

Australian Government
Civil Aviation Safety Authority

Instrument number CASA OAR 068/24

I, ADRIAN PAUL SLOOTJES, Branch Manager, Air Navigation, Airspace & Aerodromes, Air Navigation, Transformation & Risk Division, a delegate of CASA, make this instrument under:

- (a) regulations 6 and 9 of the *Airspace Regulations 2007*; and
- (b) regulation 11.245 of the *Civil Aviation Safety Regulations 1998*.

[Signed Adrian Slootjes]

Adrian Slootjes
 Branch Manager, Air Navigation, Airspace & Aerodromes
 Air Navigation, Transformation & Risk Division

31 May 2024

CASA OAR 068/24 – Declarations and Directions in relation to Prohibited, Restricted and Danger Areas, Etc. – Permanent Instrument 2024

Contents

Note This Table of Contents is for guidance only. It is not a formal part of the instrument and may be modified or edited in any published version of the instrument.

SCHEDULE 4 – STRADDLE AREAS R – COMBINING DECLARED RESTRICTED AREAS INSIDE AUSTRALIAN TERRITORY, AND DIRECTED NOTIONAL RESTRICTED AREAS OUTSIDE AUSTRALIAN TERRITORY IN AUSTRALIAN-ADMINISTERED AIRSPACE	64

1 Name

This instrument is *CASA OAR 068/24 – Declarations and Directions in relation to Prohibited, Restricted and Danger Areas, Etc. – Permanent Instrument 2024*.

2 Duration

This instrument:

- (a) commences on 13 June 2024; and
- (b) is repealed immediately before 30 November 2024.

Note The declarations only take effect when they are published in the AIP *Designated Airspace Handbook* on 13 June 2024. Usually, the instrument would be expressed to cease to have effect only if the instrument were repealed, or amended, and then only in accordance with the amendment. However, the instrument contains directions for which the certainty of an expiry date is necessary. Nevertheless, it is likely that the instrument will be replaced on 30 November 2024.

3 Repeal

Instrument *CASA OAR 228/23 – Declarations and Directions in relation to Prohibited, Restricted and Danger Areas, Etc. – Permanent Instrument 2023* (as amended) is repealed.

3A Definitions

In this instrument:

Australian-administered airspace means airspace that has been allocated to Australia by ICAO under the Chicago Convention and for which Australia has accepted responsibility.

Note Australian-administered airspace includes the airspace over Australian territory and ICAO-allocated airspace that is outside Australian territory.

Australian aircraft has the same meaning as in the *Civil Aviation Act 1988*.

Note The *Civil Aviation Act 1988* provides that ***Australian aircraft*** means an aircraft registered in Australia, and aircraft in Australian territory, other than foreign registered aircraft and state aircraft.

Australian territory means:

- (a) the territory of Australia and of every external territory; and
- (b) the territorial sea of Australia and of every external territory; and
- (c) the airspace over any such territory or sea.

CASR means the *Civil Aviation Safety Regulations 1998*.

military operating area, or **MOA**, means a type of danger area mentioned in paragraph 6(5C)(a) of the *Airspace Regulations 2007* (as in force on and from 30 November 2023).

SUA area means special use airspace area and includes prohibited, restricted and danger areas (including MOAs).

Table means the Table in section 4.

3B Directions for notional restricted areas

- (1) The declarations in this instrument designating areas of Australian territory to be restricted areas are supplemented with directions under regulation 11.245 of CASR.
- (2) The directions require relevant areas outside Australian territory in Australian-administered airspace (**directed areas**) to be treated, in accordance with this instrument, as if they were notional restricted areas.
- (3) For the directed areas, the directions also require that, if the air traffic services (**ATS**) to be provided for aircraft are at variance with the ATS that would otherwise be provided for that airspace in accordance with Annex 11 to the Chicago Convention, the variance must be published in the AIP or a NOTAM.

Note See also section 7. CASA may direct such variance but only if it were in conformity with the Chicago Convention processes.

3C Direction – Airservices Australia – Air Traffic and Aeronautical Information Services

- (1) In this section:
relevant area means a directed notional restricted area outside Australian territory in Australian-administered airspace that is mentioned in a Schedule of this instrument.
- (2) For aircraft flying over, or in the airspace adjacent to, a relevant area, Airservices Australia must provide ATS and aeronautical information services in accordance with the conditions expressed in the Schedule that is for the area, as if the area were a declared restricted area.

