Regulatory Income Statement – Supplementary Information

Objective of this Reporting Standard

This Reporting Standard sets out requirements for the provision of information to APRA relating to a private health insurer's supplementary information for its regulatory income statement.

It includes associated specific instructions and must be read in conjunction with *Prudential Standard HPS 115 Capital Adequacy: Insurance Risk Charge* (HPS 115), and *Prudential Standard HPS 340 Insurance Liability Valuation* (HPS 340).

Authority

1. This Reporting Standard is made under section 13 of the *Financial Sector (Collection of Data) Act 2001*.

Purpose

2. The information reported to APRA under this Reporting Standard is used by APRA for the purpose of prudential supervision.

Application and commencement

3. This Reporting Standard applies to all private health insurers for reporting periods ending on or after 1 July 2023.

Information required

4. A private health insurer must provide APRA with the information required by this Reporting Standard for each reporting period.

Method of submission

5. The information required by this Reporting Standard must be given to APRA:
 - (a) in electronic format using an electronic method available on APRA's website; or
 - (b) by a method notified by APRA prior to submission.

Reporting periods and due dates

6. Subject to paragraph 7, a private health insurer must provide the information required by this Reporting Standard:
 - (a) in respect of each calendar quarter (i.e. the periods ending 30 September, 31 December, 31 March and 30 June); and
 - (b) in respect of each year ending 30 June.
7. If, having regard to the particular circumstances of a private health insurer, APRA considers it necessary or desirable to obtain information more or less frequently than as provided by subparagraph 6(a) or 6(b), APRA may, by notice in writing, change the reporting periods, or specify reporting periods, for the particular private health insurer.
8. The information required by this Reporting Standard must be provided to APRA:
 - (a) in the case of quarterly information under subparagraph 6(a), within 28 calendar days after the end of the reporting period to which the information relates;

 - (c) in the case of information provided in accordance with paragraph 7, within the time specified by notice in writing.
9. APRA may, in writing, grant a private health insurer an extension of a due date, in which case the new due date will be the date on the notice of extension.

Note: For the avoidance of doubt, if the due date for a particular reporting period falls on a day other than a usual business day, a private health insurer is nonetheless required to submit the information required no later than the due date.

Quality control

10. All information provided by a private health insurer under this Reporting Standard must be subject to systems, processes and controls developed by the private health insurer for the internal review and authorisation of that information. It is the responsibility of the Board and senior management of the private health insurer to ensure that an appropriate set of policies and procedures for the authorisation of information submitted to APRA is in place.

Annual audit requirements

11. The information submitted for the purposes of paragraph 8(b) is to be subject to external audit to ensure consistency with the private health insurer's statutory financial accounts and faithful application of the capital standards.
12. Audit certification and opinion must be provided to by 30 September each year.
13. If a private health insurer received a qualified auditor's report for a health benefits fund, the general fund, or the private health insurer for the previous year (previous report), the current year's auditor's report must state whether the auditor has examined the issues identified and is satisfied that the private health insurer has taken the appropriate steps to rectify the matters raised in the previous report.
14. The auditor's report must:
 - (a) state details of the program adopted to carry out the audit; and
 - (b) include the name of, and be signed by, the auditor who takes responsibility for the accuracy of the report.

Variations

16. APRA may, in writing, vary the reporting requirements of this Reporting Standard in relation to a private health insurer.

Transition

17. A private health insurer must report under the old reporting standard in respect of a transitional reporting period. For these purposes:

old reporting standard means the reporting standard revoked in the determination making this Reporting Standard; and

transitional reporting period means a reporting period under the old reporting standard:

- (a) which ended before 1 July 2023; and
- (b) in relation to which the private health insurer was required, under the old reporting standard, to report by a date on or after the date of revocation of the old reporting standard.

Note: For the avoidance of doubt, if a private health insurer was required to report under an old reporting standard, and the reporting documents were due before the date of revocation of the old reporting

standard, the private health insurer is still required to provide any overdue reporting documents in accordance with the old reporting standard.
