Part 2—Pharmaceutical benefits that may be supplied without a prescription

2.01 Pharmaceutical benefits covered by this instrument

For the purposes of paragraph 89A(3)(a) of the Act, each pharmaceutical benefit that has a drug mentioned in an item in Schedule 1 is determined to be a pharmaceutical benefit that may be supplied by an approved pharmacist without a prescription.

Part 3—Specified conditions for supplying pharmaceutical benefits without a prescription

3.01 General

- (1) For the purposes of paragraph 89A(3)(b) of the Act, the conditions specified in this Part are determined to be the conditions that must be satisfied when making a supply (the *requested supply*) of a pharmaceutical benefit to a person (the *patient*) requesting the supply without a prescription in accordance with subsection 89A(1) of the Act.
- (2) In this Part:
 - (a) a reference to the PBS prescriber is a reference to the PBS prescriber who most recently prescribed the supply of the pharmaceutical benefit to the patient; and
 - (b) a reference to “the pharmaceutical benefit” in sections 3.03, 3.05, 3.06 and 3.07 includes a reference to a pharmaceutical benefit that is a Schedule equivalent.

3.02 Condition—unable to obtain prescription

The approved pharmacist must be satisfied of either or both of the following:

- (a) the PBS prescriber is unable to be contacted;
- (b) the PBS prescriber is unable to provide an electronic prescription.

3.03 Condition—previous supply of pharmaceutical benefit

The approved pharmacist must be satisfied that:

- (a) the patient has previously been supplied the pharmaceutical benefit on the basis of a prescription from a PBS prescriber; and
- (b) the PBS prescriber prescribed the supply of the pharmaceutical benefit for the patient in at least one of the circumstances determined for that pharmaceutical benefit under paragraph 85(7)(b) of the Act.

Note: The circumstances determined under paragraph 85(7)(b) of the Act relate to pharmaceutical benefits that are relevant pharmaceutical benefits under section 88A of the Act.

3.04 Condition—stability of therapy

The approved pharmacist must be satisfied that the patient’s therapy is stable.

3.05 Condition—prior clinical review by PBS prescriber

The approved pharmacist must be satisfied that:

- (a) the patient has been taking the pharmaceutical benefit regularly for an uninterrupted period; and

-
- (b) since the start of that period, the PBS prescriber has assessed the patient's condition and decided that there is a need for ongoing treatment with the pharmaceutical benefit.

Note: See paragraph 3.01(2)(a) for references to the PBS prescriber.

3.06 Condition—prescription for last supply of pharmaceutical benefit

The approved pharmacist must be satisfied that the patient had a valid prescription under Part VII of the Act for the last supply of the pharmaceutical benefit to the patient before the requested supply.

3.07 Condition—no continued dispensing in previous 12 months

The approved pharmacist must be satisfied that the patient was not supplied with the pharmaceutical benefit under subsection 89A(1) of the Act in the 12 months before the requested supply.

3.08 Condition—declaration for supply of pharmaceutical benefit

The approved pharmacist must ensure that the patient, or an agent of the patient (other than the approved pharmacist), signs a declaration acknowledging that the patient is being supplied with the pharmaceutical benefit without the presentation of a valid prescription under Part VII of the Act.

3.09 Condition—maximum quantity of supply

- (1) The approved pharmacist must supply a maximum quantity or number of units of the pharmaceutical item in the pharmaceutical benefit determined under paragraph 85A(2)(a) of the Act.
- (2) However, where an increased maximum quantity has been determined for the pharmaceutical item in the pharmaceutical benefit, the approved pharmacist may only supply that increased maximum quantity if the last supply to the patient of the pharmaceutical benefit, or a pharmaceutical benefit that is Schedule equivalent, was on the basis of a prescription written for:
 - (a) a relevant purpose for the pharmaceutical benefit; or
 - (b) a relevant purpose for a pharmaceutical benefit that is Schedule equivalent to the pharmaceutical benefit.

3.10 Condition—preparing and recording information

- (1) The approved pharmacist must, when the pharmaceutical benefit is supplied:
 - (a) record the information that the pharmacist used to support the pharmacist's decision to supply the pharmaceutical benefit; and
 - (b) prepare information about the supply to the patient that the pharmacist will send to the PBS prescriber.
- (2) The information that must be recorded and prepared under subsection (1) must include the following:

-
- (a) a statement that the pharmaceutical benefit supplied is a pharmaceutical benefit covered by Schedule 1;
 - (b) a statement that the conditions mentioned in sections 3.02 to 3.05 are satisfied;
 - (c) a statement that the approved pharmacist is satisfied that the pharmaceutical benefit needs to be supplied to the patient to facilitate continuity of treatment.