4 Prohibited, restricted and danger areas

- (1) I declare each area of Australian territory described in Schedules 1A, 1, 2 and 2A and listed in the following table (the **Table**) to be an area as mentioned in the Table for the Schedule.
- (2) I direct that each area of Australian-administered airspace outside Australian territory described in Schedule 3 and listed in the Table is to be treated as if it were an area mentioned in the Table for the Schedule.
- (3) I declare the part of each area described in Schedule 4 and listed in the Table, that is inside Australian territory, to be an area as mentioned in the Table for the Schedule.
- (4) I direct that the part of each area described in Schedule 4 and listed in the Table, that is outside Australian territory in Australian-administered airspace, is to be treated as if it were an area mentioned in the Table for the Schedule.

Schedule	Areas
Schedule 1A	Prohibited Areas
Schedule 1	Declared Restricted Areas inside Australian territory
Schedule 2	Danger Areas excluding Military Operating Areas
Schedule 2A	Military Operating Areas
Schedule 3	Directed notional Restricted Areas wholly outside Australian territory in Australian-administered airspace
Schedule 4	Straddle Areas R — combining declared Restricted Areas inside Australian territory, and directed notional Restricted Areas outside Australian territory in Australian-administered airspace

5 All aircraft — approvals and conditions for declared restricted areas over Australian territory

An aircraft may only be flown in the airspace of a declared restricted area mentioned in Schedule 1 if the pilot in command has approval for the flight from the Controlling Authority mentioned in the Schedule for the area.

Note The Controlling Authority may act through its agents. The pilot in command must comply with any conditions of the Controlling Authority's approval.

5A All aircraft — take precautions for danger areas

- (1) An aircraft may be flown in the airspace of a declared danger area mentioned in Schedule 2 without the pilot in command having approval for the flight from the relevant Contact mentioned in the Schedule for the area.
- (2) However, despite subsection (1), it is recommended that the pilot in command take such precautions, and make such contacts, as a reasonable pilot, in the same circumstances, would take and make for an area within or over which activities dangerous to the flight of an aircraft may exist at specified times.

5B All Australian aircraft — approvals and conditions for directed notional restricted areas outside Australian territory

An Australian aircraft may only be flown in the airspace of a directed notional restricted area mentioned in Schedule 3 if the pilot in command has approval for the flight from the Controlling Authority mentioned in the Schedule for the area.

Note The Controlling Authority may act through its agents. The pilot in command must comply with any conditions of the Controlling Authority's approval.

5C All foreign registered aircraft — take precautions for directed notional restricted areas outside Australian territory

- (1) A foreign registered aircraft may be flown in the airspace of a directed notional restricted area mentioned in Schedule 3 without the pilot in command having approval for the flight from the relevant Controlling Authority mentioned in the Schedule for the area.
- (2) However, despite subsection (1), it is recommended that the pilot in command take such precautions, and make such contacts, as a reasonable pilot, in the same circumstances, would take and make for an area within or over which activities dangerous to the flight of an aircraft may exist at specified times.

5D Straddle areas R

- (1) For so much of an area mentioned in Schedule 4 (declared restricted areas) as is inside Australian territory, the rule in section 5 applies to the pilot in command of an aircraft flying over the area.
- (2) For so much of an area mentioned in Schedule 4 (directed notional restricted areas) as is outside Australian territory in Australian-administered airspace, the rule in section 5B or 5C applies, as the case requires, to the pilot in command of an aircraft flying over the area.

5E All Australian aircraft — approvals and conditions for military operating areas

An Australian aircraft may only be flown in the airspace of a MOA mentioned in Schedule 2A if the pilot in command has approval for the flight from the Administering Authority mentioned in the Schedule for the area.

Note The Administering Authority may act through its agents. The pilot in command must comply with any conditions of the Administering Authority's approval.

5F All foreign registered aircraft — approval and conditions for military operating areas and take precautions for military operating areas

- (1) A foreign registered aircraft may only be flown in the airspace of a MOA mentioned in Schedule 2A that is within Australian territory if the pilot in command has approval for the flight from the Administering Authority mentioned in the Schedule for the area.
- (2) A foreign registered aircraft may be flown in the airspace of a MOA mentioned in Schedule 2A that is outside Australian territory in Australian-administered airspace without the pilot in command having approval for the flight from the relevant Administering Authority mentioned in the Schedule for the area.
- (3) It is recommended that for an aircraft and a MOA mentioned in subsection (2), the pilot in command take such precautions, and make such contacts, as a reasonable pilot, in the same circumstances, would take and make for an area within or over which activities dangerous to the flight of an aircraft may exist at specified times.

