Part 1—Basic subsidy amount

Division 1—Care recipients receiving residential care other than as respite care

5 Purpose of this Division

For subsection 44-3(2) of the Act, this Division sets out the basic subsidy amount for a day for a care recipient who is being provided with residential care other than as respite care.

6 Definitions

In this Division:

ACFI classification means a classification, or a renewal of a classification, of a care recipient under Part 2.4 of the *Aged Care Act 1997* and:

Appraisal or reappraisal received within 3 months after end of appraisal or reappraisal period

- (1) Subsection (2) applies in relation to a care recipient and a day if:
 - (a) on the day, the care recipient is taken, under subsection 25-1(4) of the Act, to have been classified at the lowest applicable classification level; and
 - (b) either:

- (2) The basic subsidy amount for the day for the care recipient is:
 - (a) if the ACFI amount for the care recipient under section 7, for the day the care recipient's ACFI classification takes effect, is at least \$25—the ACFI amount less \$25; or
 - (b) in any other case—nil.

Appraisal or reappraisal received more than 3 months after end of appraisal or reappraisal period

- (3) The basic subsidy amount for the day for a care recipient is nil if:

 - (b) is on extended hospital leave.
- (2) The basic subsidy amount for the day for the care recipient is:
 - (a) for a day that is before the 29th day of the care recipient's leave—the amount for the care recipient for the day under section 7 or 8 (whichever is applicable); or
 - (b) for any other day—half of the basic subsidy amount for the care recipient for the 28th day of the care recipient's leave.
- (3) However, this section does not apply in relation to a care recipient and a day if the day is in the period between 1 July 2020 and 30 June 2021.

Section 11

Division 2—Care recipients receiving residential care as respite care

11 Purpose of this Division

For subsection 44-3(2) of the Act, this Division sets out the basic subsidy amount for a day for a care recipient who is being provided with residential care as respite care.

12 Basic subsidy amount for days within maximum number for provision of respite care

- (1) This section applies in relation to a care recipient on a day if, on that day, the number of days on which the care recipient had previously been provided with residential care as respite care during the financial year in which the day occurs does not equal or exceed the number specified under paragraph 23(1)(c) of the *Subsidy Principles 2014*.
- (2) Subject to section 14, the basic subsidy amount for the day for the care recipient is:
 - (a) if the care recipient's approval was, on 30 June 2014, limited to a low level of residential care (within the meaning of the *Classification Principles 1997* as in force on 30 June 2014)—\$49.51; or
 - (b) if the care recipient's approval was, on 30 June 2014, limited to a high level of residential care (within the meaning of the *Classification Principles 1997* as in force on 30 June 2014)—\$138.82; or
 - (c) if the care recipient's classification level is low level residential respite care—\$49.51; or
 - (d) if the care recipient's classification level is high level residential respite care—\$138.82.

13 Basic subsidy amount for days equal to or exceeding maximum number for provision of respite care

The basic subsidy amount for a day for a care recipient is nil if, on that day, the number of days on which the care recipient had previously been provided with residential care as respite care during the financial year in which the day occurs equals or exceeds the number specified under paragraph 23(1)(c) of the *Subsidy Principles 2014*.

14 Basic subsidy amount for care recipient in residential care service exceeding respite care proportion

- (1) This section applies in relation to a care recipient who is being provided with residential care through a residential care service that provides a greater proportion of care to recipients of respite care than that specified in the conditions attached to the allocation of places to the approved provider in respect of the service.

- (2) The basic subsidy amount for a day for the care recipient is nil.

Part 2—Amounts of primary supplements

Division 1—Respite supplement

15 Purpose of this Division

- (1) For subsection 44-5(3) of the Act, this Division provides for the amount of the respite supplement for a day for a care recipient or the way in which that amount is to be worked out.
- (2) For this Division, the respite supplement is the respite supplement set out in Subdivision A of Division 3 of Part 3 of Chapter 2 of the *Subsidy Principles 2014*.

16 Definitions

In this Division:

allocation of places, in relation to a residential care service, means an allocation of places to the approved provider of the residential care service made under Division 14 of the Act.

conditions, in relation to a residential care service, means conditions under section 14-5 or 14-6 of the Act attached to an allocation of places to the approved provider of the service.

