Part 1—Preliminary

Division 1.1—Interpretation

1.1.1 References to diagnostic imaging services

A reference to a diagnostic imaging service in an item in Part 2 includes a reference to the undertaking of the diagnostic imaging procedure used for rendering the service.

Division 1.2—General application provisions

Subdivision A—Capital sensitivity

1.2.1 Application of (K) items and (NK) items

(1) Subject to clause 1.2.3, an (NK) item applies to a service that is performed on:
  (a) diagnostic imaging equipment:
    (i) that has not been upgraded; and
    (ii) the age of which exceeds the new effective life age for the equipment; or
  (b) diagnostic imaging equipment:
    (i) that has been upgraded; and
    (ii) the age of which exceeds the maximum extended life age for the equipment.

(2) A (K) item does not apply to a service to which an (NK) item applies.

1.2.2 Age of equipment

Age of equipment

(1) The date from which the age of equipment is worked out for this instrument is:
  (a) the date that the diagnostic imaging equipment was first installed in Australia; or
  (b) if the diagnostic imaging equipment was imported as used equipment—the date of manufacture of the oldest component of the equipment.

Life ages

(2) The ***new effective life age*** and ***maximum extended life age*** for equipment are the periods set out in the following table for that type of equipment:

Life ages

Item	Column 1 Topic	Column 2 Modality	Column 3 New effective life age (years)	Column 4 Maximum extended life age (years)
1	Ultrasound	Equipment used to perform a service to which an item in Group I1 in Division 2.1 applies	10	15

7	MRI	Equipment used to perform a service to which an item in Group I5 in Division 2.5 applies	10	20

Upgrades

(3) Diagnostic imaging equipment has been ***upgraded*** if:

(a) an additional reasonable investment has been made within the new effective life age for the equipment that improves the overall performance of the imaging system so that it is equivalent to new equipment supplied in Australia at the time of the improvement; or

(b) in the case of CT or angiography equipment that was not more than 15 years old on 1 January 2015—an additional reasonable investment has been made before 1 January 2016 that improves the overall performance of the imaging system so that it is equivalent to new equipment supplied in Australia at the time of the improvement; or

(c) the equipment is currently accredited under The Royal Australian and New Zealand College of Radiologists' Mammography Quality Assurance Program.

Note: Proprietors could in 2018 obtain further information on what constituted an upgrade from the Department's website (http://www.health.gov.au/capitalsensitivity).

1.2.3 Exemptions from capital sensitivity

Outer regional, remote and very remote areas

    (i) if the proprietor has not yet applied for reconsideration under clause 1.2.4—the period to apply for reconsideration has not yet expired; or
    (ii) if the proprietor has applied for reconsideration under clause 1.2.4—the Secretary has not yet notified the proprietor of the Secretary's reconsideration decision.

Inner regional areas—exemptions

(4) The Secretary may grant an exemption in writing in respect of diagnostic imaging equipment if the Secretary is satisfied that the diagnostic imaging equipment:
  (a) is operated on a rare and sporadic basis; and
  (b) provides crucial patient access to diagnostic imaging services.

(5) The Secretary must make a decision under subclause (4) within 28 days of the day on which the Department notifies the relevant proprietor of the receipt of a valid application as mentioned in paragraph (3)(a).

(6) A relevant proprietor may only apply for an exemption under subclause (4) if the age of the diagnostic imaging equipment exceeds the maximum extended life age for the diagnostic imaging equipment by less than 3 years, and:

Division 2.2—Group I2: computed tomography (examination)

2.2.1 CT services—eligible services

(1) Items in this Division (other than items 57360 and 57361) apply to a CT service that is:

(a) performed under the supervision of a specialist in the specialty of diagnostic radiology who is available:

(i) to monitor and influence the conduct and diagnostic quality of the examination; and

(ii) if necessary, to attend on the patient personally; and

(b) reported by a specialist in the specialty of diagnostic radiology.

(2) Items 57360 and 57361 apply to a CT service that is:

(a) performed under the supervision of a specialist or consultant physician who is recognised by the Conjoint Committee for the Recognition of Training in CT Coronary Angiography and available:

(i) to monitor and influence the conduct and diagnostic quality of the examination; and

(ii) if necessary, to attend on the patient personally; and

(b) reported by a specialist or consultant physician who is recognised by the Conjoint Committee for the Recognition of Training in CT Coronary Angiography.

(3) However, items in this Division apply to a CT service that does not comply with the requirements mentioned in subclause (1) or (2) if the service is performed:

(a) in an emergency; or

(b) because of medical necessity, in a remote location.

2.2.2 CT services—exclusion of attenuation correction and anatomical correlation

Items in this Division do not apply to a CT service that is performed for the purpose of attenuation correction or anatomical correlation of another diagnostic imaging procedure.

