- (1) For the purposes of section 24 of the Act, if the Minister makes a determination under paragraph 110(1)(a) of the Act that a State or Territory pay to the Commonwealth a specified amount, the State or Territory must (subject to subsection (6)) pay the amount by the time specified in the determination.

Assigning rights of recovery to the Commonwealth or recovering debts

- (2) A State or Territory must ensure that there is in force an arrangement (whether by or under a law, or otherwise) that complies with subsection (3) in relation to each approved authority, block grant authority or non-government representative

body to whom the State or Territory may pay an amount of financial assistance in accordance with the Act.

- (3) An arrangement in relation to an approved authority, a block grant authority or a non-government representative body must provide that if:
- (a) the Minister makes a determination under paragraph 110(1)(a) of the Act that the State or Territory must pay to the Commonwealth a specified amount; and
 - (b) the Minister makes the determination as a result of:
 - (i) non-compliance or a breach by the authority or body mentioned in section 108 of the Act; or
 - (ii) a payment mentioned in subsection 109(1), (2) or (4) or paragraph 109(3)(a) of the Act that was paid to the State or Territory for the authority or body;
- then the amount mentioned in paragraph (a) of this subsection is a debt due by the authority or body to the State or Territory, and may be recovered by the State or Territory (or another person on behalf of the State or Territory) in a court.
- (4) The State or Territory must:
- (a) assign to the Commonwealth the right to recover the debt; or
 - (b) promptly recover the debt from the authority or body.
- (5) The Commonwealth must accept the assignment by the State or Territory of the right to recover the debt.
- (6) If the State or Territory assigns to the Commonwealth the right to recover the debt due by the authority or body, then:
- (a) the debt may be recovered by the Minister, on behalf of the Commonwealth, in a court of competent jurisdiction; and
 - (b) the debt due by the State or Territory to the Commonwealth that arises under subsection 111(1) of the Act is taken to be extinguished (and the State or Territory is not required to pay the amount to the Commonwealth under subsection (1) of this section).

12 Pro-rating of recurrent funding

- (1) For the purposes of section 27 of the Act, the total entitlement is to be determined in accordance with this section for a year if one or more of the following events occurs during the year:
- (a) no student receives primary education or secondary education at a school, or at a location of a school, during a part of the year (except school holidays);
 - (b) a school becomes entitled to financial assistance under Part 3 of the Act;
 - (c) a school ceases to be entitled to financial assistance under Part 3 of the Act.
- (2) The amount of financial assistance that is to be determined in relation to the school for the year is the lesser of:
- (a) the amount the Minister considers appropriate; and

Section 12

- (b) the full amount of financial assistance.
- (3) In deciding an appropriate amount for the purposes of paragraph (2)(a), the Minister must have regard to the following:
 - (a) the proportion of the school year during which the school was providing education or was entitled to financial assistance under Part 3 of the Act;
 - (b) the time during the school year when the school began or ceased to provide education or be entitled to financial assistance under Part 3 of the Act;
 - (c) in the case of a school that has ceased to provide education or be entitled to financial assistance under Part 3 of the Act—the amount of any financial assistance that has already been paid for the school for the year in accordance with determinations under subsection 25(1) of the Act.
- (4) Subsection (3) does not limit the matters to which the Minister may have regard.

Part 3—Recurrent funding for schools

Division 1—Matters related to the funding formula

14 ARIA index value

For the purposes of the definition of *ARIA index value* in section 6 of the Act, a school's *ARIA index value* is the average ARIA+ score for the Statistical Area Level 1 in which the school is located.

Note 1: The average ARIA+ scores are obtained from the Hugo Centre for Population and Migration Studies. The Hugo Centre for Population and Migration Studies is responsible for the development and dissemination of the ARIA+ (2011) index.

Note 2: The Minister may determine the location of a school with more than one location for the purposes of working out the school's ARIA index value (see section 18 of the Act).

16 Definition of *Aboriginal and Torres Strait Islander student*

For the purposes of the definition of *Aboriginal and Torres Strait Islander student* in section 6 of the Act, a student is an *Aboriginal and Torres Strait Islander student* if:

- (a) either or both of the following apply:
 - (i) the student is of Aboriginal descent;
 - (ii) the student is of Torres Strait Islander descent; and
- (b) the student identifies as a person of that descent; and
- (c) the student is accepted by the community in which the student lives as being of that descent.

