This Gazette is published by the Office of Legislative Drafting (OLD) on behalf of the Commonwealth of Australia.

OLD has experience over more than half a century as the specialist professional drafter of Commonwealth subordinate legislation.

OLD strives to maintain and enhance its reputation as a centre of drafting excellence. We produce legislative and administrative instruments of the highest standard through the innovative use of plain English, current technology and rigorous quality assurance procedures.

OLD has a working relationship with the Commonwealth’s drafter of primary legislation, the Office of Parliamentary Counsel. OLD is a member of the Parliamentary Counsel’s Committee of Australia and participates in relevant international forums.

OLD’s responsibilities

• drafting
• advising about drafting; preparing and formally notifying instruments; interpreting instruments created under a statutory power
• publishing the Government Notices Gazette
• providing ready public access to the law through SCALEplus (scaleplus.law.gov.au) and the Legislative Instruments Database (frli.law.gov.au)
• ensuring that Commonwealth legislation and explanatory material is available in easily accessible form, as it is made, and in consolidated form, as it is amended

Value-added services

We arrange the gazettal and tabling in Parliament of instruments in the Statutory Rules series, and can arrange gazettal and tabling of other instruments.

We consolidate into a principal legislative instrument any amendments made to an instrument, making copies available in hard and electronic format. On request, we can do the same for other instruments.

We publish legislative instruments drafted by OLD (including amendments and consolidations) on the Internet on SCALEplus and on the Legislative Instruments Database. On request, we can arrange the publication of other instruments in those media, assisting you to meet the Government’s policy of providing ready public access to the law.

Other assistance

We can provide advice on:

• the basis and role of delegated legislation and other instruments made under a statutory power
• the requirements and procedures for notification, tabling and disallowance of instruments
• sound techniques for developing efficient drafting instructions (important for efficient achievement of your legislative program)

AUSTRALIAN COMMUNICATIONS AUTHORITY

Notice under section 191 of the Radiocommunications Act 1992

NOTIFICATION THAT THE AUSTRALIAN COMMUNICATIONS AUTHORITY IS CONSIDERING PROHIBITING A DEVICE

Notice is given that the Australian Communications Authority (the ACA) is considering declaring a device, known as a radionavigation-satellite service (RNSS) jammer, to be prohibited under section 190 of the Radiocommunications Act 1992 (the Act).

The ACA, before making such a declaration, is seeking public comment to assist in consideration of the matter.

Description of the device

A RNSS jamming device is described as a device that is
(a) designed to have an adverse effect on the reception by RNSS receivers of RNSS radiocommunications; and
(b) would be likely substantially to interfere with, disrupt or disturb the reception by RNSS receivers of RNSS radiocommunications.

RNSS includes the Global Positioning System (GPS) used in Australia. GPS was developed, and is operated, by the United States Department of Defense. There are also plans to introduce the European Union's GALILEO (another RNSS) system to Australia.

The ACA must ensure that the description is broad enough to accommodate the relevant devices, without unintentionally including legitimate radiocommunications devices. Public comment is therefore sought about whether the description is appropriate.

Why the ACA is considering prohibition of this device

In response to a request from the Australian Global Navigation Satellite System Coordination Committee (AGCC), the ACA is considering declaring jammers of radionavigation-satellite services prohibited devices.

While RNSS interference caused by jamming devices has not come to the attention of the ACA yet, the ACA considers that the relative ease with which a RNSS jammer could be built, and the significant potential for disruption to a wide range of services may warrant a prohibition.

The ACA understands that the purpose of the device is to deliberately disrupt licensed radiocommunications services. It seems there is no legitimate radiocommunications use for RNSS jamming devices.
Operators of the device may breach section 192 (interference likely to prejudice safe operation of vessels, aircraft or space objects), section 193 (interference in relation to certain radiocommunications), section 194 (interference likely to endanger safety or cause loss or damage) and section 197 (to recklessly interfere substantially with radiocommunications) of the Act. The ACA can take action to prosecute under these sections. A prohibition declaration would add to these provisions and would focus regulatory attention on the manufacturers and suppliers of RNSS jamming devices.

A prohibition declaration would also act as a warning to individuals who, or organisations which, may otherwise have bought and operated the devices unaware of the consequences of doing so.

A package which includes a copy of the draft prohibition declaration and a background paper may be obtained by contacting:

Comments

The ACA seeks comments from interested parties particularly in relation to examples of RNSS interference and the potential or actual effect of such interference. In particular, the ACA seeks comments about the use (including potentially legitimate use) of these devices, whether it is necessary to prohibit these devices, and the scope of the device's description.

