (CTQ) ceases to provide a service on channel 38 in the Brisbane general area served, in the Brisbane TV1 licence area; and
- (g) for item 62, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 8 in the Gladstone East general area served.

Item	Column 1 Channel	Column 2 Date of allotment	Column 3 Date allotment ends	Column 4 Maximum ERP	Column 5 Polarisation	Column 6 Additional specifications	Column 7 General area served	Column 8 Transmitter specification number

61A	62		31 Dec 2014	150 W	Horizontal	None	Warwick	10014169
62	8			45 kW	Vertical	None	Wide Bay	1134718
62A	9		31 Dec 2014	45 kW	Vertical	None	Wide Bay	10010130
63	44			50 W	Horizontal	None	Yeppoon	1134876
63A	63		31 Dec 2014	50 W	Horizontal	None	Yeppoon	10013902

*Note 1* If no date is specified in column 2 of an item, the allotment commences on the day on which this Plan comes into force. See subsection 5(2). If no date is specified in column 3 of an item, the allotment is continuing.

---

*Note 2* Column 7 describes the area in which a channel is allotted for use in general terms. The actual parameters of use of a channel will be determined by the conditions of the transmitter licence issued under the *Radiocommunications Act 1992*.

*Note 3* Column 8 is included for information only. “Transmitter specification number” refers to the identification number used by the ACMA for identifying particular transmitters.

*Note 4* In some circumstances, a person may be permitted to transmit on a channel at an ERP higher than that determined in column 4. See subsection 5(5).

*Note 5* The one channel may be allotted to two or more different broadcasters, for use in different parts of the one licence area; the ACMA may issue a transmitter licence to one broadcaster authorising the use of the channel in one part of the licence area, and issue transmitter licences to other broadcasters authorising the use of the channel in different parts of the licence area.

*Example* The ACMA may issue a transmitter licence for the use of channel 8 to a broadcaster in the one part of the licence area (**Part A**), and issue a transmitter licence for the use of channel 8 to another broadcaster in a different part of the licence area (**Part B**). Because of this, the first broadcaster can only use channel 8 in Part A of the licence area, and the second broadcaster can only use channel 8 in Part B of the licence area.

## 2 Table 1.2 – Allotment of channels to licensee of BSL115

(1) The commercial television broadcasting licence for this table is the licence with the number BSL115.

*Note* This licence operates in the Regional Queensland TV1 licence area, and uses the callsign STQ.

(2) No technical limitations are specified for this table.

(3) The following events or circumstances are specified for this table:

- (a) for item 6, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL115 (STQ) ceases to provide a service on channel 47 in the Collinsville North IBL general area served;
- (b) for item 13, the channel must not be used until the Special Broadcasting Service Corporation ceases to provide a service on channel 50 in the Tully general area served;
- (c) for item 35, the channel must not be used until the Special Broadcasting Service Corporation ceases to provide a service on channel 50 in the Tully general area served;
- (d) for item 44, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 48 in the Mossman general area served;
- (e) for item 50, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL115 (STQ) ceases to provide a service on channel 34 in the Darling Downs general area served; and
- (g) for item 57, the channel must not be used until the Special Broadcasting Service Corporation ceases to provide a service on channel 48 in the Southern Downs general area served.

63A	60		31 Dec 2014	50 W	Horizontal	None	Yeppoon	10013900

*Note 1* If no date is specified in column 2 of an item, the allotment commences on the day on which this Plan comes into force. See subsection 5(2). If no date is specified in column 3 of an item, the allotment is continuing.

*Note 2* Column 7 describes the area in which a channel is allotted for use in general terms. The actual parameters of use of a channel will be determined by the conditions of the transmitter licence issued under the *Radiocommunications Act 1992*.

*Note 3* Column 8 is included for information only. "Transmitter specification number" refers to the identification number used by the ACMA for identifying particular transmitters.

*Note 4* In some circumstances, a person may be permitted to transmit on a channel at an ERP higher than that determined in column 4. See subsection 5(5).

---

*Note 5* The one channel may be allotted to two or more different broadcasters, for use in different parts of the one licence area; the ACMA may issue a transmitter licence to one broadcaster authorising the use of the channel in one part of the licence area, and issue transmitter licences to other broadcasters authorising the use of the channel in different parts of the licence area.

*Example* The ACMA may issue a transmitter licence for the use of channel 8 to a broadcaster in the one part of the licence area (***Part A***), and issue a transmitter licence for the use of channel 8 to another broadcaster in a different part of the licence area (***Part B***). Because of this, the first broadcaster can only use channel 8 in Part A of the licence area, and the second broadcaster can only use channel 8 in Part B of the licence area.