16AA Base amounts for schools

For the purposes of paragraph 33(4)(b) of the Act, 45% is prescribed.

17 Disability loading—disability loading percentages

- (1) For the purposes of subsection 36(5) of the Act, this section prescribes disability loading percentages.

Supplementary disability loading percentage

- (2) The supplementary disability loading percentage is:
 - (a) for a primary school—42%; and
 - (b) for a secondary school—33%; and
 - (c) for a combined school—the percentage worked out using the following formula:

Section 17

$$\frac{\text{Primary student supplementary adjustment number} + \text{Secondary student supplementary adjustment number}}{\text{Total number of students at the school classified as needing a supplementary level of adjustment}} \times \text{The SRS funding amount for the year for a student at the school}$$

Substantial disability loading percentage

- (3) The substantial disability loading percentage is:
- (a) for a primary school—146%; and
 - (b) for a secondary school—116%; and
 - (c) for a combined school—the percentage worked out using the following formula:

$$\frac{\text{Primary student substantial adjustment number} + \text{Secondary student substantial adjustment number}}{\text{Total number of students at the school classified as needing a substantial level of adjustment}} \times \text{The SRS funding amount for the year for a student at the school}$$

Extensive disability loading percentage

- (4) The extensive disability loading percentage is:
- (a) for a primary school—312%; and
 - (b) for a secondary school—248%; and
 - (c) for a combined school—the percentage worked out using the following formula:

$$\frac{\text{Primary student extensive adjustment number} + \text{Secondary student extensive adjustment number}}{\text{Total number of students at the school classified as needing an extensive level of adjustment}} \times \text{The SRS funding amount for the year for a student at the school}$$

Note: The SRS funding amount for a year for a student at a combined school is worked out in accordance with section 34 of the Act.

- (5) The **primary student extensive adjustment number** is the amount worked out using the following formula:

$$\text{Number of primary students at the school classified as needing an extensive level of adjustment} \times 312\% \times \text{The SRS funding amount for the year for a primary student}$$

- (6) The **primary student substantial adjustment number** is the amount worked out using the following formula:

$$\text{Number of primary students at the school classified as needing a substantial level of adjustment} \times 146\% \times \text{The SRS funding amount for the year for a primary student}$$

- (7) The **primary student supplementary adjustment number** is the amount worked out using the following formula:

$$\frac{\text{Number of primary students at the school classified as needing a supplementary level of adjustment}}{\text{The SRS funding amount for the year for a primary student}} \times 42\%$$

- (8) The **secondary student extensive adjustment number** is the number worked out using the following formula:

$$\frac{\text{Number of secondary students at the school classified as needing an extensive level of adjustment}}{\text{The SRS funding amount for the year for a secondary student}} \times 248\%$$

- (9) The **secondary student substantial adjustment number** is the number worked out using the following formula:

$$\frac{\text{Number of secondary students at the school classified as needing a substantial level of adjustment}}{\text{The SRS funding amount for the year for a secondary student}} \times 116\%$$

- (10) The **secondary student supplementary adjustment number** is the number worked out using the following formula:

$$\frac{\text{Number of secondary students at the school classified as needing a supplementary level of adjustment}}{\text{The SRS funding amount for the year for a secondary student}} \times 33\%$$

17A Disability loading—levels of adjustment

For the purposes of subsection 36(6) of the Act, a student needs a supplementary level of adjustment, a substantial level of adjustment or an extensive level of adjustment for a year if in relation to that year the student is classified as receiving that level of adjustment in accordance with the Ministerial Council disability guidelines.

Note: References to student in this instrument and in section 36 of the Act do not include references to overseas students: see the definitions of **primary student** and **secondary student** in section 6 of the Act.

