2 **Chapter 2—Design rights, ownership and**
3 **registrable designs**

4 **Part 1—Simplified outline of Chapter 2**
5

6 **9 Simplified outline**

7 The following is a simplified outline of this Chapter:

8 This Chapter sets out matters relating to design rights.

9 Part 2 specifies the exclusive rights of the registered owners of a
10 registered design.

11 Part 3 specifies:

- 12 (a) who is entitled to be registered as the owner of an
13 unregistered design; and
14 (b) who is the registered owner of a registered design.

15 Part 4 defines the key concepts of *registrable design*, *newness*,
16 *distinctiveness* and *substantial similarity*. These concepts are
17 important because:

- 18 (a) in examining a design under Chapter 5, the
19 Registrar must decide whether it is new and
20 distinctive when compared to the prior art base;
21 and
22 (b) in deciding whether a person has infringed a
23 registered design under Chapter 6, a court must
24 consider whether the allegedly infringing design is
25 substantially similar in overall impression to the
26 registered design.

Section 10

1

2 **Part 2—Design rights**
3

4 **10 Exclusive rights of registered owners**

- 5 (1) The registered owner of a registered design has the exclusive right,
6 during the term of registration of the design:
- 7 (a) to make or offer to make a product, in relation to which the
8 design is registered, which embodies the design; and
 - 9 (b) to import such a product into Australia for sale, or for use for
10 the purposes of any trade or business; and
 - 11 (c) to sell, hire or otherwise dispose of, or offer to sell, hire or
12 otherwise dispose of, such a product; and
 - 13 (d) to use such a product in any way for the purposes of any
14 trade or business; and
 - 15 (e) to keep such a product for the purpose of doing any of the
16 things mentioned in paragraph (c) or (d); and
 - 17 (f) to authorise another person to do any of the things mentioned
18 in paragraph (a), (b), (c), (d) or (e).
- 19 (2) The exclusive rights mentioned in subsection (1) are personal
20 property and are capable of assignment and of devolution by will
21 or by operation of law.
- 22 (3) This section is subject to this Act.

23 **11 Assignment of interest in a design**

- 24 (1) The registered owner of a registered design may assign all or part
25 of the registered owner's interest in the design by writing.
- 26 (2) An assignment under subsection (1) must be signed by, or on
27 behalf of, the assignor and the assignee.
- 28 (3) An assignment under subsection (1) may be for a particular place.
- 29 Note: Section 114 deals with amendments to the Register to record the
30 assignment of an interest in a design.

1 **12 Power of registered owner to deal with registered design**

2 (1) The registered owner of a registered design may, subject to any
3 rights appearing in the Register to be vested in another person, deal
4 with the registered owner's interest in the design as absolute owner
5 of it, and give good discharges for any consideration for such
6 dealing.

7 (2) However, subsection (1) does not protect a person who deals with
8 the registered owner of a registered design otherwise than as a
9 purchaser in good faith for value and without notice of any fraud
10 on the part of the registered owner.

11 (3) Equities in relation to a registered design may be enforced against
12 the registered owner, except to the prejudice of a purchaser in good
13 faith for value.

Section 13

1

2

Part 3—Ownership of designs

3

4

13 Who is entitled to be registered as the registered owner of a design

5

(1) A person mentioned in any of the following paragraphs is entitled to be entered on the Register as the registered owner of a design that has not yet been registered:

7

8

9

(a) the person who created the design (the *designer*);

10

11

12

13

(b) if the designer created the design in the course of employment, or under a contract, with another person—the other person, unless the designer and the other person have agreed to the contrary;

14

15

16

(c) a person who derives title to the design from a person mentioned in paragraph (a) or (b), or by devolution by will or by operation of law;

17

18

19

(d) a person who would, on registration of the design, be entitled to have the exclusive rights in the design assigned to the person;

20

21

(e) the legal personal representative of a deceased person mentioned in paragraph (a), (b), (c) or (d).

22

23

25

26

27

28

(a) the person has assigned all of the person's rights in the design to another person; or

(b) the person's rights in the design have devolved on another person by operation of law.

29

30

31

32

33

34

(3) To avoid doubt:

(a) more than one person may be entitled to be entered on the Register as the registered owner of a design; and

(b) unless the contrary intention appears, a reference to the registered owner of a registered design in this Act is a reference to each of the registered owners of the design.

- 1 (4) No person other than a person mentioned in paragraph (1)(a), (b),
2 (c), (d) or (e) is entitled to be entered on the Register as the
3 registered owner of a design that has not yet been registered.

4 **14 Ownership of registered designs**

- 5 (1) The registered owner of a registered design at a particular time is:
6 (a) the person who, at that time, is entered in the Register as the
7 registered owner of the design; or
8 (b) if, at that time, there are 2 or more such persons—each of
9 them.
- 10 (2) If there are 2 or more registered owners of a registered design:
11 (a) each of them is entitled to an equal, undivided share in the
12 exclusive rights in that design; and
13 (b) subject to paragraph (c), each registered owner is entitled to
14 exercise the exclusive rights in the design to the registered
15 owner's own benefit without accounting to the others; and
16 (c) none of them can grant a licence to exercise the exclusive
17 rights in the design, or assign an interest in the design,
18 without the consent of the others.
- 19 (3) If a product that embodies a registered design is sold by any of 2 or
20 more registered owners of the design, the buyer, and a person
21 claiming through the buyer, may deal with the product as if it had
22 been sold by all the registered owners.
- 23 (4) Subsection (2) is subject to any contrary agreement between the
24 registered owners of a registered design.

1

2 **Part 4—Registrable designs: Validity**

3 **Division 1—Registrable designs**

4 **15 Registrable designs**

5 (1) A design is a *registrable design* if the design is new and distinctive
6 when compared with the prior art base for the design as it existed
7 before the priority date of the design.

8 (2) The *prior art base* for a design (the *designated design*) consists of:

9 (a) designs publicly used in Australia; and

10 (b) designs published within or outside Australia; and

11 (c) designs disclosed in design applications, being designs that:

12 (i) have an earlier priority date than the designated design;
13 and

14 (ii) were published under section 60 on or after the priority
15 date of the design application in which the designated
16 design was disclosed.

17 **16 Designs that are identical or substantially similar in overall** 18 **impression**

19 (1) A design is new unless it is identical to a design that forms part of
20 the prior art base for the design.

21 (2) A design is distinctive unless it is substantially similar in overall
22 impression to a design that forms part of the prior art base for the
23 design (see section 19).

24 (3) Subject to paragraph 15(2)(c), the newness or distinctiveness of a
25 design is not affected by the mere publication or public use of the
26 design in Australia on or after the priority date of the design, or by
27 the registration of another design with the same or a later priority
28 date.

1 **17 Certain things to be disregarded in deciding whether a design is**
2 **new and distinctive**

3 (1) For the purpose of deciding whether a design is new and
4 distinctive, the person making the decision must disregard:

5 (a) any publication or use of the design, with the consent of the
6 registered owner of the design, or the registered owner's
7 predecessor in title, in circumstances prescribed by the
8 regulations; and

9 (b) any publication or use of the design, without the consent of
10 the registered owner of the design, by another person who
11 derived or obtained the design from the registered owner of
12 the design, or from the registered owner's predecessor in
13 title;

14 but only if a design application in respect of the design is made
15 within the prescribed period.

16 (2) For the purpose of deciding whether a design is new and
17 distinctive, the person making the decision must disregard:

18 (a) any information given by, or with the consent of, the
19 registered owner of the design, or the registered owner's
20 predecessor in title, to any of the following, but to no other
21 person or organisation:

22 (i) the Commonwealth, a State or a Territory;

23 (ii) a person authorised by the Commonwealth, a State or a
24 Territory to investigate the design; and

25 (b) anything done for the purpose of an investigation mentioned
26 in subparagraph (a)(ii).

27 **18 Certain designs not to be treated as other than new and**
28 **distinctive**

29 (1) This section applies if:

30 (a) copyright under the *Copyright Act 1968* subsists in an artistic
31 work; and

32 (b) an application is made by, or with the consent of, the owner
33 of that copyright for registration of a corresponding design.