---

### 3 Table 1.3 – Allotment of channels to licensee of BSL116

(1) The commercial television broadcasting licence for this table is the licence with the number BSL116.

*Note* This licence operates in the Regional Queensland TV1 licence area, and uses the callsign RTQ.

(2) No technical limitations are specified for this table.

(3) The following events or circumstances are specified for this table:

- (a) for item 2, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 49 in the Mareeba general area served;
- (b) for item 20, the channel must not be used until the Australian Broadcasting Corporation ceases to provide a service on channel 43 in the Middlemount general area served;
- (c) for item 25, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 43 in the Southern Downs general area served;
- (d) for item 28, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 46 in the Darling Downs general area served;
- (e) for item 34, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 43 in the Southern Downs general area served;
- (f) for item 44, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 49 in the Cairns East general area served;
- (g) for item 45, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 43 in the Bowen Town general area served;
- (h) for item 47, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 35 in the Mackay general area served;

- 
- (i) for item 50, the channel must not be used until:
    - (i) the licensee of the commercial television broadcasting licence with the number BSL94 (NBN) ceases to provide a service on channel 37 in the Upper Namoi general area served, in the Northern New South Wales TV1 licence area;
    - (ii) the licensee of the commercial television broadcasting licence with the number BSL94 (NBN) ceases to provide a service on channel 37 in the Richmond/Tweed general area served, in the Northern New South Wales TV1 licence area; and
    - (iii) the Australian Broadcasting Corporation ceases to provide a service on channel 37 in the Darling Downs general area served;
  - (j) for item 53, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 46 in the Darling Downs general area served;
  - (k) for item 54, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 43 in the Southern Downs general area served;
  - (l) for item 55, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 43 in the Southern Downs general area served;
  - (m) for item 57, the channel must not be used until the Special Broadcasting Service Corporation ceases to provide a service on channel 49 in the Darling Downs general area served;
  - (n) for item 58, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 35 in the Mackay general area served; and
  - (o) for item 61, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 43 in the Southern Downs general area served.

*Note 1* If no date is specified in column 2 of an item, the allotment commences on the day on which this Plan comes into force. See subsection 5(2). If no date is specified in column 3 of an item, the allotment is continuing.

*Note 2* Column 7 describes the area in which a channel is allotted for use in general terms. The actual parameters of use of a channel will be determined by the conditions of the transmitter licence issued under the *Radiocommunications Act 1992*.

*Note 3* Column 8 is included for information only. “Transmitter specification number” refers to the identification number used by the ACMA for identifying particular transmitters.

*Note 4* In some circumstances, a person may be permitted to transmit on a channel at an ERP higher than that determined in column 4. See subsection 5(5).

---

*Note 5* The one channel may be allotted to two or more different broadcasters, for use in different parts of the one licence area; the ACMA may issue a transmitter licence to one broadcaster authorising the use of the channel in one part of the licence area, and issue transmitter licences to other broadcasters authorising the use of the channel in different parts of the licence area.

*Example* The ACMA may issue a transmitter licence for the use of channel 8 to a broadcaster in the one part of the licence area (***Part A***), and issue a transmitter licence for the use of channel 8 to another broadcaster in a different part of the licence area (***Part B***). Because of this, the first broadcaster can only use channel 8 in Part A of the licence area, and the second broadcaster can only use channel 8 in Part B of the licence area.

---

## Schedule 2 – Allotment of channels to national broadcasters

(sections 4 and 6)

### 1 Table 2.1 – Allotment of channels to Australian Broadcasting Corporation

(1) The national broadcaster for this table is the Australian Broadcasting Corporation.

*Note* This broadcaster provides a service in the Regional Queensland TV1 licence area.

(2) No technical limitations are specified for this table.

(3) The following events or circumstances are specified for this table:

- (a) for item 17, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 41 in the Moranbah general area served;
- (b) for item 19, the channel must not be used until the Australian Broadcasting Corporation ceases to provide a service on channel 11 in the Rockhampton general area served;
- (c) for item 25, the channel must not be used until the Special Broadcasting Service Corporation ceases to provide a service on channel 49 in the Darling Downs general area served;
- (d) for item 28, the channel must not be used until the Special Broadcasting Service Corporation ceases to provide a service on channel 28 in the Airlie Beach general area served;
- (e) for item 41, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 35 in the Mackay general area served;
- (f) for item 47, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL115 (STQ) ceases to provide a service on channel 34 in the Capella general area served;
- (g) for item 49, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL115 (STQ) ceases to provide a service on channel 47 in the Airlie Beach general area served;

- (h) for item 50, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL95 (NEN) ceases to provide a service on channel 35 in the Richmond/Tweed general area served, in the Northern New South Wales TV1 licence area;
- (i) for item 53, the channel must not be used until the Special Broadcasting Service Corporation ceases to provide a service on channel 49 in the Darling Downs general area served;
- (j) for item 61, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 41 in the Townsville general area served; and
- (k) for item 64, the channel must not be used until the Australian Broadcasting Corporation ceases to provide a service on channel 11 in the Rockhampton general area served.