18 Other loadings

Socio-educational disadvantage loading—students in quartile 1

- (1) For the purposes of subsection 38(4) of the Act, the number of students at a school for a year who are in quartile 1 is the number worked out using the following formula:

$$\text{Number of students at the school for the year} \times \frac{\text{ACARA quartile 1 students for the school for the year}}{\text{Total ACARA students for the school for the year}}$$

Section 18

Socio-educational disadvantage loading—students in quartile 2

- (2) For the purposes of subsection 38(7) of the Act, the number of students at a school for a year who are in quartile 2 is the number worked out using the following formula:

$$\text{Number of students at the school for the year} \times \frac{\text{ACARA quartile 2 students for the school for the year}}{\text{Total ACARA students for the school for the year}}$$

Low English proficiency loading

- (3) For the purposes of subsection 39(2) of the Act, the number of students at a school for a year who have low English proficiency is the number worked out using the following formula:

$$\text{Number of students at the school for the year} \times \frac{\text{ACARA low English proficiency students for the school for the year}}{\text{Total ACARA students for the school for the year}}$$

Definitions

- (4) In this section:

ACARA low English proficiency students for the school for the year means the number of students at the school for the year identified by ACARA as disadvantaged language background other than English students.

Note 1: ACARA identifies a student as a disadvantaged language background other than English student if:

- (a) ACARA identifies the student as having a language background other than English; and
- (b) at least one of the student's parents completed school education only to year 9 (or equivalent) or below.

Note 2: ACARA uses the definitions in the Data Standards Manual: Student Background Characteristics to determine language background and school education.

ACARA quartile 1 students for the school for the year means the number of students at the school for the year identified by ACARA as being in the lowest Socio-Educational Advantage quarter.

Note: ACARA identifies a student as being in a quarter by allocating all students in a school to a scale of socio-educational advantage and segmenting the scale into quarters. Information about socio-educational advantage could in 2023 be viewed on ACARA's website (<http://www.acara.edu.au>).

ACARA quartile 2 students for the school for the year means the number of students at the school for the year identified by ACARA as being in the second lowest Socio-Educational Advantage quarter.

total ACARA students for the school for the year means the number of students at the school for the year as identified by ACARA.

Note: The total ACARA students for the school for the year may be different from the number of students at the school for the year worked out under section 16 of the Act.

Section 19

Division 2—Commonwealth share for non-government schools for transition years for the schools

19 Transition years for non-government schools

- (1) For the purposes of paragraph (c) of the definition of *transition year* in section 6 of the Act, the prescribed year is (subject to subsection (2) of this section):
 - (a) for a non-government school that has a Commonwealth share of 80% for 2023—2023; or
 - (b) for any other non-government school—2029.
- (2) However, for a non-government school that has its first funding year for the school in 2022 or later (but no later than 2029), the prescribed year for the school is the first funding year for the school.

19A Commonwealth share for non-government schools worked out using the notional starting share for 2019

Scope

- (1) For the purposes of section 35C of the Act, this section applies to a non-government school (subject to section 19D of this instrument) for a transition year for the school if:
 - (a) the transition year is 2020; or
 - (b) the transition year is 2021 and the basis of the school's CTC score for 2021 is the same as for 2020; or
 - (c) the transition year is 2022 and the basis of the school's CTC score for the school for 2022 is the same as for both 2020 and 2021; or
 - (d) the transition year is 2023 or later and section 19A of the 2013 regulations (as in force immediately before the commencement of this section) applied to the school in 2022.

- (2) If the notional starting share for the school for 2019 is less than or equal to 80% (which is the Commonwealth share for a non-government school under paragraph 35A(b) of the Act), the Commonwealth share for the school for the transition year is the percentage worked out using the following formula:

$$\text{Notional starting share for 2019} + \frac{1}{4} \left(4 - \frac{2023 \text{ transition period}}{\text{period}} \right) \times \left(0.8 - \frac{\text{Notional starting share for 2019}}{\text{share for 2019}} \right)$$

Note: If a non-government school's Commonwealth share in 2023 is 80%, this is also its last transition year: see paragraph 19(1)(a).