17 Care recipients whose classification level is low level residential respite care

If the classification level for a care recipient on a day is low level residential respite care, then the amount of the respite supplement for the day for the care recipient is, subject to section 21, \$43.27.

18 Care recipients whose classification level is high level residential respite care

- (1) If the classification level for a care recipient on a day is high level residential respite care, then the amount of the respite supplement for the day for the care recipient is, subject to section 21, the sum of:
 - (a) \$60.64; and
 - (b) if, for a relevant year, the actual proportion of respite care provided through the residential care service is equal to or more than 70% of the specified proportion of respite care for the approved provider of the service—\$42.54.
- (4) For paragraph (1)(b):
 - (a) the relevant year, in relation to a day, means a period of 12 months ending at the expiration of the month in which the day occurs; and
 - (b) the actual proportion of respite care provided through a residential care service for a relevant year is the proportion of care, worked out using the

method statement in section 19, provided through the service in that year to recipients of respite care; and

- (b) the specified proportion of respite care, for the approved provider of a residential care service and a relevant year, is the proportion of care, worked out using the method statement in section 20, specified in respect of recipients of respite care in the conditions attached to each allocation of places to the approved provider in the relevant year.

19 How to work out the actual proportion of respite care provided through a residential care service for a relevant year

- (1) For section 18, the actual proportion of respite care provided through a residential care service for a relevant year is worked out as follows:

Method statement

Step 1. Work out, for the relevant year and for each care recipient to whom the residential care service provided residential care in the relevant year, the total number of respite bed days provided by the residential care service.

Step 2. Add together each of the total numbers of respite bed days worked out under step 1.

Step 3. Identify, for each care recipient referred to in step 1, the total number of respite bed days provided to the care recipient in the relevant year that exceeded the maximum number of days on which residential care as respite care could be provided to the care recipient during the relevant financial year.

Note: The maximum number of days on which a care recipient may be provided with residential care as respite care during a financial year is set out in section 23 of the *Subsidy Principles 2014*.

Step 4. Add together each of the total numbers of respite bed days identified under step 3.

Step 5. Identify each respite bed day provided by the residential care service in the relevant year that exceeded the proportion of care for recipients of respite care that was specified in the conditions that applied in respect of the residential care service at the time the respite bed day was provided.

Step 6. Add together all the respite bed days identified under step 5.

Step 7. Add the total number of respite bed days worked out under step 4 to the total number of respite bed days worked out under step 6.

Step 8. Subtract the sum worked out under step 7 from the total number of respite bed days worked out under step 2.

Section 20

The result is the *actual proportion of respite care* provided through the residential care service for the relevant year.

Definitions

(2) In this section:

respite bed day, in relation to a residential care service and a care recipient, means a day on which the residential care service provided the care recipient with residential care as respite care.

20 How to work out the specified proportion of respite care provided through a residential care service for a relevant year

(1) For section 18, the specified proportion of respite care for the approved provider of a residential care service and a relevant year is worked out as follows:

Method statement

- Step 1. Work out the proportion of care for recipients of respite care, expressed as a number of notional respite bed days, as specified in the conditions that applied in respect of the residential care service at the start of the relevant year.
- Step 2. Work out the applicable period of time in relation to the proportion of care worked out under step 1.
- Step 3. Multiply the proportion of care worked out under step 1 by the applicable period of time worked out under step 2.
- Step 4. If the basis for the calculation of the proportion of care in relation to the residential care service changes during the relevant year, work out the proportion of care for recipients of respite care, expressed as a number of notional respite bed days, as specified in the conditions that applied at the time the change took effect.
- Step 5. Work out the applicable period of time in relation to the proportion of care worked out under step 4.
- Step 6. Multiply the proportion of care worked out under step 4 by the applicable period of time worked out under step 5.
- Step 7. Repeat steps 4 to 6 in respect of each further change to the basis for the calculation of the proportion of care in relation to the residential care service in the relevant year.
- Step 8. Add the amount worked out under step 3 to any amount or amounts worked out under step 6.