64A	9A		31 Dec 2014	45 kW	Vertical	None	Wide Bay	10010131
65	41			50 W	Horizontal	None	Yeppoon	1134874
65A	57		31 Dec 2014	50 W	Horizontal	None	Yeppoon	10013899

*Note 1* If no date is specified in column 2 of an item, the allotment commences on the day on which this Plan comes into force. See subsection 6(2). If no date is specified in column 3 of an item, the allotment is continuing.

*Note 2* Column 7 describes the area in which a channel is allotted for use in general terms. The actual parameters of use of a channel will be determined by the conditions of the transmitter licence issued under the *Radiocommunications Act 1992*.

*Note 3* Column 8 is included for information only. “Transmitter specification number” refers to the identification number used by the ACMA for identifying particular transmitters.

*Note 4* In some circumstances, a person may be permitted to transmit on a channel at an ERP higher than that determined in column 4. See subsection 6(5).

*Note 5* The one channel may be allotted to two or more different broadcasters, for use in different parts of the one licence area; the ACMA may issue a transmitter licence to one broadcaster authorising the use of the channel in one part of the licence area, and issue transmitter licences to other broadcasters authorising the use of the channel in different parts of the licence area.

*Example* The ACMA may issue a transmitter licence for the use of channel 8 to a broadcaster in the one part of the licence area (**Part A**), and issue a transmitter licence for the use of channel 8 to another broadcaster in a different part of the licence area (**Part B**). Because of this, the first broadcaster can only use channel 8 in Part A of the licence area, and the second broadcaster can only use channel 8 in Part B of the licence area.

---

## 2 Table 2.2 – Allotment of channels to Special Broadcasting Service Corporation

- (1) The national broadcaster for this table is the Special Broadcasting Service Corporation.

*Note* This broadcaster provides a service in the Regional Queensland TV1 licence area.

- (2) No technical limitations are specified for this table.

- (3) The following events or circumstances are specified for this table:

- (a) for item 2, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 46 in the Mareeba general area served;
- (b) for item 5, the channel must not be used until the Australian Broadcasting Corporation ceases to provide a service on channel 45 in the Southern Downs general area served;
- (c) for item 10, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL115 (STQ) ceases to provide a service on channel 45 in the Mossman general area served;
- (d) for item 14, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL115 (STQ) ceases to provide a service on channel 34 in the Capella general area served;
- (e) for item 18, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 12 in the Rockhampton general area served;
- (f) for item 21, the channel must not be used until both:
  - (i) the licensee of the commercial television broadcasting licence with the number BSL96 (NRN) ceases to provide a service on channel 40 in the Upper Namoi general area served, in the Northern New South Wales TV1 licence area; and
  - (ii) the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 40 in the Darling Downs general area served;

- 
- (g) for item 23, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 40 in the Darling Downs general area served;
  - (h) for item 35, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 40 in the Darling Downs general area served;
  - (i) for item 37, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 40 in the Darling Downs general area served;
  - (j) for item 38, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 46 in the Cairns East general area served;
  - (k) for item 39, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 40 in the Bowen Town general area served;
  - (l) for item 45, the channel must not be used until the Special Broadcasting Service Corporation ceases to provide a service on channel 39 in the Boonah general area served, in the Brisbane TV1 licence area;
  - (m) for item 47, the channel must not be used until both:
    - (i) the licensee of the ABC retransmission service ceases to provide a service on channel 50 in the Point Arkwright general area served; and
    - (ii) the licensee of the ABC retransmission service ceases to provide a service on channel 50 in the Peregian Beach general area served;
  - (n) for item 48, the channel must not be used until the Australian Broadcasting Corporation ceases to provide a service on channel 45 in the Southern Downs general area served;
  - (o) for item 50, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 46 in the Darling Downs general area served; and

- (p) for item 54, the channel must not be used until the Australian Broadcasting Corporation ceases to provide a service on channel 45 in the Southern Downs general area served.