Notional starting share is greater than 80%

- (3) If the notional starting share for the school for 2019 is greater than 80% (which is the Commonwealth share for a non-government school under paragraph 35A(b) of the Act), the Commonwealth share for the school for the transition year is the percentage worked out using the following formula:

$$\text{Notional starting share for 2019} + \frac{1}{10} \left(10 - \frac{2029 \text{ transition period}}{\text{period}} \right) \times \left(0.8 - \text{Notional starting share for 2019} \right)$$

19B Commonwealth share for non-government schools worked out using the notional starting share for 2020

Scope

- (1) For the purposes of section 35C of the Act, this section applies to a non-government school (subject to section 19D of this instrument) for a transition year for the school if:
- (a) the transition year is 2021 and the basis of the school's CTC score for 2021 is not the same as for 2020; or

 - (c) the transition year is 2023 or later and section 19B of the 2013 regulations (as in force immediately before the commencement of this section) applied to the school in 2022.

Notional starting share is less than or equal to 80%

- (2) If the notional starting share for the school for 2020 is less than or equal to 80% (which is the Commonwealth share for a non-government school under paragraph 35A(b) of the Act), the Commonwealth share for the school for the transition year is the percentage worked out using the following formula:

$$\text{Notional starting share for 2020} + \frac{1}{3} \left(3 - \frac{2023 \text{ transition period}}{\text{period}} \right) \times \left(0.8 - \text{Notional starting share for 2020} \right)$$

Note: If a non-government school's Commonwealth share in 2023 is 80%, this is also its last transition year: see paragraph 19(1)(a).

Notional starting share is greater than 80%

- (3) If the notional starting share for the school for 2020 is greater than 80% (which is the Commonwealth share for a non-government school under paragraph 35A(b) of the Act), the Commonwealth share for the school for the transition year is the percentage worked out using the following formula:

$$\text{Notional starting share for 2020} + \frac{1}{9} \left(9 - \frac{2029 \text{ transition period}}{\text{period}} \right) \times \left(0.8 - \text{Notional starting share for 2020} \right)$$

Section 19C

19C Commonwealth share for non-government schools worked out using the notional starting share for 2021

Scope

- (1) For the purposes of section 35C of the Act, this section applies to a non-government school (subject to section 19D of this instrument) if:
 - (a) the transition year for the school is 2022 or later; and
 - (b) the school is covered by neither section 19A nor 19B of this instrument for the transition year.

Notional starting share is less than or equal to 80%

- (2) If the notional starting share for the school for 2021 is less than or equal to 80% (which is the Commonwealth share for a non-government school under paragraph 35A(b) of the Act), the Commonwealth share for the school for the transition year is the percentage worked out using the following formula:

$$\text{Notional starting share for 2021} + \frac{1}{2} \left(2 - \frac{2023 \text{ transition period}}{\text{period}} \right) \times \left(0.8 - \text{Notional starting share for 2021} \right)$$

Note: If a non-government school's Commonwealth share in 2023 is 80%, this is also its last transition year: see paragraph 19(1)(a).

Notional starting share is greater than 80%

- (3) If the notional starting share for the school for 2021 is greater than 80% (which is the Commonwealth share for a non-government school under paragraph 35A(b) of the Act), the Commonwealth share for the school for the transition year is the percentage worked out using the following formula:

$$\text{Notional starting share for 2021} + \frac{1}{8} \left(8 - \frac{2029 \text{ transition period}}{\text{period}} \right) \times \left(0.8 - \text{Notional starting share for 2021} \right)$$

19D Commonwealth share for new non-government schools

Scope

- (1) For the purposes of section 35C of the Act, this section applies to a non-government school whose first funding year is 2020 or later.

Commonwealth share for new non-government schools

- (2) The Commonwealth share for the school for the school's first funding year is 80% (which is the Commonwealth share for a non-government school under paragraph 35A(b) of the Act).
- (3) If the school's first funding year is 2020 or 2021, the Commonwealth share for the school for a transition year after the first funding year is worked out in accordance with section 19A, 19B or 19C, as applicable.

Note: If a non-government school's first funding year is 2022 or later, this is also its last transition year: see subsection 19(2).

19E Notional starting share for non-government schools

- (1) The **notional starting share** for a non-government school for a year for the school is (subject to subsection (2)) the percentage worked out using the following formula:

$$\frac{\text{Notional funding amount for the school for the year}}{\text{CTC-adjusted SRS amount for the school for the year}}$$

where:

CTC-adjusted SRS amount for the school for the year has the meaning given by section 19F.

notional funding amount for the school for the year has the meaning given by section 19G.