Chapter 2 Design rights, ownership and registrable designs

Part 4 Registrable designs: Validity

Division 1 Registrable designs

Section 18

- 1 (2) The design is not to be treated, for the purposes of this Act, as
2 being other than new and distinctive, or as having been published,
3 by reason only of any use previously made of the artistic work,
4 unless:
5 (a) the previous use consisted of, or included, the sale, letting for
6 hire or exposing for sale or hire of products to which the
7 design had been applied industrially, other than products
8 specified in regulations for the purposes of paragraph
9 43(1)(a); and
10 (b) the previous use was by, or with the consent of, the owner of
11 the copyright in the artistic work.
- 12 (3) In this section:
13 *applied industrially* has the meaning given by regulations under
14 section 77 of the *Copyright Act 1968*.

1

2 **Division 2—Substantial similarity in overall impression**

3 **19 Factors to be considered in assessing substantial similarity in**
4 **overall impression**

- 5 (1) If a person is required by this Act to decide whether a design is
6 substantially similar in overall impression to another design, the
7 person making the decision is to give more weight to similarities
8 between the designs than to differences between them.
- 9 (2) The person must also:
- 10 (a) have regard to the state of development of the prior art base
11 for the design; and
- 12 (b) if the design application in which the design was disclosed
13 included a statement (a *statement of newness and*
14 *distinctiveness*) identifying particular visual features of the
15 design as new and distinctive:
- 16 (i) have particular regard to those features; and
17 (ii) if those features relate to only part of the design—have
18 particular regard to that part of the design, but in the
19 context of the design as a whole; and
- 20 (c) if only part of the design is substantially similar to another
21 design, have regard to the amount, quality and importance of
22 that part in the context of the design as a whole; and
- 23 (d) have regard to the freedom of the creator of the design to
24 innovate.
- 25 (3) If the design application in which the design was disclosed did not
26 include a statement of newness and distinctiveness in respect of
27 particular visual features of the design, the person must have
28 regard to the appearance of the design as a whole.
- 29 (4) In applying subsections (1), (2) and (3), the person must apply the
30 standard of a person who is familiar with the product to which the
31 design relates, or products similar to the product to which the
32 design relates (the *standard of the informed user*).

Chapter 3—Design applications

Part 1—Simplified outline of Chapter 3

20 Simplified outline

The following is a simplified outline of this Chapter:

This Chapter sets out the rules relating to design applications.

Part 2 provides that a person may file a design application in relation to one or more designs.

If the design application meets the minimum filing requirements, the design application is allocated a filing date, and each design disclosed in it obtains a *priority date*.

Under Chapter 4, a person who has filed a design application may, within the prescribed period, request registration or publication of all or any of the designs disclosed in the application.

Part 3 deals with amendment and withdrawal of design applications.

Part 4 deals with the lapsing of design applications.

1

2 **Part 2—Design applications**

3 **Division 1—Applications**

4 **21 Person may file a design application**

5 (1) A person may file an application (a *design application*) in respect
6 of a design.

7 (2) A design application must comply with:

8 (a) any requirements prescribed by the regulations in relation to
9 representations of designs disclosed in the application; and

10 (b) any other requirements prescribed by the regulations.

11 These are the *minimum filing requirements*.

12 (3) A design application may be made by more than one person.

13 (4) A design application must specify the entitled person or persons in
14 relation to the designs disclosed in the design application.

15 **22 A design application may be in respect of more than one design**

16 (1) A single design application may be in respect of:

17 (a) one design in relation to one product; or

18 (b) one design that is a common design in relation to more than
19 one product; or

20 (c) more than one design in relation to one product; or

21 (d) more than one design in relation to more than one product, if
22 each product belongs to the same Locarno Agreement class.

23 (2) If more than one design is disclosed in a design application, the
24 entitled person or persons must be the same in relation to each
25 design.

26 Note: This means that a separate application must be made in respect of
27 designs with a different entitled person or persons.

28 (3) To avoid doubt, a design that is a common design in relation to
29 more than one product is a design in relation to each product.

1 **23 Design applications covering excluded designs**

2 (1) If:

3 (a) one or more designs are disclosed in a design application (the
4 *initial application*); and

5 (b) after the initial application is filed, it is amended under
6 section 28 to exclude one or more of those designs (the
7 *excluded designs*); and

8 (c) the initial application has not lapsed or been withdrawn; and

9 (d) none of the designs in the initial application has been
10 registered, or published under section 57;

11 the applicant may file a design application under section 21 in
12 respect of one or more of the excluded designs.

13 (2) An application in respect of one or more excluded designs must be
14 filed within the period prescribed by the regulations.

15 (3) To avoid doubt, an application in respect of one or more excluded
16 designs must not include a design that has been withdrawn under
17 subsection 32(2) from the initial application or refused registration
18 or publication.

Section 24

1

2

Division 2—How Registrar must deal with a design application

3

4

24 Design applications that meet the minimum filing requirements

5

(1) If a design application meets the minimum filing requirements mentioned in subsection 21(2), the Registrar must give a written notice to the applicant stating:

6

7

8

(a) that the design application meets the minimum filing requirements; and

9

10

(b) the filing date of the application; and

11

(c) if the design application was not accompanied by a request for registration or publication of each design disclosed in the application—that such a request may be made under section 35.

12

13

14

15

(2) If a purported design application does not meet the minimum filing requirements, the Registrar must give a written notice to that effect to the applicant.

16

17

18

(3) A notice under subsection (1) or (2) must be given in accordance with the regulations.

19

20

25 Publication of receipt of application

21

The Registrar must publish, in the manner prescribed by the regulations, the details prescribed by the regulations in relation to each design application that meets the minimum filing requirements.

22

23

24

1

2 **Division 3—Filing date and priority date**

3 **26 Filing date**

4 A design application has the filing date determined in accordance
5 with the regulations.

6 **27 Priority date**

7 (1) The priority date of a design disclosed in a design application that
8 meets the minimum filing requirements is:

9 (a) the filing date of the design application; or

10 (b) if, before the design application was filed, an application for
11 protection in respect of the design had been made in a
12 Convention country in accordance with the regulations—the
13 date prescribed by the regulations; or

14 (c) if the regulations provide for a different date as the priority
15 date—the date prescribed by the regulations.

16 (2) If more than one design is disclosed in a design application, the
17 designs may have different priority dates.

Section 28

1

2 **Part 3—Amendment or withdrawal of design**
3 **applications**
4

5 **28 Amendment of design applications**

6 (1) The Registrar may amend a design application if requested to do so
7 by the applicant.

8 (2) A request under subsection (1) must be made in the manner
9 prescribed by the regulations.

10 (3) Despite subsection (1), the Registrar must not amend:
11 (a) any representations included in the design application; or
12 (b) any other documents accompanying the design application;
13 in so far as they define a design disclosed in the design application,
14 in such a way as to alter the scope of the application by the
15 inclusion of matter which was not in substance disclosed in the
16 original design application, representations or other documents.

17 (4) In this section:

18 *amend*, in relation to a representation of a design disclosed in a
19 design application, includes the substitution of one representation
20 for another representation.

21 (5) An appeal lies to the Federal Court against a decision of the
22 Registrar under this section.

23 **29 Disputes between applicants**

24 (1) This section applies if a dispute arises between 2 or more persons
25 in relation to whether, or in what manner, a design application
26 should proceed.

27 (2) The Registrar may, on a request made in accordance with the
28 regulations by any of the persons, make any determinations the
29 Registrar thinks fit for either or both of the following purposes:

- 1 (a) enabling the application to specify which of those persons is
2 an entitled person in relation to a design disclosed in the
3 application;
4 (b) regulating the manner in which the application is to proceed.
- 5 (3) A person mentioned in subsection (1) or (2) must be:
6 (a) the applicant; or
7 (b) a person who asserts that the person is an entitled person in
8 relation to a design disclosed in the application.

9 **30 Persons may ask for design application to proceed in the person's**
10 **name**

- 11 (1) A person may ask the Registrar to direct that a design application
12 specify the person as:
13 (a) an applicant; or
14 (b) an entitled person in relation to a design disclosed in the
15 application.
- 16 (2) The Registrar may give the direction if the person would, if the
17 design were registered, be entitled under an assignment or
18 agreement, or by operation of law, to:
19 (a) the registered design or an interest in it; or
20 (b) an undivided share in the registered design or in such an
21 interest.
- 22 (3) If the Registrar gives the direction:
23 (a) the person is taken to be an applicant or an entitled person in
24 relation to the design, as the case requires; and
25 (b) the application is taken to be amended accordingly.
- 26 (4) A request under subsection (1) must be in accordance with the
27 regulations.

28 **31 Publication of certain details of amended application**

- 29 The Registrar must publish the details prescribed by the regulations
30 in relation to a design application amended by the Registrar under
31 this Part.

Section 32

1 **32 Withdrawal of designs and design applications**

2 (1) A person who has filed a design application may withdraw the
3 application by written notice filed within the period prescribed by
4 the regulations.

5 (2) A person who has filed a design application in respect of more than
6 one design may withdraw one or more of those designs from the
7 application by written notice filed within the period prescribed by
8 the regulations.

9 (3) If the design application was filed by more than one person, the
10 notice is not effective unless each of them consented to the giving
11 of the notice.

12 (4) If a design is withdrawn from a design application, the person or
13 persons who withdrew the design may not subsequently request
14 registration or publication of the design under Part 2 of Chapter 4
15 unless the person makes another application in respect of the
16 design under section 21.

1

2

3

Part 4—Lapsing of design applications

4

33 Lapsing of design applications

5

(1) A design application lapses if:

6

(a) a request to register or publish each design disclosed in the application has not been made, in accordance with Part 2 of Chapter 4, within the period prescribed by the regulations; or

7

8

9

(b) the Registrar has given the applicant a notice under section 41 or 57 in respect of the application, and the applicant has not, within the period prescribed by the regulations:

10

11

12

13

(i) requested that the application be amended; or

14

(ii) responded in writing to the notice as mentioned in subparagraph 41(c)(ii) or 57(3)(c)(ii), as the case requires;

15

16

17

in such a way that the Registrar is satisfied that the application meets the applicable requirements of Chapter 4.

18

19

(2) If the Registrar has, under section 137, extended a period within which a thing mentioned in subsection (1) is to be done, a reference in subsection (1) to a period is a reference to the extended period.

20

21

22

23

(3) For the purposes of paragraph (1)(b), *each design disclosed in the application* does not include the following:

24

25

(a) a design excluded from the application by an amendment under section 28;

26

27

(b) a design withdrawn from the application under subsection 32(2).

28

29

(4) The Registrar must publish a notice stating that a design application has lapsed under subsection (1). The notice must be in the form prescribed by the regulations.

Chapter 4—Registration or publication of designs

Part 1—Simplified outline of Chapter 4

34 Simplified outline

The following is a simplified outline of this Chapter:

Part 2 permits an applicant to request registration or publication of all or any of the designs disclosed in a design application.

The Registrar must register or publish the designs under Part 3 or 4 if specified requirements are satisfied.

The Registrar must refuse to register certain designs (see section 43).

Registration of a design is for a maximum of 10 years (see Division 3 of Part 3).

The registration of a design may be revoked on grounds relating to entitled persons (see Division 4 of Part 3).

Registered designs and associated documents are open for public inspection (see Part 5).

1

2
3

Part 2—Requests for registration or publication

4

35 Request for registration or publication

5
6

(1) An applicant may request registration or publication of one or more designs disclosed in a design application.

7

(2) The request must be:

8

(a) included in the design application; or

9

(b) made within the period prescribed by the regulations (but see sections 37 and 38).

10

11

(3) The request must be in accordance with any requirements prescribed by the regulations.

12

13

36 Request for registration or publication—applications in respect of more than one design

14

15

(1) If more than one design is disclosed in a design application, a request under section 35:

16

17

(a) may be in respect of one or more of those designs; and

18

(b) may be for registration of some of the designs and publication of others.

19

20

(2) However, if an applicant makes a request in respect of only some of the designs disclosed in the design application, the following rules apply:

21

22

23

(a) the applicant may not subsequently make a request for registration of the designs in respect of which no request for registration was made, unless the Registrar determines, in accordance with the regulations, that the applicant may make such a request;

24

25

26

27

28

(b) the applicant may subsequently make a request for publication of the designs in respect of which no request was made.

29

30

Section 37

1 **37 Request in respect of designs excluded from an application in**
2 **respect of more than one design**

3 A design application in respect of designs excluded from an initial
4 application must include a request for registration or publication of
5 all the designs disclosed in the application.

6 **38 Replacement of request for registration with request for**
7 **publication**

- 8 (1) If an applicant has requested registration of a design under
9 section 35, the applicant may replace the request for registration
10 with a request for publication of the design by giving written notice
11 to the Registrar.
- 12 (2) The request is to be made within the period prescribed by the
13 regulations.
- 14 (3) However, an applicant may not replace a request for publication of
15 a design with a request for registration of the design.

1

2 **Part 3—Registration**

3 **Division 1—Formalities check**

4 **39 Formalities check—applications in respect of one design only**

- 5 (1) This section applies to a design disclosed in a design application if:
6 (a) the design is the only design disclosed in the application; and
7 (b) the applicant has requested that the design be registered.
- 8 (2) The Registrar must register the design if the Registrar is satisfied
9 that:
10 (a) the design application satisfies the formalities check
11 specified in the regulations; and
12 (b) if the design is purportedly a common design in relation to
13 more than one product—that the design is a common design
14 in relation to each product; and
15 (c) the Registrar is not required to refuse to register the design
16 under subsection 43(1).

17 **40 Formalities check—applications in respect of more than one**
18 **design**

- 19 (1) This section applies if:
20 (a) more than one design is disclosed in a design application; and
21 (b) the applicant has requested registration of one or more of
22 those designs.
- 23 (2) The Registrar must register a design requested to be registered if
24 the Registrar is satisfied of the following:
25 (a) that each product to which the design relates belongs to the
26 same Locarno Agreement class;
27 (b) if the design requested to be registered is purportedly a
28 common design in relation to more than one product—that
29 the design is a common design in relation to each product;

Section 41

- 1 (c) that the design application satisfies the formalities check
2 specified in the regulations;
3 (d) that the Registrar is not required to refuse to register the
4 design under subsection 43(1).

5 **41 Registrar must give applicants an opportunity to correct**
6 **deficiencies**

7 If the Registrar is not satisfied as mentioned in section 39 or 40 in
8 relation to a design application, the Registrar must give a written
9 notice to the applicant stating:

- 10 (a) the matters in relation to which the Registrar is not satisfied;
11 and
12 (b) that the applicant may request that the Registrar amend the
13 application under section 28; and
14 (c) that the application will lapse at the end of the period
15 prescribed by the regulations for the purposes of paragraph
16 33(1)(b) unless, during that period:
17 (i) the application is amended; or
18 (ii) the applicant responds in writing to the notice stating
19 why the applicant considers that the application does not
20 need to be amended;
21 and as a result of the amendment or response, the Registrar is
22 satisfied as mentioned in section 39 or 40, as the case
23 requires.

24 **42 What happens after Registrar gives notice under section 41**

- 25 (1) This section applies if the Registrar has given a written notice to an
26 applicant under section 41.
27 (2) If the applicant requests that the Registrar amend the application,
28 the Registrar must consider the request under section 28.
29 (3) If the applicant responds in writing to the notice as mentioned in
30 subparagraph 41(c)(ii), the Registrar must consider the response.
31 (4) If, after considering the request or response, the Registrar is
32 satisfied as mentioned in section 39 or 40 in relation to the design

1 application, the Registrar must register the design or designs
2 disclosed in the application under whichever of those sections
3 applies.

- 4 (5) If, after considering the request or response, the Registrar is not
5 satisfied as mentioned in section 39 or 40 in relation to the design
6 application, the Registrar may either:
7 (a) refuse to register the design or designs under section 43; or
8 (b) give a further notice to the applicant under section 41.

9 **43 Registrar must refuse to register certain designs**

- 10 (1) The Registrar must refuse to register a design if:
11 (a) the design is a design, or belongs to a class of designs,
12 prescribed by the regulations for the purposes of this
13 paragraph; or
14 (b) the Registrar must not register the design because of
15 section 18 of the *Olympic Insignia Protection Act 1987*; or
16 (c) the design is in relation to a product that is:
17 (i) an integrated circuit within the meaning of the *Circuit*
18 *Layouts Act 1989*; or
19 (ii) part of such an integrated circuit; or
20 (iii) a mask used to make such an integrated circuit; or
21 (d) the design is subject to an order under section 108.
- 22 (2) Subject to section 42, the Registrar must refuse to register a design
23 disclosed in a design application in respect of which the Registrar
24 has given a notice under section 41, if the applicant has not:
25 (a) amended the application; or
26 (b) responded in writing to the notice stating why the applicant
27 considers that the application does not need to be amended;
28 in such a way that the Registrar is satisfied as mentioned in
29 section 39 or 40 in relation to the design application.
- 30 (3) The Registrar must notify the applicant in writing of a refusal
31 under subsection (1) or (2). The notice must set out the reasons for
32 the refusal.

Section 44

1 **44 Registrar must register certain designs after refusal**

2 Despite paragraph 43(1)(d), if:

3 (a) the Registrar refuses to register a design because the design is
4 subject to an order under section 108; and

5 (b) the order is later revoked; and

6 (c) at the date of the revocation of the order, the design would,
7 but for the operation of section 108, have been registered;

8 the Registrar must register the design within the period prescribed
9 by the regulations.

1

2 **Division 2—Registration procedures**

3 **45 Registrar must notify applicant of registration and give public**
4 **notice**

5 (1) This section applies if the Registrar is required to register a design
6 under this Act.

7 (2) The Registrar must enter in the Register the particulars mentioned
8 in section 111, to the extent that they are applicable.

9 (3) The Registrar must issue a certificate of registration to the
10 applicant. The certificate must be in the form prescribed by the
11 regulations.

12 (4) The Registrar must publish a notice stating that the design has been
13 registered. The notice must be in the form prescribed by the
14 regulations.

Section 46

1

2 **Division 3—Term of registration**

3 **46 Term of registration**

- 4 (1) The term of registration of a design is:
- 5 (a) 5 years from the filing date of the design application in which
- 6 the design was first disclosed; or
- 7 (b) if the registration of the design is renewed under section 47—
- 8 10 years from the filing date of the design application in
- 9 which the design was first disclosed.
- 10 (2) If a design has been excluded from an initial application (see
- 11 section 23), the design application in which the design was first
- 12 disclosed is taken, for the purposes of subsection (1), to be the
- 13 initial application.

14 **47 Renewal of registration**

- 15 (1) The registered owner of a registered design may apply for renewal
- 16 of the registration of the design.
- 17 (2) The application must be made within the prescribed period after
- 18 the filing date of the design application in which the design was
- 19 first disclosed.
- 20 (3) The Registrar must renew the registration of the design if the
- 21 application is in the form prescribed by the regulations.

22 **48 Ceasing of registration**

- 23 (1) The registration of a design ceases if an examination of the design
- 24 has been requested and:
- 25 (a) within the period prescribed for the purposes of paragraph
- 26 65(3)(b), the Registrar is not satisfied as mentioned in
- 27 paragraph 67(1)(a) or 68(1)(a); or
- 28 (b) the registered owner of the design has not paid the prescribed
- 29 fee for the examination by the end of the period prescribed
- 30 for payment.

- 1 (2) The registration of a design also ceases at the end of the period
2 mentioned in paragraph 46(1)(a) or (b), as the case requires.
- 3 (3) If:

7

Chapter 5 deals with the examination of designs by the Registrar.

8

Designs may be examined after registration on the request of any person or on the Registrar's initiative.

3

Part 2—Requests for examination

4

63 Examination of design

5

6

7

(1) The Registrar must examine a design that has at any time been a registered design if any person requests, or a court orders, that the Registrar examine the design.

8

9

(2) The Registrar may, on the Registrar's initiative and at any time, examine a design that has at any time been a registered design.

10

11

12

(3) If relevant proceedings in relation to a design are pending in a court, the Registrar must not examine the design unless the court orders that the Registrar examine the design.

13

14

15

16

17

18

(4) If:

(a) the Registrar has started to examine a design; and

(b) relevant proceedings in relation to the design are started;

the Registrar must not continue to examine the design (including considering a request for amendments under section 66) unless a court orders that the Registrar continue to examine the design.

19

20

(5) For the purposes of this section, the expression *a design that has at any time been a registered design*:

21

22

(a) includes a design whose registration has ceased because of the operation of subsection 48(2) or (3); and

23

24

25

26

27

64 Requirements for request for examination of design

28

29

(1) A request by a person that the Registrar examine a registered design must satisfy any requirements prescribed by the regulations.

30

31

(2) The request may contain material in relation to the newness and distinctiveness of the design.

Part 3—Examination

4

65 What Registrar must do in examining a design

5
6
7
8

(1) If the Registrar receives a request to examine a registered design, or decides to examine a registered design, the Registrar must consider whether a ground for revocation under subsection (2) exists.

9
10

(2) The following are grounds for revocation of the registration of a design for the purposes of this Part:

11
12

- (a) the design is not a registrable design;
- (b) any other ground prescribed by the regulations.

13

(3) The examination must be:

14
15

- (a) conducted in accordance with the procedures prescribed by the regulations; and

16

- (b) completed within the period prescribed by the regulations.

17

66 Amendment of registration

18
19
20

(1) This section applies if the Registrar is satisfied, in the course of examining a registered design, that a ground for revocation of the registration of the design has been made out.

21
22

(2) The Registrar must give written notice to that effect to the registered owner of the design.

23
24
25

(3) The registered owner of the design may request that the Registrar amend the Register in such a way that the ground for revocation is removed.

26
27

(4) A request under subsection (3) must be made in the manner prescribed by the regulations.

28
29

(5) The Registrar must consider and deal with the request in the manner prescribed by the regulations.

- 1 (6) An amendment must not be such as to:
2 (a) increase the scope of the design registration; or
3 (b) alter the scope of the registration by the inclusion of matter
4 that was not in substance disclosed in the original design
5 application, representations or other documents.

6 **67 Certificate of examination where registration valid**

- 7 (1) This section applies in relation to a registered design if:
8 (a) the Registrar has examined the design and is satisfied that a
9 ground for revocation of the registration of the design has not
10 been made out, or that any such ground would be removed if
11 the Register were amended as proposed in a request made
12 under section 66; and
13 (b) the registration of the design has not ceased under subsection
14 48(1).
- 15 (2) The Registrar must give the relevant parties a notice stating:
16 (a) that the design has been examined; and
17 (b) if the Registrar is satisfied that a ground of revocation could
18 be removed if the Register were amended as proposed in a
19 request made under section 66—the details of the proposed
20 amendments; and
21 (c) that a certificate of examination is to be issued.
- 22 (3) If the Registrar remains satisfied as mentioned in paragraph (1)(a)
23 after giving the relevant parties a reasonable opportunity to be
24 heard, the Registrar must:
25 (a) issue a certificate of examination, in the form prescribed by
26 the regulations, to the registered owner of the design; and
27 (b) record on the Register the issue of that certificate and, if
28 applicable, such amendments proposed in a request made
29 under section 66 that the Registrar is satisfied would remove
30 a ground of revocation; and
31 (c) publish a notice, in the form prescribed by the regulations,
32 stating:
33 (i) that an examination of the design has been completed;
34 and

Section 68

1 (ii) that infringement proceedings under Chapter 6 may be
2 commenced.

3 (4) An appeal lies to the Federal Court against a decision of the
4 Registrar under this section.

5 **68 Revocation of registration after examination**

6 (1) This section applies in relation to a registered design if:

7 (a) the Registrar has examined the design, and is satisfied that a
8 ground for revocation of the registration of the design has
9 been made out and the ground would not be removed if the
10 Register were amended as proposed in a request under
11 section 66; and

12 (b) the registration of the design has not ceased under subsection
13 48(1).

14 (2) The Registrar must:

15 (a) give the relevant parties a notice stating that the registration
16 of the design is revoked; and

17 (b) make an entry in the Register under section 115.

18 (3) The Registrar must also publish a notice, in the form prescribed by
19 the regulations, stating that the registration of the design has been
20 revoked and that the design is taken never to have been registered.

21 (4) The Registrar must not revoke the registration of a design under
22 this section unless:

23 (a) the Registrar has given the registered owner a reasonable
24 opportunity to be heard; and

25 (b) if appropriate, the Registrar has given the registered owner a
26 reasonable opportunity to amend the relevant registered
27 design for the purpose of removing a ground for the
28 revocation of the registration of the design and the registered
29 owner has failed to do so.

30 (5) The Registrar must not revoke the registration of a design under
31 this section while relevant proceedings in relation to that design are
32 pending.

Chapter 6—Infringement

Part 1—Simplified outline of Chapter 6

70 Simplified outline

The following is a simplified outline of this Chapter:

Chapter 6 is about infringement.

Part 2 provides that a person infringes a registered design if, without the appropriate authority, the person deals in certain ways with a product that embodies the design, or a design that is substantially similar to it.

Part 2 also provides that the registered owner of a design may bring infringement proceedings. The defendant may counter-claim for rectification of the Register.

Various remedies are available, including injunction, damages or an account of profits.

Part 3 deals with unjustified threats of infringement proceedings.

11

12

13

14

15

16

17

18

19

- (1) A person infringes a registered design if, during the term of registration of the design, and without the licence or authority of the registered owner of the design, the person:
- (a) makes or offers to make a product, in relation to which the design is registered, which embodies a design that is identical to, or substantially similar in overall impression to, the registered design; or
 - (b) imports such a product into Australia for sale, or for use for the purposes of any trade or business; or
 - (c) sells, hires or otherwise disposes of, or offers to sell, hire or otherwise dispose of, such a product; or
 - (d) uses such a product in any way for the purposes of any trade or business; or
 - (e) keeps such a product for the purpose of doing any of the things mentioned in paragraph (c) or (d).

20

21

22

23

24

25

26

27

- (2) Despite subsection (1), a person does not infringe a registered design if:
- (a) the person imports a product, in relation to which the design is registered, which embodies a design that is identical to, or substantially similar in overall impression to, the registered design; and
 - (b) the product embodies the design with the licence or authority of the registered owner of the design.

28

29

30

- (3) In determining whether an allegedly infringing design is substantially similar in overall impression to the registered design, a court is to consider the factors specified in section 19.

31

32

- (4) Infringement proceedings must be started within 6 years from the day on which the alleged infringement occurred.

1 **72 Certain repairs do not infringe registered design**

2 (1) Despite subsection 71(1), a person does not infringe a registered
3 design if:

4 (a) the person uses, or authorises another person to use, a
5 product:

6 (i) in relation to which the design is registered; and

7 (ii) which embodies a design that is identical to, or
8 substantially similar in overall impression to, the
9 registered design; and

10 (b) the product is a component part of a complex product; and

11 (c) the use or authorisation is for the purpose of the repair of the
12 complex product so as to restore its overall appearance in
13 whole or part.

14 (2) If:

15 (a) a person uses or authorises another person to use a product:

16 (i) in relation to which a design is registered; and

17 (ii) which embodies a design that is identical to, or
18 substantially similar in overall appearance to, the
19 registered design; and

20 (b) the person asserts in infringement proceedings that, because
21 of the operation of subsection (1), the use or authorisation did
22 not infringe the registered design;

23 the registered owner of the design bears the burden of proving that
24 the person knew, or ought reasonably to have known, that the use
25 or authorisation was not for the purpose mentioned in
26 paragraph (1)(c).

27 (3) For the purposes of subsection (1):

28 (a) a repair is taken to be so as to restore the overall appearance
29 of a complex product in whole if the overall appearance of
30 the complex product immediately after the repair is not
31 materially different from its original overall appearance; and

32 (b) a repair is taken to be so as to restore the overall appearance
33 of a complex product in part if any material difference
34 between:

Section 72

- 1 (i) the original overall appearance of the complex product;
2 and
3 (ii) the overall appearance of the complex product
4 immediately after the repair;
5 is solely attributable to the fact that only part of the complex
6 product has been repaired.

7 (4) In applying subsection (3), a court must apply the standard of the
8 informed user.

9 (5) In this section:

10 *repair*, in relation to a complex product, includes the following:

- 11 (a) restoring a decayed or damaged component part of the
12 complex product to a good or sound condition;
13 (b) replacing a decayed or damaged component part of the
14 complex product with a component part in good or sound
15 condition;
16 (c) necessarily replacing incidental items when restoring or
17 replacing a decayed or damaged component part of the
18 complex product;
19 (d) carrying out maintenance on the complex product.

20 *standard of the informed user*, in relation to the overall
21 appearance of a complex product, means the standard of a person
22 who is familiar with the complex product, or with products similar
23 to that product.

24 *use*, in relation to a product, means:

- 25 (a) to make or offer to make the product; or
26 (b) to import the product into Australia for sale, or for use for the
27 purposes of any trade or business; or
28 (c) to sell, hire or otherwise dispose of, or offer to sell, hire or
29 otherwise dispose of, the product; or
30 (d) to use the product in any other way for the purposes of any
31 trade or business; or
32 (e) to keep the product for the purpose of doing any of the things
33 mentioned in paragraph (c) or (d).

1 **73 Infringement proceedings**

- 2 (1) The registered owner of a registered design may bring proceedings
3 against another person alleging that the person has infringed the
4 registered design.
- 5 (2) Infringement proceedings may be brought in a prescribed court or
6 in another court that has jurisdiction in relation to the proceedings.
- 7 (3) However, infringement proceedings may not be brought under
8 subsection (1) until:
9 (a) the design has been examined under Chapter 5; and
10 (b) a certificate of examination has been issued.
- 11 (4) If a person files an application under section 21 for registration of a
12 design as a result of the operation of section 55, the person may
13 only bring infringement proceedings in respect of infringements of
14 the design occurring after the date on which the application was
15 filed under section 21.

16 **74 Counter-claims**

17 A defendant in infringement proceedings in respect of a registered
18 design may apply, by way of counter-claim in the proceedings, for
19 the revocation of the registration of the design under section 93.

20 **75 Remedies for infringement**

- 21 (1) Without limiting the relief that a court may grant in infringement
22 proceedings, the relief may include:
23 (a) an injunction subject to such terms as the court thinks fit; and
24 (b) at the option of the plaintiff—damages or an account of
25 profits.
- 26 (2) The court may refuse to award damages, reduce the damages that
27 would otherwise be awarded, or refuse to make an order for an
28 account of profits, if the defendant satisfies the court:
29 (a) in the case of primary infringement:
30 (i) that at the time of the infringement, the defendant was
31 not aware that the design was registered; and

Section 76

- 1 (ii) that before that time, the defendant had taken all
2 reasonable steps to ascertain whether the design was
3 registered; or
4 (b) in the case of secondary infringement—that at the time of the
5 infringement, the defendant was not aware, and could not
6 reasonably have been expected to be aware, that the design
7 was registered.
- 8 (3) The court may award such additional damages as it considers
9 appropriate, having regard to the flagrancy of the infringement and
10 all other relevant matters.
- 11 (4) It is prima facie evidence that the defendant was aware that the
12 design was registered if the product embodying the registered
13 design to which the infringement proceedings relate, or the
14 packaging of the product, is marked so as to indicate registration of
15 the design.
- 16 (5) In this section:
- 17 *primary infringement* means infringement of a kind mentioned in
18 paragraph 71(1)(a).
- 19 *secondary infringement* means infringement of a kind mentioned
20 in paragraph 71(1)(b), (c), (d) or (e).

76 Intervention by Registrar

22 A court may grant the Registrar leave to intervene in infringement
23 proceedings.

1
2 **Part 3—Relief from unjustified threats**
3

4 **77 Application for relief from unjustified threats**

- 5 (1) If a person is threatened by another person (the *respondent*) with
6 infringement proceedings, or other similar proceedings, in respect
7 of a design, an aggrieved person (the *applicant*) may apply to a
8 prescribed court, or to another court that has jurisdiction to hear
9 and determine the application, for:
10 (a) a declaration that the threats are unjustified; and
11 (b) an injunction against the continuation of the threats; and
12 (c) the recovery of damages sustained by the applicant as a result
13 of the threats.
- 14 (2) A threat mentioned in subsection (1) may be by means of circulars,
15 advertisements or otherwise.
- 16 (3) If a certificate of examination has not been issued in respect of a
17 design, a threat to bring infringement proceedings, or other similar
18 proceedings, in respect of the design is an unjustified threat for the
19 purposes of this section.

20 **78 Court's power to grant relief**

21 A court may grant the relief sought by an applicant under
22 section 77, unless the respondent satisfies the court that:

- 23 (a) the design concerned is registered, has been examined and a
24 certificate of examination has been issued; and
25 (b) the acts about which the threats were made infringe, or would
26 infringe, the registered design.

27 **79 Counter-claim**

- 28 (1) The respondent in proceedings under section 77 in respect of a
29 design may apply, by way of counter-claim, for relief to which the
30 respondent would be entitled in separate infringement proceedings
31 against the applicant in respect of the design.

Section 80

- 1 (2) If the respondent applies under subsection (1) by way of
2 counter-claim, the applicant may, without making a separate
3 application under section 93, apply for revocation of the
4 registration of the design.
- 5 (3) The provisions of this Act relating to infringement proceedings
6 apply, with the necessary modifications, to a counter-claim under
7 subsection (1).
- 8 (4) The provisions of this Act relating to proceedings for the
9 revocation of the registration of a design apply, with the necessary
10 modifications, to an application under subsection (2).

11 **80 Mere notification of registration not a threat**

12 The mere notification of the existence of a registered design does
13 not constitute a threat of infringement proceedings for the purposes
14 of section 77.

15 **81 Legal practitioners, registered patent attorneys and registered**
16 **trade marks attorneys**

17 A legal practitioner, a registered patent attorney or a registered
18 trade marks attorney is not liable to proceedings under section 77
19 in respect of an act done in a professional capacity on behalf of a
20 client.

Chapter 7—Jurisdiction and powers of courts

Part 1—Simplified outline of Chapter 7

82 Simplified outline

The following is a simplified outline of this Chapter:

Chapter 7 deals with the jurisdiction of courts.

Under Part 2, the Federal Court is given jurisdiction in relation to matters arising under the Act. Other prescribed courts have jurisdiction if the Act so provides.

Part 3 deals with the capacity of a prescribed court to issue compulsory licences and to revoke the registration of a design in certain circumstances.

Part 4 also deals with the capacity of a prescribed court to revoke the registration of a design in certain other circumstances.

Section 83

1

2
3

Part 2—Jurisdiction

4

83 Jurisdiction of Federal Court

5
6

(1) The Federal Court has jurisdiction with respect to matters arising under this Act.

7
8
9
10

(2) The jurisdiction of the Federal Court to hear and determine appeals from decisions of the Registrar is exclusive of the jurisdiction of any other court (other than the jurisdiction of the High Court under section 75 of the Constitution).

11
12

(3) A prosecution for an offence against this Act must not be brought in the Federal Court.

13

84 Jurisdiction of other prescribed courts

14
15
16

(1) Each prescribed court other than the Federal Court has jurisdiction in respect of matters arising under this Act in relation to which proceedings may be brought in a prescribed court.

17
18

(2) The jurisdiction conferred by subsection (1) on the Supreme Court of a Territory is as follows:

19
20

(a) the jurisdiction is conferred to the extent that the Constitution permits so far as it relates to:

21
22
23

- (i) infringement proceedings; or
- (ii) an application for revocation of registration of a design because of section 74; and

24
25

(b) in any other case, the jurisdiction is conferred only in relation to proceedings instituted by:

26
27
28
29

- (i) a natural person who is resident in the Territory at the time the proceedings are brought; or
- (ii) a corporation that has its principal place of business in the Territory at the time the proceedings are brought.

1 **85 Exercise of jurisdiction**

2 The jurisdiction of a prescribed court under section 83 or 84 is to
3 be exercised by a single judge.

4 **86 Transfer of proceedings etc.**

5 (1) A court in which proceedings have been brought under this Act
6 may transfer the proceedings to another prescribed court having
7 jurisdiction to hear and determine the proceedings:

- 8 (a) if the court thinks fit; and
9 (b) upon application of a party made at any stage in the
10 proceedings.

11 (2) If proceedings are transferred from one court to another court
12 under this section:

- 13 (a) all documents of record relevant to the proceedings are to be
14 sent to the Registrar or other appropriate officer of the other
15 court; and
16 (b) the other court must proceed as if:
17 (i) the proceedings had been started in that court; and
18 (ii) the same steps in the proceedings had been taken in that
19 court as had been taken in the transferring court.

20 **87 Appeals**

21 (1) An appeal lies to the Federal Court from a judgment or order of:

- 22 (a) another prescribed court exercising jurisdiction under this
23 Act; or
24 (b) any other court in a proceeding referred to in section 73 or
25 77.

26 (2) An appeal does not lie to the full court of the Federal Court from a
27 judgment or order of a single judge of the Federal Court, in the
28 exercise of its jurisdiction to hear and determine appeals from
29 decisions of the Registrar, other than with the leave of the Federal
30 Court.

Section 88

- 1 (3) An appeal lies to the High Court, with special leave of the High
2 Court, from a judgment or order referred to in subsection (1).
- 3 (4) No appeal lies from a judgment or order referred to in
4 subsection (1), except as provided by this section.

5 **88 Powers of Federal Court on hearing an appeal**

6 On hearing an appeal against a decision or direction of the
7 Registrar, the Federal Court may do any one or more of the
8 following:

- 9 (a) admit further evidence orally, or on affidavit or otherwise;
10 (b) permit the examination and cross-examination of witnesses
11 (including witnesses who gave evidence before the
12 Registrar);
13 (c) order an issue of fact to be tried as it directs;
14 (d) affirm, reverse or vary the Registrar's decision or direction;
15 (e) give any judgment, or make any order, that, in all the
16 circumstances, it thinks fit;
17 (f) order a party to pay costs to another party.

18 **89 Registrar may appear in appeals**

19 The Registrar may appear and be heard at the hearing of an appeal
20 to the Federal Court against a decision or direction of the Registrar,
21 even if the Registrar is not a party to the appeal.

1

2 **Part 3—Compulsory licences and revocation of**
3 **registration**
4

5 **90 Person may apply to court for compulsory licence**

- 6 (1) A person may apply to a prescribed court, after the end of the
7 prescribed period, for an order requiring the registered owner of a
8 registered design to grant the person a licence to do any of the
9 things mentioned in paragraphs 10(1)(a) to (e) in relation to the
10 design.
- 11 (2) An application under subsection (1) may not be made unless a
12 certificate of examination has been issued.
- 13 (3) After hearing the application, the court may make such an order if
14 it is satisfied that:
- 15 (a) products embodying the design have not been made in
16 Australia, to the extent that is reasonable in the circumstances
17 of the case; and
- 18 (b) the registered owner of the design has given no satisfactory
19 reason for failing to exercise the exclusive rights in the
20 design; and
- 21 (c) the applicant has tried for a reasonable period, but without
22 success, to obtain from the registered owner of the design an
23 authorisation to do, on reasonable terms and conditions, any
24 of the things mentioned in paragraphs 10(1)(a) to (e) in
25 relation to the design.

26 **91 Terms of compulsory licence**

- 27 (1) This section applies if a court makes an order granting a licence
28 under section 90.
- 29 (2) The order must direct that the licence:
- 30 (a) does not give the licensee any exclusive rights in the design;
31 and

Section 92

- 1 (b) is to be assignable only in connection with an enterprise or
2 goodwill in connection with which the licence is used;
3 and may direct that the licence is to be granted on any other terms
4 specified in the order.
- 5 (3) The order operates, without prejudice to any other method of
6 enforcement, as if it were embodied in a deed granting a licence
7 and executed by the registered owner of the design and all other
8 necessary parties.
- 9 (4) The applicant is to pay the registered owner of the design:
10 (a) such amount as is agreed between the applicant and the
11 registered owner of the design; or
12 (b) if paragraph (a) does not apply—such amount as is
13 determined by a prescribed court to be just and reasonable
14 having regard to the economic value of the licence.
- 15 (5) The registered owner of the design or a prescribed court may
16 revoke the licence if:
17 (a) the registered owner of the design and the licensee are
18 agreed, or the court on application made by either party finds,
19 that the circumstances that justified the grant of the licence
20 have ceased to exist and are unlikely to recur; and
21 (b) the legitimate interests of the licensee are not likely to be
22 adversely affected by the revocation.

92 Revocation of registration after grant of compulsory licence

- 23
- 24 (1) If a licence is granted under section 90, an interested person may
25 apply to a prescribed court, after the end of the prescribed period,
26 for an order revoking the registration of the design.
- 27 (2) After hearing the application, the court may make the order if it is
28 satisfied that:
29 (a) the reasonable requirements of the public with respect to the
30 design have not been satisfied; and
31 (b) the registered owner of the design has given no satisfactory
32 reason for failing to exercise the exclusive rights in the
33 design.

1

2

Part 4—Revocation of registration by court in other circumstances

3

4

5

93 Revocation of registration in other circumstances

6

(1) A person may apply to a prescribed court for an order revoking the registration of a design.

7

8

(2) An application under subsection (1) may be made only after the design has been examined under Chapter 5 and a certificate of examination has been issued.

9

10

11

(3) The grounds on which a court may revoke the registration of the design are:

12

13

(a) that the design is not a registrable design; or

14

(b) that one or more of the original registered owners was not an entitled person in relation to the design when the design was first registered; or

15

16

17

(c) that each of the original registered owners was an entitled person in relation to the design when the design was first registered, but another person or persons were entitled persons in relation to the design at that time; or

18

19

20

(d) that the registration of the design was obtained by fraud, false suggestion or misrepresentation; or

21

22

23

(e) that the design is a corresponding design to an artistic work, and copyright in the artistic work has ceased.

24

25

(4) In this section:

26

original registered owner, in relation to a design, means each person entered in the Register as the registered owner at the time the design was first registered.

Chapter 8—The Crown
Part 1—Simplified outline of Chapter 8

94 Simplified outline

The following is a simplified outline of this Chapter:

<p>Part 2 permits the use of registered designs by the Commonwealth or a State.</p> <p>Part 3 permits acquisition of registered designs by the Commonwealth.</p> <p>Part 4 enables the Registrar to prohibit or restrict the publication of information about a design application, if to do so is necessary or expedient in the interests of the defence of the Commonwealth.</p>

1
2 **Part 2—Use by the Crown**
3

4 **95 Meaning of terms**

5 (1) In this Part, a reference to the use of a design, or of a product in
6 relation to which a design is registered, which embodies the design,
7 is a reference to the exercise of the exclusive rights in the design
8 mentioned in paragraphs 10(1)(a) to (e).

9 (2) In this Part:

10 *State* includes the following:

- 11 (a) the Australian Capital Territory, the Northern Territory and
12 Norfolk Island;
13 (b) an authority of the Australian Capital Territory, the Northern
14 Territory or Norfolk Island.

15 **96 Use of design by the Commonwealth or a State**

16 (1) At any time after a design application disclosing a design has been
17 filed or a design has been registered, the Commonwealth or a State,
18 or a person authorised in writing by the Commonwealth or a State,
19 may use the design for the services of the Commonwealth or State.

20 (2) An authority under subsection (1):

- 21 (a) may be given either before or after the registration of the
22 design; and
23 (b) may relate to, and authorise retrospectively, acts done after
24 the filing of the application and before the giving of the
25 authority; and
26 (c) may be given to a person even if that person is directly or
27 indirectly authorised by the entitled person in relation to the
28 design, or the registered owner of the design, as the case
29 requires, to use the design.

30 (3) Subject to section 105, a design is taken for the purposes of this
31 Part to be used for the services of the Commonwealth or a State if

Section 97

1 the use of the design is necessary for the proper provision of those
2 services within Australia.

3 **97 Applicants, entitled persons and registered owners to be**
4 **informed of use**

5 (1) As soon as practicable after the use of a design under section 96,
6 the Commonwealth or a State must inform the following persons of
7 that use:

8 (a) in the case of a design that has not yet been registered—each
9 applicant for registration of the design and each entitled
10 person in relation to the design;

11 (b) in the case of a registered design—the registered owner.

12 (2) The Commonwealth or a State must also give to each person
13 mentioned in paragraph (1)(a) or (b) such information about the
14 use of the design as the person from time to time reasonably
15 requires, unless it appears to the Commonwealth or State that it
16 would be contrary to the public interest to do so.

17 **98 Terms of use**

18 (1) The terms of use of a design:

19 (a) are as agreed on, whether before, during or after that use,
20 between the Commonwealth or State and the entitled person
21 in relation to the design or the registered owner of the design,
22 as the case requires; or

23 (b) in absence of agreement, are as determined by a prescribed
24 court.

25 (2) A prescribed court may, in determining the terms of use, take into
26 consideration compensation that a person interested in the design
27 has received, directly or indirectly, from the Commonwealth or
28 State in respect of the design.

29 (3) A person may not apply to a prescribed court for a determination
30 under subsection (1) in relation to a design unless a certificate of
31 examination has been issued in relation to the design.

1 **99 Previous agreements inoperative**

- 2 (1) This section applies to an agreement or licence (whether made or
3 given before or after the commencement of this Act) fixing the
4 terms on which a person other than the Commonwealth or a State
5 may use a design.
- 6 (2) Such an agreement or licence is inoperative with respect to the use,
7 after the commencement of this Act, of the design under
8 section 96, unless the agreement or licence has been approved by
9 the Minister or by the Attorney-General of the State.

10 **100 Infringement**

11 Infringement proceedings do not lie in relation to the use of a
12 design under section 96.

13 **101 Declaration by court**

- 14 (1) The registered owner of a design who considers that the design has
15 been used under section 96 may apply to a prescribed court for a
16 declaration to that effect.
- 17 (2) An application under subsection (1) may not be made by the
18 registered owner unless a certificate of examination has been
19 issued.
- 20 (3) In a proceeding under subsection (1), the Commonwealth or the
21 State concerned is the defendant and may, by way of
22 counter-claim, apply for the revocation of the registration of the
23 design under section 93.

24 **102 Use of design to cease under court order**

- 25 (1) A prescribed court may, on the application of the registered owner,
26 declare that the use of a registered design by the Commonwealth or
27 State is not, or is no longer, necessary for the proper provision of
28 services of the Commonwealth or State.

Section 103

- 1 (2) The court may make a declaration under subsection (1) if it is
2 satisfied that in all the circumstances of the case, it is fair and
3 reasonable to do so.
- 4 (3) The court may further order that the Commonwealth or the State is
5 to cease to use the design:
6 (a) on and from the day specified in the order; and
7 (b) subject to any conditions specified in the order.
- 8 (4) In making an order under subsection (3), the court is to ensure that
9 the legitimate interests of the Commonwealth or State are not
10 adversely affected by the order.
- 11 (5) A person may not apply to a prescribed court for a declaration
12 under subsection (1) in relation to a design unless a certificate of
13 examination has been issued in relation to the design.

14 **103 Sale of products**

15 If a product that embodies a design is sold during the use of the
16 design under section 96, the buyer, and any person claiming
17 through the buyer, is entitled to deal with the product as if the
18 Commonwealth or the State were the registered owner of the
19 design.

20 **104 Forfeited products**

21 Nothing in this Part affects the right of the Commonwealth or of a
22 State, or of a person deriving title directly or indirectly from the
23 Commonwealth or a State, to sell or use a product forfeited under a
24 law of the Commonwealth or the State.

25 **105 Supply of products by the Commonwealth to foreign countries**

- 26 (1) This section applies if:
27 (a) the Commonwealth has made an agreement with a foreign
28 country to supply to the country a product in relation to
29 which a design is registered, which embodies the design; and
30 (b) the product is required for the defence of the country.

Section 105

- 1 (2) The use of the product by the Commonwealth, or by a person
2 authorised in writing by the Commonwealth, for the purposes of
3 supplying the product is taken, for the purposes of this Part, to be a
4 use of the product by the Commonwealth for the services of the
5 Commonwealth.
- 6 (3) The Commonwealth or the authorised person may:
7 (a) sell the product to the country under the agreement; and
8 (b) sell to any person any of the products that are not required for
9 the purpose for which they were made.

Section 106

1

2 **Part 3—Acquisition by and assignments to the**
3 **Crown**
4

5 **106 Acquisition of design by the Commonwealth**

- 6 (1) The Governor-General may direct that a design disclosed in a
7 design application, or a registered design, be acquired by the
8 Commonwealth.
- 9 (2) When a direction is given, all rights in respect of the design are, by
10 force of this section, transferred to and vested in the
11 Commonwealth.
- 12 (3) Notice of the acquisition must be published in the prescribed
13 manner and given to the following:
- 14 (a) in the case of a design that has not yet been registered—each
15 applicant for registration of the design and each entitled
16 person in relation to the design;
- 17 (b) in the case of a registered design—the registered owner.
- 18 (4) The Commonwealth must pay:
- 19 (a) each entitled person in relation to the design or the registered
20 owner of the design, as the case requires; and
- 21 (b) all other persons appearing in the Register as having an
22 interest in the design;
- 23 such compensation as is agreed between the Commonwealth and
24 those persons or, in the absence of agreement, as is determined by
25 a prescribed court.
- 26 (5) A person may not apply to a prescribed court for a determination
27 under subsection (4) in relation to a design unless a certificate of
28 examination has been issued in relation to the design.

29 **107 Assignment of design to the Commonwealth**

- 30 (1) An entitled person in relation to a design or the registered owner of
31 a design may assign to the Commonwealth the person's interest in

Section 107

- 1 the design and in the exclusive rights obtained, or to be obtained, in
2 the design.
- 3 (2) The assignment and all covenants and agreements contained in the
4 assignment are:
- 5 (a) valid and effectual even if valuable consideration has not
6 been given; and
- 7 (b) may be enforced by action or other appropriate proceeding in
8 the name of the Minister.

10

11

(2) The Registrar is subject to any directions by the Minister in making an order under subsection (1).

12

13

14

15

22

(4) If:

150 Repeal

The *Designs Act 1906* is repealed.

1
2 **Part 2—Transitional provisions**
3

4 **151 Application of this Act to certain designs**

5 (1) This section applies to the following designs:

- 6 (a) a design registered under the old Act immediately before the
7 commencing day;
8 (b) a design registered after the commencing day as a result of a
9 design application to which the old Act continued to apply
10 because of section 153.

11 (2) The design:

- 12 (a) is taken to be registered under this Act:
13 (i) in the case of a design mentioned in paragraph (1)(a)—
14 on and from the commencing day; and
15 (ii) in the case of a design mentioned in paragraph (1)(b)—
16 on and from the day on which the design was registered;
17 and
18 (b) is taken to have been examined by the Registrar under Part 3
19 of Chapter 5 and a certificate of examination is taken to have
20 been issued under section 67.

21 (3) However, despite subsection (2):

- 22 (a) the old Act continues to apply for the purposes of
23 determining the validity of the registration of the design; and
24 (b) this Act does not apply for the purposes of determining the
25 validity of the registration of the design; and
26 (c) the design must not be examined under Chapter 5.

27 **152 Term of registration of certain designs**

28 Despite section 151:

- 29 (a) the term of registration of a design to which that section
30 applies ceases to be in force on the day on which it would
31 have ceased to be in force under the old Act if the old Act
32 had not been repealed; and

Section 153

- 1 (b) section 27A of the old Act continues to apply to the design as
2 if the old Act had not been repealed.

3 **153 Applications made before commencing day**

- 4 (1) The old Act continues to apply to an application made under the
5 old Act before the commencing day as if the old Act had not been
6 repealed, unless a conversion request is made under section 159 in
7 respect of the application.
- 8 (2) However, an application for an extension of time in relation to an
9 application mentioned in subsection (1) must be made under
10 section 137 of this Act.
- 11 (3) If, after dealing with an application under the old Act, the Registrar
12 is required to register the design to which the application relates,
13 the Registrar must comply with section 45 of this Act in relation to
14 the registration of the design.

15 **154 Other applications and proceedings**

- 16 (1) This Act applies, on and after the commencing day, to any
17 application, request, action or proceeding made or started under the
18 old Act and not finally dealt with under that Act before that day as
19 if the application, request, action or proceeding had been made or
20 started under a corresponding provision of this Act.
- 21 (2) Subsection (1) does not apply to:
- 22 (a) an application to which the old Act continues to apply under
23 section 153; or
- 24 (b) a proceeding to which the old Act continues to apply under
25 section 155.

26 Note: Section 152 deals with the application of section 27A of the old Act.

27 **155 Pending proceedings**

- 28 (1) If proceedings arising from an application to a court under the old
29 Act were pending immediately before the commencing day, the
30 matter is to be decided as if the old Act had not been repealed.

- 1 (2) However, any order made by a court in relation to rectification
2 must relate to the Register under this Act.

3 **156 Infringement under old Act**

- 4 (1) This section applies to the following designs:
5 (a) a design that was at any time registered under the old Act and
6 had not been expunged from the Register under the old Act
7 (whether or not the design is a design to which section 151
8 applies); and
9 (b) a design that was registered after the commencing day as a
10 result of an application to which the old Act applied because
11 of section 153.
- 12 (2) If:
13 (a) either of the following applies:
14 (i) a person engages, before the commencing day, in
15 conduct that infringed the monopoly in the design under
16 the old Act;
17 (ii) a person engages, after the commencing day, in conduct
18 that would have infringed the monopoly in the design
19 under the old Act if that Act were still in force; and
20 (b) an action relating to that infringement was not pending
21 immediately before the commencing day;
22 an action may be brought under this Act for infringement of the
23 design.
- 24 (3) However, in an action under subsection (2):
25 (a) the old Act continues to apply for the purposes of
26 determining whether the person's conduct infringed the
27 monopoly in the design; and
28 (b) this Act does not apply for the purposes of determining
29 whether the person's conduct infringed the monopoly in the
30 design; and
31 (c) a person is not entitled to any injunction or other relief to
32 which the person would not have been entitled under the old
33 Act.

Section 157

2 within which an action of a kind mentioned in that subsection may
3 be started.

4 **157 Registrar and Deputy Registrar**

6 Registrar, under the old Act immediately before the commencing
7 day continues to hold office as the Registrar or Deputy Registrar
8 (as the case requires) under this Act on and after that day.

9 **158 The Register**

10 On and after the commencing day, the Register within the meaning
11 of the old Act is taken to be the Register within the meaning of this
12 Act.

13 **159 Conversion of transitional applications**

- 14 (1) A person who has made a transitional application may request that
15 the transitional application be treated as a converted application.
16 This is a *conversion request*.
- 17 (2) A conversion request must be:
18 (a) made before the end of the prescribed period; and
19 (b) in writing and filed; and
20 (c) made in accordance with any requirements prescribed by the
21 regulations.
- 22 (3) If a conversion request is made in respect of a transitional
23 application, nothing that has been done under the old Act in
24 relation to the application before the request was made is taken to
25 constitute an examination under Chapter 5.
- 26 (4) If a conversion request is made in respect of a transitional
27 application, the application is taken to be a converted application
28 from the date of the conversion request.

3 this Act, subject to the modifications set out in this section.

18 relation to a transitional application to which a converted
19 application relates is taken to be an amendment requested under
20 section 28 of this Act.
- 21 (8) If:
- 22 (a) a converted application is amended under section 28 of this
23 Act to exclude one or more of the designs disclosed in the
24 converted application; and
- 25 (b) the applicant files a design application under section 23 of
26 this Act in respect of one or more of the excluded designs;
