Part 1—Preliminary

1.01 Name

- (1) This instrument is the *National Health (Continued Dispensing – Emergency Measure) Determination 2025*.
- (2) This instrument may also be cited as PB 12 of 2025.

1.02 Commencement

- (1) Each provision of this instrument specified in column 1 of the table commences, or is taken to have commenced, in accordance with column 2 of the table. Any other statement in column 2 has effect according to its terms.

| Commencement information | | |
|--------------------------------|--|--------------|
| Column 1 | Column 2 | Column 3 |
| Provisions | Commencement | Date/Details |
| 1. Parts 1 to 3 and Schedule 1 | Immediately after this instrument is registered. | |
| 2. Schedule 2 | At the end of 31 March 2025 | |

Note: This table relates only to the provisions of this instrument as originally made. It will not be amended to deal with any later amendments of this instrument.

- (2) Any information in column 3 of the table is not part of this instrument. Information may be inserted in this column, or information in it may be edited, in any published version of this instrument.

1.03 Authority

This instrument is made under subsection 89A(3) of the *National Health Act 1953*.

1.04 Schedules

Each instrument that is specified in a Schedule to this instrument is amended or repealed as set out in the applicable items in the Schedule concerned, and any other item in a Schedule to this instrument has effect according to its terms.

1.05 Definitions

- (1) In this instrument:

Act means the *National Health Act 1953*.

electronic prescription has the meaning given by subsection 5(1) of the *National Health (Pharmaceutical Benefits) Regulations 2017*.

increased maximum quantity of a pharmaceutical benefit means the maximum quantity or number of units of the benefit or the pharmaceutical item in the benefit that may, in one prescription, be directed to be supplied on any one occasion, for a relevant purpose, under a determination of the Minister under paragraph 85A(2)(a) of the Act.

patient: see subsection 3.01(1).

relevant purpose, for a pharmaceutical benefit, means a purpose, mentioned in Schedule 4 to the *National Health (Listing of Pharmaceutical Benefits) Instrument 2024* for a purposes code (within the meaning of that instrument) specified in Schedule 1 to that instrument for the benefit, that includes the phrase “The condition must be stable for the prescriber to consider the listed maximum quantity of this medicine suitable for this patient”.

requested supply: see subsection 3.01(1).

- (2) A reference in this instrument to a pharmaceutical benefit having a drug is a reference to the pharmaceutical benefit having the drug or medicinal preparation referred to in paragraph (a) of the definition of pharmaceutical benefit in subsection 84(1) of the Act in relation to the pharmaceutical benefit.
- (3) An expression that is used in this instrument and in Part VII of the Act has the same meaning in this instrument as it has in that Part.

Note: Examples of such expressions include the following:

- (a) approved pharmacist;
- (b) PBS prescriber;
- (c) pharmaceutical benefit;
- (d) pharmaceutical item;
- (e) prescriber bag provisions;
- (f) Schedule equivalent.

1.06 Purpose

The purpose of this instrument is to determine:

- (a) pharmaceutical benefits that may be supplied by an approved pharmacist without a prescription; and
- (b) the conditions that must be satisfied when making a supply of those pharmaceutical benefits.

1.07 Operation of this instrument

- (1) This instrument does not apply to the following supplies:
 - (a) the supply of a pharmaceutical benefit that is not generally available for supply under Part VII of the Act; or
 - (b) the supply of a pharmaceutical benefit in accordance with a special arrangement made under section 100 of the Act; or
 - (c) the supply of a pharmaceutical benefit under any of the prescriber bag provisions.

-
- (2) A pharmaceutical benefit is ***not generally available for supply under Part VII of the Act*** if any of the following apply:
- (a) it contains a drug that is subject to a declaration under subsection 85(2A) of the Act;
 - (b) it is subject to a determination under paragraph 85(8)(a) of the Act;
 - (c) for a pharmaceutical benefit in relation to which a determination under paragraph 85(8)(b) of the Act has been made about the circumstances in which the benefit can only be supplied under a special arrangement under section 100 of the Act - the supply is in those circumstances.