Exceptions—Bacchus Marsh Grammar and All Saints College

- (2) However:
- (a) for 2019 the **notional starting share** for Bacchus Marsh Grammar (AGEID 16082) is 75.255235070306%; and
 - (b) for 2021 the **notional starting share** for All Saints College (AGEID 13863) is 184.130020331571%.

19F CTC-adjusted SRS amount

- (1) The **CTC-adjusted SRS amount for the school for the year** is the amount that would have been the school's total entitlement for the year if:
- (a) the Commonwealth share for the school had been 100%; and
 - (b) the SES score or the CTC score for the school had been the CTC score of the school for the next year.

Note: **SES score** was defined in the Act as previously in force before the commencement of the *Australian Education Amendment (Direct Measure of Income) Act 2020*.

- (2) For the purposes of paragraph (1)(b), disregard the application of subsection 22(3) or 23(4) when applying the CTC score of the school for the next year.

19G Notional funding amount

Notional funding amount for the school

- (1) The **notional funding amount for the school for the year** is (subject to subsection (2)) the school's total entitlement for the year.

Note: See section 12 of the Act for the definition of a school's **total entitlement** for a year.

Section 19G

Exception—schools with a certain approved authority

- (2) However, in 2019 the **notional funding amount for the school for the year** is the amount worked out under subsection (4) if the person who was the approved authority for the school in 2019 was also:
- (a) the school’s approved authority in 2017; and
 - (b) the school’s approved system authority within the meaning of section 5 of the 2013 regulations as in force immediately before 1 January 2018.
- (3) For the purposes of subsection (2), if:
- (a) the school’s approved authority in 2017 was the school’s approved system authority within the meaning of section 5 of the 2013 regulations as in force immediately before 1 January 2018; and
 - (b) the school’s approved authority changed legal entity status after 2017; the school’s approved authority in 2017 is taken to be the approved authority for the school in 2019.
- (4) For the purposes of subsection (2), the amount is worked out under this subsection using the following formula:

2017 school funding proportion × 2019 approved authority total entitlement

where:

2017 school funding proportion for the school is the amount worked out by:

- (a) identifying the amount of financial assistance paid to the school’s approved authority in accordance with Part 3 of the Act that was allocated by the approved authority to the school for 2017; and
- (b) dividing that amount by the sum of all amounts of financial assistance paid to the school’s approved authority in accordance with Part 3 of the Act that was allocated by the approved authority to the approved authority’s schools for 2017, not including any school for which:
 - (i) the Minister has not made a determination under section 25 of the Act that applies to the school in either or both 2018 and 2019; or
 - (ii) the approved authority was not the approved authority in 2019; or
 - (iii) the approved authority was not taken to be the approved authority for the school in 2019 under subsection (3).

Note: The amount of financial assistance allocated by an approved authority to a school for 2017 can be identified by reference to the approved authority’s report for 2017 given to the Secretary under subsection 36(1).

2019 approved authority total entitlement for the school is the sum of the total entitlements of the approved authority’s schools for 2019 (not including a school whose first funding year is 2018 or 2019).

Division 3—CTC score

21 CTC score

- (1) For the purposes of subsection 52(4) of the Act, a school's CTC score to be determined by the Minister must be the number worked out in accordance with this section.

CTC score for 2020 or 2021

- (2) The number that is the CTC score for a school for 2020 or for 2021 is whichever of the following would, if it were the CTC score for the school for the year, result in the highest amount of financial assistance being payable to a State or Territory for the school for the year under Division 2 of Part 3 of the Act:
- (a) the average DMI score;
 - (b) the 2016 SES score;
 - (c) the 2011 SES score.

CTC score for 2022 or later years

- (3) In working out the CTC score for a school for 2022 or a later year, the number is:
- (a) the average DMI score for the school for the year; or
 - (b) the refined area based score for the school for the year worked out in accordance with section 23, if the Minister is satisfied that:
 - (i) it is not reasonably practicable to use the average DMI score for the school for the year; and
 - (ii) if less than 95% of the residential addresses included in a school's statement of student addresses can be assigned to the Statistical Area Level 1 in which the addresses are located—it is still appropriate to work out a refined area based score for the school for the year.

Note: This section does not apply to a school if the Minister is satisfied that determining the school's CTC score in accordance with this section would result in a CTC score that does not accurately reflect the capacity of the persons responsible for students at the school to contribute financially to the operation of the school (see subsection 52(4) of the Act).

22 Average DMI score

- (1) A school's *average DMI score* is:
- (a) for 2020—the average of the DMI scores for the school for 2018 and 2019; or
 - (b) for a later year—the average of the DMI scores for the school for the 3 years before that year.
- (2) A number worked out under subsection (1) must be rounded to the nearest whole number, rounding up a number that ends in 0.5.

Section 23

- (3) However, if, for 2022 or a later year, the number worked out under subsection (1) for a small school or a very small school for the year is 3 or more higher, or 3 or more lower, than the school's CTC score for the previous year, the average DMI score is taken to be 2 higher or 2 lower (as applicable) than the school's CTC score for the previous year.
- (4) A school's **DMI score** for a year is worked out as follows:

Method statement

- Step 1. Use the DMI methodology document to determine the annual income of each person responsible for a student at the school for the year.
- Step 2. Add the annual incomes of each person responsible for each student at the school for the year to work out the family income for each student.
- Step 3. Use the family income for each student at the school for the year to calculate the median family income for the school for the year.
- Step 4. Calculate the standardised and weighted family income for the school using the median family income of all schools for the year, the number of students at the school for the year and the number of students at all schools for the year as set out in the DMI methodology document. The result is the school's **DMI score** for the year.

23 Refined area based score

- (1) For the purposes of subparagraph 21(3)(b)(i), and without limiting that subparagraph, the Minister may be satisfied that it is not reasonably practicable to use the average DMI score for the school if:
- (a) there is less than 3 years of information to calculate the average DMI score for the school for the year; or
 - (b) the number of persons responsible for students at the school for the year is too low to ensure that the CTC score does not identify information relating to a particular student or a person responsible for that student; or
 - (c) the information available to calculate step 2 of the method statement for the DMI score does not meet the standards in the Capacity to Contribute Data Validation and Quality Assurance Process.

Refined area based score

- (2) The **refined area based score** for a school for a year is worked out using the following formula:

$$\frac{\text{School's average SES dimension score for the family income dimension}}{2} + \frac{\text{School's average SES dimension score for the household income dimension}}{2}$$

- (3) A number worked out under subsection (2) must be rounded to the nearest whole number, rounding up a number that ends in 0.5.
- (4) However, if, for 2022 or a later year, the number worked out under subsection (2) for a small school or a very small school for the year is 3 or more higher or 3 or more lower than the school's CTC score for the previous year, the refined area based score is taken to be 2 higher or 2 lower (as applicable) than the school's CTC score for the previous year.

Working out the school's average SES dimension score for an SES dimension

- (5) A school's **average SES dimension score** for an SES dimension is, subject to subsection (6), worked out by:
 - (a) adding, for each residential address represented in the latest statement of student addresses, the SES dimension score for the SES dimension of the Statistical Area Level 1 to which the address has been assigned; and
 - (b) dividing the result by the total number of those SES dimension scores.
- (6) In working out an average SES dimension score under subsection (5), the Minister may include a residential address in the school's statement of student addresses that was not included in that statement, but the Minister considers ought to have been.

24 SES score

2011 SES score

- (1) The **2011 SES score** for a school for a year is the number worked out using the formula in subsection (7) and the following information:
 - (a) if statements of student addresses were provided for the school between 2012 and 2016 (inclusive)—the most recent of those statements;
 - (b) otherwise—the oldest of the statements of student addresses provided for the school after 2016.
- (2) A number worked out under subsection (1) must be rounded to the nearest whole number, rounding up a number that ends in 0.5.
- (3) For each residential address represented in a statement of student addresses mentioned in subsection (1), the Minister must use the SES dimension score for the SES dimension of the Statistical Area Level 1 to which the address has been assigned, as determined in the 2011 Census of Population and Housing.

Note: Information about the 2011 Census of Population and Housing could in 2023 be viewed on the Australian Bureau of Statistics' website (<http://www.abs.gov.au>).

2016 SES score

- (4) The **2016 SES score** for a school for a year is the number worked out using the formula in subsection (7) and the oldest of the statements of student addresses for the school provided for 2017 or a later year.

Section 24AAA

- (5) A number worked out under subsection (4) must be rounded to the nearest whole number, rounding up a number that ends in 0.5.
- (6) For each residential address represented in a statement of student addresses mentioned in subsection (4), the Minister must use the SES dimension score for the SES dimension of the Statistical Area Level 1 to which the address has been assigned, as determined in the 2016 Census of Population and Housing.

Note: Information about the 2016 Census of Population and Housing could in 2023 be viewed on the Australian Bureau of Statistics' website (<http://www.abs.gov.au>).

Formula

- (7) The following formula is to be used for the purposes of the 2011 SES score and 2016 SES score:

$$\frac{\text{School's average SES dimension score for the education dimension}}{3} + \frac{\text{School's average SES dimension score for the family income dimension}}{6} + \frac{\text{School's average SES dimension score for the household income dimension}}{6} + \frac{\text{School's average SES dimension score for the occupation dimension}}{3}$$

Working out the school's average SES dimension score for an SES dimension

- (8) The school's **average SES dimension score** for an SES dimension is, subject to subsection (9), worked out by:
- (a) adding, for each residential address represented in a statement of student addresses, the SES dimension score for the SES dimension of the Statistical Area Level 1 to which the address has been assigned; and
 - (b) dividing the result by the total number of those SES dimension scores.
- (9) In working out an average SES dimension score under subsection (8), the Minister may include a residential address in the school's statement of student addresses that was not included in that statement, but the Minister considers ought to have been.

24AAA Publication of CTC score if determined other than in accordance with this instrument

If the Minister makes a determination of a CTC score for a school other than in accordance with this instrument for the reason mentioned in subsection 52(4) of the Act, the Minister must:

- (a) publish, in a way the Minister considers appropriate, the CTC score for the school and the reasons for making the determination; and
- (b) do so within 30 days of making the determination.

Note: The Minister must determine a school's CTC score in accordance with this instrument unless the Minister is satisfied doing so would result in a CTC score that does not accurately reflect the capacity of the persons responsible for students at the school to contribute financially to the operation of the school: see subsection 52(4) of the Act.

Endnote 1—About the endnotes

The endnotes provide information about this compilation and the compiled law.

The following endnotes are included in every compilation:

Endnote 1—About the endnotes

Endnote 2—Abbreviation key

Endnote 3—Legislation history

Endnote 4—Amendment history

Abbreviation key—Endnote 2

The abbreviation key sets out abbreviations that may be used in the endnotes.

Legislation history and amendment history—Endnotes 3 and 4

Amending laws are annotated in the legislation history and amendment history.

The legislation history in endnote 3 provides information about each law that has amended (or will amend) the compiled law. The information includes commencement details for amending laws and details of any application, saving or transitional provisions that are not included in this compilation.

The amendment history in endnote 4 provides information about amendments at the provision (generally section or equivalent) level. It also includes information about any provision of the compiled law that has been repealed in accordance with a provision of the law.

Editorial changes

The *Legislation Act 2003* authorises First Parliamentary Counsel to make editorial and presentational changes to a compiled law in preparing a compilation of the law for registration. The changes must not change the effect of the law. Editorial changes take effect from the compilation registration date.

If the compilation includes editorial changes, the endnotes include a brief outline of the changes in general terms. Full details of any changes can be obtained from the Office of Parliamentary Counsel.

Misdescribed amendments

A misdescribed amendment is an amendment that does not accurately describe how an amendment is to be made. If, despite the misdescription, the amendment can be given effect as intended, then the misdescribed amendment can be incorporated through an editorial change made under section 15V of the *Legislation Act 2003*.

If a misdescribed amendment cannot be given effect as intended, the amendment is not incorporated and “(md not incorp)” is added to the amendment history.