2.2.3 CT services—exclusion of acoustic neuroma

If an axial scan is performed for the exclusion of acoustic neuroma, item 56001 or 56007 applies instead of any other item in this table that might be taken to apply to the service.

2.2.4 CT services—assessment of headache

(1) If the service mentioned in item 56007 or 56047 is used for the assessment of a headache of a patient to whom this clause applies, the fee mentioned in the item applies only if:

(a) a scan without intravenous contrast medium has been performed on the patient; and

(b) the service is required because the result of the scan is abnormal.

(2) This clause applies to a patient who:

(a) is under 50 years; and

(b) is (apart from the headache) otherwise well; and

(c) has no localising symptoms or signs; and

(d) has no history of malignancy or immunosuppression.

2.2.5 CT services—number of services

Items 56220 to 56240 and 56619 to 56665 apply once only for a service mentioned in any of those items, regardless of the number of patient attendances required to complete the service.

2.2.6 Cone beam computed tomography—items 57362 and 57363

Item 57362 or 57363 applies to the service mentioned in that item only if the service is performed with diagnostic imaging equipment that is not used to perform any other diagnostic imaging service.

Division 2.4—Group I4: nuclear medicine imaging

2.4.1 Nuclear scanning services—other than PET

Items 61302 to 61505, 61650 to 61719 and 61729 apply only if:

(a) the performance of the service does not involve the use of positron-emission radio-isotopes or a PET scanner; and

(b) the service is performed:

(i) by a specialist or consultant physician whose name is included in a register, given to the Chief Executive Medicare by the JNMCAC, of participants in the Joint Nuclear Medicine Specialist Credentialling Program of the JNMCAC; or

(ii) by a person acting on behalf of a specialist or consultant physician mentioned in subparagraph (i); and

(c) the final report of the service is compiled by the specialist or consultant physician who performed the preliminary examination of the patient and the estimation and administration of the dosage of radiopharmaceuticals.

2.4.2 PET nuclear scanning services

(1) Items 61523 to 61647 apply only if the service is performed on a person:

(a) at the written request of a specialist or consultant physician (the ***requesting practitioner***) if:

(i) the person is the requesting practitioner's patient; and

(ii) the requesting practitioner decides that the service is necessary; and

(b) in a comprehensive facility; and

(c) in accordance with clauses 2.4.3 and 2.4.4.

(2) Also, the items apply only if the owner or operator of the equipment used to perform the service is not in breach of clause 2.4.5.

2.4.3 PET nuclear scanning services—performance under personal supervision

(1) For the purposes of clause 2.4.2, the service must be performed on a person by or under the personal supervision of:

(a) a credentialled specialist other than the requesting practitioner; or

(b) a medical practitioner other than the requesting practitioner if the medical practitioner:

(i) is a Fellow of the RACP or RANZCR; and

(ii) has reported 400 or more studies forming part of PET services for which a medicare benefit was payable; and

(iii) is authorised under State or Territory law to prescribe and administer to humans the PET radiopharmaceuticals that are to be administered to the person; and

(iv) met the requirements of subparagraphs (i), (ii) and (iii) before 1 November 2011.

(2) In this clause:

requesting practitioner has the same meaning as in paragraph 2.4.2(1)(a).

2.4.4 PET nuclear scanning services—equipment

For the purposes of clause 2.4.2, the service must be performed on a person using equipment that meets the requirements set out in *Requirements for PET Accreditation (Instrumentation & Radiation Safety) 3rd Edition (2017)*, issued by the Australian and New Zealand Society of Nuclear Medicine Inc, as existing on 1 July 2018.

Note: The *Requirements for PET Accreditation (Instrumentation & Radiation Safety) 3rd Edition (2017)* could in 2018 be viewed on the website of the Society (https://www.anzsnm.org.au).

2.4.5 PET nuclear scanning services—statutory declaration

(1) The owner or operator mentioned in subclause 2.4.2(2) must have given a statutory declaration to the Chief Executive Medicare that includes the following information:

(a) whether the owner or operator is a credentialed specialist or a medical practitioner who satisfies the requirements mentioned in subparagraphs 2.4.3(1)(b)(i) to (iv);

(b) whether the place where the owner or operator provides the service in a comprehensive facility;

(c) whether the equipment meets the requirements mentioned in clause 2.4.4;

(d) the facility's address;

(e) the provider number for the facility given by the Chief Executive Medicare;

(f) the location specific practice number for the facility given by the Minister;

(g) the models, serial numbers and manufacturers of the equipment.

(2) If the matters declared in the statutory declaration change, the owner or operator must give the Chief Executive Medicare written notice of the change as soon as the owner or operator knows about the change.