Part 2—Pharmaceutical benefits that may be supplied without a prescription

2.01 Pharmaceutical benefits covered by this instrument

For the purposes of paragraph 89A(3)(a) of the Act, each pharmaceutical benefit that has a drug mentioned in an item in Schedule 1 is determined to be a pharmaceutical benefit that may be supplied by an approved pharmacist without a prescription.

Part 3—Specified conditions for supplying pharmaceutical benefits without a prescription

3.01 General

- (1) For the purposes of paragraph 89A(3)(b) of the Act, the conditions specified in this Part are determined to be the conditions that must be satisfied when making a supply (the **requested supply**) of a pharmaceutical benefit to a person (the **patient**) requesting the supply without a prescription in accordance with subsection 89A(1) of the Act.
- (2) In this Part:
- (a) a reference to the PBS prescriber is a reference to the PBS prescriber who most recently prescribed the supply of the pharmaceutical benefit to the patient; and
 - (b) a reference to “the pharmaceutical benefit” in sections 3.03, 3.05, 3.06 and 3.07 includes a reference to a pharmaceutical benefit that is a Schedule equivalent.

3.02 Condition—unable to obtain prescription

The approved pharmacist must be satisfied of either or both of the following:

- (a) the PBS prescriber is unable to be contacted;
- (b) the PBS prescriber is unable to provide an electronic prescription.

3.03 Condition—previous supply of pharmaceutical benefit

The approved pharmacist must be satisfied that:

- (a) the patient has previously been supplied the pharmaceutical benefit on the basis of a prescription from a PBS prescriber; and
- (b) the PBS prescriber prescribed the supply of the pharmaceutical benefit for the patient in at least one of the circumstances determined for that pharmaceutical benefit under paragraph 85(7)(b) of the Act.

Note: The circumstances determined under paragraph 85(7)(b) of the Act relate to pharmaceutical benefits that are relevant pharmaceutical benefits under section 88A of the Act.

3.04 Condition—stability of therapy

The approved pharmacist must be satisfied that the patient’s therapy is stable.

3.05 Condition—prior clinical review by PBS prescriber

The approved pharmacist must be satisfied that:

- (a) the patient has been taking the pharmaceutical benefit regularly for an uninterrupted period; and

-
- (b) since the start of that period, the PBS prescriber has assessed the patient's condition and decided that there is a need for ongoing treatment with the pharmaceutical benefit.

Note: See paragraph 3.01(2)(a) for references to the PBS prescriber.

3.06 Condition—prescription for last supply of pharmaceutical benefit

The approved pharmacist must be satisfied that the patient had a valid prescription under Part VII of the Act for the last supply of the pharmaceutical benefit to the patient before the requested supply.

3.07 Condition—no continued dispensing in previous 12 months

The approved pharmacist must be satisfied that the patient was not supplied with the pharmaceutical benefit under subsection 89A(1) of the Act in the 12 months before the requested supply.

3.08 Condition—declaration for supply of pharmaceutical benefit

The approved pharmacist must ensure that the patient, or an agent of the patient (other than the approved pharmacist), signs a declaration acknowledging that the patient is being supplied with the pharmaceutical benefit without the presentation of a valid prescription under Part VII of the Act.

3.09 Condition—maximum quantity of supply

- (1) The approved pharmacist must supply a maximum quantity or number of units of the pharmaceutical item in the pharmaceutical benefit determined under paragraph 85A(2)(a) of the Act.
- (2) However, where an increased maximum quantity has been determined for the pharmaceutical item in the pharmaceutical benefit, the approved pharmacist may only supply that increased maximum quantity if the last supply to the patient of the pharmaceutical benefit, or a pharmaceutical benefit that is Schedule equivalent, was on the basis of a prescription written for:
 - (a) a relevant purpose for the pharmaceutical benefit; or
 - (b) a relevant purpose for a pharmaceutical benefit that is Schedule equivalent to the pharmaceutical benefit.