This public consultation process will allow the ACA to assess the consequences of making (or not making) a declaration which prohibits RNSS jamming devices.

Interested persons are invited to make representations about the proposed prohibition by close of business on September 17 2003. Representations should be made in writing and addressed to:

The ABA is required to renew these licences unless it decides that an applicant is no longer a suitable licensee. A company is a suitable licensee if the ABA does not decide that sub-section 41(2) (for commercial) or 83(2) (for community) of the Act applies to the company.

The ABA may decide that either section 41(2) or 83(2) of the Act applies to a licensee if it is satisfied that allowing the licensee to provide or continue to provide either a commercial or a community broadcasting service under a licence would lead to a significant risk of:

(a) an offence against the Act or the regulations being committed; or
(b) a breach of the conditions of the licence occurring.

In deciding whether these sub-sections apply, the ABA is required by sections 41(3) (commercial) and 83(3) (community) of the Act, to take into account:

(a) the business record of the company; and
(b) the company's record in situations requiring trust and candour; and
(c) (commercial) the business record of each person who is, or would be, if a licence were allocated to the applicant, in a position to control the licence; or (community) the business record of the chief executive and each director and secretary of the applicant; and
(d) the record in situations requiring trust and candour of each such person; and

whether the company, or a person referred to in paragraph (c) or (d), has been convicted of an offence against this Act or the regulations.

The Act does not require the ABA to hold an investigation or a hearing into whether a licence should be renewed.

The ABA may also refuse to renew a community broadcasting licence if, having regard to matters in paragraphs 84(2)(a) to (f), it considers that it would not allocate such a licence if it were deciding whether to allocate the licence to the licensee (s91(2A)).

(a) be in writing; and

(b) include a description of the geographic area for which the provider is seeking the exemption; and

(c) specify the period of time for which the provider is seeking the exemption; and

(d) include details of the current number of CSG services supplied by the provider in the geographic area for which it is seeking the exemption; and

(e) include details of the number of CSG services estimated to be supplied by the provider in the geographic area for which it is seeking the exemption at the end of the period of time for which the provider is seeking the exemption; and

(f) include any additional matters as are determined in writing by the ACA.
(3) Performance standards must provide that a temporary exemption granted under this clause:

(c) the proposed exemption is likely to result in a net benefit to end-users in the geographic area for which the exemption is sought.

(6) Performance standards must provide that in determining whether a proposed exemption is likely to result in a net benefit to end-users for the purposes of paragraph (5)(c), the ACA must have regard to:

(a) the extent to which the exemption would lower the cost of entering or competing in the market for CSG services in the geographic area for which the exemption is sought; and

(b) the extent to which the exemption is likely to promote sustainable competition for CSG services nationally and in the geographic area for which the exemption is sought; and

(c) the extent to which the exemption is likely to result in service improvements for end-users including, but not limited to, lower prices, increased quality of service, and increased choice of service; and

(d) the number of CSG services affected, or likely to be affected, by the exemption; and

(e) the estimated proportion of the market for CSG services in the geographic area for which the exemption is sought that would be affected; and

(9) Performance standards must specify a process for notifying customers or prospective customers of a carriage service provider that the provider has been granted a temporary exemption under this clause and the implications of that exemption.

(10) Performance standards must provide that it is a condition of a carriage service provider’s temporary exemption under this clause that the provider must comply with the process mentioned in subclause (9).

[3] After subclause 17(10)

insert

(11) Performance standards must provide that an area for which an exemption is claimed under this clause must be affected by:

(a) circumstances beyond the control of the provider; or

DATED 21/7/2003

RICHARD ALSTON
Minister for Communications, Information Technology and the Arts
DECLARATION TO AMEND THE CHRYSOTILE EXPOSURE STANDARD IN THE ADOPTED NATIONAL EXPOSURE STANDARDS FOR ATMOSPHERIC CONTAMINANTS IN THE OCCUPATIONAL ENVIRONMENT [NOHSC: 1003(1995)]

TITLE

This amendment may be cited as an amendment to the Adopted National Exposure Standards for Atmospheric Contaminants in the Occupational Environment (Source D Update) 2003.

OBJECTIVE

The objective of this amendment is to update the National Exposure Standard maintained by the National Occupational Health and Safety Commission by replacing the existing standard for chrysotile asbestos.

In preparation for declaring the amendment to the chrysotile exposure standard from 1 f/mL (fibre per millilitre of air), public comment was sought, and supported by documentation from the NICNAS Priority Existing Chemical (PEC) report on chrysotile. After reviewing the public comment, in consultation with industry, unions and the jurisdictions, it was agreed to amend the exposure standard from 1 f/mL to 0.1 f/mL (TWAs: time weighted average, 8 hours).

