Federal Register of Legislation means the register established and maintained under section 15A of the *Legislation Act 2003*.

financial sector entity means financial sector entities of a kind referred to in paragraphs 5(2)(a) to (d) of the Act.

Schedule

Reporting Standard SRS 551.0

Liquidity

Objective of this reporting standard

This Reporting Standard sets out requirements for the provision of information to APRA relating to the liquidity supply, liquidity demand, liquidity trigger metrics and other indicators of registrable superannuation entities (RSE), defined benefit RSEs and pooled superannuation trusts.

It includes *Reporting Form SRF 551.0 Liquidity Supply*, *Reporting Form SRF 551.1 Liquidity Demand*, *Reporting Form SRF 551.2 Liquidity Event and Other Indicators*, *Reporting Form SRF 551.3 Estimated Order Of Asset Liquidation Under Liquidity Stress Condition*, associated specific instructions, *Appendix A: Summary of reporting levels and scope* and *Appendix B: Cash and Fixed Income Characteristics Hierarchy*.

Authority

1. This Reporting Standard is made under section 13 of the *Financial Sector (Collection of Data) Act 2001*.

Purpose

2. Information collected under this Reporting Standard is used by APRA for the purposes of prudential supervision and publication. It may be used by the Australian Securities and Investments Commission.

Application

3. This Reporting Standard applies to each registrable superannuation entity (RSE) licensee (RSE licensee) in respect of each RSE, defined benefit RSE and pooled superannuation trust (PST) within its business operations¹.

¹ For the purposes of this Reporting Standard, an RSE licensee's 'business operations' includes all activities it conducts as an RSE licensee (including the activities of each RSE of which it is the licensee), and all other activities of the RSE licensee to the extent that they are relevant to, or may impact on, its activities as an RSE licensee. For the avoidance of doubt, if the RSE licensee is trustee of more than one RSE, defined benefit RSE or pooled superannuation trust (PST), the RSE licensee must separately provide the information required by this Reporting Standard for each RSE, defined benefit RSE or PST within its business operations. An RSE licensee that does not have any RSEs, defined benefit RSEs or PSTs within its business operations is not required to provide information under this Reporting Standard.

Commencement

4. This Reporting Standard commences at the start of the day after the day it is registered on the Federal Register of Legislation.

Reporting periods

5. The RSE licensee must provide the information required by this Reporting Standard for the Reporting Periods, by the due dates, set out in the table below.

Ad-hoc information required

6. If the RSE licensee identifies that any of ***Level 1 Early Warning Exceeded***, ***Level 2 Early Warning Exceeded*** or ***Level 3 Limit Exceeded liquidity trigger metric or indicator*** has been exceeded, the RSE licensee must provide updated information in SRF 551.2 required by this Reporting Standard within 28 calendar days from the date the ***liquidity event trigger metric or indicator*** was first identified as having been exceeded.

Reporting under SRF 551.3 Estimated Order Of Asset Liquidation Under Liquidity Stress Conditions

7. APRA may, by notice in writing, request that the RSE licensee report the information required by SRF 551.3 in relation to the reporting period set out in the written request within 7 calendar days (or such other time specified in the written request).

Quarterly attestation required

8. An RSE licensee must provide APRA an attestation that the RSE licensee has, or will be, providing updated information to APRA in accordance with paragraph 6.
9. An RSE licensee to which this Reporting Standard applies must provide information required under paragraph 8, within 28 days after the end of each calendar quarter.

Notices

10. If, having regard to the particular circumstances of an RSE, defined benefit RSE or PST, APRA considers it necessary or desirable to obtain information more or less frequently than as provided by paragraph 5, APRA may, by notice in writing, change the reporting periods for the particular RSE, defined benefit RSE or PST.
11. Where APRA has changed the reporting periods under paragraph 10, the RSE licensee must provide the relevant information within the time specified by the notice in writing.
12. APRA may grant, in writing, an RSE licensee an extension of a due date with respect to one or more RSEs, defined benefit RSEs or PSTs within its business operations, in which case the new due date for the provision of the information will be the due date specified on the notice of extension.

Note: For the avoidance of doubt, APRA's expectation is that if the due date for a particular reporting period falls on a day other than a usual business day, an RSE licensee will submit the information required no later than the due date.

