PREFACE

This Code has been adopted by the Australian Transport Advisory Council as a basis for uniform legislation of the Commonwealth, States and Northern Territory relating to the survey, manning and operation of commercial vessels in Australia.

The Australian Transport Advisory Council which has absorbed all the functions of the former Marine and Ports Council of Australia, comprises Commonwealth, State and Northern Territory Ministers responsible for ports and marine affairs and other transport matters.

It should be noted that provisions of the Code do not have the force of law except to the extent that they are adopted in Commonwealth, State or Territory legislation. This is being done progressively as circumstances permit.

The Council acknowledges the work done by the Association of Australian Port and Marine Authorities in drawing up the initial requirements for the Code.