53	45			2 kW	Vertical	None	Tully	1134924
53A	50		31 Dec 2014	2 kW	Vertical	None	Tully	10014068
54	45			150 W	Horizontal	None	Warwick	1134943

Item	Column 1 Channel	Column 2 Date of allotment	Column 3 Date allotment ends	Column 4 Maximum ERP	Column 5 Polarisation	Column 6 Additional specifications	Column 7 General area served	Column 8 Transmitter specification number
54A	53		31 Dec 2014	150 W	Horizontal	None	Warwick	10014166
55	6			45 kW	Vertical	None	Wide Bay	1134720
55A	28		31 Dec 2014	250 kW	Horizontal	None	Wide Bay	10010146
56	40			50 W	Horizontal	None	Yeppoon	1134878
56A	54		31 Dec 2014	50 W	Horizontal	None	Yeppoon	10013898

*Note 1* If no date is specified in column 2 of an item, the allotment commences on the day on which this Plan comes into force. See subsection 6(2). If no date is specified in column 3 of an item, the allotment is continuing.

*Note 2* Column 7 describes the area in which a channel is allotted for use in general terms. The actual parameters of use of a channel will be determined by the conditions of the transmitter licence issued under the *Radiocommunications Act 1992*.

*Note 3* Column 8 is included for information only. “Transmitter specification number” refers to the identification number used by the ACMA for identifying particular transmitters.

*Note 4* In some circumstances, a person may be permitted to transmit on a channel at an ERP higher than that determined in column 4. See subsection 6(5).

*Note 5* The one channel may be allotted to two or more different broadcasters, for use in different parts of the one licence area; the ACMA may issue a transmitter licence to one broadcaster authorising the use of the channel in one part of the licence area, and issue transmitter licences to other broadcasters authorising the use of the channel in different parts of the licence area.

*Example* The ACMA may issue a transmitter licence for the use of channel 8 to a broadcaster in the one part of the licence area (**Part A**), and issue a transmitter licence for the use of channel 8 to another broadcaster in a different part of the licence area (**Part B**). Because of this, the first broadcaster can only use channel 8 in Part A of the licence area, and the second broadcaster can only use channel 8 in Part B of the licence area.

---

## Schedule 3 – Allotment of channels to providers of other television broadcasting services

(sections 4 and 7)

### 1 Table 3.1 – Allotment of channels to providers of other television broadcasting services

(1) No person is specified for this table.

*Note* This table specifies channels available in the Regional Queensland TV1 licence area.

(2) No technical limitations are specified for this table.

(3) The following events or circumstances are specified for this table:

- (a) for item 1, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 35 in the Mackay general area served;
- (b) for item 3, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 41 in the Townsville general area served;
- (c) for item 7, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 43 in the Southern Downs general area served;
- (d) for item 8, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 40 in the Darling Downs general area served;
- (e) for item 10, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 35 in the Mackay general area served;
- (f) for item 11, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 42 in the Gladstone East general area served;
- (g) for item 12, the channel must not be used until the Australian Broadcasting Corporation ceases to provide a service on channel 10 in the Mackay general area served;

- 
- (h) for item 13, the channel must not be used until the Australian Broadcasting Corporation ceases to provide a service on channel 40 in the Mossman general area served;
  - (i) for item 19, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 41 in the Townsville general area served;
  - (j) for item 22, the channel must not be used until the Special Broadcasting Service Corporation ceases to provide a service on channel 28 in the Wide Bay general area served;
  - (k) for item 26, the channel must not be used until the Special Broadcasting Service Corporation ceases to provide a service on channel 49 in the Darling Downs general area served;
  - (l) for item 27, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 46 in the Darling Downs general area served;
  - (m) for item 30, the channel must not be used until the Special Broadcasting Service Corporation ceases to provide a service on channel 28 in the Wide Bay general area served;
  - (n) for item 35, the channel must not be used until the Australian Broadcasting Corporation ceases to provide a service on channel 45 in the Southern Downs general area served;
  - (o) for item 40, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 40 in the Darling Downs general area served;
  - (p) for item 41, the channel must not be used until the Australian Broadcasting Corporation ceases to provide a service on channel 31 in the Townsville general area served;
  - (q) for item 44, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 40 in the Darling Downs general area served;
  - (r) for item 45, the channel must not be used until the Australian Broadcasting Corporation ceases to provide a service on channel 45 in the Southern Downs general area served;