Form and method of submission

13. The information required by this Reporting Standard must be given to APRA in electronic format using an electronic method available on APRA's website or by a

method notified by APRA prior to submission.

Quality control

14. The information provided by an RSE licensee under this Reporting Standard must be the product of systems, procedures and internal controls that have been reviewed and tested by the RSE auditor of the RSE, defined benefit RSE or PST to which the information relates². This will require the RSE auditor to review and test the RSE licensee's systems, procedures and internal controls designed to enable the RSE licensee to report reliable information to APRA. This review and testing must be done on:
 - (a) an annual basis or more frequently if necessary to enable the RSE auditor to form an opinion on the reliability and accuracy of information; and
 - (b) at least a limited assurance engagement consistent with professional standards and guidance notes issued by the Auditing and Assurance Standards Board as may be amended from time to time, to the extent that they are not inconsistent with the requirements of *Prudential Standard SPS 310 Audit and Related Matters* (SPS 310).
15. All information provided by an RSE licensee under this Reporting Standard must be subject to systems, processes and controls developed by the RSE licensee for the internal review and authorisation of that information. It is the responsibility of the Board and senior management of the RSE licensee to ensure that an appropriate set of policies, procedures and controls for the authorisation of information submitted to APRA is in place.

Authorisation

16. When an officer or agent of an RSE licensee provides the information required by this Reporting Standard using an electronic format, the officer or agent must digitally sign the relevant information using a digital certificate acceptable to APRA.
17. If the information required by this Reporting Standard is provided by an agent who submits the information on the RSE licensee's behalf, the RSE licensee must:
 - (a) obtain from the agent a copy of the completed form with the information provided to APRA; and
 - (b) retain the completed copy.
18. An officer or agent of an RSE licensee who submits the information under this Reporting Standard for, or on behalf of, the RSE licensee must be authorised by either:
 - (a) the Chief Executive Officer of the RSE licensee; or
 - (b) the Chief Financial Officer of the RSE licensee.

² Refer also to *Prudential Standard SPS 310 Audit and Related Matters* (SPS 310).

Minor alterations to forms and instructions

19. APRA may make minor variations to:
- (a) a form that is part of this Reporting Standard, and the instructions to such a form, to correct technical, programming or logical errors, inconsistencies or anomalies; or
 - (b) the instructions to a form, to clarify their application to the form, without changing any substantive requirement in the form or instructions.
20. If APRA makes such a variation, it must notify each RSE licensee that is required to report under this Reporting Standard.

Liquidity Supply

Instruction Guide

This instruction guide is designed to assist in the completion of *Reporting Form SRF 551.0 Liquidity Supply* (SRF 551.0). This form collects information on the liquidity supply of RSEs and investment options within RSEs.

General directions and notes

Reporting level

SRF 551.0 must be completed for each RSE, defined benefit RSE and pooled superannuation trust (PST).

Reporting tables

Tables described in this reporting form list each of the data fields required to be reported. The data fields are listed sequentially in the column order that they will appear in the reported data set. Constraints on the data that can be reported for each field have also been provided.

The Unique identifier column indicates which field, or fields form the primary key of the table. Where a field has 'Y' in the Unique identifier column, this denotes that this field forms part of the primary key for the table. A blank cell in the Unique identifier column means that the field does not form part of the primary key for the table. Any specific combination of values in the fields that form the primary key of a table must not appear on more than one row in that table when reported.

Reporting basis and unit of measurement

Report all items on SRF 551.0 in accordance with the Australian Accounting Standards, except where otherwise specified.

Assets and liabilities denominated in currencies other than AUD are to be converted to AUD using the mid-point rate (of market buying and selling spot quotations) effective as at the end of the reporting period. An RSE licensee may use those AUD exchange rates that it judges to be a

representative closing mid-market rate as at the end of the reporting period. However, to ensure consistency across related returns and to assist in the reconciliation between these returns, an RSE licensee must use the same exchange rates across all returns submitted to APRA.

Amounts in SRF 551.0 are to be reported as whole dollars.

Items on SRF 551.0 must be reported as at the end of the reporting period.

Tables 1, 2, 3 and 4 are to be reported for *internally managed investment option* only.

