Part 1—Main amendments

Telecommunications (Interception and Access) Act 1979

1 After Part 5-1

Insert:

Part 5-1A—Data retention

Division 1—Obligation to keep information and documents

187A Service providers must keep certain information and documents

- (1) A person (a *service provider*) who operates a service to which this Part applies (a *relevant service*) must keep, or cause to be kept, for the period specified in section 187C:
 - (a) information of a kind prescribed by the regulations; or
 - (b) documents containing information of that kind; relating to any communication carried by means of the service.
 - Note 1: Subsection (3) sets out the services to which this Part applies.
 - Note 2: Section 187B removes some service providers from the scope of this obligation, either completely or in relation to some services they operate.
 - Note 3: Division 3 provides for exemptions from a service provider's obligations under this Part.
- (2) The kinds of information prescribed for the purposes of paragraph (1)(a) must relate to one or more of the following matters:
 - (a) characteristics of any of the following:
 - (i) the subscriber of a relevant service;
 - (ii) an account relating to a relevant service;
 - (iii) a telecommunications device relating to a relevant service;

- (iv) another relevant service relating to a relevant service;
- (b) the source of a communication;
- (c) the destination of a communication;
- (d) the date, time and duration of a communication, or of its connection to a relevant service;
- (e) the type of a communication, or a type of relevant service used in connection with a communication;
- (f) the location of equipment, or a line, used in connection with a communication.
- (3) This Part applies to a service if:
 - (a) it is a service for carrying communications, or enabling communications to be carried, by means of guided or unguided electromagnetic energy or both; and
 - (b) it is a service:
 - (i) operated by a carrier; or
 - (ii) operated by an internet service provider (within the meaning of Schedule 5 to the *Broadcasting Services Act* 1992); or
 - (iii) of a kind prescribed by the regulations; and
 - (c) the person operating the service owns or operates, in Australia, infrastructure that enables the provision of any of its relevant services;

but does not apply to a broadcasting service (within the meaning of the *Broadcasting Services Act 1992*).

- (4) This section does not require a service provider to keep, or cause to be kept:
 - (a) information that is the contents or substance of a communication; or

Note: This paragraph puts beyond doubt that service providers are not required to keep information about telecommunications content.

- (b) information that:
 - (i) states an address to which a communication was sent on the internet, from a telecommunications device, using an internet access service provided by the service provider; and

(ii) was obtained by the service provider only as a result of providing the service; or

Note: This paragraph puts beyond doubt that service providers are not required to keep information about subscribers' web browsing history.

- (c) information to the extent that it relates to a communication carried by means of another relevant service operated:
 - (i) by another service provider; and
 - (ii) using the relevant service;
 - or a document to the extent that the document contains such information; or
- (d) information that the service provider is required to delete because of a determination made under section 99 of the *Telecommunications Act 1997*, or a document to the extent that the document contains such information; or
- (e) information about the location of a telecommunications device that is not information used by the service provider in relation to the relevant service to which the device is connected.
- (5) Without limiting subsection (1), for the purposes of this section:
 - (a) an attempt to send a communication by means of a relevant service is taken to be the sending of a communication by means of the service, if the attempt results in:
 - (i) a connection between the telecommunications device used in the attempt and another telecommunications device; or
 - (ii) an attempted connection between the telecommunications device used in the attempt and another telecommunications device; or
 - (iii) a conclusion being drawn, through the operation of the service, that a connection cannot be made between the telecommunications device used in the attempt and another telecommunications device; and

5

- (b) an untariffed communication by means of a relevant service is taken to be a communication by means of the service.
- (6) To avoid doubt, if information that subsection (1) requires a service provider to keep in relation to a communication is not created by the operation of a relevant service, subsection (1)

, 2014

No.

- requires the service provider to use other means to create the information, or a document containing the information.
- (7) For the purposes of paragraphs (2)(b), (c), (d) and (f) and regulations made for the purposes of those paragraphs, 2 or more communications that together constitute a single communications session are taken to be a single communication.

187B Certain service providers not covered by this Part

- (1) Subsection 187A(1) does not apply to a service provider (other than a carrier that is not a carriage service provider) in relation to a relevant service that it operates if:
 - (a) the service:
 - (i) is provided only to a person's immediate circle (within the meaning of section 23 of the *Telecommunications Act 1997*); or
 - (ii) is provided only to places that, under section 36 of that Act, are all in the same area; and
 - (b) the service is not subject to a declaration under subsection (2) of this section.
- (2) The Communications Access Co-ordinator may declare that subsection 187A(1) applies in relation to a relevant service that a service provider operates.
- (3) In considering whether to make the declaration, the Communications Access Co-ordinator must have regard to:
 - (a) the interests of law enforcement and national security; and
 - (b) the objects of the *Telecommunications Act 1997*; and
 - (c) any other matter that the Communications Access Co-ordinator considers relevant.
- (4) The declaration must be in writing.
- (5) A declaration made under subsection (2) is not a legislative instrument.

187C Period for keeping information and documents

- (1) The period for which a service provider must keep, or cause to be kept, information or a document under section 187A is:
 - (a) if the information is about, or the document contains information about, a matter of a kind described in paragraph 187A(2)(a)—the period:
 - (i) starting when the information or document came into existence; and
 - (ii) ending 2 years after the closure of the account to which the information or document relates; or
 - (b) otherwise—the period:
 - (i) starting when the information or document came into existence; and
 - (ii) ending 2 years after it came into existence.
- (2) However, the regulations may prescribe that, in relation to a specified matter of a kind described in paragraph 187A(2)(a), the period under subsection (1) of this section is the period referred to in paragraph (1)(b) of this section.
- (3) This section does not prevent a service provider from keeping information or a document for a period that is longer than the period provided under this section.

Note: Division 3 provides for reductions in periods specified under this section

Division 2—Data retention implementation plans

187D Effect of data retention implementation plans

While there is in force a data retention implementation plan for a relevant service operated by a service provider:

- (a) the service provider must comply with the plan in relation to communications carried by means of that service; but
- (b) the service provider is not required to comply with subsection 187A(1) (or section 187C) in relation to those communications.

187E Applying for approval of data retention implementation plans

- (1) A service provider may apply to the Communications Access Co-ordinator for approval of a data retention implementation plan for one or more relevant services operated by the service provider.
- (2) The plan must specify, in relation to each such service:
 - (a) an explanation of the current practices for keeping information and documents that section 187A would require to be kept, if the plan were not in force; and
 - (b) details of the interim arrangements that the service provider proposes to be implemented, while the plan is in force, for keeping such information and documents (to the extent that the information and documents will not be kept in compliance with section 187A (and section 187C)); and
 - (c) the day by which the service provider will comply with section 187A (and section 187C) in relation to all such information and documents, except to the extent that any decisions under Division 3 apply.
- (3) The day specified under paragraph (2)(c) must not be later than the day on which the plan would, if approved, cease to be in force under section 187H in relation to the service.
- (4) The plan must also specify:
 - (a) any relevant services, operated by the service provider, that the plan does not cover; and
 - (b) the contact details of the officers or employees of the service provider in relation to the plan.

187F Approval of data retention implementation plans

- (1) If, under section 187E, a service provider applies for approval of a data retention implementation plan, the Communications Access Co-ordinator must:
 - (a) approve the plan and notify the service provider of the approval; or
 - (b) give the plan back to the service provider with a written request for the service provider to amend the plan to take account of specified matters.

- (2) Before making a decision under subsection (1), the Communications Access Co-ordinator must take into account:
 - (a) the desirability of achieving substantial compliance with section 187A (and section 187C) as soon as practicable; and
 - (b) the extent to which the plan would reduce the regulatory burden imposed on the service provider by this Part; and
 - (c) if, at the time the Co-ordinator receives the application, the service provider is contravening section 187A (or section 187C) in relation to one or more services covered by the application—the reasons for the contravention; and
 - (d) the interests of law enforcement and national security; and
 - (e) the objects of the *Telecommunications Act 1997*; and
 - (f) any other matter that the Co-ordinator considers relevant.
- (3) If the Communications Access Co-ordinator does not, within 60 days after the day the Co-ordinator receives the application:
 - (a) make a decision on the application, and
 - (b) communicate to the applicant the decision on the application; the Co-ordinator is taken, at the end of that period of 60 days, to have made the decision that the service provider applied for, and to have notified the service provider accordingly.
- (4) A decision that is taken under subsection (3) to have been made in relation to a service provider that applied for the decision has effect only until the Communications Access Co-ordinator makes, and communicates to the service provider, a decision on the application.

187G Consultation with agencies and the ACMA

No.

- (1) As soon as practicable after receiving an application under section 187E to approve a data retention implementation plan (the *original plan*), the Communications Access Co-ordinator must:
 - (a) give a copy of the plan to the enforcement agencies and security authorities that, in the opinion of the Co-ordinator, are likely to be interested in the plan; and
 - (b) invite each such enforcement agency or security authority to provide comments on the plan to the Co-ordinator.

The Co-ordinator may give a copy of the plan to the ACMA.

Request for amendment of original plan

- (2) If:
 - (a) the Communications Access Co-ordinator receives a comment from an enforcement agency or security authority requesting an amendment of the original plan; and
 - (b) the Co-ordinator considers the request to be a reasonable one; the Co-ordinator:
 - (c) must request that the service provider make the amendment within 30 days (the *response period*) after receiving the comment or summary; and
 - (d) may give the service provider a copy of the comment or a summary of the comment.

Response to request for amendment of original plan

- (3) The service provider must respond to a request for an amendment of the original plan either:
 - (a) by indicating its acceptance of the request, by amending the original plan appropriately and by giving the amended plan to the Communications Access Co-ordinator within the response period; or
 - (b) by indicating that it does not accept the request and providing its reasons for that non-acceptance.

The ACMA's role

- (4) If the service provider indicates that it does not accept a request for an amendment of the original plan, the Communications Access Co-ordinator must:
 - (a) refer the request and the service provider's response to the ACMA; and
 - (b) request the ACMA to determine whether any amendment of the original plan is required.
- (5) The ACMA must then:
 - (a) determine in writing that no amendment of the original plan is required in response to the request for the amendment; or
 - (b) if, in the opinion of the ACMA:
 - (i) the request for the amendment is a reasonable one; and

(ii) the service provider's response to the request for the amendment is not reasonable;

determine in writing that the original plan should be amended in a specified manner and give a copy of the determination to the service provider.

Co-ordinator to approve amended plan or to refuse approval

- (6) The Communications Access Co-ordinator must:
 - (a) if, on receipt of a determination under paragraph (5)(b), the service provider amends the original plan to take account of that determination and gives the amended plan to the Communications Access Co-ordinator—approve the plan as amended, and notify the service provider of the approval; or
 - (b) otherwise—refuse to approve the plan, and notify the service provider of the refusal.

ACMA determination not a legislative instrument

(7) A determination made under subsection (5) is not a legislative instrument.

187H When data retention implementation plans are in force

- (1) A data retention implementation plan for a relevant service operated by a service provider:
 - (a) comes into force when the Communications Access Co-ordinator notifies the service provider of the approval of the plan; and
 - (b) ceases to be in force in relation to that service:
 - (i) if the service provider was operating the service at the commencement of this Part—at the end of the implementation phase for this Part; or
 - (ii) if the service provider was not operating the service at the commencement of this Part—at the end of the period of 18 months starting on the day the service provider started to operate the service after that commencement.

(2) The *implementation phase* for this Part is the end of the period of 18 months starting on the commencement of this Part.

187J Amending data retention implementation plans

- (1) If a service provider's data retention implementation plan is in force, it may be amended only if:
 - (a) the service provider applies to the Communications Access Co-ordinator for approval of the amendment, and the Co-ordinator approves the amendment; or
 - (b) the Co-ordinator makes a request to the service provider for the amendment to be made, and the service provider agrees to the amendment.
- (2) Section 187F applies in relation to approval of the amendment under paragraph (1)(a) as if the application for approval of the amendment were an application under section 187E for approval of a data retention implementation plan.
- (3) An amendment of a data retention implementation plan:
 - (a) comes into force when:
 - (i) if paragraph (1)(a) applies—the Co-ordinator notifies the service provider of the approval of the amendment; or
 - (ii) if paragraph (1)(b) applies—the service provider notifies the Co-ordinator of the service provider's agreement to the amendment; but
 - (b) does not effect when the plan ceases to be in force under paragraph 187H(1)(b).

Division 3—Exemptions

12

187K The Communications Access Co-ordinator may grant exemptions or variations

Decision to exempt or vary

- (1) The Communications Access Co-ordinator may:

- (b) vary the obligations imposed on a specified service provider under this Part, either generally or in so far as they relate to a specified kind of relevant service; or
- (c) vary, in relation to a specified service provider, a period specified in section 187C, either generally or in relation to information or documents that relate to a specified kind of relevant service.

A variation must not impose obligations that would exceed the obligations to which a service provider would otherwise be subject under sections 187A and 187C.

- (2) The decision must be in writing.
- (3) The decision may be:
 - (a) unconditional; or
 - (b) subject to such conditions as are specified in the exemption.
- (4) A decision made under subsection (1) is not a legislative instrument.

Effect of applying for exemption or variation

- (5) If a service provider applies in writing to the Communications Access Co-ordinator for a particular decision under subsection (1) relating to the service provider:
 - (a) the Co-ordinator:
 - (i) must give a copy of the application to the enforcement agencies and security authorities that, in the opinion of the Co-ordinator, are likely to be interested in the application; and
 - (ii) may give a copy of the application to the ACMA; and
 - (b) if the Co-ordinator does not, within 60 days after the day the Co-ordinator receives the application:
 - (i) make a decision on the application, and
 - (ii) communicate to the applicant the decision on the application;

the Co-ordinator is taken, at the end of that period of 60 days, to have made the decision that the service provider applied for

(6) A decision that is taken under paragraph (5)(b) to have been made in relation to a service provider that applied for the decision has effect only until the Communications Access Co-ordinator makes, and communicates to the service provider, a decision on the application.

Matters to be taken into account

- (7) Before making a decision under subsection (1) in relation to a service provider, the Communications Access Co-ordinator must take into account:
 - (a) the interests of law enforcement and national security; and
 - (b) the objects of the Telecommunications Act 1997; and
 - (c) the service provider's history of compliance with this Part; and
 - (d) the service provider's costs, or anticipated costs, of complying with this Part; and
 - (e) any alternative data retention arrangements that the service provider has identified.
- (8) The Communications Access Co-ordinator may take into account any other matter he or she considers relevant.

Division 4—Miscellaneous

187L Confidentiality of applications