Note 1 Danger areas declared in Schedule 2 are typically associated with lower risk activities such as sports aviation activities or skydiving operations, and flight within them is common in Australia. MOAs, however, are intended to warn pilots of dangers associated with military exercises and training, with risk levels more commonly associated with restricted areas. Pilots of foreign registered aircraft intending to fly through an active MOA are strongly recommended to contact the Administering Authority for further information.

Note 2 If a foreign registered aircraft outside Australian territory opts to transit a MOA without an approval then ATS cannot be provided, and a new civil clearance is required to re-enter controlled airspace upon leaving the MOA.

6 Voice deactivation for prohibited, restricted and danger areas

- (1) A prohibited area, a restricted area, a directed notional restricted area and a danger area (including a MOA), as mentioned in a Schedule of the Table, or a specified part of such an area (a **relevant area**), is activated in accordance with the hours of activity statement in the Schedule for the relevant area or the specified part of the area.

Note Activation times specified are in Universal Time Coordinated (**UTC**) unless otherwise stated.

- (2) For section 4, a relevant area activated in accordance with an hours of activity statement that is a NOTAM (an **activating NOTAM**) remains active until the

finish time specified in the activating NOTAM (*specified finish time*) unless the Controlling Authority or Contact deactivates the area earlier than the specified finish time using voice communication to a receiving air traffic control (*ATC*) authority (*early deactivation*).

Note Activation times specified in a NOTAM are in UTC unless otherwise indicated.

- (3) Early deactivation may only be carried out if:
 - (a) the activity for which the area was activated has ceased; and
 - (b) I have, by instrument, authorised the early deactivation.
- (4) If early deactivation under subsection (2) occurs within the 60 minutes before the specified finish time, an amending NOTAM is not required.
- (5) The period of activation of a relevant area activated by NOTAM may not be extended by voice communication past the finish time specified in the activating NOTAM.

Note 1 For an extension to the specified finish time, an amending NOTAM is required.

Note 2 A *pro forma* for an activating NOTAM follows:

Reference/year NOTAMN

- A) [Insert details]
- B) [Insert start time specified in UTC]
- C) [Insert finish time specified in UTC]
- D) [Insert periods of activity details]
- E) [Insert details, including
Details of Controlling Authority (for restricted area only), or
Details of Administering Authority (for MOAs only), or
Details of Contact

the following statement: “Area may be subject to early deactivations as per AIP ENR 5.1-4 paragraph 2.7. Check current status with ATS.”]

- F) [Insert lower vertical limit]
- G) [Insert upper vertical limit].

7 Determination and direction that ATS are at variance with Annex 11

- (1) This section applies for an aircraft in a declared restricted area, a declared danger area, including a MOA, and a directed notional restricted area, described in a Schedule mentioned in the Table (a *relevant area*).
- (2) In accordance with Annex 11 to the Chicago Convention, I determine or direct, as the case requires, that the ATS to be provided to the aircraft for the airspace of a relevant area are services that are at variance with the ATS that would otherwise be provided for that airspace in accordance with the Annex, only when the variance for the area is published in the AIP or a NOTAM.

Note CASA may determine such variance but only if it were in conformity with the Chicago Convention processes.

8 Acronym legend and guidance about likelihood of approvals

- (1) Acronyms and abbreviations used in the Schedules mentioned in the Table have the meaning given to them in Schedule 1AA, Acronyms & RA Status Legend, under the heading *Acronym Legend*.
- (2) The following other abbreviations used in the Schedules mentioned in the Table have the meanings given to them as follows:

AH means after hours.

D or *Dly* means daily.

E means weekends (namely, Saturday and Sunday).

EXC PH means excluding public holidays.

HDS means hours of daylight saving.

HJ means from sunrise to sunset.

HN means from sunset to sunrise.

H24 means continuously.

JO means Monday to Friday, except Public Holidays.

JF means Saturday, Sunday and public holidays.

L means local time.

OT means other times.

W means Monday to Friday.

