Schedule 20 Maximum residue limits

Note This instrument is a standard under the *Food Standards Australia New Zealand Act 1991* (Cth). The standards together make up the *Australia New Zealand Food Standards Code*. See also section 1.1.1—3.

Maximum residue limits are regulated by subsection 1.1.1—10(6) and Standard 1.4.2. This Standard identifies agvet chemicals, and their permitted residues, for the purpose of section 1.4.2—4.

S20—1 Name

This Standard is *Australia New Zealand Food Standards Code* – Schedule 20 – Maximum residue limits.

Note Commencement:

This Standard commences on 1 March 2016, being the date specified as the commencement date in notices in the *Gazette* under section 92 of the *Food Standards Australia New Zealand Act 1991* (Cth). See also section 93 of that Act.

Note 2 This Standard applies in Australia only. In New Zealand, maximum residue limits for agricultural compounds are set out in a Maximum Residue Limits Standard.

S20—2 Interpretation

In this Schedule:

- (a) an asterisk (*) indicates that the maximum residue limit is set at the limit of determination; and
- (b) the symbol 'T' indicates that the maximum residue limit is a temporary maximum residue limit; and
- (c) animal food commodities means an animal food commodity listed in Schedule 22, including a secondary commodity of animal origin listed in that Schedule.

S20—3 Maximum residue limits

For section 1.4.2—4, the *agvet chemicals, permitted residues, and amounts are as follows, expressed in mg per kg:

Maximum residue limits

Agvet chemical: Abamectin		Common bean (dry) (navy bean)	*0.002

Amendment History

The Amendment History provides information about each amendment to the Schedule. The information includes commencement or cessation information for relevant amendments.

These amendments are made under section 92 of the *Food Standards Australia New Zealand Act* 1991 unless otherwise indicated. Amendments do not have a specific date for cessation unless indicated as such.

About this compilation

This is compilation No. 84 of Schedule 20 as in force on **2 September 2025** (up to Amendment No. APVMA 4 2025). It includes any commenced amendment affecting the compilation to that date.

Prepared by Food Standards Australia New Zealand.

Uncommenced amendments or provisions ceasing to have effect.

To assist stakeholders, the effect of any uncommenced amendments or provisions which will cease to have effect, may be reflected in the Schedule as shaded boxed text with the relevant commencement or cessation date. These amendments will be reflected in a compilation registered on the Federal Register of Legislation including or omitting those amendments and provided in the Amendment History once the date is passed.

The following abbreviations may be used in the table below:

ad = added or inserted am = amended C[x] = Compilation No. x ed = editorial change

exp = expired or ceased to have effect (md not Incorp) = misdescribed amendment cannot

be given effect.

rep = repealed rs = repealed and substituted

Schedule 20 was published in the Food Standards Gazette No. FSC96 on 10 April 2015 as part of Amendment 154 (F2015L00468 — 1 April 2015) and has since been amended as follows:
