Special Conditions :-

The coverage area of this transmission is described as that area within a radius of 20 kilometres measured from a point with the following AMG co-ordinates: Zone: 56; Easting: 288519; Northing: 6254744. This point is not the same as the nominal transmitter site.

Advisory Notes :-

The coverage area of this transmission is based on a theoretical prediction of coverage that may be achieved during day time up to a suburban grade of service (2.5 mV/m). The ACMA estimates the coverage area (as described above) at night time may be slightly reduced as the night time useable field strength is slightly higher than 2.5 mV/m (2.8 mV/m).