WS means Monday to Saturday.

Z means universal coordinated time.

- (3) The information in Schedule 1AA, Acronyms & RA Status Legend, other than that under the heading *Acronym Legend*, is for guidance only.
- (4) In particular, the references to the Restricted Areas Status Legend (*RA Status Legend*) provide, on the basis of usual safety considerations, a guideline only as to the likelihood of an aircraft being approved to fly in the airspace of a restricted area.
- (5) Each decision of the relevant Controlling Authority to approve or not approve an aircraft to fly in the airspace of a declared restricted area inside Australian territory, or a directed notional restricted area outside Australian territory, is to be taken in accordance with the requirements and limitations (if any) imposed for the area under this instrument.
- (6) Each decision of the relevant Administering Authority to approve or not approve an Australian aircraft to fly in the airspace of a MOA is to be taken in accordance with the requirements and limitations (if any) imposed for the area under this instrument.

SCHEDULE 1AA – ACRONYMS & RA STATUS LEGEND

AIRSPACE NAME

Airspace is named according to the general commonly known geographic region, e.g. **R237 WOOMERA**.

Where a more specific name is required, that name will be placed after the regional name in brackets, e.g. **R736 TOWNSVILLE (STAR)**, where “Star” is the name of a property in that region.

SPECIAL USE AIRSPACE (SUA) CONTACT DETAILS

Refer ERSA for all SUA contact phone numbers.

ACRONYM LEGEND

ACFR	Australian Centre for Field Robotics, Sydney University
AD OPR	Aerodrome Operator
AFHQ	Air Force Headquarters
ANSTO	Australian Nuclear Science & Technology Organisation
AsA	Airservices Australia
BCP	Base Command Post
CASA OAR	Civil Aviation Safety Authority, Office of Airspace Regulation
CSIG	Corporate Services & Infrastructure Group
CSIRO	Commonwealth Scientific and Industrial Research Organisation
DEFENCE	Department of Defence (Switchboard)
DO	Duty Officer
DOTAM	Director of Training Area Management
DS	Defence Support
EODF	Explosive Ordnance Defence Flight
FLT	Flight
FLTCDR	Flight Commander
GBRMPA	Great Barrier Reef Marine Park Authority
HQ	Headquarters
HRL	Hunter River Lancers
JACC	Joint Airspace Control Cell
MHQ	Maritime Headquarters
MOA	Military Operating Area
NDTAM	Non-Defence Training Area Manager
OC	Officer Commanding
OIC	Officer In Charge
OPSO	Operations Officer
OPS WO	Operations Warrant Officer
RAAF	Royal Australian Air Force
RCO	Range Control Officer
RSU	Radar Support Unit
SRPSU	School of Radio Physics, Sydney University
WTF	Weapons Training Flight
WTO	Weapons Training Officer

RESTRICTED AREA (RA) STATUS LEGEND

Conditional RA Status

In order to assist with shared use of airspace, all declared restricted areas and directed notional restricted areas have been allocated an “RA Status”. This status will give an indication as to the likelihood of obtaining a clearance to fly through restricted airspace. NOTAM may be issued to indicate changes to the RA Status, which should be checked prior to flight planning.

Conditional RA 1: Pilots may flight plan through the declared restricted area or directed notional restricted area and under normal circumstances expect a clearance from ATC.

Conditional RA 2: Pilots must not flight plan through the declared restricted area or directed notional restricted area unless on a route specified in ERSA GEN FPR or under agreement with the Controlling Authority; however, a clearance from ATC is not assured. Other tracking may be offered through the area on a tactical basis.

Conditional RA 3: Pilots must not flight plan through the declared restricted area or directed notional restricted area and clearances will not be available.

MILITARY OPERATING AREAS

Military operating areas, or MOAs, are a subset of danger areas. They are primarily established in Australian-administered airspace outside Australian territory for use by the Australian Defence Force for military training and exercises. Outside Australian territory, Australian aircraft are restricted from entering a MOA unless they have Administering Authority approval. Within Australian territory, foreign registered and Australian aircraft are restricted from entering a MOA unless they have Administering Authority approval. It is highly recommended that foreign registered aircraft make appropriate safety contact with the relevant Administering Authority if they choose to enter an active MOA outside Australian territory.

SCHEDULE 1A –PROHIBITED AREAS

Note There are no Prohibited Areas.