Definitions

Terms highlighted in ***bold italics*** indicate that the definition is provided in *Reporting Standard SRS 101.0 Definitions for Superannuation Data Collections* (SRS 101.0).

Specific instructions

Table 1: RSE Liquidity Profile

Report columns 1 to 4 as at the end of the reporting period.

Instructions

Report the value of the investment that can be redeemed for cash in Column 2, for each of the time periods in Column 1.

Where a liquidity stress test has been conducted during the reporting period, report the value of investments that can be redeemed for cash in column 3, for each of the time periods in column 1, based on the relevant ***worst case liquidity stress scenario*** of the RSE licensee's liquidity stress testing.

Column	Field name	Unique identifier	Applicable to	Valid values	Description
1	Redeemable For Cash	Y	All filers	• 1 Day Or Less • 2 To 3 Days • 4 To 7 Days • 8 To 30 Days • 31 To 90 Days • Greater than 90 Days	Report the time period that the investment can be redeemed to cash given any constraints associated with the redemption or disposal of the investment. For example, for listed equities when reporting 'Redeemable Investment Value Amount' how much of the RSE's holdings can be reasonably redeemed for cash at or near carrying value given daily trading volume. Similarly, in the case of investment in pooled vehicles how much of the RSE's holdings can be redeemed for cash at or near carrying value given the redemption constraints for that investment.

Report the value of investment on an incremental basis (i.e. not cumulative basis). The investment value to be reported under each time periods are to be mutually exclusive such that the sum of all reported values would be equivalent to the total investment value of the RSE.
3	Redeemable Investment Value Amount (Stressed)		All filers	Whole dollars	Report the value after stressed returns but before cashflows. This should reflect the RSE licensee's liquidity assumptions about the liquidity profile of investments under its <i>worst case liquidity stress test scenario</i>.

Liquidity demand

Instruction Guide

This instruction guide is designed to assist in the completion of *Reporting Form SRF 551.1 Liquidity Demand* (SRF 551.1). This form collects information on actual and estimated cashflows, member transactions and foreign currency contracts outstanding.

General directions and notes

Reporting level

SRF 551.1 must be completed for each RSE, defined benefit RSE and pooled superannuation trust (PST).

Reporting tables

Tables described in this reporting form list each of the data fields required to be reported. The data fields are listed sequentially in the column order that they will appear in the reported data set. Constraints on the data that can be reported for each field have also been provided.

The Unique identifier column indicates which field or fields form the primary key of the table. Where a field has ‘Y’ in the Unique identifier column, this denotes that this field forms part of the primary key for the table. A blank cell in the Unique identifier column means that the field does not form part of the primary key for the table. Any specific combination of values in the fields that form the primary key of a table must not appear on more than one row in that table when reported.

Reporting basis and unit of measurement

Report all items on SRF 551.1 in accordance with the Australian Accounting Standards.

Assets and liabilities denominated in currencies other than AUD are to be converted to AUD using the mid-point rate (of market buying and selling spot quotations) effective as at the end of the reporting period. An RSE licensee may use those AUD exchange rates that it judges to be a representative closing mid-market rate as at the end of the reporting period. However, to ensure consistency across related returns and to assist in the reconciliation between these returns, an RSE licensee must use the same exchange rates across all returns submitted to APRA.

Amounts in SRF 551.1 are to be reported as whole dollars. Percentages are to be reported as an unconverted number to two decimal places. For example, 12.34 per cent is to be reported as 0.1234.

Items on SRF 551.1 must be reported as at the end of the reporting period.

Table 1: RSE Member Cash Flows

Instructions

For each RSE, report the dollar value of ***net members' flows*** within the reporting period in Column 1.

Where a liquidity stress test has been conducted during the reporting period, report the estimated value of ***net members' flows*** in Column 2 based on the relevant ***worst case liquidity stress test scenario*** of the RSE licensee's liquidity stress testing.

In Column 3, report the number of days used to calculate the *estimated stressed net cash flows* based on the RSE licensee's liquidity stress testing. For example, if the estimated stressed net cash outflows is for 30 days, report 30 days. The liquidity stress test relied upon in this table must be the same as the test reported in SRF 551.0 table 1.

Column	Field name	Unique identifier	Applicable to	Valid values	Description
1	Actual Net Cash Flows		All filers	Whole dollars	Report the <i>actual net cash flows</i> . Report net inflows as a positive number and net outflows as a negative number.
2	Estimated Stressed Net Cash Flows		All filers	Whole dollars	Report the <i>estimated stressed net cash flows</i> . Reporting Form SRF 551.2

Liquidity Event Trigger Metrics Or Indicators

Instruction Guide

This instruction guide is designed to assist in the completion of *Reporting Form SRF 551.2 Liquidity Event Trigger Metrics Or Indicators* (SRF 551.2). This form collects information on the ***liquidity trigger metrics or indicators*** at the RSE level and at the ***investment option*** level based on the RSE licensee's liquidity management policy. This form also collects information when any of the ***liquidity trigger metrics or indicators*** have been exceeded during the reporting period.

General directions and notes

Reporting level

SRF 551.2 must be completed for each RSE, defined benefit RSE and pooled superannuation trust (PST).

Reporting tables

Tables described in this reporting form list each of the data fields required to be reported. The data fields are listed sequentially in the column order that they will appear in the reported data set. Constraints on the data that can be reported for each field have also been provided.

The Unique identifier column indicates which field or fields form the primary key of the table. Where a field has 'Y' in the Unique identifier column, this denotes that this field forms part of the primary key for the table. A blank cell in the Unique identifier column means that the field does not form part of the primary key for the table. Any specific combination of values in the fields that form the primary key of a table must not appear on more than one row in that table when reported.

Reporting basis and unit of measurement

Report all items on SRF 551.2 in accordance with the Australian Accounting Standards, except where otherwise specified.

Assets and liabilities denominated in currencies other than AUD are to be converted to AUD using the mid-point rate (of market buying and selling spot quotations) effective as at the end of the reporting period. An RSE licensee may use those AUD exchange rates that it judges to be a representative closing mid-market rate as at the end of the reporting period. However, to ensure consistency across related returns and to assist in the reconciliation between these returns, an RSE licensee must use the same exchange rates across all returns submitted to APRA.

Amounts in SRF 551.2 are to be reported as whole dollars. Percentages are to be reported as an unconverted number to two decimal places. For example, 12.34 per cent is to be reported as 0.1234.

Items on SRF 551.2 must be reported as at the end of the reporting period, or, if an RSE licensee is submitting ad-hoc information, as at the date of the change.

Definitions

Terms highlighted in ***bold italics*** indicate that the definition is provided in *Reporting Standard SRS 101.0 Definitions for Superannuation Data Collections* (SRS 101.0).

Reporting on an APRA-look through basis means:

- (a) where the ***ultimate investment*** is held directly by the RSE licensee, reporting that investment;
- (b) where the ***ultimate investment*** is held by a ***person connected with the RSE licensee***, reporting that investment; and

- (c) where the *ultimate investment* is not held by the RSE licensee or a *person connected with the RSE licensee*, reporting the *most proximate investment*, of a *person connected with the RSE licensee*, to the *ultimate investment*.^{5 6}

⁵ Subsection 13(4B) of the Financial Sector (Collection of Data) Act 2001 means that a contract between the RSE licensee or a person connected with the RSE licensee such as a related body corporate or relevant custodian (the first party), and a person connected with the RSE licensee (the second party), under which assets or assets derived from assets of the registrable superannuation entity are invested, is taken to include (1) a term requiring the first party to notify the second party that the assets are or are derived from a registrable superannuation entity, and (2) a term requiring the second party, if so notified, to provide the information required by this reporting standard of which they are aware.

⁶ For example, if an RSE licensee invests in a managed investment scheme, the responsible entity of which is not a related body corporate of the RSE licensee, the responsible entity is still a person connected with the RSE licensee, under paragraph (c) of the definition of that term. If the managed investment scheme in turn invests in a private equity vehicle, the trustee of which is not in any way related to the RSE licensee, the trustee of the private equity vehicle is not a person connected with the RSE licensee. If the private equity vehicle has invested exclusively in shares, the shares will be the ultimate investment. The most proximate investment of a person connected with the RSE licensee will be the managed investment scheme's investment in the private equity vehicle. Accordingly, the managed investment scheme's investment in the private equity vehicle must be reported.
