1 Name

This is the *Radiocommunications (Radionavigation-Satellite Service) Class Licence 2025*.

2 Commencement

This instrument commences at the start of the day after the day it is registered on the Federal Register of Legislation.

Note: The Federal Register of Legislation is available, free of charge, at www.legislation.gov.au.

3 Authority

This instrument is made under section 132 of the Act.

4 Repeal

The *Radiocommunications (Radionavigation-Satellite Service) Class Licence 2015* [F2015L01510] is repealed.

5 Interpretation

In this instrument, unless the contrary intention appears, a reference to a part of the spectrum or frequency band includes all frequencies that are greater than but not including the lower frequency, up to and including the higher frequency.

Note 1: A number of expressions used in this instrument are defined in the Act, including the following:

- (a) frequency band;
- (b) operate;
- (c) radiocommunication;
- (d) radiocommunications receiver;
- (e) receiver licence;
- (f) space object.

Note 2: Other expressions used in this instrument may be defined in a determination made under subsection 64(1) of the *Australian Communications and Media Authority Act 2005* that applies to this instrument, including:

- (a) Act;
- (b) radionavigation-satellite service;
- (c) RNSS frequency;
- (d) RNSS radiocommunication;
- (e) RNSS receiver.

6 References to other instruments

In this instrument, unless the contrary intention appears:

- (a) a reference to any other legislative instrument is a reference to that other legislative instrument as in force from time to time; and
- (b) a reference to any other kind of instrument or writing is a reference to that other instrument or writing as in force, or existing, from time to time.

Note 1: For references to Commonwealth Acts, see section 10 of the *Acts Interpretation Act 1901*; and see also subsection 13(1) of the *Legislation Act 2003* for the application of the *Acts Interpretation Act 1901* to legislative instruments.

Note 2: All Commonwealth Acts and legislative instruments are registered on the Federal Register of Legislation.

Note 3: See section 314A of the Act.

7 Class licence

Subject to the condition in section 8, this instrument authorises a person to operate an RNSS receiver for the purpose of reception of RNSS radiocommunications, other than the following:

- (a) an RNSS receiver located on a space object;
- (b) an RNSS receiver, where:
 - (i) the operation of the receiver is authorised by a receiver licence; and
 - (ii) the receiver is authorised to be operated for the purpose of reception of RNSS radiocommunications.

Note: The ACMA does not generally intend to afford protection to an RNSS receiver, operated in accordance with this instrument, from interference caused by other radiocommunications devices.

8 Condition – permitted frequencies

A person must not operate an RNSS receiver otherwise than on a frequency in one of the following frequency bands:

- (a) 1164 MHz to 1300 MHz;
- (b) 1559 MHz to 1610 MHz.
