Interpretation

In this Determination:

APRA means the Australian Prudential Regulation Authority.

financial sector entity has the meaning given by section 5 of the Act.

Schedule

Reporting Standard ARS 222.0 Exposures to Related Entities comprises the document commencing on the following page.

Reporting Standard ARS 222.0

Exposures to Related Entities

Objective of this reporting standard

This Reporting Standard sets out requirements for the provision of information to APRA relating to an authorised deposit-taking institution's exposures to related entities.

It includes *Reporting Form ARF 222.0 Exposures to related entities* and *Reporting Form ARF 222.1 Exposures to related entities – foreign ADI* and associated specific instructions and must be read in conjunction with *Prudential Standard APS 222 Associations with Related Entities*.

Authority

1. This Reporting Standard is made under section 13 of the *Financial Sector (Collection of Data) Act 2001*.

Purpose

2. Information collected under this Reporting Standard is used by APRA for the purpose of prudential supervision. It may also be used by the Reserve Bank of Australia (RBA) and the Australian Bureau of Statistics (ABS).

Application

3. This Reporting Standard applies to all authorised deposit-taking institutions (ADIs) with the exception of providers of purchased payment facilities (PPFs).

Commencement

4. This Reporting Standard commences on 1 January 2022 and applies to reporting periods ending on or after that date.

Information required

5. A locally incorporated ADI to which this Reporting Standard applies must provide APRA with the information required by the *Reporting Form ARF 222.0 Exposures*

to related entities (ARF 222.0) on a Level 1 basis for each reporting period.

6. A foreign ADI to which this Reporting Standard applies must provide APRA with the information required by *Reporting Form ARF 222.1 Exposures to related entities – foreign ADI* (ARF 222.1) on a domestic book basis for each reporting period.

Method of submission

7. The information required by this Reporting Standard must be given to APRA in electronic format, using the ‘Direct to APRA’ application or by a method (i.e. web-based solution) notified by APRA prior to submission.

Note: The Direct to APRA application software (also known as D2A) may be obtained from APRA.

Reporting periods and due dates

8. Subject to paragraph 10 of this Reporting Standard, an ADI to which this Reporting Standard applies must provide the information required by this Reporting Standard in respect of each quarter based on the ADI’s financial year (within the meaning of the *Corporations Act 2001*).
9. Subject to paragraph 11 of this Reporting Standard, the information required by this Reporting Standard must be provided to APRA within 28 calendar days after the end of the reporting period to which the information relates.
10. APRA may change the reporting periods, or specified reporting periods, for a particular ADI, to require it to provide the information required by this Reporting Standard more frequently, or less frequently, having regard to:
 - (a) the particular circumstances of the ADI;
 - (b) the extent to which the information is required for the purposes of the prudential supervision of the ADI; and
 - (c) the requirements of the RBA and the ABS.
11. APRA may grant an ADI an extension of a due date in which case the new date will be the date specified in the notice of extension.

Note: For the avoidance of doubt, if the due date for a particular reporting period falls on a day other than a usual business day, an ADI is nonetheless required to submit the information required no later than the due date.

Quality control

12. All information provided by an ADI under this Reporting Standard must be the product of systems, processes and controls that have been reviewed and tested by the external auditor of the ADI as set out in *Prudential Standard APS 310 Audit and Related Matters*. Relevant standards and guidance statements issued by the Auditing and Assurance Standards Board provide information on the scope and nature of the review and testing required from external auditors. This review and testing must be done on an annual basis, or more frequently if necessary, to enable the external auditor to form an opinion on the accuracy and reliability of the information provided by an ADI under this Reporting Standard.

13. All information provided by an ADI under this Reporting Standard must be subject to systems, processes and controls developed by the ADI for the internal review and authorisation of that information. These systems, processes and controls are to assure the completeness and reliability of the information provided.

Authorisation

14. When an officer of an ADI submits information under this Reporting Standard using the D2A application or other method notified by APRA, it will be necessary for the officer to digitally sign the relevant information using a digital certificate acceptable to APRA.

Minor alterations to forms and instructions

15. APRA may make minor variations to:
 - (a) a form that is part of this Reporting Standard, and the instructions to such a form, to correct technical, programming or logical errors, inconsistencies or anomalies; or
 - (b) the instructions to a form, to clarify the application to the form,without changing any substantive requirement in the form or instructions.
16. If APRA makes such a variation, it must notify each ADI that is required to report under this Reporting Standard.

Transition

17. An ADI must report under the old Reporting Standard in respect of a transitional reporting period. For these purposes:

old Reporting Standard means the Reporting Standard revoked by the determination that makes this Reporting Standard (being the Reporting Standard which this Reporting Standard replaces), as in force immediately before the commencement of this Reporting Standard.

transitional reporting period means a reporting period under the old Reporting Standard:

- (a) that ended on or before 31 December 2021; and
- (b) in relation to which the ADI was required, under the old Reporting Standard, to report by a date on or after the date of revocation of the old Reporting Standard.

Note: For the avoidance of doubt, if an ADI was required to report under an old Reporting Standard, and the reporting documents were due before the date of revocation of the old Reporting Standard, the ADI is still required to provide the overdue reporting documents in accordance with the old Reporting Standard.

Reporting Form ARF 222.0

Exposures to Related Entities

Instruction Guide

This instruction guide is designed to assist in the completion of *Reporting Form ARF 222.0 Exposures to related entities* (ARF 222.0). This form collects information on an authorised deposit-taking institution's (ADI's) exposures to related entities.

In completing this form, ADIs must refer to *Prudential Standard APS 222 Associations with Related Entities* (APS 222).

General directions and notes

Reporting entity

ARF 222.0 must be completed on a Level 1 basis by all ADIs, with the exception of:

- (a) foreign ADIs; and
- (b) providers of purchased payment facilities.

Securitisation deconsolidation principle

1. Where an ADI (or a member of its Level 2 consolidated group) participates in a securitisation that meets APRA's operational requirements for regulatory capital relief under *Prudential Standard APS 120 Securitisation* (APS 120):
 - (a) special purpose vehicles (SPVs) holding securitised assets may be treated as non-consolidated independent third parties for regulatory reporting purposes, irrespective of whether the SPVs (or their assets) are consolidated for accounting purposes; and
 - (b) the assets, liabilities, revenues and expenses of the relevant SPVs may be excluded from the ADI's reported amounts in APRA's regulatory reporting returns.
2. Where an ADI (or a member of its Level 2 consolidated group) participates in a securitisation that does not meet APRA's operational requirements for regulatory capital relief under APS 120, or the ADI undertakes a funding-only securitisation or synthetic securitisation, such assets are to be reported as on-balance sheet in APRA's regulatory reporting returns.

Securitisation exclusions

Funding-only securitisations that are self-securitisations are excluded from the reporting requirements in ARF 222.0.

Reporting period

This form is to be completed as at the last calendar day of each quarter based on the financial year (within the meaning of the *Corporations Act 2001*) of the ADI.

Unit of measurement

ADIs must complete the form in whole Australian dollars (no decimal place).

Amounts denominated in foreign currency must be converted to AUD in accordance with *Accounting Standard AASB 121 The Effects of Changes in Foreign Exchange Rates (AASB 121)*.

Basis of preparation

For the purposes of this form, ADIs must report all ***exposures*** including both the effect of ***Credit risk mitigation (CRM)*** techniques (item 1) as well as on the basis of excluding the effect of ***CRM*** techniques (item 2), in accordance with *Prudential Standard APS 221 Large Exposures (APS 221)*.