NOHSC has, after considering public representations, declared an amendment to the chrysotile exposure standard in the Adopted National Exposure Standards for Atmospheric Contaminants in the Occupational Environment [NOHSC: 1003(1995)].

INVITATION TO COMMENT ON A RISK ASSESSMENT & RISK MANAGEMENT PLAN
FOR THE LIMITED AND CONTROLLED RELEASE OF
GENETICALLY MODIFIED HERBICIDE TOLERANT AND HERBICIDE
TOLERANT/INSECTICIDAL COTTONS

Australia’s Gene Technology Regulator (the Regulator) is responsible for administering the national regulatory system that seeks to protect the health and safety of people and the environment by identifying risks posed by, or as a result of, gene technology and managing those risks.

The Regulator has received an application from Monsanto Australia Limited for a licence to undertake limited and controlled release of genetically modified cottons into the environment:

→ DIR 035/2003 proposes the limited and controlled release of genetically modified, herbicide tolerant (Roundup Ready® MON 88913) and herbicide tolerant/insecticidal (Roundup Ready® MON 88913/Bollgard II®) cotton (Gossypium hirsutum) into the environment. Four trials (two in the southern summer growing season and two in the northern winter growing season) are proposed for up to 50 sites, covering a total of 954 hectares, over three years (2003 – 2005), in the existing cotton growing areas of New South Wales and Queensland, and in northern Queensland, northern Western Australia and the Northern Territory.

Following consultation with the expert groups and authorities prescribed in the Gene Technology Act 2000 (the Act), the Regulator has prepared a risk assessment and risk management plan in respect of the proposed activities for the licence application. The plan suggests that the release would not pose significant risks to human health and safety and the environment in the proposed release areas and identifies a range of licence conditions, including containment conditions, that might be imposed.

In accordance with the Act, the Regulator invites written submissions from the public and interested organisations on matters relating to the protection of human health and safety and the environment in order to finalise this plan. Please note that issues such as food labelling, insecticide and herbicide use and marketability and trade implications do NOT fall within the scope of the evaluations conducted under the Act as these are the responsibility of other agencies and authorities.

The full risk assessment and risk management plan, as well as summary information, can be obtained from the Office of the Gene Technology Regulator’s website or from the address below. Copies of the licence application and a summary are also available. Please quote application number DIR 035/2003.

Submissions should be forwarded to the Regulator by close of business on 19 September 2003.

NOTIFICATION OF THE MAKING OF

• THREE INSTRUMENTS ISSUING GUIDELINES
• ONE INSTRUMENT REVOKING GUIDELINES

On 6 August 2003, Charles Littrell, Executive General Manager of the Australian Prudential Regulation Authority (APRA), made three instruments which issued the following three guidelines under subsection 13(9) of the Medical Indemnity (Prudential Supervision and Product Standards) Act 2003 (the Act):

• Guidelines: Matters to be Included in a Funding Plan
• Guidelines: Certification of Funding Plans by Auditors and Actuaries
• Guidelines: Qualifications and Independence of Auditors and Actuaries

and also made the following instrument revoking guidelines under subsection 13(9) of the Act and subsection 33(3) of the Acts Interpretation Act 1901:

• Instrument Revoking Guidelines.

The three guidelines (the three new guidelines) are identical to the three guidelines of the same name that were issued on 29 May 2003 (the three original guidelines). The three original guidelines are revoked by the instrument revoking guidelines.

The reason for the revocation of the three original guidelines and their reissuance in the form of the three new guidelines is to correct an erroneous citation in the formal “making” instrument under which the three original guidelines were made. That instrument incorrectly cited the Act as the Medical Indemnity (Prudential Supervision and Professional Standards) Act 2003 (instead of the Medical Indemnity (Prudential Supervision and Product Standards) Act 2003).

Copies of the three instruments issuing the three new guidelines, the instrument revoking guidelines, and the explanatory statements accompanying them, can be obtained free of charge at:

Australian Prudential Regulation Authority
Level 26, 400 George Street
Sydney NSW 2000
Reference: Ms Margot Undercliffe.

The three new guidelines can also be viewed on APRA’s website (www.apra.gov.au).

This notice is given under sections 46A and 48 of the Acts Interpretation Act 1901 and subsection 5(3) of the Statutory Rules Publication Act 1903 (read with regulation 3 of the Rules Publication Regulations 1913).