- 
- (s) for item 47, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 40 in the Darling Downs general area served;
  - (t) for item 50, the channel must not be used until the Special Broadcasting Service Corporation ceases to provide a service on channel 29 in the Cairns general area served;
  - (u) for item 57, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 40 in the Darling Downs general area served;
  - (v) for item 61, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 51 in the Mossman general area served;
  - (w) for item 62, the channel must not be used until both:
    - (i) the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 41 in the Townsville general area served; and
    - (ii) the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 41 in the Airlie Beach general area served;
  - (x) for item 65, the channel must not be used until both:
    - (i) the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 46 in the Cairns North general area served; and
    - (ii) the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 46 in the Cairns East general area served;
  - (y) for item 66, the channel must not be used until both:
    - (i) the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 49 in the Cairns North general area served; and

- 
- (ii) the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 49 in the Cairns East general area served;
  - (z) for item 68, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL115 (STQ) ceases to provide a service on channel 39 in the Gladstone East general area served;
  - (aa) for item 71, the channel must not be used until:
    - (i) the Special Broadcasting Service Corporation ceases to provide a service on channel 36 in the Upper Namoi general area served, in the Northern New South Wales TV1 licence area; and
    - (ii) the Special Broadcasting Service Corporation ceases to provide a service on channel 36 in the Brisbane general area served, in the Brisbane TV1 licence area;
  - (ab) for item 76, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 40 in the Darling Downs general area served;
  - (ac) for item 77, the channel must not be used until the Australian Broadcasting Corporation ceases to provide a service on channel 45 in the Southern Downs general area served;
  - (ad) for item 78, the channel must not be used until both:
    - (i) the licensee of the commercial television broadcasting licence with the number BSL96 (NRN) ceases to provide a service on channel 40 in the Upper Namoi general area served, in the Northern New South Wales TV1 licence area; and
    - (ii) the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 40 in the Darling Downs general area served;
  - (ae) for item 79, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL115 (STQ) ceases to provide a service on channel 34 in the Capella general area served;
  - (af) for item 80, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL115 (STQ) ceases to provide a service on channel 51 in the Southern Downs general area served;

- (ag) for item 83, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL115 (STQ) ceases to provide a service on channel 43 in the Cardwell general area served;
- (ah) for item 84, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL113 (TNQ) ceases to provide a service on channel 40 in the Darling Downs general area served; and
- (ai) for item 85, the channel must not be used until the licensee of the commercial television broadcasting licence with the number BSL116 (RTQ) ceases to provide a service on channel 12 in the Rockhampton general area served.

Item	Column 1 Channel	Column 2 Date of allotment	Column 3 Date allotment ends	Column 4 Maximum ERP	Column 5 Polarisation	Column 6 Additional specifications	Column 7 General area served	Column 8 Transmitter specification number

85	12			45 kW	Vertical	None	Wide Bay	10010147
86	45			50 W	Horizontal	None	Yeppoon	10013896

*Note 1* If no date is specified in column 2 of an item, the allotment commences on the day on which this Plan comes into force. See subsection 7(2). If no date is specified in column 3 of an item, the allotment is continuing.

*Note 2* Column 7 describes the area in which a channel is allotted for use in general terms. The actual parameters of use of a channel will be determined by the conditions of the transmitter licence issued under the *Radiocommunications Act 1992*.

*Note 3* Column 8 is included for information only. “Transmitter specification number” refers to the identification number used by the ACMA for identifying particular transmitters.

*Note 4* In some circumstances, a person may be permitted to transmit on a channel at an ERP higher than that determined in column 4. See subsection 7(5).

*Note 5* The one channel may be allotted to two or more different broadcasters, for use in different parts of the one licence area; the ACMA may issue a transmitter licence to one broadcaster authorising the use of the channel in one part of the licence area, and issue transmitter licences to other broadcasters authorising the use of the channel in different parts of the licence area.

*Example* The ACMA may issue a transmitter licence for the use of channel 8 to a broadcaster in the one part of the licence area (**Part A**), and issue a transmitter licence for the use of channel 8 to another broadcaster in a different part of the licence area (**Part B**). Because of this, the first broadcaster can only use channel 8 in Part A of the licence area, and the second broadcaster can only use channel 8 in Part B of the licence area.

# Attachment 1 – Regional Queensland TV1 licence area

(section 3)

## 1 Use of census data terms

In this Attachment:

*C* means the City district statistical unit.

*CD* means the collection district statistical unit.

*S* means the shire statistical unit.

*T* means the town statistical unit.

*statistical units* means the Australian Standard Geographical Classification areas used by the Australian Bureau of Statistics at the census of 7 August 2001.

*Note* Information about the Australian Standard Geographical Classification is available from the Australian Bureau of Statistics website, at <http://abs.gov.au>.

## 2 Regional Queensland TV1 licence area

The Regional Queensland TV1 licence area comprises the following statistical units:

Area Description	Area Description	Area Description
Atherton (S)	Gayndah (S)	Murgon (S)
