Reporting Standard SRS 330.2

Statement of Financial Performance

Objective of this Reporting Standard

This Reporting Standard sets out the requirements for the provision of information to APRA relating to the financial performance of a MySuper product.

It includes *Form SRF 330.2 Statement of Financial Performance* and associated specific instructions.

Authority

1. This Reporting Standard is made under section 13 of the *Financial Sector (Collection of Data) Act 2001*.

Purpose

2. Information collected in *Form SRF 330.2 Statement of Financial Performance* (SRF 330.2) is used by APRA for the purposes of prudential supervision and publication.

Application and commencement

3. This Reporting Standard applies to each registrable superannuation entity (RSE) licensee (RSE licensee) in respect of each MySuper product within its business operations.¹
4. This Reporting Standard applies for reporting periods ending on or after 1 July 2015.

¹ For the purposes of this Reporting Standard, an 'RSE licensee's business operations' includes all activities as an RSE licensee (including the activities of each RSE of which it is the licensee), and all other activities of the RSE licensee to the extent that they are relevant to, or may impact on, its activities as an RSE licensee. For the avoidance of doubt, if the RSE licensee is trustee in relation to one or more MySuper products, the RSE licensee must separately provide the information required by the form for each MySuper product within its business operations. An RSE licensee that does not have any MySuper products within its business operations is not required to provide information under this Reporting Standard.

Information required

5. An RSE licensee to which this Reporting Standard applies must provide APRA with the information required by SRF 330.2 in respect of each reporting period.

Forms and method of submission

6. The information required by this Reporting Standard must be given to APRA in electronic format using the 'Direct to APRA' application or, where 'Direct to APRA' is not available, by a method notified by APRA, in writing, prior to submission.

Note: the 'Direct to APRA' application software (also known as 'D2A') may be obtained from APRA.

Reporting periods and due dates

7. Subject to paragraph 8, an RSE licensee to which this Reporting Standard applies must provide the information required by this Reporting Standard in respect of each year of income of each RSE within which a MySuper product is located.
8. If, having regard to the particular circumstances of a MySuper product, APRA considers it necessary or desirable to obtain information more or less frequently than as provided by paragraph 7, APRA may, by notice in writing, change the reporting periods for the MySuper product.
9. The information required by this Reporting Standard must be provided to APRA:
 - (a) within three months after the end of the year of income to which the information relates; and
 - (b) in the case of information provided in accordance with paragraph 8, within the time specified by notice in writing.
10. APRA may grant, in writing, an RSE licensee an extension of a due date with respect to one or more MySuper product within its business operations, in which case the new due date for the provision of the information will be the date on the notice of extension.

Quality control

11. The information provided by an RSE licensee under this Reporting Standard must be the product of systems, procedures and internal controls that have been reviewed and tested by the RSE auditor of the RSE within which the MySuper product, to which the information relates, is located.² This will require the RSE auditor to review and test the RSE licensee's systems, procedures and internal controls designed to enable the RSE licensee to report reliable information to APRA. This review and testing must be done on:
 - (a) an annual basis or more frequently if necessary to enable the RSE auditor to form an opinion on the reliability and accuracy of information; and

² Refer also to *Prudential Standard SPS 310 Audit and Related Matters* (SPS 310).

- (b) at least a limited assurance engagement consistent with professional standards and guidance notes issued by the Auditing and Assurance Standards Board as may be amended from time to time, to the extent that they are not inconsistent with the requirements of SPS 310.
12. All information provided by an RSE licensee under this Reporting Standard must be subject to systems, processes and controls developed by the RSE licensee for the internal review and authorisation of that information. It is the responsibility of the Board and senior management of the RSE licensee to ensure that an appropriate set of policies and procedures for the authorisation of information submitted to APRA is in place.

Authorisation

13. When an officer or agent of an RSE licensee provides the information required by this Reporting Standard using the 'Direct to APRA' software, it will be necessary for the officer or agent to digitally sign the relevant information using a digital certificate acceptable to APRA.
14. If the information required by this Reporting Standard is provided by an agent who submits using the 'Direct to APRA' software on the RSE licensee's behalf, the RSE licensee must:
- (a) obtain from the agent a copy of the completed form with the information provided to APRA; and
 - (b) retain the completed copy.
15. An officer or agent of an RSE licensee who submits the information under this Reporting Standard for, on behalf of, the RSE licensee must be authorised by either:
- (a) the Chief Executive Officer of the RSE licensee; or
 - (b) the Chief Financial Officer of the RSE licensee.

Variations
