Part 2 Working out receiver licence tax

5 Using Schedules 1, 2 and 3

- (1) Schedule 1 sets out the area densities to be used in working out receiver licence tax.
- (2) Schedule 2 explains the annual amounts that are used to work out receiver licence tax.

Note 1: Each Part of Schedule 2 identifies the types of receiver licences to which it applies.

Note 2: The annual amount of tax is the amount of tax usually payable for 1 spectrum access authorised under a licence for 1 year. However, the amount may be modified to reflect factors such as the period of the licence, the power of the receiver and whether the licensee is an eligible person.

- (3) Schedule 3 explains how to use the annual amounts to work out the amount of receiver licence tax.

6 Working out tax

To work out an amount of receiver licence tax:

- (a) identify the Part of Schedule 2 that applies to the type of licence; and
- (b) follow the instructions in that Part to work out:
 - (i) the annual amount for each spectrum access under the licence; or
 - (ii) the annual amount of receiver licence tax for the licence; and
- (c) if the annual amount is worked out for each spectrum access under the licence, use Schedule 3 to work out the amount of receiver licence tax for the licence.

Note: Item 102 of Schedule 3 sets out arrangements to round amounts of receiver licence tax under that Schedule.

Part 3 Transitional and savings

7 Definitions for Part 3

In this Part:

commencement day means the day specified in section 2.

former determination means the *Radiocommunications (Receiver Licence Tax) Determination 2003 (No.2)* as in force immediately before the commencement day.

8 Revocation of former determination

This Part has effect despite the revocation of the former determination.

9 Calculation of receiver licence tax

- (1) If:
 - (a) apparatus licence tax is imposed on the issue of a receiver licence; and
 - (b) the licence is issued on or after the commencement day; and
 - (c) the licence comes into force before 5 April 2015;use the former determination to work out the amount of the receiver licence tax.
- (2) If:
 - (a) apparatus licence tax is imposed on the anniversary of the day on which a receiver licence came into force; and
 - (b) the anniversary of the day on which the licence came into force is on or after the commencement day but before 5 April 2015;use the former determination to work out the amount of the receiver licence tax.
- (3) If:
 - (a) apparatus licence tax is imposed on the holding of a receiver licence; and
 - (b) the day when the tax is payable is on or after the commencement day but before 5 April 2015;use the former determination to work out the amount of the receiver licence tax.
- (4) If:
 - (a) apparatus licence tax is imposed on the issue of a receiver licence; and
 - (b) the licence is issued on or after the commencement day; and
 - (c) the licence comes into force on or after 5 April 2015;use this Determination to work out the amount of the receiver licence tax.

- (5) If:
- (a) apparatus licence tax is imposed on the anniversary of the day on which a receiver licence came into force; and
 - (b) the anniversary of the day on which the licence came into force is on or after 5 April 2015;
- use this Determination to work out the amount of the receiver licence tax.
- (6) If:
- (a) apparatus licence tax is imposed on the holding of a receiver licence; and
 - (b) the day when the tax is payable is on or after 5 April 2015;

is *Australia wide*.

205 Area density—space receive licence

The area density type of a spectrum access under a space receive licence authorising the licensee to operate a space station to receive transmissions from an earth station at a specified location or access area in Australia is the area density type that would apply to the earth station if:

- (a) it were being operated under a spectrum access authorising the operation of the station at the location or area; and

Schedule 2 Annual amounts

(subsection 5(2))

Part 1 General rules

101 Supplementary stations

- (1) If an item in this Schedule refers to a licence that authorises the use of a station of a particular kind, the item also applies to a licence that authorises the operation of:
 - (a) more than 1 station of that kind; or
 - (b) 2 or more stations, including 1 or more stations of that kind; or
 - (c) supplementary stations.
- (2) If a spectrum access is described in a licence as a supplementary spectrum access, the access is not to be included in the calculation of receiver licence tax.

Part 2 Receive licences

201 Licences

This Part applies to the following:

- (a) an earth receive licence;
- (b) a major coast receive licence;
- (c) a space receive licence;
- (d) a defence receive licence.

202 Annual amount of tax for spectrum access

Subject to item 203, the amount of tax in respect of each spectrum access under the licence is the amount specified in Table 202 for the frequency range and area density type applicable to the spectrum access, multiplied by the bandwidth (in kHz) of the spectrum access.

Note Schedule 1 sets out the area density types of spectrum accesses.

203 Space receive licence

- (1) If the licence is a space receive licence authorising the licensee to operate a non-geostationary orbit satellite system in a frequency band greater than 8.5 GHz, the amount of tax in respect of the spectrum access is \$275 for each MHz of spectrum on which the system is licensed to operate.
- (2) If:
 - (a) a spectrum access under a space receive licence authorises the licensee to operate a space station to receive transmissions on a frequency within the frequency range 1 610–1 626.5 MHz; and
 - (b) CDMA technology is used when operating the station on a frequency within that frequency range;the amount of tax in respect of the spectrum access is the amount worked out under item 202 divided by 4.

204 Minimum annual amount

If the amount of tax worked out in respect of a spectrum access using item 202 or 203 is less than the minimum annual amount, the amount of tax is taken to be the minimum annual amount.

Part 3 Fixed receive licences

301 Licences

This Part applies to a fixed receive licence.

302 Annual amount of tax for spectrum access

The amount of tax in respect of each spectrum access under the licence is the amount specified in Table 302 for the frequency range and area density type applicable to the spectrum access, multiplied by the bandwidth (in kHz) of the spectrum access.

Note Schedule 1 sets out the area density types of spectrum accesses.

303 Minimum annual amount

If the amount of tax worked out in respect of a spectrum access using item 302 is less than the minimum annual amount, the amount of tax is taken to be the minimum annual amount.

Schedule 3 **Working out receiver licence tax for a particular licence period**

(subsection 5(3))

101 29 February in a year

If:

- (a) a licence is to be issued for a period of 12 months or more; and
- (b) 29 February happens during the licence period;

the day is to be disregarded in working out the amount of tax payable in respect of the issue, anniversary or holding of the licence.

102 Rounding

- (1) This item applies if an amount of receiver licence tax worked out using this Schedule would be an amount that includes a part of a dollar.
- (2) If the part of the dollar is less than 50 cents, the amount of the tax is reduced to the nearest whole dollar.
- (3) If the part of the dollar is 50 cents or more, the amount of the tax is increased to the nearest whole dollar.

103 Full payment of licence tax

- (1) Use the steps in Table 103 to work out tax in respect of the issue of a licence for a period of 12 months or less.
- (2) Use the steps in Table 103 to work out tax in respect of the issue of a licence if:
 - (a) the licence is issued for a period of more than 12 months; and
 - (b) the licensee elected, in the licence application, that subsection 6(2) of the Act was to apply to the licence.

Note: The effect of an election that subsection 6(2) of the Act is to apply to a licence is that the full amount of tax is to be paid on the issue of the licence.

Table 103

- | | |
|---------------|--|
| Step 1 | Find the annual amount for each spectrum access under the licence using Schedule 2 (Note: Certain provisions in Schedule 2 prescribe that the annual amount must be at least the minimum annual amount). |
| Step 2 | Multiply the annual amount by the number of days in the licence period. Divide the result by 365. |
| Step 3 | If the amount worked out in Step 2 is less than the minimum annual amount, increase the amount to the minimum annual amount. |
| Step 4 | Add up the amounts worked out for each spectrum access. The total amount is the licence tax payable, unless Step 5 applies. |
| Step 5 | If the licence is to be issued to an eligible person, multiply the total amount by 0.285. The result is the licence tax payable. |

104 Payment by instalments

Use Table 104 to work out tax in respect of the issue of a licence, and each anniversary of the day the licence came into force, if:

- (a) the licence is issued for a period of more than 12 months; and
- (b) the licensee elected, in the licence application, that subsection 6(3) of the Act was to apply to the licence.

Note: The effect of an election that subsection 6(3) of the Act is to apply to a licence is that the amount of tax for the licence is to be paid in instalments due on the issue of the licence and each anniversary of the day the licence came into force occurring during the period the licence is in force.

Table 104

- Step 1** Find the annual amount for each spectrum access under the licence using Schedule 2 (Note: Certain provisions in Schedule 2 prescribe that the annual amount must be at least the minimum annual amount).
- Step 2** If tax is being imposed on the last anniversary of the day on which the licence came into force:
 - (a) multiply the annual amount (from Step 1) by the number of days in the period starting on the last anniversary and ending at the end of the licence period; and
 - (b) divide the result by 365.
- Step 3** If the amount worked out in Step 2 is less than the minimum annual amount, increase the amount to the minimum annual amount.
- Step 4** Add up the amounts worked out for each spectrum access. The total amount is the licence tax payable, unless Step 5 applies.
- Step 5** If the licence is to be issued to an eligible person, multiply the result by 0.285. The result is the licence tax payable.

105 Payment of remaining instalments

- (1) If:
 - (a) a licence was issued for a period of more than 12 months; and
 - (b) the licensee elects, under subsection 6(5) of the Act, that the subsection is to apply to the licence;

use Table 105 to work out tax in respect of the next anniversary of the day the licence came into force after the election is made.

Note: The effect of an election that subsection 6(5) of the Act is to apply to a licence is that all unpaid instalments of tax for the licence are to be paid in 1 payment.

- (2) If subsection 6(6) of the Act applies to a licence, use Table 105 to work out tax in respect of the holding of the licence on the day after the end of the 60 day period mentioned in that subsection.

Note: The effect of subsection 6(6) of the Act is that all unpaid instalments of tax are required to be paid in 1 payment because of a failure by the licensee to pay an instalment within 60 days after an anniversary of the day the licence came into force.

Table 105

- Step 1** Find the annual amount for each spectrum access under the licence using Schedule 2 (Note: Certain provisions in Schedule 2 prescribe that the annual amount must be at least the minimum annual amount).
- Step 2** Multiply the annual amount by the number of days in the period:
(a) starting on the relevant anniversary of the day the licence came into force, and up to which payment of tax has been made; and
(b) ending at the end of the licence period.
Divide the result by 365.
- Step 3** If the amount worked out in Step 2 is less than the minimum annual amount, increase the amount to the minimum annual amount.
- Step 4** Add up the amounts worked out for each spectrum access. The total amount is the licence tax payable, unless Step 5 applies.
- Step 5** If the licence is to be issued to an eligible person, multiply the result by 0.285. The result is the licence tax payable.