3.10 Condition—preparing and recording information

- (1) The approved pharmacist must, when the pharmaceutical benefit is supplied:
 - (a) record the information that the pharmacist used to support the pharmacist's decision to supply the pharmaceutical benefit; and
 - (b) prepare information about the supply to the patient that the pharmacist will send to the PBS prescriber.
- (2) The information that must be recorded and prepared under subsection (1) must include the following:

-
- (a) a statement that the pharmaceutical benefit supplied is a pharmaceutical benefit covered by Schedule 1;
 - (b) a statement that the conditions mentioned in sections 3.02 to 3.05 are satisfied;
 - (c) a statement that the approved pharmacist is satisfied that the pharmaceutical benefit needs to be supplied to the patient to facilitate continuity of treatment.

Schedule 1—Pharmaceutical benefits that may be supplied without a prescription – pharmaceutical benefits that have certain listed drugs

Note: See section 2.01.

| 22 | Alprazolam |

| Item | Listed drug |
|------|---|
| 23 | Amantadine |
| 24 | Amifampridine |
| 25 | Amino acid formula supplemented with prebiotics, probiotics and long chain polyunsaturated fatty acids |
| 26 | Amino acid formula with carbohydrate without phenylalanine |
| 27 | Amino acid formula with carbohydrate, vitamins, minerals and trace elements without phenylalanine |
| 28 | Amino acid formula with fat, carbohydrate without methionine |
| 29 | Amino acid formula with fat, carbohydrate without phenylalanine |
| 30 | Amino acid formula with fat, carbohydrate without phenylalanine and tyrosine |
| 31 | Amino acid formula with fat, carbohydrate without valine, leucine and isoleucine |
| 32 | Amino acid formula with fat, carbohydrate, vitamins, minerals and trace elements without phenylalanine |
| 33 | Amino acid formula with fat, carbohydrate, vitamins, minerals and trace elements without phenylalanine and tyrosine |
| 34 | Amino acid formula with fat, carbohydrate, vitamins, minerals and trace elements without phenylalanine and tyrosine, and supplemented with docosahexaenoic acid |
| 35 | Amino acid formula with fat, carbohydrate, vitamins, minerals, and trace elements, without methionine and supplemented with docosahexaenoic acid |
| 36 | Amino acid formula with fat, carbohydrate, vitamins, minerals, trace elements and medium chain triglycerides |
| 37 | Amino acid formula with vitamins and minerals without lysine and low in tryptophan |
| 38 | Amino acid formula with vitamins and minerals without methionine |
| 39 | Amino acid formula with vitamins and minerals without methionine and supplemented with arachidonic acid and docosahexaenoic acid |
| 40 | Amino acid formula with vitamins and minerals without methionine, threonine and valine and low in isoleucine |
| 41 | Amino acid formula with vitamins and minerals without phenylalanine |
| 42 | Amino acid formula with vitamins and minerals without phenylalanine and tyrosine |
| 43 | Amino acid formula with vitamins and minerals without valine, leucine and isoleucine |

| Item | Listed drug |
|------|---|
| 44 | Amino acid formula with vitamins and minerals without valine, leucine and isoleucine with fat, carbohydrate and trace elements and supplemented with docosahexaenoic acid |
| 45 | Amino acid formula with vitamins and minerals without valine, leucine, isoleucine and supplemented with arachidonic acid and docosahexaenoic acid |
| 46 | Amino acid formula with vitamins and minerals, low phenylalanine and supplemented with docosahexaenoic acid and arachidonic acid |
| 47 | Amino acid formula with vitamins and minerals, without phenylalanine, tyrosine and supplemented with arachidonic acid and docosahexaenoic acid |
| 48 | Amino acid formula with vitamins, minerals and long chain polyunsaturated fatty acids without phenylalanine |
| 49 | Amino acid formula without phenylalanine |
| 50 | Amino acid formula without valine, leucine and isoleucine |
| 51 | Amino acid synthetic formula supplemented with long chain polyunsaturated fatty acids |
| 52 | Amino acid synthetic formula supplemented with long chain polyunsaturated fatty acids and medium chain triglycerides |
| 53 | Amino acids-synthetic, formula |
| 54 | Amiodarone |
| 55 | Amisulpride |