The result is the *specified proportion of respite care* for the approved provider of a residential care service for the relevant year.

When a proportion of care is taken to have been in effect

- (2) For this section, a proportion of care is taken to have been in effect in relation to a residential care service for the period that:
- (a) commences on the first day of the relevant year or the first day on which the basis for the calculation of the proportion of care changed (as applicable); and
 - (b) ends on the last day of the relevant year or the last day before the day on which the basis for the calculation of the proportion of care changed (as applicable).

Definitions

- (3) In this section:

applicable period of time, in relation to a proportion of care worked out under step 1 or 4 (as applicable) of the method statement in subsection (1) and a residential care service, means the period (expressed as a number of days) during which the proportion of care was in effect in the relevant year in relation to the service, as described in subsection (2).

Section 64L

64L Meaning of *respite classification amount* for a care recipient for a day

The *respite classification amount* for a care recipient for a day is the amount worked out by multiplying the national efficient price by the NWAU worked out using the following table.

NWAU		
Item	If the classification level for the classification of the recipient for respite care that is in effect on the day is ...	the NWAU is ...
1	Respite Class 1	0.304
2	Respite Class 2	0.404
3	Respite Class 3	0.864

Note: The classification levels for classifications for respite care are those provided for by section 39 of the *Classification Principles 2014*.

64M Meaning of *service amount* for a care recipient for a day

- (1) If:
- (a) a care recipient is provided with residential care on a day through a residential care service; and

the Secretary may revoke that status of the service.

Homeless care percentage

- (2) The **homeless care percentage** for a residential care service for a payment period is worked out using the following formula:

$$\frac{\text{Care for homeless residents}}{\text{Care for all residents}} \times 100$$

where:

care for all residents means the total number of days in the payment period on which the residential care service provided residential care as non-respite care to each care recipient who is approved under Part 2.3 of the Act as a recipient of that kind of care.

care for homeless residents means the total number of days in the payment period on which the residential care service provided residential care as non-respite care to each care recipient:

Part 3—Basic subsidy amount

Division 1—Purpose of this Part

64ZA Purpose of this Part

This Part is made for the purposes of subsection 44-3(2) of the Act.

Section 64ZB

Division 2—Basic subsidy amount for care recipient provided with residential care as non-respite care

64ZB Basic subsidy amount—classification of care recipient is in effect

- (1) If a classification of a care recipient for non-respite care is in effect on a day (the **relevant day**), the basic subsidy amount for the recipient for the relevant day is the amount equal to the sum of:

- (a) the non-respite classification amount for the recipient for that day; and
- (b) the service amount for the recipient for that day.

Note: For when a classification of a care recipient is in effect, see Part 11A of Chapter 3 of the *Classification Principles 2014*.

- (2) If:

- (a) the care recipient is on extended hospital leave on the relevant day; and
- (b) the relevant day is on or after the 29th day of the recipient's leave;

then, despite subsection (1), the basic subsidy amount for the recipient for that day is the service amount for the recipient for that day.

64ZC Basic subsidy amount—care recipient not classified

- (1) If, on a day (the **relevant day**), a care recipient has not yet been classified for non-respite care under Part 2.4A of the Act, then, subject to this section, the basic subsidy amount for the recipient for the relevant day is the amount equal to the sum of:

- (a) the amount equal to the non-respite classification amount that would be worked out for the recipient for that day if it were assumed that:
 - (i) a classification of the recipient for non-respite care were in effect on that day; and
 - (ii) the classification level for the classification of the recipient were Class 8; and
- (b) the service amount for the recipient for that day.

Note: See section 40 of the *Classification Principles 2014* for the classification levels for classifications for non-respite care.

Entry for palliative care

- (2) If:

- (a) on the relevant day, the care recipient is provided with residential care as non-respite care in the form of palliative care through the residential care service in question; and
- (b) the approved provider of the service notified, in accordance with section 63-1B of the Act, the Secretary of the recipient's entry into that service for the provision of such care; and
- (c) the recipient is not on extended hospital leave on the relevant day;

then the basic subsidy amount for the recipient for the relevant day is the amount equal to the sum of:

- (d) the amount equal to the non-respite classification amount that would be worked out for the recipient for that day if it were assumed that:
 - (i) a classification of the recipient for non-respite care were in effect on that day; and
 - (ii) the classification level for the classification of the recipient were Class 1; and
- (e) the service amount for the recipient for that day.

Note: See section 40 of the *Classification Principles 2014* for the classification levels for classifications for non-respite care.

Extended hospital leave

- (3) If:
- (a) the care recipient is on extended hospital leave on the relevant day; and
 - (b) the relevant day is on or after the 29th day of the recipient's leave;
- then the basic subsidy amount for the recipient for that day is the service amount for the recipient for that day.

Care recipient classified after the relevant day

- (4) If:
- (a) the care recipient is classified for non-respite care under Part 2.4A of the Act after the relevant day; and
 - (b) the classification has effect on the relevant day;
- this section is to be taken not to have applied in relation to the recipient in respect of that day.

Note: A classification may take effect on a day that is before the day a care recipient is classified (see Part 11A of Chapter 3 of the *Classification Principles 2014*).

Section 64ZD

Division 3—Basic subsidy amount for care recipient provided with residential care as respite care

64ZD Basic subsidy amount—classification of care recipient is in effect

- (1) This section applies in relation to a care recipient for a day (the *relevant day*) if a classification of the recipient for respite care is in effect on the relevant day.

Note: For when a classification of a care recipient is in effect, see Part 11A of Chapter 3 of the *Classification Principles 2014*.

- (2) If:

- (a) the care recipient has previously been provided with residential care as respite care on a number of days during the financial year in which the relevant day occurs; and
- (b) that number of days is less than the number applicable under paragraph 23(1)(c) of the *Subsidy Principles 2014*;

then the basic subsidy amount for the recipient for the relevant day is the amount equal to the sum of the respite classification amount, and the service amount, for the recipient for that day.

- (3) If:

- (a) the care recipient has previously been provided with residential care as respite care on a number of days during the financial year in which the relevant day occurs; and
- (b) that number of days is equal to, or greater than, the number applicable under paragraph 23(1)(c) of the *Subsidy Principles 2014*;

then the basic subsidy amount for the recipient for the relevant day is nil.

64ZE Basic subsidy amount—care recipient not classified

- Step 3. Subtract 3 percentage points from the amount worked out at step 2.
- The result is the *maximum permissible interest rate* for the person.

- (3) For subsection (2), the person's price agreement day is the day on which the person and the approved provider of the service agree, under paragraph 52F-1(1)(b) of the Act, about the maximum amount that would be payable if the person paid an accommodation payment for the service.

 - Step 3. Subtract 3 percentage points from the amount worked out at step 2.
- The result is the ***maximum permissible interest rate*** for the relevant day.

Legislation history and amendment history—Endnotes 3 and 4

Amending laws are annotated in the legislation history and amendment history.

The legislation history in endnote 3 provides information about each law that has amended (or will amend) the compiled law. The information includes commencement details for amending laws and details of any application, saving or transitional provisions that are not included in this compilation.

The amendment history in endnote 4 provides information about amendments at the provision (generally section or equivalent) level. It also includes information about any provision of the compiled law that has been repealed in accordance with a provision of the law.

Editorial changes

The *Legislation Act 2003* authorises First Parliamentary Counsel to make editorial and presentational changes to a compiled law in preparing a compilation of the law for registration. The changes must not change the effect of the law. Editorial changes take effect from the compilation registration date.

If the compilation includes editorial changes, the endnotes include a brief outline of the changes in general terms. Full details of any changes can be obtained from the Office of Parliamentary Counsel.

Misdescribed amendments

A misdescribed amendment is an amendment that does not accurately describe how an amendment is to be made. If, despite the misdescription, the amendment can be given effect as intended, then the misdescribed amendment can be incorporated through an editorial change made under section 15V of the *Legislation Act 2003*.

If a misdescribed amendment cannot be given effect as intended, the amendment is not incorporated and “(md not incorp)” is added to the amendment history.
