(a) if a Relevant Rebate or Scheme Fee does not relate solely to Credit Cards of the Scheme, International Credit Cards of the Scheme, Credit Card Transactions, International Card Transactions or Overseas Merchant Transactions undertaken in the Scheme, and also relates to other Devices or other transactions, the Relevant Rebate or Scheme Fee must be apportioned between:

Authorised Version F2026C00916 registered 01/10/2026

(i) the Credit Cards of the Scheme, International Credit Cards of the Scheme, Credit Card Transactions, International Card Transactions and Overseas Merchant Transactions undertaken in the Scheme (as the case may be) on the one hand; and

(ii) the other Devices and other transactions on the other,

fairly and reasonably, having regard to, where relevant, the transaction history on Devices used in the payment systems to which the Relevant Rebate or Scheme Fee relates and the proportion of the Devices to which the Relevant Rebate or Scheme Fee relates that are Credit Cards of the Scheme or International Credit Cards of the Scheme;

(b) one method of apportionment under paragraph (a) that will be fair and reasonable for the purpose of that provision is an apportionment on a pro-rata basis, based on the value of Credit Card Transactions, Overseas Merchant Transactions or International Card Transactions undertaken in the Scheme during the Quarter as a proportion of the total value of the transactions undertaken in any payment system to which the Relevant Rebate or Scheme Fee relates during the Quarter. This does not preclude an apportionment in another way that meets the requirements of paragraph (a);

(c) if a Relevant Rebate or Scheme Fee does not solely relate to or is not referable to a particular Transaction Category, the Relevant Rebate or Scheme Fee must be apportioned across Transaction Categories based on the value of transactions in that Quarter of that Transaction Category as a proportion of the total value of all Credit Card Transactions, International Card Transactions and Overseas Merchant Transactions undertaken in the Scheme in that Quarter;

(d) where a Relevant Rebate or Scheme Fee referred to above relates to a period that spans more than one Quarter, the Relevant Rebate or Scheme Fee or, in the case of a Relevant Rebate or Scheme Fee referred to in paragraph (a), the relevant portion of the Relevant Rebate or Scheme Fee, may be allocated among Quarters, in which case the allocation must:

(i) be on a pro-rata basis based on the number of months in each relevant Quarter to which the Relevant Rebate or Scheme Fee relates if an allocation on that basis would fairly and reasonably align the Relevant Rebate or Scheme Fee to the activity to which the Relevant Rebate or Scheme Fee relates; or

Authorised Version F2026C00916 registered 01/10/2026

(ii) otherwise on some other basis that fairly and reasonably aligns the allocation of the Relevant Rebate or Scheme Fee to the activity to which the Relevant Rebate or Scheme Fee relates,

in each case provided that:

(iii) no part of it is allocated to any Quarter the whole of which occurs before the term of the contract or arrangement under which the Relevant Rebate or Scheme Fee is payable, receivable or allowable has commenced;

(iv) no part of it is allocated to any Quarter the whole of which occurs after the term of the contract or arrangement under which the Relevant Rebate or Scheme Fee is payable, receivable or allowable has ended; and

(v) it may not be allocated among more than 40 consecutive Quarters; and

(e) where a particular method permitted above has been adopted of:

(i) determining whether and to what extent Relevant Rebates or Scheme Fees are earned or accrued during, or are receivable in respect of, a Quarter; or

(ii) allocating or apportioning Relevant Rebates or Scheme Fees for the purpose of paragraph (a), (b) or (c),

that method must, unless the Reserve Bank of Australia otherwise agrees in writing, continue to be used consistently from one Quarter to the next.

6.15 All information that an administrator of a Scheme has published pursuant to clauses 6.8, 6.10 and 6.12, other than the information in respect of the most recent Quarter, must be displayed on a separate page of the website, and a link to that page must be displayed in a location that is easily accessible.

Legislation history and amendment history—Endnotes 3 and 4
Amending laws are annotated in the legislation history and amendment history.

The legislation history in endnote 3 provides information about each law that has amended (or will amend) the compiled law. The information includes commencement details for amending laws and details of any application, saving or transitional provisions that are not included in this compilation.

The amendment history in endnote 4 provides information about amendments at the provision (generally section or equivalent) level. It also includes information about any provision of the compiled law that has been repealed in accordance with a provision of the law.

Misdescribed amendments
A misdescribed amendment is an amendment that does not accurately describe how an amendment is to be made. If, despite the misdescription, the amendment can be given effect as intended, then the misdescribed amendment can be incorporated through an editorial change made under section 15V of the *Legislation Act 2003*.

If a misdescribed amendment cannot be given effect as intended, the amendment is not incorporated and "(md not incorp)" is added to the amendment history.
